

# INTERCLASS MEET TO BE RUN FEB. 14 AT U. OF C. GYM

Sophomores, Juniors, Are  
Favored to Win  
Track Honors

The Annual Interclass Track Meet will be held Thursday, February 14, at 3:30 P. M. at the Bartlett Gymnasium, 57th and Ellis, through the courtesy of the University of Chicago. This is the second running of this meet, and before has drawn enthusiastic crowds. Letter men are eligible to compete in this meet.

The events to be competed in probably will be the shot put, the high jump, the pole vault, the high hurdles, the low hurdles, the 50 yard dash, the 440 yard dash, the half mile run, and the mile run. While no one class appears to be marked favorite, the odds seem to lie with the Junior and Sophomore classes.

The Seniors have two letter men, Jillson and Yount, as the nucleus around which to build their team. The Juniors will have Kara, Captain of Varsity Track, and an excellent hurdler; Paul, star shot putter and high jumper; Sturm, dash man and second high point man in spring track last year; Smith, distance man and Captain of last fall's Cross Country team. These letter men give the Junior class an optimistic outlook for the races. The Sophomores have Iverson and Timmermans, half milers, and Fox in the sprints as their letter men. The Freshman, always the unknown quantity have no letter men to rely on, but their ex-high school stars may step in and break up the dope. Hodgeson, a miler, made a sweater on the Cross Country team last fall. Several other Freshmen have put in afternoons practicing. The meet will be under the direction of Coach A. A. Stagg, Jr., and W. B. Greene, Track Manager.

## Free-Throws a 5-Pt. Bane in DeKalb Game

The already stained record card of our cagemen received another dark blot that added to its unsightliness when the DeKalb Normal College conquered over Armour by a 36-31 count Saturday night. This game, gave DeKalb its second victory over the Armourites this season.

Again the difference between victory and defeat was within the five point margin. Armour seemed to possess all the fight and skill that is required to transform an apparent defeat into a victory, but lacked the deciding punch—the punch that is needed to change that five point margin from negative to positive.

DeKalb, advantaged with its array of six-foot hoop bombardiers, was able to control the play to their own advantage. Our diminutive quintet of basketballers was helpless when it attempted to out-jump and outpass the giants.

DeKalb, however, did not assume the winning role throughout the whole game. In the first few minutes of play, Armour went into a 3-0 lead, and for the remainder of that quarter kept DeKalb not farther than one point away, either in the lead or behind.

At the half Armour trailed by two points. The game at the close of that period was nothing more than just a bitter struggle, furnishing no clew as to the probable winner. On the opening of the second half DeKalb ran up a 23-16 score, and maintained a good lead until the final 10 minutes of play. At this stage of the game Armour decided to resume the attack that they had launched in the first minute of play, and as a result, came within 2 points of tying their conquerors.

Armour's playing then began to turn disastrous. DeKalb was suddenly struck with a great deal of "Santa Claus luck" when the officials presented them with a number of free throws at the expense of the Armourites who could not understand how they could have committed the fouls that were imposed upon them.

This string of foul shots proved to be all that the DeKalb-men desired, for they increased their lead to five points and turned back Armour with a 36-31 defeat.

## '22 GRAD IS NEW HEAD OF SMOKE ABAT'M'T BUREAU

Frank A. Chambers, '22, graduate in Mechanical Engineering, has recently been made head of the Bureau of Smoke Abatement of the Chicago Health Department, being promoted to this office from the position of Chief Smoke Inspector for the city.

Chambers is an expert on all matters pertaining to efficient boiler operation, and has mastered the technical difficulties of smoke elimination in firing to complete satisfaction. For many years, even before finishing his studies at Armour Tech, he was connected with the smoke department, and is highly qualified to carry on the work.

The work of smoke elimination in the city is progressing very rapidly. An excellent ordinance has recently gone into effect, and strict enforcement of it will begin as soon as the department can organize civic committees to plan an educational campaign among the many organizations which are affected by the new ruling.

Professor G. F. Gebhardt, head of the Mechanical Engineering Department, is acting in an advisory capacity to Mr. Chambers.

According to the latest advices received from the editorial offices of the Engineer, the January issue will make its appearance today, Feb. 4. It will be distributed as usual in the Main Building.

"I'd rather have a  
Chesterfield!"

Snipe-hunting, as a sport, is rarely indulged in more than once in one life time. For wisdom comes to the eager freshman as he crouches under the chill night sky, holding till dawn a large and very empty bag.

And wisdom comes to the smoker, too, who "holds the bag" until common sense tells him to expect a lot more than mildness in his cigarettes.

Practically all cigarettes are mild—certainly Chesterfields are, but it's the upstanding character, flavor and satisfying taste that put it in a class alone.

Once you've put this "satisfy kind" to the proof you'll have but one reply to future invitations to snipe-hunts:

"Thanks, I'd rather have a Chesterfield!"

**CHESTERFIELD**  
MILD enough for anybody . . and yet . . THEY SATISFY
