

How do you like that? We just find out that George Givot, the Greek ambassador of radio, movie and night club fame, was signed up for an English course at De Paul University. We wonder how long it was before the English prof. spoke with a Greek accent?

Prof. Ernest O. Lawrence, scientist at the University of California, has succeeded in converting platinum to gold. Which leaves us completely cold. What we need is something to convert a green copper cent to a shiny silver dime.

Eight out of 17 social fraternities at the University of Kentucky are taking steps to abolish Hell Week. One fraternity definitely stated that it would not assist in the movement and that there was no sentiment for replacement of the traditional form among its members. Eight others did not commit themselves. What a welcome cake of ice this movement would be to the paddled pants of perspiring pledges!

The "louisiest place in the world" is the museum of natural history at

Stanford University, which houses the 220 different species of lice in the collection of Gordon Ferris, associate professor of biology.

A mute John Thomas is a six-year old German police dog, "Monty", who attends the hygiene classes of his master, Dr. Frank Castleman of Ohio State University.

THIRTY-FOUR MALES AT THE UNIVERSITY OF NORTH DAKOTA ARE TAKING A HOME MANAGEMENT COURSE, WHICH INCLUDES PROBLEMS OF FOOD, PROBLEMS OF ETIQUETTE, SELECTION OF FOOD IN RELATION TO DIET AND PROBLEMS IN FAMILY RELATIONSHIP AND BUDGETING. THE KIBITZERS...

"In most cases women cannot forget that they are women. They act just like prima donnas." Women just don't make good newspapermen, thinks the University of Michigan's journalism prof., John L. Brumm. How about it, you Normulites?

Fraternity Notes

PI KAPPA PHI

The newly initiated members have celebrated their first week as actives, and are still rather dismayed at not having to tip their hats to every old member they meet.

A ping pong tournament has recently been inaugurated, which has so far resulted in a lot of action, plenty of free criticism, and several broken balls. Our star (?), the inimitable Hoffman might be heading for the championship, if he can play the game as well as he talks it.

Now that Sturgeon came through and furnished ice cream and cake we are looking forward to the same from Perlet who is more than a year overdue.

We are wondering what happened to Schmidt's pin. (He lost it within two hours after he was initiated.)

PHI PI PHI

Gamma chapter of Phi Pi Phi takes pleasure in announcing the pledging of George Post, F. P. E. '41.

We played our first basketball game in the interfraternity tournament last Wednesday. Congratulations to Pi Kappa Phi on the clean, hard game that they played.

There was an alumni meeting at the house on Monday. The following officers were elected for the coming year:

President George Savidis
Vice-President Dave Forberg
Secretary Don Story
Comptroller Bob Simpson

The biggest event of the coming week is the Fathers' and Sons' Smoker, Wednesday.

PHI KAPPA SIGMA

The men who played in the basketball game with Sigma Alpha Mu last Thursday are to be congratulated. We hope that they will be able to keep up the good showing.

The Mother's Club meeting for this month was held last Sunday afternoon. At the close of the meeting refreshments were served.

Members of the house are looking forward to the Phi Kap Alumni Carnival to be held March 20 at the Allerton Hotel. Quite a few men are planning to attend.

SIGMA ALPHA MU

Last week the chapter played host to our genial national secretary, Jimmy Hammerstein who is making his yearly visit to the middlewest chapters of Sigma Alpha Mu. He was greeted by many of the old alumni including two of our charter members from the class of '16.

Our Mother's Club was organized last week at an enthusiastic meeting. Mrs. A. Kahn was made president and Mrs. S. Levenberg was made secretary of the organization. They have already planned a full spring program and will start their social season with a tea in the very near future.

DELTA TAU DELTA

We take pleasure in announcing the pledging of the two following men:

Walter A. Stuhr, '39, M.E.
William Green, '41, M.E.

Our basketball team got off to a fine start last Thursday evening by winning our scheduled game from Theta Xi in a very hard fought game. Ransel and McIntyre were high scor-

ing men. Good going, fellows.

A banquet celebrating Founder's Day, March 5, was given in honor of two outstanding alumni of the chapter, Messrs. Harold Prebenson and Lou Streb. Both men took active part in fraternity affairs during their undergraduate years.

The evening's entertainment, under the direction of Fred Engelthaler, was enjoyed by all present.

TRIANGLE

Last Sunday, March 7, the active members assisted by some of the Alumni had the pleasure of initiating the following men:

Russel Carnahan, Ch.E., '38.
Vernon Hassel, Eng., '40.
Edward Loutzenheiser, Ch.E., '39.
William Penn, Sci, '39.

Congratulations to the new men. After the ceremony a banquet was held at the Green Gables Inn. L. S. Gooton, President of the National Council, addressed the members and alumni present.

RHO DELTA RHO

We take great pleasure in announcing the pledging of:

Joe Heller, '40.
Ely Hefter, '40.
Herbert Sher, '40.
Jerome Cohen, '40.

Final arrangements are now completed for the informal initiation Friday, March 12, following Hell Week which begins March 5. Brothers Sorkin, Levy, and Ikenn, the initiation committee, have prepared an extensive program for the pledges.

Our basketball team, under the leadership of Sam Taradash, is now working hard after winning their first tournament game.

Armour Frosh Win Third Straight Game

Last Tuesday, Mar. 2, the Armour frosh quintet won their third straight game when they defeated Fox Secretarial college in an overtime tie, 44-40. They had previously defeated North Central and Loyola.

The first quarter started slowly, both teams seeming to feel their opponent's type of play. Fox scored the first point on a field goal by Hickey which was immediately followed by a basket by Klimas. By the end of the first half Fox led by 20-6; Hickey and Klimas having accounted for 17 of the 20 points.

Trailing by 14 points at the start of the second half, the frosh determined to make a better showing. Kubicka started the rally when he pushed a rebound back into the basket, after which Scherer, Norkus and Kubicka ran wild. The freshmen brought the score up to 39-39 just before the whistle blew, necessitating an over time period of three minutes. After a short rest, the game was resumed. The first score in the overtime was made by Kubicka, who sank his charity toss on a foul by Stoekig. Hickey of Fox sank his free throw which was followed by a push-in shot by Norkus from under the basket. On a foul by Chapp, Swankowski sank a free throw and Gerwig ended the game with another charity-toss. The whistle blew ending the overtime period and the game with the final score of 44-40.

Thus far, the freshmen have lost three and won three for an average of .500.

Sidelines—

(Continued from page one) this power is not stated in the Constitution. The Court assumed this convenient attitude by itself. The question which naturally arises is: What check is there on the Supreme Court?

IF A PEOPLE are to progress as rapidly as we have, the Constitution under which they are governed must and will grow with them. Since the inception of the Supreme Court many presidents have clashed openly with that august body—and Congress has changed the number of Justices seven times because of such friction. What then is so unnatural about doing the same thing again?

LET US CONSIDER yet another angle in this discussion. President Roosevelt was returned to power by a vote of nearly two-thirds of the people. This, coupled with the fact that Congress is just about two-thirds Democratic, seems to be a good indication of the fact that the American people approve of the New Deal policies. To argue about what the outcome of the election would have been had the Supreme Court been an issue is merely to hide the facts in an attempt at confusion.

MEANWHILE THE HOUSE of Representatives has delayed action on the bill until it is brought before the Senate. According to the calendar of the Senate Judiciary Committee the bill will have its formal hearing before that House on Tuesday, March 9.

ON OR ABOUT that same date the Supreme Court is expected to announce its decision on the much-discussed Wagner national labor relations act—whose constitutionality is being questioned. The nature of this decision will probably have a great effect upon the outcome of the Supreme Court issue. If the Court should unanimously uphold or defeat this bill, President Roosevelt's reorganization plan will be dealt a serious blow—for obvious reasons. If, however, the decision happens to be 5-4 against the bill—the President's plan will be given added weight.

WHILE ALL THIS is going on, very little progress is being made on important decisions of the day, undoubtedly because the Supreme Court issue affects them either directly or indirectly. And so a wondering nation looks forward to a week whose potentialities, on only one issue, are overwhelming in themselves.

Satisfy

Modern factories . . .
spotlessly clean like your living
room at home . . . that's where
Chesterfields are made.

The Champagne Cigarette Paper is
pure . . . burns without taste or odor
. . . you can't buy any better paper.

The mild ripe tobaccos are aged two
years or more . . . like fine wines are aged.

Refreshingly milder . . . more
pleasing taste and aroma . . .
and best of all They Satisfy.

Chesterfield
a milder better-tasting
cigarette
