Volume 91, Number 11 ILLINOIS INSTITUTE OF TECHNOLOGY, CHICAGO, ILLINOIS 60616 November 12, 1971

ATS Forms Student Life Committee

In a series of unanimous votes, the ATS Assembly has revised the current by-laws to establish two new committees, the Student Life Committee (SL), and the Educational Affairs Committee (EA). The Assembly also created an ad hoc committee, the President's Advisory Commission Advisory Committee (PACAC, to study means of opening communication between students and the administration.

Petitions are available in the Dean of Students office for the offices of ATS Secretary, ATS Assistant Treasurer and Freshman, Junior, and Graduate Representatives. Elections will be held Nov. 30th and Dec. 1st.

The EA is empowered to analyze any aspects of academic life in the Institute, and to make recommendations of possible changes to the ATS Executive Council, Assembly, and appropriate faculty or administrative committees. The EA will also bear the responsibility of conducting a systematic course evaluation in order to make recommendations.

Nov. 12 — Last day for evening undergraduates to withdraw from courses with an assured grade of WP.
Nov. 24 — Last day for official withdrawal — all divisions.

The SL will focus on any area of student life at Tech brought to its attention, such as the quality of food service in the HUB and Commons, the quality of resident housing and apartments, parietals, and on-campus liquor. All rights, rules, regulations, and services of the Institute that affect the quality of student life will be reviewed. John Schuch informed the Assembly that the faculty is willing to work on this committee with the students.

Both committees will be composed of representatives from the different colleges of the Institute, for a maximum of ten voting members. Not more than 3 members may be student-appointed faculty or administrative advisors.

The PACAC will begin informal investigation into the failure of the President's Advisory Commission last spring. The purpose of the committee is to find a new channel of communication between the President of IIT, Dr. Rettaliata, and the student body.

In further actions revising the by-laws, the Assembly removed the direction of Union Board from its president, placing it in the hands of the Officer's Committee. The UB president will chair the policy-making group.

It is expected in the next few weeks that the proposed Communications Board will replace the older Publications Advisory Committee.

Administrators Meet With Bishop; Chapel Controversy Continues

"There have been many distortions and misrepresentations made with regard to the Chapel,"stated Mr. Melvin Tracht, IIT Vice-President, to **Technology News.**

On September 20 Tracht sent a letter to Reverend Houck, Head of the United Campus Ministry. The letter stated that it has been rumored that the Food Co-op wants to use the Chapel and that distribution or storage of food will not by approved or permitted.

In a letter to Houck dated October 11, Tracht warned that permission will not be given to use the Chapel for food distribution and its use for this purpose will not be allowed.

Tracht received a letter from the Food Co-op informing him that the Food Co-op received permission from Reverend Houck to use the Chapel if no other space was available.

The following day the Chapel was locked and a letter was sent to the Episcopal Bishop stating that to prevent the distribution of food in the Chapel, it will be locked until we have gained assurance that it will not be used for the above purpose.

Concerning the use of Institute facilities Tracht said, "We have a responsibility to look after the rights of all students. The Chapel is no different from any other Campus building in that respect. The Chapel was opened on Sunday, without request, for legitimate religious activities. The Chapel will be opened for all such activities, upon request."

Mr. Tracht was also questioned about attempts at further discussions between the Administration, the Episcopal Church and the Co-op about the use of the Chapel. He stated, "We are willing to resume talks only if we have assurance that there will be no more demonstration activity or disobeying of orders."

Reverend Houck, however, was not silent. He made reference to the contract that exists between IIT and the Episcopal Church. The document states, in part, as follows:

> The Bishop will have access and first priority to the use of the Chapel for himself and his deputies for the purpose of such campus ministry as the Diocese might desire at the Institute . . . The Chaplain will be an ordained Christian Minister appointed by the President with consultation from the local churches (Episcopal). The Chaplain will schedule Chapel activities.

Houck went on to say "To my knowledge the Dean of Students is not an ordained Christian Minister. I still consider myself the Institute Chaplain."

There will be an important staff meeting this Tuesday at 2 pm in the Technology News offices. All staffers are urfed to attend.

LETTERS — Also, Please Read the Box

To the Editor,

Last week's TN carried a letter critical of the Trike race. Its authors are correct in asserting that there are problems with the race, but I believe the problems are much more basic than was suggested.

Like the other authors I am concerned with the excessiveness of the race's rules. However, I believe the problem would be solved in a much more complete fashion by eliminating many rules, rather than reducing penalties. There seems to be a discrepancy in philosophy behind the race between the organizers and the rest of the people involved, both riders and spectators. The organizers seemed to want a silly race with lots of ridiculous rules, where the winner is determined by chance. The riders, particularly in the modified class, want a real race where the winner is the fastest team. I believe the spectators would prefer this type of race also. Our team would very much have liked to engage in genuine competition with the other trikes. We were prevented from doing so by the rule which prevents our modified trikes from passing the much slower regular trikes on fully one third of the course. This institutes a luck factor much larger than the difference in speed between our and the second place trike. This would be largely eliminated if regular division trikes were required to ride on the right or left side of the narrow-sidewalk stretches except when passing. The other rules preventing genuine competition on the part of the serious modified entries were those requiring three wheels remaining touching the ground at all lines and the seat of the driver touching the seat of the trike. In addition, requiring riders to run around the end of the HUB is both torturous and unfair to small teams, particularly because of the steps to be ascended and descended. There are many other rules which fall in the category of unwarranted, nuisance rules. These include prohibiting crew members from leaving the concrete pit areas, the prohibition of touching the ground while riding, and the crime of blasphemy, which was loudly proclaimed to be against the rules.

This brings us to the second basic problem: the organizers and their attitudes towards the contestants. It is difficult to imagine how the drivers' meeting could have been run in a fashion more obnoxious and insulting to the drivers. This is particularly embarrassing because of the possibility that the many students there from other schools were left with the impression that this is the way the Tech students really are.

The attitudes seems to be that organization and rigid rules were overriding goals to be achieved. This is reflected in the insistant segregation of the drivers from their crews and spectators. This problem could be solved by changing the location of the pit areas to the west side of the HUB sidewalk and/or permitting persons to cross the tracks when no trikes are approaching. It is my belief that the proper goals of the event should be to have a legitimate race and for the persons involved to have fun.

LETTER POLICY

Letters to the Editor should be typed, double spaced, sixty characters to a line. Names will be withheld on request. All letters, personals, announcements, submissions to Forum, or unsolicited material in general should be turned in Tuesday, by 8 pm, to be published in the issue the following Friday. Letters exceeding 1 page in length are subject to revisions in order to meet space requirements.

It may be countered by Union Board that the proof of the race has been its success. I would respond that the idea of the Trike Race was a good one and that it has been successful despite inept handling. For the race to continue we believe much improvement is necessary.

Dear Editor-in-Chief:

I am a third year architecture student and an event happened to me last Friday which might interest you and other students. While working late in Crown Hall my coat was stolen. I called the campus police. A lieutenant came and made his report, taking my name, address, and value of the coat. He asked me who I had seen upstairs in my area and I mentioned four people: an I.D. student, two classmates, and the janitor. He mentioned the possible involvement of my classmates or the I.D. student. I told him that I was sure that my classmates did not steal the coat, because I had seen them leave the building without it. We asked the I.D. student and he said that he had seen no one either. I suggested to the policeman that we ask the janitor, and he said to me, "Are you accusing him because he is black?" I told him that accuse and suspect are two different words.

We went downstairs to the janitor in front of whom the policeman said, "This student has accused you of stealing his coat because you have a black face." What could I say? I told the policeman to forget the matter because I realized that I would get no help from the campus police. As I started to walk away, the policeman said to me, "I think I'll check your pass; maybe I can kick you out of Crown Hall. I told him to come upstairs to see my pass. A half-hour later the policeman came up, checked my pass, and left.

I have gone to both my department head and Dean Bonthron and I think that the matter should be brought before the students of the Institute.

Paul Chiu

Women's Council Conceived?

The IIT Women's Council is a new organization whose purpose is to improve the status of women on the IIT campus. Membership is open to any woman associated with the IIT Center and Research Affiliates, specifically including students, faculty, and staff women. The Council proposes to undertake the following:

1. Discussion of problems of undergraduate and graduate women in their course work, classes, and extracurricular activities.
2. Presentation of films and lectures concerning the problems and opportunities available to women today, and projections of future life-styles.
3. Programs concerning the possibility of increasing the number of women faculty and administrative personnel, as well as increasing the number of women students on both the graduate and undergraduate level, in all disciplines.
4. Panel discussions of career opportunities for women graduates of IIT, in all disciplines, including a consideration of the problems women in different careers face, how they are able to advance their career, what their personal lives are like, and what advice they would give to young women considering their career.
5. Providing an opportunity for women students to compare and discuss different roles and life-styles of other women on campus.
6. Discussions of literature, including books and magazines by, for, and about women on such topics as the history of the status of women, statistics about women in different fields, a consideration of the sex-role stereotypes of women in America versus alternative life-styles in our own and other cultures, biological factors in sex differences, psychological theories of women, and various religious viewpoints about the status of women.
7. Programs to improve the relationship between men and women on the IIT campus, including planned research on the actual problems on IIT women in course work, family relationships, life-style, and social life.
8. Planned research to collect data on enrollment and attrition of IIT women and the reasons for both.

The Council is presently working on the formulation of a questionnaire to be distributed to all women on campus for the purpose of obtaining accurate information on the status of women at IIT. Any women interested in this or any other topic pertaining to women is invited to attend the next meeting which will be on Thurs., Nov. 18 from noon to 2 pm in room 303 of the HUB mezzanine and every other Thursday thereafter.

Letters

(Continued from page 2)

Dear Editor-in-Chief:

In the light of (or perhaps smoke of) the current controversy whether the campus chapel should be the scene of Christian ministry as well as liturgy, you may well be interested in the following historical precedents.

Not only were the early churches often communes which shared property and income, but their central liturgical celebration was a sacred meal which in many ways resembled a modern food co-op.

If one consults the Jesuit, Josef Jungmann's book, *The Early Liturgy* (1960), or even cursorily consults Paul's letter to the Corinthians, one discovers that the early eucharist was a pot-luck supper at whose offertory large amounts of food were often dedicated to God, for later distribution by the deacons to church members and to the needy in general.

The traditional Jewish blessings of the bread and wine, with its sacramental associations, functioned as separate graces before the eating and the drinking. (Drawings have recently been discovered in Roman catacombs which, in addition to the customary loaves and fishes, show roasted chickens, and even overturned wine bottles. *Deacon*, from the greek diakonos, means "table-servant.")

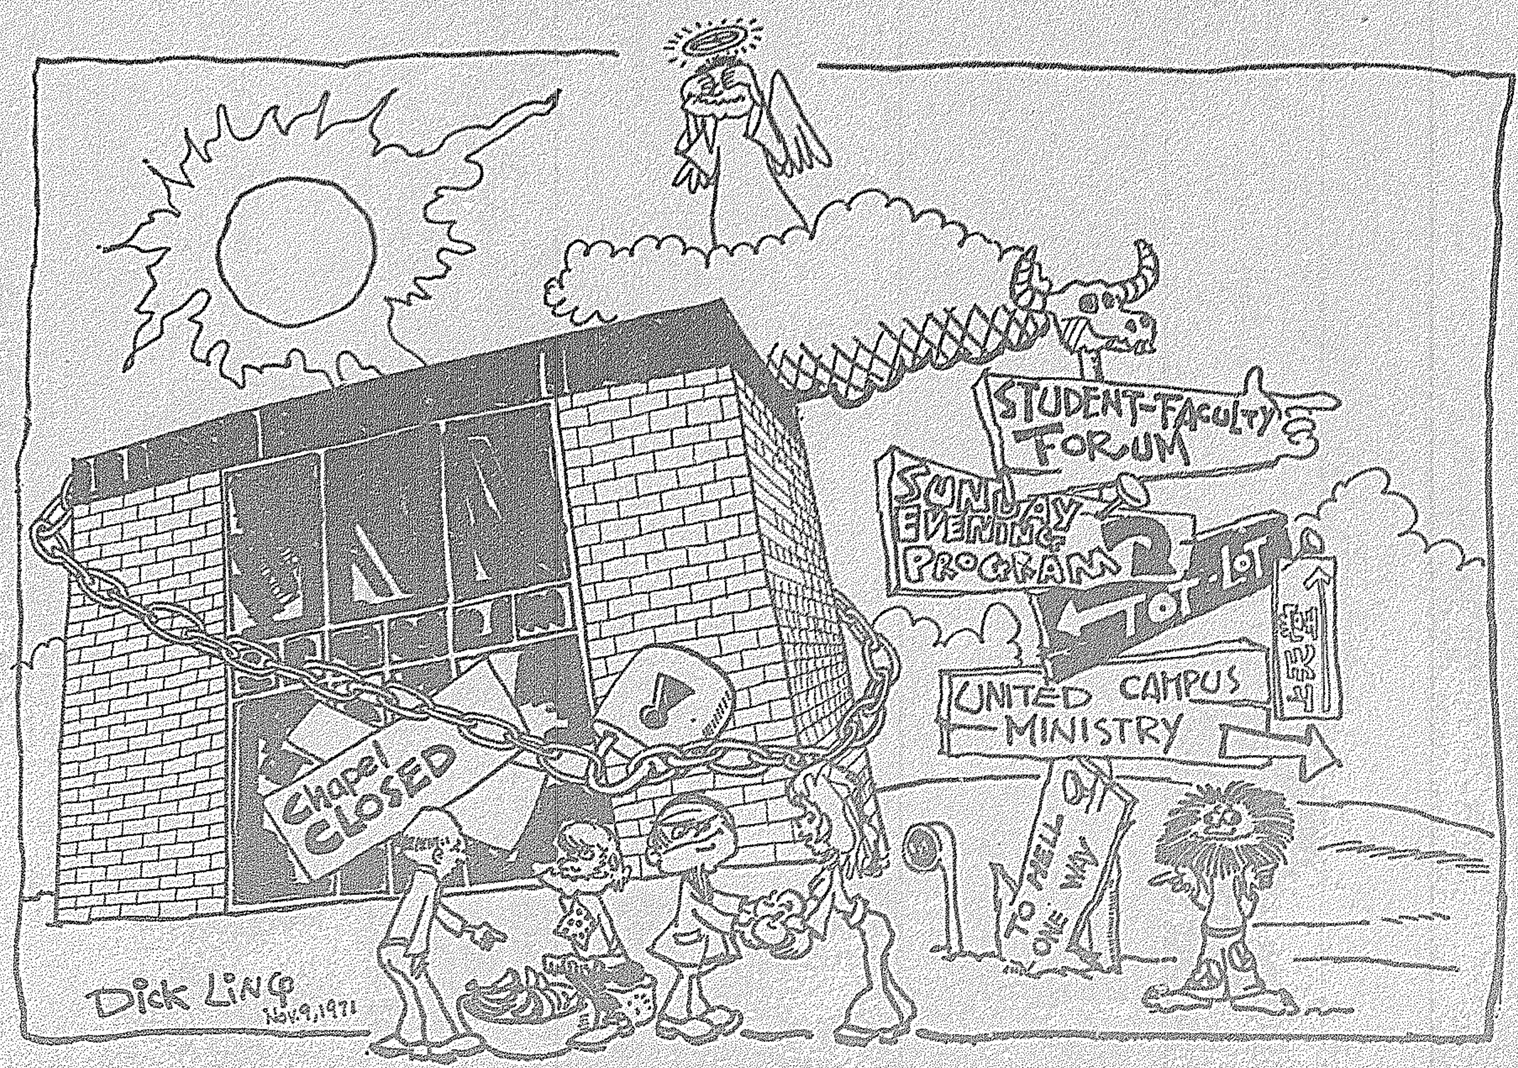
Perhaps to expedite efficiency, the later church has deliturgized many of its corporate acts of charity. It is an enormous pity that the resulting split between liturgy and ministry has led some people to conclude that the church should stick to prayer and fasting.

To paraphrase an apostolic letter of the first century A.D., even the devil has faith, and it scares the hell out of him. *But faith divorced from deeds is lifeless as a corpse. (James 3:26)*

Such thinking would quickly turn the God box into the modern equivalent of the whitewashed sepulchre—a steel and glass coffin, without even a body to hide.

J. G. Keogh,
Dept. of Humanities

TOO MANY LOCKS, NOT ENOUGH KEYS



Alternate Entertainment: The Quiet Knight

by Pat Williamson

Even if you've seen this week's UB flick, entertainment, which is at such a high premium around here, can still be found at a place called the Quiet Knight on 953 W. Belmont. You can take the State street rapid transit to Belmont and you'll be only steps away. Shows are at 9 and 11 pm on Wednesday thru Sunday with a special 12:30 am performance on Fridays and Saturdays. Prices aren't extravagant. With a student I.D. you can get in for only $1.00 on Wednesday or Thursday, all other times, $3.00.

The fare at the Knight is mostly folk and blues and the effect is near ecstasy for anyone who can appreciate that kind of music. Shawn Phillips and Don McLean were there last week and although I wouldn't use the same superlatives I read in the Knight's promotion blurb, they were still easily worth the risk of riding the CTA. Both depended on guitar and vocals but there was little similarity beyond that. My only reservation about Don McLean was that his performance might have been a little too down pat and polished, whereas Shawn Phillips was more natural and spontaneous (or stoned) and had much better rapport with the audience. This week's star will be Dave Van Ronk followed by Merry Clayton, Nov. 17-21, and Ian and Slyvia, Nov. 24-28.

If you're of age (and you will be carded) and want to drink, you'll be seated closer to the stage and there's a two drink minimum. But it's a very low key atmosphere. The waitresses make themselves discreet during the sets and no money changes hands until you're ready to leave. The only drawback here is that everyone wants to leave at the same time, so if you're the impatient type this part of your evening could be fatal. If you can survive this though, you'll probably be back.

Why talk... when there's so much to say.

Sensitivity at IIT

"Personal awareness can be gained through introspection or by learning from other persons' reactions to your behavior," states Howard Horvath, who will assist the United Campus Ministry in conducting a sensitivity weekend for students of IIT and their friends.

The weekend will last from Friday night, November 19, until Sunday afternoon, November 21, and will be held in the Lake Forest Friends Meeting House. Those interested in details or wanting to register for the sensitivity weekend should contact Horvath at the Chapel through campus mail or telephone Father John Houck at X1270. The weekend will cost $15, but some aid is available for those in need. Rides to Lake Forest will also be provided and will leave the Chapel at 6 pm that Friday night.

ANNOUNCEMENTS

Politico Radio

Hear the things you can't see in TN. Irrepressible little Davey Daruszka brings you music with a message. Tuesdays 3:30 to 6 pm on WIIT, 640 am and 88.9 fm.

Movie of the Week

"Far From the Madding Crowd" — A brilliant and memorable movie to be presented by Union Board 8 pm Saturday.

Another Tech First

A Science Fiction writing course, believed to be the first ever offered for credit during a regular school year, is being assembled for next semester. The catalogue number will be English 326 (a Humanities elective). The course will be conducted in seminar form, with students preparing final drafts of Science Fiction short stories for their term paper projects. Professional writers and editors in the SF field will appear as guest lecturers. Enrollment is by the instructor's consent. For information, contact Dr. Leon E. Stover, 174 Life Sciences, or in 111 LS at 5 pm, Tuesdays and Thursdays.

Pete Seeger in Concert

The Non-Violent Training and Action Center is sponsoring Pete Seeger in a concert to be held on Sunday, November 14, at 7 pm in St. James Cathedral on Huron and Wabash. Tickets for the concert are $5 and $3; a few tickets are left but call immediately, at 922-8234.

National Defense Loan

Students desiring to continue or cancel their National Defense Loans must come to the Bursar's office Nov. 15-18. Your signature will be required.

Jacki, Judi, and the Beatles in a Sound Orgy

Yes, those two WIIT lovelies are back with your fave Beatle tunes. Tune 'em in on Nov. 21 from 2 pm to 3:30, Radio Station WIIT, 640 am, 88.9 fm, good tunes in Chicago.

Why Let Them Screw You Without Warning?

Here's your chance to do something. Help the ATS Rules Committee compile the rules, regulations, and policies of the Institute. If they have them, we might as well know what they are. If you know of any, let us know. If you have time to help us, do so. We meet every Tuesday at 9 pm at the AEPi House. Typists (volunteers-we have no money) are particularly needed. For more info, contact Harry Heifetz at ext. 460.

Be Sensible. Be Sensitive.

Interested in a sensitivity weekend for IIT students and their friends? See the article on page 4 for information.

UNICEF

Calendars, Christmas cards and other gift items offered by the United Nations UNICEF fund are available on campus through either Inid Roth, 906 Cunningham Hall, or Usha Wasan, 907 Cunningham. Stop by during the afternoon or early evening, especially between 1-3 and 7:30-9, sometime within the next month and it will be much appreciated.

Beer Blast

The best Union Board Beer Blast in years is only one week from today, Friday, Nov. 19, at 8 pm. The event has stirred up so much enthusiasm at nearby girls' colleges that cars are desperately needed to transport these babes. If you can drive, contact Bob Wagner at 842-1751. Drivers will be admitted free, everyone else only $1.50. The place is still Logan Square, 2451 N. Kedzie, the beer is still Budweiser, and the music is still pulsating, hard driving, father-mucking rock, provided by the almighty ROSELAND.

College of Complexes

Nov. 13th Father Andrew Greeley, director of the Study of American Pluralism at the University of Chicago, will speak at the St. Regis Cafe, 1055 W.

(Continued on page 7)

Pregnant? Need Help?

We will help any woman regardless of race, religion, age or financial status. We do not moralize, but merely help women obtain qualified Doctors for abortions, if this is what they desire. Please do not delay, an early abortion is more simple and less costly, and can be performed on an out patient basis.

Newman	1	5	0
Kat Sass	0	6	0

NOTES: A faculty-staff light exercise program is being instituted at Keating Hall. It will start today, and continue to be held every Friday from 12:00 to 1:00 pm. Included in the program, to be headed by the Honorable Ben Reilly, will be jogging, volleyball, and recreational swimming. All of our esteemed faculty members are invited to keep their bods as fit as their brains . . . Also for the faculty and staff, Athletic Director Glancy anounced the formation of an adult swim instruction class. It will be a closed period, to be held Saturdays from 4:00 to 5:00 pm. Call the Keating Hall office for all the details . . .

Coach Tony Delgado is looking for another statistician and a freshman to be assistant manager for the basketball team. The master plan is to have one junior as the manager (this year-Tony Lenard) for the Varsity, and a freshman as his assistant and to manage the Junior Varsity. The junior would be paid for his work during his junior and senior years, with the freshman doing it for the love of ol' IIT. Once the freshman has served his two-year apprenticeship and has become a junior, he automatically moves into the top spot, along with the financial rewards. Got all this? Good. Then if you're interested in either post, see Coach Delgado at the Keating Hall office . . .

THE HOCKEY NEWS: The IIT Hockey Club got off to a great start last Saturday night when they bombed Northeastern Illinois 11-4 at the Polar Dome. Scoring for the Hawks were Bob Pasko, John Moore, Bob Schemansky, and Larry Klein, 2 goals each, and John Carter, Ed Paka, and captain Mike Glynn, one twine-denter apiece. Next game is tomorrow night, Nov. 13, vs. Loyola, at 4:30 pm at Niles Rink, Ballard and Cumberland in Niles . . .

Last Thursday, after the intramural touch football championship game, the Navy ROTC and Air Force ROTC football teams engaged in a fierce battle for the possession of the infamous Blue Jug. The final score was NROTC 26 — AFROTC 6.

Navy drew first blood. They scored on a pass from Rich Jaskot to Dan Brenwock. The Air Force evened up the score on a pass from Mike Ruda to Ken Thurman. Thurman juggled the TD pass before deciding to catch it.

In the second it was all Navy. One touchdown came on a pass after a triple reverse. Al Pendelton caught that pass as well as another TD pass. Brenwock caught another pass for a touchdown.

Varsity Pre-Vue Night at Arthur Keating Hall

by Harvey Schultz

Been to Arthur Keating Hall lately? Ever wondered whether you could get a sneak peek at the IIT winter sports teams? Well, campers, come alive. Next Friday, in his continuing drive to introduce everyone to AKH, Athletic Director Ed Glancy, his athletic department, and the active chapter of Honor-I is hosting a Varsity Pre-Vue Night. Mr. Glancy hopes to fill the Glass Palace with students and alumni, and, hopefully, keep it that way throughout the season.

In a release to the press, Mr. Glancy said, "We would like all you Hawks to . . . help us institute what we hope will be our annual Varsity Sports Pre-Vue. The program will be 1) Fluid (the varsity swimmers will stage 2 or 3 events); 2) Tenacious (Coach Barbaro's wrestlers will put on a couple of bouts); 3) Swift (Coach Tony Delgado will turn his basketballers loose for an exhibition half).

"All this will start at 7:45 pm — Ekco Pool for 20 minutes, then to the main gym for 20 minutes of wrestling, and winding up with 20 minutes of what we hope will be a good look-see at our '71-72 Basketball fortunes.

"The Athletic Department and the active chapter of Honor-I will host you in the Schommer Room for refreshments, etc., after the short program. Here's a chance for you all to see what's going with the present generation of Techawks and to renew old acquaintances!" It should be a great evening. That's Friday night, November 19, at 7:45 pm at AKH . . .

Coach Tony Delgado continues to drill his Techawk basketball team at Keating Hall, slowly molding the offense — one more disciplined than last year, but one which should get plenty of points by carefully attacking the defense.

The Hawks got in a lot of good conditioning the past 3 weeks. The main conditioning, that by way of drills, is finally over. The Hawks have been moving into the 5 on 5 drills, first playing half-court, then full-court. All this led to the Techawks' first scrimmage, vs. St. Xavier, last Tuesday. They will square off against North Centaral next Tuesday, Nov. 16, at 3:00 pm at Keating Hall.

As far as the team goes, the veterans, Greg Parker and Ken Wayte, have looked good. The guard situation has been given a real shot in the arm by the fine showing of Johnny Bartok. Bartok looks like a fine defensive backliner, which now should be a strong point of IIT's guards.

The other forward spot opposite Wayte is still wide open. Leroy Smith, Terry Majerski, Jim Talkie, and Greg Kuehl all have a good shot at the position. And, oh, how sweet it is for Coach Delgado and assistant coach Rich Swanson, to gaze on the Techawks and see D-E-P-T-H. If these youngsters pan out, the Hawks will be in great shape.

Of these players, the only one with experience is Smith. Leroy is a fine leaper, and has the most natural tools. Freshmen Majerski and Talkie were generally acknowledged to have first call at Varsity spots, and they've shown well. But Kuehl, also a freshman, has been the surprise of training camp. He and Bob Frantz have shown quite a lot, and have a good chance to make the varsity.

The coaching staff, with a young club, has some work to do in breaking the more inexperienced players of bad habits developed over the years. These are minor things that they could get away with in high school, but must be eliminated in order to survive in college ball. But when these things are corrected, their natural ability can come through. To show how much youth the Techawks do have, consider the makeup of the squad. Of the 18 men on the official roster, only 2 are seniors, 3 are juniors, and all the rest are sophomores and freshmen. Incidentally, Coach Delgado reports that the top 8 players on the squad will play only with the Varsity. The rest will be on Rich Swanson's Junior Varsity, with some of them suiting up to play with the big club. All in all, the jockeying for spots on the Varsity in the pre-season could be almost as interesting as the regular season . . . .

IM REPORT: It promised to be a tight, exciting game, but Knot Hole Gang blasted Mbari 32-0 to win the Intramural touchball championship. Knot Hole had the monopoly on the big play offensively, with all 5 TD's being set up or scored via the bomb. Knot Hole quarterback Ken Carlozzi got great protection from his blockers, giving him plenty of time to spot his fast and shifty receivers, who consistently were able to shake loose from the Mbari defensive backs. Mbari kept sending out only one receiver deep on offense, having to keep their other men short for blocking purposes, as Knot Hole's line kept the pressure on Mbari QB Greg Kenner.

Knot Hole scored 4 of the first 5 times it had the ball in the game, as Mbari was clearly not ready for the Carlozzi blitzkrieg. The barefoot, mustachioed righthander tossed scoring strikes to Ed Mihelich of 31 and 10 yards for the first 2 scores, then to Eric Coustry for 47 yards, and finally to Larry Smith, a 3 yarder, for the first half scoring. Mihelich nabbed a 70 yard bomb to close out the scoring with 4:31 left in the game. Knot Hole was able to click on only one extra point, to Charley Kelly. Maybe that was their only weakness, as a fan yelled after the game.

Knot Hole allowed Mbari only 2 sustained drives deep into Knot Hole territory, but Mbari was unable to score. Knot Hole intercepted 4 passes to their opponent's one steal. In all fairness to Mbari, they had the territorial edge in play in the entire second half, but Knot Hole still got six second half points to Mbari's none. Knot Hole is a collaboration of guys — some dormies, some fraternity jocks, some commuters. But they showed great teamwork, and clearly deserve the IM crown . . .

In other IM news, the novice handball tournament is now underway. This one is for beginners only, such as the participants in the Life Sports program. The latter, incidentally, though small, is proving to be a lot of fun and very productive for those in it. You may still join — all are wellcome. There will be another handball tournament later on in the school year, reports IM director Rich Swanson, that will be open, i.e., for all classes of competition . . . .

IM basketball will soon begin. Sign up in the Keating Hall office. You must hand in a team roster, captain's name and his phone number. Schedules will be posted November 23, and competition will get underway Nov. 30 (not the 31st, Richie) . . .
