

SIDELINES

(Continued from page 1)
and many other fields of endeavor, the world's fair will stand as an authentic resume and self-educating center. Old exhibits have been extended and new exhibits added.

THE FIFTEEN MILLION visitors of last year's exposition should be made to realize that a new fair exists. Another visit this year will net new sights with little duplication of old. Foremost among the entertaining features will be the inclusion of the Chicago and Detroit symphony orchestras, each in a series of concerts. We have also learned from a reliable source that the majority of the exposition guides will be mounted on horseback this year. What's a horse? Go to the World's Fair for an answer to any question.

INCLUDED in the Junior Week program, is an item calling for a soft-ball contest between the faculty and the senior class. The junior marshals are to be complimented

Faculty Wives Have Election of Officers

Mrs. Willard E. Hotchkiss was elected president of the Faculty Women's Club last week, at the regular annual business meeting.

Other officers elected were Mrs. C. W. Leigh, vice-president; Mrs. C. G. Blough, secretary; and Mrs. S. E. Winston, treasurer. Certain appointive offices are yet to be filled.

The program of the meeting included also the annual reports of the club, a review of Hervey Allen's "Anthony Adverse", given by Mrs. A. H. Carpenter; a discussion of the report, and tea in the faculty grill.

for including this item, as well as the faculty for their acceptance. One of the desirable features of social activities in any institution of higher learning is eager participation on the part of the faculty. The marshals have been working toward this end for the past few weeks and urgently invite the faculty to witness the annual presentation of Junior Week.

Professors To Talk To Future Students

A number of professors from Armour have been visiting high schools throughout the city during the past few weeks. They have spoken at general assemblies of the upper classes, and have held individual conferences with juniors and seniors who were interested in Armour Institute.

Mr. Ernest Kelly, recorder, was at Farragut high school last Tuesday, at Amundsen high on Wednesday and at Lane Technical high school on Thursday. Last Friday Professor Roesch of the mechanical engineering department visited Fenger high school.

Elect Lang to Head A.I.Ch.E. Next Year

An election of officers for the coming year was held by the Armour branch of the American Institute of Chemical Engineers last Friday. Those elected to office are J. R. Lang, president; H. A. Williams, vice-president; A. J. Ragan, secretary; and E. P. Renstrom, treasurer.

Peterson Receives Scholarship Award

At the last meeting of the Fire Protection Engineering Society, Raymond A. Peterson, sophomore fire protect, was presented with a "Handbook of Fire Protection Engineering" by Charles A. Cunningham, president of Salamander. Ray received the handbook in recognition of his having the highest average of the freshman fire protects last year, a mark of 96.7.

Speaker Recounts Experiences

The speaker for the meeting was Mr. Goldsmith of the National Board of Underwriters. He related to the group a number of extraordinary experiences which he had in his field work.

The Fire Protection Engineering Society will hold its election of officers for the next year a week from Friday. Everybody is urged by President Anderson to attend this last meeting of the society for the year.

Annual Junior Week Is as Good as Ever

(Continued from page 1)
The last day of the week, Friday, is the scene of the events that have made Junior Week and Circus Day sources of much anticipation and excitement. The class rush at one o'clock brings the hostilities between first and second year men to a climax for another year, when all freshmen and sophomores that have survived the struggle of the week will combat for supremacy in possession of the sand and straw bags piled in the center of Ogden Field. The interfraternity pageant will follow the rush at two o'clock with each fraternity presenting a stunt. Circus Day judges this year will be Dr. Hotchkiss, and Professors Hendricks and Huntley.

This year's Junior Week is in charge of the junior marshals, R. L. Friede, W. W. Henning, T. F. Jones, and their assistants, J. H. De Boo, S. S. Granger, A. B. Lauchakis, J. M. O'Connor, W. C. Peterson, and P. V. Smith, all chosen by the junior

Call for Donations to Periodical Stock

Wishing to extend its collection of technical periodicals, the Armour library has issued a request for contributions of material of this kind. Series of technical magazines, or of the publications of engineering societies, even though incomplete, are needed. Anyone having a set of this kind which he no longer wants, is requested to bring it to the library.

TRUSS CLUB

The Truss Club has announced the pledging of C. M. Kazierezak, E. E. '35, H. W. Ritscher, Ch. E. '37, and W. D. Peterson, M. E. '37.

Plans are being made for a dance to be held at the house after the spring concert.

class to act as officials for the week. With the cooperation and assistance of the student body and the supervision of the junior marshals, the Junior Week of 1934 will soon take its place among successful events.

Here's why-Luckies do not dry out

why-Luckies are All-Ways kind to your throat

The difference between cigarettes is the difference between what goes into them and how they are put together.

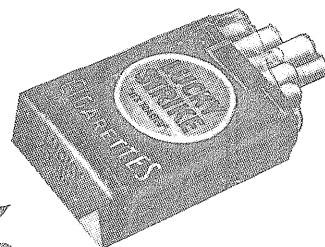

Luckies use only the clean, center leaves, for these are the mildest leaves—they taste better. That's why farmers are paid higher prices for them. And Luckies get the benefit of the famous process—"It's toasted"—for your throat protection.

And every Lucky is round, firm and fully packed. That's why Luckies "keep in condition"—that's why you'll find that Luckies do not dry out—an important point to every smoker.

Yes, Luckies are always in all-ways kind to your throat.
