"TECHAWKS" TO BE NEW NICKNAME FOR ARMOURITES

Selected by Judges as Most Appropriate Appellation

ABRAMS WINS CONTEST

TECHAWKS! From the mass of titles submitted in the *Tech News* naming contest this, decreed the judges is the one "most applicable" to Armour teams and Armour students. The judges found that Techawks has a number of virtues which, combined, make it superior to any other submitted. Among these came first, its significance. The hawk, of course, is a fighting bird and a clever bird; combined with "Tech" it is singularly appropriate. Furthermore, Techawks is entirely unique as a college nickname. Finally, it lends itself to symbolism, making it possible to use it on insignia of various kinds.

To Bernard Abrams, C. E. '35, goes the honor of having created Armour's new name; together, of course, with the five dollar gold piece, which he may have for a souvenir. Although several others submitted the same title, his was received first and therefore takes the prize.

The general opinion of the contestants appeared to be that Armourites can best be compared with animals. Such names as "Beavers," "Bears" and "Gorillas" abounded, outnumbering by far those of a more technical nature, such as "Concrete Mixers" and "Riveters." The judges encountered some difficulty in coming to a decision, but Techawks met with the approval of all.

Professor Reed on Armour Radio Program

Last Sunday a talk was given over the Armour Radio hour by Professor Earl H. Reed, Jr., head of the architectural department. The topic was "Midwest Pioneer Architecture" a subject upon which Professor Reed has been lecturing before clubs and societies in northern Illinois. Professor Reed is well qualified to speak upon this subject and is a leader in this field.

The subject was presented in the form of a trip through central Illinois and the landmarks of the outstanding pioneering architectural achievements were pointed out and discussed in detail. Remarks were made concerning the distinguishing contributions to architectural development made by the homes of the early period and those homes which are worthy of preservation due to their historical value were pointed out.

On Sunday, April 16, Mr. C. W. Farrier, the Assistant Director of Operations of the Century of Progress Exposition and an alumnus of Armour Tech, will speak on "Architectural and Structural Problems of a Century of Progress."

Ten Men Pledged by Sphinx Fraternity

Sphinx held a meeting last Monday evening, April 3, in room B, Chapin and in the Eta Kappa Nu rooms for the purpose of pledging a new group of men to the organization. The students pledged are all leaders in the journalistic field at Armour.

The new pledges are E. G. Avery, J. L. Brenner, D. N. Chadwick, N. E. Colburn, H. W. A. Davidson, R. A. Fleissner, D. L. Jacobson, M. A. Lukas, E. G. Lundin, and T. C. Peavey.

All active members were present at the meeting and Jarl T. Sorenson, president, and R. F. Rychlik, secretary, conducted the meeting.

BERRY, MARSHAL, ANNOUNCE PLANS FOR JUNIOR WEEK

Open House, Junior Prom, Class Rush, Are Week's Features

MARY NEW AWARDS

Plans for Junior Week have been in preparation for the past few weeks and are rapidly nearing completion under the direction of William H. Berry, who was recently elected by the Junior Class to act as Marshal. The plans have been definitely decided upon as they are set forth in the letter this Saturday morning.

Among the activities which are being planned are a Junior Prom, an Open House, a Class Rush, and a Week's Features.

A committee has been appointed to handle the Junior Week activities. The members of this committee are: William H. Berry, Chairman; Charles Lamb, Secretary; and the following members: ...

GREETINGS TO "THE ARMOUR NEWS"

The establishment of this student newspaper is just another significant indication of the spirit of progress at Armour. It is my earnest wish that its standards will be in keeping with that of our other publications, of which we are so proud. Whether or not there are enough happenings of note to furnish material for a weekly newspaper is the problem before us, and if the supply justifies the effort of publication, then all home to the Board of Editors who have the honors of this venture at heart.

To print a worthy and interesting news sheet commensurate with the standards to which we are accustomed is a responsible undertaking, and I wish here to assure the members of the staff that they shall have the highest cooperation of the authorities of the Institute in this new but justifiable student enterprise.

I shall keep a copy of this issue in the archives of the Institute along with our proud first editions of Institute publications. My best wishes to "The Armour News." May it have the loyal support of the student body and all good at the school.

WILLIAM H. BERRY, President of the Armour Institute of Technology.

NEW PUBLICATION AT ARMOUR TECH MAKES ITS DEBUT

"News" to Become a Weekly Next Semester

PROF. MEMBERS ADVISER

This issue of the ARMOUR NEWS represents the climax of a long series of plans and attempts to found a newspaper at the Armour Institute of Technology. The journal about the face of the school has been projected as the student body has been organized as an organization to discuss its own affairs, both in the scientific and technical fields, and in the students of the Institute, that a newspaper is not only a desirable, but also a possible feature of the student life at this college.

The first definite action taken in this project was at the beginning of the semester, when a committee was organized by the faculty and students to plan the newspaper. The committee consisted of the following members: ...

ARMOUR PLAYERS COMPLETE PLANS

One week from this Friday, on April 21, the Armour Players are presenting their long-awaited production, "Elysianth Blahney," a one act Irish play by Lady Gregory. As previously announced the play will be free to everyone. The time, 10:30, will make it possible for interested outsiders to attend, and students are urged to invite their parents and friends.

The play promises to be of an exceptionally high quality judging on the basis of both the previous plays staged by the organization and the long hours which they have spent in preparation for the present one. "Elysianth Blahney" differs from the other plays which the Armour Players have presented in several respects. It is considerably longer, lasting for at least three quarters of an hour. Moreover it is the first time that the players have employed the roles of women in their productions.

Five men constitute the cast for the play. Wally Anderson will take the part of Elysianth Blahney; Clarence Charlson is cast as Miss Joyce; W. W. Davison is taking the role of Mr. Quirk; and Herman Henschel and Eugene May will act as Mrs. Delome and Sergeant Condon respectively. All the boys have been perfecting an Irish brogue, and Professor Henschel, the director, promises to fill Assembly Hall with a real Irish atmosphere.

ARMOUR PLAYERS COMPLETE PLANS

Today's issue of the *Armour Tech News* marks the fifth anniversary of the paper. Above is a five column, sixteen inch paper, published bi-facsimile of page one of the first issue, which appeared on April 9, 1928. Originally it was a weekly and financed by individual subscription.

ARMOUR PLAYERS COMPLETE PLANS

Because of the Easter holidays, Friday and Saturday, April 14 and 15, there will be no issue of the *Armour Tech News* next Tuesday.

NEW THREE COLOR AWARDS SELECTED FOR LETTER MEN

Samples of the new letter awards for Armour athletes have been received by the A. I. T. A. A. The new awards include the three school colors which were adopted last year by the Development Committee. The new A's are black with a yellow border and a red border surrounding the letter in the order named. Letters awarded to team captains will have a red star on the shoulder. A red border has also been added to the blankets received by graduating major letter men.

A minor sweater award for the members of the rifle team has been adopted. It is a black slipover sweater with an A. I. T. insignia on the front similar to the insignia on the present senior jacket with two crossed rifles superimposed. This year marks the first time that the rifle team has received a school award.

PHI LAMBDA UPSILON

At a meeting held Monday evening, April 3 in the Tau Beta Pi rooms, Omicron chapter of Phi Lambda Upsilon, honorary chemical society pledged the following men: K. Eberly, R. W. Marty, D. J. Mullane, F. C. W. Noerenberg.

On Friday evening, March 26, the fraternity initiated K. L. Hachley, '33.

Schnable Addresses A. I. Ch. E. Meeting

Mr. George L. Schnable of the Western Electric Company spoke before the A. I. Ch. E. last Friday, April 7, on "The Development of Talking Pictures." His talk, illustrated by slides, emphasized the engineering features of sound pictures.

Mr. Schnable held that if it were not for the troublesome engineering problems arising in the production and reproduction of sound films, we would no doubt have had sound in our motion pictures as early as fifteen years ago. It was the difficulty of synchronization of the sound and pictures which had to be overcome.

M. A. Smith Speaks At W. S. E. Meeting

Acoustics, the science of sound, was the subject of the talk presented to the Armour branch of the Western Society of Engineers last Friday. The speaker was Mr. M. A. Smith, of the United States Gypsum Company.

Mr. Smith dwelt mostly on developments in the science of eliminating noises in buildings. Among the devices explained was one whereby machinery is mounted on springs to lessen vibration sounds.

No definite plans have been made as yet for future meetings of the society, but Earl Beard, branch president, will, in the near future, extend an invitation to some Armour graduate to address the group.

Faculty Club Plans Initiation Banquet

On Tuesday evening, April 18, the Faculty Club will hold some sort of a banquet. Just what the nature of the affair will be was hard to ascertain, outside of the fact that the proceedings will go under the name of the Faculty Club Banquet and will be held in our "main dining room." The whole business is somewhat of a mystery. Sources of information at other times willing, refused to divulge any amount of information as to the program of entertainment for the banquet, and what little we succeeded in getting for the *News* was given only after efforts resembling the work of a dental clinic.

This much is certain—the installation as members of the club of three members of the faculty, namely, Dr. Hotchkiss, Dr. McNamara, and Professor Engle, will be an integral part of the program. But what will precede or what will follow the initiation into the fold of the Faculty Club of these esteemed gentlemen—well, guesses are cheap. Rumor has it that the initiates have been advised by well meaning friends to acquire a pair of "extra" pants for the occasion.

Student Body to Learn New Songs

In the very near future an assembly will be held which is being planned for the purpose of presenting new Armour songs to the student body so that they may learn them.

It has been decided that the songs will be mimeographed and given to the students. Members of the orchestra and glee club as well as Mr. Erickson, the director, will be present at the assembly to assist in the singing of the songs as well as providing the musical accompaniment.

In addition to the new Armour songs which will be presented, the glee club will also sing several other songs which have been unearthed recently. The assembly promises to be very successful and it is hoped that the student body will give this project its hearty support.

Honoraries Make Plans for Dance

Now that the excitement created by the Frosh-Soph dance has gradually faded away, the honorary fraternities are once more turning their attention towards the production of the annual inter-honorary dance. The committee, led by chairman Carl Clanton, is doing all in its power to present an entertainment which will be radically different from any that may have been previously given, while at the same time combining all the pleasing features of the foregoing dances.

The dance will be held on April 21, probably at the Knickerbocker Hotel, and will be on the order of a dinner-dance, which seems to be so popular with the Engineers.

Arrangements are being made to obtain music for the evening, and the results seem to show that there is a great possibility of procuring one of the more popular orchestras in Chicago.

The bids this year will be priced reasonably, even lower than they were last year when the price charged was \$2.50. All honorary members and pledges are urged to attend.

Green Hats for Next Year's Frosh? Vote Yes or No in Straw Ballot

Do you favor the establishment of a custom whereby first year men at Armour will be expected to wear some distinguishing mark such as a green skull cap? You have your chance to express your opinion as to this in a straw vote conducted today by the *News*.

Simply take a square blank ballot, as you get this issue, write down your choice as "yes" or "no", and deposit it in the ballot box on the table in the first floor hall, Main building.

Judging from the number of times that this question has popped up in the past, there has been a live interest in the issue and only a lack of leadership has prevented definite action. If the students, as determined by the straw ballot, desire any such action, the *News* is willing to cooperate with the class representatives to carry the idea into effect.

Essentials of the Plan

The plan as conceived at the present time is that the entering freshmen next fall be informed, perhaps at the Freshman Handshake, that they are expected to wear standard green skull caps when around the Institute. The caps could be bought in a lot of about two hundred and fifty at a cost of between thirty and forty cents each, to be paid by the frosh. At a proper time in the school calendar, for example Junior Week, the caps could be ceremoniously cremated and the freshmen considered as equals. According to G. S. Allison, school treasurer, the hats could be

Alumni Dinner Held Last Friday

Officers and directors of the Alumni Association of Armour Institute of Technology met for dinner at the Engineers' Club last Friday night to discuss means by which the alumni might be useful to the school in carrying out its development project. Members of the alumni advisory Council and the Board of Managers of the Association attended.

Plans for the establishment of an industrial relations committee were reviewed. This committee, composed of alumni representatives of a broad group of industrial interests in Chicago, will seek to open and maintain close contacts between the school and those industries. These alumni, moreover, will cooperate in an effort to find suitable positions for Armour graduates who are unemployed, and for members of this year's and subsequent graduating classes. In this function, the alumni group will work with the personnel office which has been organized at the school.

Among the thirty-five prominent alumni who were present at Friday's meeting were John J. Schommer, president of the association; D. P. Moreton, '06; C. W. Hills, Jr., a trustee of the Institute; Frederick G. Henschling, '07; Monroe A. Smith, '10; and Alfred L. Eustice, '07.

ASSISTANT JUNIOR MARSHALS CHOSEN FOR JUNIOR WEEK

Program Mapped Out for Week's Events

The three Junior Marshals elected last week by the junior class have selected after careful consideration their assistants and are rounding into shape the plans for activities during Junior week. The following men have been picked as assistants: Roy Ekroth, Arch.; W. E. Gundersen, Ch. E.; M. A. Lukas, F. P. E.; J. F. Manly, M. E.; A. W. Oberbeck, E. E.; and N. E. Colburn, C. E.

L. Frateschi, I. A. Kolvo, and S. M. Lillis, the Junior Marshals, have decided on all the events to take place, but the exact date for each has not been set. They will, however, take place sometime between Monday morning, May 15 and Friday night, May 19, which is the date set for Junior week.

Monday night, the Armour open house will take place. On this night the school is open for the public's inspection. All students can bring their parents and friends to show them the kind of a school from which they are obtaining an education. Tuesday morning, a new event in the curriculum of Junior week is to be held, a fast-pitching soft ball game between the freshmen and sophomores. The game promises to be exciting, due to the rivalry that exists between the two classes throughout the week.

Other events to take place will be the spring concert, put on by the orchestra and glee club, the inter-class relay, the freshmen-sophomore rush, interfraternity competitions and the Junior formal.

The freshmen are advised to start picking material for their relay team. (Continued on third page)

Fraternities Decide On Junior Week Games

A meeting of the Inter-Fraternity Council was held last Friday afternoon in the Eta Kappa Nu rooms at 2 o'clock.

The three Junior Marshals, L. Frateschi, I. A. Kolvo, and S. M. Lillis attended the meeting in order to ask for the cooperation of the social fraternities during Junior week.

A new ruling was made, which changes the method of running off inter-fraternity competition. In the past, they have been run off by elimination, with each set of teams playing on a particular date. The new ruling provides, that each bracket is to be played off by a certain date, the date of competition being set by the two managers.

In this way a date suitable for both teams can be agreed upon. If the games are not played off by a certain date, the teams automatically are eliminated from competition.

Other questions concerning the fraternities were discussed but no definite plans arrived at.

Eight Men Pledged at Pi Tau Sigma Smoker

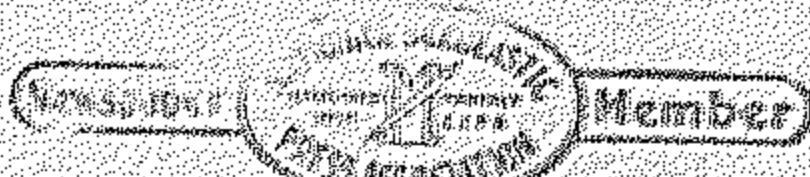

Pi Tau Sigma, honorary mechanical engineering fraternity, announces the pledging of the following men, all juniors:

C. E. Dahlgren, F. E. Headen, C. E. Hillman, I. A. Kolvo, J. B. Lauey, L. J. MacDonald, P. P. Polko, E. R. Wood.

The requirements for entrance into the fraternity are the same as those of most of the honoraries; namely, activities and a fairly high scholarship average. At the smoker held last Wednesday in the Triangle house Professor Roesch won over Ray Nelson in a ping pong match.

Vol XI APRIL 11, 1933 No. 9

Let's Make Junior Week a Success

If Junior Week is not a success this year it will be the fault either of the weather or of the student body as a whole. The junior marshals and the office are doing all in their power to make this week a success and it is only up to the students to turn out to make the event unforgettable.

The three co-marshals have gone over previous programs but have kept only the best features of each, and have reorganized all the events in a more logical sequence. They have added several things which will tend to make the entire week one of fun for everybody instead of the last two days only, as before.

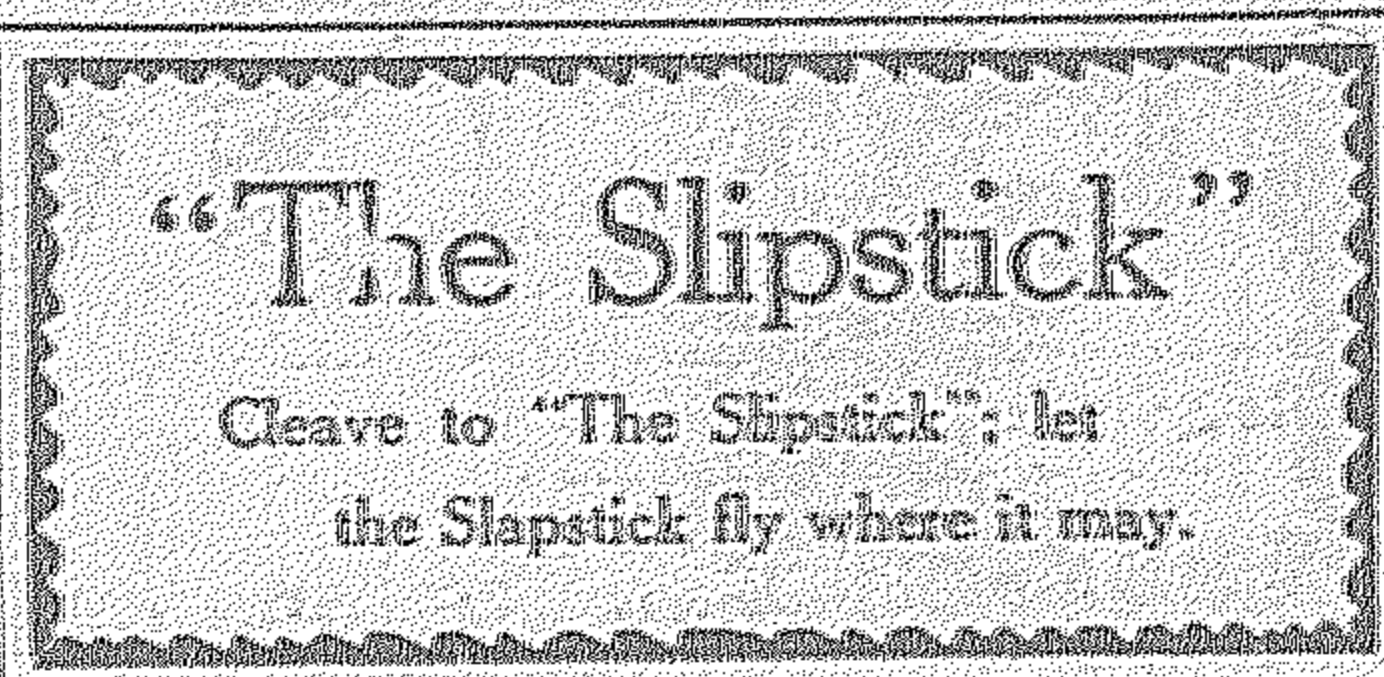

In a school such as Armour Tech located as it is in such a large metropolitan district, the student does not see much of "college life" as known in schools situated in small towns. Therefore it is to his interest to take advantage of the events that we do have and it is his duty to help the events as much as possible. The marshals are open to suggestions and will appreciate cooperation.

Green Hats

The question of whether the first year men should wear green hats has again been brought up but this time action has been taken. A committee from the freshman, sophomore and junior classes has been investigating prices and Mr. Allison has agreed to have the bookstore sell the hats to next year's frosh. That is, the bookstore will if the student body will back the plan. The News is sponsoring a poll to find the attitude of the students and wants their real opinions.

We feel that these hats for freshmen will add to the spirit of the class. The men will become acquainted sooner not only with their classmates but with the upper classmen, as well, since the upper classmen will feel free to start a conversation with one whom he is positive is a freshman. Where the large majority of the students live at home the green hat can hardly become a sign of pledgeship, which is an objectionable feature that is present in many schools; but will be just a badge of fellowship.

However, a small number of persons can not make the freshmen wear green hats. Many, in fact most, of the frosh would like to wear them but it is against human nature to do something that savors of subservience unless they are forced. So we want the students to say whether they will help or whether they will not. If the majority of the students will back the plan the freshmen will find the bonnets ready when they come and will be wearing them long before they can get together any organized opposition.

"The Slipstick"

Cleave to "The Slipstick": let the Slipstick fly where it may.

SLAPSTICK

Now that New Beer's Eve is over, and judging by the quietness with which it slipped upon us we decided that it was all a lot of ballyhoo. The first glass may not have been so good but after a couple or three successors it was a slightly different proposition. Now all we have to worry about is how to scrape up that extra cent that we must give to Stan when we decide to buy a sheet of drawing paper.

Sound travels at the rate of 400 yards per second. Exception—Scandal, 1,000 yards per second; Truth, 2 1/2 yards per second.

"So you're no longer a struggling stenographer?"
"No, as soon as I stopped struggling I didn't have to be a stenographer."

It is all very well to be assured that we'll get a new deal, but what we would like to know is how we are going to sit in the game without any chips.

Broadcasting companies may not be permitted to use the word "hell" in their programs, but a lot of the stuff they put on the air sounds like it.

They were seated across the table from each other in the restaurant, the wealthy organization and the gold digger.

"Will you marry me if I have my health rejuvenated?" he asked.

"I'll marry you, all right," she replied, "but you leave your health the way it is."

Prof. Spear: "How many times have I told you to get to the school on time?"
Benya: "I don't know, I thought you were keeping score."

Francois.

Then there was the absent-minded contractor who bid seven spades on a paving contract.

A policeman came home late at night from his beat and just as he finished preparing for bed his wife asked him to go out and get her some headache tablets. Reluctantly he put on his clothes and went out to the corner drug store.

The druggist filled his order and then asked, "Aren't you Officer Clancy?"

Clancy: "Yes, but why do you ask?"

Druggist: "What are you doing running around in a fireman's uniform?"

HISTORY UP-TO-DATE

Mother: Why did you strike your little sister?
Young Bobby: Well, we were playing Adam and Eve, and instead of tempting me with the apple she ate it herself.

Here lies a lawyer—an honest man—How come two men buried in one grave?

This is a fine floor to dance on.
Well, dance on it instead of my feet.

Famous Surgeon: "I have been treating men for ten years and have never heard a complaint. What does that prove?"

Voice from rear: "Dead men tell no tales."

Blue Gator.

DUMBBELL POEM

An old-fashioned beau,
In an old-fashioned car,
With an old-fashioned girl,
Cannot get very far.

"I saw someone trying to kiss your daughter," said the Mischief Maker.

Mother: "And did he succeed?"

Mischief Maker: "No."

Mother: "Then it wasn't my daughter."

"Ugh! Ugh! B. O." muttered the Indian as the skunk passed.

There was considerable excitement on the street at University, on which most of the fraternities and sororities were located. The time was early in the morning.

"Wake up Bill, there's a fire on the row."

"Fraternity house or sorority?"

"Fraternity."

"Then let the dam thing burn, I'm going to sleep."

Fifty students at Vallapin, Spain, locked two professors in a room until they promised to pass the whole class without an examination. Something of a Spanish custom!

MINUTE PHILOSOPHY

Personally we don't know the secret of success, but sometimes we are afraid it is work.

It's all right for a woman to want to hold her youth; but not while he's driving.

The only place for a back seat driver is on the hook and ladder wagon.

DEACON.

ALICE RESTAURANT

3117 Wentworth Avenue
Special Student Plate Lunches - - 25c
including
BREAD, BUTTER, COFFEE or TEA, DESSERT
Home Cooking

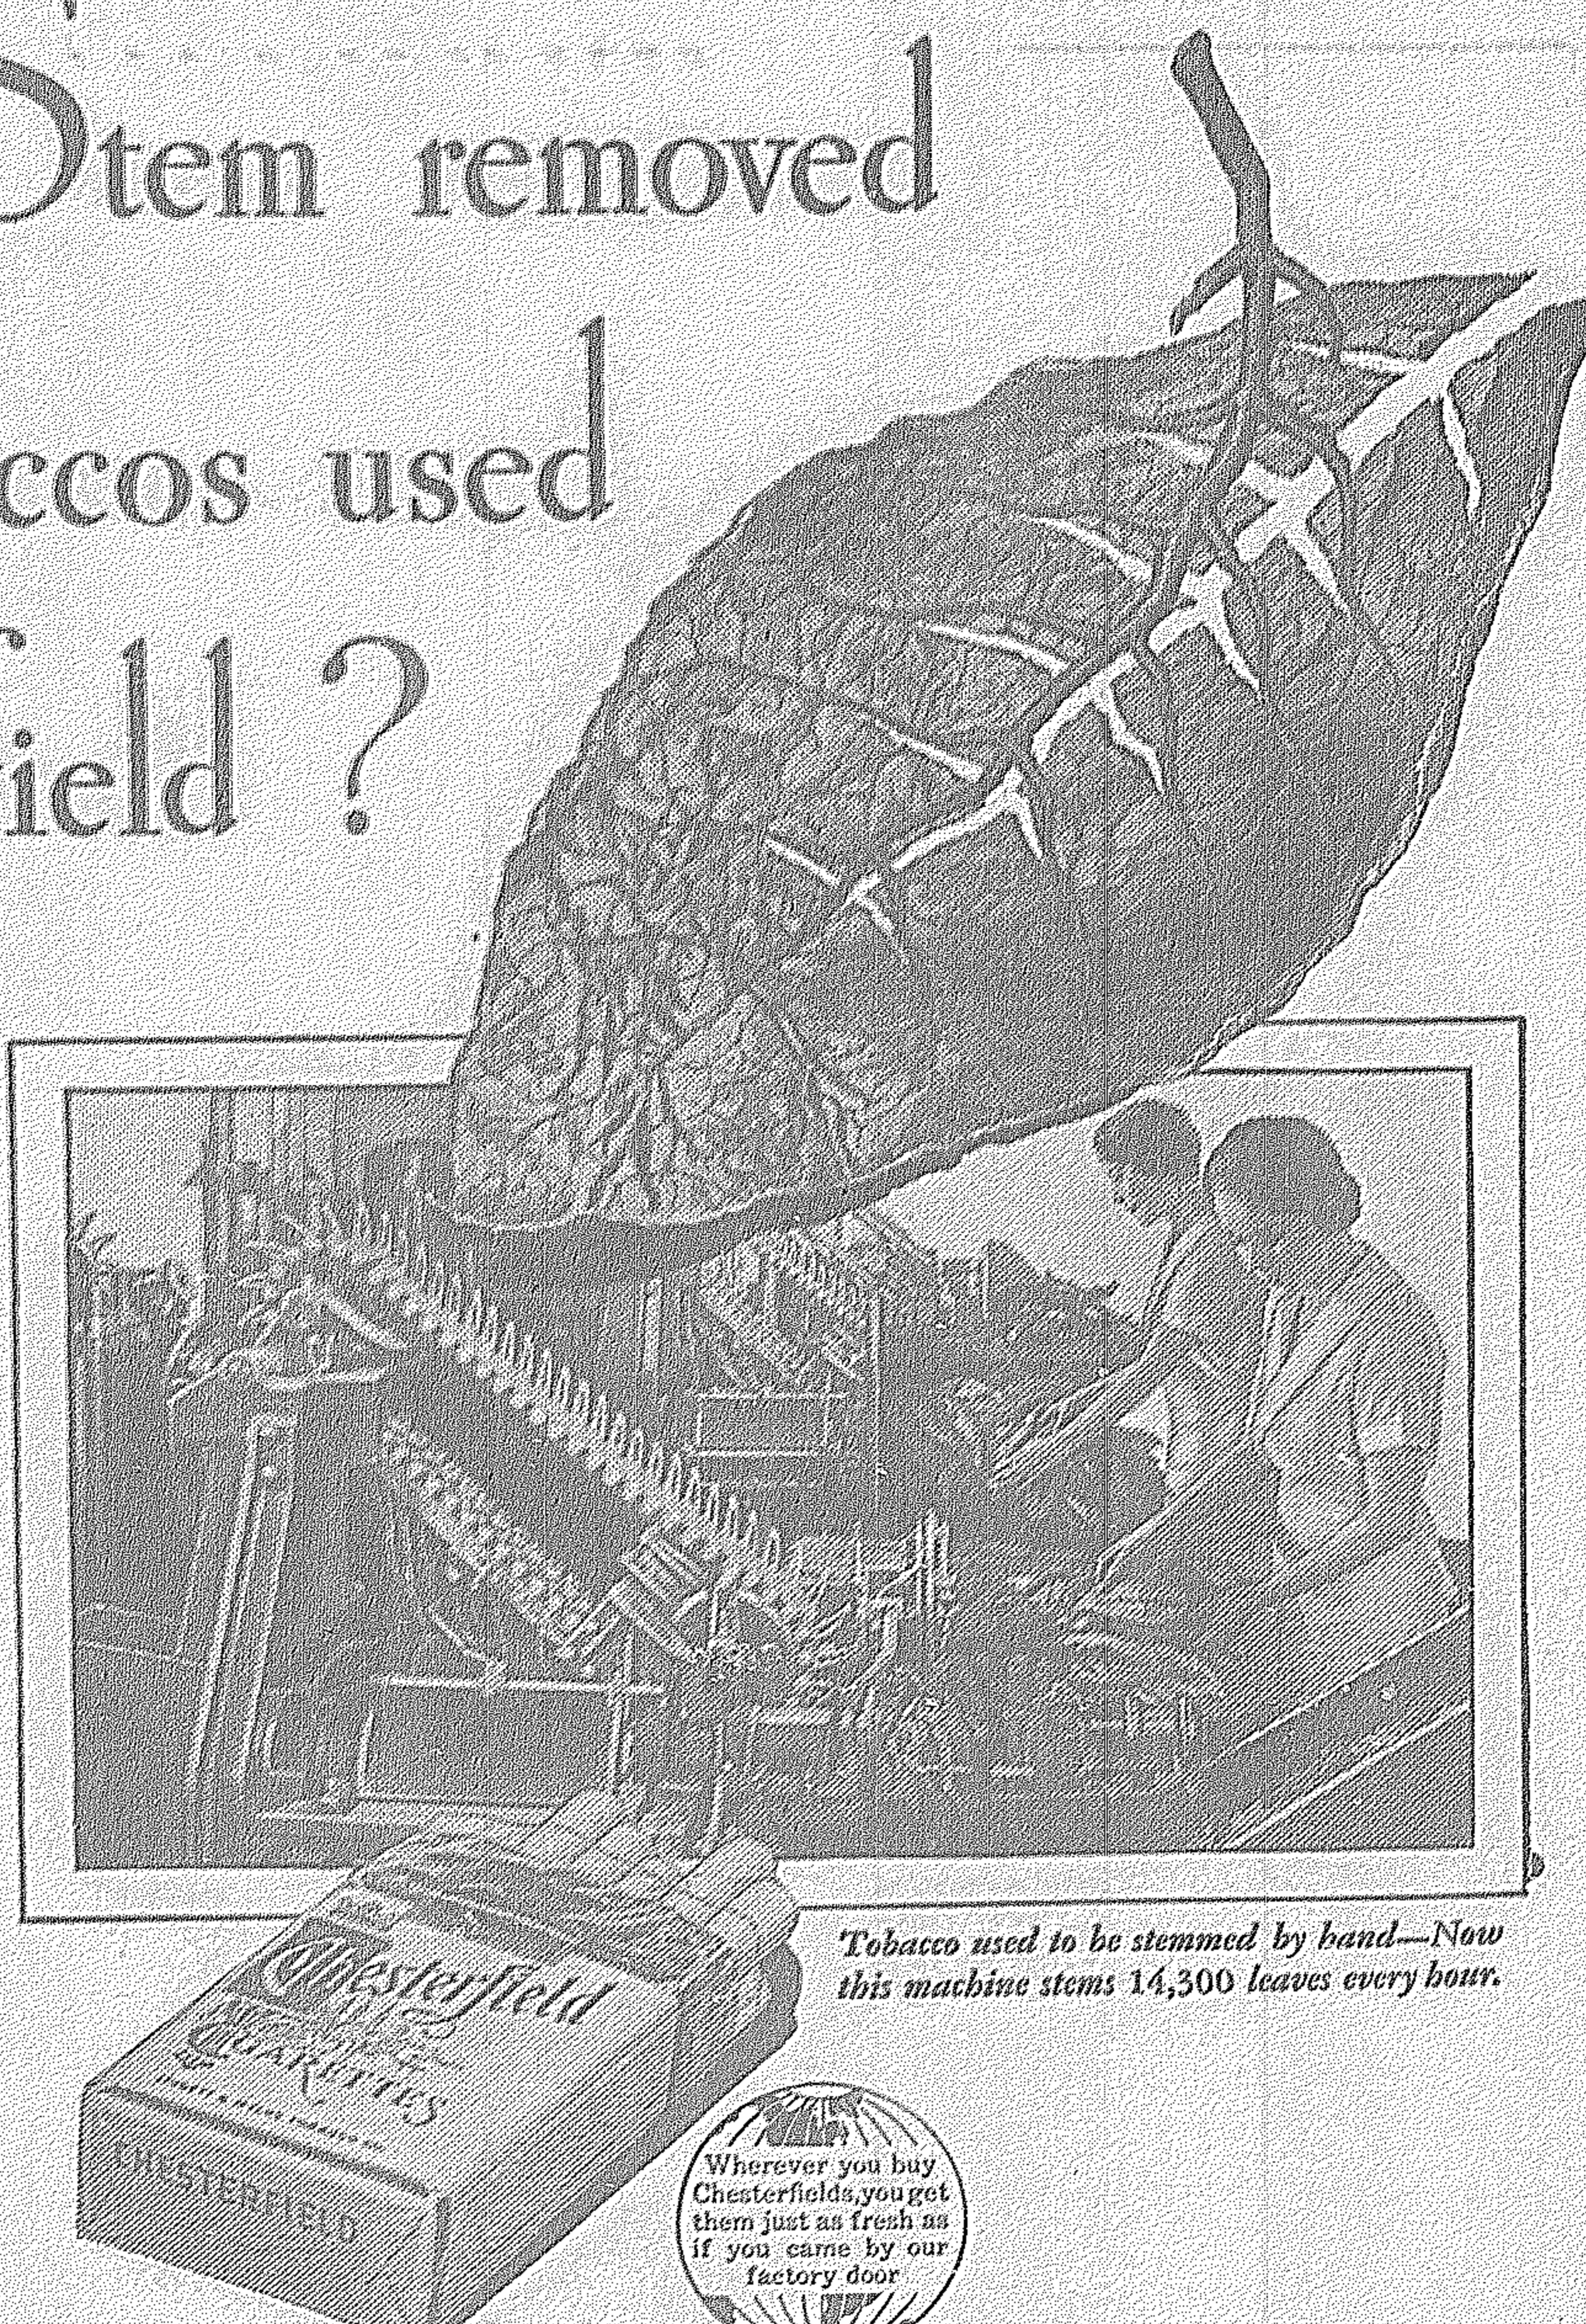

Why is the Stem removed from the tobaccos used in Chesterfield?

That's a very simple question to answer. The stem in a tobacco leaf, like the stem in most other plants, is "woody". It hasn't any of the flavor or the aroma that you want when you smoke. And it doesn't burn right.

So after tobacco has been properly aged, one of the first things to do is to remove the stems.

But what has this to do with your enjoyment of Chesterfield cigarettes? Just this. It means that we start right when we make Chesterfield—the right kind of leaf with the stem removed, the right manufacture—everything that science knows that can make CHESTERFIELD a milder cigarette, a cigarette that tastes better.

That's why people say "They Satisfy."

Tobacco used to be stemmed by hand—Now this machine stems 14,300 leaves every hour.

PLANS FOR JUNIOR WEEK COMPLETED BY ORGANIZATIONS

(Continued from first page) as much competition will be offered by the upper classmen.

Interfraternity competitions consist of the interfraternity pageant, track meet, relay, and sing. The interfraternity sing is usually held in the Assembly hall the evening of the spring concert. On this night, each social fraternity on the campus sings its songs and to the one that wins a silver cup is awarded.

Last year the Delta Tau Delta fraternity won the cup for the second time in succession.

The interfraternity track meet is usually held near the end of the week and is open only to members of social fraternities. Last year, Triangle walked away with the honors and they are out training early this year to try and duplicate the feat.

The interfraternity pageant, has been held in the past on Friday afternoon. All of the fraternities put on a stunt in Ogden field and a silver cup is awarded by the president of the Institute to the one considered the best. Along with the cup goes a sheep skin presented by Phi Kappa Sigma, bearing the name of the fraternity that won it and the year, to be kept until won by some other fraternity. The one winning it three times, keeps it for all time. At present, three fraternities have won it twice. Last year it was won by Beta Psi.

During Junior week, the Armour Tech baseball team will play three games on the home field. From the way the team has started, the gamuts should be good.

The final event of Junior week, is the Junior formal to be held Friday night at 9:30. The place has not as yet been selected. All juniors are reminded to get the tax out of moth balls or hock and have it pressed up as this dance is one dance that should not be missed.

ARX NEWS

Today is a big day for our class B arches. These juniors have been making the most of their time and now present to the jury "the best set of churches this side of the Rockies," (with the special permission of SID MORRIS.) The sophs also consider this their big day because their churches are NOT due today. They have been graciously given an extension till April 29.

Messrs. Tague and Tufts put themselves in the "Famous Men" column by garnering a first mention piece on the last water color judgment. Tague made the grade on original Krehbiel set-up, while Tufts rated on an out-door scene.

T. Dade LUCKETT claims that he is a hen-pecked student. It seems that Prof. COLVETT just won't let Tom sneeze during Physics lecture.

While waiting for the judgment of their composition renderings the fresh were spending their time designing "a niche for museum."

The seniors have been assigned a little work too! Their current problem is a one-week sketch in which a design is to be submitted for a city monument in connection with the twenty-five-year old Chicago City Plan. The original project was intended to be erected at Congress and Halsted streets.

More home talent has been discovered. VICTOR CAMSKY is the discovery this time; he is an excellent photographer and does his own printing. His latest work is a set of photos he reeled off while on a recent trip to the Fair grounds. One of the best snaps was one in which LOU ARENSON is telling the foreman how the Brick House should be built.

HEAR YE! HEAR YE!

This column wishes to nominate Al MAKBERG as the department's best penman. Any other suggestions for candidates will be cheerfully considered.

EAGLE EYE.

Fraternity Notes

TRIANGLE

The election of officers for the following year took place last Tuesday night. They are as follows:

President—Arthur W. Oberbeck. Vice-President—Robert Lyford. Corresponding Secretary—Frank Schmidt.

Recording Secretary—John Scott. Steward-Treasurer—Eric Smith. House Manager—John J. Bachner. Tomorrow night we will celebrate our Founder's Day, with a banquet at the house. The new officers will be installed at this banquet.

THETA XI

The location of the Annual Founder's Day Banquet which will take place on Saturday, April 29, has been changed to 424 South Wabash Avenue.

Word has just been received of the marriage of Frank M. James, '31. Frank is working for the Kentucky Actuarial Bureau at Paducah, Kentucky.

SIGMA KAPPA DELTA

During the last week Brothers, Harold Fox, '31, Charles Hawes, '32, and Don Landwer Ex '24, visited the house.

The Annual Hand Tunes Party which was held last Saturday was a big success. The most evident Alumni member was Dan Iverson, '28.

Roy Kercher Ex. '35 has passed the entrance examination to Annapolis and will enter on June 11.

DELTA TAU DELTA

Election of officers was held last Tuesday night and the following men were elected:

President—T. C. Pravey. Vice President—R. H. Schorling. Recording Secretary—E. H. Doane. Corresponding Secretary—L. W. Davidson.

The Delta Prom was held last Friday evening at the Bal Tabarin and a fine time was had by all.

SIGMA ALPHA MU

Sigma Alpha Mu chapter of Sigma Alpha Mu announces the election of the following officers:

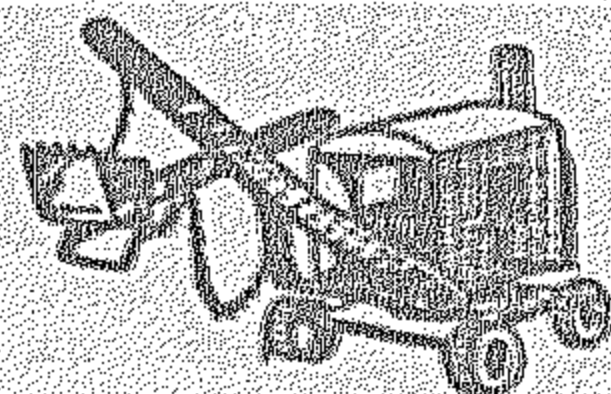

Herbert Kreinman—Prior. Irving Adlis—Embequer. Stanley Bernstein—Recorder.

RHO DELTA RHO

Brother Mill Heller, our athletic chairman, has issued calls for candidates for the indoor baseball team. Practice for the interfraternity meet will begin as soon as the weather permits.

At the recent Alumni meeting, many of the old grads showed an active interest in the game of ping pong. Brother Lou Rosnick, who wields a mighty paddle, showed his enthusiasm by taking a game from Brother L. G. Klein.

THE STEAM SHOVEL

Johnnie Larson dated Elmer Lundin's girl and then lost her address—and El won't divulge it. John is offering a reward for El's girl's address.

Walt Winchell reports that Earl Gossweiler was called "Herak" at Deerfield-Shields High.

ART CARPENTER performs his pastoral duties daily at one-ten by herding the senior schmiers and asking them to please come to his class.

BROTHERS MANLY and SUMAN recently enjoyed a broadcast by Brother WINSTON on the seriousness of college life. The occasion was the dedication of the junior mech drafting room as the Armour Gym. A clique is being formed now to give KOLVE the "works."

The barber committee has started intensive spring training—and the half of MARSHALL NYSTROM'S

Electricals to Hear Lecture on Radium

At the meeting of the American Institute of Electrical Engineers on April 21, James Juvinal will give a talk on "radium" as the first step in the policy of conducting student talks. At the last meeting, on April 4, Mr. Brian of the Grigsby-Grunow Company gave a talk on methods and processes of making radio tubes. The Chicago section of the organization will have a smoker at the Old Town Inn of the Sherman Hotel soon. The evening will be well spent playing bridge and keno.

cookie duster which has gone the "way of all flesh" testifies to their efficiency. Next time the committee promised MARSHALL a Swedish razor.

Johnny Schreiner and Art Oberbeck played chess, but Art moved out of turn too frequently.

At Boston University, a professor who was taking a course in the History of Education, fell asleep in the class much to the embarrassment of the presiding professor.

FRESHIE SUMNER doesn't know enough to wear clothes in the presence of women. Ask him about the lost wrestling match.

Movie Notes

Following their rise to popularity as a starring team in such successes as "Bad Girl," "Over the Hill" and "Dance Team," James Dunn and Sally Eilers have been cast together again in "Sailors Luck," now at the Roosevelt.

Undoubtedly the most sensational story ever to be printed about Washington, "Gabriel Over the White House," opened last Saturday at the United Artists to provide a talkie drama thrilling from its very first opening reel to its surprise conclusion.

"The Mystery of the Wax Museum," is now at the McVickers Theater, with Lionel Atwill, Glenda Farrell, Frank McHugh and Fay Wray heading a large cast of sterling players.

A dramatic plot which reflects world history, and the most notable theatrical family in the world, lend glamour to "Rasputin and the Empress," The picture, which will be shown starting Friday, April 7, at the Chicago Theater, tells the story of the fall of the Romanoffs and brings together for the first time on the screen John, Ethel and Lionel Barrymore.

Ever smoke "whittle" tobacco?

Well... here it is... already whittled FOR you. Granger Rough Cut is tobacco whittled right... that's one reason why it burns so slow and cool.

WHEN we started to make Granger Rough Cut we knew that fine tobacco burnt hot because it burnt so fast. It kept your pipe hot. You could hardly hold your pipe in your hand, it got so hot at times.

Then we remembered that some folks back yonder used to "whittle" their tobacco. So we made GRANGER just like "whittle" tobacco — "Rough Cut." It smokes cooler and lasts a lot longer. And also, you'll find it never gums the pipe.

So far, so good. Now we wanted to sell this tobacco for 10c. Good tobacco—right process—cut right. It was a question of how to do it for the price.

So we put GRANGER in a sensible soft foil pouch instead of an expensive package, knowing that a man can't smoke a package. We gave smokers this good GRANGER tobacco in a common-sense pouch for 10c.

GRANGER has not been on sale very long, but it has grown to be a popular smoke. And there is this much about it—we have yet to know of a man who started to smoke it, who didn't keep on. Folks seem to like it.

Liggett & Myers Tobacco Co.

The Granger pouch keeps the tobacco fresh

TECH BASEBALL TEAM DEFEATS CHICAGO 3 TO 2

Win Close Game From Maroons in Opening Game of Season

TEAM IN GOOD FORM

A stiff Spring wind and a Kansas cyclone collaborated in perfect harmony last Tuesday afternoon when a chinking bunch of Armour Engineers trounced a fighting Maroon nine by a 3-2 score on the latter's diamond. The stiff Spring wind was a chilly lake breeze that swept along the Midway causing the men of Kraft to hop around and cavort in mid-season style, while the Kansas cyclone was George Mayer, the Tech pitcher, who besides setting the home team on their heads in the three innings that he pitched, also drew a lion's share of the glory by driving home the winning run in the eventful eighth. Buchne and Baumel preceded Mayer on the hill in working the first six sessions, while Baker, a fast right-hander, went the route for the losers.

Armour Takes Lead

Tech drew first blood by scoring once in the opening inning due to Baker's loss of control. After Sommer and Reed had walked, Lillis was called out on strikes. T. Omiecinski was safe at first on Comerford's low pop and the bases were full. Dollenmaier also drew a free ticket to first, forcing Sommer home. However, this uprising was quelled when V. Omiecinski whiffed and Lukas lined to Comerford.

The boys kept up their good work by scoring again in the second round. With one away, Biegler started the ball rolling with a line single to center, paused while Sommer was striking out, and then moved to the key-stone station on Reed's one-hans smack to center. Lillis then singled to right, scoring Biegler and sending Reed to third, and continued to second on the throw home in an attempt to flag Biegler at the plate. This rally ended when T. Omiecinski fanned.

Chicago Scores in Second

The Maroons got one of those runs back in the home second, and would have probably gotten more had not the Engineers risen to the occasion to squelch the rally by two brilliant fielding plays. Berkson opened up with a single to right and immediately went to second on a wild pitch. Beaks, the slugging first-sacker of the home nine, then got the first of his two devastating hits, a double to deep right center which rolled to the fence, to send Berkson scampering across the pan. Things looked bad for an instant when Comerford lined what appeared to be a safe hit to left field but Dollenmaier came in fast and speared the ball on the line and then made a perfect pop to Biegler to double the astonished Beaks by twenty feet. Then when V. Omiecinski came up with Geppinger's scorching grounder and rifled the ball across the infield to get his man, the crowd had seen as classy a bit of fielding as had ever been observed on the Midway.

Chicago knotted the count in the fourth. With one dead, Offil drove a hard single to right. Berkson fouled to T. Omiecinski but then the dangerous Beaks took a toe hold and sent one of Buchne's offerings to deep left for another two bases which sent Offil home from first. Comerford was hit by a pitched ball. Beaks and Comerford worked a double steal but were left stranded when Geppinger took three futile swings.

Mayer Drives in Winning Run

Baumel was on the mound during the fifth and sixth innings and then Mayer went in to pitch the last three rounds. Just how baffling Mayer's delivery was can be attested to, by his retiring of nine straight men, the first five of whom walked back to the bench with their bats on their shoulders. However it was in the visiting eighth when Mayer won his own game by coming through in a real pinch. T. Omiecinski opened this round with a long double to center, and Dollenmaier walked. Both runners advanced while Decker was tossing out V. Omiecinski. Chicago

was jubilant when Lukas gazed at a third strike. Their joy was short-lived however, as Mayer then took the situation in hand and after looking at a couple of offerings, found one to his liking and socked it past second on the line and T. Omiecinski romped homeward with what proved to be the winning run.

Box Score

Armour (1)	AB	R	H	PO	A
Sommer, cf.	3	1	0	2	0
Reed, cf.	4	0	1	1	0
Lillis, 3b.	3	0	2	0	1

Baker, p.	3	0	0	2	1
Totals	32	2	8	27	8

Byner—Comerford. Two—Baker, Beaks—V. Omiecinski (1), Decker (2), Lewis. Three—Beaks (1), Lukas, Stein, Sommer, Buchne, Comerford, Baumel on Balls—Off. Baker, 5. Hits—Off. Buchne, 5 in 4 innings. Off. Baumel, 3 in 2 innings. Hit Buchner—By Buchne (Comerford). Wild Pitch—Buchne. Struck out—By Buchne, 1, by Baumel, 1, by Mayer, 4, by Baker, 11. Double Play—Dollenmaier to Buchne, Lukas to Offil, Decker to Mann, Walker to Baker. Umpire—Kushin.

TECH SHORTS

The Tech Relays sure went over big with four thousand spectators and close to four hundred athletes jammed in the U. of C. Fieldhouse. Six broken records prove that the meet was a huge success from the competitive standpoint. We hosts took a few medals ourselves. The crack medley team composed of Nelson, Oberbeck, Roberts and Sademan took second in the college relay event with none other than North Central in first. A set of four silver medals came with this performance. Another set of silver-bronze medals went to the Tech mile relay team which took third in its event, in spite of the fact that the starting man, Neal, fell after the first turn, he came right back and fought to the finish. Heller and Kemmer also turned in notable performances in their quarter-mile positions.

The New Name

In ending the *News'* name contest, the judges selected the name "TECH-HAWKS" for our organ. Many good names were submitted and the judges had some time in selecting one. Let's go, TECH-HAWKS!

If for no other reason, the Tech baseball team should hit a pretty good victory clip because of its pitching staff. Mickey Lukas, veteran catcher, reports every hurler in good condition and ready to wear 'em down.

The baseball team will encounter

Letter Awards Given Swimmers

Thirteen members of the Tech swimming team were given awards for their participation during the past season. Ex-captain Roy Carlstrom and Nick Giovan, both veterans of four years and graduating seniors, and Captain-elect Irv Kolve, will receive major letters. Carlstrom and Kolve led the point scoring, respectively, at the close of this season.

Minor letters were awarded to Knaus, Bernstein, Ahern, LaForce and Reed, and Tallafus, Davison and Barson will receive sweaters. With only two men leaving school via graduation, and the fine showing made by the remainder of the squad, prospects for next season look exceedingly bright. A large number of new men is expected to come out at the first call for candidates next fall, now that swimming has been made a major sport.

The University of Chicago this afternoon on Ogden Field. With the advantage of the home diamond, the Tech men should defeat the Maroons again. The Northwestern game, which was to be played last Friday, was postponed to May 1, because of the weather.

The staff of the NEWS herewith challenges the scribes of the *Engineer* and *Cycle* to an indoor ball game. Name your date.

TECH WRESTLERS SWAMP MORTON BY 20-3 SCORE

Last Wednesday evening the Armour Tech wrestling squad defeated the Morton Junior College team by the score of 20-3. This meet was the Tech men's second home engagement of the season.

The first bout of the evening was fought by Rosenfeld of Armour and Hegna of Morton. Rosenfeld finally managed to pin Hegna after seven minutes of the struggle were over. The second tussle brought Talpai of Morton against Perrill of Tech. They grunted their way through the bout with Talpai winning on a time advantage of 3:49. This incidentally was the only bout which Morton was able to capture.

In the next fray Patterson of Armour wrestled Chisholm of Morton. Both men worked hard, with Patterson finally gaining a time advantage of 1:45. Schmidt of Tech and Bisciste of Morton went the full time, with Schmidt winning on a time advantage of 5:56.

Talabor of Armour, again displaying championship form, easily rode Gutschig of Morton for a time advantage of 5:48. Captain Talabor has not been defeated when wrestling for Armour. In the sixth bout

of the evening Rollberg of Morton and Bard of Tech fought to a draw. Both men displayed professional tactics and the bout ended even six minutes overtime.

Flens of Morton and Berquist of Tech engaged in the next bout. Berquist, after a hard struggle won with a time advantage of 5:30. The last tussle took place between Summer of Armour and Werhman of the Tiger squad. Summer was able to ride his opponent for 5:00 minutes and get the decision.

There were four exhibition bouts with Armour winning two of them; the other were draws. Balsewick and Larson won on falls over Seynar and Stanke of Morton. All of the matches throughout the meet were hard fought even though the score was one sided.

Summaries:

- Rosenfeld (A) threw Hegna (M) — Time 7:00.
- Talpai (M) won by decision over Perrill (A) — Time advantage 3:49.
- Patterson (A) won by decision over Chisholm (M) — Time advantage 1:45.
- Schmidt (A) won by decision over Bisciste (M) — Time advantage 5:56.
- Talabor (A) won by decision over Gutschig (M) — Time advantage 5:48.
- Rollberg (M) and Bard (A) wrestled to a draw — Time 14:00.
- Berquist (A) won by decision over Flens (M) — Time advantage 5:30.
- Summer (A) won by decision over Werhman (M) — Time advantage 5:00.

It's Fun to be Fooled..

TODAY'S SHOW MYSTERIOUS BALL ROLLS UPHILL

1 I SAW A MAGICIAN MAKE A BALL ROLL UPHILL LAST NIGHT... WITHOUT TOUCHING IT. HE WAS SIMPLY WONDERFUL.

2 WHAT SHE SAW— THE PERFORMER MAKES A BALL DEFY GRAVITY AND ROLL UP AN INCLINE AT HIS BIDDING. IT PAUSES... ROLLS DOWN... ROLLS UP AGAIN... OBEYING EVERY ORDER OF THE MAGICIAN.

3 DID HE DO IT BY RADIO REMOTE CONTROL OR THOUGHT WAVES? THAT'S THE BUNK GRACE. HERE'S THE REAL LOW-DOWN...

4 THE MAGICIAN DIDN'T HAVE ANYTHING TO DO WITH MAKING THE BALL PERFORM. THERE WAS A CONTORTIONIST INSIDE IT. BY SHIFTING HIS WEIGHT IN THE BALL, HE MADE IT GO.

5 MY GOODNESS BUT YOU'RE SMART, JOE. WON'T YOU HAVE A CIGARETTE? EXCUSE ME. I DON'T LIKE YOUR BRAND.

6 BUT ISN'T THIS THE MILDEST KIND? THAT'S ANOTHER ILLUSION. DON'T YOU KNOW THAT IT'S THE TOBACCO THAT COUNTS? HERE, HAVE ONE OF MY CAMELS.

7 JOE, YOUR CAMEL IS MILD AND I LOVE THE TASTE, TOO. IT'S MORE FUN TO KNOW ISN'T IT?

CAMELS are made from finer, MORE EXPENSIVE tobaccos than any other popular brand. They are mild...easy on the throat. They give you more pleasure. Try Camels.

No tricks — just costlier tobaccos in Camels
