

THE STEAM SHOVEL

The Frosh are actually challenging the upper class boys—that is men—to a regular ho-man, interclass, five day, hard working contest. Personally, the Steam Shovel wasn't aware that many freshmen were capable of raising a beard—they must have forgotten that "fuzz" doesn't count!

Well, we've got to hand it to Jack Weiland—Jack doesn't believe in exaggeration...much. After all there really isn't much difference between seven and a half inches and fifteen feet, is there? Anyway, when Jack really sets out to tell an honest to god fish story, we want to be around!

Junior week isn't far off, but **BILL PETERSON** is all set for it. "You guys don't have to worry about the sophomores, I'll take care of them myself." Bill assured the other junior marshalls. Beware the *Ides of May, Bill, b-e-w-a-r-e.*

The Junior E. E.'s unanimously designate **Georgie Allison** as their team mascot, and they also promise to make anybody else a mascot who'll buy them balls. Would George like to be the official mascot of the **JUNIOR CHEMICALS?** Well, we think we could arrange it.

Bill Colvert finds being a south-paw a handicap in demonstrating the "right hand" rule, but it's never too late to learn, Bill. And if you can't do it, skip that chapter and make it up on the left hand rule!

"**BAD BOY**" **PHIL HENOCHS** plans to take a little A. W. O. L. for himself from Physical Chemistry were frustrated—because there wasn't any class anyway.

And now we find that **CARL RUPPRECHT** not only has night mares but brings his mares to school with him!

History repeats itself: **Herb Kreiman's** Buick is absolutely nothing more *no less* than the reincarnation of **Professor Gobhardt's** "Mary Ann" of the good old Mid Victorian days.

Arx News

The juniors came through the New York judgment of their "summer Residences" with flying colors. Out of fifteen projects which were sent, all but three rated, seven were mentioned. Let's see you sophs break this record next semester!

It looks like **Priestley** won't pull any more speckled ink on **Krohli** or will he "chisel" cigarettes from same. After two puffs on the "coffin nail" he received from **Krohli**, it exploded with a **BANG**, searing **Ralph** out of ten years' growth. How many paddles will he get for that **Ralph**?

Speaking about paddling..... **KICHAVEN** has so greased a lead on the number of paddles he will receive on initiation day, the rest of you frosh should be glad he is a member of your class. After we all get through paddling him we won't have any strength left to paddle the rest of you frosh. Keep it up **KICHAVEN** you're doing fine!!

For **Mr. Suter's** information, a wide brush, say about a number ten, will spread varnish swell on steel cabinets.

There seems to be a decided atmosphere of chattering in **Arx** camp of late. Consequently "singers" will be much in demand when the seniors reel off their current projects.

At last **Prof. Krehbiel** found a model which met with everybody's approval. Before the class was half over the boys were all singing—"You ought to be in pictures." Do we want her to model for us again??

- SNOOPING SAM.

Fraternity Notes

THETA XI

Alpha Gamma of Theta Xi announces with pleasure the pledging of **Carl Forsberg '37**.

The annual **Hard Times Party** was given last Saturday night, and as attested by the number present, and the enjoyable time had by everyone, was a huge success.

Our ping-pong match with **Triangle** was postponed, and will probably be played off this week.

DELTA TAU DELTA

We are pleased to announce the pledging of **Norman McGuone '37**.

After the **Delt Prom** last Saturday things are settling down. Beyond a doubt the **Prom** exceeded all expectations. The crowd was large and even a better time was had than usual. Baseball practice is under way now

despite the difficulty in securing rainless afternoons for practice.

The **Mother's Club** will have a meeting next Sunday, April 15. We hope besides the mothers to have a large turnout of alumni and their wives.

PHI KAPPA SIGMA

The **Fire Protection Engineering Society** held a smoker at the house on Friday night, April 6. The affair was well attended and was a big success. Among the speakers was **Mr. J. V. Parker**.

On Saturday night, April 7, a dance was held at the house with the music of **Chicago's** finest orchestras. About thirty couples turned out for the gala affair.

At present, the house is busily preparing for the next big social function, the **Phi Kappa Sigma Alumni smoker** which is held twice a year. This year it will be held on Thurs-

day evening, April 19. From the returns coming in it looks like this will be the biggest smoker the house has ever had.

TRIANGLE

Last Friday evening a radio dance was held at the house.

Plans are now being made for our **National Convention** to be held at the **Allerton Hotel**, April 26-27-28.

BETA PSI

Howard Zibbe left for **New York** yesterday, and will be gone for at least a week on business. Bon voyage to you, **Howie**.

The date for the annual **Spring Fever** dance, has been set for **April 21**. Everybody is looking forward to this event, and **brother Cannon** is busy engaging an orchestra for the occasion.

The **Mother's Club** met at the house last Tuesday, and an enjoyable

afternoon was spent together. The meeting was well attended, and plans are under way for bigger and better times.

Kenneth Dunn has been placed in charge of our baseball team, and the boys are getting in trim for the coming tourney.

KAPPA DELTA EPSILON

Kappa Delta Epsilon is pleased to announce the pledging of **Sheldon Goldman, '37**.

An election of officers was held last week and the results are: **Albert Rotherberg**, vice-president; **Joseph M. Koebert**, secretary; **Sol L. Ender**, treasurer and **Merton Z. Fineman**, social chairman.

The new administration has great plans for the coming season. A tentative date for the splash party has been set at **April 20**. It will probably be held at the **Edgewater Beach Hotel**.

Although the chapter has been forced to forfeit its match in the ping pong tournament, the members are assured of a series of victories in inter-fraternity baseball.

President Marcus's mental and physical lassitude these days is probably caused by the fact that the usual monthly banquet at the **Allerton Club** has been delayed.

RHO DELTA RHO

The social committees of the active and alumni chapters are working hard formulating plans for our annual dinner dance, which will be held in the latter part of **May**. The favorite site seems to be the **Allerton Hotel** which was the scene of our last dinner dance.

Our baseball team under the management of **brother Dworsky** is whipping itself into shape and will be ready to meet all comers within a few days.

LUCKIES ARE ALL-WAYS KIND TO YOUR THROAT

©E I smoke Luckies because the finest tobaccos and only the clean center leaves give Luckies that better taste. But they don't stop there. For throat protection, it's toasted! Long golden strands of only the center leaves... rolled round, and firm... no loose ends. That's why Luckies 'keep in condition'—do not dry out. Luckies are all-ways kind to my throat. 99

"It's toasted"

✓ Luckies are all-ways kind to your throat

Only the Center Leaves—these are the Mildest Leaves

NOT the top leaves—they're under-developed—they are harsh!

They taste better

NOT the bottom leaves—they're inferior in quality—coarse and sandy!
