

ANNUAL MEETING OF TAU BETA PI HELD IN CHICAGO

Chairman of Assembly From Armour Chapter

SIXTY-SIX CHAPTERS

The thirty-second annual convention of Tau Beta Pi, national honorary engineering fraternity, was held in the Knickerbocker Hotel during the last week on October 12, 13, and 14, with the Illinois Beta chapter at Armour Institute as host. All sixty-three chapters of the fraternity from all over the United States sent delegates to the meeting. The national officers of the organization arrived the morning of the eleventh, the day before the first business meeting of the convention was scheduled, and held a short meeting prior to the main meetings.

Colburn Elected Chairman

At the opening business session held at one-thirty p. m. on Thursday, Norman E. Colburn, president of the local chapter of Tau Beta Pi, was elected chairman of the convention. At eight o'clock in the evening a smoker and initiation was held. The initiation ceremony was witnessed and much appreciated by the one hundred fifty men present. The men initiated into membership were: J. J. Ahern, R. D. Armsbury, R. A. Fleissner, H. Kreisman, N. H. Kuehn, S. G. Lehmann, E. G. Lundin, L. J. McDonald, and R. J. Pflum. After the initiation ceremony, the men adjourned to another room where sandwiches, punch, and cookies were served. Professor Armsbury, well-known professor at Armour, entertained the members present with some of his poems which were very interesting and received much praise from his listeners. Mr. Edwin F. Gillette, from Pasadena, California, the first president of Armour's chapter and chairman of the convention in 1916, was also present among the large turnout of Tau Beta Pi members.

Three New Chapters

On Friday morning another business session was held at which petitions for membership in Tau Beta Pi presented by the University of Delaware, University of Utah, and Virginia Polytechnical Institute were granted. The addition of these three schools brings the number of chapters in the United States up to sixty-six. After the business session was over, the members attended the Century of Progress Exposition.

Wives of Professors Organize Social Club

Friday, Oct. 13, at 2:00 o'clock, the wives of the Armour faculty members held a meeting of organization in the assembly hall. Election of officers and passing of a constitution were the main business transactions during the gathering. The following women were elected officers: president, Mrs. Hotchkiss; vice-president, Mrs. Leigh; secretary, Mrs. Richardson; and treasurer, Mrs. Sear.

Following the business, various members of the group related their experiences of trips taken during the summer months. Such tours as through London, Holland, and various parts of our own country were pleasantly told and in turn enjoyed by the rest.

An adjournment to the men's club rooms on the first floor in the Mission building for tea ended the afternoon.

JACOBSON VISITS INSTITUTE

Joel Martin Jacobson, formerly Assistant Professor of Civil Engineering at Armour, and well remembered by many civil engineering students for his work in aeronautics, paid a visit to Armour last Tuesday. Professor Jacobson is now working as an aeroplane designer in Baltimore.

Pi Tau Sigma to Hold Convention

This week the Armour chapter of Pi Tau Sigma will be host to the sixteenth annual convention of the members to be held at Armour Institute. Fifteen delegates from the various middlewestern and eastern universities will attend and the Armour chapter will assume responsibility in carrying out the arrangements for the convention.

The program provides for two days of business and social activity. On Wednesday afternoon the initiation ceremony for the six pledges will be performed. Friday and Saturday mornings will be given to business meetings, and on Friday evening a banquet will be held in honor of the convention members. After adjournment Saturday noon, the delegates will spend the rest of the day at the Fair.

Armour Delta was last host to the convention in 1928 and contemplates a large delegation from the chapters in view of the fact that the present convention is held in the World's Fair city.

Library Receives Two New Volumes

Last week Armour Tech received two large folio volumes of photographic reproductions, drawings, and plans of selected buildings designed by Graham, Anderson, Probst and White and predecessor firms Graham, Burnham & Co., and D. H. Burnham & Co. Each volume is beautifully bound in Lenart Morocco leather, hand tooled, and printed on heavy, expensive, antique paper. The sender was Ernest R. Graham, dean of Chicago architects. B. T. Batsford, Ltd., of London, England, was nine years preparing three hundred of the monographs for Mr. Graham. The volumes contain views in Chicago of the Field Museum, Shedd Aquarium, Historical Society, Union Station, U. S. Post Office, Marshall Field & Co., Railway Exchange, Insurance Exchange, and the Conway, Wrigley, Straus, Pittsfield, and Merchandise Mart buildings.

Unity in Design Shown

Federal reserve banks of Kansas City, Omaha and other mid-west cities have almost identical design, showing a trend toward a fixed design for bank buildings.

Chicago Physics Club Holds First Meeting

Last Thursday evening the Physics Club of Chicago held its initial meeting of the year in the auditorium of the Chicago Lighting Institute in the Civic Opera building. Preceding the opening events in the auditorium a banquet was held in the cafeteria of the Y. M. C. A. College. At the meeting Professor O. S. Duffendack of the University of Michigan addressed the physicists on "Quantitative Analysis by Spectroscopic Means." He described how the spectroscope is used in various fields of industry, especially in metallurgy. Work in this specialized field has progressed very slowly until recently, but present work is advancing quite rapidly.

Armour Chess Club Arranges Meetings

Friday evening, Oct. 6, the Armour Chess Club held its first business meeting of the year in the Truss Club rooms. Arrangements were made to have the meetings every two weeks on Friday evenings. Business will occupy the early part of the evening while the latter part will be devoted to chess. The scores of the members are being recorded in order to give each player a proper rating.

Anyone interested in chess is urged to attend the next meeting. For those not desiring to stay evenings, arrangements have been made to keep several chess sets in the Campus Club rooms. Members may play there during their free time.

MAKE FIRST LOANS FROM FUND SET UP AT MASS MEETING

Money Borrowed From A.T.A.A. Athletic Surplus

ARE FOUR YEAR LOANS

Operation of the Student Loan Fund, voted by the student body at a mass meeting last Tuesday out of an athletic fund of the A. T. A. A. has been started already.

Adopted by Board

Before being accepted by the students, the resolution was unanimously adopted by the Board of Athletic Control of the A. T. A. A. at a meeting held a few weeks ago. It provides for the loaning out to the students of Armour at approximately four per cent interest the resources of the association, for they mature in four years, and if at any time the further borrowing of money by the students is desired to be discontinued, it can be done by the action either of the A. T. A. A. in assembly or the Board of Athletic Control.

Committee Administers Loan

The administration of the new Student Loan Fund is vested in a committee composed of the president of Armour Institute of Technology, the secretary-treasurer of Armour Institute of Technology, and the student-president of the Armour Tech Athletic Association, who at this time is S. M. Lillis. The men to whom the loans are made are required to be day students of the sophomore, junior, senior or graduate classes, and must be approved by the Dean's Office before the loan is made. The funds now available for the purpose of such loans amount at the present time to about nine thousand dollars. The first loans are to be used for this semester's tuition, and are to be dated as of September 19, 1933.

At last Tuesday's assembly, which was held mainly for the purpose of voting on the resolution, a short talk was given by Dr. Hotchkiss concerning the effect of the business conditions on registration and the securing of employment for graduating students. Professor Schomer, unusually serious, spoke in favor of the adoption of the resolution.

Annual Convention of Associated Collegiate Press is Held Here

Last Friday and Saturday the Associated Collegiate Press, the college newspaper division of the National Scholastic Press Association, held its first national convention in connection with the parent organization at the Hotel La Salle. The meeting was held at this time in order that visiting delegates might attend A Century of Progress Exposition in connection with their trip to the convention.

Hold Roundtable Discussions

The program included roundtable discussions on editorial writing, news coverage, society and sports news, feature writing, the business staff, and newspaper administration all of which were led by prominent journalists. Talks by Professor M. J. Adler of the University of Chicago; Allen Diehl Albert, who is in charge of publicity for A Century of Progress and was formerly publisher of both the Columbus News and the Minneapolis Tribune; J. N. Krohne of Marshall Field and Company's advertising department; Professor Kenneth E. Olson of the University of Minnesota; Harrison MacDonald, former advertising director of Scripps Howard; and others were

Frosh Election to Be Held on Friday

The election for the freshman class officers will be held this Friday, Oct. 20. The election committee, with Paul A. Reh as chairman, will take charge of the voting. Following is a list of the petitions received by the office for the election:

President—

Frank Hackman
Harry Tice
Arthur Wobig

Vice-President—

William Berkland
Stanley Brenner
L. F. Kacel
Jack Shanahan

Secretary—

David Joslyn
Sidney Kreiman
Leonard Sorkin

Treasurer—

John Damiani
Harold Hawley
Sherman Ross

Social Chairman—

Frank Comegys
Leo Farney
Paul Reh

A. T. A. A. Representative—

Ernest Hoyer
Norman McGuone

The list of names was the one turned into the Dean's Office by 5 o'clock last Friday, and is subject to change as it has not been checked over by the freshmen election committee.

Plans for Year Laid by Armour Players

Advance indications point to a successful season for the Armour Players, student dramatic organization, as evidenced by the well attended meeting held last Monday.

Officers resulting from last year's election were called upon to preside over the meeting. Due to the failure of the former secretary and treasurer to report to school this year, an election was conducted to fill the two vacancies. D. S. Dickey and C. L. Sherman were selected to fill the offices of secretary and treasurer.

A. Kulpak, president of the dramatists, explained in detail the well laid plans for seasonal activities, and Professor Hendricks, faculty advisor, depicted the financial standing of the club.

There will be inaugurated this year, a door price not to exceed twenty-five cents and in most cases, possibly lower. It was also decided that Christmas be heralded by a one-act play, while in the second semester the full portrayal of Armour talent would be presented.

A committee composed of Professor Hendricks, C. Clarkson, and A. Kulpak will decide as to the type and the play to be presented.

ALL CLASS ELECTIONS TO BE HELD THURSDAY AND FRIDAY; SENIOR NOMINEES ANNOUNCED

Senior Election Chairman to Choose Own Committee; Style of Diploma to Be Decided

SOPHOMORE BALLOTING DAY IS UNDECIDED

Junior Election Group Selected

At the junior class meeting held in Science Hall at 10:30 on Friday, Oct. 13, considerable discussion took place with regard to the manner of election of class officers for the coming year. The main business was the selection of an election committee and also the election of a manager for the class basketball team.

Five minutes was allotted each department for the selection of a representative of their group on the election committee. The six men selected are E. Baumel, E. E.; H. Bolton, C. E.; R. Lyford, Ch. E.; J. Morrison, F. P. E.; L. Phillips, M. E.; and W. Sobel, Arch.

Committee Holds Meeting

This group held a short meeting at the conclusion of the class meeting and made up a set of rules regarding election methods. They decided that a petition should contain twenty-five names necessary for nomination of the candidate; that in case of a duplication of names for one office, only the name on the first petition presented to Dean Heald will be honored and the name on the other petition will be scratched off; that the deadline for petitions will be five o'clock on Wednesday, Oct. 18; and that the petition must bear the first initial and department of all signers. The election will be run off on Friday, Oct. 20 with four o'clock the deadline for voting.

LaPedus Basketball Manager

In addition to the selection of the election committee, a basketball manager was elected. The balloting was between W. LaPedus and A. Lauchiskis. The victor was LaPedus who was also manager of last year's interclass team. Practices have been held and the juniors state they are ready to annex the championship.

Bracken Will Speak On City Exposition

Mr. Bracken, of the engineering department of Commonwealth Edison Company, will speak on "Commonwealth Edison's Part in A Century of Progress Exposition" at the next meeting of the Armour branch of the American Institute of Electrical Engineers, which will take place Friday, October 20, at 10:30 a. m. in Science Hall. President Lehmann urges the members of all the departments to attend this meeting.

Sound pictures, their development and use, is the theme of the talking pictures to be shown by the Illinois Bell Telephone Company at the meeting scheduled for October 27.

Fire Chief to Speak at F.P.E.S. Meeting

On account of the class meetings held last Friday, it was necessary to postpone the meeting of the Fire Protection Engineering Society until this Friday, Oct. 20. The speaker, Frank C. McAuliffe, chief of the Fire Insurance Patrol will talk on "The Insurance Patrol and Its Functions." The meeting will be held in C-Mission at 10:30 o'clock.

One of the duties of the Fire Insurance Patrol is to cooperate with the fire department in every way they can, to reduce the damage caused by fire and water. The Chicago Insurance Patrol is one of the most efficient in the country. Chief McAuliffe is a well known man as he has a national reputation.

Nominations for class officers was the major question brought up at the senior class meeting which was held at 10:30 a. m. last Friday. President Koko, who was in charge of the meeting, received the nominations for the offices of president, vice-president, secretary, treasurer, social chairman, and sergeant at arms.

Junior class elections will be held Friday. It is expected that the sophomore class will meet during the week, nominate officers, and vote either Thursday or Friday. The frosh election is slated for Friday.

Those nominated for the senior class offices are:

President—

Irving Kolve
Ray Pflum

Vice-President—

Don Jacobson
Walter Krol
George Reed
Leonard Rummel

Secretary—

Loy Callen
Ronald Dobson
Earl Gossweiler
George Korink
George McBrady
Robert Taguc

Social Chairman—

Don Chadwick
Luke Cosme
Roy Ekroth
Leo McDonald
Bert Peterson

Sergeant-at-Arms—

Barry Kostenko
Jim Manley
Gustaf Marberg

President Koko will appoint the election committee chairman. The latter will then choose his own committee. Voting will be by ballots which are to be deposited outside of the president's office between 8 a. m. and 3:30 p. m. on Thursday. The ballots will also include the choice between pamphlets and sheepskins for the seniors' diplomas.

Other business taken up at the meeting was concerned with arrangements for caps and gowns, jewelry, and diplomas. Dean Heald will be asked to hold up the contract for diplomas until the class has decided whether it wants pamphlets or sheepskins.

D. B. Rush to Speak at W. S. E. Meeting

The Western Society of Engineers will hold its second meeting of the year next Friday, October 20, at 10:30 o'clock. An interesting lecture will be presented by D. B. Rush on a subject of interest to all engineers, and civil engineers in particular. The lecture on "Manufacture of Portland Cement and Reinforcing Steel" will be well illustrated with motion pictures. This meeting was originally scheduled for last Friday, but was postponed due to a conflict with class meetings.

The present administration of W. S. E. insures continued programs of worth while speakers upon a number of subjects of vital interest to engineers. The whole hearted support of the student body is needed to make the officers feel that their efforts are worth while. A smoker is promised in the near future.

TO SHOW NEW RULE

A recently developed type of circular slide rule "Never Off the Dial" has been placed on the market and is being demonstrated at Armour this week. The advantages of a circular rule have always been recognized but the price at which such rules have sold in the past has prevented its general use.

Vol. XII. OCTOBER 17, 1933 No. 5

Class Elections

The arrival of the class elections which are scheduled for this Thursday and Friday has precipitated a turmoil of class politics and caused considerable hard feeling among the members of the various groups and departments.

That this is quite unnecessary and frequently leads to the election of improperly fitted and inefficient officers is quite obvious. No one group contains a majority of their class's leaders and hence should not expect to dominate their class's election. The nomination of several candidates for the various offices by one group results in an antagonistic feeling toward that group by the others who immediately unite to defeat those candidates. This means that some of the more desirable candidates are eliminated as any such group is very apt to contain one or two outstanding men. Usually these one or two men are defeated by those who are perhaps the least qualified of their opponents.

Frequently the more prominent members of a class are all run for the offices of president and vice-president, while the equally important positions of secretary, treasurer, and social chairman are left to men who are perhaps not the best fitted for these positions.

The freshman class, probably because fraternal bonds and departmental friendships have not become fully developed, is not greatly disturbed by class politics, but the three upper classes are now torn with political strife. In some the issue lies mainly between the fraternity group and the non-fraternity group. In the rest the departmental groups are wrangling over the division of the spoils. We doubt very much if these antagonistic proceedings will result in the election of the best qualified officials.

Unfortunately no suggestions for a better election system have as yet been forthcoming. Perhaps the master political minds among the students are more engrossed in the various methods for furthering their own ambitions than in attempting to improve the school political systems. At any rate it is doubtful if any change will take place in our election methods in the near future.

Cooperation of the class as a whole is needed to put over all class projects such as interclass athletics, dances, and social functions. Internal political strife defeats these very activities. Rail-roading thru an athletic manager or social chairman who will immediately turn around and appoint his personal friends and colleagues for his team or committee nearly always results in a complete failure of that particular event. Many classes have lost interclass athletic contests as a result of personal friendships being placed above the welfare of the team. We hope that this tendency will be overcome in time but meanwhile we have human nature to contend with.

"The Slipstick"

Cleave to "The Slipstick"; let the Slapstick fly where it may.

A day's work rates a day's pay. Thursday the 12th was Columbus day. Lines like this are very dense, but whoinell must always have sense. The Slipstick tries its best to place you. To be jocose and slightly silly does not at all make you a dilly. But he whose mien is hard as glass is really just a great big mass of intellectual muscle.

"I like mathematics when it isn't over my head."
"That's the way I feel about pigeons."

Arch: "Did you have a good time at the party last night?"
Mech: "No, I pulled a bloomer."
Arch: "It must have been an old-fashioned party."
—Buccaneer.

Shed tears for the maid in the Lincoln
Who swore she could drive without Thencoln
While avoiding a rock
She steered off the dock
And the rumor prevails that she's
Sincoln.

He: I can read you like a book.
She: Well don't be so anxious to thumb the pages.
—Circe.

"Yassah," said the little colored boy, "I've named for my parents. Daddy's name was Ferdinand and mammy's name was Liza."
"What's your name, then?"
"Ferdiliza."

A Man of Mark
Landlord: "This room was formerly occupied by a chemist. He invented a new explosive."
Prospect: "I suppose those spots on the wall are the results of his experiments."
Landlord: "Well, indirectly, yes. Those are the chemist."

Thank you very much for the contribs. The Slipstick hopes to hear from you again soon.
J. A. B.

OTHER CAMPUSES

According to the Kentucky Kernel, a freshman at the University of Kentucky attended a geology class regularly for two weeks before he found out it was not a class in German.

An English professor at Cornell University announced to his class that an essay had been handed in that was an exact copy from the text. He said that if the student would see him after class no name would be mentioned. After class he found five men waiting to see him.

Football has been discarded for rodeo sports at the Cheyenne School at Colorado Springs. Bucking horses and wild steers are considered less dangerous by Dr. Lloyd Shaw, superintendent. Incidentally, this same Dr. Shaw took on a bet recently that he wouldn't eat fried earthworms. He said they tasted good.

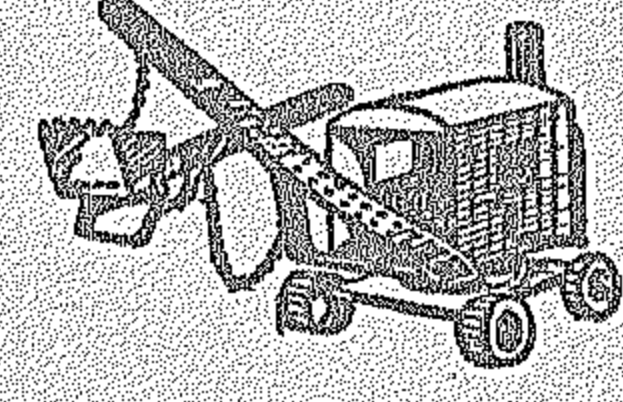

Because of dishonest meter-reading, the gas company supplying gas to the University of Vermont complains that it hasn't made a nickel on any of the sorority houses there for years.

Students at the University of North Carolina have been requested not to sleep in the lounge of their Union Building.

A questionnaire sent out to Bowling Green College men as to what were the desirable qualities in a woman, brought out the following results: She must have intelligence, affability, courtesy, a sense of humor, good taste in dressing, ability to cook, modesty, moderate liking for recreation, courage, and temperance in everything.

Phi Kappa Phi fraternity at Baldwin-Wallace College, is being sued by the family whose home is next door to the fraternity house because the members sing too loudly while in the showers.

THE STEAM SHOVEL

We were so inspired by Galbraith's behavior in front of the Dean's Office, that this poem came into mind—
Little Moustache, don't you cry,
You'll see the razor, by and by.

Who's afraid of the big bad profs?

Brother RAY PFLUM is now official greeter for the 9:30 heat power class. Brother WINSTON doesn't mind.

ED LIBBY, estimable prof. of Refrigeration, wants to know why in Hades FRANK, the custodian, doesn't park the rooms in the same place every day. "S annoying," sez 'e, "to find, after waiting for fifteen minutes that the wrong room is in the wrong place."

Dear Steam Shovel:
We would like to know who the little brunette is that's so often seen riding with Don Traver.
(Signed),
BROTHER FIENDS

P. S. She lives in Berwyn.
Answer: Do you mean the one with the mole under her left shoulder strap?
(Signed) S-O-S.

To Hold Meeting for Business Staff Men

A meeting of all men interested in work on the business staff of the Armour Tech News will be held this afternoon at 5 o'clock in the News offices, fourth entrance, second floor, Chapin. All present members of the business staff are asked to also be present.
At this meeting information will be given out on the business and advertising work of the News. Clarence Clarkson, business manager, will have charge of the meeting.

Arx News

When OLSEN lost his hat the other day, none other than "Irving Berlin" CHIAPPE wrote a song entitled: "O Olsen! Where's Your Hat?" What a song!

The juniors are reeling off roll after roll of tracing paper in the study of their "Walled Garden" projects. One member of the class, in an effort to get into the spirit of the problem, went as far as to have water dripping out of milk bottles to get the effect of a fountain.

ED KUK and EDMUNDS rated a "1" apiece on their "Brick Garden Shelter," while the same jury dished out another "1" to "Baby Face" LISCHER for his sketch of a "Setting for a Gothic Statue."

What are going to do about this, fellows? It has been discovered by yours truly that KUK'S pint milk bottles do "NOT" hold a pint, nor do two pints make a quart. Shall we boycott him? ? ?

Fire Drill Rules Issued by Office

Rules for fire drills have been issued by the Dean's office as follows:

The fire alarm is a prolonged blast of the siren in all buildings. "Safety First" is most important, and therefore all should remember to proceed as follows when vacating the buildings.

- (1) **From Main Building:** Cross the street to the sidewalk on the east side of Federal Street.
- (2) **From Mission Building:** Remain on sidewalk on the south side of 33rd Street and proceed some distance east of the entrance.
- (3) **From Machinery Hall:** Remain on the sidewalk on the north side of 33rd Street and proceed some distance west of the entrance.
- (4) **From Chapin Hall:** Remain on the sidewalk on the east side of Federal Street and proceed some distance north of the entrance.

Fraternity Notes

PHI PI PHI

The chapter extends its most sincere sympathy to Brother Tallafus in his recent bereavement due to the death of his father.

We extend congratulations to Brothers Nickolas Kuehn and Raymond Pflum upon their being initiated into Tau Beta Pi honorary scholastic fraternity.

It is with pleasure that the Armour chapter of Phi Pi Phi announces the pledging of: Rod Mijanowich, Ch. E. '37; Tom Onions, E. E. '37; Jack Shanahan, M. E. '37.

Brother Herbert Elliott of Xi chapter at North Carolina state is staying at the House during his visit to the World's Fair.

THETA XI

Alpha Gamma of Theta Xi announces the pledging of John Roberts, F. P. E., '35.

Many of the actives and pledges

attended a rush dance at the Northwestern chapter house last Friday evening.

Plans are underway for the Annual Hallowe'en Dance to be held in the near future. As usual, there will be many from the Purdue and Northwestern chapters as well as alumni in attendance.

PHI KAPPA SIGMA

Alpha Epsilon chapter of Phi Kappa Sigma takes pleasure in announcing the pledging of: George H. Starman, Jr., Ch. E. '37; Richard F. Thunder, M. E. '37.

Brothers Berry and Scott, '29 write and tell us that they are "still struggling along with the Missouri Inspection Bureau." Brother Lamb, F. P. E., '29 is to be congratulated, word having been received that he is the proud father of a baby boy, namely, Robert Spencer Lamb.

Brother John W. Hurley, C. E., '30, who after studying aeronautics in connection with the civil engineering course, passed the naval examinations and spent a couple of years flying with the High Hat

Squadron on the Pacific Coast and in Hawaii, is now co-pilot on United Airways' Chicago-Cleveland-New York flight. It is rumored that Bro. Jack is proving that romance can thrive in the air. It seems there is a certain stewardess on the same plane....

DELTA TAU DELTA

Delta Tau Delta takes pleasure in announcing the pledging of Orestis Tomei '37.

Now that rushing is officially over the house is going after scholarship as can well be seen by the amount of "midnight oil" that is burned. The engineers are getting their first quizzes and the architects are already working on their first problems.

SIGMA ALPHA MU

Sigma Epsilon chapter of Sigma Alpha Mu takes pleasure in announcing the pledging of the following men last Friday: Ted Gilberg, E. E. '36; Gus Freund, Ch. E. '36.

Among the alumni who visited the

chapter last week were Fra Morris, Laden, Fishman, Winogron, and Iv Cook from Kansas.

KAPPA DELTA EPSILON

It is with pleasure that Kappa Delta Epsilon fraternity announces the pledging of the following men: Harry Drell, M. E. '35; Sol Ender, '37; Morton Fineman, '37; Joseph Kubert, '37; Albert Rootberg, C. E. '36; Isadore Ikenn, C. E. '36.

Brother Joel Jacobson visited the school on his trip from the coast. He was very happy to see everybody and extended his greetings to the new pledges.

RHO DELTA RHO

The Rho Delta Rho fraternity takes pleasure in announcing the pledgeship of: Arthur Schreiber, Arch. '36; Charles Schreiber, Arch. '36; Leonard Sorkin, Ch. E. '37; Samuel Taradash, C. E. '37; Leonard Wirth, Ch. E. '35; Herman Ross, C. E. '37.

Brother Milton Heller reports that he likes Purdue very much, but misses the gang. Al Rosen, erstwhile architect, is going to night school and working during the day as a collector for a water-filter company.

FOR THROAT PROTECTION—FOR BETTER TASTE

CLASS TEAMS TO CONTINUE BATTLE IN CAGE TOURNEY

School Gym Is Scene of Feverish Activities in Past Week

JUNIORS HOLD TITLE

Interclass competition enters into another phase of sports by changing the scenes of battle from the baseball diamond in Ogden field to the hardwood basketball court in the Tech gym. The rules and regulations for the basketball tournament are similar to those maintained in baseball with only one exception. Varsity lettermen are ineligible to compete.

Practice Tilts Already Held

The practice tilts of the respective classes have already been held in the school gym. Last week with the exception of Thursday afternoon, the gym after 4 o'clock was a scene of feverish activities. This can be accounted for in view of the fact that in one solitary afternoon each class must choose a manager, organize a team, arrange for equipment and attempt to develop a few plays and a fair degree of teamwork in preparation for the scheduled games.

Each class is confident of winning, while the present junior class, Interclass basketball champions of 1932, are prepared to defend their title.

Juniors to Defend Title

The same junior team that reported to Captain LaPedus last season and later overwhelmed the strong junior team for the Interclass championship are back again with the exception of Lauchiskis, who has won his major letter since then. The members of the team are LaPedus, Lyford, Rosenthal, Biegler, Adamec, Levy, O'Connor, Smith, and Uzunaris. The junior class in a recent class meeting chose LaPedus as temporary manager. Lauchiskis and Christoph, another letter winner have helped put the team in shape.

The managers of the respective class teams are requested to report to McBrady before 4 o'clock in the gym office, for basketball. All the teams must be ready to play at 5 o'clock on the day of the game or forfeit. The quarters will be of seven minute durations with one minute rests between each quarter.

Playing Schedule

- October 16—Seniors vs. Juniors—5:00 P. M.
- October 17—Sophomores vs. Freshmen—5:00 P. M.
- October 18—Championship Game—5:00 P. M.

Good team work will eventually decide the title as has been the case in the past tournaments. Quintets that appeared very strong on paper and which consisted of several individual stars have been beaten by a supposedly inferior team because of good team play.

Delving back a bit into the past and to the interclass series of 1932 we find the sophomores defeating the cocky frosh after a strenuous struggle that was not decided until Biegler sank a short shot to give the sophs a 21-19 victory. Meanwhile the juniors breezed through their initial game with the seniors, piling up a large margin in the first half. The final score was 21-17.

Sophs, 27; Juniors 12

In the final game, the juniors were favored over the sophs. The sophomores put a smooth working, tight defensive team on the floor that utterly demoralized the sharp shooting juniors. The outcome was never in doubt after the first quarter. The juniors throughout the game were forced to shoot over half the length of the floor or not at all. The sophomores won 27-12.

Seniors Aim for Clean Sweep

The seniors are intent on making a clean sweep of the interclass athletic laurels this season. In the baseball games the fourth-year men displayed a wealth of talent and breezed through an easy victory, but in basketball the competition given by the junior and freshman teams may prove too stiff.

TECH SHORTS

By Ray Fleissner

Just a Word About—

The password last week was, "Convention, convention, which convention do we go to today?" It was more than a password as the Tech-hawks settled back to their every day routine, with a sigh, after a hectic weekend.

Swimmers, Notice!

A meeting of all Tech swimmers will be held today at 12:20. Cap Irv Kolve will be there to greet you. Come out. You will be under no obligation (unless you can swim). All new men are urged to attend to get the proper slant on proceedings.

The next tournament to reach the limelight is the annual interclass basketball brawl. Each squad has had its practice session, and the first game was played yesterday, between the seniors and juniors. The sophs and frosh play today, and the finale is tomorrow. None of the teams are exceptionally strong, although the present junior class, last year's titleholder, has all of its men back except Al Lauchiskis.

Hey, Schommer!

Why not let the boys play poker up in our gym instead of the usual battling basketball for gym courses. Or maybe they would rather play desk tennis.

We received some real publicity from a Chicago newspaper last week. The item reported that the Armour Athletic fund, amounting to \$80,000 was to be turned into a student loan fund. The only trouble is, some people may think that an athletic fund of such proportions for an institution of our size and status, is ridiculous. Well, the newspaper meant well, and anyway it was merely a matter of nothing, more or less. A zero. A case where something plus zero is plenty more than the original something. Eh, what!

WEIGHT MELTS AS MAT TEAM OPENS SEASON WITH BANG

Friday, Oct. 13th, and the gym (J. Schommer please note) is no longer bereft of humanity. The sport season is open, and with a bang, if one might be so bold. What with wrestlers, boxers, and frosh basketeers stretching their limbs for the first time since vacation; activity, attractive as an innovation, is obvious to eye and ear.

Coch Weissman is the first to meet the wandering gaze of the spectator, and the coach looks hot. Surrounded by a group of about twenty boxing prospects, new ones mind you; he is demonstrating the latest steps about the bag (punching dummy!) Looks easy—but the novices look rather feeble with naught but a pair of bag mitts on their hands. Glenn Graham tried to emulate the "prof." but we'll agree that as yet Glenn makes a good student. Pete Machinis donned the leathers, and he too looks better on the diamond. Luke Cosme prefers jumping rope as an opening day diet. "Red" Bottlesen is seen in the crowd—sure looks good to see so many new men; worry about the vets later.

Talaber Tutors Matmen

But from whence issue the grunts, groans and thuds (and B. O.)? To the south lie (also sit, stand, and jump) the wrestlers, who are really working in earnest. Frank Talaber is breaking in his vets and hopefuls easily, but several of them are due to maul through 8 minute bouts before they shower.

"Pat" Patterson and "Winnie" Felt occupy a choice corner of the mat. "Pat" is demonstrating the intricacies of the switch to his protegee. Andy Pappas rests his weary frame and a frosh basket hound nearby steps on his face. Bob Schmidt and Charley Boberg mill about with the intention of gaining practice. Herm Sumner and Ray Peterson, his pupil are making one corner of the mat unsafe for others—these wrestlers sure do plenty of

Meeting of Tankmen Scheduled for Today

Captain Irv Kolve announces that a meeting of all the swimmers will be held Tuesday at noon. Notice will be posted on the bulletin board in the main building as to the whereabouts of the meeting. All freshmen and others who have any swimming ability are welcomed to report.

Armour faces a hard schedule with the loss of Carlstrom, high scorer, and a regular in Giovan, leaving Kolve, Knaus, Bernstein, Burson, Ahern, La Force, Reed, Tallafus, Davison, Luce and Goldberg. With all these veterans left prospects are by no means gloomy. However, it is hoped that there will be a large turnout of new men.

Last season swimming was raised from a minor sport and given a major ranking. This change was due, mainly, to the fact that last year's schedule embodied a number of high calibre teams. If the material is satisfactory this year an attempt will be made to make another such schedule.

moving in a small space. Gus Berquist with his fancy pants is among the late arrivals. Bob Hella and Marslek, the flea-weights resume amenities of last season. The newer men and several other vets are scattered about the floor. They are apparently perfecting their approach—this however is not done with a club.

Koko Cooks up Competition

Aha, but what have we here? Looks like—yes it is, Koko (the Frank Koko) the ambitious manager of the two squads. He looks like a chicken lording it over her brood—but Tech sports need dutiful managers, and he is that. If Frank is successful in negotiations the teams face a big year. At the rate they begin, they'll be ready, and how!

Well, the opener is over, and the boys are dropping out to shower and dress. Just hope that tomorrow they won't be too stiff to enjoy their Saturday rest.

Golf Tournament Advances Rapidly

The latest results in the annual Tech golf tournament are as follows: Wattlely won from Tice by default; C. Schreiber defeated Sobel, 1 up in 21 holes; Art Schreiber lost to Hevrdejs, 5 and 4; and Jack Shanahan defeated Dwyer 1 up.

The semi-finals were played last Saturday but not in time to come to press. In these matches Wattlely played Charles Schreiber and Shanahan met Hevrdejs. Yesterday was the deadline for these matches and next Monday is set as the deadline for the finals so that for the first time in recent years the finals will be run off.

Medal to the Victor

The winner will be awarded a medal symbolic of his golfing prowess and winning the tournament is another step towards a position on the Armour Tech Golf Team.

Aside from the men who make a good showing in this tournament, the prospects for the varsity squad are: Bob Richards, a member of Crane's team last year and a former Tech man, who is planning to re-enter school in February; and Captain Larry Davidson's brother, a golfer of no mean ability who is also planning to register at Armour next semester.

Manager to Be Elected

The manager of the golf team for the coming season has not been officially decided, however, as soon as Prof. Leigh appoints the manager the 1934 schedule will be compiled.

Netmen Approach Tennis Semi-Finals

The tennis tournament has taken several steps towards completion during the past week. The latest matches posted are the following: Chet Hillman defeated Willie Trudelle by scores of 3-6, 6-3, 6-2; Lukas beat Gunderson by scores of 6-0, 6-4, and Cieslewicz won from Goss-willer 6-1, 6-3.

Hillman and Lukas won their matches last Wednesday under very adverse conditions. A stiff wind swept the courts and the contestants had to play a careful game so as to keep the ball out of the clutches of the wind.

With another impressive victory Cieslewicz swept on to the semi-finals where he plays the winner of the R. Wahl-O. Nelson match. The other semi-final match is to be played between Hillman and Lukas.

The remaining matches should be completed within the coming week because the number of days suitable for tennis is few. With the proper cooperation of the contestants the tennis tournament will be completed.

A loving cup is the prize to be awarded to the victor by the A. T. A. A. and this marks the first year that a prize has been offered to lure the Tech tennis stars.

A sensible package

a sensible package
10 cents

We wanted to sell it for 10 cents so we put Granger in a sensible soft foil pouch—easy to carry and keeps the tobacco just exactly right—just like it was made.

Granger . . . good tobacco . . . Wellman Method . . . cut right . . . packed right. And there is this much about it:

We have yet to know of a man who started to smoke Granger who didn't keep on. Folks seem to like it.

Granger Rough Cut

—the tobacco that's MADE FOR PIPES
