

SIDELINES

By S. M. Miner

RECENT CONSIDERATION by the house of representatives of the Frazier-Lemke farm mortgage refinancing bill, or as it is popularly labeled, "inflation bill," brings forth many items of note. First there is the extraordinary, open-minded fairness shown by the lower house and then later, the newspaper misinterpretation of the House's action. Secondly, there is the extremely broad monetary question which the bill has served to bring again into the limelight.

CONSIDERING FIRST the political aspects of the event, it is gratifying to see that at least a few of the representatives attacked the issue from an unbiased viewpoint. They even went so far as to sign their names to a petition requesting consideration of the bill—a move which was erroneously interpreted as signifying approval of the bill—and then after considering the debate and arguments, voted against the inflationary measures involved in the bill.

NEWSPAPER COMMENT on the question was varied. One of Chicago's papers touched upon the subject merely as another of the many measures before Congress. A second paper, wishing to take advantage of the opportunity of continuing its policy of degrading the administration, played up many of the intricacies involved in the consideration of the bill. Its main contention was that the whip-hand, wielded by the president in his declaration against the bill, served to drive the entire Congress in the presidential direction. No account, however, was taken of three significant factors. In line with the fifty out of one hundred and sixty Democrats who were, supposedly, driven to vote against the bill after petitioning for its consideration, there were some 30 out of about 60 Republicans, who are certainly not subject to the executive whip, and yet who switched camps. Furthermore, a goodly percentage of the switch was probably due to the decision against the bill, handed down by the A. F. of L., a body which certainly maintains influence over a few representatives. And thirdly, many of those who switched camps, announced at the time of signing the petition, that they were only desirous of giving the bill a fair hearing and were not committing themselves for or against the measure.

FOR THE PRESENT, in regard to the vast monetary questions involved, it will only be attempted to point out a few of the pertinent items. Inflation is an old story, and has usually been a rather discouraging one in its results. It is possible under both a "gold" and a "managed currency" standard to have inflation. However, when not on the "gold standard" (our position at the present), its dangers are greater and more numerous. And finally, the classical and well-known example of Germany's inflationary period after the war (an exaggerated but still exemplary case) seems to clinch the fact that the more carefully we can preserve a proximity to a stabilized currency, the safer we will be, from a financial standpoint.

Social Fraternities Entertain Non-Greeks

About one hundred non-fraternity men and their friends attended the first fraternity open house night last Tuesday. Those fraternities which participated were: Delta Tau Delta, Triangle, Phi Pi Phi, Rho Delta Rho, and Pi Kappa Phi.

Paul Martin Made '37 'Cycle' Editor

Appointments of men to make up the staff of next year's *Cycle* were recently announced by John B. Davis, retiring editor-in-chief. Paul M. Martin, junior electrical and head junior marshal, will take over the position of editor-in-chief. William J. Laise is to be the business manager, and William J. Chelgren advertising manager.

Martin, who worked on the *Cycle* since his freshman year, held the position of associate editor at the time of his appointment. He succeeds John B. Davis, under whose leadership the *Cycle* of 1936 has been prepared. The other officers retiring are W. A. Chapin, business manager, and W. F. Schreiber, advertising manager.

The *Cycle* will be distributed tomorrow at 2 o'clock. "Honor Cycles" will also be given out at this time. Freshmen and sophomores are to receive their copies in the lobby of the main building; juniors, seniors, and co-operative students will receive theirs on the first floor of Mission. Copies for the faculty and part time students will be distributed in the electrical lecture room.

Pi Tau Sigma Elects S. M. Miner President

Sydney M. Miner, M. E., '37, feature writer for the *Armour Tech News*, was elected president of Pi Tau Sigma, honorary mechanical engineering fraternity, at a meeting held in the fraternity room last Monday. He succeeds Harry S. Nachman, who graduates in June.

At this meeting Professor H. L. Nachman was elected faculty advisor for the coming year. Other officers elected were: F. L. Leason, Jr., vice-president and pledge captain; P. A. Reh, treasurer; J. F. Bartusek, recording secretary; H. L. Appel, corresponding secretary, and J. Hlousek, cataloger.

Big Crowd Views Armour Exhibition

An estimated 1500 persons were the guests of Armour Tech last Monday night at the annual open house when the whole school was on exhibition. Especially large groups were to be found in the library, in the laboratories, and at the puppet show.

"Faust", by Christopher Marlowe, was rewritten by the Armour Players and presented by them at the puppet show. The players had as much or more fun than the audience while putting the show on. Many difficulties were encountered during the presentation; the last of the paint was applied at the last minute, and one of the manipulators read his lines while operating the puppets.

Auto Lab Draws Interest

Much interest in the diesel engine exhibit in the automotive lab was evidenced by the fact that there were many inquiries as to where that exhibit could be found. Many inquiries were also received in regard to the chemical engineering exhibits.

The organic and physics labs were crowded all evening with Armour students and their friends. An exhibit showing the usefulness of the stroboscope was presented in the physics lab and attracted a great deal of attention. Many photographs taken by students, rare books, and mathematics drawings were exhibited in the library.

Ends With Dance

Drawings by the freshmen and the architects were on display in the freshman drafting room, while in the civil drafting rooms work done by the civils was shown. In the assembly hall large crowds were attracted to the huge Tesla coil which created a spark about six feet long.

At ten o'clock the exhibits were closed and the visitors adjourned to the gym where they danced to the rhythmic music of Ed Krafft and his Melody Masters until twelve.

A.T.S.A. Elections to Be Held Today

Ballots will be cast in the lobby today for three offices in the newly-formed A. T. S. A. Offices to be filled are those of first vice-president, second vice-president, and secretary. Nominated for vice-president are: H. J. Bodnar, C. W. Dunbar, and J. D. Sheehan; for second vice-president, J. F. Bartusek, W. A. Chapin, and S. M. Miner; for secretary, W. J. Chelgren, W. R. Marshall, and E. F. Wagner.

Eugene Heike, vice-president of the A. T. A. A. for the past year, automatically becomes the first president of the A. T. S. A.

Phi Lambda Upsilon to Initiate Six Men

Initiation into Phi Lambda Upsilon, honorary chemical fraternity, will be held on Wednesday, May 27. Six men will be initiated, all of whom have passed both examinations given by the fraternity. The first was a comprehensive written test, and the second one was a laboratory examination.

Those men who will be initiated are E. Freireich, E. A. Kreft, R. C. Peterson, senior chemicals; and F. B. Harman, E. A. Heike, and S. H. Kaplan, junior chemicals.

Mechanicals to Meet Professional Section

On Friday, May 22, at 7:30 p. m., the Junior Engineers of the A.S.M.E. will be host to the entire Chicago section at the Medinah Athletic Club. The subjects of the speeches and discussions will center around patent protection in the United States and abroad and will be followed by refreshments and a smoker. Mr. Charles T. Link, an Armour graduate, will give a brief speech welcoming all to the smoker and inviting the graduating seniors to join the Junior Engineers.

The Armour student chapter of the A.S.M.E. will have a meeting this Friday at 10:30 in Science Hall for the purpose of electing officers. Four valuable books will be awarded to the members who have contributed most to the activities and affairs of the A.S.M.E. Three of these were donated by the faculty members of the Mechanical Engineering department, and one was contributed by the national A.S.M.E.

Bonfire Leads to Snake Dance in Loop—Which Leads to Headaches

By A. N. Schrieber

Keeping up with the tradition of past years, the bonfire held last Thursday night proved hectic for the hundred-odd students who attended it. The evening began with a huge bonfire that was made of telegraph poles and was held just north of the gas laboratory. The group, led by the junior marshals, snake danced about the fire and serenaded the three squads of police sent to protect the Armour students from undue trouble.

After the fire began to die down it was decided by grape vine methods to leave the protection of the officers of the law, and the entire group migrated to Adams and Wabash by means of autos, the Rapid Transit Lines, and street cars. Those on the elevated trains helped correct route signs and changed "Kenwood Local" signs to such interesting ones as "Lake Street Express" and "Ravenswood Local."

The original plan of painting green and red stripes on the Art Institute lions was soon abandoned because of the lack of paint. The next plan, a snake dance down State Street, met with instant approval.

The line formed at Jackson Boulevard and State Street and proceeded north as everyone sang the fight song. The snake dancers marched from one

Music Clubs Make Hit With Concert

Before a large and enthusiastic audience of parents and friends, the Armour musical clubs presented their thirty-first annual Spring Concert on the evening of Wednesday, May 13, in the assembly hall. An interesting feature was the interfraternity sing, won for the second consecutive time by Pi Kappa Phi. The other fraternities taking part were Delta Tau Delta, Phi Kappa Sigma, Phi Pi Phi, Sigma Alpha Mu, and Theta Xi. Sigma Alpha Mu had only five singers, but struggled manfully along and was rewarded by the best applause of the evening. Judges of the sing were Miss Nell Steele, Emeritus Professor Charles Leigh, and Dr. Rufus Oldenburger.

Feature Several Soloists

The orchestra and glee club, directed by O. Gordon Erickson, gave their numbers with the usual artistic interpretation. Added attractions were a trumpet solo by J. H. Johnson, a saxophone solo by R. M. Paulsen, and an accordion duet by B. F. Heine and L. Skubic. The featured trio in the glee club's rendering of "Land Sighting" were D. C. Harris, F. L. Smith, and T. W. Yeakle.

Present Watch to Director

As a token of appreciation for his work during the last four years, a handsome wrist watch was presented to director Erickson by George Ormsby, president of the musical clubs. Following this, a group of senior glee club members sang "Kentucky Babe" and "Lights Out." The program closed with the singing of "Alma Mater."

Barr Resigns, Takes Oil Company Position

Dr. Frank T. Barr, instructor in chemical engineering for the past two years, has resigned to accept a position with the Standard Oil Development Company, a subsidiary of the Standard Oil Company of New Jersey, one of the largest oil companies in the world.

The Standard Oil Development Company has headquarters at Bayway, New Jersey and Baton Rouge, Louisiana and handles the research and development for the Standard Oil Company. Dr. Barr assumes his new position July 1, but does not know at the present time where his headquarters will be.

JUNIORS TAKE BASEBALL, PUSHBALL EVENTS; SOPHS WIN RUSH BY 16-0 SCORE

Fraternity Open House Night, Spring Concert, State Street Snake Dance, and Other Events Hold Interest

RETURN TO BOOKS FOLLOWS JOYOUS WEEK

R. A. Peterson announces a senior class meeting at 10:30 a. m. today in Science Hall.

Officers of W.S.E. to Be Elected Friday

Election of officers will take place at the business meeting of the W. S. E. this Friday. Those elected will take charge immediately.

The smoker-splash party, held at the Lawson Y. M. C. A. May 9, started off with card playing and was followed by several reels of movies, during which refreshments were served. At 10:15 o'clock the group adjourned to the swimming pool, where everyone participated in a game of water polo. Pictures were taken by Robert N. Lange with the boys posing sans swim suits. A freak diving contest occupied the attention of all during the remainder of the evening.

Honor Marshals for Graduation Selected

Announcement of the selection of fourteen student honor marshals has been made by Dean A. T. Heald. Chosen on a basis of scholarship, these men will assist in directing the activities of the faculty and graduating class at the baccalaureate sermon and the commencement exercises. Those selected were: D. N. Brissman, A. Goldsmith, W. B. Graupner, S. M. Miner, P. Morrison, and P. R. Schultz, juniors; N. K. Anderson, B. W. Gamson, W. M. Kiefer, W. F. Marshall, L. B. Parker, and E. F. Wagner, sophomores; and J. D. Keane and E. J. Loutzenheiser, freshmen.

The baccalaureate sermon will be delivered by the Rev. Frederick F. Shannon, D. D., on Sunday morning, June 7, at Orchestra Hall. The commencement exercises will take place Thursday afternoon, June 11, in the Leon Mandel Assembly Hall at 57th Street and University Avenue. Services will be in charge of Professor Nash, the institute marshal, and Professors Sear and Colvert, associate marshals.

Awards Assembly Held Last Friday

Last Friday morning, from ten-thirty until twelve, awards and honors were presented to Armour's athletes, managers, and cheerleaders. Prof. John Schommer, director of sports at Armour Tech and chairman of the assembly, was introduced by Don Neal, president of the Armour Tech Student Association.

The awards, in the form of jackets, sweaters, letters, and freshman numerals, were given to the sportsmen after personal introduction by their respective coaches. Prof. J. J. Schommer made the rifle team awards; Coach W. C. Krafft awarded letters and sweaters to the basketball and baseball teams; Coach Norman Root handled the track men; and "Sonny" Weissman made the wrestling and boxing awards. Swimming awards were given out by Captain Rodger Knaus in the absence of Coach E. W. McGillivray. These coaches also presented the inter-class medals in swimming and track.

It has definitely been decided that this Awards Assembly, in the future, be held later in the season. Awards of all the school's activities will be presented at that time.

Crammed with activity from its beginning Monday morning with the Parade of Hobos to the beautiful formal dance Friday night at the Elmhurst Country Club, the thirty-first annual Junior Week, led by Paul M. Martin, reached a pinnacle of success and whole hearted participation that few classes in the past have enjoyed.

New Events Held This Year For being the "best dressed" hobos, B. M. Anderson, freshman, and J. Galandak, senior, received prizes of shaving soap and shaving brush respectively. In spite of the general motley and extremely ragged appearance of the participants, bespectacled Galandak and femininely costumed Anderson stood out among the aspirants for hobodom. New to Armour's Junior Week, the first annual Fraternity Open House night ushered in a better spirit of friendliness between fraternity and non-fraternity men. The progressive dance proved to be both popular and successful with those who attended the affair.

Pi Kapps Again Win Sing Wednesday night, the annual Spring Concert brought the mid-week to an effective climax. A large and enthusiastic crowd witnessed a skillfully directed orchestra and glee club under the baton of O. Gordon Erickson, play a wide range of delightful numbers. Pi Kappa Phi repeated its last year's performance by again winning the interfraternity sing.

Wearing apparel that would have graced the Monday hobos, juniors and seniors staged the first renewal of the pushball contest. Tossed around as if it were a mere volley ball, the eight foot pushball was lifted bodily in the air and pushed toward the seniors' goal. Twice the outnumbered seniors gave ground to the triumphant juniors who pushed the ball goalward for a complete victory.

Egg Throw Turns into Fight No sooner had the dust cleared and the big push ball rolled away than through the air came flying dozens of eggs originally intended for the carefully planned junior-senior egg throw contest. Amidst flying eggs, shouting upper-classmen fought and rolled in the dirt. When activities had subsided, practically all the seniors found themselves pantsless. But what bothered the juniors and seniors most was that the flying eggs found lodging in their hair and faces. The none-too-pleasant eggs, rancid with age, made the egg-plastered receiver of some pitcher's heave grateful for the comfort of soap and water. (Continued on page three)

Successful Formal Is Week's Grand Finale

Dancing to the pleasant music of Emil Flindt and with a general feeling of good fellowship, Armour men enjoyed the annual Junior Formal last Friday night after a week of exceptional activity.

Over 150 couples helped make this the most successful formal ever given by Armour students. The spacious ballroom of the Elmhurst Country Club was reserved exclusively for the prom which was the first ever held by Armour juniors at a country club.

The well-received affair came as a soothing close to the feverish events of Junior Week and complimented R. J. Magnuson and O. A. Tomei, co-chairmen of the social committee. Dr. and Mrs. W. E. Hotchkiss, Dean and Mrs. H. T. Heald and Mr. and Mrs. G. S. Allison were sponsors of the dance.

Three Weeks!

Three weeks . . . does that mean the clank of ghostly chains? A semester's work crammed into one bitter dose? Or are you—yes, you, confident of your grasp in every course, certain of the coming finals? Not that we want to scare anyone, but the work in every curriculum at Armour, while admittedly not easy, is planned to make it possible for everyone to complete a course in the assigned time and then to review the work as a final check.

The examinations, while serving as a final incentive, then complete the program, showing the student how well he has mastered the work. The graduate engineer may at any time be called upon to give an account of himself, the impression he makes may be determined in large part by his ability to handle a new situation and apply his engineering knowledge.

School work may seem to be a depressing mass

of formulas, but it is by constant use of these highly developed methods that we arrive at the desired mastery that is our education. So, let's hit those books hard; get the main currents. The texts print, and the instructors emphasize them. In the remaining three weeks, enough time remains in which to knock the finals for a row of A's.

Moderation

The phrase, "Don't let your studies interfere with your college education," has probably been heard by everyone when he graduated from high school. After a week or more of constant activity on the campus, we wonder if that statement shouldn't be changed back to its original form. After all, we pay a certain sum each year for our education and when we see numbers of our student body wandering about sans pants and, judging by facial expressions, without that which we are here to achieve, we sometimes wonder.

When we come to the human tendency of never being on time, we feel that we could reel off reams of editorial material. Suffice it to say that "fashionable" society folk are finding it more expedient than ever before to arrive at a play before the curtain has gone up. When the curtain goes up late the actors suffer more than the audience, mainly because the folks "out front" are already antagonized toward the performers.

If you were unlucky enough to have an "8:30" we suppose you did attend a few classes last week and, during the semester we assume that the conscience-smitten few attended classes regularly. Perhaps it is psychological, but it's still more fun to cut a class than it is to be excused. Perhaps if, as it was formerly, one had to ditch a class to see a coveted contest during Junior Week there would have been more general interest shown in some of the events last week.

By now you're probably thinking that we are contradicting ourselves by criticizing on, very immoderately. Perhaps. Well, Junior Week has come and gone; maybe you are too buried in class work by now to have time to read this. There are, however, certain things that should be mentioned and perhaps some helpful suggestion made while it is fresh on our minds will help make next year's big week even more successful than was last week.

On behalf of the students at Armour, the *News* wishes to express its sympathy with Howard G. Downing, whose father died Monday, May 11. We likewise extend our deep sympathy with Professor Philip C. Huntly, whose wife died Monday, May 11.

The Slipstick

Cleave to the slipstick; let the slapstick fly where it may.

After a round-the-world-cruise, the practical joker sent his New York friend a collect telegram from San Francisco that read: "Feeling fine and dandy. Never felt better in all my life."

A week passed by and the practical joker had forgotten about the telegram when he received, by parcel post, a large and heavy package, C. O. D. for which he was obliged to pay postage amounting to \$6.57. When he opened the package, a stone the size of a man's head fell to the floor. It was labelled: This is the stone that dropped off my heart when I received your telegram.

* * *

No news may be good news—but no luck is always bad luck.

* * *

He: Kissing is unhealthy.
She: I really couldn't say, I've never been —

He: You've never been kissed?
She: No, I've never been ill.

* * *

Wifey (fishing): "Such a long time and I haven't caught anything yet."

Hubby (ditto): "I bit sooner, didn't I?"

* * *

A really embarrassing situation is when you want to call someone an idiot and he beats you to it.

* * *

The rich man has his motor car,
His country and his town estate.
He smokes a fifty cent cigar
And jeers at fate.
He frolics thru the lively day,
He knows not poverty, her pinch.
His heart seems light, his lot seems gay,
He has a cinch.

Yet though my lamp burns low and dim,
Though I must slave for livelihood,
Think you that I would change with him?
You bet I would!

* * *

A planter of Virginia wanted to reward his faithful colored chauffeur by giving him a Christmas present. "Dobson," he asked him, "what would you rather have, a ton of coal or a gallon of whiskey?"
"Wal you see, Boss, I burn wood."

E. J.

IMPOSSIBLE?—not at all. Year after year Long Distance telephone service grows longer in reach—shorter in the time needed for making connections—higher in quality of transmission—lower in cost. Since the first of this year, Long Distance calling has been made cheaper in two ways.

1. Rates are now reduced after 7 P. M. each night on person-to-person calls to most points. As formerly, station-to-station rates are lower after 7 P. M.

2. The same low night rates now apply all day Sunday on both types of service.

Just another proof that the Bell System is constantly striving to fit telephone service more closely to your needs in every possible way.

Why not take advantage of these "Bargain Hours" to keep in closer touch with home?

BELL TELEPHONE SYSTEM

ARX NEWS

No doubt many of us are still just a little dizzy from the happenings of the past week and certainly a good number of us are still recuperating. For somewhere along the line of development, and while Armour was still struggling with growing pains, the boys decided that it was great sport and much more fun to maul each other and raise a general rumpus. All this was disguised as the different events of Junior Week. And we shall have to agree, for it certainly is great fun and we wouldn't miss it for the world.

While the rest of the department was participating in the events of Junior Week, the sophomores were on charette. And while Mr. REED was calling for "niggers" for his children, we were out playing baseball or tennis or golf for the various tournaments, or even parading around as hobos and possibly looking more natural than we have for a long time. But it seems the sophs did not need much help for "Swede" ERICKSON and Wally LITWIN came out on top of the heap of the judgment with a Mention Commended apiece.

But it was really a treat to see Al RAMP remove his dignity along with his "glad rags" and don old clothes to enter the fight between the juniors and seniors, and Lorry JOHANSON, who was blind as a bat without his glasses, staggering around the field looking for an eight foot push ball, and Hank LOHMILLER, as a Junior Marshal, struggling with the gun as he started the different events off. And there on the sidelines was Charlie SALETTA, in his fancy pants, just watching the fun.

There was really a nice turnout from the ARX, possibly because Sholto SPEARS cautioned the juniors to be in there fighting, as they were.
TOM TAX.

Fraternity Pageant Taken by Phi Kappas

Presenting a colorful skit entitled "Jungle Amour," Phi Kappa Sigma won the loving cup and the circus day skin in the annual Interfraternity Pageant held in Ogden Field last Friday afternoon. In this stunt, three scientists found the ruins of Armour in the year 2036. The ruins yielded a WPA worker who was leaning on a shovel, and some students playing cards with negro savages standing around. One of the scientists was left on guard while the others slept, but a flaxen-haired negro temptress lured away the guard, allowing savages to capture the sleeping explorers.

The other skits were also well received. Delta Tau Delta gave a pantomime on school work, graduation exercises, alumni reunion, and reality after graduation. Many of the audience were unable to control their laughter as the pantomime was effectively presented. The Phi Pi Phi stunt showed Mr. Allison investing the school's money in the stock market with valuable tips from Professor Bibb. Pi Kappa Phi presented a hillbilly act in which one member of the large family was aiming to go off to the big city to school. Their stunt included some hillbilly music and dancing, and a feud. Sigma Alpha Mu presented a farcical melodrama in which Armour's chimney was irretrievably stolen, but the chimney hole was found in Professor Schommer's pocket. Theta Xi engineers were unable to fix a car in their act even though the best engineering methods were applied. Finally something exploded in the engine and they gave up.

The judges for the Interfraternity Pageant were Mr. Allison and Professors Fulghum, Huntly, Paul, Schommer, and Spears.

THE STEAM SHOVEL

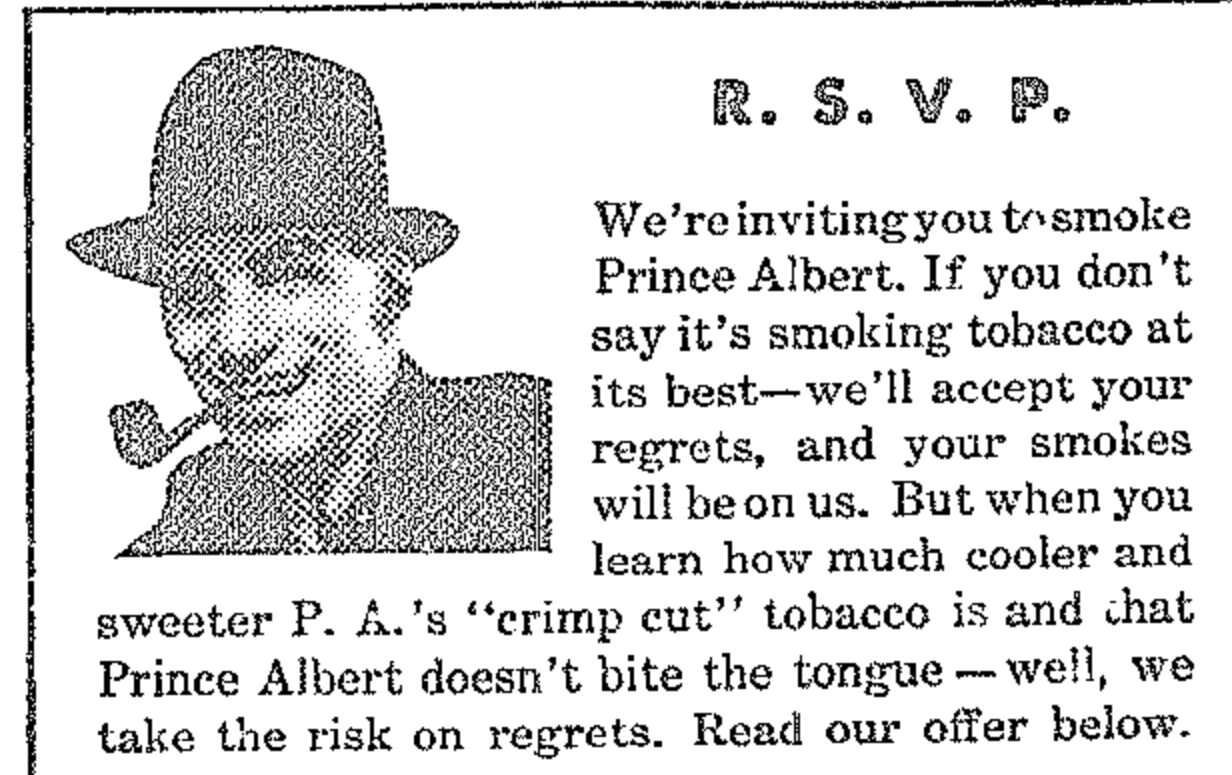

Well, boys, it's all over. Now we can take a deep breath and settle down to work. Let's see now, let's see. Oh yes, those reports. Four of them, yes, we're short four reports. And the homework that we are behind on. Oh well, our job at present is to dig up the dirt, to rake up the mud, to drag family skeletons from their closets, to—etc. etc. Here, here, Steam Shovel, quit stalling! Here comes the dope.

John Galandak came down Monday morning to see the Parade of Hobos, and can you imagine his embarrassment when he was given first prize. The thing that got his goat is the fact that he wasn't even entered in the contest. (Honest, Galandak, we wuz only kidding.)

Perhaps it was planned in advance, but Professor Moreton didn't know it. Last Thursday night, (the big night, remember?) at the A.I.E.E. banquet held down at the Congress hotel, Professor Moreton was the recipient of the apparently unwelcome attentions of one of the more daring hostesses.

Some of the boys are predicting a combined Armour-Normal paper for the near future. Ever since the party given by their news staff, to which our staff was invited, a number of "Normalites" can be seen in the company of our newsmen.

Last Thursday night, as you probably know, about thirty stray engineers marched into the Chicago theater in a snake dance and then marched right out again. That is, all but Bob (You Can't Print This) Jaffee, who was forcibly detained by the management. Just why HE was chosen is a mystery to us, unless perhaps he tried to stay behind and see the show.

OTHER CAMPUSES

Admiral Byrd, in an interview with a student reporter of the University of Wisconsin, stated that there is enough coal in the Antarctic to supply the world. He also believes that weather predictions will be possible with the aid of meteorological stations in the Arctic regions.

Dust is more deadly than war gas, according to Dr. Yandell Henderson, professor of applied physiology at Yale University. A large, well-organized fleet of aircraft would be needed to drop 100,000 tons of war gas, which would be quite ineffective as compared with the same amount of explosives, says Dr. Henderson. Yet dust takes a more deadly toll because no protective measures are taken in many industries.

For the first time since 1919, a woman was elected as editor of the Denison University yearbook. If you could see how some of the *News* boys work you may think a female could be helpful.

According to the University Daily Kansan, 173 divorces occurred to every 1000 marriages in 1932. There is some demand on that Campus for a course in marriage and its problems.

A Carnegie alumnus, in a message to the Carnegie *Tartan*, says that messages to the seniors are the bunk. He says that the purpose of these messages is to properly humble the graduates before they enter business.

The University of Baltimore has taken the step which many predict will soon be a national affair. Football has been abolished. The authorities believe that the money can be used more profitably by many more students and the faculty in the way of recreation.

From the *Indiana Daily Student* comes:

"There are two, and just two, reasons why freshmen flunk out of college, according to Dr. L. L. Click of the University of Texas.

1. Either freshmen get too scared of their studies, or
2. They don't get scared enough and go to sleep."

SOPHOMORES WIN MUDDY RUSH WITH ORGANIZED ATTACK

For the third consecutive year the sophomore class proved itself superior to the freshmen in the annual rush held last Friday. Previous to these three years it was a foregone conclusion that the freshmen would win. This year, though the sophomores were outnumbered three to two, and faced by a confident freshman class, they turned in a surprising victory with a score of 16 to 0. As a further surprise—at least to the freshmen—came the little expected entry of a fire hose stream of cold water.

The rule participants were tempted to leave the rush and mob the upperclassmen, and enough freshmen to weaken their ranks charged the hose, but most of them waited until the rush was over before trying to get it. However, the water was turned off before the juniors and seniors could be persuaded to release the hose. Both classes' plans were broken by the powerful stream of water directed by the bellicose upperclassmen.

The wet, mud-covered field proved to be too much for the freshmen, but the sophomores, who had experienced fire hose tactics last year, proved to be masters of the situation.

The sophomores were capably led by Bill Chelgren, who conducted a blackboard talk just before the rush, so that each man knew exactly what to do. The freshmen, led by Bernard Oswald and Robert Winblad, also had some outstanding tactics. Their group entrance in the afternoon was very effective, but their lack of experience was their downfall.

It is customary at Armour for freshman-sophomore brawls to stop after Junior Week in order that studies may be given full attention for the remaining three weeks.

JUNIOR WEEK—

(Continued from page one)

Events of Friday rushed Junior Week to a fast close. Beginning with the athletic award assembly, followed by the Interfraternity Pageant won by Phi Kappa Sigma and then by the distribution of Junior Week awards, the early part of the day was thoroughly occupied.

In what proved to be the awakening of the sophomore class, the surprising and unexpected victory over the freshmen all but surprised the entire student body. Aided by upperclassmen who played a stream of water upon the embattled participants, the sophomores rode roughshod over the freshmen to win 16 bags to none.

Strikingly different from all other events of the week, the Junior Formal proved to be an effective climax for a hectic week. Dancing to the music of Emil Flindt, 150 couples gave proof to the job well done by junior marshals P. M. Martin, E. A. Droegmueller, L. Holmes, H. P. Lohmiller, P. L. G. Moore, P. R. Schultz, and R. E. Winkler.

Chess Club Defeats Morton Jr. College

Four members of the Armour Chess Club, E. L. Koehler, A. Majerick, A. Rune, and D. H. Shideler, defeated the Morton Junior college team 4-0 in the week before last. In a match with Morgan Park Junior College last Friday, the team of N. Gerber, E. Koehler, A. Rune, and B. Wilhelm lost 2½-1½. Rune drew and Gerber won. Armour meets Wright in the season's final on May 29.

Tech Nine Beats Elmhurst, 10-1

In their fourth win of the season, the second one over Elmhurst, the Tech baseball squad turned in a 10 to 1 victory last Tuesday afternoon.

Elmhurst led off threateningly in the first when the first two men up singled, but the best they could do was a lone unearned run, resulting from Russek's throw into center field. In the second half of this inning, after one man had fled out, the game had to be called because of a downpour. Fortunately, however, the rain was short-lived, and in half an hour the game was once more resumed.

Double Play Stops Rally

Armour had its big inning in the fourth, Logullo being safe on an error, Wagner beating out a bunt, and both scoring on singles by Adamce and Russek. Then Adamce scored on Dunne's single and Russek was out trying to make third. In the meantime Dunne made his way to second where he scored a few minutes later on Shewchuk's single, to bring the score up to 5 to 1. In the fourth, Elmhurst made its last serious threat by getting three men on base with no outs. This time it was squelched by a fast double play. Kruse to Russek to Bartusek, and a strike out. The second half of this inning saw the Techawks add two more runs to the score on an error, a double by Wagner, and a triple by Russek which was just inches short of a home run, going through the top part of the fence. Armour's final three runs were brought across the plate in the seventh behind a barrage

Armour Professors Attend Conference

Professors Corliss, Davis, and Krathwohl attended the annual meeting of the Illinois section of the Mathematical Association of America at Normal, Illinois on May 8 and 9.

In the opinion of the group, the meeting may prove to be of great historical importance in mathematical education in that the section adopted a set of resolutions urging the creation of a national commission on mathematics in elementary schools. Every college student has had his mathematical education affected by the National Committee on the Reorganization of Mathematics in Secondary Education. It has become increasingly apparent to mathematicians that it is not sufficient for standardization to stop with secondary schools, but that it must extend down into the elementary schools.

The committee to draft the resolutions was composed of Dr. W. C. Krathwohl of Armour, chairman, Dr. H. B. Curtis of Lake Forest College, and Dr. E. H. Taylor of Eastern Illinois State Teachers College.

of four hits, all of the runs being scored after two men had been put out.

Racketmen Lose to Wright Jr., Loyola

During the past week the tennis team came in for a share of hard luck, losing to Wright on May 11, 6 to 1, and being turned back by Loyola 5 to 2 last Friday.

In the former contest the lone Armour winner was Swanson who with his two 6-3 sets had little trouble in disposing of his opponent, Brandt. The third match, between Natinchek of Armour and Zajackowski of Wright, was a tough one for the Techawks to lose, the Armour man losing the first set 4-6, and then dropping the second after a hard fight, 8-10.

Last Friday's matches saw Natinchek turn in the only singles victory, 6-4, 6-3, and Swanson and Quandee turn in a victory 4-6, 6-1, 6-4 in the doubles. In the other doubles match Natinchek and Arnold were turned back after winning the second set 6-0.

Phi Pi Phi Is Victor in Interfrat Track

Phi Pi Phi set a new record in the annual interfraternity track meet held last Thursday afternoon by marching to victory with an overwhelming 65 points. McDonald stole individual honors by totalling 24 out of these 65 points. The fleet freshman all-round track man came through first in the 220, the 100 yard dash, and the 440. His seconds were in the low hurdle, the 880, and the broad jump.

Pi Kappa Phi ran a nice second of 19 points, and Triangle a close third of 18½ points.

Neal, McDonald Win Pentathlon

In the annual pentathlon, the climax of sporting events during Junior Week, Neal proved himself the best of the lettermen with a total of 2,975 points, while McDonald captured the non-lettermen's division with his total of 2,326 points. Second places went to Dunbar and Goes in the lettermen's and non-lettermen's division respectively.

A total of fifteen men entered the contest, five in the first division and the remaining ten in the non-lettermen's group. The field was tested in five events, the 100 yard dash, the high hurdles for the lettermen and the low hurdles for the non, the shot put, the broad jump, and the half mile. Neal came the closest of any of the men to scoring a thousand points when he piled up a total of 390 in his specialty, the broad jump.

The scoring system was based on records that have been set at Armour in the past, each record standing for a perfect score of 1000, with points added to or subtracted from it according to the contestant's ability to better or fall below the standard. The standards used were 0:09.8 in the 100 yard dash, 0:13.6 for the 100 yard high hurdles, 0:11.6 for the 100 yard low hurdles, 2:00.0 in the half mile, 45 ft. 0 in. for the shot put, and 23 ft. 0 in. for the broad jump.

—for Digestion's sake... smoke Camels

SPRING FEVER makes digging into studies all the harder—mental tension increases. But Camels help. They add much to the enjoyment of life. Camels give you a "lift"—and never get on your nerves.

One of life's most enjoyable experiences is the pleasure Camels add to eating

You have surely noticed how much more you enjoy eating when your mind is free from care. No mental strain or hurry slows down the natural flow of digestive fluids.

Much of this same enjoyment is yours when you smoke Camels. Smoking Camels increases the supply of

alkaline digestive fluids...so necessary for zest while you eat and for digestive well-being afterward.

In Camels, you find tobacco at once rich, mild, and perfect in taste. Camels set you right! They give you a cheery "lift." And never jangle your nerves or tire your taste.

Copyright, 1936, R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

FIRST AMERICAN COLLEGE MAN to win the National Open. Sam Parks, Jr., says: "A Camel with meals and after makes my food settle right."

LIGHTNING SPEED has carried *petite* Mrs. Ethel Arnold to the peak of tennis fame. "I smoke Camels," she says. "I enjoy food more and digest it better too."

THE CHEF PRESENTS a Planked Sirloin Steak *a la Parker*, named, like the renowned rolls, for the famous Parker House in Boston. Martin J. Lavin, banquet manager, is impressed with the great number of people who smoke Camels. He says: "Camels are a favorite with those who love good food. At the Parker House, Camels are outstandingly popular."

COSTLIER TOBACCOES!

Camels are made from finer, MORE EXPENSIVE TOBACCOES—Turkish and Domestic—than any other popular brand.

ARMOUR SQUAD IS DEFEATED 7-2 BY NO. CENTRAL NINE

Dollenmaier Victim of Red Demon Jinx; Support Weak

TECH GETS FOUR HITS

Last Friday saw the recurrence of the North Central jinx as the Armour baseball team traveled to Naperville to lose to the Red Demons by a 7-2 score. Poor fielding and worse hitting kept Dollenmaier from his third straight win, as the home team scored only two earned runs. Yuknis, hurling for North Central, pitched a good game, allowing only four hits while fanning eleven and issuing four bases on balls.

The North Central luck started to work in the first inning. After the visitors were blanked in their half of the first frame, Young led off for North Central with a pop-up in front of the plate. Russek chased it around in circles and finally let it drop for a single. Spiegler sacrificed Young to second but Stratton's infield grounder caught him between the sacks. Kruse muffed Yuknis' hopper and Shank walked to load the bases. Heilman singled to left, scoring Stratton and Way went down swinging to end the inning.

No Hits Until Fifth

In the second for North Central, Guzauskus and Young were safe on infield errors. Spiegler forced Young but Stratton's hit scored Guzauskus and Spiegler made home during the confusion. Yuknis grounded out to end the inning. Young's triple followed by Spiegler's single accounted for another run in the fourth. Meanwhile Armour was being held hitless. In the fifth, however, Seidenberg got

Seniors Are Victors in Interclass Relay

The one and only interclass track event held during Junior Week, the interclass relay, was won by the senior team. The freshmen and juniors were definitely out of the race from the start while the senior lead off man, Concolino, gave his team a lead that cinched the race. Faust, of the sophs, held his own while Seidenberg slowly closed the gap to give Dunbar a slight lead. Although Dunbar had been spiked in a mix-up as the baton was passed, he held his advantage most of the way. Coming down the home stretch he and Neal fought for the lead as the crowd cheered them on. Neal's longer legs gave him the advantage and he broke the tape with a margin of a few feet.

a single with two down. North Central increased their lead to seven runs and completed their scoring with three in the sixth.

Two for Tech in Seventh

Armour came back with two in the seventh. Kruse walked and Dunne was safe on Way's error. Seidenberg made first on the pitcher's misplay and Bartusek singled, scoring two men. The rally was cut short, however, when Seidenberg, thinking there were two outs, left third on a fly instead of scoring after the catch. No further scoring resulted for either team although the Techawks filled the bases in both the eighth and ninth innings.

Rho Deltis Oppose Phi Pi's In Finals

Both Phi Pi Phi and Rho Delta Rho won their semi-final baseball matches last week, the latter striving to defend its championship of last year and the Phi Pi's looking for a complete athletic scoop of the interfraternity festivities. Phi Pi Phi overpowered the Deltis last Monday afternoon with a difference of 11 runs in a 14-3 score; Rho Delta victored over Phi Kappa Sigma last Thursday in a close game by a 3-1 tally.

Warner Clouts Homer

Scoring began in the early game of the week when Warner socked a home run in the second inning with bases loaded, driving in Shukes, Sramek, and Forberg. Another run in the fourth and four in the fifth left the Deltis shut out till the seventh inning when Tomei crossed the plate under his own power. Trzyna and Dunbar scored in the seventh for Phi Pi and Cullison and Laise retaliated in the eighth with the second and third for Deltis. Heike, Merz, and Shukes took the last tallies in the eighth, boosting the score to 14-3.

Rho Deltis Score Again

The Phi Kapps were without luck in bringing their men home until the seventh inning. Here Lindahl planted one among the shrubs in deep right center to circle the diamond and bring in the only run for his team.

Rho Delta came through with the third run in the eighth inning with two singles and a sacrifice. In a last minute attempt, Meyer took a two-bagger for the Phi Kapps and ran to third on an out. Downing made the heroic effort that missed being a tying homer only by the finger-tin catch of left fielder Jaffee. This catch cinched the game for Rho Deltis and ended 3-1.

Juniors Down Frosh by 9-3 Score in Interclass Softball Tournament

Keeping step in their victory stride, the juniors, having beaten the seniors 5 to 3, submerged the freshmen last Wednesday to win the interclass baseball tournament, 9 to 3. Even though the frosh threatened almost every inning, they were held to single scores, one in the second, one in the third, and one in the eighth, while the juniors scored two in the first inning and added four in the fourth, one in the fifth, and a final two in the eighth.

Due to some shaky support, Jimmy Gilbert, the green-cap pitcher, had two runs scored against him in the start of the first inning, but he tightened up later in the game.

In the second, the frosh came back to tie up the game with a run scored on a hit and a wild pitch and another run in the third inning that was brought in with a hit and an error.

Juniors Take Lead

In the fourth, the juniors took the lead to keep it for the rest of the game. Hackman was given a walk, and after stealing second, ran home with run number three on an over-throw when Merz took four balls. Then Skuza poled a hard drive out to centerfielder Jaffee who dropped the ball to score Merz and leave Skuza go to second. Not to be outdone, Kreisel knocked a clean hit over second base to score Skuza with run number five and then scored himself on a passed ball. Pitcher Harrold also took a walk but was unable to score when two infield outs were made as he stood on third. After making another run in the fifth, the juniors were put into a hole when Harrold walked two freshmen on eight pitched balls. In a bad way, the juniors had a confab and Taradash came in to pitch, assisting a put-out at third and holding the next two men to infield outs. With

this classy playing, the sixth and seventh innings went scoreless.

Hackman Hits Double

With none out in the eighth, the juniors rallied again as Hackman doubled and scored on an error and Merz advanced to third on a series of errors from where he scored on a pass. With two out, Harrold doubled and stole third but remained there for the third out. The frosh entered the scoring column for one tally again in the same inning when Janicek hit a two bagger and scored on a pass, leaving the juniors masters of the field after a one-two-three out ninth inning.

Senior Schmiere Win Softball Tournament

Armour's official soft ball season was brought to a whirlwind conclusion with the defeat of the senior electricals by last year's champs, the senior chemicals. This closely contested game ended with a score of 5 to 3.

The chemicals took a two run lead in the first inning and played a tight fast game for two scoreless innings. In the fourth, the electricals drove in their first run. The fifth was also without tally but the sixth saw the chemicals score again to regain their two run lead. In the seventh the schmiere's right fielder moved in too close and Warner took advantage of the situation by knocking one over his head for a homer, driving in a teammate to even the score at 3-3. In the second half of the inning, however, Paulsen drove in a run and scored on an error to regain the lead for his team once more. The eighth and ninth innings were well played, but neither team could score and the tally stayed at 5-3.

SENIORS LOSE TO PROFS, 25 TO 24, IN SCORING RIOT

Adding to the hilarity of Junior Week, the tried-and-true faculty came through for their thirtieth straight win over the graduating seniors last Wednesday, scoring some fifteen runs legally and the rest of their twenty-five on thick-eyed umpiring. The seniors, after running the game into the tenth on a ninth inning rally, fell by the wayside with a meager twenty-four runs.

Though the umpires were rather broad-minded and allowed the professors to score ten runs in the first inning, they had to tighten up for the rest of the game as Coach Weissman pitched no-hit ball and several of the faculty, notably Goetz and Barr, insisted on poling the ball all over the lot, among which hits were several home runs. As the faculty outfield was airtight (!) the seniors had to hold up their end of the score by driving at the infield of Harris, who made three errors, and Coach Krafft, the super baseball player, who let five balls pass right by him before he was taken out of the game.

Aches and Pains

One thing about the game cannot be passed up, however, for it had much to do with the results. The faculty, unused to such muscular play, were quite sore in their working parts the next day, and the extra inning, as Paul Schultz, who was attributable for it, says, "did not help to make them any less sore." This, after all, was as good a way as any to get back at the instructors.
