

JUNIORS DEFEAT SOPHS IN CLASS BASEBALL TILT

Paul's Homer Features Contest

The Juniors, with Simpson on the mound, won the interclass baseball tournament October 3 at Ogden Field by defeating the Sophomores, in which Paul scored the only run of the game by hitting a homer over the left-field fence in the third inning.

The encounter was a beautifully pitched struggle by two star hurlers, Simpson and Stehno. Simpson had the better of the duel, throwing the sphere past the Sophomores with such skill that fifteen of them fell a la strikeout route. Three others hit infield grounders, while Miran, the Soph. shortstop, got the only hit off King—a line double over the right-field fence in the first inning, after running the count to 3 and 2.

Stehno, although not as effective as Simpson, pitched great ball, by giving the Juniors only two hits—one a double by Simpson, the other Paul's homer, which he propelled over the left-field fence. This last blow proved to be the decisive one, as there were no other scoring threats from either side.

At the outset nobody would have given a whoop for the Sophs' chances, but as the game progressed they exhibited a staunch defense behind some fine hurling, only to lose out on Paul's circuit drive. Their weakness at bat was partly due to Simpson's strikeout ball, which had everybody baffled but Hensen, who went out twice, shortstop to first.

The only error of the game was committed by Hensen in the second inning on a hard-hit ground ball by Griffin, which bounded out of Hensen's glove, advancing Simpson, who had doubled, to third. In the fifth inning the Sophomores started out as if intent to tie the score, but a fine play by Weldon, the Junior catcher, nipped the Sophs' chances. In this frame Hensen placed a bunt down the first-base line, which Weldon fielded with great speed and with an accurate peg got his man at first base by an eyelash. The crowd showed its appreciation of the play by applauding the effort. The contest brought to a close one of the most popular baseball tournaments ever staged at Ogden Field.

THE LINE-UP

Juniors (1)	Sophomores (9)
Ransel, c.f.	Hauser, c.f.
Weldon, c.	Mago, 3b.
Aste, s.s.	Miran, s.s.
Reichle, 2b.	Robin, 1b.
Simpson, p.	Hensen, 2b.
Kribeck, 1b.	M. Lane, r.f.
Griffin, 3b.	Kutteruf, l.f.
Bechtold, r.f.	Link, c.
Paul, l.f.	Stehno, p.

SCORE BY INNINGS

Sophs	0	0	0	0	0	0	1	1
Juniors	0	0	1	0	*	1	2	0

Frosh Jumble Second Attempt At Election

(Continued from page 1) official, and decided that, keeping the same nominees, a printed ballot was to be drawn up, which was to be voted upon at another meeting at a later date.

To make a complete ballot, nominations for the position of social chairman were received, at which time J. M. Johnson, Chapman and Scanlan were put on the slate.

The meeting then adjourned of its own accord, no definite time being set for the final election, though it was the opinion of Dean Palmer that it would have to be held after classes were dismissed, on some day at 5 o'clock.

4th Round Of Fall Golf Tourney Ends

This week marks the end of the fourth round of the annual golf tournament, leaving four men and two rounds left to be played. The contests have, in the main, been played well before the closing dates, one match of the fourth round having been contested before Monday of this week, placing Briggs in the semi-final round by virtue of a win over Joe Bechtold, 6-5.

Probably one of the closest matches was that between George Jennings and Abel Gent. This match went to the extent of 27 holes before Jennings could subdue his opponent. Baldwin will hook up with Jennings in the next round, and this promises to be quite a battle. As yet, Baldwin has not engaged in any competition in this tournament, having moved up in the bracket by reason of default. In all there have been five defaults out of a total of thirty-two starters.

Monday of next week should see the championship decided.

Former Cycle Editor Bound For Australia

(Continued from page 1)

out two sets of bands, sixteen spark-plugs, ten tires, and our entire combined vocabularies. That (deleted) bus was running on hot air and prayers (?), but it came to an end finally. We sold it for \$7.50 and blew ourselves to a chow mein dinner in Chinatown.

Sheepskin vs. Seaman's Haircut

Well, as the story goes, the two collegians went out to get a job on a boat to the Orient. After four years college, we thought some company would see the advantage of having us in their employ. But strange to say, they all were ignorant (deleted) (deleted) and turned us down cold. Imagine! Well, we finally discarded the "Joe Collich" act, gave each other a seaman's haircut and entered the ranks of the unemployed. But you have to have discharges to get signed on, as work is very scarce, and we wandered all over the dock until finally we hit this one job. Didn't look like a chance of getting one together, so I took it. And so here I am, in the fo'castle of this tub bound for Australia, after loading lumber at Aberdeen and Seattle. God knows where Mac is. I left him in Frisco, and won't know what he's doing till I get some mail, if ever.

If any of you boids ever want to work real badly, get a job as wiper on some ocean going dory like this one. I'm a sea going janitor whose sole business is to do all the dirty work that the engineers and the firemen and oilers don't want to do. We have to climb into the boilers and rake out the muck, blow tubes, manure floors, plates, shine brass and wipe up grease, all in a temperature that bids fair to rival that of hell fire.

But after your eight hour day you eat like a horse and sleep like a log, if you can cling to your bunk. Half the time the ship is rolling on its beam ends and you're too busy dodging the flying article to sleep. But it's a lot of fun and I'm having a (deleted) good time and a lot of exercise. Anyway I'll be back before you buns get flunked out. Don't forget to manicure your nails.

"Kent Parker."

TECH RIFLE CLUB HAS MEETING WED. ELECTS OFFICERS

Last Wednesday, October 3, the Armour Tech Rifle Club held its annual meeting. Election of officers was held and the following were all unanimously elected:

President—S. Pulaski.
Vice-President—S. Janiszewski.
Secretary—C. Rambolt.
Treasurer—F. Farrell.
Sergeant-at-Arms—J. Jacobson.
Range Officer—L. Statkus.

Each member of the club elected to office was chosen on his merits. The ability of these men to function in their respective offices has been demonstrated by their interest in the club during the past year.

The dues of the club are very small and entitle the members to unlimited use of the club's equipment and rifle practice. Many freshmen were in attendance at the meeting.

The range is open to members during the following days:

Monday 1:00 to 5:00
Tuesday 10:30 to 12:30
Wednesday .. 1:00 to 5:00
Friday 1:00 to 5:00

A range officer has been assigned to each period and is responsible for the students on the range. His duty is not only to oversee the range, but to give instructions in the technique of rifle marksmanship.

The Rifle Team has lost several members by graduation and needs new material. Every member of the club is eligible for the team. High-point men will be selected to fire in competitions.

Marvels of Radio Progress Viewed at Coliseum Show

(Continued from page 3) used by some in a single stage of untuned radio frequency amplification.

In the "Theater of Wonders," in the south balcony, may be seen mysterious demonstrations of the latest scientific achievements. A piezo quartz crystal oscillator which is used to keep broadcasting stations exactly on their assigned frequency was included in the devices shown here.

Other exhibits include the smallest synchronous motor ever built; a new radio-photo device which can transmit a five-by-eight inch photo in about one minute; a photo-glow tube which by its sensitivity to light and shadow can perform and control numerous operations.

The first audion tube made by Dr. Lee De Forest is one of the features. This bit of glass and metal made modern broadcasting possible. In only fifteen years this tube has created a giant industry.

Television is here! This is proven by the exhibit of the Carter Radio Company. However, at the present time it is only for the experimenter. The pictures received are small, indistinct, and the apparatus is costly, delicate and crude. Much research and improvement is necessary before the general public will be able to tune in perfect pictures in addition to sound.

Armour Tech Students Usher At U. of Chicago

For the past few years Armour students have had the privilege of ushering the home football games of the University of Chicago, and this year, as before, tickets are available. This year our allotment of tickets is 150, and that means when 150 badges are distributed, 150 men should be on hand for usher duty. However, such was not the case at the South Carolina and Wyoming games. At the Carolina affair 28 men were missing, and 30 at the Wyoming game. That means that those men who failed to make their appearance at Stagg Field at the assigned hour have forfeited their badges. Continued abuse of the privilege extended to us by the U. of C. may mean a complete cancellation of our entire allotment.

According to recent announcement, gateman tickets will be available for the Navy-Notre Dame game to be played at Soldier Field October 13. Ushers of good standing at the U. of C. games will be given first choice. Such an attraction should be an inducement for all ushers to observe all rules as laid down by the officials in charge.

In this connection, please observe the following rules while on duty:

1. Be on time (12:15).
2. Wear suits—not sweaters.
3. Be courteous.
4. Give your best as an usher.

Tickets for next Saturday's games

TENNIS TOURNAMENT TO BE STARTED SOON AT ARMOUR

Matches To Be Played As Per Schedule

The tennis tournament, although a little late in getting under way, will be definitely started and played according to schedule. This tournament, like the golf and baseball tournaments, gives the coach a chance to get a line on new material for the varsity squad, and should bring out a bunch of good material. Positions are open on the varsity due to graduation of two of last year's squad. Thus the winners of this affair will be in line for consideration for next season's team.

Captain Stellar is in charge, and will handle the matching of all contestants. He announces that sixty-three men have entered and that the first round must be played by Sunday, October 14. Each match will be a singles game of three sets, best two out of three, and may be played anywhere suitable to the contestants. The semi-finals and finals, however, must be played on the Institute courts, and will probably be played not later than October 24 or 25.

will be distributed in the south end of the main lobby Friday morning at 9:30 o'clock. Additional Chicago badges will be distributed.

INTERCLASS BASEBALL NOTES

Real hot summer weather prevailed and a great number of students turned out to view the final game in the interclass baseball tournament. The Junior class was well represented, applauding everything done by their team. The Sophs likewise had a large crowd to cheer them on.

Paul's home run in the third inning was a line drive over Kutteruf's head. Kutteruf started back with the sound of the bat, but the fence stopped him.

Miran's double off Simpson in the first inning was a legitimate hit. With the count 3 and 2, Miran swung with big-league poise and drove a line drive over the fence into the gas engine lab.

Johnnie Yount umpired the game and did a good job of it.

Griffin surely raised a lot of chatter down at third base for the Juniors; reminded us of Gabby Hartnett on one of his good days.

One of Simpson's fast curve balls glided off Weldon's glove and jolted

one of his fingers, but after shaking the hand for awhile he continued catching. By the way, Weldon did a good job of catching Simpson.

After Paul's "homer" Stehno was heard to say that that was all the hits the Juniors would get, and he kept his word by pitching perfect baseball, after the damaging blow.

Coach Krafft sat in the stands and scouted for prospects for his next year's team. The way the fellows played looks like he will have to offer a lot of contracts.

Stehno and his mates tried to beat Simpson with strategy. King was putting so much stuff on the ball that Weldon continuously dropped the third strike, necessitating a throw to first; therefore the Sophs worked out a scheme that if the batter saw a third strike coming he was to drop his bat and make a dash for first.

Stehno evened up matters with Paul by striking him out in the fifth inning, after which the Sophs had their last bats without success, three men striking out to end the game.
