### The New Armour

Last spring, hopes and dreams of Faculty, Students, and Alumni, seemed close to the real thing when the first plans concerning the transference of Armour Institute to buildings near McKinlock Campus were made known. With the coming of a new spring, interests do not rest entirely with St. Patrick's Day and Junior Week.

When we look back on the bits of material that have been gathered over a long period of time, we may realize that a new Armour is progressing. Each bit of important data is one more step toward our goal.

President Hotchkiss is working on the problem and although nothing has been heard, the board of trustees is trying in every possible way to push through the plan.

One of the former ideas was to obtain a large government loan to finance the expansion. With the elections coming on and the natural reluctance of the various governmental agencies to commit themselves, this method seems to grow more remote. Upon the many middle west industrial concerns who benefit by having well trained engineers seems to fall the job or duty of financing a new campus. With the very noticeable upturn in business and the outspoken need for engineers this problem should almost solve itself.

### WITH OTHER EDITORS

#### America Participates

(University Daily Kansan)

Active agitation against American entrance into the Olympic games in Berlin seems to have died down, proving that the movement was not widespread or fostered by a majority of American citizens. While the group back of the campaign against American participation undoubtedly had some justification, the wisest and best way seems to be to enter the games, making plain the fact that American entrance does not necessarily mean that we condone the Nazi political system.

Although there was some discrimination against Jewish athletes while the German teams were being chosen, there are also several instances, showing that Jewish athletes were not excluded entirely. One member of the German hockey team was a Jew, and recently Miss Helen Mayer, former Jewish fencer in the 1932 Olympics, was called from her home in California to fence on the German team. These are only two cases but they show that the German discrimination does not amount to total exclusion.

The Olympics are international contests, carried on to promote international friendship and give athletes of all countries a chance to compete with others outside of their own particular country. Not to participate because of political differences would be to mix sportsmanship with politics and it is generally recognized that politics are not governed by any altruistic influences such as sportsmanship.

It is to be understood that no one is trying to smooth over Nazi political methods. There are many incidents of Nazi persecution which are revolting to the American principle of fair play and democracy. But it is rather narrowminded and shortsighted to incur the ill will of foreign countries by refusing to allow American athletes to participate. The A.A.U. has acted wisely in allowing American entrance.

## Fraternity Notes

### PI KAPPA PHI

Alpha Phi of Pi Kappa Phi takes great pleasure in announcing the formal initiation of the following men:  
William B. Buckman—'39  
Roy B. Burman—'39  
Raymond A. Dodge—'39  
Frank J. Heidenreich, Jr.—'39  
James C. Hodek—'39  
Paul M. Hoffman—'39  
Robert A. Winblad—'39

The formal initiation, which took place last Sunday, was followed by a banquet at the chapter house with many alumni present. The week preceding Sunday was one of probation for the newly initiated men.

The house is looking forward with great interest to the Monte Carlo Party sponsored by the Chicago Alumni Chapter of Pi Kappa Phi next Saturday. Besides the many games of chance, there will be refreshments and dancing.

### TRIANGLE

Probation week for our new initiates starts March 4, 1936.

This will be followed by the formal initiation scheduled for March 8.

Some of our alumni plan to attend the interfraternity formal next Saturday. They are, Bob Lyford, Ed. Thompson, John Screiner, and George McBrady.

Plans for an alumni smoker this March are being formulated. The smoker will be in the form of a Monte Carlo.

As yet we have received no cigars from Eric Smith—'34, who was married Feb. 22, 1936.

### PHI PI PHI

Heartiest congratulations are extended to Brother Heike and Forberg to whom the positions of captain and manager of the basketball team were awarded.

Brother Hansel dropped in last Thursday to spread a few rays of sunshine.

The majority of the chapter and a goodly number of alumni are eagerly anticipating the interfraternity formal to be held March 7th, at the Medinah Club.

### PHI KAPPA SIGMA

Alpha Epsilon chapter of Phi Kappa Sigma announces the initiation of:

Edward William Haedike—'39  
Eugene Royer Smith—'39  
Jerome Robert Bunce—'39  
Henry Carl Anderson—'39

The formal ceremony was a tri-chapter function held at the Interfraternity club, Monday, Feb. 24, 1936.

Last Saturday the fellows enjoyed themselves at a dance given by the Chicago chapter in their house.

### DELTA TAU DELTA

Actives, pledges, alumni, and friends had a good time at the tea dance last Sunday afternoon at the house. Next Sunday afternoon, the Mother's Club will hold its March meeting. Entertainment and bridge will follow the business meeting.

Brother Englethaler was recently elected secretary to replace John Davis. Brothers Gragg, Gallagher and Davis report that the Annual Western Division Conference of Delta Tau Delta was its usual success. It was held at Norman, Okla. and the warm weather added much to the enjoyment of our delegates.

## THE STEAM SHOVEL

Jim (Airplane) Healy danced with a girl nine times, and wondered that she took his line in as though she really believed it. Then he found out that she was deaf. Tough luck, Jim.

How about some contris from the Co-op students? Let us hear from you. There's a contrib box in the main building, in case you didn't know.

When Prof. Bibb, in Calc class asked Bill O'Brien whether an expression was positive or negative, Bill answered, "Yeah, I guess so." Nice going, Bill.

In case you should ever be in the News office, and see an honor roll, with the names: Braun, Chelgren, Worcester, Nauman, and Kubert, don't be misled. They printed it themselves.

To the tall blonde in the dark coat, dark hat, and dark gloves, who rides the Wentworth car each morning:

Eye C U evv vary daye,  
Wile awn mye weigh tue skuol.  
Y dew yew luke att mee dat waye?  
Hough kaan U B sew crool?

DON HARRIS, of Glee Club fame has learned all about the balcony since he met an actress at the Goodman theater during rehearsal there.

We learn that Paul Martin used to feed his affinity apple pie so she would dream of him nights. Poor Paul! They turned out to be nightmares.

## SLIPSTICK

The board of directors of a certain theatre were at their wits' end with patrons of the weaker sex who stubbornly resisted all attempts to make them remove their hats in the theatre. Finally one of the directors saw a way out. Just before the regular program there was projected on the screen the following notice: "Wishing to spare our patrons the inconvenience of removing their hats, we take pleasure in announcing that all elderly women will be excused from this conventionality and are requested to leave them on." And from then on there was no further trouble.

He calls his girl "impromptu" because she makes up as she goes along.

Lion tamer: And now we will perform a feat never before attempted on the face of the earth. This girl will hold a lump of sugar between her lips and the lion will take it from her with his teeth. We will give one thousand dollars to anyone who will duplicate this feat here in this cage.

Voice from the audience: I'll do it. Chase that lion out first.

### WILLIAM TELL

Caesar lies on his back in the foreground. A crowd has gathered with Brutus as leader. Brutus steps forth, the crowd steps fifth, Caesar produces a spoon, and the crowd stirs.

Brutus: "How many eggs did you eat this morning, Caesar?"

Caesar: "Et tu Brute."  
Curtain.

Sheik: "Hey, what are you stopping here for?"  
Taxi Driver: "I thought I heard the lady say 'Stop!'"  
Sheba: "I wasn't talking to you."

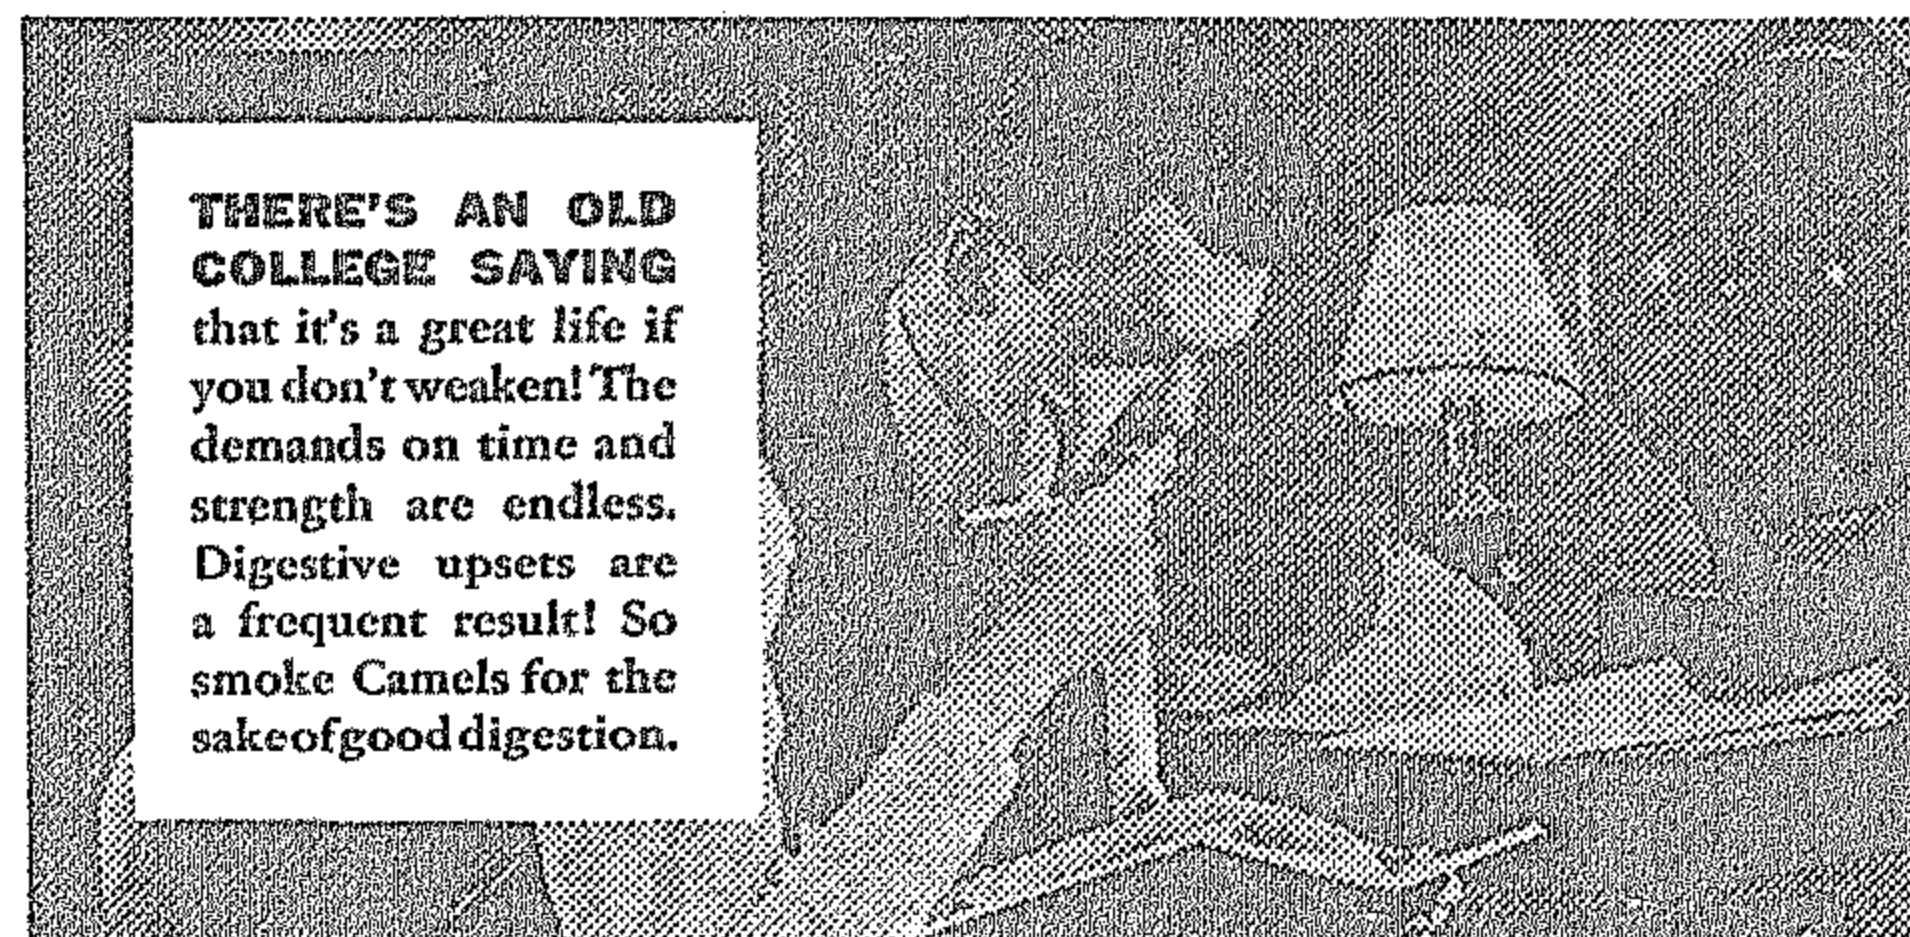

"What do the inmates say about the new asylum, Warden?"

"Oh, they just rave about it."

He: "Where did you get that musical temperament?"  
She: "I was born in A Flat."

# FOR DIGESTION'S SAKE — smoke Camels

## Smoking Camel Cigarettes Aids in Assuring Natural Digestive Action

"Hurry—hurry—hurry" seems to be the order of the day. People get caught in the lockstep of modern life. Tension finds the weak spot, so often—digestion. Smoking Camels improves digestion... wards off the consequences of hurried, nervous living. Camels gently stimu-

late digestive action. They promote the feeling of well-being and good cheer so necessary to the proper assimilation of food.

In a word, Camels set you right! And, in smoking Camels for digestion's sake, you may enter a whole new world of smoking pleasure.

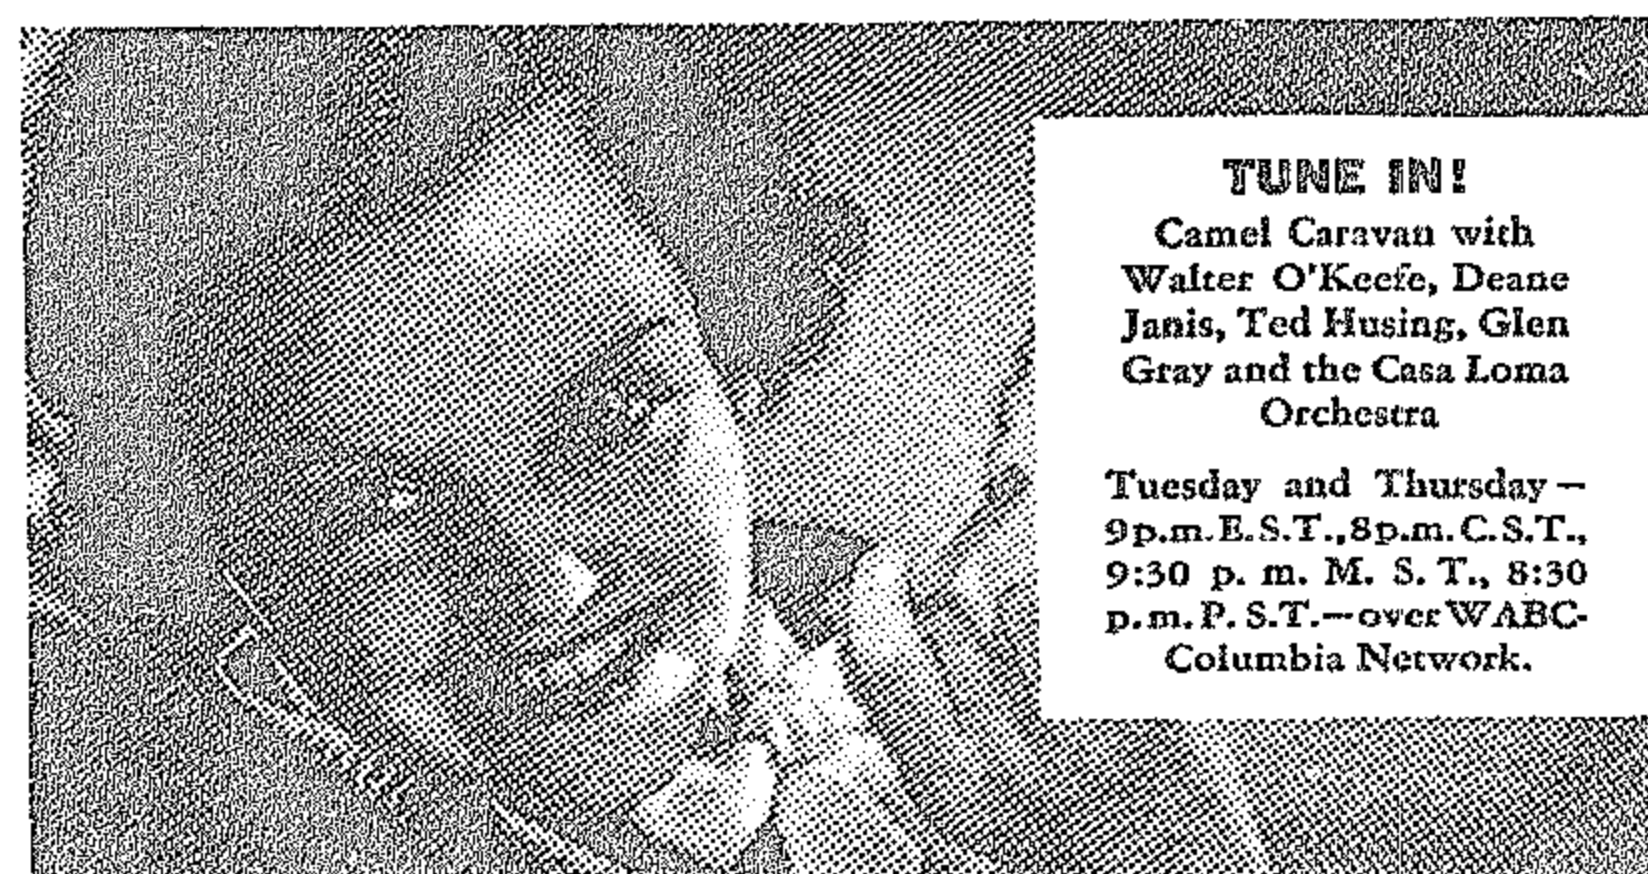

THE FAMOUS GOLD COAST DINING ROOM (above) at the Drake Hotel in Chicago. Here the fragrant, delicate smoke of Camels rises while Erik, famous maître d'hôtel, watches alertly over all to see that

no wish goes unsatisfied. "So many of our guests smoke Camels," Erik says, "for they have found that choice tobaccos add to the pleasure of the meal. Camels are tremendously popular—a leading favorite here."

MAIL GOES THROUGH! It's often a struggle for F. B. Fowler on Star Route No. 1392, Maine. "It's eat-and-run with me," he says, "but I always top off with Camels. Camels are good for digestion—help along the natural processes—and certainly have a great flavor!"

HARD HITTER. Jane Sharp, tennis champion, plays a smashing game that carries her to the limits of exhaustion—often makes digestion a real problem. "Smoking Camels," she says, "makes food taste better—helps me to digest my meal. And Camels taste grand!"

### TUNE IN!

Camel Caravan with  
Walter O'Keefe, Deane  
Janis, Ted Husing, Glen  
Gray and the Casa Loma  
Orchestra

Tuesday and Thursday—  
9 p.m. E.S.T., 8 p.m. C.S.T.,  
9:30 p.m. M.S.T., 8:30  
p.m. P.S.T.—over WABC  
Columbia Network.

## COSTLIER TOBACCOES!

Camels are made from finer, MORE EXPENSIVE TOBACCOES—Turkish and Domestic—than any other popular brand.
