

SIMPSON TWIRLS NO HIT, NO RUN; UPSETS DE KALB

King's Hook-ball Holds
Teachers in Scoreless Awe
While Techs Reap 5

ROBIN STAGES DOUBLE PLAY

Ogden Field, May 10.—After a week of setbacks at the hands of Michigan State, St. Mary's, and Lake Forest, Armour's fighting Techs came back with some real baseball and handed De Kalb a shut-out defeat, 5-0. The real feature of the afternoon's performance was the stellar pitching of Simpson, who from the time he spiked the rubber till the end of the game, allowed not a hit. Besides furnishing his team with airtight hurling, he contributed two hits which were responsible for one of the runs which Armour collected. He had his hook ball working in masterful style, and with it he fed the visitors twelve strikeouts, allowing only four men to reach first by virtue of passes. A better estimate of his toil can be obtained by noticing that his team-mates could muster only four assists, which resulted in putouts at first. Another sparkling bit of baseball was uncorked by Robin, the dashing first baseman, when he speared a liner and tagged first for a double play, unassisted.

After Umpire Glick pronounced the field in fit condition to play, the game was on. Donnelly opened up by yielding to Simpson's slants and struck out. Martin paraded, and stole second. Huntzicker swung at three balls and was thrown out at first when Link dropped the third strike. Hennigan followed suit on three more balls.

Armour got going early on Reichle's hit in the first, but his efforts came to naught when he was caught off second after Gent's sacrifice. Robin flied out to deep center to end the inning.

Reichle Scores First Run

Simpson laid a siege on the teachers and struck out the next three men that faced him. Armour did not fare much better in the second, but got two men on base. King duplicated what he did in the second by fanning Bower, Donnelly, and Martin in order.

In the third, Link came through with a substantial single. Reichle tapped the first ball to Martin, who forced Link at second. Gent came through with a clout to right field but was thrown out by the right-fielder, Bower. This advanced Reichle to second who was now in a position

German Philosophers Ask Dr. Scherger To Fellowship

Dr. George L. Scherger, Professor of History and Political Science, has recently received the distinguished honor of being invited to a fellowship membership in the German Philosophical Society. Invitations to membership in this Society are very rarely received by Americans, and then only upon special occasions. Dr. Scherger's invitation came in recognition of his notable lectures at the Sinai Center and the German Club on Philosophy and history.

Dr. Scherger has been a pioneer in the field of popular philosophy, as well as in the history of civilization, and is in fact credited with being the originator of the term, "History of Civilization," first using it in connection with the lectures he has been giving at the Institute for more than a score of years.

Shut-Out Artist

W. KING SIMPSON

Armour Tech Host to Friends at Open House

The Annual Open House program was held Monday night, May 14, and was unusually well attended by the friends of the faculty and students. While no regular classes were conducted practically all of the shops and laboratories were in operation with students performing routine experiments in addition to special features which the various departments had provided for the occasion.

All of the chemical laboratories were working. In the Metallurgical Laboratory, Seniors compounded rubber, demonstrated the process of rubber vulcanization, the use of a metallurgical microscope, and the technical methods of testing metals. Junior Chemicals ran a test on boiler water, showing at the same time the methods of softening water for commercial use. Drinking water was also tested for pathogenic bacteria, and experiments performed to illustrate the process of purification of drinking water on a large scale. Professor Freud's Sophomore Chemical class made, among other things, picric acid, chloroform, and phenol, and extracted nicotine from tobacco and
(Continued on page 2, column 2)

Balloon Room of Congress Is Scene of Junior Prom

The annual Junior Prom, the climax of social affairs of the school year, will occur Friday night, May 18, in the Balloon Room of the Congress Hotel. The dance will begin sharply at nine o'clock, and is to continue until two, the music being furnished by Jack Johnstone and his orchestra. At twelve, supper will be served, at which time the guests are to be gathered in groups of six or eight at a table to enjoy the repast.

Money Lost on Bids

The price of bids is \$7.50. For every bid sold, the Junior Class treasury will contribute \$2.50, so that the actual cost per person will in reality be ten dollars. The Junior Class has consented to stand part of the expense because it is desirous of establishing a precedent in the matter of running dances of a high standard. This accounts for the fact that the affair will be a dinner-dance, a thing never before attempted at Armour for a Junior Prom.

The committee having charge of the dance has for its chairman, Walter C. Healy. The other members are W. H. Berry, E. W. Hindman, Mel Kernan, and R. L. Quinby.

The Staff of the ARMOUR TECH NEWS, on behalf of the school, extends its sincere sympathy to Charles Winkler, '30, whose father died last Friday.

CIRCUS DAY TO CLIMAX JUNIOR WEEK HILARITY

Rush and Pentathlon On
Program; Distribute Cycle

Circus Day is Saturday; that day will close the annual Junior Week with a dash of real college color. Bill Berry, the Junior Marshal, and his assistants, Brown, Gedelman, Manz, Peterson, and Williams, have arranged a program for the day that includes all the traditional as well as several new features. The Cycle will have a booth on the field, and the yearbook will be distributed from ten to twelve. Copies will be given to students who show an A. T. A. membership card. The ARMOUR TECH NEWS will have a similar stand for the benefit of the alumni, who may purchase copies for five cents. Also a refreshment stand will be on the field, handling everything from pink lemonade to cigars, gum, and peanuts, and managed by L. P. Brown and E. S. Geiger.

The reviewing stand, on the west side of the field, will be occupied by Dr. and Mrs. H. M. Raymond, Dean J. C. Penn, Dean C. I. Palmer, Mr. and Mrs. G. A. Allison, and Charles D. Lamb, Junior Class president.

Pentathlon at 9:30

The program will begin at nine-thirty with the pentathlon. In this event will be included the 100-yard dash, the shot put, the 120-yard high hurdles, the broad jump, and the half-mile. Anyone in the school, including letter-men, is eligible to compete. Three medals, a gold, a silver, and a bronze, will be awarded to the winners of the first, second, and third places respectively.

At ten o'clock a tennis match between Wheaton and Armour, on the Armour courts, will be the feature attraction. Captain Jennings, whose brilliant run of victories speaks for
(Continued on page 3, column 2)

SCHOOL CALENDAR

Wednesday, May 16:
3:30 P. M., Baseball, Armour at "Y" College.
8:15 P. M., Musical Clubs' Home Concert.
Thursday, May 17:
3:00 P. M., Quadrangular Track Meet.
Friday, May 18:
Classes excused for the day.
3:30 P. M., Baseball, Northwestern College at Armour.
9:00 P. M., Junior Prom at the Congress Hotel.
Saturday, May 19:
Circus Day.
"Cycle" distributed on Ogden Field.
9:30 A. M., Pentathlon.
10:00 A. M., Tennis, Wheaton College at Armour.
11:30 A. M., Interclass Relay.
12:30 P. M., Freshman-Sophomore Class Rush.
2:00 P. M., Award of Cups and Medals by Dr. Raymond.
2:15 P. M., Fraternity Stunts.
Monday, May 21:
Tennis, Armour at Michigan State.
Tuesday, May 22:
Tennis, Armour at Hillsdale.
Friday, May 25:
Baseball, Armour at Luther College (Iowa).

ASSEMBLY HALL SCENE TONIGHT OF HOME CONCERT BY MUSIC CLUBS

Band, Orchestra, Glee Club, Stresses and Strains Have
Each Put in Months of Preparation with View to
Making Annual Affair Week's Major Attraction

SILVER CUP TO WINNER OF FRATERNITY SING

The Annual Home Concert and Fraternity Sing, sponsored by the Armour Tech Musical Clubs, is being featured tonight as the center of attraction of Junior Week interest. Sharply at eight o'clock the Orchestra, under the direction of George V. Miniberger, will set in motion what promises to be an entertainment of unusual superiority. William MacDowell Horn, '28, president of the Musical Clubs, has made the contention that the concert will break all records and traditions in many ways. In the first place, it is to begin SHARPLY at eight o'clock, because of the fact that the program is quite long, and secondly, the choice of music and the preparation made for its rendering are both a considerable improvement over last year's concert.

Jennings Defeats Mo. Champ, Coggeshall

Captain George Jennings and his teammates chalked up another victory by defeating Detroit City College 4-1 on Friday, May 4. The feature of the afternoon was the match between Stellar of Armour and Brayt of Detroit. The first set went to Brayt 6-3 while "Zip" Stellar took the second 6-4. The third match was the one which had the spectators continually on their feet. Both players were taxed to their limit, and after forcing the game to deuce several times, Stellar won the match 11-9.

Jennings vs. Coggeshall

"Smoke" Jennings has been going like wildfire this season, as shown by his defeat on May 5 of Harriss Coggeshall of Grinnell who has a high amateur standing. The struggle between Jennings and Coggeshall was a battle between net and base-line tennis, and it furnished so much com-
(Continued on page 4, column 2)

More Seniors Announce Post-Graduate Positions

P. M. Rhode, '28, M. E., has been chosen by the Link-Belt Co. to make a study at their Chicago plant. After a period of one year he will be transferred to their Indianapolis conveyor plant, where he will specialize in conveyor work. R. W. Geitman, '28, M. E., is to be employed by the Caldwell Co. a subsidiary of the Link-Belt Co.

The Harnischfeger Sales Corporation of Milwaukee is to have the services of W. E. Thomas, '28, M. E., who was employed by them last summer. He is to work at the furthering of sales of their excavating machinery in the Chicago territory.

The Illinois Bell Telephone Company is again to take into their employ several Armour men. Among those who have been hired from this present graduating class are E. Baume, '28, E. E.; W. A. Neath, '28, E. E.; W. P. Scholz, '28, E. E.; E. L. Ter Maat, '28, E. E.; L. V. Efner, '28, M. E.; and L. E. Johnson, '28, M. E. O. H. Vokoun, '28, M. E.; A. W. Bach, '28, M. E.; B. Bernstein, '28, M. E.; and J. Bech 'y Argeles, '28, M. E., are to enter the employ of Swift & Co., where they will work on plans for increased production through the use of improved machinery and methods. A. B. Millard, '28, M. E., will be employed in the operating department of the same firm.

I. B. Lueth, '28, M. E., is to go to the Central Station Institute, operated by the Insull interests for the purpose of training college graduates along special lines of electrical research.

The Fraternity Sing, an institution permanently established at most Universities and Colleges, was inaugurated at the Home Concert of the Clubs last year and proved very popular. This year even greater interest is being shown in this part of the program largely because the Junior Class and the Musical Clubs are jointly offering a silver loving cup to the winner of this free-for-all. The judges of this contest have not been definitely decided upon as yet, although they will consist of Dr. Daniel Protheroe and two members of the faculty.

Following the opening by the Orchestra, the Glee Club, under Dr. Protheroe's able direction, will present their first offerings. Next the Stresses and Strains will make their contribution, and then the Fraternity Sing is scheduled. After the Fraternity Sing, the Glee Club will again appear, following which the Band, led by the versatile George Rezac, will conclude the evening's program.

The following is the program as it is to be given this evening:

PROGRAM

Orchestra

Geo. V. Miniberger, Conductor
Stradella Overture—Hotow.
Andante Cantabile—Tschaiikosky.
Atiantus Suite—Safranek.
Nocturne and Morning Hymn of Praise.

A Court Function.

I Love Thee.

Glee Club

Dr. Daniel Protheroe, Director
Reapers' Song—Bohemian Folk Song.

The Prayer Perfect—Stenson.

Duna—McGill.

Longing for Virginny—Protheroe.
(Continued on page 3, column 2)

D. T. Smith, '30, News Desk Editor, Submits To Knife

Just about the time last Monday morning that we were expecting our Desk Editor, David T. Smith, '30, to walk into the office with a sheaf of copy under his arm, we were informed by one of his brothers that the Doctor had just walked off with Dave Smith under his arm, and was on the way to the Michael Reese Hospital looking for a comfortable operating table so that he could separate Dave from his appendix. The operation occurred at one o'clock in the afternoon on Monday. He felt the first symptoms of the attack last Friday just after he had placed third in the mile run during the track meet with Wheaton.

Smith has done some notable work on the staff of the NEWS, as is witnessed by the fact that, though only a Sophomore, he has merited one of the Desk Editors' positions. His home is in Paducah, Kentucky.

Green Paint

About the time this was being written, there were beginning to appear on various objects about the school strange green numerals of unearthly grotesqueness and questionable artistry. By the time you read this, these colorful signs of spring will have blossomed forth into full array, and will probably be staring us in the face from every gate and slab of concrete in the immediate neighborhood.

Consider a few facts concerning these unsightly hieroglyphics. First, the mischief is commonly done by a minority group of rowdies without the authorization of the class to use the numerals. They proceed on their own hook, believing the while that they are acting in an exceedingly clever comedy, which must surely receive the plaudits and "bravo's" of their fellow-classmen.

Secondly, they are invariably painted at night. The small unrepresentative clique in each class which is responsible for these annual outbursts of lunacy has not the courage to appear in the daytime with their brushes and buckets of green. They prefer the protecting shadows of midnight.

Thirdly, a large portion of these defacements are done on property that is not our own, but which is for the most part publicly owned. Such hideous markings on the sidewalks surrounding the Institute buildings, when observed by passers-by, cannot but reflect unfavorably upon the reputation of our school.

And finally, there can be found not one logical reason for these silly carryings-on. They have no proper place in Junior Week. They accomplish no object; they are based on no principle; they have no tradition. Actions of this nature should be emphatically frowned upon.

Wanted—More Rooters!

The season for both Tennis and Baseball at Armour Tech is rapidly approaching a finish. Both teams have carried a busy schedule, taking on as many contestants as they could date. Both teams have been very successful, having won a large majority of their games. They would have appreciated, however, a little more noise from the sidelines. At the tennis courts, just a handful of spectators are usually present, most of them being themselves candidates for the team. Similarly at the ball games, the cheering from the sidelines sounds more like that at a sack race of a Ladies' Aid picnic than that at a college baseball game.

The same condition prevails in other sports. The basketball teams in the fall and winter seldom hear the rooters' shouts from beyond the off-side line. The winged-foot disciples of Mercury most always run a lonesome course. If the golfers or swimmers would see a rooter at one of their contests, they'd feel so flattered that they'd likely turn professional.

This is indeed a deplorable state of affairs. The athletic teams do much to advertise the Institute. They spend a lot of time in practice and devote a great deal of energy to their play, without any material reward to themselves.

We can't all play baseball. Not many of us can master Bill Tilden's game. But we've all got voices. And we've all got a school to root for. Why can't we hear more of it. "That a boy, Bosy! Get it! Throw second! Second!! Ah, he's out."

The Inquisitive Reporter

The question asked: Do you approve of the credit system of grading to be installed next semester at Armour?

M. P. Johnson, 28, Ch. E.: Yes. I do not believe that an "A" in General Literature should carry the same weight as an "A" in Calculus or Physics which require more work to obtain.

S. S. Pulaski, '29, E. E.: The credit system is based upon the actual worth of the student. An "A" received in a one-hour subject as a credit surely is not on the same basis as one received in a five-hour course. The system has been used in practically all of the Chicago High Schools and Junior Colleges and has proven very successful. On a whole, the credit system is the only fair basis of marking and I certainly approve of its adoption.

Ray Swanson, '30, F. P. E.: No, because Armour's low major grading must be compensated by better grades in the one hour and two hour subjects. This will enable us to compare our average grades with those of the other schools.

Richard Eddy, '31, F. P. E.: I think the proposed system would be better than the present one because more credit would be given for good work in the so-called difficult subjects.

A. M. Hoffberg, '32, Arch.: No. I believe the present system is adequate. If a student receives an "A" in an hour subject, he has done everything that the course calls for in the prescribed time. If he receives an "A" in a three or four hour subject, while he has done more work and the subject is more difficult, he is given more time, so in either case he has done his job well and both should be rated equally.

Armour Tech Host to Friends at Open House

(Continued from page 1)
caffeine from tea. The Quantitative class, under Professor Tibbals, conducted analyses of silicate rock, pyrolusite, stibnite, and iron ores, and performed an electrolytic determination of copper in an alloy. Both Chemicals and Non-Chemicals worked in the Inorganic Laboratory, the former doing qualitative and the latter quantitative work.

An exhibit of various types of fire prevention apparatus was displayed in Science Hall by the Department of Fire Protection Engineering. The process of testing building materials for fireproof qualities was demonstrated in some detail. There was also work performed to illustrate to the spectator some of the methods employed in rating a building for fire insurance.

Physics Dept. Gives Large Display

On the opposite side of the room many interesting experiments were performed under the direction of Professor Wilcox, head of the Physics Department. The use of the vacuum tube oscillograph was demonstrated for the first time at Armour Institute. Other experiments shown were the use of cathode ray discharge tubes. Measurements of electric waves being carried on wires and the electro-dynamic action of two circuits through which a current is flowing.

A number of spectacular experiments were performed in the Physics Laboratory. The magnetic properties of liquid air were demonstrated, a "sputtering" outfit designed to illustrate an afterglow property peculiar to activated nitrogen was shown, while other experiments included spectrum analyses, and the measurement of high temperatures by four or five methods such as the thermocouple, platinum resistance pyrometer, radiation pyrometer, and an optical pyrometer.

A class of Junior and Senior Elec-

Prof. Hendricks' Second Book Off Press Today

A second book of verse by Walter Hendricks, Professor of English, will be off the press of Robert Packard & Company today. The title is "Spires and Spears." Those who had the pleasure of reading his first book of poems, "Flames and Fireflies," will welcome this new work. Many favorable comments have been made upon Professor Hendricks' productions by prominent poets and critics.

David Morton, leading American poet, was very emphatic in his praise of Professor Hendricks' work, when he said, "His distinctive gift for the cryptic intensity of language turns his material to sharply surprising and always responsible verse."

E. Merrill Root, poet and critic, had this to say about his verse: "Walter Hendricks is not afraid to use his singing voice in a cerebral age; in his best poetry, which deals with the visible forms of earth, the changes of the sky and the changes of the seasons, and also with the findings of his own heart, he commands a singing brevity and a quiet magic. Here are poems with the charm and healing of brook and breeze. And one often discovers authentic loveliness akin and equal to that of W. H. Davies.

"—like sparks ascending, tiny, swift, and lovely in their unpredictable patterns," was the comment, made of George E. Whicher, Professor of English at Amherst, and a New York Literary Reviewer.

Of the opinions of the Chicago critics, the comment which appeared in the Chicago Evening Post Literary Review, recently is quite representative: "Addicted to the utmost simplicity in word and phrase, he is not unaware of the value of an occasional breezy epithet. And he generally weaves his unassuming monosyllables into very pleasing lyrics."

tricals was at work in the Electrical Laboratories performing a series of interesting and unusual experiments. Tests on the thermal action and effects of high frequency currents were made. The lighting of an electric lamp through the body using high frequency current was also performed. A radio-controlled car, a jumping coil or contracting helix, a photo-electric cell, a cost meter, a device which reads in cents per hour the cost of operating any electric appliance, and an electro-magnetic resonance device were demonstrated. Operating characteristics of motors and generators were also studied.

Movie Reels Shown

Through the courtesy of the Illinois Bell Telephone Company, a motion picture machine was set up in the Electrical Laboratory on the second floor and a series of fifteen minute reels shown. Some of the reels were entitled "Trans-Atlantic Telephone," "The History of the Telephone," and "Inside the Telephone Office." Humorous reels were also shown.

Most of the machines in the Experimental Laboratory were operated. Professor Huntly's department ran tensile and torsion tests on bars of steel and cast iron. Concrete and wood blocks were tested in a crushing machine. In Professor Peebles' department tests of viscosity and heat conductivity were made on lubrication oils. The flash and fire points were also determined. Several Junior Civils ran an efficiency test on a centrifugal blower.

A number of engines were on display in the Automotive Engineering Laboratory. Among these were eight airplane engines, varying from three to twelve cylinders, and with a range of from 50 to 500 horsepower.

Each of the four shops in Machinery Hall was in operation, and, as usual, the foundry provided the greatest attraction. A class of freshmen poured a number of molds and illustrated the processes of molding and core making. The core ovens also were on display.

"THE SLIPSTICK"

Cleave to "The Slipstick"; let the Slipstick fly where it may.

REVERIE

There's a haze round a crescent moon tonight,
Hung low in the western sky;
Silver shroud diffusing a mournful light,
And wind-tossed trees weirdly sigh.

The light of night, and of love, is dimmed;
Like you it is pale and cold.
There's a haze round a crescent moon night;
Ill omen of wise mariners and old. —H.P.E.

Read the constitution—you'll be surprised how many rights you have.

You Know Me, All!!!

The professor was delivering the final lecture of the term. He dwelt with emphasis upon the fact that each student should devote all the remaining time preparing for the final examinations.

"The examination papers are now in the hands of the printer. Are there any questions to be asked?" Silence prevailed.

Suddenly a voice from the rear inquired, "Who's the printer?"

If Colonel Lindbergh is really sincere about finding a small place cut off from the rest of the world he ought to try a telephone booth.

I want to buy a derby!
What size?
Don't make no difference, it's for a trombone.

Epitaph

I thought it mushroom when I found
It in the wood, forsaken;
But since I sleep beneath this mound,
I must have been mistaken.

LEANDER LEAPS THE HELLPOND!

He was in a terrible hurry. His watch had stopped, the lock on his grip had jammed, and all the thousand and one things which might happen—had happened. He was late. He had planned an excursion to the wilds of the lower Mississippi in company with other erudite souls hunting for the habitat of the tree-climbing fish. Breathlessly he raced to the dock, but alas, the boat had already cast off, and was separated from the dock by matter of mere feet. Staking all on one desperate lunge, he landed on the desk in a heap. "Gosh," he wheezed to a fellow passenger, "I just did make it, a few minutes more and I would have been left." "That's too bad, but you see this boat is coming in."

A Swat In Time, Saves Nine—Million!

"I just swatted five flies, two male, and three females."

"How can you tell?"

"I got two on the card table, and three on the mirror."

Our idea of
A fellow who
Has a drag
With the Co-eds
Is the one
Who kisses
Them and then
Pushes them away
And says, "No,
You can't have
Any more."

—H. M. Baggett,
Geo. Washington U., '29.

It's tough when you go into a dark room for three hours and all you get are negatives.

—H. Lowe, Rutgers, '31.

And Then,

Another good test of personality is to say you lost your job and then ask your girl to marry you anyway.

—H.P.E.

Social Fraternities Announce New Officers For Coming Semester

Elections of officers for the ensuing semester have been taking place in many of the Houses on the Boul Mich during the past few weeks. The officers of the Delta Tau Delta Fraternity were announced in a previous issue of the Armour Tech News. Following are some further election returns:

Beta Psi

Thore A. Johnson—President.
Homer Olhaver—Vice-President.
Alfred C. Gunther—Secretary.
Melvin Berg—Treasurer.
Carl Brusa—Sergeant-at-Arms.

Phi Kappa Sigma

Charles D. Lamb, president.
William H. Berry, vice-president.
Walter Scott, Jr., corresponding secretary.
Walter M. King, secretary.

Phi Pi Phi

Francis W. Sandels—President.
Carl H. Johnson—Vice-President.
Charles F. Gotans—Secretary.
John V. Newstrom—Treasurer.
Edward Cremer—Sergeant-at-Arms.

Sigma Kappa Delta

George D. Horras, Jr., president.
John W. Kramer, vice-president.
Boyden W. Hindman, sergeant-at-arms.
J. Henry Tschudy, treasurer.
Carl A. Blomquist, recording secretary.
Robert C. Linnell, corresponding secretary.

Theta Xi

Preston E. Heath—First Officer.
Fred D. Gedelman—Second Officer.
Myron G. Saunders—Third Officer.
William B. Green—Fourth Officer.
Richard A. Dolbeer—Fifth Officer.
William Schrader—Sixth Officer.

Triangle

Henry Christiansen, president.
Robert B. Johnston, vice-president.
Roland Spencer, treasurer.
Richard L. Quinby, recording secretary.
J. Garth Sitzler, corresponding secretary and chapter editor.

Techs Drop Games To Lake Forest, St. Mary's

Armour was again forced to dismount from its lofty heights in baseball when it was obliged to accept the lower ends of both scores in games with St. Mary's College and Lake Forest. The St. Mary's game was well played with the exception of one inning, the seventh, when the Techs committed two errors which resulted in the winning run of the 2-1 score. Outside of that one bad inning, the contest was one which will long be remembered at Orchard Lake. The fans were so impressed with Simpson's hurling and the fight of the team that they pronounced the game the best they had seen up there in the last five years.

Can't Break Jimx

The Lake Forest game was anything but that. Judging by what the Techs perpetrated it is safe to say that they were completely off their game. They not only failed dismally in their efforts to make connections with the offerings of Mayer, the Forrester's pitching ace, but booted and tossed the oval in a most mirthful manner, for a total of six errors. Half of these came in the wierd second inning when the hostiles sent five runs scurrying over the plate. Three more tallies went over in another young riot in the fourth to complete the 9-2 score, and thus extended Armour's losing streak to three games. We're looking for a better brand of ball in the remaining games.

Circus Day To Climax Junior Week Hilarity

(Continued from page 1)

itself, and Stellar, Lamb, Langan, Eddy, Winkler, and Scott, complete an aggregation that should have no trouble in disposing of their old rival, Wheaton College.

The inter-class relay, at 11:30, will begin the rivalries among the athletes of the four classes. Each class will have a four-man representation, with each man running 220 yards, making the total run a half-mile. To the winners will be awarded silver watch charms, shaped like track shoes.

Red or Green?

The inter-class rivalry will be climaxed by the annual squabble between the Freshmen and Sophomores, namely, the Class Rush. At twelve-thirty, the Freshmen will gather around the flag-pole in back of the Armour Flats, where, donned in their oldest clothes, and shirts dyed green, they will agree on the final strategies. The Sophs will assemble behind the boiler room, also in their oldest apparel, but wearing fiery-red shirts. The Armour Tech Band, followed first by the Sophomores and then the Freshmen, will lead a parade around Ogden Field, then will unhitch the Freshmen at the South end of the field and the Sophomores at the North end. Halfway between the opposing desperadoes will be lined forty sacks, all straw-filled with the exception of one, which is to be filled with sand. The capture of the latter will merit ten points against one for each of the others. The signal for the commencement of the hostilities will be the firing of a pistol by Dr. Raymond. Eight short minutes after the shot the holocaust will be at an end, and the pent-up energies of a year's accumulation will have been spent.

Award of Trophies

The cups and medals, at the present time on display in the trophy case in the main hall, will be awarded at two o'clock by Dr. Raymond. The traveling fraternity cup, of which the Phi Pi Phi has one leg, will again be awarded to the winner of the inter-fraternity track meet, which will take place on Friday. This cup is only permanently retained by a fraternity when it is won by that house for three consecutive years. The inter-fraternity relay cup, which is awarded on the same basis as the track cup, will also be presented at this time by Dr. Raymond. Other awards include the watch charms for the inter-class relay winners, and the three medals for the winners of the Pentathlon.

Immediately after the awards, seven fraternities, Phi Kappa Sigma, Delta Tau Delta, Theta Xi, Sigma Kappa Delta, Triangle, Beta Psi, and Phi Pi Phi, will each put on a stunt, the whole affair taking about two hours. Dr. Raymond and several other members of the faculty will act as judges. The fraternity putting on the best stunt will be allowed possession of a traveling skin for one year.

Musical Clubs Concert Tonight in Assembly Hall

George Rezac, Conductor
Billboard Caravan—Chenette.
Excerpt from Unfinished Symphony—Schubert.
Hunting Song—Bucalossi.

Honoraries Initiate Thirty-One Neophytes

The week of May 7 saw the initiation ceremonies of nearly all the honorary fraternities at Armour. The initiations of the departmental honoraries, and of Sphinx and Pi Nu Epsilon, all took place on Monday and Tuesday evenings, May 7 and 8, while that of Tau Beta Pi was reserved until Wednesday evening and Thursday afternoon. Thursday evening at 6:30 P. M. on the 13th floor of the I. W. A. C. building, the Joint Honorary Initiation Banquet was held. This affair, sponsored by the newly organized Honorary Fraternity Council, is a departure from the usual procedure of holding separate banquets for every initiation. Having proven a success both financially and socially, the council plans to follow the same procedure again next fall at the initiations then.

Dr. Stone is Speaker

The speaker at the banquet was the Rev. John Timothy Stone, well-known pastor of the Fourth Presbyterian Church of Chicago. In his talk, which all present reported to be very inspiring, he stressed the importance of such qualities as Sympathy, Honesty, and Decision in one's make-up, and also brought out the need for the pursuit of an avocation as well as a vocation if one is to round out a happy and contented life. The toast-master of the evening was Professor J. C. Peebles.

Following are the names of the initiates:

Tau Beta Pi (National Honorary Engineering): L. F. Bernhard, Henry Christiansen, John Hommes, W. M. Horn, F. H. Juergensen, H. R. Lutz, A. J. Stabovitz, F. C. Theede.

Eta Kappa Nu (Honorary Electrical): H. H. Dozois, N. S. Ewing, F. H. Juergensen, A. C. Meyer, V. A. Peterson.

Phi Lambda Upsilon (Honorary Chemical): G. C. Dufour.

Pi Tau Sigma (Honorary Mechanical): Professor E. S. Libby (honorary member), A. L. Barce, A. L. Scully, G. H. Smith.

Salamander (Honorary Fire Protection): H. E. Goranson, John Hommes.

Sphinx (Honorary Literary): L. F. Bernhard, W. H. Berry, L. P. Brown, H. H. Dozois, B. W. Hindman, John Hommes, R. E. Johnson, C. P. Ware.

Pi Nu Epsilon (Honorary Musical): L. F. Bernhard, Clarke L. Shabino, G. H. Smith.

A.C.S. Elects Professor Freud Chicago Chairman

At the last meeting of the Chicago Section of the American Chemical Society, Professor B. B. Freud of the Department of Organic Chemistry was elected Chairman for the year 1928-29. At the same meeting Mr. W. J. Bentley and Mr. D. J. Ullock, also of the Department of Chemistry, were elected members of the executive committee.

The local section of the American Chemical Society consists of over 1200 members in the Chicago metropolitan area and is one of the most active divisions of the organization.

FIELD RECORDS BROKEN AS TECH BEATS WHEATON

Don Paul Puts the Shot and Hurls Discus for New Mark

Armour's first outdoor track meet with Wheaton College was featured by the breaking of two school records, one being in the shot put with a distance of 44 ft. 3 1-2 in. (the old record, held by Plocar, '26, being 38 ft. 8 in.), and the other being the discus throw of 116 ft. 8 in. (the old record also held by Plocar at 113 ft. 9 1-2 in.). These new records were both made by Donald J. Paul, '30. Sturm, A.I.T., ran the 100-yard dash in 1-5 of a second of the school record, the latter being ten seconds flat. He also ran the 220-yard dash, coming in second. Tracy, '28, won the 220. In the 440-yard dash, Wood (Wheaton), was the first to cross the tape, his time being 55.3 seconds. Capt. Deiwert was an easy victor in the mile run with a time of 5:05.4, but was evidently tired out when the two mile came along, as he was passed up by Hess (Wheaton), in this event, Hess's time being 10:25.0. Tracy's and Deiwert's days at the Institute are numbered, as both plan on graduating, so that the team will have to get along without them next term.

"Nap" Kara flashed his usual style and won the 100-yard high hurdles, his time being 16 seconds flat. An injured hip prevented him from finishing in the 220-yard low hurdles, which he led for the first 180 yards.

First place in the running high jump was won by a Wheaton man, Aldrich, while the second and third places in this event were copped by Eichin, '28, and Skear, '28. Aldrich's height was 5 ft. 5 in.

Yount, '29, took two second places, one in the shot put and one in the discus throw. Timmermans was the only Freshman to place in the meet, taking third place in the half-mile.

Brown, '28, carried off the honors for pole-vaulting when he cleared the bar at 9 ft. 9 in.

A summary of the events:

100 yard dash—1. Sturm, A.; 2. Tracy, A.; 3. Kay, W. Time, 10 1-5 sec.

Shot-put—1. D. Paul, A.; 2. J. Yount, A.; 3. Peterson, W. Distance 44 ft. 3 1-2 in. (New record; old mark, 38 ft. 8 in.)

220 yard dash—1. M. Tracy, A.; 2. V. Sturm, A.; 3. Fitch, W. Time, 23.9 sec.

440 yard dash—1. Wood, W.; 2. Crawford, W.; 3. V. Sturm, A. Time, 55.3 sec.

Discus throw—1. D. Paul, A.; 2. J. Yount, A.; 3. W. Trognitz, A. Distance, 116 ft. 8 in.

One mile run—1. Capt. P. Deiwert, A.; 2. Caldwell, W.; 3. D. Smith, A. Time, 5:05.4 sec.

Running high jump—1. Aldrich, W.; 2. and 3. Skaer, A. and Eichin, A., tied for second place. Height, 5 ft. 5 in.

100 yard high hurdles—1. J. Kara, A.; 2. Conley, W.; 3. Beardsley, W. Time, 16:00 sec.

Running broad jump—1. Aldrich, W.; 2. H. Eichin, A.; 3. V. Sturm, A. Distance, 18 ft. 9 in.

Half mile run—1. Fitch, W.; 2. Corbin, W.; 3. R. Timmermans, A. Time, 2:12.4 sec.

Pole vault—1. R. Brown, A.; 2. Long, W.; 3. Aldrich, W. Height, 9 ft. 9 in.

220 yard low hurdles—1. Beardsley, W.; 2. J. Kara, A.; 3. Conley, W.

Two mile run—1. Hess, W.; 2. Capt. P. Deiwert, A.; 3. Caldwell, W. Time, 10:25 sec.

Final score: Armour 65, Wheaton 52.

Missouri's Woe

Jennings Defeats Mo. Champ, Coggeshall

(Continued from page 1)

petition that each game went to deuce or better before the deciding point. The match was won by the count of 6-4, 6-4. Time after time Jennings took the net and by accurate volleying and with a deadly overhead he forced Coggeshall into errors. George also had tremendous speed on his service which gained in momentum as the game wore on; a truly distinctive mark of tennis ability. Despite Jennings' exceptional performance, his teammates did not come through with the necessary support and the match was lost 4-2.

Apparently weakened by a strenuous week-end campaign and the loss of Ray Stellar who sprained his ankle in the Grinnell match, Armour lost a close match to Lake Forest 4-3 on the North-siders' courts.

Marquette gave the netmen their third defeat on Wednesday, May 9, in a closely contested match to the tune of 4-3. Eddy and Winkler, two new candidates for the team were given a chance to show their wares.

"Smoke" Jennings and his racket men broke the jinx that had been hovering over them for the last three games. With the return of "Zip" Stellar with a remodeled ankle, and a new doubles combination, the ball-busters drubbed the U. of Louisville to the royal score of 6-0, last Saturday on the Armour courts. With his usual performance, Jennings beat Hall 6-2, 6-3; and after a bad start, Stellar downed Spencer 1-6, 6-1, 6-1. R. Langan came through by defeating Du Prie 6-3, 8-6; and Lamb made short work of W. Langan 6-3, 6-4. In the new doubles combinations which proved effective, Jennings and Lamb overcame Hall and Spencer 5-7, 6-1, 6-4; and Stellar and R. Langan accounted for Du Prie and W. Langan 6-3, 6-2.

Simpson Twirls No Hit, No Run, Upsets De Kalb

(Continued from page 1)

to score. Robin obliged with a timely single that sent Reichle across the plate with the first marker. Augustine closed the stanza with a tap to Swanson who threw to second for a force-out.

Of the three men who faced King in the fourth, two struck out. The other victim hit an easy infield fly to

WALTER TROGNITZ TO PILOT TANKMEN FOR NEXT SEASON

Walter Trognitz, '30, was unanimously elected captain of the swimming team at a meeting held Wednesday, May 2. Trognitz has been a member of the swimming team ever since his enrollment in the Institute in September, 1926. Recently he went to Philadelphia where he swam in the 200 yard breast stroke event at the National Intercollegiate Swimming Championship meet. He was the only man from Armour who entered in the competition. R. N. Brown, star diver, is to graduate in June, which leaves a vacancy in the team that will be hard to fill. Brown won every event in which he was entered this year. L. Marhoefer is also graduating, but next season's team will have the substantial support of Dittmer, Stemple, Fillmer, Vander Velde, McInerney, and Strauch. The team is well fixed on dashes and free styles, but there are no back strokes and new material is needed. John Zolad, '30, has been appointed manager of the team.

Reichle. Armour repeated its hitting in the fourth, but with little success. Simpson and Menge died on base, when Link fanned for a third out.

A slight streak of wildness overtook King in the fifth after two outs when he punctured Swanson and issued a free ticket to Bower. He got working in good order on Donnelly after this session and retired him. Nothing of interest developed until the sixth.

King administered severe treatment to the hostiles in their half when he fanned Martin, Huntzicker and Hennigan in order. It was now that the heavy artillery got into action. Augie strolled to first on a pass. Rossetti let go one of his terrific smashes over the wall for two bases putting Augie on third. Jervis sent the first ball on the ground and Augie scored, Jervis reaching first. Simpson followed with his second hit, scoring Rossetti. Jervis and King advanced on an error and Link came through with another hit that sent Jervis galloping home. Huntzicker relieved Larson at the mound. Reichle pounded a grounder that allowed King to attempt scoring. He was nipped at the plate for the second out. Reichle then stole second, and Link ran home with the fourth tally when Donnelly threw to second in an attempt to nail Reichle. Gent put an end to the fracas by hoisting to Swanson.

De Kalb came back with a rather serious threat, due to the generosity of Simpson. Strombom drew a base on balls and advanced to second when Larson was punctured in the ribs. Concidine took hold of one of King's offerings for a smash down first which Robin snared one handed, doubling Larson off first on the play, unassisted. Swanson hoisted feebly to King to end the game, and Simpson and his team walked off the field with one of the best games ever played at Ogden Field.

Interfraternity Games Nearing Semi-Finals

Indoor baseball got under way among the fraternities when the Delta Tau Delta house team defeated the Kappa Delta Tau house team on Monday, May 7, and Sigma Kappa Delta succumbed to Phi Kappa Sigma. Indoor baseball, which was introduced last year and met with success, has taken the place of regular league ball in interfraternity competition. The Phi Pi Phi, who won, and the Sigma Alpha Mu, who were runners-up last year, both present a good claim for this season's title.

The interfraternity golf tournament was launched on its way with Kappa Delta Tau forfeiting to Delta Tau Delta, Phi Kappa Sigma winning by default from Sigma Kappa Delta, Triangles winning from Rho Delta Rho by forfeit, and Phi Pi Phi downing Beta Psi, 3-0. The leaders in the above matches will play this week, and the winner will play the survivor of the Phi Pi Phi-Beta Psi match.

An active interest has been displayed in the interfraternity tennis tournament this year, and so far all the matches are up to date. The four teams entered in the preliminary round have completed their matches, Delta Tau Delta returning victorious over Kappa Delta Tau, and Phi Kappa Sigma vanquishing Sigma Kappa Delta, and Beta Psi.

GOLFERS LOSE TO MARQUETTE FOR 1ST DEFEAT

Engineers Eager for Return Match on Friday, May 18

Marquette won a hard contested golf match from the Tech men last Friday by a score of 9-5. However, there is a chance for recovery at a return match which is arranged for Friday, May 18, at Milwaukee. An excellent score in the afternoon best ball match was made by Nowak of Marquette who did the course in 76. Pfeifer, A. I. T., pulled a surprise in the singles match when he holed out his 275 yard approach for an eagle two on the 17th hole. This hole is 390 yards.

Singles

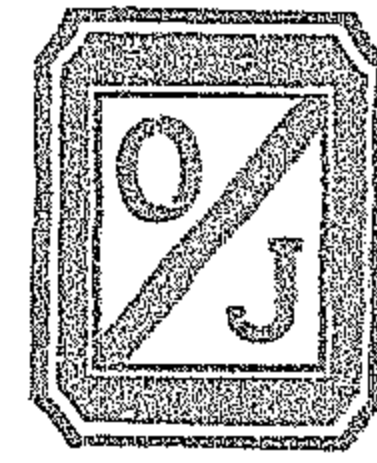

A.I.T.—M.—	A.I.T. . M.
Bates vs. Purcell	2 0
Christiansen vs. Jeurgensen..	0 2
Quinby vs. Nowak.....	2 1
Pfeifer vs. Carney.....	0 2

Best Ball

Bates, Christiansen vs.	
Furtell, Juergensen	1 1
Quinby, Pfeifer vs.	
Nowak, Carney	0 3

The golf team defeated Loyola 13-8 May 5th at Evergreen. The standing at noon found Loyola leading Armour 6-5, but the Tech golfmen outscored the north-siders in the afternoon and consequently emerged victorious by 5 points. In the morning round, Pfeifer, a freshman, starting on the golf team, shot a 37 on the last nine holes.

THE TIME
A FELLOW
-- just has to look
his best

Graduation is only a few weeks away and barely time, after all, to plan the graduation suit. It ought to hve style; just the right young man's cut; a flair of youth in its lines; pockets where a lad needs them and tailoring that is flattering to the neck and shoulders.

Of course—it wants to be a suit you can wear on many occasions—a pair of flannel trousers completes the wardrobe and satisfies the social occasion.

Then by all means come to the young man's store—Ogilvie & Jacobs.

Two Trouser Suits
