

TECH GOLF TEAM DEFEATS DE PAUW BY A 10-8 SCORE

Tech Team Wins Doubles Matches; Singles Points Halved

De Pauw Here This Saturday

The Tech golfers travelled to Greencastle, Indiana last Saturday and defeated the De Pauw team by a 10 to 8 score. The contest consisted of two doubles and four singles matches over the nine hole Country Club Course. Both the singles and the doubles matches consisted of eighteen holes each so the visiting Armour team had ample opportunity to become acquainted with the course after two practice rounds on Friday and the four rounds played in the match on Saturday.

Tech Wins Doubles

In the morning's doubles matches Larry Davidson and Jack Shanahan paired together against Heff and Pulliam of De Pauw and Tom "Muscles" Wattley and Bill Ahern composed the other Tech doubles team and they played Kubner and Brown. After the first nine holes both the Tech teams were 2 down but on the second nine Davidson and Shanahan managed to gain a 3 up lead to win the nine and capture the eighteen 1 up. Playing par golf for the second nine Ahern and Wattley stepped into the lead and won the nine 5 up which also gave them the eighteen, 3 up and 2 to go. The doubles matches ended 4 to 2 in favor of the Tech golfers.

They're All Wet

Midway in the doubles matches a heavy downpour drenched the golfers, but by the time they changed to dry clothes and had lunch the weather cleared, although it left the course in a very soggy condition.

The singles matches were closely contested. Larry Davidson played Pulliam, and after losing the first nine 3 down came back to win the second nine 2 up, giving him one out of a possible three points. Ahern, of Armour, won the first nine but lost the second nine 1 down to win 2 out of a possible three points from Kubner of De Pauw.

Shanahan Wins Singles Match

Jack Shanahan came through with a decisive win, beating his opponent, Heff, 4 up on the first nine and then repeating by capturing the 4 up lead on the second nine. This added three points to the Armour total and was sufficient to give Armour a win. Tom Wattley bumped into a tough opponent, Brown, and lost all three points.

This Saturday the De Pauw team visits Chicago in a match with Armour on the Southmoor Country Club links. This should prove to be an interesting match, even though Armour will have an advantage by playing on their home course.

Hi-lites

Jack Shanahan scored a 79 in the singles match for the best 18 hole score of the day. Shanahan had a 38 for nine, and Davidson had 39 for nine for the best scores for one round. In the doubles match Ahern scored even par for seven holes and so concluded the high spots of the Tech victory.

Armour-DePauw Net Matches Rained Out

The Armour tennis team travelled to Greencastle Indiana last Saturday to engage in a match with De Pauw. Due to a heavy rain the match was not played so that the tennis team ended up with an enjoyable week end trip. An informal match was played Sunday, but it was not official.—If the weather permits an official match will be played this Saturday at Armour when De Pauw comes to Chicago.

The tennis and golf teams as well as golf manager, "Boss" Pfum, and tennis manager, Norm Colburn, were entertained at the De Pauw fraternity houses during their stay.—the fraternities were also host to the Tech rooters section, John Schreiner. Although the team was not able to have their match this fact did not dull their enthusiasm for enjoying themselves.

PENTATHLON GIVES NON-LETTERMEN A CHANCE AT MEDALS

Consistent with the new deal in intra-school sports, is the news that the Pentathlon, a feature of Junior Week, will offer a chance for the active Techawks not quite good enough to be track lettermen. In former years, this great opportunity for the student body has been limited to a few track men whose ability made competition foolish. With two medals for "non-professionals" and two for the track men, the entry list should expand like a banker's waistline.

The Pentathlon, which embraces five events, both track and field, should be the highlight of this year's activities. If these freshmen can put the shot with a mere delta of the ability they show in tossing the ball, some fresh might put a medal away with his green hat in his chest of hope. Of course, the sophs do not run, they stand and dish it out, so they might not look so hot in the track events; but even a running freshman couldn't stay in front of a one legged sophomore. The upperclassmen, needless to say, are beyond any consideration in such an event; but some of the eleven semester men whose schoolwork doesn't interfere with their education might fool the better.

Regardless of age, size, creed, color, or intellect, appreciate this year's Pentathlon is for the great student body, so enter; practice; and join the Techawk's hall of ill fame.

Pending the outcome of games in the early part of this week it is impossible to match several of the teams in the tourney. They will be notified of this week's games by either Ahern or Larson.

Bodenmann's frosh pushed two of their brethren from the league last week and they show intentions of remaining to see the finish despite a slow start... "Poppy" Pfum and his Senior Civics pulled an inspection trip on us, but they'll come to task this week... Even the Senior F. P. E. had to lose, but they fought to a 3-2 margin which the Soph Schmers decided in the last half of the ninth... Mills, of the losers, found out that stealing is hazardous, especially when the first baseman holds the ball. Also, Dick Harwood should be about two times bigger if he is to keep his team in the running by checking runs at the plate... The E. E. teams are still hanging on... The Soph juicers had another big win, 11-3, with the Soph M. E. holding the bag. It took the E. E. team three innings to discover that their opponents had but three fielders... Competition (and soft balls) makes these last games a bit more interesting than earlier matches... but someone has to lose if the tournament is to be finished, and they've got to do it darn quick if Junior Week is to see the finish.

The golf and tennis teams enjoyed a warm week-end at Greencastle, Indiana, where they met the De Pauw teams in their respective sports. The netmen closed a busy week, having previously met Loyola, Chicago and Northwestern, with indifferent success. Loyola fell to the Techmen, 6-1; but Chicago handed them a 5-2 whipping. Ebsensen in the singles and McDonough and Lammer in the doubles provided the wins for Armour. Northwestern took an 8-0 win without much trouble to close the week's ventures.

recognized by the A. T. A. A. and receive awards.

Although the field house (?) might be big enough for both the baseball and track squads, the hot water facilities are not adequate to the demands of the showerers. It seems that the ball players are left in the cold water after trackmen, and others, dispathe their accumulated B. O.; and then leave the showerers running after completing the baths. Wherefore the authorities have ordained that only after 5:30 p. m. shall the field house showers be used—and then judiciously! All athletes desiring a shower before this hour will have to report to the main building, where hot water is hot and plentiful. In this way, the ball team can even be in hot water after their games, or practices, are over.

—they age good grapes to make rare wines

—and they do something like that to mellow good tobaccos

WHERE THE RARE WINES come from they know that the two most important things in wine-making are the selection of the grapes and the long years of ageing in the wine cellars.

IT'S VERY MUCH THE SAME in the making of a cigarette. You have to get the right tobaccos, then put them away to age and mellow in wooden casks.

You can't make a good cigarette like Chesterfield in a day. It takes over two years to age the tobaccos for your Chesterfields—but it adds something to the taste and makes them milder.

the cigarette that's MILDER the cigarette that TASTES BETTER

Everything that modern Science really knows about is used to make Chesterfield the cigarette that's milder, the cigarette that tastes better.
