World govt. case to be presented

The need for world government to secure and insure the peace will be presented at a World Federation assembly Wednesday at 7:30 p.m. in the MC auditorium. Dr. Charles C. Price, head of the chemistry department of Notre Dame university, and a strong proponent of world federation, will be the chief speaker.

Dr. Price received the 1946 American Chemical society award for work in pure chemistry. He is the author of two books and 75 chemical papers for the chemical journals and is one of the editors of the American Journal of Polymer Science. Dr. Price is a member of the American Chemical Society, Phi Beta Kappa, Sigma Xi, and numerous other professional and honorary societies and is listed in Who's Who in America.

George Kincyl, a representative of World Republic, Inc., will support Dr. Price in presenting the case for world federation as a prerequisite to permanent peace. Kincyl is a former naval officer and electronics student.

Two documentary films, "One World or None" and "Boundary Lines," will be shown at the assembly. Time will be reserved for a question and answer period.

Aimed at stimulating a regular program of school and cultural interests among resident students, the forum has been endorsed by Alpha Phi Omega, the service fraternity, and the Interfraternity council. It has also received the support of the dormitory students in Farr and Fowler halls. These groups are bearing all expenses of the assembly so as to make it admission-free to the students.

White collar girls plan roundup

By Henry Holmes

Podnuhs, the White Collar Girls is springin' a Western Roundup Thursday in the NSU "corral." The shindig will begin at 7:30 p.m., and don't forget to bring your best square dancin' boots. A prize will be awarded for the best cowpoke costume by judges Jim Armsey and Ted Lindgren.

Musical cow-punchers will provide the swingy square dance rhythms, and the White Collar cowgals will offer a little home cookin' entertainment. A professional caller will be on hand, along with instructors, to guide those having trouble catching on square dance style. Tickets can be obtained from any secretary.

"The Lady and the Beast" will be featured at the Junior class on May 13 in the Louis XVI room of the Hotel Sherman.

OUT SOON! WATCH FOR IT!

MYSTERIOUS LITTLE MAN POPS UP ALL OVER TOWN

Chicago, May 6

Detectives can't explain the mystery of a little man dressed in red, with lather all over his face, who has been popping up in local bathrooms while men are shaving. He hands the shaver a Pal Hollow Ground Razor Blade, and disappears. He does no harm; in fact, the men report that Pal is the best blade they've ever used. Yesterday he showed up in this office and left a note reading: "Pal Hollow Ground is the slickest, quickest blade going. They're in all good stores — you still get 4 for 10¢, 10 for 25¢, 21 for 49¢, 44 for 98¢ — Double or Single Edge." Strange case, isn't it?

Construction on new heat plant moves ahead

Progress seems to be the key word for describing development projects on the campus. The power plant, once literally a hole in the ground, is now in the steel erection stage. The retaining walls along the railroad have been completed and the coal hoppers are in the process of being poured. The support structure for the central boiler and the chimney is being prepared for erection.

The AAR building excavation has encountered trouble due to flash floods the past week. Construction men stated that many of the sewers near the site of the structure backed up and flooded the excavation, causing a three-day delay. In spite of setbacks, footings will be poured today. Several eight foot sumps have been dug to absorb the rain waters.

Finishing plaster is being applied to the rooms in the new ten-story apartment building, hardly a hole in the ground now. The elevator shafts contain their elevators and the halls have plumbing. The flag that is flying from the hoist in front of the building is due to an old construction ritual of raising the flag when the roofing or "topping" operation is going on.

tech timetable

Items appearing in Tech Timetable are those which have been scheduled with the Dean of Students' office.

MONDAY, MAY 9
BE club, 6 p.m., MC conf. room
TUESDAY, MAY 10
Public speaking class, 1 p.m., 102MC
