

Phi Pi's Win Semi-Final Fraternity Baseball Game

Phi Pi Phi ran away with Beta Psi in the semifinals by a score of 15 to 3.

Judging by recent games, the Phi Pi Phi's must be considered a strong title contender. Ott, their pitcher, turned in a good game Wednesday, allowing only six hits, and striking out six of the opposing wankmen. At bat, the team scored 15 runs on 13 hits, aided by eight errors.

The Phi Pi's put the game on ice when they scored 8 runs in the first two innings. They added to this with 1 in the 4th, 3 in the 5th, and 3 in the 7th.

Beta Psi scored one each in the 4th, 5th, and 7th innings.

Kappa Delta Tau defeated Theta Xi, 8 to 5, in a well fought game. Theta Xi had bases filled several times, but Goldman fanned several men in succession at the crucial moments.

Beta Psi won from Delta Tau Delta, 9 to 5, in a game featured by close playing. Beta Psi scored in the 2nd and 5th, and Delta Tau Delta scored in the 2nd and 6th.

Phi Pi Phi swamped Triangle, 16 to 3, in a one sided game. The victors were superior, both at bat and in the field, scoring in every inning but the first, with a total of 18 hits.

Sigma Kappa Delta defeated Phi Kappa Sigma in a well fought baseball game last Thursday afternoon, by a score of 8 to 4. The S. K. D.'s presented a well balanced team both on the offensive and on the defensive.

In the 4th inning A. Jens hit a home run for the S. K. D.'s, scoring three and Brown, for the Phi Kapp's, knocked a four bagger in the 6th inning.

Freshman Architects Plan Exclusive Dance

For the first time in the history of Armour Institute, the freshman architects have formulated plans to have a dance of their own.

A committee, appointed last Tuesday, has decided to hold the affair Friday, May 29 at 8:00 P. M. at the club room of the Art Institute. Music will be furnished by Ted Cherwin, freshman architect, and his Blue Pheasant Inn Orchestra, formerly of Lake Delavan, Wisconsin.

The dance is considered to be a restricted informal; only those may attend to whom the freshman architects will extend invitations.

Those, who wish to attend, should make reservations early, since the attendance is limited to forty couples.

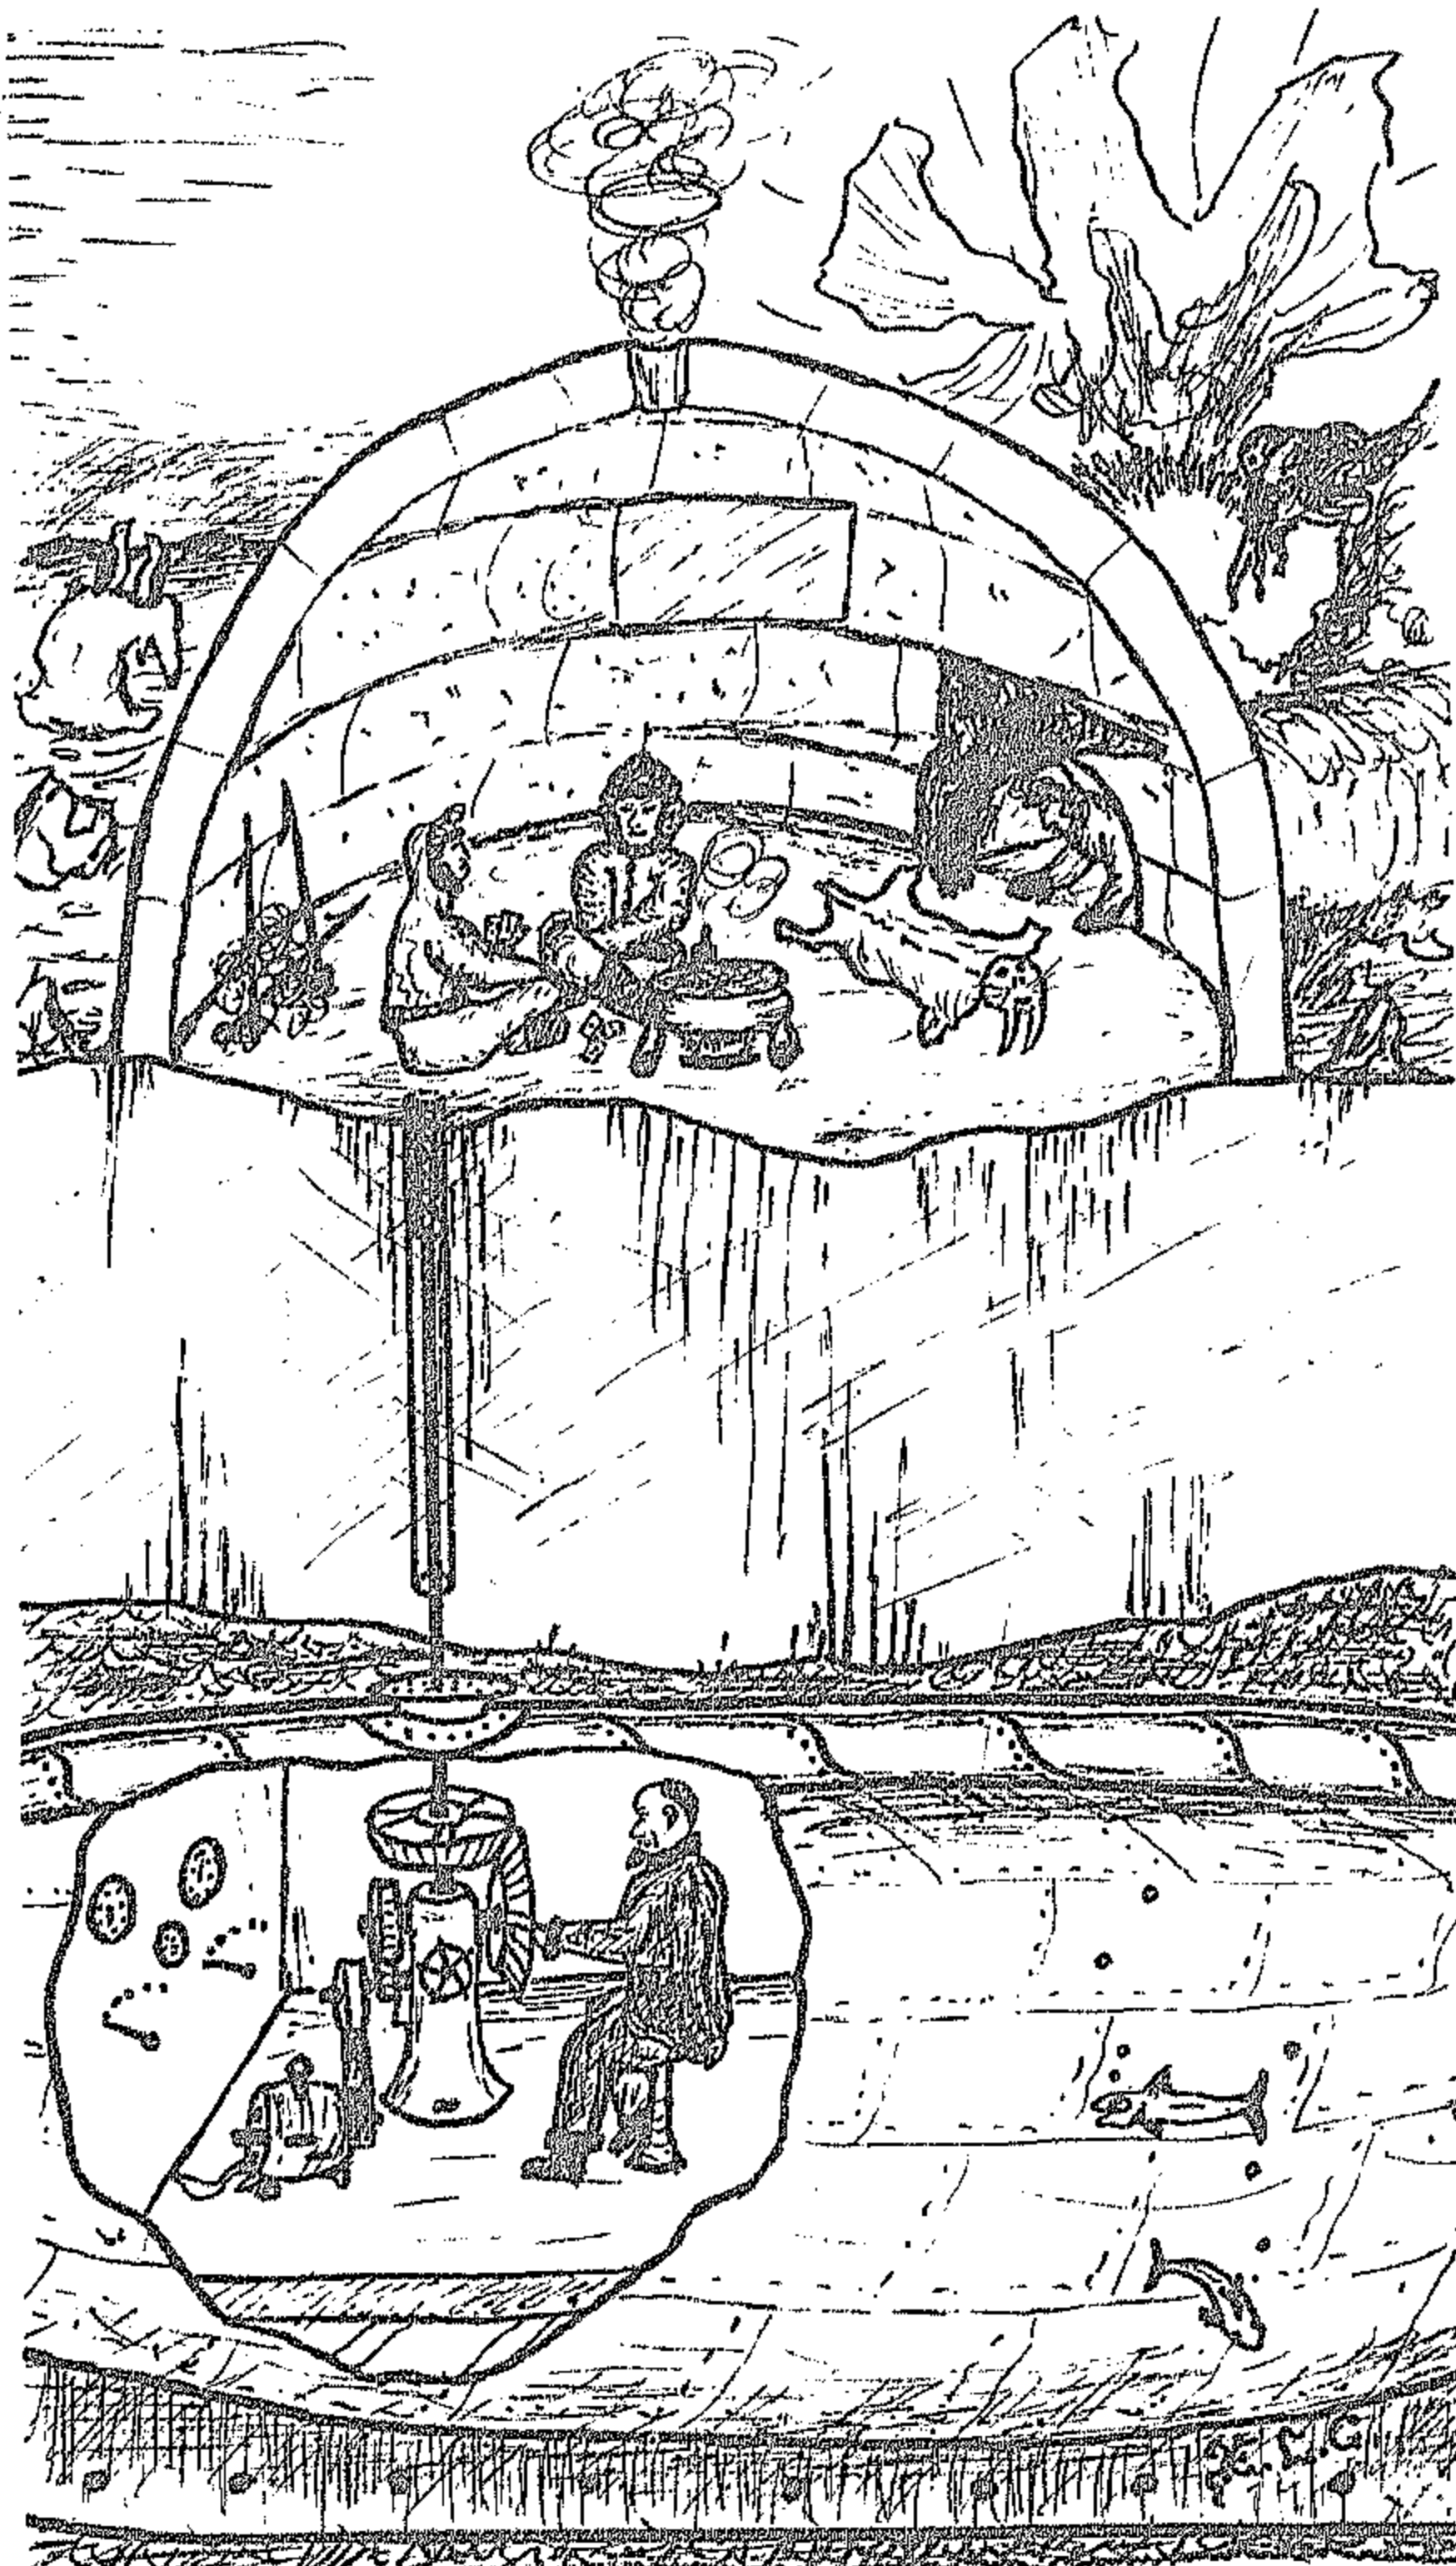

There will be no tickets sold at the door, so it is advisable to make immediate preparations.

The committee has announced bids at \$1.50 per couple.

The members of the committee are: Walter F. Krol, chairman; Harry Green, Roy Ekroth, and William Goodman. Bids may be obtained from any of these men.

ALUMNUS VISITS ARMOUR

The school was paid a visit by Irving Lueh, '28 last Monday. Lueh, who comes from Wisconsin, has been working with the International Telegraph and Telephone company since he graduated from the electrical department.

CAP. WILKINS IS ABOUT TO PROBE THE SECRETS OF THE FAR NORTH.

Wilkins Strikes Low Blow At North Pole

An insight into the innermost emotions of a canned sardine in a high powered frigidair will be obtained this summer when that intrepid band of fearless men, sometimes called the Wilkin's expedition, sets out in their converted bath tub, the Nautalus, to attack the North Pole below the water line.

While the Wilkin's polar dash has been ballyhooed solely as a scientific venture to obtain data on the dramatic ability of arctic fish, (to benefit the Hollywood screen directors is putting their feminine morons through the pace) recent reports have disclosed several ulterior motives. For example, the submarine, Nautalus has been so fitted with ice running gear as to resemble a 1917 model T Ford and it is rumored that this will inspire the polar eskimos to become T addicts, thereby relieving the used car industry in this country of one of its worst ailments. Furthermore it is rumored that the ice drilling apparatus, contained in the ship just aft the conning tower, was subtly suggested by the American Dental Society in hope of further exploiting the northern natives by interesting

them in dentistry. Such a move would create a market for the now excessive output of American dentists.

The picture with this article clearly depicted the drilling tendencies of the expedition. Such a procedure rather than arousing interest is likely to prove boring to the eskimos.

Judged from the scientific attitude the daring venture seems fascinating to the point of total eruption. One could well picture and even feel the thrilling adventures the crew of the Nautalus will encounter by sitting under a cold shower with an open tank of carbon monoxide near by.

An interviewer recently came upon the leader of the expedition, Sir Hubert Wilkins, examining a huge Pole which he had just received from Lithuania. By way of explanation Sir Hubert said "that he was collecting data on the largest temperate Pole to be found, in hope that it might prove useful when he reached his destination."

Observing this Pole with interest (the first temperate one he had ever seen) the interviewer asked the leader how he found such preliminaries to the great venture.

An old English rye smile came over Sir Hubert's classical features. "Lousy", he said, "just lousy."

Senior Mechanicals Make Trip Schedule

The Senior Mechanicals plan to devote on the average of one day per week, for the remainder of their semester, on inspection trips. Below follows a tentative schedule of their plans:

Fisk Street Station—May 5, 9:30 A. M.
Crawford Avenue Station—May 14, 9:30 A. M.
Illinois Steel—May 20, 1 P. M.
Refrigerating Plants, May 22, 1 P. M.
Auto Plants, May 28, 8:30 A. M.
State Line Plant—June 2, 9 A. M.

ATTENTION: CRANE ALUMNI

Any graduates of the Crane Technical high school who are interested in becoming associated with the alumni association of that school, should see Theodore Wallschlaeger, E. E. '34 within the next two weeks.

Junior Fire Protects Inspect Soap Factory

Headed by Professor John J. Schommer, equipped with our extra large brief case, the junior fire protects enmasse, inspected the Holman soap factory on West Thirty-first st. Thursday, April 30. The various processes necessary in the manufacture of toilet soaps and toilet preparations were explained by a representative of the company. The hazards of soap making were also pointed out to the embryo engineers.

The fire protects are looking forward with great pleasure to the inspection trips which are to follow. Rumor hath it that the cause for glee is the inspection trip to a well known brewery.

Order Trousers for Musicians Tomorrow

Measurements for white trousers for members of the musical organizations will be made tomorrow, Wednesday, May 6, in the physics lecture room at 1:00 p. m.

Orders will be placed at this time, the price of the pair of trousers being \$7.50, half of which is paid by the school and the other half by the student. The manager of the musical club organizations, E. W. Carlton, '32, is in charge of the orders.

P. L. U. HOLDS SMOKER

A smoker is to be held tonight, May 5, by the Armour chapter of Phi Lambda Upsilon, honorary chemical engineering fraternity.

The nature of the meeting is a general get-together of pledges, alumni and active members in their suite of rooms in Chapin Hall.

FRATERNITY NOTES

THETA XI

The annual Founder's Day celebration was observed by the Alpha Gamma chapter in conjunction with the Theta Xi Club of Chicago, at the Steuben Club, Saturday evening, May 2nd.

Several of the brothers also journeyed to Danville on Wednesday, April 29th, to meet with the brothers of Illinois, Purdue and Rose Polytech in a tri-chapter affair in observance of Founder's Day.

On the evening of May 9th, the annual formal will be held in the St. Charles Country Club at St. Charles, Ill.

Brother Cliff Nelson may again be seen around school having recovered from illness which kept him confined for a week.

DELTA TAU DELTA

Walt Healy, L. Brown and Harry Prebenson spent the evening with us last Tuesday.

H. Miethe, a Delt from the University of Illinois, is staying at the house.

J. R. Jackson and D. W. Pearson were elected as chapter delegates to the National Convention to be held next August in Seattle, Washington. Harry Prebenson of the class of '28 is to be the alumnus representative at the convention.

Founder's Day will be celebrated with a Formal Dance, to be held at the house May 9. The alumni have been sent special invitations.

PHI KAPPA SIGMA

At a meeting of the chapter held April 27, the following officers were elected:

President—C. K. Simons.
Vice-president—H. S. Hendricks.
Treasurer—F. S. Beale.
Recording secretary—H. A. Reich.
Corresponding secretary—J. W. Juvinall.

It was decided to have the Senior Farewell Formal May 17, at the Club Alabam. The annual picnic will be held at Waverly Beach in the Dunes on May 31.

BETA PSI

Brother George Corliss, accompanied by his wife and son, paid us a surprise visit last week.

The opinion expressed by many of the members who are able to testify, is that lady umpires will certainly convert baseball into a sport of gentlemen.

Beta Psi announces the pledging of Harry C. Hostetter, M. E. '33.

KAPPA DELTA TAU

Friday, April 18, witnessed the following men being elected to hold office:

President—Joseph Tuchinsky.
Vice-president—Edward Field.
Secretary—Max Berger.
Treasurer—Milton Glazer.

President Tuchinsky immediately appointed the following chairman: M. Wise, social chairman; H. Goldman, athletic chairman; N. Krause, publicity chairman.

THE BOULEVARD CAFETERIA

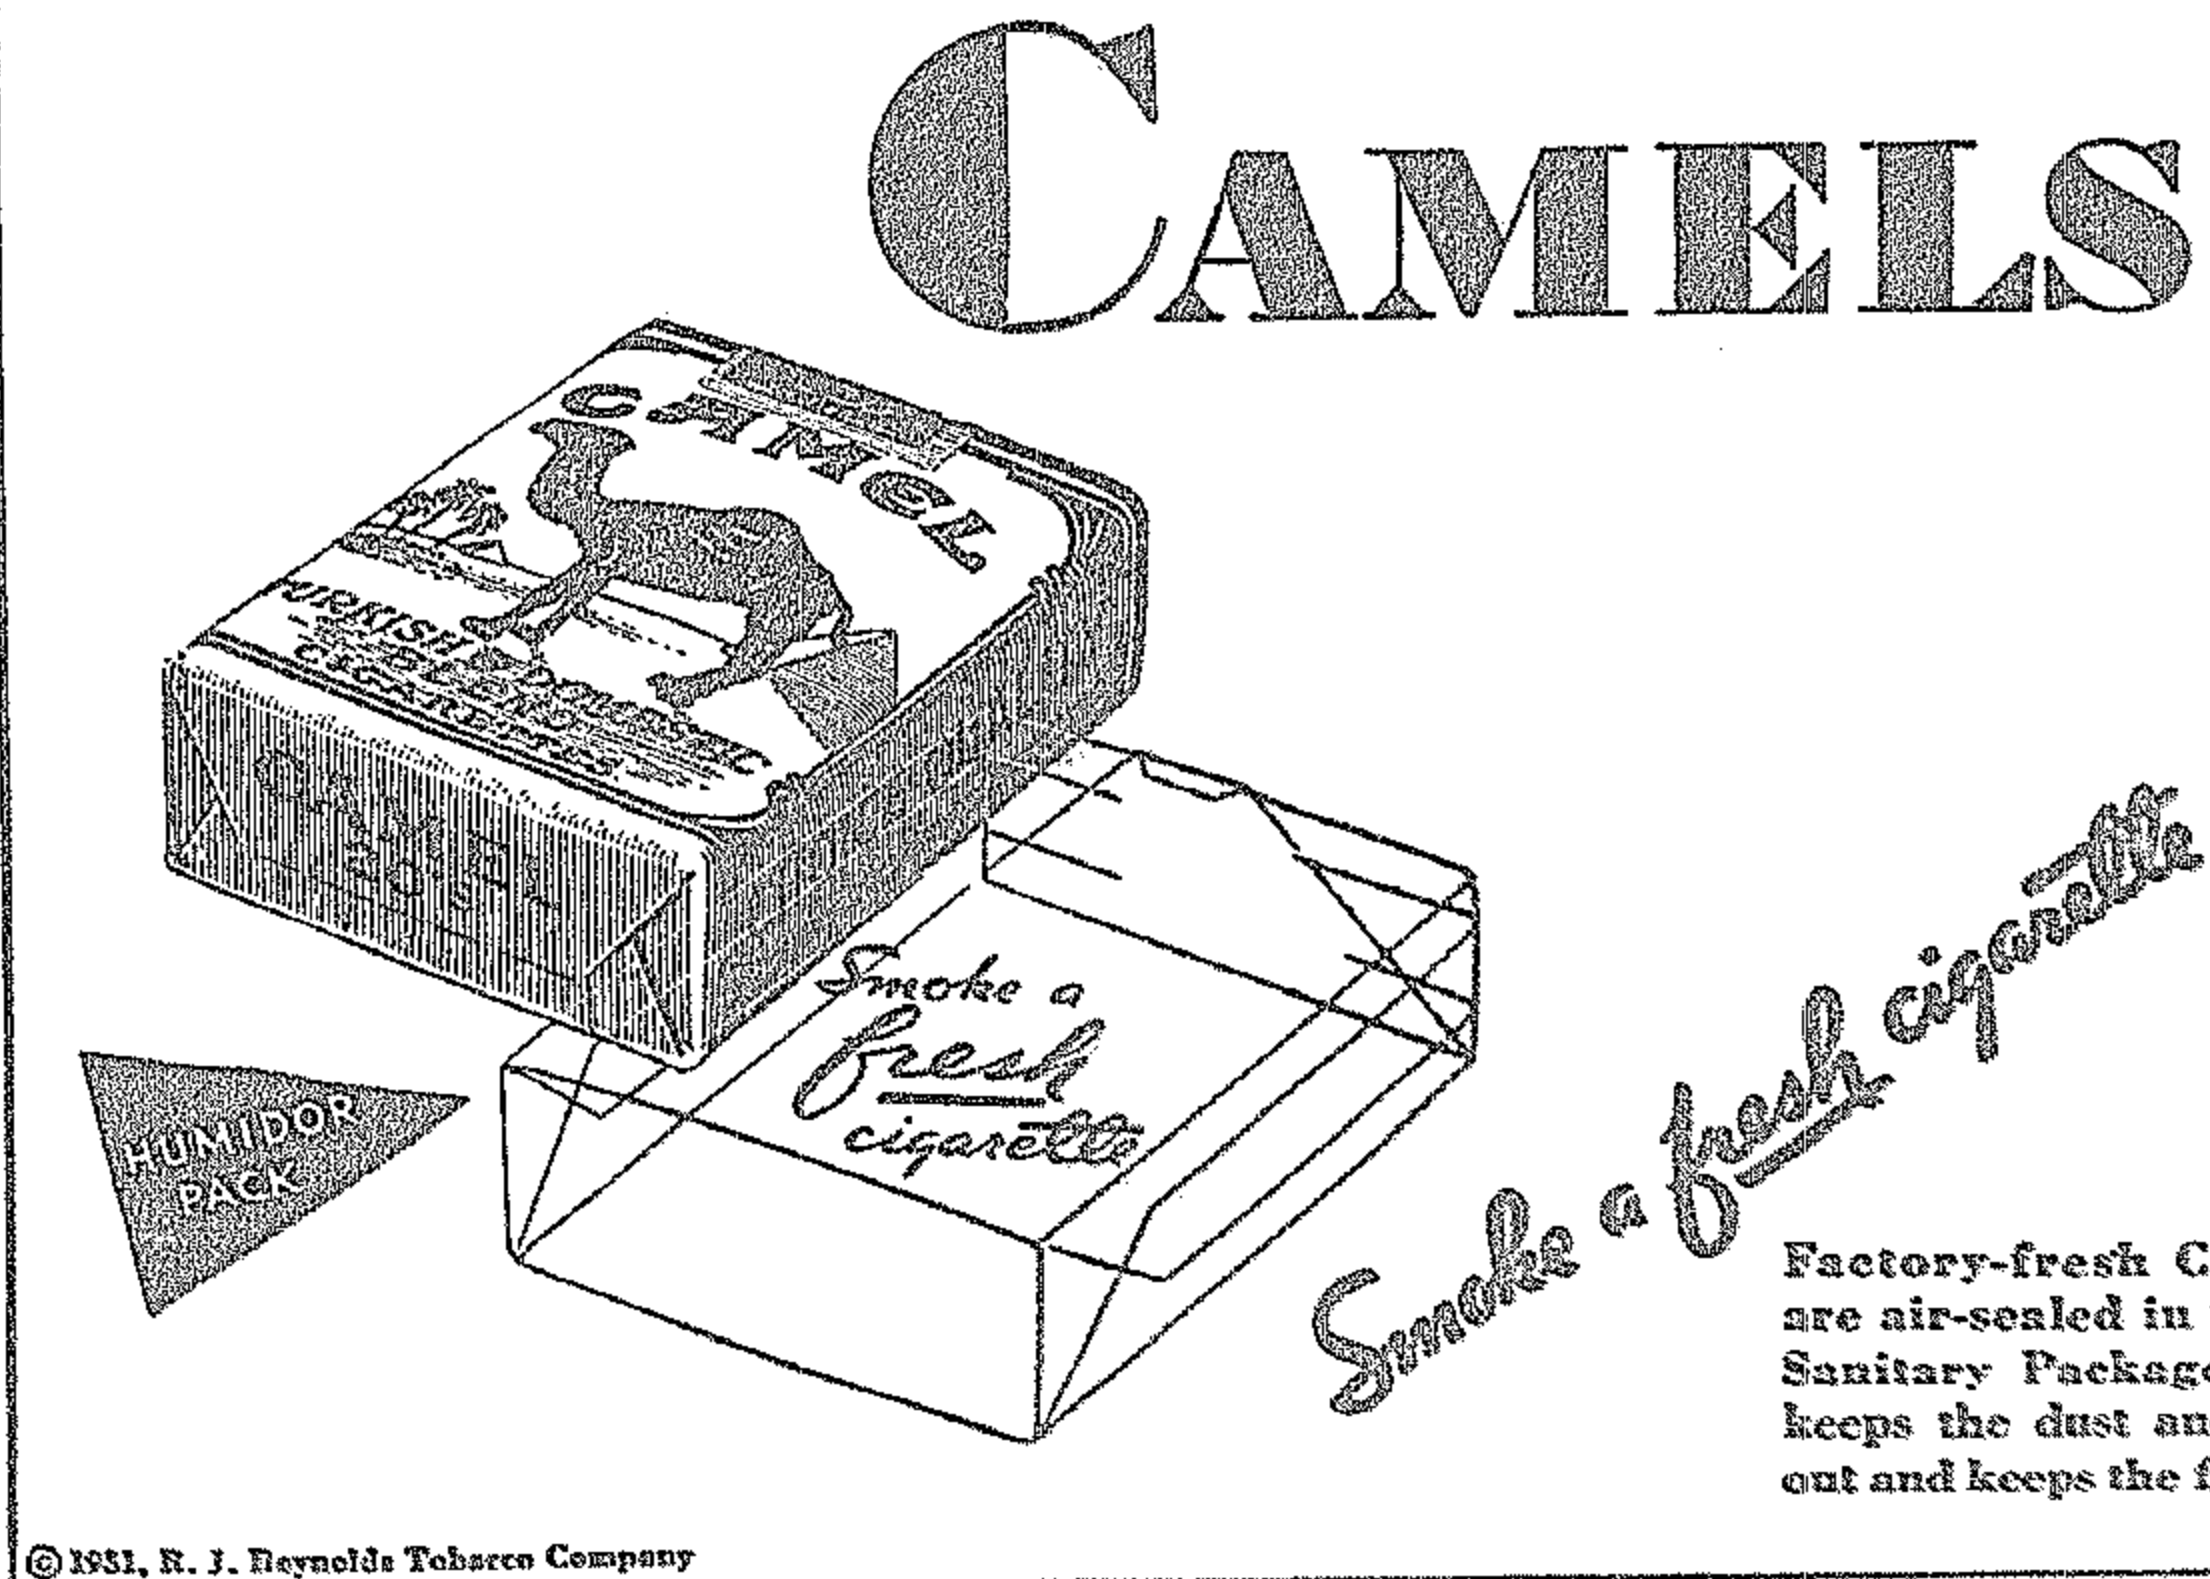

31st Street and Mich. Ave.
Dining and Dancing from 3 P. M. to Midnight
No Cover Charge

Do a little Checking up yourself

DON'T TAKE our word for it, switch to Camels for just one day then quit them if you can. The moment you open the package you'll note the difference between fresh humidor packed Camels and dry-as-dust cigarettes. Camels are supple yet firm to the touch. Stale, dried-out cigarettes crumble and crackle when pressed. But

the real convincer is to smoke Camels. Every puff is a sheer delight of cool, mellow mildness; the Camel blend of choicest Turkish and mellowest Domestic tobaccos, kept in prime condition by moisture-proof Cellophane sealed air-tight.
