IPRO 320
SPRING 2008
Problems For CPS

- No medium for teachers to communicate outside of tightly defined channels
- No infrastructure set up to store best practices
- Little interaction between schools
A community/social networking site would allow teachers to interact with others in their profession using

- An online bulletin board system.
- A wiki focused on storing lesson plans and best practices.
This Semester: Prototype

- Fully Functional Site (100 Teachers Registered)
  - Forum
  - Front page
  - Wiki
- Article Base (50 Complete)
- Usability Testing (25 Teachers)
And Beyond…

- A functioning, full featured site
- Self-regulating user community
- Hundreds of user-generated articles
Team Organization

- Deliverables Team
- Survey/Focus Group Team
- Design/Development Team
Progress

- Teacher Survey

- Working Web Page
  http://www.teacherknowledgeshare.com
Obstacles

- Subgoals Not Defined Well
- Roles Not Clearly Defined
Future Challenges

- Finding Opportunities To Interview Teachers
- Getting Teachers To Use Web Community
