VISITORS ENJOY FEATURES SHOWN OPEN HOUSE NIGHT

Spirit of Friendliness and Cooperation Prevails

MARSHALS ASSIST

Never before has Open House night at Armour been better attended than that which the Junior Class managed Monday evening, May 15. An attempt was made to count the number of visitors at the Institute, but the "counters" finally gave it up as a bad job. The army of parents, brothers, sisters, sweeties, friends, relatives, and prospective students simply refused to be kept tab of—and so the best that could be done was to make an unofficial estimate that twenty-five hundred men, women, and children were the guests of Armour Institute and the Junior Class.

Spirit of Friendliness Present

Probably the most prominent feature of the evening was the spirit of friendliness, co-operation, camaraderie, and informality which pervaded the affair all night. From about seven o'clock, when the stream of visitors began to arrive, to ten o'clock, when the doors of the rooms were finally locked from the outside, the students, faculty, and the marshalls were kept busy answering queries and seeing that everyone got what he wanted—entertainment, if he so desired, or information, if that was what he wanted. As a matter of fact the idea behind Open House night was less of entertainment and more of an honest presentation of the work which Armour students are doing and which they will be called to do after they graduate. After all, parents desire to know whether their sons are investing their time wisely, and prospective students wish a clear rather than a glamorous view of the professions which they are considering entering.

Parents Get Idea of Work

But with this fundamental purpose in mind, entertaining features were still an integral part of the exhibits. After securing the reactions of many of the visitors, it became apparent that most of the "friends" and younger folk catered to the more sensational and spectacular displays; parents in general wanted to get an impartial survey of what their own boy was doing. The parents wanted to know the "what, why, and when" of the more routine work and not of the shows.

Visitors Like Exhibits

In asking the other visitors what features of Open House they liked best, a variety of answers were received. One high school girl coyly admitted that the features she liked best were "those handsome fellows dressed in white showing people where to go." Another lady visitor said that she had had her name written on a piece of paper with a lead pencil, "weighed" on a quantitative balance, and—"I sure was surprised that my eleven letter name weighed point oh, oh, oh, two grams, whatever that is. I gave him my right name, too." One elderly gentleman said that he found Professor Wilcox's lecture on certain physical phenomenon "very interesting and instructive." Quite a few people were "fascinated" by the spectacle of the three foot Tesla coil in the darkened electrical lab. If it would have been possible to canvass every visitor, beyond a doubt each individual demonstration or display would have received its share of votes as "the most interesting thing I saw."

It is hard to say just where the most credit lies for the carrying out of Open House night. The nine junior marshalls and assistant marshalls (the fellows dressed in white) are to be complimented for their share in making the evening one of the most successful of its kind which Armour Tech has ever seen. The faculty can not be forgotten for their very

(Continued on page 2)

SCENES FROM CIRCUS DAY

JUNIOR WEEK ENDS SPRING ACTIVITIES FOR ARMOUR TECH

Juniors Win in Track; Sophs Conquer at Baseball

FROSH WIN RUSH

One more successful Junior Week has at last been written into Armour's history. Open House night, the first event of the week, gave it an auspicious start when it was greeted by a larger and more enthusiastic crowd than ever before. Over 2,000 friends of the Institute attended and were rewarded by a well prepared program.

On Tuesday an interclass soft-ball tournament was run off, for the first time in the history of Junior Week. The event was well received and will probably be continued in the future. The game between the sophomores and the freshmen was practically a walkaway for the sophs, but was played to a finish by both sides. The seniors later won their game against the juniors but lost to the powerful sophomore team in the final game of the day.

Triangle Wins Relay

Following the baseball games came the inter-fraternity relay and a tennis match with George Williams college. Triangle, continuing its successes in other years, won the relay while the tennis matches were won by Armour 5-2.

The annual pentathlon, held Wednesday morning, was as hotly contested this year, as ever, but in the end victory went to George Nelson, the winner last year and the captain of next year's track team. The silver and bronze medals for second and third went to John Roberts and Arthur W. Oberbeck.

Wednesday afternoon was enlivened by a tennis match and a baseball game, both with Wheaton college. The ball game was won by Armour, while the tennis match ended in a 3-3 tie.

Theta Xi Wins Sing

In the evening came the annual spring concert and interfraternity sing. The musical clubs were on their mettle for the biggest event of their season, and that they succeeded in presenting an enjoyable program is attested to by the fact that Professor Leigh declared it the best concert he had heard in forty years. The interfraternity sing, an integral part of the program, was won by Theta Xi.

Thursday was given over to the interfraternity track meet, the colorful spectacle on Ogden field occupying most of the day. It was won by Triangle, although George Reed of Sigma Kappa Delta was high point man in the meet.

Juniors Take Relay

Circus Day dawned dark and forbidding, and intermittent showers occurred throughout the morning. However, the day was not fated to die in dampness; the skies soon cleared and the sun came out. The interclass relay meet was run off in the morning and was won by the juniors.

When the time came for the rush, the sun was shining and quite a crowd had gathered. As the two classes gathered on the field it became evident that the sophomores were greatly outnumbered. However, they hoped to make up for this by strategy, and to this end had provided themselves with a crate of rotten eggs. The freshmen saw the eggs come on the field and John Larson, their rush leader, decided to use his advantage in number forthwith. He shouted "Let's smear the eggs, gang!" and the freshmen rushed across the field to the sophomore goal, passing through a hail of the over-ripe hen fruit, but succeeding in their determination to "smear" the eggs.

When the official rush began, some ten minutes later, the freshmen were confounded by a new piece of (Continued on page 2)

All students planning to enroll in summer school please register in the Dean's office immediately.

Musicians to Have Smoker Thursday

Armour's Musical Clubs will hold a joint smoker Thursday evening, May 25. The faculty members who have been extended invitations are: President Hotchkiss, Professors Heald, Leigh, Scherger, Mr. Allison, and Mr. Kelly.

All members of the musical organizations are cordially invited to attend. At this time awards will be made to those men who have been in either organization for two semesters. The awards will be charms similar to those given in former years.

An interesting evening is being planned for everyone. Entertainment will include card games, free smokes, and refreshments.

Dr. Shannon to Deliver Baccalaureate Sermon

Baccalaureate services are planned for Sunday, June 4 at Orchestra Hall, and Dr. Frederick F. Shannon, whose sermons are heard over the radio by thousands every Sunday morning, will deliver the baccalaureate sermon.

Commencement exercises will take place at the Institute in the Assembly Hall, the following Thursday evening. President Hotchkiss will deliver the address.

PI NU EPSILON ELECTS

Thursday, May 18, Pi Nu Epsilon held a business meeting at which plans for the presenting of skins to the graduating members were discussed. An agreement was quickly reached by the members to leave the decision entirely in the hands of a committee composed of M. A. Collick, chairman, E. G. Avery, and J. L. Brenner. After the committee had been chosen, the election of the officers for the coming year took place. The men elected to office were J. L. Brenner, President; C. W. Clarkson, Vice-president; and E. G. Avery, Secretary Treasurer.

EXAMS GIVEN TO APPLICANTS FOR SCHOLARSHIPS

On Monday, May 22, an examination for scholarship awards was held in the drafting room on the fifth floor of the main building. The examination was of four and one-half hours duration and was given in two parts, one from 10:30 to 12:30, and the last part from 2:00 to 4:30 o'clock.

Previous to this year, scholarships were granted to the highest graduating students from Chicago high schools and were for one year. In the future scholarships will be awarded on the basis of standing in these examinations.

The fellows taking the examination were from most of the Chicago and suburban high schools such as Fenger, Lindblom, New Trier, St. Mel, Roosevelt, De La Salle Institute, Senn, Tilden, Hyde Park, Lane, Bowen, St. Ignatius, Crane, Morgan Park, St. Michael, Tuley, Lake View, St. Leo, Mt. Carmel, Carl Schurz, Dundee Community high school of Dundee, Illinois, Maine Township, Sterling Morton of Cicero, Proviso of Maywood, and Horace Mann of Gary. In addition to the schools near and about Chicago, others who took the examinations were from Marshalltown and Dubuque, Iowa, St. Joseph, Michigan and Omaha, Nebraska. Examinations were mailed to the schools some distance from Armour and these participants were interviewed by an alumnus of Armour. All those who took the examination were required to present a certificate of recommendation from their respective schools and also to have a personal interview with one of the members of the scholarship committee. This committee was composed of Professors Tibbals, Winston, Seegrist and Dean Heald.

The examination was fairly complete and consisted of questions relating to English, history, and civics given during the morning session and physics, mathematics, and chemistry given in the afternoon. Lunch was served in the school cafeteria to all participants at 1 o'clock. Results of the examination are not known at present but will be published in a later issue of the News.

Junior Formal Dance Ends Social Season

Making an appropriate climax to the social events of Junior Week, the annual Junior Formal Dinner Dance was held last Friday night in the Pompeian Room of the Congress Hotel. The dance was attended by a goodly crowd, not only of juniors, but of other classmen as well.

The scene of the dance, the Pompeian Room, was as magnificent as could be desired. The floor was the ne plus ultra in smoothness, and in the center of the room a beautiful fountain played throughout the evening. The same ballroom was also the scene of the freshman-sophomore dance of last year.

Music for the occasion was furnished by Gorde Birch and his Texans, a popular Chicago dance orchestra. The musicians, besides being experts in the playing of their instruments, were also good vocalists, and furnished vocal parts for many of the pieces. Mary Williams, a popular radio singer, also helped the boys along with a few numbers.

The chefs of the Congress Hotel lived up to their reputation by providing a delicious dinner.

Among the chaperons of the dance were Dr. Hotchkiss, Professors Ensz, Grafton, Heald, and Schommer, and their wives. The social committee of the junior class which made arrangements for the dance consisted of R. J. Pfum, chairman, R. Ekroth, G. T. Korink, A. F. LaForce, S. M. Lillis, and G. M. Reed.

Another outstanding feature of the occasion was the favors given to every girl who attended. They were of unusual design, in keeping with the bids, and are a reminder of the good time had by all.

A. S. M. E. SMOKER

Wednesday, May 24, is the date set for the A. S. M. E. smoker. This get-together is planned as a farewell meeting for the senior members of the society, and will be held at the Triangle house.

A general invitation to attend has been extended all members of the faculty and to all junior and senior mechanical engineering students.

An open meeting of the society is being planned for some Friday before the end of the semester.

A.T.M.C. Present Spring Concert Honor Cycles Awarded To Ten Men

The annual spring concert and interfraternity sing was presented by the Armour Tech Musical Clubs in Assembly Hall last Wednesday evening. The concert which was one of the events of Junior Week was attended by many parents and guests as well as students. Theta Xi was declared the most harmonious in the interfraternity sing and was awarded the large silver loving cup.

Ten Seniors Get Cycles

Ten outstanding seniors led by Roy W. Carlstrom were presented with honor cycles by President Hotchkiss. The others were G. J. Beemsterboer, W. G. Buehne, W. W. Davies, J. W. Juvinal, W. W. Lange, F. W. Paine, E. E. Sademan, C. B. Sommer Jr., and J. T. Sorensen. The presentation which takes place annually at the spring concert is based upon a point system which recognizes not only scholarship but all of the various campus activities as well.

Solos Given

The program presented by the Musical Clubs included numbers by the glee club, orchestra, and double sextet as well as several solos by individual members of the organization. Marshall Nystrom and Alexander Kulpak from the glee club sang solos while Theodore Wallschlaeger, Willis Kraemer, and Clayton Coleman gave piano, trombone, and accordion solos respectively.

Several compositions given on previous occasions were included in the concert along with many new ones. "Why Study," a selection of the lighter type, given as an encore by the glee club was well received by the students as was "Dreams," a piano accordion solo by Clayton Coleman which was another performance that received an encore. "Short'n' Bread," "A Song of Fellowship," "By the River St. Marie," and "Keep in the Middle of the Road" were among the other selections given.

Tech Athletics

At the fourth annual Armour Tech Athletic Association Banquet held last Monday, Dr. Hotchkiss discussed the athletic situation at Armour.

He had wondered just what conditions were and just how athletics were run. He wondered whether we, as so many other schools, had an advertising department, a press agency, composed of a few good athletes who put the winning teams on the pages of the newspapers, or who enabled the school to compete with teams of such caliber that publicity was assured. Such men are required, theoretically, to do passing work in their studies. Dr. Hotchkiss knew, as every student knows, that only an exceptional man could really go through our engineering courses on his own merit and also keep the fine edge in training which university sports necessitate.

Dr. Hotchkiss found that, as he had hoped, Armour sports were self-contained. We were not competing against the large universities or trying for showmanship in athletics merely for the resultant publicity. A few specialized individuals did not compose our teams. Our teams are made up of men that have come to Armour primarily to learn engineering but realize also that extra-curricular activities tend to make a well-rounded man.

Perhaps we are in the vanguard of the procession instead of the rear in the process of athletic development and conduction in the universities and colleges of this country. The days of immense stadiums, fabulous expenditures, and super teams in terrific competition are slowly departing.

In their stead we will find the schools fostering and giving opportunity for all students to participate in some form of athletics. The opportunity for development and improvement of all students physically, as well as mentally, will be one of the main objectives in the athletic policy at Armour.

On Smokers

The end of this semester is rapidly approaching and yet we find many organizations still preparing their annual social events. At this time, for the most of us, we would much rather, and could much more profitably spend the remaining two weeks at work in class and at home.

A little forethought on the part of those students in charge of the planning of their events would undoubtedly be of material assistance. By holding smokers and other functions near the middle of the semester there would be less hardship worked on everyone. An enjoyable evening can hardly be spent if much work hangs over

"The Slipstick"

Cleave to "The Slipstick"; let
the Slapstick fly where it may.

Persons born this week will exert a large influence over prosperity providing they build factories and give the unemployed jobs at good wages and give profits to charity. Look out for strangers with briefcases who look like insurance salesmen. They are.

"When did the robbery occur?" the cross-examining lawyer asked the witness.
"I think —," he began.
"We don't care what you think," remarked the lawyer, "answer the question."
"Well, I may as well get off the stand then," replied the witness. "I can't talk without thinking. I'm no lawyer."

LUCKY HUMANS

Cheer up!
You have two chances—
One of getting the germ
And one of not.
And if you get the germ,
You have two chances—
One of getting the disease
And one of not.
And if you get the disease,
You have two chances—
One of dying
And one of not.
And if you die—
Well, you still have two chances.

Paradise Regained!

The world was dark and gloomy, as
he motored down the street,
He'd lost his friends; he had no home;
his plans had met defeat.
One tire was flat and punctured and
the engine hit on three
His countenance was darker than the
'membrane of a spree.
Yet when he pulled in to the curb,
joy lighted up his face,
And life seemed very sweet again,
he'd found a parking place.

"So Joe was the life of the party?"
"Yeah. He was the only one who could talk louder
than the radio."

Ella: "Is anyone looking?"
Stella: "No."
Ella: "Good, then we don't have to smoke."

And if money is the root of all evil, the world is
certainly fast getting to be a better place in which to
live.

FINALE

The lecturer was emphasizing the demoralizing effects
of divorce. "Love," he said, "is a quest; a proposal, a
request; the giving of a daughter's hand in marriage, a
bequest; and marriage itself, the conquest. But what is
divorce?"

Voice from the audience: "The inquest."

First Techawk: "I wonder how old Professor Scherger
is?"

Second Techawk: "Pretty old, I guess. I hear he used
to teach Caesar."

And if 'twere not
For this here verse,
There'd be a joke here
Ten times worse.

Professor: "Ill not go on with the lecture until the
room settles down."

The nimble one: "Better go home and sleep it off old
man."

Description of A. T. A. A. Banquet

Before the banquet the old breadbasket was like this:

.....
.....
.....
.....
.....

After the banquet the breadbasket was like this:

.....
.....
.....
.....
.....

"Peter is working like a Trojan."
"There are some people who will do anything for
money."

If you have a train of thoughts running through your
head, be sure it doesn't consist of a string of empties.
THE DEACON.

the head that must be completed in a short space
of time.

Many of these functions could just as well be
held in mid semester as in the closing weeks of
school. More people would be able to attend and
a better time would be had by all.

MOVIE NOTES

Complying with the thousands of requests received, Balaban & Katz officials announce that they have booked Hal Kemp and his orchestra into the Chicago Theater for one week starting Friday, May 19. This is the first time that Kemp's orchestra have ever appeared in any theater in America.

Marion Davies is said to give the best performance of her career in "Peg O' My Heart" which is featured on the screen.

Charles Bickford, Richard Arlen, Mary Brien, Jean Hersholt, Louise Dressler, Andy Devine and George E. Stone play the leading roles in "Song of the Eagle" drama portraying the march of events of America during the past two decades, which is now at the McVickers Theater.

Frankie Masters is returning to the Tivoli Theater!

Headline stars from the Chicago Theater will combine their talents with Masters and his versatile orchestra to bring a stage show of outstanding entertainment to the Tivoli for the week starting Friday, May 19.

On the screen during this festive period, will be one of Hollywood's most important contributions of the year, "The Barbarian," a love-drama of the desert that features Ramon Novarro, Myrna Loy and Reginald Denny are also starred in "The Barbarian."

Battles between anti-aircraft guns and airplanes, ships being torpedoed by submarines and a battle between a naval fleet and a fortified town are among the highlights of "Hell Below" current screen attraction at the United Artists Theater. Much gunpowder was used when a submarine driven by Robert Montgomery "rammed" a fort and with the explosion blocked a harbor full of destroyers.

ARX NEWS

The seniors witnessed the grand finale of their school careers during the week as the last project of the year was turned in for judgment. Marti NALTSCHULER and Tom "Kentucky Kunnel" LUCKETT were the recipients of second medal awards while Seniors COLE, KUBICEK and SKUBIC were given mentions. Besides the members of the faculty, the jury was composed of Mr. Pierce BLOURKE, Chicago architect, and Mr. Ely Jacques KAHN, chairman of the architectural department of the Beaux Arts Institute of Design.

Some freshman have been seen playing hide and seek among the new artificial shrubs and plants with which the galleries of the Art Institute have been decorated for a "Century of Progress."

Seventeen juniors salted away mentions in a recent rating of their still life water colors.

The juniors and sophs are not to be disturbed. No, they're not asleep (much); but their "Beach Clubs" are due Thursday. Come on, you "niggers"!!

Hans "Pure" Nelson has been the target of a good bit of "raspberry" of late. The story runs something like this: Hans receives message to report for "Fair" job; H. P. appears on scene of employment; does not get position!! Why?—just another case of mistaken identity—the message being "for the boy next door."

"Frosh" BEJCEK brought home laurels to his class by copping one of the two first places garnered by the "Tevkhawks" in the Elmhurst Inter-collegiate Invitational track meet. His stellar performance was in the high jump.

Well, it's finally here! Ted IRION, massier of the Architectural Society announces that the freshman will be initiated into the Society on Thursday afternoon, May 25. And if the frosh can manage to sit down after the exercises, they will have the pleasure of attending a banquet in the evening. O. K., you upper classmen, get those paddles and barrel staves out of the moth-balls.

EAGLE EYE.

Visitors Enjoy Open House

(Continued from page 1)

fundamental part in arranging and supervising the exhibits, and finally, without the whole hearted cooperation of the students who did the actual work—the men behind the guns—Open House would have been a failure. But cooperation is just what there was plenty of. Out of one departmental class of twenty-eight, there showed up actually twenty-two of them for voluntary work.

While professors and students were busy doing their best to entertain the visitors, it cannot be said that these workers did not get any personal satisfaction out of their efforts. In fact, many of the students while noticeably perspiring still were in their element explaining things to wide eyed spectators. Some were plainly hoarse from imitating the lectures of their professors, yet kept right on lecturing, and liked it. The professors admitted getting a kick from the chances they received to talk to the parents of the boys they are teaching. Several of the faculty said they talked to about six or seven such sets of parents. Herb Rasche, a junior electrical, got a "kick" from the Tesla coil which knocked him down. But Herb showed that he could take it by getting right up again before the count of ten, ready for more.

THEATRE

The closing day of the Art Institute Members' Series at the Goodman Theatre is Phillip Barry's "Paris Bound," a witty lively comedy offering quite the proper note to end an unusually successful season. Phillip Barry is, without doubt, the most important writer of social comedy in the contemporary American theatre. "Holiday," "White Wings," "The Animal Kingdom" and "Tomorrow and Tomorrow" have made his reputation for many years to come, but "Paris Bound" is without question better than most of these and as entertaining as the best.

"Paris Bound" opened on Monday evening, May 22nd at 8:30 and continues through Thursday evening with matinees at 2:30 on Thursday and Friday, May 25th and 26th.

Fraternity Notes

PHI KAPPA SIGMA

Our annual Senior Farewell Party will be held next Friday night, May 26, in the Pompeian Room of the Palmer House. Most of the fellows and a number of alumni are planning to attend this formal dinner dance, the final of our year's social activities. Richard Cole will furnish the music, and the chefs will provide the famous Palmer House cuisine.

If the weather was in accord, our chapter picnic last Sunday was a great success. The Indiana Dunes provide an ideal spot for an all day outing with plenty of benches for eating and a large number of beautiful trails for hiking.

"Russ" Sullivan is back in Chicago again and will be living at the house during the course of the World's Fair.

SIGMA KAPPA DELTA

The various events during Junior Week kept all of the teams busy, and gave everyone a chance to participate in something. The baseball team started the week off right by beating Rho Delta Rho. The game was hotly contested throughout and was close. The team is well balanced and we're out gunning for the championship.

The track team was not quite so fortunate, and was nosed out by Triangle. Everyone was in there giving their best, and the contest was hard fought to the end. Brother George Reed was the star of the meet, taking first in four events. The Pledge Dance was held on Saturday, May 20. There was a good turnout, and a number of alumni were present.

TRIANGLE

This Saturday evening the 27th of May, we will celebrate our tenth anniversary of the chapter at Armour.

Our hard work-outs on the track have been rewarded by again winning the interfraternity relay and track cups. The Junior week was fittingly brought to a close by an enjoyable evening at the Junior Prom.

Junior Week Ends Spring Activities

(Continued from page 1)

strategy on the part of the sophs. A small guard had been posted at the freshman goal, but fully half of the sophs, disregarding the bags, went directly to the goal and completely blanketed this force. When the freshmen began to return with the bags they found the sophomores there before them. Within a few minutes, the entire battle was concentrated in the region of the freshman goal. At first the sophs were entirely successful in keeping all of the bags out of the goal, but the tide soon began to turn, and sophs and bags were pounded down into a squirming heap in the corner. When the struggle finally ended, the freshman had won 58 to 0.

The rush ended a week of battling between the frosh and the sophs; much flag flying and, particularly on Friday morning, a great deal of egg throwing. The cessation of hostilities came just about in time to permit the combatants to get ready for the Junior Formal.

After the rush came the interfraternity pageant which was won by Delta Tau Delta with a review of some of Armour's past years and a prophecy for its future, called "Retrospect."

Climaxing the activities of the week came the Junior Formal when everyone relaxed to the tunes of Gorde Birch's melodies. So ended another successful junior week.

Lieut. D. A. Ogden Speaks Over Radio

Lieutenant D. A. Ogden of the United States Engineer's Corps will speak on "Chicago and the Illinois Waterway" next Sunday on the Armour Radio Program. He will give the history of inland waterways and shipping, and will also discuss the effect of the Erie Canal upon shipping.

The Illinois Waterway starts at the Sanitary Canal, goes from there to Lockport, Brandon Roads Pool and then to the Illinois River. Lieutenant Ogden will describe these parts of the waterway and their importance in shipping.

Last Sunday W. D'Arcy Ryan, chief of the Department of Exterior Illumination at the World's Fair, described the lighting effects at the World's Fair, and the devices and systems used in obtaining these unusual effects.

BETA PSI

The Senior Farewell dance is planned for Saturday evening, May 27. By popular request, the affair will be strictly summer formal. Invitations have been sent out to a number of alumni so a considerable attendance is expected.

THETA XI

The annual picnic of the chapter will take place next Sunday but the place has not yet been chosen. A smoker for the alumni was given last Monday night and was well attended.

Ray Nelson is to be commended for his work. Under his leadership we won the cup at the interfraternity Sing last Wednesday. The baseball team is all set for the final game with the S. K. D.'s Wednesday.

SIGMA ALPHA MU

Our hard times party was a great success with not only the chapter members attending, but also having a number of alumni present.

RHO DELTA RHO

The following men were chosen to hold offices in the fraternity for next year:

President—Theodore R. Cohan.
Vice President—Alfred J. Rosen.
Treasurer—Louis D'Alba.
Recording Sec'y—Jack N. Weiland.

Corresponding Sec'y—Charles K. Goldberg.

Sergeant-at-Arms—Archie Anders.
Social Chairman—Milton J. Heller.

The fraternity baseball team lost their game with the S. K. D.'s by the narrow margin of one run, the final score being 13-12. Brother Charles Handler was particularly effective in socking triples off the pitching of Stehno, the opposing pitcher.

HAWK TEAM SPLITS DOUBLE HEADER ON ELMHURST DIAMOND

DEFEATS WHEATON 19-1

Takes Opener By Score of 12-5. Fades In Nightcap 9-4

After winning the opening game of a double header with Elmhurst College at their home grounds last Saturday afternoon by the lopsided score of 12 to 5, the Tech baseball team took it on the chin by losing the nightcap, 9 to 4 to the Elmhurst nine.

Because of an all night rain, the initial contest was played on a soggy diamond with Ed. Baumel going on the mound for the Engineers, while Behle did the hurling for the home club. Since both games were played away from home, Armour took the field in the opener while Elmhurst did likewise in the finale.

Elmhurst jumped into a one run lead in their half of the first inning when Zillinski dumped a double into the lily-pond in right field with one dead. Behle promptly scored his teammate with a line single to center. Baumel tightened up and no further damage was done.

Hawks Score 7 Runs

Going into the last half of the fourth frame, trailing by the score of 3 to 2, the Kraftsmen "went to town" with a 7 run splurge to sew up the ball game as far as the final score was concerned. Adamec opened up the big winning with a wallop to right center. Stehno also singled and went to second when the center fielder kicked the ball, Adamec racing around to third on the play. Biegler joined the band wagon by punching a texas-league single behind second, scoring two runs. Two errors, a wild pitch and a free pass loaded the bags. Vic. Omiecinski, a dangerous man in a pinch, got hold of one and poled a long hit over the left fielder's head for a home run, to swell the run total to six. Ted Omiecinski, who would not be able to sleep at night, should his cousin pounded out a double to score a moment later on a Lillis' single over short. Adamec and Stehno both up for the second time, struck out to end the inning.

The rest of the game was rather uneventful, except for a home run by Reed and Armour outscoring Elmhurst 3 to 2 to make the final score of 12 to 5. Baumel, after a shaky start, twirled a steady game to add another victory to his strong.

Box Scores

Table with columns AB, R, H, PO, A for Armour (12) and Elmhurst (5). Totals: 38 12 16 27 10

Table with columns AB, R, H, PO, A for Elmhurst (5) and Armour (12). Totals: 111 000 00-5

Errors—Sommer, V. Omiecinski (2), Baumel, Bork, Uthlaut (2). Home Runs—Reed, V. Omiecinski. Three-base hit—Stehno. Two-base hits—T. Omiecinski (2), Baumel, Zillinski. Stolen Bases—Reed, Lillis, Wegner, Bork, Baumrucker. Base on Balls—Off Baumel, 9; off Behle, 6. Hits—Ox Baumel, 8 in 9 innings; off Behle, 15 in 8 innings. Wild Pitch—Behle. Struck out—By Baumel, 6; by Behle, 13. Double play—Biegler to V. Omiecinski. Umpire—Ralph.

Lost Second Game

The Techawks ran into unexpected opposition in the nightcap, the chief hurdle being a pitcher named Bloesch who completely subdued the Engineers, allowing only four hits and striking out 12 batters. George Mayer, Tech ace, who was thumped considerably in the early innings, suddenly found himself and pitched shutout ball to the end of the game.

Armour went into a momentary lead in the first half of the opening inning when Reed opened the game with a hit and traveled to third on Sommers' hit to the same spot. Reed

was out at the plate but Sommer scored on a fielders choice and an error. Elmhurst went into a lead that it never relinquished when they scored 4 runs on 4 hits, base on balls, two stolen bases, an error and a wild pitch. Five more runs in the next two innings made it a hopeless cause for the Techawks who could not find the home pitcher.

Struck out—By Mayer, 5; by Bloesch, 12. Umpire—McBroom.

Michigan Normal Wins

In their second meeting of the season the Michigan State Normal baseball team from Ypsilanti again defeated Armour Tech. The Normal team won by virtue of a ninth inning rally which netted them three runs and gave them the game. The visitors compiled a total of 12 hits, which were good for 6 runs; Armour made their four runs on 6 hits, two of which were home runs by Tad Omiecinski and Chuck Sommer.

Michigan Scores First

The first score of the game was made by Michigan Normal in the third inning. They added two more runs to their total in the first of the seventh, and as a result the Techawks went into the last half of the seventh trailing three to nothing. However, in this inning Tad connected for his home run over the left field fence; and then in the last of the eighth Armour staged a three run rally, which featured Sommer's homer with one man on the bases. These "clouting" activities gave the Tech nine a four to three lead going into the ninth inning.

The Techmen lost their lead in the first half of the ninth inning, when the Ypsilanti team got to Mayer for three runs.

Tech Beats Wheaton 19-1

The Wheaton college baseball team last Wednesday afternoon ran into a barrage of base hits, runs, good pitching, and good fielding on the part of the Armour nine and were defeated by the aforesaid hard-hitting Techawk team, 19 to 1. After losing a close game to Michigan Normal on Monday of the same week this game served to put the Kraftmen in a better mental condition.

Improve Batting Averages

And the way the batting averages went up! They resembled the stock market in the good old days of 1928. The Tech team collected 17 hits with Joe Stehno, playing his first entire game as a catcher, and Tad Omiecinski leading Armour's attack with four hits and three hits respectively.

Morelli Pitches Well

Coach Kraft used Morelli the entire game to throw them at the Crusader batsmen and he turned in dandy five hit performance. Incidentally, Morelli had fine support from his team mates. The Armour fielders had 19 assists and only one error, which is some fielding for any man's baseball team.

Athletes Feted at Annual Dinner

Monday evening over 150 Tech athletes attended the fourth Athletic Banquet at the Chicago Athletic Club. This banquet was the largest ever held since the inception of this annual event.

Speakers and guests of honor included President Hotchkiss, Dean Penn, Professor Heald, Professor Schommer, Mr. Allison, and Mr. Harold Munday of the Board of Trustees. The coaches and managers were seated at a table facing the speakers' table and were paralleled by tables seating the invited guests.

Professor Schommer acted as toastmaster of the evening and as usual performed in his very capable and popular way. Musical entertainment was furnished both by local and outside talent.

OTHER CAMPUSES

Coeds taking courses in home economics at Temple University are required to play nursemaid to a group of rats.

A survey conducted by a sociology class at Marshall College revealed that sex appeal ran second to health as a requirement in an ideal marriage.

According to the Purdue Exponent, one of the duties of the first professor of Rochester University was to chase cows off the campus.

During "posture" week at Smith College, girls walked around the campus carrying their books on their heads.

A nudist colony has been formed at North Carolina State College. According to the statements of passing motorists, the colony boasts a large following. And why not?

Triangle Again Wins Interfraternity Track

Table with columns TEAM STANDING, Triangle, Sigma Kappa, Delta, Beta Psi, Phi Pi, Phi Kappa, Sigma.

Displaying a well-balanced team that scored points in every event of the meet, Triangle won the annual interfraternity track meet last Thursday for the third time to win permanent possession of the traveling cup. Of the thirteen events, Triangle men finished first in four, while members of the Sigma Kappa Delta team took seven firsts, but the majority of the second and third places pulled up the Triangle score and provided the winning margin. Beta Psi captured the other two first places and finished third in the running.

George Reed, Sigma Kappa Delta, won the high point man gold medal in taking four first places to score 20 of his team's points. The Triangle scoring was well distributed among the members of the team, Steve Lillis at the head with 13 counters. Bert Hanson, Sigma Kappa Delta, took first in the high hurdles and half mile, and finished first in the mile but was disqualified for fouling on the turn.

The meet was run off systematically and in record time. The large crowd present cooperated with the marshalls in keeping the track and field clear, although several fellows were nearly speared by the javelin. The discus throwers' aim was also pretty good.

ALICE RESTAURANT 3117 Wentworth Avenue A DAILY ARMOUR SPECIAL—25C Choice of Meat or Fish, with Vegetable, Bread, Butter, Coffee, Tea, or Milk, and Desert. Also Cold Plate Luncheon.

The interfraternity relay was also won by Triangle, the two cups being presented with the rest of the awards when the Circus Day activities were over.

- SUMMARIES 100 Yd. Dash—Won by Reed, S. K. D.; second, Friede, Phi Pi; third, Dunn, Beta Psi; fourth, Scott, Triangle. Time—11.3. Mile Run—Won by McDonough, Triangle; second, McBrady, Triangle; third, Kuh, Beta Psi; fourth, Siegal, Rho Delta. 100 Yd. High Hurdles—Won by Hanson, S. K. D.; second, Berglund, Triangle; third, Krause, S. K. D. Time—17.6. Broad Jump—Won by Reed, S. K. D.; second, Smith, Triangle; third, Breh, Beta Psi; fourth, Berglund, Triangle. Distance—18 ft. 3 in. 220 Yd. Dash—Won by Reed, S. K. D.; second, Kenner, Triangle; third, Scott, Triangle; fourth, Castaner, Phi Pi. Time—25.9. Discus Throw—Won by Lillis, Triangle; second, Burson, Beta Psi; third, Zimmerman, Phi Pi; fourth, Giovan, S. K. D. Distance—89 ft. 100 Yd. Low Hurdles—Won by Stehno, S. K. D.; second, Smith, Triangle; third, Krause, S. K. D.; fourth, Berglund, Triangle. Time—13.8. High Jump—Won by Reed, S. K. D., tied for second, Wittekindt, Beta Psi; third, Tullafus, Phi Pi; fourth, Burson, Beta Psi. Distance—4 ft. Shot Put—Won by Lillis, Triangle; second, Eberth, Phi Kap; third, Stehno, S. K. D.; fourth, Burson, Beta Psi. Distance—31 ft. 0 in. 440 Yd. Run—Won by Kenner, Triangle; second, Friede, Phi Pi; third, Baehner, Triangle; fourth, Wheaton, Phi Kap. Time—57.6. Pole Vault—Won by Bristol, Beta Psi; tied for second, Lyford and Berglund, Triangle. Height—9 ft. Javelin Throw—Won by Cordis, Beta Psi; second, Lillis, Triangle; third, Burson, Rho Delta; fourth, Lauchickis, Phi Pi. Distance—143.2 ft. 800 Yd. Run—Won by Hanson, S. K. D.; second, McDonough, Triangle; third, McBrady, Triangle; fourth, Kuh, Beta Psi. Time—2:21.

Some things you can Prove

Like the Milder, Better Taste of Chesterfields

JUST trying a package or two will show you that Chesterfields are Milder and Better-Tasting. But you can't learn much about why they're that way... except by taking our word for it.

Wherever cigarette tobaccos are on sale, there you will find our buyers, busy picking out and purchasing ripe, mild tobaccos—almost good enough to eat.

Then they are blended and cross-blended—Domestic and Turkish both—in just the right proportion... so that there'll be just one good flavor and aroma.

They Satisfy people know it

TECH SHORTS

By Ray Fleissner

As soon as thoughts of Junior Week pass on, we will have to settle down and get back to work. With only two weeks of school left, it's going to be a real job to finish the semester all square.

Nice Mud Wasted

During the Class Rush on Friday, several upper classmen were heard commenting on the fact that a great deal of good, slushy mud in the region of the baseball diamond was going to waste, because most of the fighting was taking place in the far corner of the field. It was also noted that the same upperclassmen were rather shy at offering suggestions to the battlers in the field.

The same rain that so thoughtfully provided the slush in Ogden Field, turned the interclass relay into a swimming event. The juniors proved their mettle, or something, and swam in first, with the freshman a close second.

Wotta Man, Erisman

After finishing the track season as manager, Mauric Erisman decided that it was about time he learned how to start the runners. He was official starter of all track events during Junior Week and they kept him plenty busy.

Art Oberbeck and George Nelson, running third and anchor on the junior relay team, respectively, each ran their laps beautifully. The reasons—both thought it was about time they had a silver track shoe to hang on their watch chains. Art, who ran his last race at Armour in the relay, will not be back next semester as he received an appointment to West Point. Nice work, Art. On the other hand, George has run on many teams competing for such a trophy, but never has had the luck to get one.

Techawk Nips Crusader

While the Hawk baseball team was pushing the Wheaton Crusader around the diamond, the two tennis teams played to a deadlock at three all, on the Tech courts. Dick Armbrury, one of the Tech mainstays, was out with a leg injury but the boys promise to get them in the return meet which will occur tomorrow.

Nelson Wins Pentathlon

One of the biggest surprises of Junior Week was the large turnout for the pentathlon on Wednesday. Eight men competed, two of whom were not members of the track team. Nelson finished a small margin ahead of Roberts to take the decathlon title for the third straight time, with Oberbeck a close third. The other contestants in order of finish, were: Kulpak, Pattison, Fleig, Scanlon and Harris.

The weather was fine and probably had something to do with the large turnout. A suggestion has been made to limit the entrance of track lettermen or else award a medal for high point non-letterman, and this would be expected to further increase the turnout.

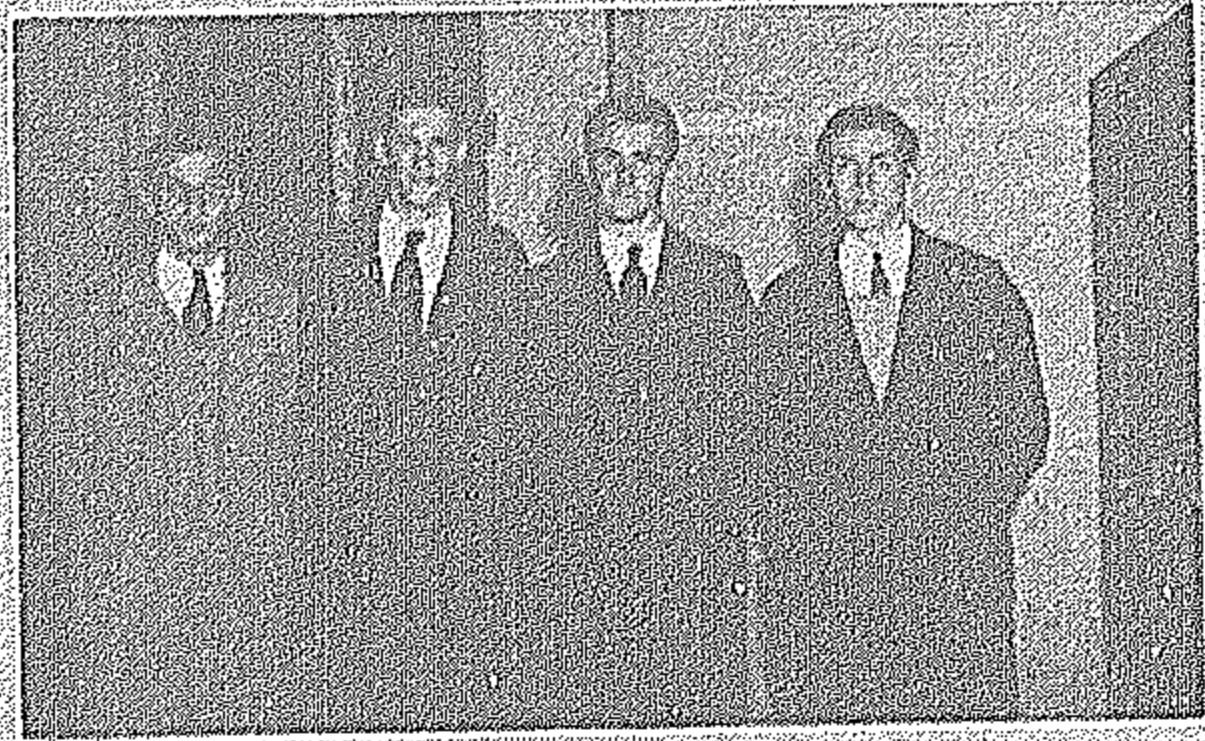

Some Banquet

Techawk athletes were treated to a big spread Monday night at the annual A. T. A. A. banquet at the Chicago Athletic Club. Some pretty good stories came out at the head table and the other entertainment wasn't bad.

The interfraternity track meet was featured by some spirited running, and George Reed was in the midst of the fray. He emerged as high point man, winning the 100 yard dash, 220 yard dash, high jump and broad jump for a total of 20 points. However, the Triangle team, scoring in every event, won the meet. Triangle also won the interfraternity relay, and thus walked away with two cups.

Either the freshmen were too tired after the rush or else the crowd of upperclassmen that backed up the Junior Marshals looked too formidable, last Friday, when an idea was brought around to dirty up the presiding gentlemen in the clean flannels and sweaters. All in all, however, the entire week was a decided success, and the marshals are to be congratulated on their part of the work.

JUNIOR WEEK SPORTS

The championship junior interclass relay team, left to right, Fleissner, Nelson, Oberbeck and McBrady. The relay was run in a downpour Friday morning.

Lou Streb, Tech tennis captain, in action on the home courts in a match against George Williams College.

George Reed, high point man in the interfraternity meet, jumps 18 feet, 3 inches for a first in the broad jump. He also won the 100 yard dash, 220 yard dash and high jump.

The sophomore softball team that beat the seniors in the final game. In the prelims, the seniors beat the juniors, and sophs beat the freshmen.

Johnny Roberts and George Nelson in a close-up at the finish of the 100 yard high hurdles in the decathlon.

Tech Netmen Defeat Williams; Tie Wheaton

By defeating the George Williams College tennis team five to two and tying the strong Wheaton College net team three matches apiece, the Armour Tech tennis squad brought their season's average to three matches won, two lost, and, one tied. The meets were played on successive days last week, Tuesday and Wednesday, and gave the Armour net squad their first good week of practice for this season.

Tie Wheaton

After triumphing over George Williams the Tech team played Wheaton College to a tie, the final match score being three all.

Captain Streb led the Armour net squad by defeating Carlson, number one on the Crusader squad, to the tune of 6-0, 6-1. One of the best matches of the six played was Paine's match with Newson of Wheaton, who finally won out in three sets 6-4, 4-6, 8-6. Summaries:

Singles

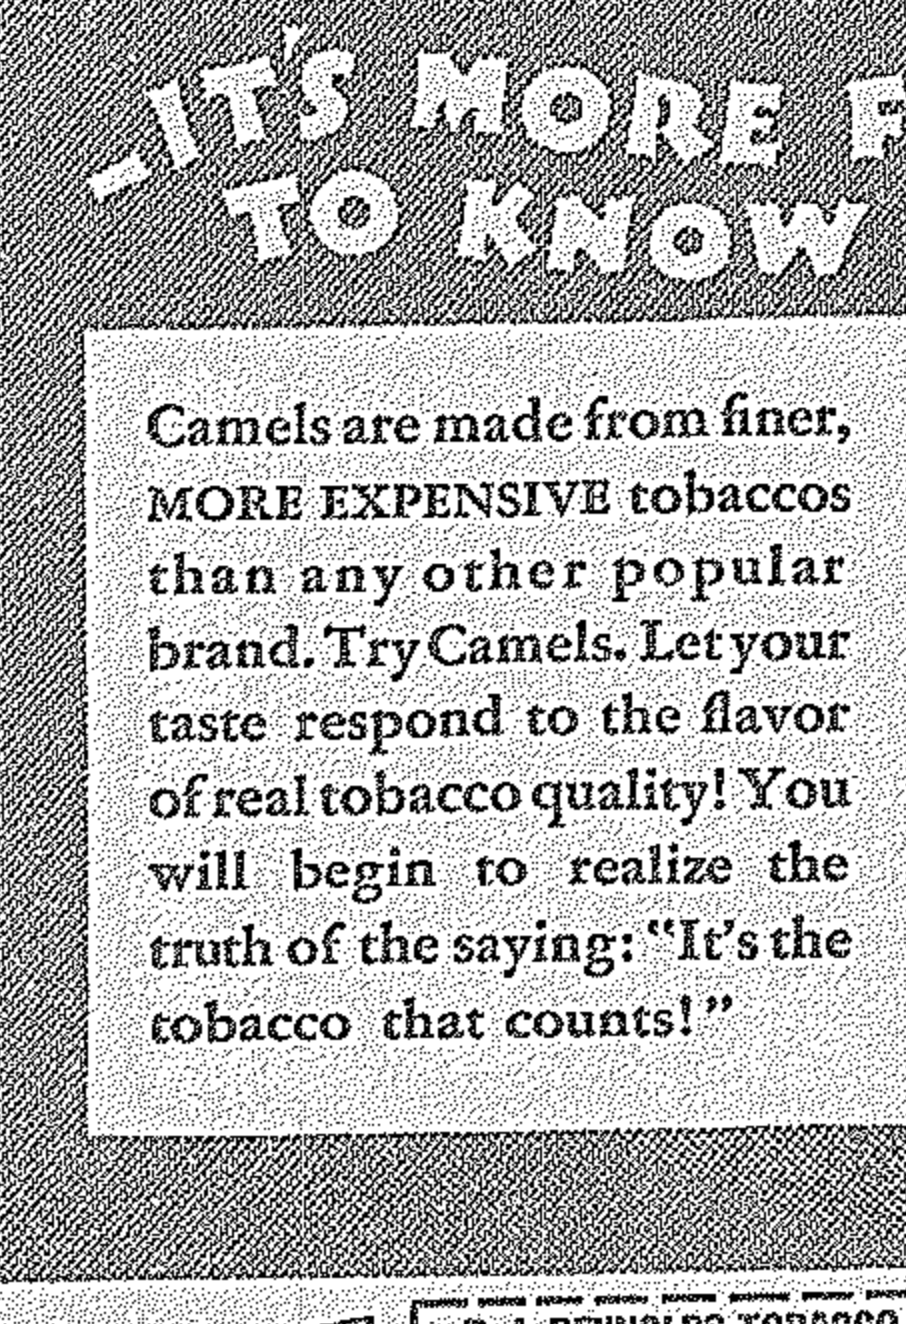

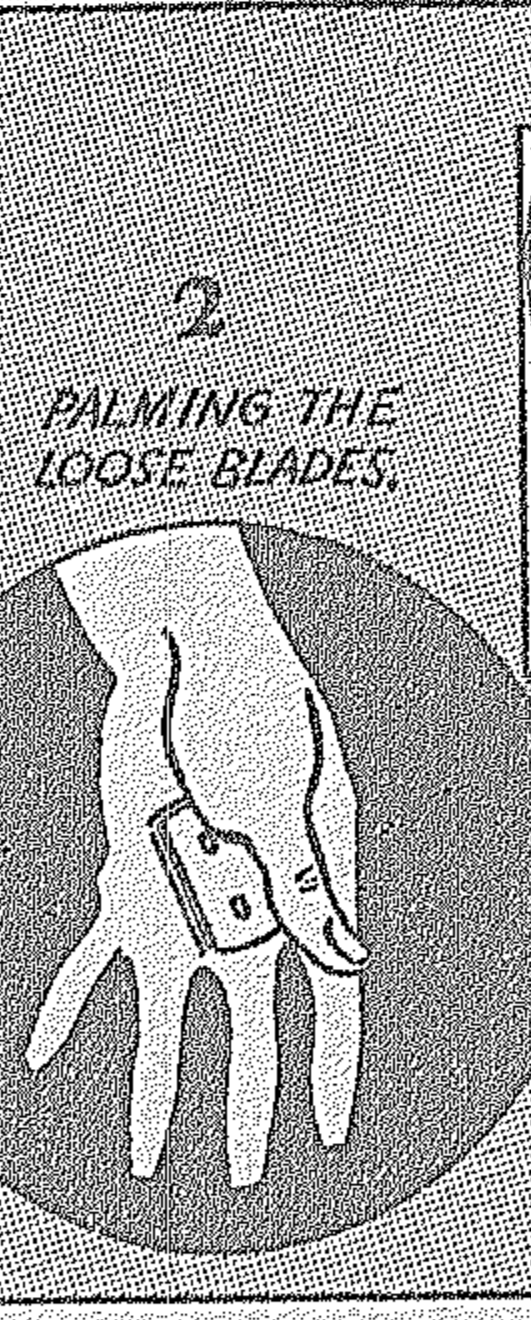

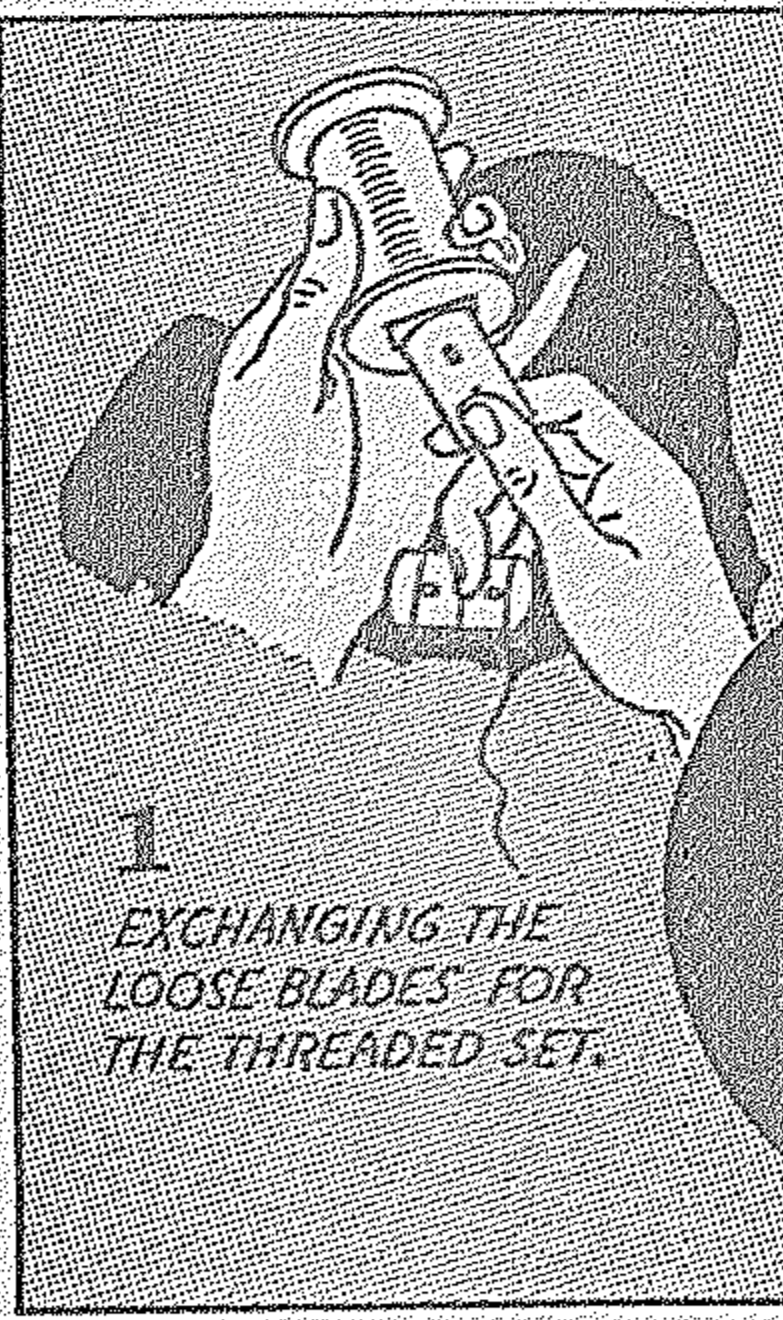

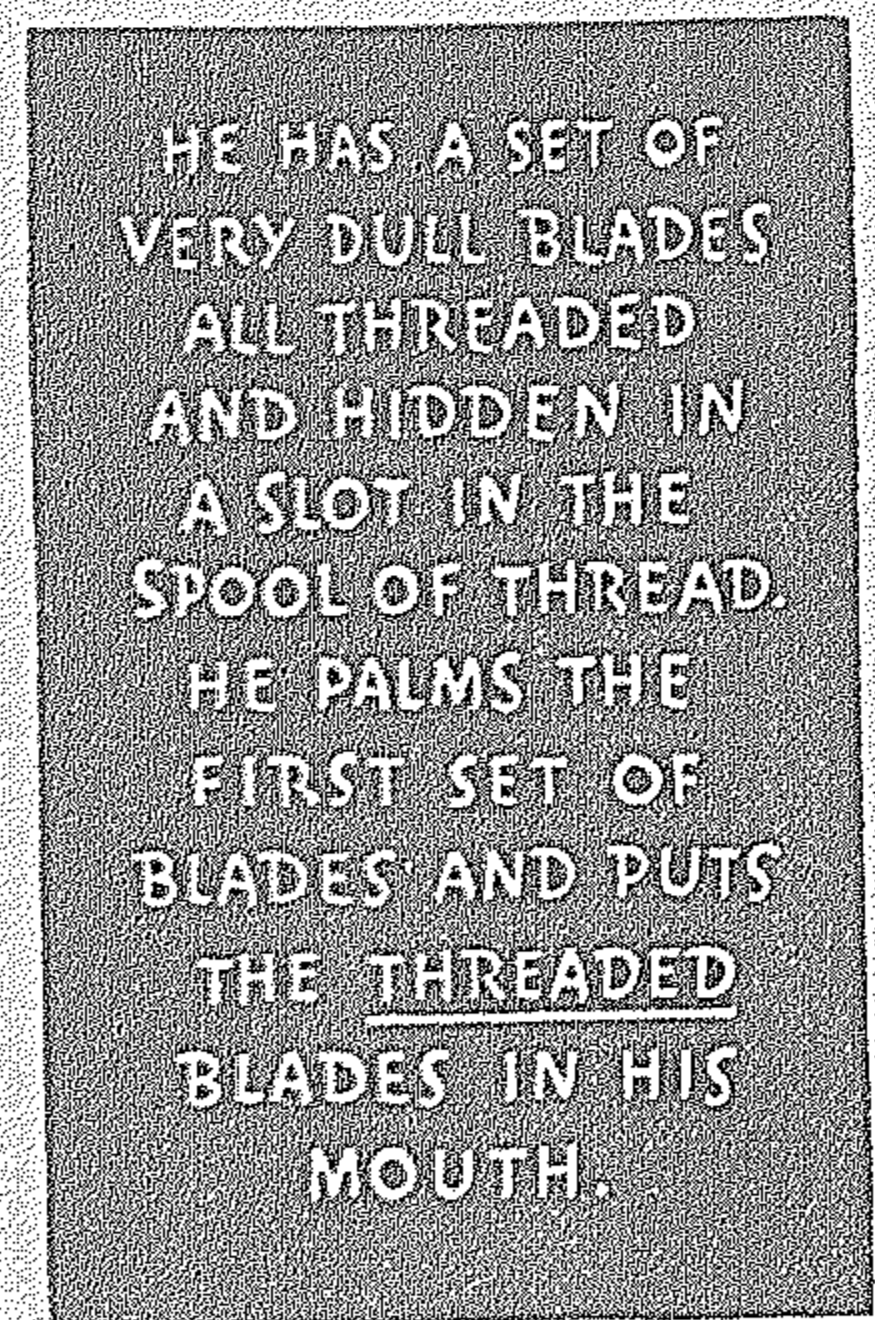

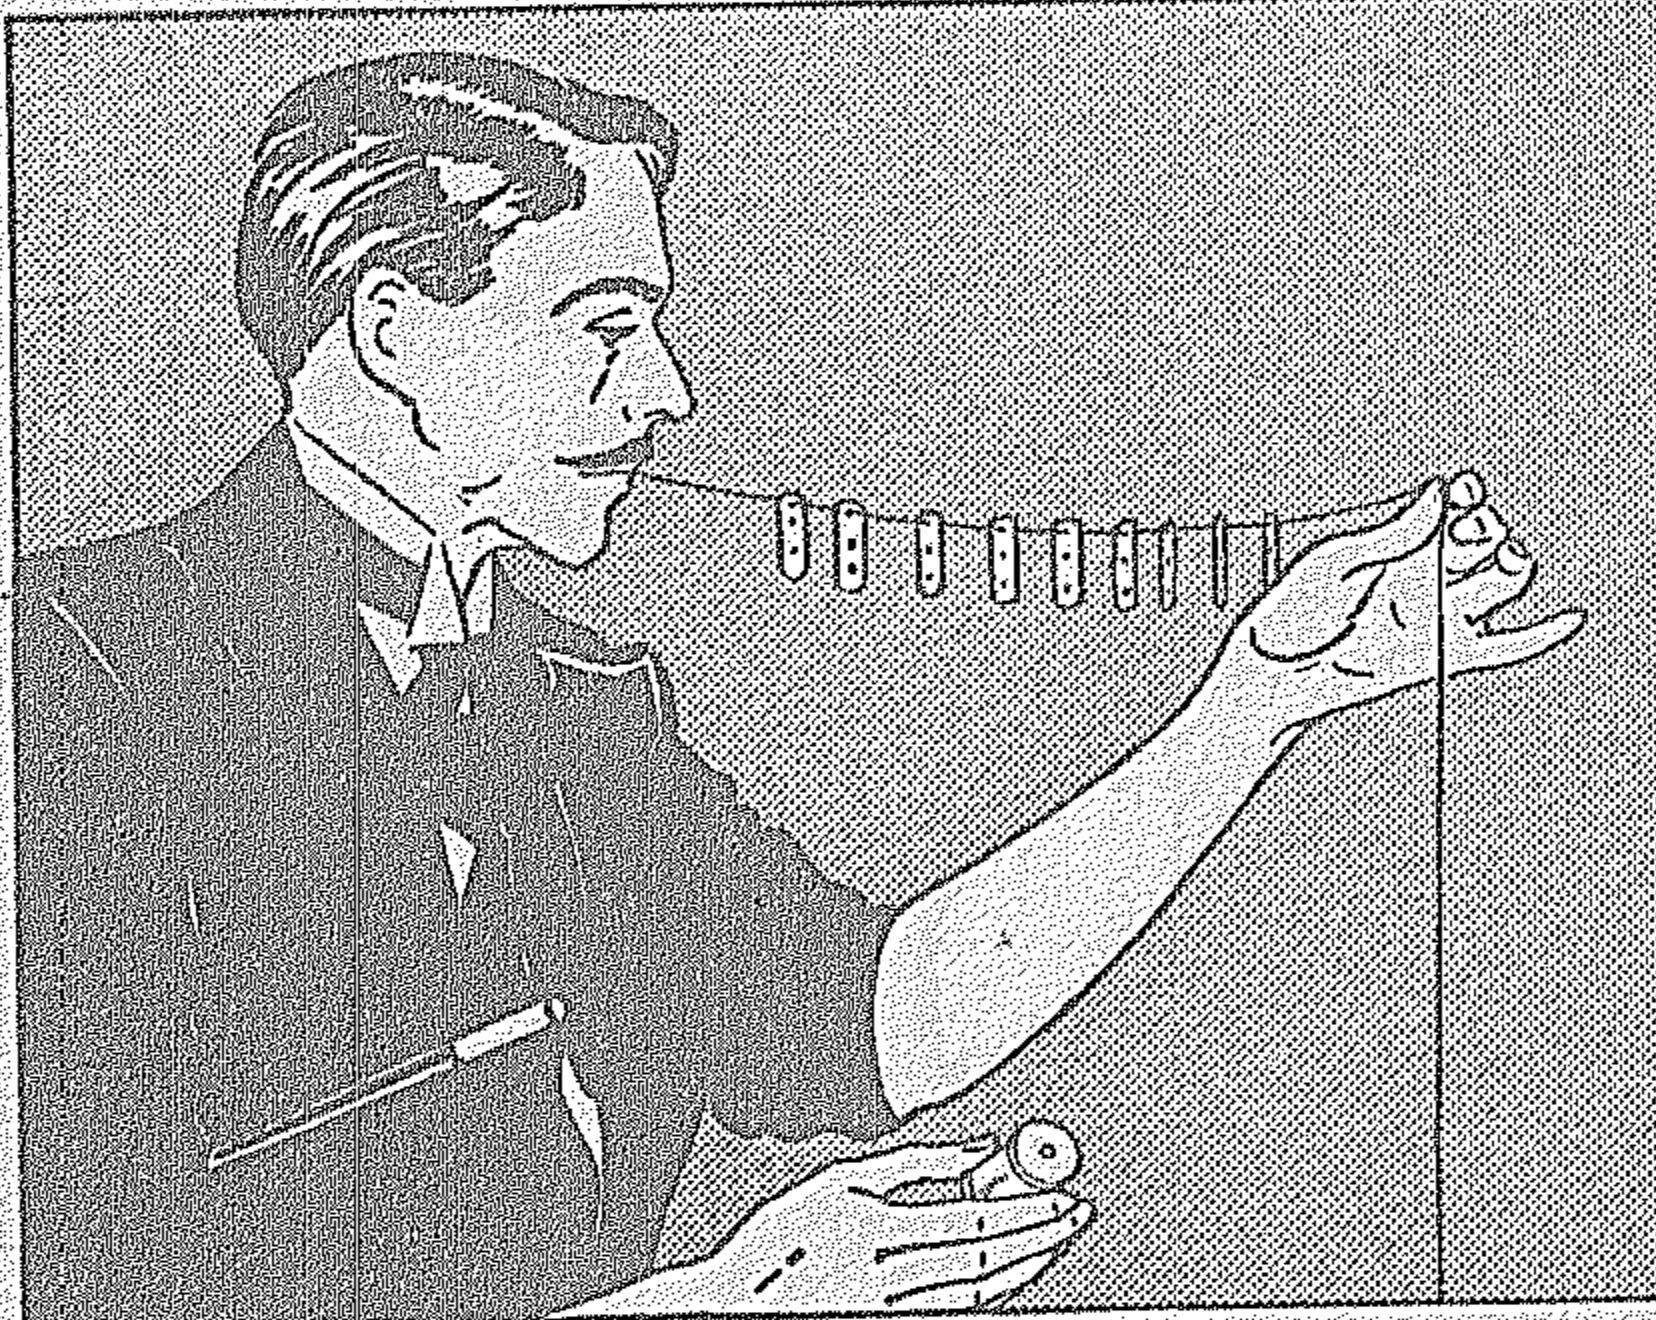

Streb, Armour, defeated Carlson, Wheaton, 6-0, 6-1. Newson, Wheaton, defeated Paine, Armour, 6-4, 4-6, 8-6. McDonough, Armour, defeated Chamberlain, Wheaton, 6-4, 8-6. Coleman, Wheaton, defeated Cone, Armour, 6-3, 6-4.

Doubles

Carlson and Newson, Wheaton, defeated Streb and Cone, Armour, 6-3, 6-0. Paine and McDonough, Armour, defeated Chamberlain and Coleman, Wheaton, 8-6, 7-5.
