New Paper Money Ready For Issue

By Alvin W. Hall

The government is almost ready to issue a new size and design of paper money to replace that which has been used by three generations of Americans. Our present paper money is to be replaced by new bills only twothirds as large-2 9-16 by 6 1-4 in.and with new pictures on their faces and backs.

The \$1 note will have the portrait of Washington, as at present, but on the back will appear "ONE" in large letters, thus making it harder for the note raiser.

The \$2 note will have the portrait of Jefferson on its face and an engraving of Monticello on the back.

The \$5 note will have the portrait of Lincoln on the face and the Lincoln Memorial on the back.

The \$10 note will have the picture of Hamilton on the face and the Treasury department on the back.

The \$20 note will have Andrew Jackson on the face and the White House on the back.

The \$50 note will have Grant on the face and the Capitol on the back. ence Hall on the back.

Thus far, it will be noted, all the fraternities present. notes have buildings on the back except the \$1 note. The idea is to make it difficult to pass \$1 notes for the higher denominations by changing above \$100, buildings give way to ornate backs. The purpose here is to prevent the raising of the notes below \$100 to the big denominations. The public is expected to learn that a building is evidence of a denomination not above \$100. The \$500 note carries the portrait of McKinley, the \$1000 note that of Cleveland, the \$5000 that of Madison, and the \$10,-000 that of Chase.

Another change is in the paper itself. Heretofore this paper has been | nual Formal last Friday night at the made of about 75 per cent linen to Illinois Women's Athletic Club. Already the government presses have clanked out tons of the new bills, and soon there will be enough of them to meet the cirrency needs of the nation. Then the change will be made. When banks ask for new currency to replace old and soiled notes, they will receive the smaller size, and the old money will be retired as fast as it comes in.
