

# ARMOUR CAGERS PILE UP BIG MARGINS IN TWO GAMES WITH ALUMNI AND CHICAGO TECH

## Krafft Men Demonstrate Superiority By Snappy Offensive and Defensive Tactics

### SQUAD HAS THREE VICTORIES TO CREDIT

In their annual basketball game last Tuesday the varsity defeated the alumni 44-18 at the Eighth Regiment Armory.

Coach Krafft started his first team of regulars to meet the fast breaking attack of the veterans. When on the defensive the old grads used a man to man style of play with Hofer bearing the brunt of the varsity attack. Will Kuffel, captain and center of the alumni team, directed the team play from the free throw circle by feeding the ball either to Schumacher, Downes, or Manz. The team presented by the alumni according to Krafft was composed of the best men who have ever played for Armour since he has been coach.

**Mistake in Time.**  
From the opening of the game until the final whistle neither side gave way to the other. Only at the start of the second half when the varsity dropped baskets in from all angles were the alumni unable to cope with Tech strategy. The game was more closely played than the score indicated. A mistake in time forced the game into an extra quarter, however, since little was at stake no protest was offered.

Late in the game, after a concentrated attack on the varsity goal Bill Downes' knee gave way and forced him from the game. Other casualties were largely caused by the hard playing of the teams.

**Changes Line-Up**  
At half-time Coach Krafft changed his line-up by placing his second team on the floor. Rossing distinguished himself during this period by counting five baskets. Alumni scoring was confined mostly to Schumacher and Downes who were able to work through the close guarding of Rutkowski and Gustafson.

After the game the Honor "A" Initiation Banquet was held at the New Southern Hotel. Twenty-five Alumni, active members, and pledges attended.

**LINE-UP**  
**Alumni—18**

### Ice Hockey Team to Practice Saturdays

All men who are interested in playing on an ice hockey team are urged to be present at a meeting to be held on Friday, December 19.

The purpose of this meeting is to make arrangements for an intensive practice schedule during the Christmas holidays.

Up to date, the team has had very little practice, due to the inclement weather. The men, however, are very anxious to get on the ice, and some have been putting in some of their time skating at the Stadium.

The South Park Commissioners have agreed to let the team practice on the Midway Ice Hockey Rink on Saturday afternoons from 2:00 to 4:00 and on Wednesday nights from 8:00 to 10:00.

Chicago Technical College basketballers were on the short end of the score last Thursday night when they fell before the Armour attack at the Eighth Regiment Armory by a score of 31-13.

The first quarter had some good basketball to offer in fact, the opponents got off to a three point lead and succeeded in holding the Armour attack. However, had there been no fouls, no score would have been made, since three points mentioned having been scored on free tosses.

**Leads at Half**  
During the first half the Krafft men succeeded in making six goals, Robin, Lind and Rossing sharing these equally.

The visitors, on the other hand, fell behind and at the end of the half had scored two goals shots, while five points out of ten possible ones were made on free throws. The score stood at 16-9 in Armour's favor when the whistle blew for the half.

**Beemsterboer Stars**  
The second half was more or less uneventful, the visitors apparently being resigned to their fate by this time. Beemsterboer and Gustafson broke through time and again with fruitful results.

The former was high point man for the second half, having scratched the opponents for seven points before they were fully aware of what was going on.

Tech had numerous opportunities to score on free throws, but these evidently went wide of their mark because only three out of a possible nine found the basket.

### Phi Pi Phi Seeks Thirteenth Title

On December 16 and 17 Armour's fraternity teams will complete their preliminary rounds leaving only the championship battle on schedule.

Rho Delta Rho encounters the Triangles while Beta Psi meets Phi Kappa Sigma to complete the card for December 16. The Triangles by virtue of their 24-11 triumph over the Theta X, are conceded the edge over their opponents. Beta Psi's chances of overcoming the Phi Kappa Sigma appear favorable. The Beta Psi, have not as yet entered into competition, as they drew a bye in the first round, but they promise to offer a well balanced quintet.

On December 17 the winners of the respective games played on the preceding day will meet the Phi Pi Phi's and Sigma Kappa Delta.

### Lots of Basketball

Basketball and more basketball seems to be the keynote of athletics these past few weeks. Just think, six games were played last week, four in the Armour gymnasium and two at the Eighth Regiment Armory. The results of the varsity encounters were highly gratifying to the undergraduates for in the two games played the varsity squad ran up high score victories against the opposition.

### Slips and Slides

In the game with the alumni, played last Tuesday, the regular squad totaled 44 markers against 18 for the former Tech stars. The game opened with a furious alumni attack that literally swept the varsity off their feet. To think of the varsity being swept off their feet after being equipped with Spaulding non-skid basketball shoes is simply terrible. However, the gang began to click and the score mounted to 18 to 9 at the half. Of course the varsity had the 18 points.

### Out-Starred

As a team of individual stars the alumni out-starred the varsity about five to one. Team work, essential to successful basketball teams was lacking in their attack which accounted for the high score against them. Kuffel, Downes and Schumacher played a fine floor game but lack of practice and being out of training prevented a concentrated attack at all times. John Manz and Vic Hofer played in the guard positions and clearly illustrated how the game was played in the old school. A large number of fouls were recorded, due mainly to the effort in reaching the ball and not to intentional dirty work. We believe that with several weeks of practice, the alumni could give the varsity plenty to think about.

### Five Equal One

Anyway the game was played in five periods of ten minutes each, a condition which was caused largely by our efforts. For further details see your correspondent.

### Take a Peek

Looking into the calendar for this week we find that Tech meets Wheaton College on Tuesday and Western State Normal on Friday. Both games are scheduled for 4:30 p. m., at the Armory. Admission is free to Armour students.

### Swimming and Boxing

Swimming has its first meet on Thursday, when the Hyde Park Y. M. C. A. is engaged at the Y pool at 8:00 p. m.

Boxing too has its first meet of the season on Friday at the West Side Y. M. C. A. Captain Ustryski tells us his team is in tip top shape, and should open the season with a victory.

Interfraternity basketball has become too complicated for us, therefore we refer you to the adjacent columns for the latest happenings in this sport.

### Mermen to Meet Big Ten Schools

The consensus of opinion, instigated by the fine showing of the swimming squads in past seasons, is to the effect that the high caliber of the Tech splashers warrants engagements with stiffer competition such as, for instance, the Big Ten Conference could offer.

Manager Davidson announces that tentative arrangements for meets with Purdue, Wisconsin, and Michigan, have been discussed. Meets such as these will present an opportunity for the Tech mermen to display their wares, which should help considerably toward elevating Armour's athletic status.

The season is to be opened with Hyde Park Y. M. C. A. on Thursday evening, at 8 P. M. In a previous meet Tech fish nosed out the Hyde Park squad by two points, and will be gunning for a more decisive victory.

### Fraternities End First Four

#### Games of Cage Tournament

Four of Armour's fraternities mixed in two games last Friday night to complete the second half of the first round of the interfraternity championship. The Phi Pi Phi's emerged victorious over the Delta Tau Delta by a 13-9 score.

Triangles' victory over their opponents was featured by Lind's expert marksmanship. His volley of shots accounted for 13 of the 24 points. At the end of the first half the score was one sided making things appear as though the Triangles would pile up a much larger score. The Theta Xi, however, retaliated in the second half and placed themselves on a level with the Triangles. The 12-3 lead, however, was too large to overcome.

The Phi Pi Phi victory, although fully expected was not easily attained. Both teams were evenly matched and both experienced about an even number of scoring changes. Gisske's long shots, together with Carlson's five point contribution enabled last year's champions to remain in the race.

**Phi Pi Phi—13**

Jackson, l.g.	0	0
Totals	3	3

Phi Kappa Sigma opened the annual interfraternity basketball competition last Thursday by defeating Sigma Alpha Mu, 23-6. The game started slow with both teams trying for openings.

Jacobson sank a basket shortly after the start of the game to give the Phi Kaps the lead, which they held throughout the game. Anderson was the star player of their team, sinking five baskets, three in the third quarter and two in the fourth. Edelman made all three baskets for the Sigma Alpha Mu team. The second half was played much faster but most of the shots failed to fall in the hoop.

In the second game, Sigma Kappa Delta defeated Kappa Delta Tau, 35-16, presenting a fast, snappy attack. Yuknis started the scoring by sinking two baskets in succession.

Yuknis was the outstanding player, sinking ten baskets, six in the first quarter, and two in each of the second and third quarters. Goldman led the Kappa Delta Tau players with four baskets.

**Sigma Kappa Delta—35**

### TECH PUGS FIGHT ON CHARITY CARD AT WEST SIDE "Y"

#### Men Training Hard for First Real Test of Season

#### PLAN OTHER MEETS

Armour Tech will contribute its bit toward charity, on the evening of Dec. 19, when Coach Weissman will lead his hard hitting warriors into the vicinity of the West Side Y. M. C. A., where they will tangle in a series of boxing bouts, the receipts from which will be utilized by the Kiwanis Club for charitable purposes. The affray promises plenty of action as the West Side aggregation has acquired the reputation of being a well balanced, scrappy squad. This fight will serve as an example of the mettle of the Tech pugs this season as it will be their first baptism under fire. Although only a short time is allotted our boxers for conditioning, each and every man has extended himself to the limit in order to be able to give a good account of himself in actual battle.

Coach Weissman states that these men will be the probable contestants: Larkin, 160; Nelson, 155; Campione, 155; Captain Ustryski, 150; Kruchten, 135; Sandstrom, 125; Montesano, 114, and Donnelly, 112. With the exception of Kruchten, these men have all seen action. Kruchten, although a beginner, has shown a willingness and interest and bids well to develop into a first class light-weight. Those who find it at all possible are urged to come out and support the team.

The new G-E low-grid-current Pliotron tube capable of measuring a current as small as 10<sup>-11</sup> ampere

## This Little Tube Measures Stars Centuries of Light Years Distant

BY MEANS of a new vacuum tube called a low-grid-current Pliotron tube, astronomers can gather the facts of stellar news with greater speed and accuracy. In conjunction with a photoelectric tube, it will help render information on the amount of light radiation and position of stars centuries of light years away. It is further applicable to such laboratory uses as demand the most delicate measurement of electric current.

So sensitive is this tube, that it can measure 0.000,000,000,000,001 of an ampere, or, one-hundredth of a millionth of a billionth of an ampere. This amount of current, compared with that of a 50-watt incandescent lamp, is as two drops of water compared with the entire volume of water spilled over Niagara Falls in a year.

General Electric leadership in the development of vacuum tubes has largely been maintained by college-trained men, just as college-trained men are largely responsible for the impressive progress made by General Electric in other fields of research and engineering.
