Movies to Be Shown at Assembly Friday

Construction of Golden Gate Bridge Will Be Seen

"Construction of the Golden Gate able at the next meeting. Bridge", will be shown. The picture authentic in every respect.

the Institute's program to supple- ing. ment class instruction with lectures by outstanding personalities and the showing of motion pictures along engineering lines. All students are welcome, and there will be no classes at the time, 10:30, Friday.

Builders of some of the most noted bridges in engineering annals, John Roeblings Sons Company maintain extensive research laboratories and a staff of many technicians and scientists. In the picture will be shown how their work in prestressing, determining the properties of bridge strands, cables and sockets, enables laborers ignorant of all these things that Armour men study daily, to construct these marvels of precision, which, it is hoped, will attract and interest a large group of men.

IN A SHORT WHILE Armistice Day will be here again, and as is customary, Americans in all walks of life will pause for a moment to pay tribute to those who died during that great struggle twenty years ago.

Before the World War, Europe was suffering from a case of "excessive | nervosity" such as it had never exare beginning to appreciate that same condition. So rapidly are "events" taking place that international complications seem to be reaching the danger point.

WE MAY LIST rather briefly, some of the more recent developments which are the cause for the present war scare. (1) The Sino-Japanese conflict took on an added importance after the Japanese announced their blockade of the entire Chinese coast. This coupled with the strong resistance the Chinese have put up, and the recent declaration by Japan that a state of war existed, have aided materially toward bringing the Far East Situation closer to us. (2) The fact that Russia openly accused Italy of sponsoring the pirate submarines in the Mediterranean Sea, has certainly not diminished the possibilty of war. (3) Germany's repeated determination to stand by Italy against Russia or any other enemy, plus the recent meeting between Hitler and Mussolini has served to emphasize an alliance between these two dictators. (4) President Roosevelt's recent speeches, which exemplify America's new interest in foreign affairs, is another source for thought.

WHETHER OR NOT we will become involved in a new conflagation in the immediate future is a matter of speculation. Those who are supposed to be more ably informed declare that war will not come for some time yet.

This shrewd prophecy seems to be substantiated by the following facts: (1) The British armament program will take about one year to get into full stride. Because of this British diplomats will continue jockeying for position in all foreign affairs. The English are reluctant to start the next war and it is only because they have allowed their irritation to be soothed with ink that Europe has been spared from war thus far. (2) Germany is experiencing a shortage in crops this year and the winter promises to be a hard one. There are those who point with warning to Germany's dazzling "self sufficiency" (Continued on page four)

Senior Committees Selected by Nauman

To Control Class Activities Throughout Year

President C. K. Nauman of the senior class has announced the appointment of various functioning committees for the control of graduation and pre-graduation activities. The committee which has charge of the graduation ceremonies in general consists of A. N. Schrieber, chairman, R. A. Kliphardt, C. Basile, R. F. Beardsley, W. R. Marshall, and W. J. Laise.

be the responsibility of L. I. Thomas, chairman, R. E. Maxant, E. F. Wagner, G. Palka, L. Johanson, and L. Wiltrakis. Arrangements for the acquisition of Caps and Gowns will be in the hands of W. J. Chelgren, chairman, E. Hansen, W. Litwin, S. Osri, J. F. McIntyre, and G. Ives.

All senior class pictures and picture selection will be made by L. Lange, Chairman, H. B. Nicholas, W. E. Velvel, F. A. Palonis, I. Gebel and E. Skeppstrom. Announcements concerning the graduation ceremonies and all student announcements concerning the entire senior class will be made through H. J. perienced prior to that conflict.
