

JUNIOR PROM HELD FRIDAY AS FINAL SOCIAL EVENT OF YEAR

Congress Hotel Ballroom Room Is Scene of Dinner Dance

One hundred and twenty-five couples danced and enjoyed themselves to the music of Charlie Straight's orchestra, brought from New York, at the Junior Prom held last Friday evening in the Ballroom Room of the Congress Hotel. The stately black velvet drapes and curtains, mirrors, and other decorations of this ballroom helped make this crowning social event of the school year a big success.

The favors were necklaces of chenille, enclosed in jewel cases which had "A. I. T. '30" upon them. Supper was served at twelve. The menu consisted of fruit cocktail, olives, celery, chicken patti, shoe-string potatoes, cake, ice cream, and demi-tasse.

The patrons and patronesses were Doctor and Mrs. Raymond, Professor and Mrs. Palmer, and Professor and Mrs. Moreton. The social committee was in charge of Bob Serson, Chairman.

Annual Home Concert Held Wed. Evening In Assembly Hall

Despite Stiff Competition Triangles Win "Sing"

The twenty-eighth Annual Home Concert presented by the Armour Tech Musical Clubs in Assembly Hall last Wednesday evening was enthusiastically received by the crowd of listeners despite a down-pour of rain. The Band, the Glee Club, the Orchestra, the "Stress and Strains," and the Inter-fraternity Sing, all went to creating three hours of musical enjoyment.

Triangle fraternity won the fraternity sing with their rendition of the "Triangle Love Song" and "The Triangle Toast" under the direction of Roland Spencer, '30. Excellent performances were given by each house participating, and the judges, consisting of Doctors Raymond and Protheroe, and Professors Palmer and Leigh, admitted that it was quite difficult to select the best. By taking first place in this competition, Triangle wrested possession of the traveling trophy, awarded annually, from the Phi Pi Phi fraternity, last year's winner. The cup is the gift of the Inter-fraternity council.

The Band gave four numbers, two marches and two overtures, under the leadership of Frank Aste, '30. They were applauded enthusiastically by the audience. The Glee Club, under the direction of Dr. Daniel Protheroe, appeared twice; the first time featuring a number, "Eldorado," written by Dr. Protheroe and dedicated to the Armour Glee Club. A vigorous response by the audience in hope of an encore was without avail.

The Orchestra, under the direction of Don Williams, '29, gave four numbers. One number especially, a descriptive fantasia, "In the Clock Store," was well received by the listeners. The "Stress and Strains" jazz organization of the musical clubs, presented four popular numbers, and consented to play encores of recent dance music under the direction of Ed Craig, '30.

All arrangements for the concert were in charge of George Smith, '29, President of the Musical Clubs.

Armour Alumni Meet

The monthly meeting of the Chicago Alumni Association will be held at the Palmer House, Tuesday evening, May 28, at 6:30 P. M.

Undefeated Tech Travels To Luther and Watertown for Game Series This Week End

SIMPSON AND STEHNO TO PITCH

With a record of 11 victories and no defeats, Armour Tech's baseball squad makes a two game invasion of foreign territory on Friday and Saturday of this week. Luther, the

ROBERT SERSON

Raymond; Faculty To Hold Senior Reception Today

Dr. Raymond, together with members of the faculty of the Institute, will give a reception in the library to members of the graduating class on the evening of May 21. A brief program will be given, following which there will be dancing in the gym.

A trio of musicians from the Chicago Symphony orchestra will provide the feature of the evening, rendering a number of musical selections.

The guests will be addressed by Mr. Julian B. Arnold, and President Raymond. Following this part of the program light refreshments will be served, and dancing will commence in the gym.

Prof. Paul Reports to Memphis Conv.

Professor C. E. Paul, Head of the department of Mechanics, was in Memphis, Tenn., on Tuesday of last week attending the thirty-third annual convention of the National Fire Protection Association. Professor Paul gave the report of the Committee on Building Construction, of which he is the chairman, and presented the latest work in the committee, "Specifications for Standard Industrial Buildings." This work will be incorporated into the National Building Code, at present under revision.

This committee is comprised of twenty-three men, leaders in consulting engineering, building construction, insurance underwriting and protective work, and in architecture. Their work as a committee is recognized as authoritative by city officials and inspection bureaus throughout the country.

The meeting, which was held at the Hotel Peabody in Memphis, lasted from May 13 to May 16, but Professor Paul was unable to attend except for the one day.

Go To Business Meeting

Dean Penn and Mr. Allison attended the convention of the Association of University and College Business Officers held at Champaign-Urbana last Wednesday, May 15.

strongest team on the schedule, takes on Kraft's proteges at Decorah. Northwestern College of Watertown plays host to the invaders on Saturday.

Both teams have been beaten by the victorious Tech team, but both are constant threats. Luther fell before Simpson's brilliant pitching by a count of 4-1 and Northwestern took the short end of a 7-6 dose, administered by Stehno.

Luther is considered the tougher of the two teams, so Kraft will probably start Simpson on the slab. At Ogden Field Simpson allowed the Lutherites but six hits and struck out fourteen. With Robin and Reichle hitting as frequently as they have lately, and with Simpson pitching in his usual form, the Tech sluggers should turn in another victory in Friday's game.

Stehno will be the choice for mound duty at Watertown Saturday. Stehno has turned in five wins so far this year, and Kraft looks to him to keep a perfect record. Northwestern hit Stehno hard in the 7-6 game at Chicago, but Armour managed to squeeze out a win. Even with the disadvantage of foreign soil, the invading squad should turn in at least one victory and probably two.

Glee Club on W. L. S. May 27

The Glee Club is broadcasting over WLS May 27 at 7:30 o'clock. The men have been practicing all year under the direction of Daniel Protheroe and are promising a good program, consisting of the following numbers:

"The Prayer Perfect" Stenson
"The Lost Chord" Sullivan
"Where'er You Walk" Handel
"They Didn't" Rogers
"The Song of the Marching Men" Protheroe

The last number has not been decided on yet but will be chosen from one of these three:

"The Mosquito" Protheroe
"Eldorado" Protheroe
"The Blind Plowman"

Cycle Distribution Set for Wednesday

Boyden W. Hindman, editor-in-chief, announces that the 1929 edition of the Cycle will be distributed on Wednesday, May 29. A booth will be set up in the main hall of the Institute where students will be given their copies of the Annual. Members of the Faculty may secure copies of the Cycle upon payment of three dollars on Wednesday. Distribution will start early in the morning and will continue until all the copies are given out.

Dean Penn Addresses Englewood High Boys

Dean Penn addressed the male students of Englewood High School on the subject of Engineering and an Engineering Education Tuesday, May 14.

Calendar

Tuesday, May 21

Senior Reception.
Tau Beta Pi Reunion and Banquet at City Club of Chicago.

Wednesday, May 22
Flask and Beaker Initiation.
Friday, May 24
Baseball—Armour vs. Luther at Decorah, Iowa.

Saturday, May 25
Baseball—Armour vs. Northwestern College at Watertown, Wis.

Shaving Party

A shaving party was held in Physics Lab last Wednesday in honor of N. Czernecki. About twenty sophomore mechanicals, a razor and a bar of soap were present at the removal of the accumulation from Czernecki's lip. After biting a piece of meat from one fellow's shoulder and wrenching the thumb of another captor, the victim quieted down and submitted to treatment.

2000 Visitors See Open House

Armour's 1929 Open House Night was held with a record attendance on Monday night, May 13, 2010 being counted as compared with 1651 for last year. Exhibits and demonstrations were located in all parts of the buildings and all reaped their share of onlookers.

The majority of the guests seemed to be families, some those of high school students, others those of Armour students. A great preponderance of people above school age was in evidence. The guests began to arrive before seven o'clock and did not leave until 10:45 P. M.

One of the most popular was the pouring of iron in the foundry. Another was the crashing of concrete in the basement of the main building. The chemistry and physics laboratories were also centers of interest.

A group of ninety high school students came by bus from Aurora under the supervision of Mr. Clarence I. Carlson, '19. Last year Mr. Carlson conducted forty students through the Institute.

H. W. Ohlhafer, '29, was in charge of the committee to arrange for the reception and ushering of guests. He was assisted by members from each class.

Amsbary Speaks at Four Graduations

Professor Walter Amsbary went to Elkhart, Indiana, last Thursday, May 16, to address the Rotary Club. This is the seventh time he has lectured in that city.

He is scheduled to deliver his Commencement address on the "Dreams of Power" to high school graduates of Gardiner at South Willington, Ill., on May 29th; at Hart, Michigan, on June 7th; and at the Oshkosh, Wis. High School, on June 13th. "Dreams of Power" was prepared especially for high school commencements. It is an inspirational interpretation of the lines that have contributed to the achievement of great things and great deeds by great men and dreams of all who have made their dreams come true.

Mr. Amsbary will also give a series of lectures at the East Lansing, Michigan Agricultural College during July, at the Teachers' Summer School.

Chicago Alumni of Tau Beta Pi Hold Reunion

The Chicago Alumni Association of Tau Beta Pi will hold their annual reunion and banquet at the City Club of Chicago, 315 Plymouth Court, this evening. Dinner will be served at 6:30. The toastmaster for the evening will be R. C. Mathews, secretary-treasurer of the fraternity. The principal talk will be made by A. D. Moore of New York City, national president of the fraternity. All arrangements are in charge of Warren McCaffery, '22, Chairman of the Executive Committee of the Chicago Association.

Cap and Gown Fees Due

Cap and gown fees are now due and payable according to word from the Dean's office. This should be paid immediately by those members of the Senior class who intend to graduate.

OUTNUMBERED SOPHS FALL BEFORE FIERCE ATTACK OF GREEN SHIRTS

Class Rush Held at Ogden Field Despite Cold Weather and Kidnapping

Hopelessly outnumbered by the freshmen, the sophomores fell hard before the heavy onslaught of their rivals last Saturday. The other events resulted in victories for the sophs in the Inter-class relay, Phi Pi Phi in the fraternity relay, and Phi Kappa Sigma in the Inter-fraternity Pageant.

Leaders Kidnapped
The rush climaxed a feud that has long been simmering between

FRESHMAN CIVILS LEAVE FOR CAMP FRIDAY, JUNE 7th

Trout Lake To Be Scene of Action for Six Weeks

Freshman Civils will be informed some time during the week of May 26 of the arrangements preparatory to Summer Surveying Camp. Credit in Freshman Mathematics is prerequisite. A definite date has not been set but will be announced later. At this meeting those intending to go this summer will be told what they should take, how to get to Trout Lake, and what is done and what takes place at camp.

On June 5th, the students will pay their tuition and will receive their instruments, for which they will be held responsible until the end of the Summer Session. Friday evening, June 7th, they will leave for camp and will arrive at Trout Lake the next morning. Field practice begins promptly Monday morning and ends six weeks later, July 19th.

The expenses include Tuition—\$40.00, Mess Fee—\$50.00, and Camp Fee—\$5.00. There will also be train fare, which amounts to about \$20.00 for the round trip, and personal expenses.

An idea of what the student may expect at camp may be had by glancing over last year's camp rules. Some of these instructions are as follows:

Each man should provide himself with at least three blankets and one quilt. Take more than the above if you wish, but not less. Provide changes for wet weather. Oil slickers or rain coats will be found useful.

Plan to get your entertainment out of the woods, not in town. Fishing tackle, camera, and books, including bird books, indoor and outdoor baseball equipment will help.

(Continued on page 3)

Armour Tech News Banquet Postponed

Due to conflict with other plans of several members of the staff, the Armour Tech News banquet has been postponed from Wednesday, May 22 to Wednesday, May 29. It will be held at the Brevoort Hotel as previously arranged at 6:30 P. M. Practically the entire staff is expected to attend.

Summer Applications

Applications for entrance in summer school should be made immediately according to advices from the Dean's office. This is so that the schedule of courses may be worked out. No class will be given in which there are not sufficient students.

the rival classes. Friday night, the sophomore leader, Frank James, was kidnapped, while the freshman leader, Maynard Venema, disappeared Saturday morning. James returned in time to lead his gang, but lacked support in numbers. Venema turned up at Ogden Field about half an hour after the decision was given. Many on both sides had lost their shirts previous to the battle, and some culprits confiscated the sacks that were to be fought for the following morning. These evidences of intense rivalry were evinced by only a limited number of the sophomores and when the gunshot started the event, they were outnumbered more than two to one. They put up a game fight, but were hopelessly outmatched by the horde of frosh that turned out.

Sturm Wins Pentathlon
The Pentathlon, the opening event of the day, was won by Vern Sturm, with Johnnie Yount placing second. As we go to press, the winner of third place has not been decided. Sturm took firsts in the 100-yard dash, the hurdles and the half-mile, giving him first place easily. Yount took a first in the shot-put, and G. Kloefer won the broad jump.

Sophs Take Relay
The sophomore class was somewhat consoled when its relay team ran away with this event, finishing in 1:07. The sophs who ran in this event were H. Fox, A. Jens, R. Kuteruf, and W. Miran. For coming in first, these men will receive silver charms in the form of track shoes.

The Phi Pi Phi fraternity copped the Inter-fraternity relay, recording the time 1:08. The Phi Pi's team consisted of W. Buck, E. Gross, J. Finnegan, and H. Leichtenberg.

Phi Kaps Annex Skin
Following the Sack Rush, the Inter-fraternity Pageant was held. Six fraternities, Beta Psi, Phi Kappa Sigma, Rho Delta Rho, Triangle, Delta Tau Delta, and Phi Pi Phi were entered, all striving to win the Circus Day Skin. This is a traveling trophy presented each year to the winner of this event, to become

(Continued on page 3)

Roesch Speaks to Auto Trades Men

Daniel Roesch, Associate Professor of Automotive Engineering at the Institute, delivered an address to the members of the Automotive Trades in Chicago at its May meeting which was held in room 1164, Congress Hotel, on Tuesday evening, May 14th, at 6:30 P. M.

Professor Roesch spoke on the subject "Trends in Gasoline and Oil. Specifications," afterwards answering, for many of his inquisitive listeners, questions upon the lecture topic and other topics with which he was familiar.

Mironowicz Wins Essay Contest

Mironowicz, '29, E. E., was the winner from Armour in the essay contest held by the Illinois Central Railroad system. For this he received a prize of \$25. The prize for the best essay submitted from the forty-three competing institutions, went, however, to a contestant from Sioux Falls, So. Dakota.

Vol. III MAY 21, 1929 No. 16

JUNIOR WEEK

It is gratifying to see the overwhelming success of the Junior Week just passed. The week proved a welcome respite from school work. After a vacation like this one, students return to their pre-final-exam struggle with renewed vigor.

More people attended the Open House than ever before, more people attended the Spring Concert than in the past few years, while Circus Day was a gala occasion for both guests and students. The Junior Prom was a social success. Large crowds were out to support the varsity teams. Excellent competition was offered in the Inter-fraternity and the Inter-class athletic competitions. The school spirit, so noticeably dormant at times, was well displayed by crowds of eager rooters and participants at the different games and meets.

The different committees are to be congratulated upon their work, as are also those that participated in the activities. They labored faithfully and tirelessly to make this week one to be remembered. The individual members deserve credit for their efforts, and for their cooperation with the leaders.

However one slight incident remains as a blot upon the otherwise smooth record of events. There was such a shortage of bids available for the Junior Prom held last Friday night that many upperclassmen who wished to attend were unable to do so.

This dance was a school affair, paid for by the Junior Class with the money supplied by class dues as well as by money taken in for the bids. Every member of the Junior Class had a right to go to that dance, irrespective of whether or not he was a personal friend of some member of the social committee.

It is to be regretted that the committee in charge made a blunder in estimating the size of the prospective patronage. Let us hope that adequate arrangements will be made next year for this dance, the crowning social event of the year.

ECONOMIC ADVANTAGES

The members of our graduating class may not realize it, but they are extremely fortunate young men. They are jumping into the webwork of society not near the bottom, but in the upper portion, where they have an excellent opportunity to rise exceptional heights. There is more or less vague talk about lack of opportunity for the young men of today, but the engineering college graduates certainly have no difficulty in placing themselves in lucrative positions.

Not counting the resulting benefits of improved education and character, it still appears that it would pay a man to graduate from an engineering school because of the economic advantage it gives him.

And yet we do not provide for the greatest good of life. We take care of our health; we lay up money; we make our roof tight and our clothing sufficient; but who provides wisely that he shall not be wanting in the best property of all—friends? —Emerson.

"I shall never be old enough to speak without embarrassment when I have nothing to talk about."
—Abraham Lincoln.

THE SLIPSTICK

Cleave to "The Slipstick"; let the Slipstick fly where it may.

THE SONG OF THE LAZY STUDENT

"Not going up to draw to-day?" they ask cause I walk the other way. "No," says I, "Why pencil wield, the ball flies 'round on Ogden field." That's just what I can't understand, instead of going hand in hand to shout and yell and boost the games, they sit and mope or warp their brains. I'm not the guy to leave things flat; I know exactly where I'm at. I'll not go into the extreme but I, for one, support my team. F. F. S.

The fellow who chose the third cup of coffee when making a blindfold cigarette test, isn't nearly as bad off as the one who forgot himself and reached for a sweet.

Humility

Both beautiful and dumb
My true love must be,
Beautiful, so I'll love her,
Dumb, so she'll love me.

SHOCKING

First Convict: "The Warden said I don't get out of here until I've learned a trade."

Second Convict: "I've got to be a conductor before I get out."

1st C.: "A conductor of what?"

2nd C.: "Of Electricity."

A. J.

Generally speaking, women are generally speaking.

FUNERAL NOTICE LATER

After showing a friend through the Institute, Monday night, he remarked that he should have taken engineering instead of law, because engineering looked so easy.

M. E. Prof. (after lecture): "Are there any questions?"

Freshman: "Yes, Sir. How do you calculate the horse-power in a donkey engine?"

M. P.

Then there's the one about the Scotchman that starved to death in a "Day as You Leave" bus.

MOVED AND SECONDED

"I move that we erect a monument to the inventor of the radio controlled car. It (the car, not the monument) will prove to be the death blow to the back seat driver."

Iowa Bill.

House Agent: "You say you have no children, victrola, loud speaker, nor a dog. You seem to be the quiet tenant that the owner insists on."

Prospective Tenant: "As he seems so particular I ought to tell you that my fountain pen squeaks a bit."

Swede.

WELL, WHAT ARE THEY FOR?

One smart lad informed the hydro class that canal locks are used to lock the canal up at night.

History Prof: "You, who just woke up, tell what you know about the Mongolian race."

Sleepy One: "I didn't go there on Saturday. I went to the ball game."

A. J.

Charlie thinks gals should have names that mean something. He advocates marrying a gal with the right name for your profession; here's his list of samples:

Mechanic	Lizzie
Real Estate	Lotty
Shoemaker	Peggy
Chemist	Anna-Liza

We have taken Charlie's advice to heart. Therefore, engineers, harken:

Civils, just 'cause you survey, don't let the girl look a sight.

Electricals, you want a ohm-loving one.

Chemists, pick a girl who knows her oil, and who's not base.

F. P. E.'s, get one that's not too hot.

And Mechs., don't let yours make a worm of you.

IF AT ALL

Dime novels are still published, but the trouble is they sell for two dollars.

Frosh: "I don't know what to do with my week end."
Soph: "Put your hat on it."

A stitch in time, saves embarrassment.

DON'T GET EXCITED

They slowly drew nearer together. The dull haze from the shimmering lights above enveloped them in its glow. Now the one in red drew closer and closer; the soft curves of her sides glistened and shone in the reflected light from above. The audience held its breath as she moved slowly onward, nearer, nearer, till at last they met with a dull subtle kiss.

"Nice goin', George," somebody yelled, "that's the way to play a three cushion billiard."

In conducting this column, we eagerly solicit aid from our readers, or, as a certain conductor would say, HELP! HELP! Send in your wise-cracks, humorous stories, and classroom jokes. Under the "new management," the conductor of this column will endeavor to keep the humor of "Slip Stick" up to the same high standard of the past, and will guarantee a good laugh once a week.

K. Knittel.

Professor Robert Vallette Perry

(A Biographical Sketch)

BY STEPHEN JANISZEWSKI, '30

Robert Vallette Perry, Professor of Machine Design, and Director of Evening Classes, was born in Hartford, Conn., May 8, 1873. Prof. Perry's elementary and high school education was often interrupted since his father, being in the railroad business, had frequently to move. He finished the equivalent of a high school course in the private schools of the South.

In 1893, Prof. Perry entered Armour Institute after having worked three years as a draftsman following the completion of his high school training. He was enrolled in the Mechanical Department, from which he graduated four years later, with the class of 1897, which had the distinction of being the first class to graduate from the Institute. Prof. Perry worked for his tuition through school and was employed during the summers as a draftsman.

Following his graduation, he spent one year as a machinist in Denver. In 1898, he worked as a draftsman for a contract car shop at Anniston, Alabama. The year 1899 found him in the Chicago offices of the C. B. & Q. Railroad, working as a draftsman.

Prof. Perry came to Armour as an instructor in drawing, in September, 1901. When the night school course was organized at Armour he was one of the instructors. Later he was made Assistant Director of Evening Classes. At the same time, Prof. Perry carried his day teaching and was successively promoted through the ranks of Assistant Professor in 1902, Associate Professor in 1904, and in 1926, he was made Professor of Machine Design. In 1922, he was also promoted to Director of Evening Classes.

Prof. Perry was married in 1900, to Mabelle Coon. They have no children. His particular hobbies are canoeing and fishing. He has made several extensive trips through the wilds of Canada with Mrs. Perry, who is as much an outdoor enthusiast as Prof. Perry is himself. He has spent his summers in this way for the last twenty years, practically every year that he has been at the Institute.

The B. S. and M. E. degrees were conferred on Prof. Perry. He is a member of the Theta Xi fraternity, and Tau Beta Pi and Pi Tau Sigma, honorary fraternities. He belongs also to the University Club, the American Society of Mechanical Engineers, and the Society for the Promotion of Engineering Education.

In reminiscing on his college days, Prof. Perry marvels at the quantity of work that a student attending Armour now has to put out as compared with that required when he attended in 1893. Many of the courses then were very elementary and the amount of work was not so heavy. He stated that great improvements have been made in the courses presented, and the improvement in the curriculum is very marked.

New Bulletins Ready

The May 1929 General Information number of the Bulletin has been received this week. There are 5,500 copies waiting for distribution in the dean's office.

Upon recommendation of the Student Council of Yale University, high ranking juniors and seniors have been given unlimited cut privileges.

LETTER-BOX

(Ed. Note:—Contributors to the Letter-Box should limit themselves to 300 words, and should send in their full name with article. Name will be kept confidential if so desired.)

To the Letter Box:

For the past three years, the surface of Federal street from 33rd to 34th has resembled a series of shell holes. From the looks of the caverns and crevices in the No-Man's land in front of the school, the last repairs were made when the Main building was erected.

The garages along "automobile row" have men drive their greasing

jobs over this stretch because the severe bumps will work the lubricant into the spring shackles, but what about the rest of the traffic? Any speed faster than six or seven miles an hour often results in a broken springs, and tires blown out.

If any street in the city needs repairs, this one does. Cannot something be done to get the city officials to put the street in condition?
M. G. S.

Two active members comprise the new law sorority, Kappa Beta Pi, which was organized by the Woman's Law Students at Iowa State recently. Rather exclusive, eh?

Winning the Public

Secrecy no longer marks railway administration. The railroads have nothing to conceal. Their records are public property. They aim to win public good will first by producing adequate transportation service as efficiently and yet as cheaply as they can and then by letting the public become fully acquainted with both their accomplishments and their problems.

Among the purposes of the railroads in thus seeking public good will are these:

To obtain recognition of the fact that good service cannot be performed by impoverished railroads;

To take the mystery out of railroading, thereby removing the inevitable results of suspicion, distrust and misunderstanding;

To give the public facts upon which to base an intelligent attitude toward matters of current interest affecting the railroads;

To work toward co-operation instead of hostility in the settlement of questions involving relations with patrons and governmental agencies;

To arouse an appreciation of the railroads and of sound economic policies that will lessen unjust demands upon them;

To create improved morale among railway employees and thus make for the increased efficiency, economy and courtesy of railway service;

To meet the competition of other railroads and of other means of transportation.

The response of the public to railway efforts in this direction has been such as to convince railway men that their effort has more than justified itself. The railroads have nothing to sell but transportation, and the good will of the public is of great benefit to them in facilitating its production and distribution.

Constructive criticism and suggestions are invited.

L. A. DOWNS,
President, Illinois Central System.

CHICAGO, May 15, 1929.

Undefeated Sophs Fall Before Attack of Green Shirts

(Continued from page 1)

the permanent possession of the fraternity that wins it three times. Phi Kappa Sigma, under the direction of E. P. Boynton, won the skin with its presentation, "A Faculty Banquet," which featured a band of cannibals cooking a reformer labeled "Faculty" in a pot of oil.

President Raymond presented the Phi Pi Phi fraternity with cups for winning the Inter-fraternity track meet Friday, the relay Saturday morning, and the Phi Kaps with the Circus Day Skin for winning the Pageant, bringing to a close the last day of the Junior Class' rule.

Story by Griffith In May "Highway"

In the May 1929 issue of The Highway Magazine appears an interesting article, "A Community Is Remembered by the Camps It Keeps," written by James R. Griffith, Assistant Professor of Civil Engineering at Armour Institute.

Desiring to conform some of his theories as well as enjoy a vacation, Prof. Griffith toured through the West with his family last summer. His objective was a trip through the southwest, up the Pacific Coast, and back by way of the northwest. He covered 8,500 miles and slept in forty-one different camps, thereby gathering sufficient information for his article.

It is of special interest to city and highway officials who are interested in encouraging tourist business in their communities by profiting from reading these impressions. As a result of this trip, he arrived at some very definite conclusions which he enumerates in detail. He found the auto camps to be the most interesting feature of the entire trip and the camp acquaintances and their stories would fill an interesting book. Among the many discoveries he made is listed the item that the best camps are not listed or advertised in camp lists; the listed camps were frequently a disappointment.

He discovered that the impressions of states vary directly with road conditions; impressions of cities vary directly with camp conditions. A tourist should believe little of what he reads and believe nothing of what he hears.

Fraternities of Ohio State university are rejuvenating an old custom of the university in making their freshmen wear the freshman caps. Some time ago the frosh took it upon themselves to disregard the age-old custom and they refused to wear the caps. Many of the fraternities and other organizations voiced their disapproval of this independent attitude of the frosh.

Varsity Defeats Alumni Nine 10-2

The annual Varsity-Alumni baseball game, the first event of Junior Week, was played Monday, May 13, on Ogden Field. Varsity won by a 10-2 score.

John Schommer, '12, athletic director of the Institute, was the opening pitcher for the Alumni. In the first inning he set the Varsity down with two lucky hits and no runs. However, in the second the Varsity scored one run due to the two errors committed by Vic Hofer at third. Schommer was reached for two runs in the third after which he turned the tossing burden over to Samuels, '24. In the fourth the Varsity scored five runs on four hits, clinching the game for Tech. A large turnout of grads and former students of the Institute saw the Varsity win its tenth consecutive baseball game.

The line-up:

Varsity—	A.B.	R.	H.
Hauser, lf	2	0	1

Change in Credit Ruling Explained

There is a new ruling on page 138 of the new catalog which states that a student may not substitute credit secured at another institution for a subject in which he has failed at the Institute. In the past, students have made up work in which they failed at other schools. In the future this will not be permitted, no matter how good the standing of the school.

High grades in college courses are usually indicative of success in the business world, according to a study made of graduate records at the University of Wisconsin.

Schommer Gets News From Eastern Prof.

The following letter was received by Prof. Schommer from Prof. Phalen who at the present time is Head of the Department of Mathematics at Saint Stephens College, of Columbia University. Prof. Phalen was formerly an Associate Professor of Mathematics at Armour.

Dear John:

Well, well—here's a voice from the past that you no doubt thought was forever quiet. For a long time, I've had the urge to drop you a note and say hello, but you know how it is, just one thing after another so fast there's no chance to think. . . .

As for myself I'm the same old guy. I'm teaching about 14 hours a week and having a fine time on the side with cross country and ice hockey. We've got a pip of a cross country team and a devil of a hard course. Our schedule for next fall includes Middlebury, Hamilton, Mass. Aggies, Amherst, Vermont, and Tufts. In my opinion, we ought to win all the races except the Mass. Aggie meet. Those birds are bears—they skunked us last year.

Ice hockey was brand new this winter. After the Christmas holidays I called out the gang and found that I had fourteen men to get into shape of which five were freshmen. We lost every game but one, but had some dignified scores at that. Here they are:

Army 4-2, Rensselaer 2-0, Mass. Aggies 3-1, Hamilton 2-0, Norwich, two games, 1-2 and 3-1, Middlebury 2-0 and Union 8-1.

The Union team was a hum-dinger—next to Yale probably the best in the East. They have four Canucks from Saskatchewan who are good for the eyes. One of those fellows could stand beside his own goal and shoot over the rink boards at the other end as often as he tried.

Let me know how things are coming along at Armour.

So long,
H. R. Phalen.

Story in Engineer Used by Magazine

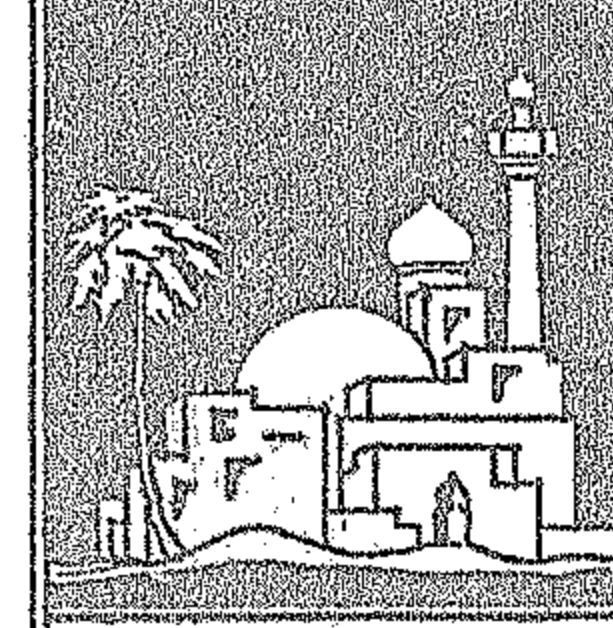

In a recent issue of "Automotive Industries," a weekly periodical published in Philadelphia, there appeared a reprint of an article that was published in the March, 1929 issue of the Armour Engineer.

This article, "Factor Tests of an Internal Combustion Engine," was written by Daniel Roesch, '04, Associate Professor of Automotive Engineering at Armour. In it the practicability of various points of temperature measurement and the applicability of a correction factor to low-volatility fuel engines are discussed. Actual experiments of some of the students are cited, accompanied by graphs such as a record of a student's routine test on a constant-speed gas engine.

In addition to this, the "Railway Signalmen's Journal" has reprinted two articles from the May, 1928 issue of the Engineer: "Chicago Traffic Signal System" and "Telephone Cable Manufacture."

Flask and Beaker Initiates New Men

Flask and Beaker, professional chemical society, will hold informal initiation of four men in its rooms today. A formal initiation banquet will be held tomorrow night at Maillard's. The men going through are:

O. R. Steinert, '31.
H. J. Latham, '31.
O. J. Fiala, '31.
F. B. Attwood, '31.

FRESHMAN CIVILS LEAVE FOR CAMP

(Continued from page 1)

By decision of the Executive Council of the Institute, no automobiles, except those belonging to the Institute or to teachers, are to be allowed in camp or be used during the six weeks of the regular summer session by any of the students.

The Camp is now in a state park. The law prohibits firearms. Do not bring any. All birds and animals are protected. If you fish, a license is required which may be obtained at Trout Lake.

Cramming is justified according to the statistics gathered by Dr. Glen Pease of the University of California. Tests, he held, resulted in the crammer receiving an average 11 points better than those students who study daily.

REVIEWS

BOOM BOOM

New Apollo Theater
"Boom Boom," recently opened at the new Apollo theater, brings to Chicago a two hour musical comedy that is crammed full of clean humor, and as many clever entertainers as have been seen on any stage in town for some time. "Boom Boom" is a rollicking, boisterous, and most delightful show, full of pretty girls, a few truly humorous comedians, and bits of excellent dancing.

There is a plot to the play, though it is not particularly binding. A young mining engineer, while en route to South America, falls in love with a beautiful girl. She promises to wait for his return. When he does, it is to find that she is married to his father.

Frank McIntyre presents the role of the flirtatious husband in a series of delightfully humorous episodes that made the audience roar itself hoarse with appreciation, his popularity being attested by the numerous curtain calls taken. Henry Welsh as the German headwaiter is the source of much merriment, while the lovely Jeanette McDonald and the rhythmic Peggy and Cortez score a triumph. A most entertaining comedian is found in Neil Kelly, a girl capable of superlative dancing.

The book is by Fanny Todd Mitchell, and is taken from the French farce, "Mlle. Ma Were." The music is by Werner Jensen, and is admirable. S.T.G.

FRATERNITY NOTES

CHI EPSILON

Armour Chapter of Chi Epsilon wishes to announce the election of the following officers for the fall semester of 1929-30:

Pres. Emil Blomme.
Vice-Pres. John P. Edstrand.
Sec. John Hurley.
Treas. Leon Fischman.

SIGMA ALPHA MU

Sigma Alpha Mu announces the following election of officers for 1929-30.

Prior—Alvin Hoffberg.
Exchequer—Saul Weinberg.
Recorder—Nathan Rosen.
The retiring officers are L. Fischman, L. Chamison, A. Kuklin.

RHO DELTA RHO

Rho Delta Rho announces the following election of officers:

Pres. Max Boshes.
Vice-Pres. Leon Steck.
Treas. I. M. Berger.
Rec. Sec. I. Dreil.
Cor. Sec. S. Schwartz.
Sgt. of Arms Marty Meyers.

May eleventh Rho Delta Rho held their annual Spring Informal Dinner Dance in the Silver Club of the Knickerbocker Hotel.

KAPPA DELTA TAU

Kappa Delta Tau Fraternity held a dinner dance at the Bismark Hotel, in the Flamingo Room. The music was furnished by the hotel orchestra. Favors were given in the form of small necklace with the fraternity insignia inscribed upon it.

TRIANGLE

Triangle held formal initiation for five men on Sunday afternoon, May 19. Following the ceremonies a banquet was held at Brevoort Hotel in honor of the new brothers.

ETA KAPPA NU

At the election held May 9 the following men were elected to hold office in Delta Chapter of Eta Kappa Nu for the coming year:

Pres. F. O. Zimmermann.
Vice-Pres. J. M. Dollenmaier.
Cor. Sec. C. R. Southwick.
Rec. Sec. M. A. Tennyson.
Treas. F. H. Bigelow.
Assoc. Bridge Ed. N. D. Buehling.

The senior members of the chapter are planning a trip to the "Dunes," June 3rd to 5th.

BETA PSI

Beta Psi is holding a farewell party on May 25 in honor of the departing seniors.

TAU BETA PI

Tau Beta Pi held election of officers with the following results:

Pres. E. R. Rowley.
Vice-Pres. A. C. Gunther.
Rec. Sec. C. G. Anderson.
Cor. Sec. H. Faulstich.
Treas. Prof. Peebles.

PI TAU SIGMA

Pi Tau Sigma has elected its officers for next semester. These officers will be:

Pres. E. R. Rowley.
Vice-Pres. C. G. Anderson.
Rec. Sec. R. M. Spencer.
Cor. Sec. C. Vojtech.
Treas. H. Faulstich.

THETA XI

Theta Xi held its election of officers for the coming semester last Tuesday evening. The new officers are:

Pres. P. E. Heath, '30.
Sec. E. R. Rowley, '30.
Treas. M. G. Saunders, '30.
Steward L. W. Booker, '31.
House Manager, W. A. Schrader, '31.

Cor. Sec., W. E. Baumann, '32.
The annual Fraternity Picnic will be held next Sunday, May 26.

Art Institute to Award Senior Prize

The prize of \$250.00 awarded annually by the Art Institute toward a trip to study architecture in the United States will be given to the Senior architect who submits the best drawing in the final project of the semester.

The program for the drawing was issued Saturday, May 11, and will be in the nature of an important group plan, no preliminary sketch being required. The drawing must be submitted for judgment at the end of this semester.

The award last year was won by Michael Palmer, Jr., '28.

BATSMEN DEFEAT MICHIGAN STATE FOR ELEVENTH VICTORY

Armour Garners 12 Hits While Simpson Holds Mich. to 3 Bingles

Eleven straight! Striking out 18 batters, Simpson held Michigan State to 3 hits, and easily won by a score of 5-1. The Armour attack piled up 12 solid hits, every man getting a hit except Richlie.

In the two games played with Michigan State Simpson has struck out 39 batters, somewhat of a record. The one run which crossed the plate was the result of Armour errors, so technically Simpson should be credited with a shutout. Michigan State's pitcher was the only one who could hit Simpson, as the box score shows. Every man but the pitcher was retired by the strikeout route at least once.

Hauser, Gent and Robin led Armour at the plate with two hits each. This game showed the most robust attack the Armour team has shown at home this year. Every man hit when called on, as five clean runs show.

Michigan got her only run in the first inning when Anglemire reached on Richlie's error. He came home when Yount threw to center field on the steal. That was tough for Simpson, but he shut them out all the rest of the way, and his mates came thru with 5 runs to win.

Play by Play

1st. Tomion struck out. Stiles fanned. Anglemire was safe on Richlie's fumble. Anglemire stole second and came home when Yount threw to center field. Giles was out, Yount to Robin. 1 run, 2 errors.

Hauser singled over second. Gent sacrificed. Richlie fanned. Robin fouled to Stiles. 1 hit.

2nd. Jackson struck out. So did Muellich. Middlestat also fanned. Jennings popped to right. Simpson grounded out. Anderson beat out a hit to Stiles. Weldon fanned. 1 hit.

3rd. Brown rolled to Robin. King singled to center. King stole second. Tomion strolled. Stiles got a fielder's choice when Simpson delayed a throw to first. Anglemire fanned. Giles struck out. 1 hit.

Yount grounded to Stiles. Hauser went to second when Stiles threw over first on his ground ball. Hauser scored on Gent's double off Middlestat's glove. Richlie popped to Stiles. Robin fanned. 1 hit, 1 run.

4th. Jackson struck out. Muellich also fanned. Middlestat walked. Middlestat was picked off first.

Jennings doubled to right. Simpson singled to center, Jennings holding second. Anderson grounded out to second, both runners advancing. Weldon was hit by a pitched ball, filling the bases. Jennings scored on a squeeze play, Yount making first. Simpson scored as Hauser forced Yount. Weldon was out at the plate on an attempted double play. 3 hits, 2 runs.

5th. Brown fanned. King doubled to right. Tomion struck out. Stiles also fanned. 1 hit.

Gent singled to right center. Richlie flied to left. Gent scored on Robin's double to deep center. Robin was out at third, stretching it. Jennings grounded out to second. 2 hits, 1 run.

6th. Anglemire struck out. Giles was safe on Weldon's error. Jackson popped to Richlie. Giles stole second. Muellich was easy for Simpson and Robin.

Simpson lined to King. Anderson looked at the third strike. Weldon doubled to right center. Yount fanned. 1 hit.

7th. Walukiewicz batted for Middlestat and fanned. Brown struck out. King walked. King stole second. Tomion fanned.

Hauser singled to left. Gent popped to King. Hauser was out stealing. Richlie reached second on Walukiewicz's two-base muff.

S. A. M. Champions of Fraternity Indoor

The vulnerability of the Phi Pi's was satisfactorily demonstrated last Thursday when the Sigma Alpha Mu house defeated them for the Inter-Fraternity Indoor Championship with a decisive score of 14 to 10. The S. A. M. will have possession of the traveling trophy for the year. This is the third season of competition for the trophy, and it has been won in the preceding two years by the Phi Pi's. The victory by the S. A. M. house prevented the Phi Pi's from permanently retaining the cup.

The game was featured by the heavy hitting of the S. A. M. men. Numerous doubles and a clean homer by Harry Turk proved that the men could clout the ball. Both teams played an equally good game in the field.

The box score was:

S. A. M.	A. B.	H.	R.
Fischman, 3b	5	1	2
Simon, ss	5	3	2
Hoffberg, c	5	2	1
Kuklin, 1b	4	2	2

Krafft Gives Gold Charms to Hitters

Coach Krafft announces that he will purchase and personally present to each man who has played regularly throughout the season, and who has maintained a hitting average of .350 or better for the season, a handsome gold baseball which can be worn as a watch charm. The baseball will probably be about a half inch in diameter with suitable engraving.

Robin doubled down the left field foul line. Richlie scoring. Jennings flied to center. 2 hits, 1 run.

8th. Stiles struck out. Anglemire lined to Hauser. Giles was safe. Gent's throw pulled Robin off the bag. Giles stole second. Jackson rolled out to Simpson.

Simpson grounded to Stiles on a close play. Taylor singled thru the box. Weldon flied to center. Taylor was out stealing.

9th. Muellich was hit by a pitched ball. Walukiewicz flied to center. Quinn batted for Brown and flied to Hauser. King singled to right, Muellich stopping at second. Tomion fanned to end the game. 1 hit.

Phi Pi Phi Wins Fraternity Track

Phi Pi Phi won first place in the Inter-fraternity Track Meet held on Friday, May 17, at Ogden Field by garnering 382-3 points the Phi Pi's placed in every event except the 220-yard low hurdles. Beta Psi was second with 311-6 points and Sigma Kappa Delta third with 241-4 points. The excellent day, the large crowd which was on hand and the fine style with which the events were run off made the meet a success.

Miran, Beta Psi, was high point man with 18 points and C. Fox, Sigma Kappa Delta, was second with 131-4 points. E. Anderson, Phi Kappa Sigma, pulled a real surprise when he won the 440 yard run. He took a big lead and sprinted all the way to win the race.

Following are the men who placed first in each of the events:

Pole Vault

Mullens, Beta Psi; Edstrand, Phi Pi Phi; and Barber, Delta Tau Delta, were tied for first place at 9 feet.

High Jump

Stevenson and Setterberg, Beta Psi, and G. H. Smith, Phi Pi Phi, were tied for first place at 5 feet 1 inch.

Shot Put

Won by Cassidy, Phi Pi Phi; distance, 32 feet 3 3/4 inches.

Discus

Won by Hendricks, Phi Kappa Sigma; distance, 92 feet 5 inches.

Javelin

Won by Miran, Beta Psi; distance, 120 feet 2 1/2 inches.

Broad Jump

Miran, Beta Psi, and Gross, Phi Pi Phi, tied for first at 18 feet 10 inches.

100-Yard Dash

Won by Miran, Beta Phi. Time: :11.0.

One Mile Run

Won by S. M. Lind, Triangle. Time: 5:36 2-5.

Net Men Lose Mich. Match; Beat Detroit

The Tech Racketeers suffered their second reverse of the season when the Michigan State netmen invaded the Armour courts May 15 and emerged victorious 4 matches to 3.

Singles: Jennings (A) defeated Swan (M) 6-1, 6-2; Kane (M) defeated Stellar (A) 6-8, 7-5, 6-2; Pennington (M) defeated Lamb (A) 6-3, 6-0; Bentley (M) defeated Winkler (A) 6-3, 6-1; Jennings (M) defeated Eddy (A) 4-6, 6-3, 10-8.

Doubles: Stellar and Winkler (A) defeated Pennington and Swan (M) 6-4, 7-9, 6-3; Jennings and Lamb (A) defeated Kane and Jennings (M).

Armour's netmen defeated the Detroit City College last Friday by a score of 7-0. The Tech men showed a good brand of tennis, all winning their matches in two sets. Jennings defeated Moss 6-1, 6-2. Lamb defeated Wilson 6-4, 7-5. Stellar defeated McNaughton 6-3, 6-2.

Eddy defeated Atkinson 6-4, 6-1. Winkler defeated Kovach 6-1, 6-2. Doubles: Jennings and Lamb defeated Moss and McNaughton 6-1, 6-2. Eddy and Winkler defeated Wilson and Kovach 7-5, 6-2.

220-Yard Run

Won by W. Buck, Phi Pi Phi. Time: 26 3-10.

100-Yard High Hurdles

Won by C. Fox, Sigma Kappa Delta. Time: 15 2-5.

440-Yard Run

Won by E. Anderson, Phi Kappa Sigma. Time: :58.

220-Yard Low Hurdles

Won by C. Fox, Sigma Kappa Delta. Time: 12 3-5.

880-Yard Run

Won by Robt. Kutteruf, Sigma Kappa Delta. Time: 2:19 3-5.

Armour Third in Triangular Meet

The supposed dual meet with Lake Forest last Friday became a triangular meet when Wheaton College entered their team.

Wheaton's entrance to the meet upset Armour and Lake Forest for they won the meet with a score of 63. Lake Forest had 55 points, while Armour trailed third with 36 points.

Paul of Armour was high point man with three first places, capturing the shot put, the high jump, and the discus throw.

"Chesterfield preferred!"

The story is told that a certain man once impounded a famous financier for a loan involving a considerable amount of money. "I cannot give you the cash," the magnate is said to have replied, "but I'll let you walk arm in arm with me across the floor of the Stock Exchange."

Pardon our enthusiasm, but it's a good deal like that with a man and his cigarette. To be seen smoking a Chesterfield, for example, is to be marked as a gentleman, a scholar, and a judge of good tobacco!

Kentucky Colonel or swashbuckling corporal in the Royal Mounted—Wall Street magnate or dashing cowman of Cheyenne—a Chesterfield smoker is entitled to respect (and yes, even credit!) from his fellows.

Go where you will, you'll find Chesterfield everywhere admitted to the inner circle of those in the know. Such endorsement was earned—by good tobacco and taste—with six million voting.

CHESTERFIELD

MILD enough for anybody...and yet...THEY SATISFY

LEIGHT & BATES TOBACCO CO.
