

CIVILS TO VACATE
ALLEY AFTER ROW
WITH ELECTRICALSCivils May Have to Carry
Brief Cases Hereafter

Last Friday afternoon marked the evacuation of the civils from the civil alley when an official order posted by the office ordered the lockers to be emptied. This note was posted about twenty minutes after the culmination of a fight between the senior civils and senior electricals.

Mission Hall was the scene of action, the battle raging between the civils in their alley and the electricals in the Senior Drafting Room, through the open windows of the intervening wall.

The fight began casually enough when a civil came into the electricals' room to reclaim his books, which were rudely taken by the electricals. He was immediately ushered out through one of the windows and the matter was considered closed, when a bushel basket was thrown into the drafting room. It was immediately thrown out. Again it sailed in with the accompaniment of other missiles such as waste baskets, floor mops, etc. The fight came to an abrupt end when a water-filled cigar box

(Continued on Page 3)

FRESHMEN ELECT
THREE OFFICERS
ON INITIAL VOTE

The election of the officers of the freshman class was held last Thursday, October 17. W. W. Davies, Arch., was elected to the office of treasurer, and Bruce Scott, F. P. E., and Robert Belford, F. P. E., were elected to the offices of secretary and social chairman, respectively.

Due to close competition and the majority rule regarding the presidency, the chairs of the president and vice-president were not filled. R. Carlstrom, F. P. E., came very near the mallet with one-half of the votes cast for him, while J. T. Sorensen, F. P. E., tied with T. Luckett, Arch., for the office of vice-president.

Another election will be held today to select the men who will head the class of '33.

The election committee, composed of R. Mulroney, chairman, T. Leavitt, W. Gustafson and A. Helmick, held the polls open from 10:00 until 3:00. Out of the 254 freshmen in the class, 124 men cast their votes with the following results:

President
R. W. Carlstrom 62
J. S. Sandstedt 24
E. J. Griffin 10
J. F. Ireland 24
E. E. Sademan 4

Vice-President
J. T. Sorensen 43
G. A. Brelle 12
T. D. Luckett 43
O. Barnett 26

Treasurer
G. R. Belton 33
C. E. Witt 21
W. W. Davies 45
B. Larson 25

Secretary
B. C. Scott 48
E. L. Curran 27
D. Michel 23
W. Massover 26

Social Chairman
C. A. Nelson 15
W. Larson 37
R. O. Belford 55
R. J. Rooney 9
D. Pearson 8

The freshmen vote today on the following candidates:

For President:
R. W. Carlstrom.
J. S. Sandstedt.
J. F. Ireland.
For Vice-President:
J. T. Sorensen.
T. D. Luckett.

Engineer Staff to
Attend Convention

The staff of the Armour Engineer will journey to Purdue University to attend the annual convention of the Engineering College's Magazine Association, to be held on October 31, November 1 and 2. The staff members expect to leave Chicago Wednesday night and travel by auto to Lafayette.

It is expected that representatives from colleges and universities all over the country will attend. At the meeting, criticisms of the various magazines will be read by the chairman; the object being to improve all the periodicals. Representatives from each school can bring up two problems for discussion which have confronted them during the past year.

Thursday night, October 31, there will be a banquet for the representatives and a dance is scheduled for Friday night.

The Armour party consists of almost the entire staff of the Engineer, including N. D. Buehling, editor; H. H. Stebbins, R. B. Mortenson, H. Stier, A. J. Frost, F. H. Bigelow, I. G. Katz, R. McInerney, B. H. Roffee, E. W. Hanke.

Professor Freeman, faculty advisor, may accompany the staff on the trip.

A. I. Ch. E. Holds
First Meeting

The A. I. Ch. E. held its first business meeting of the semester last Tuesday, October 15. Plans for the coming year were discussed and all indications point toward one of the most successful years of the chapter's history. Election of officers followed, and the following men were elected to office:

President—John E. Tarman.
Vice-President—Fred Attwood.
Secretary—O. J. Fiala.
Treasurer—I. Katz.

Armour Graduate
Completes Study

Dr. F. G. Pease, '01, and Doctor of Science '27, has recently completed a series of research observations on the outlying nebulae. Doctor Pease, in collaboration with Doctor Humason, has been making observations and calculations on these astral bodies since last November at the Mount Wilson observatory, Pasadena, California, where they are both staff members.

Their work has shown that three of these far-off nebulae have the peculiar characteristics of receding from the earth at a most rapid velocity of 4,800 miles per second. Further investigation of the fifty known nebulae shows that but five are approaching our solar system, and these with relatively slow velocities. The problem is to determine the cause for this phenomena.

Inasmuch as these "island universes" are roughly twenty-five million light years (x times ten to the seventeenth power miles) distant, it is thought that perhaps the observed velocity, which is in reality the relative may be the effect of the tremendous distance. This work by Pease will also add to the age-old controversy regarding the finite quality of the universe.

Dr. Pease was graduated as an electrical engineer in 1901, and received from the Institute the degree of Master of Science in 1924, and Doctor of Science in 1927. He is numbered as one of Armour's most outstanding graduates.

FLASK AND BEAKER

Flask and Beaker will hold its regular bi-weekly meeting in its rooms today at 1:10.

Prof. Leigh has been away from school for the last several days because of the sudden death of his mother-in-law, at Peoria, Illinois. He was expected to return yesterday.

ELECTIONS TODAY

Election of officers for Senior, Sophomore and Freshman classes will be held today in Science Hall from 11:00 a. m. to 2:00 p. m.

Seniors will vote for class president and for social chairman, the Sophomores for class president, and Freshmen will cast ballots for both president and vice-president. The election committees of the three classes will have charge of polls.

FILL ALL OFFICES
EXCEPT PRESIDENT
IN SOPH ELECTIONJ. E. Bryant to Be New
Social Chairman

ONE HALF VOTE

Though the sophomore presidency is still undecided, the other four offices were filled at the election held last Friday. S. M. Lind, vice-president; J. B. Dirkers, secretary; J. R. Jackson, Jr., treasurer, and J. E. Bryant, social chairman were the men elected. The office of president has to be carried by a majority vote, so another election for this office will be held today as announced elsewhere. The president will be selected from the two candidates, L. Billings and W. F. Bauman, who received the highest number of votes.

Only 53 per cent of the class of 233 men voted. The results of the election as tabulated by the election committee and checked by the Dean's office is as follows:

President
W. F. Bauman 31
E. J. Cavanaugh 25
S. A. Carlson 14
L. Billings 53
Vice-President
S. M. Lind 48
H. J. Cameron 9
H. F. Leichtenberg 15
W. H. Rudolf 42
L. E. Sherk 9
Secretary
J. B. Dirkers 45
H. W. Yount 29
W. F. Schmidt 26
S. G. Grundstrom 23
Treasurer
J. R. Jackson, Jr. 72
R. F. Beatty 22
J. C. Owen 13
G. L. Bonvallet 16
Social Chairman
J. E. Bryant 70
H. M. Slavitt 12
A. J. Mueller 13
Y. E. Weldy 28

A. C. S. MEETS FRIDAY

Dr. Max Bodenstein of the University of Berlin is to speak to the American Chemical Society at its meeting next Friday at the City Club. Dr. Bodenstein came to America to present a course of lectures at Johns Hopkins. All men interested are cordially invited to attend the lecture.

CALENDAR

Tuesday, Oct. 22
Seniors, Sophomores, and Freshmen vote in Science Hall
1:10 Flask and Beaker Meeting
Wednesday, Oct. 23
9:30 Meeting of F.P.E.S. in Science Hall
Thursday, Oct. 24
Campus Club Smoker
Friday, Oct. 25
10:30 A. I. E. E. Meeting in Science Hall
7:30 A. C. S. Meeting at City Club
Saturday, Oct. 26
Cross Country Meet.

Changes In Faculty
of Arch Department

Mr. T. J. Hoffmeister is the new instructor of Modelling for the Senior architects. He is also an instructor in evening school.

Mr. R. J. Nedved, '21, has been appointed instructor of Shades and Shadows to take the place of Assistant Professor W. H. Lautz who is now travelling extensively in France, Spain, and Germany.

Mr. Nedved has also been Assistant Professor in Architecture from 1924 to 1928 but was forced to give up this position on account of his duties in his office. He is now an active partner of the firm of Hamilton, Fellows, and Nedved, school architects.

Dr. Raymond Attends
Industries Conference

Doctor Howard M. Raymond is to represent Armour Institute of Technology at the Sixth Conference of Major Industries at the University of Chicago tomorrow morning and afternoon.

The subject of the meetings is: The Situation in Industries. The list of speakers include President L. A. Downs of the Illinois Central; C. W. Cuthell General Counsel Transcontinental Air Transport, Incorporated; President E. C. Sams of J. C. Penney Company; F. S. Snyder, Chairman of the Board, Institute of American Meat Packers, and Harry A. Wheeler, Vice-President of the Board of Directors, First National Bank of Chicago.

Initial Meeting of
A. S. M. E. on Friday

The American Society of Mechanical Engineers will hold its first meeting of this semester Friday, October 25, at 10:30 in Room D, Mission. The Seniors and Juniors of all departments and all members of the Mechanical Engineering department are invited to attend.

The officers of the organization are:

President—H. H. Stebbins, '30.
Vice-President—Charles Vojtech, '30.
Secretary—Martin Vander Velde, '30.
Treasurer—Jerome Kovarik, '30.

Noted Men Attend
U. of C. Ceremony

President Howard M. Raymond has accepted the invitation of the Trustees and Faculty of the University of Chicago to represent Armour Institute of Technology at the inauguration of Doctor Robert Maynard Hutchins as fifth President of the University of Chicago.

The program for the event, which will occur on Tuesday, November 19, is as follows: Assembly of faculties, delegates, and Trustees, Ida Noyes Hall, 10:25 a. m.; ceremony of inauguration, the University Chapel, 11:00 a. m.; luncheon to delegates, Hutchinson Hall, 1:30 p. m.; dinner to citizens of Chicago, and special guests, Palmer House, 7:00 p. m.

The list of speakers at the various meetings will include President James R. Angell of Yale, President Harry W. Chase of North Carolina, President David Kinley of Illinois, President Walter Dill Scott of Northwestern, President George E. Vincent of the Rockefeller Foundation and Secretary Ray Lyman Wilbur of the Department of the Interior.

The lost and found department reports that a pair of horn rim glasses, a pair of gloves, and several notebooks are awaiting their owners. Also, a pair of tennis shoes was left in the Dean's office last week and has not yet been called for.

All seniors are urged to check their credits with the records in the Dean's office. Taking care of this matter now will avoid confusion later.

SENIOR CLASS PRESIDENT AND
SOCIAL CHAIRMAN FAIL TO GET
MAJORITY VOTE AT ELECTION

H. H. Stebbins, N. D. Buehling, J. E. Ransel and R. B. Mortenson Win Offices

ALL BUT 39 VOTE

The election of officers for the senior class took place Thursday under the supervision of the election committee chosen by the dean's office. The committee was composed of G. J. Heller, chairman, R. E. Escott, D. J. Paul, E. R. Rowley, W. K. Simpson, and M. A. Tenyson.

W. H. Raedemacher
Speaks on Edison

"The Life of Edison" was the subject of Mr. W. H. Raedemacher, at the General assembly held in Assembly hall yesterday morning at 10:30. All students were present at this meeting to celebrate the "Golden Jubilee of Light," in honor of Thomas Alva Edison. Dr. Raymond presided at the assembly. The orchestra, under the direction of J. E. Higgins, '30, gave a few numbers.

Mr. Raedemacher told of Menlo Park, the birthplace of Edison's first incandescent lamp, and how this place is preserved today. Down to the last board it is today, at Dearborn, Michigan, just as it was fifty years ago in New Jersey. Even the earth on which these Edison buildings originally stood has been transferred by train loads to Dearborn so that every detail may be perfect. All this was done by Henry Ford, to honor his friend of many years.

The following telegram was sent by Doctor Raymond to Thomas A. Edison on behalf of the Armour Institute, yesterday morning:

Chicago, Ill., Oct. 21, 1929.
Thomas A. Edison,
c/o Edison School of Technology,
Dearborn, Mich.

The students and faculty of Armour Institute of Technology, Chicago, Ill., Oct. 21, 1929.

WEISSMAN FIRST
INSTRUCTOR FOR
ARMOUR BOXERSNew Mentor to Take
Place of Student Coach

IS DE PAUL ALUMNUS

Mr. B. Weissman, a graduate of DePaul Law School, and one of Chicago's foremost amateur boxing instructors, has been added to the Armour faculty as coach of the school boxing team. Mr. Weissman's appointment was prompted to fill the vacancy left by last year's student coach, Ralph Garbett.

During the last few years Weissman was connected with Dave Barry's Gymnasium, where he served as instructor, trainer, and sparring partner. The Peters brothers, Roy and Ernie, uprising young ring luminaries of this city received a great deal of help from Weissman, and much of their success is attributed to Mr. Weissman's tutelage.

His experience at the Barry Gym together with the knowledge he had gained of boxing at DePaul, warrants the local pugs of having a well informed instructor who will be able to broaden their knowledge of the fistcuff sport.

The acquisition of the coach, is an innovation to the local boxers, for their instructors previously were undergraduates of the school. Although the team did enjoy fair success while directed by a fellow student.

(Continued on Page 3)

The results of the election were as follows:

President
Alfred C. Gunther 51
Robert J. Serson 57
John G. Stitzler 31
Vice-President
George D. Horras 49
H. H. Stebbins 89
Secretary
N. D. Buehling 101
C. H. Johnson 36
Treasurer
A. J. Frost 47
John E. Ransel 89
Social Chairman
Walter Scott 56
R. A. Shoon 56
R. M. Spencer 26

Robert B. Mortenson was elected Sergeant-at-Arms automatically because he was the only nominee. There will be a special election held for the office of President and Social Chairman because no one received a majority for either of these offices. This election will be held today from 11:00 to 2:10.

The election this year was a great improvement over those held before. The ballots were collected with a minimum of effort and were quickly counted. All those who were connected with the election were very much pleased with the new system. The tie for social chairman and the close vote for president shows that the class support was divided. A good spirit of sportsmanship was shown all through the election and the majority ruled.

Another proof of the interest shown in this election is the fact that 139 out of 176 eligible men voted. This showing was very good when the number of architects unable to vote is considered.

The Armour Tech Campus Club will hold a smoker, the first gathering of the year, Thursday, October 24, at 7:30 p. m., in their Chapin Hall rooms.

J. H. Stranberg and A. J. Frost are in charge of the invitations and entertainments.

The new officers of the Club are: President—Maurice Zwart, '30. Vice-President—Louis Statkus, '31.

Secretary—A. J. Frost, '30.
Executive Secretary—Herbert Stebbins, '30.

A special invitation is given to all students to visit the Campus Club rooms.

Amsbary Speaks at
Chicago Univ. Supper

Professor Wallace Bruce Amsbary, Professorial Lecturer in General Literature, spoke last Sunday, October 13th, at the Foreign Students' Sunday Night Supper, at Ida Noyes Hall, University of Chicago. For the topic he chose one of his popular recitals, "The Foot-Step of Lockerie Street," by James Whitcomb Riley. This was Prof. Amsbary's second appearance before this group.

F. P. E. S. to Meet
Tomorrow Morning

There will be a meeting of the Fire Protection Engineering Society Wednesday, Oct. 23, 1929, at 9:30 a. m. Mr. C. W. Hauth, a member of the first class to graduate from this school in Fire Protection Engineering, is going to speak on "Spray Booths and Spray Booth Equipment."
