

Will Hold Junior Informal Friday

(Continued from page 1)
The main ballroom of the Illinois Women's Athletic Club was finally selected for the event. The ballroom is spacious as well as beautiful and can easily accommodate the maximum of 325 couples for which bids have been printed. The affair will be conducted on the table dance style. There will be tables at which various groups may congregate, and an important novelty will be the fact that punch will be served free, absolutely free, at a buffet. The social committee wish it emphasized that they have made the cost of the affair a minimum by eliminating the serving of food at the tables during the progress of the dances.

THE STEAM SHOVEL

In MELVILLE BAKER WELLS' eleven-thirty strength class, he suggested that the students put their heads under pressure. Perhaps this is the only way he can bring out the results.

The knack of transforming a ball-ancer set to a super-speed motor was successfully accomplished by HOWARD REICHEL. He made the amazing discovery, that by removing the field circuit of a motor, its speed increases, uniformly accelerating, to infinity.

"When winter comes can spring be far behind?"

"In the spring a young man's fancy lightly turns to—"

Ask Ed Flanagan!

Some people are like blottens—they soak up everything, but get it all backward.

GEORGE GLOS, the Clark Gable of Maywood, was seen with the "belle" of Melleney. In private life, George is an ice-man.

Incidentally, for information about red-heads, see "UNCLE" JOE STENO, the ball-pen pitcher of Armour, who can't control his arm, much less his emotions.

Famous last words—A week and a half before final.

FRANK SMETANA, one of our industrious cheer-leaders, fell asleep three times last Thursday during glee club practice.

Then there's the student who hasn't yet been asked to buy a bid to the Junior Dance. He's been absent for two weeks.

Over the week-end, JOE FERNBACH and WES DUMSER studied up on bridge theory, and it wasn't for homework either. (See either for further information about the girls.)

Those in the know report that the Adams of the Jr. Ch. E. class (Mullane) is extremely infatuated by one said Rosalie especially since receiving a perfumed letter from her daily filled with passionate phrases smothering in words of ardent affection.

MAURICE ERISMAN remarks that the Japs are a smart race—consider how fluently they speak Japanese.

Senior Mechanicals are visiting breweries for purposes of studying design. Or so they say! See Johnson or Buchne—they may need assistants (assistance?)

VAN BAUMAN claims that a light fixture was the cause of the bandage on his head. But we wonder if the aim of one of Teach's students wasn't exceptionally good.

The Steamshovel

Goes Frankenstein

This colyum turns around and bites its originator (poor papa). His center nomenclature is EMORY. The whole thing is Ellsworth Emory Eberth, E. E. We don't think it is so worse but he has kept it a profound secret for 22 years (he claims) so what could we do but publish it.

Fraternity Notes

THETA XI

A good crowd attended the radio dance at the house on Saturday evening, January 14. This was the last house function of the semester, although quite a few are planning to attend the Junior Informal.

Our travelling Secretary, Brother Seisam, paid the house a visit over the week-end.

PHI KAPPA SIGMA

On Sunday the actives and pledges entertained guests at dinner and bridge. Everyone had an exceptionally good time.

Plans are being formulated for an interfraternity ping-pong tournament to be held at the various houses in the near future.

RHO DELTA RHO

The semester's ending will be celebrated by a "radio dance" to be given Saturday evening, February 4.

The Christmas Party proved to be a huge success and a congenial time was had by all present. There was plenty of money pumped—in the form of phoney mamma—and everybody attempted to bank the roulette croupier, Brother Louis D'Alba. The odds were all against them. A cheery blaze in the fireplace spread its molten light and radiant heat over the surroundings during the entire affair.

and was the source of an old-fashioned corn pop, with Brother Ira Krawitz as chief popper. Alumnus Sam Milevsky prearranged a hypnotic act with Brother D'Alba and drew many a laugh from the crowd.

Our basketball team lost a tough game to that off Beta Psi fraternity by a score of 17-16. The game was tight throughout and a last minute rally failed by one count to tie the score.

PHI PI PHI

The chapters at Chicago, North-western and Armour will hold their first annual Tri-Chapter Formal Dinner Dance on Saturday evening, Jan. 21, in the main ballroom of the Illinois Women's Athletic Club.

The basketball team put the third and final leg on their fifth straight cup by beating Delta Tau Delta in the final game. The score was 18 to 10.

SIGMA KAPPA DELTA

On Tuesday evening, January 11, Sigma Kappa Delta held its annual election of officers. The following are the men elected to office for the coming year.

George M. Reed—President.
Joseph Stahno, Jr.—Vice President.
Emanuel H. Eubank—Treasurer.
Alexander Kulpak—Recording Secretary.
Beril Hanson—Corresponding Secretary.
Victor H. Cassidy—Social Chairman.

Trackmen Meet Maroons Friday

Friday, January 20, will witness the debut of the Armour track squad in Big Ten circles in dual meets. Another innovation is the setting of the time of the meet for seven-thirty o'clock in the evening. It is expected that the student body and faculty are going to show their approval of this time setting by a great turnout.

Junior Dance Delayed

Even the students who have bought bids to the Junior Dance will have opportunity to see the meet as the time for the beginning of the dance has been postponed until later in the evening. The suggestion has been made that the dance bound students bring their girl friends along to give the University of Chicago coeds some competition, and their home team some support. This suggestion may be followed by the rest of the student body also.

You know the girls are all agog over this track business since the Olympic meets of last summer. So bring your girl friends along, boys, and show them a good time, with economy at a maximum. There is no admittance charge to the Armour games.

PHI PI PHI TEAM WINS FIFTEENTH FRATERNITY TITLE

For fourteen years, now, it has been the custom of Phi Pi Phi to win the interfraternity basketball tournament at Armour; and since a custom is a custom at Armour, they came through the fifteenth year. In so doing they won their fifth consecutive basketball trophy, which goes to the fraternity winning the tourney three years in a row. Next year the fraternity cage teams will be fighting for the first leg on the sixth cup.

It's FUN TO BE FOOLED
...IT'S MORE FUN TO KNOW

HOUDINI:

One of Houdini's most spectacular escape feats was performed with a huge milk can filled with water. He invited persons of the audience to bring padlocks and lock him into the can. He got into the can, the lid was put on and fastened with several padlocks. A screen was placed in front of the can. Assistants stood by with stop watches and fire arms to save him from drowning after a certain time. About a minute later, the screen was removed, Houdini was seen panting and dripping—the padlocks remaining intact!

EXPLANATION:

The usual method of escaping from a milk can is as follows: The lid of the can is apparently securely padlocked to the lower portion, but actually the metal band to which the staples are attached is the top of a short inner lining. The performer, after being locked into the can, pushes the lid upward with his head and the short inner lining is forced out of place, permitting his escape. The screen is then removed.

What exciting magic there is in cigarette advertising!

Let's look at one of its greatest illusions...that cigarettes can be mysteriously given superior "flavor."

THE EXPLANATION: Just three factors control the flavor of a cigarette. The addition of artificial flavoring...the blending of various tobaccos...and the quality of the tobaccos themselves. Quality is the most important. Artificial flavoring can never wholly disguise the poor flavor of cheap tobaccos.

The blending of several cheap, raw tobaccos cannot improve the flavor of any of them. A fine cigarette is a cigarette blended from costly, ripe tobaccos.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

This is why the Camel flavor has never been rivaled... why Camels have given more pleasure to more people than any other cigarette ever made.

In more costly tobaccos lies the secret of Camels' delicate "bouquet"...of their rich, cool flavor—of their non-irritating mildness. It's the tobacco that counts.

All the natural goodness of Camel's tobacco is kept fresh and rich for you by the air-tight, welded Humidor Pack. Don't remove it. Its moisture-proof cellophane also protects your Camels from dust and germs. Put a pack in your pocket today.
