

Second Week of Tournament Reveals Several Strong Teams

Jr. Firemen Win Seniors Tie

By playing a very fine brand of football last Wednesday, the junior fire protects crushed the junior civils to the tune of 15-0.

The fire protects kicked off to the civils, and Donaghue, returning the ball to mid-field, almost got away for a touchdown, but he was just snagged by Zoellner who proved to be a menace to the civils throughout the game in that respect. A long pass in the latter part of the first half from Sweeney to Larson set the game on ice for the firemen, as Larson went over for the first scoring of the game. The try for the extra point failed, and for the remainder of the first half, the fire protects were content with just protecting their lead.

The second half continued with the insurance boys still playing defensive ball, although quickly taking advantage of a good situation. Toward the latter part of the last half, the fire protects chalked up two more points as Mahn quickly followed a punt down and tagged Bauch for a safety, as the latter attempted to run the ball out from his end zone. A few minutes later with Sweeney again doing the passing, Mahn made a beautiful catch as he speared the ball in the end zone, and Larson caught the pass from Lange for the extra point. The civils desperately tried a passing attack, but finally had to give the ball up on downs. The game ended with the ball in the possession of the fire protects.

The defeat left the civils with one win and one loss in the tournament. The fire protects now appear as the dark horse in the race, since they have won two games, having beaten the junior electricals the week before.

SR. CIVILS SR. F.P.E.

By letting the ball slip through their fingers, the senior fire protects let a ball game go slipping by as they fought a 0-0 game with the senior civils last Tuesday.

With Eggers doing the passing for the team, the firemen were almost a constant threat to the civil's goal line. It was only because of the slippery condition of Luber's fingers that the actuarials did not roll up six points.

Fortunately for the fire protects, the civils had trouble with their passing. Several times in the first half, Weber or Mackey were in the open. However, the pigskin was not thrown with enough accuracy, and the civils were credited with one more incomplete pass.

Most of the game was played nearly in mid-field. Once or twice runs by Mackey behind the interference of Hanna and Hawkins advanced the ball to the insurance boy's 15 yard line. From there the civils encountered stiff resistance from the fire protects. After this foray, the civils returned to playing a defensive game. In the second half the firemen again started to throw the ball around. And again the receivers were not equipped with bushel baskets. Consequently, no touchdown was made. As the time limit was reached, the civils had the ball in mid-field.

Math Prof to Deliver Theses

Dr. Rufus Oldenburger, associate professor in the department of mathematics, has agreed to return to Princeton University where he studied under Einstein, to deliver a dissertation on space particles and their relation to any motion of any body in space. The subject of the discourse will be "Dynamics" and it will take place on October 25 at Princeton, New Jersey.

On October 28, Dr. Oldenburger will attend a meeting of the American Mathematical Society, at Columbia, New York, at which he will deliver a paper on "Exponential Trajectories in Symbolic Dynamics". The subject matter of this paper will be in next month's transactions of the society.

Senior Juicers Beat Senior Mechs

Ogden Field was transformed into a field of battle last Wednesday noon when two strong touchball crown challengers, the Senior Mechs and Senior Electricals met.

By ably defending their goal-line, and by capitalizing on the breaks, the juicers were able to shut out the mechs, 6-0. The total score came in the first half, after a long pass from Oldenburg to Damm had put the ball on the one foot mark. From this point, Damm snared one of Rehwalt's bullets in the cinder path, and the score was 6-0. It remained the same as the mechs broke up the play for the extra point.

More than once was the mech machine stalled within touching distance of the goal line. In the first half, after an exchange of punts, Clark's pass to Epstein was good for twenty yards. Again Clark chucked one to Wolniak, who was tagged on the ten yard line. Here incompleated passes brought an end to the mech's drive. It was after this push that the elect went on to score.

To start the second half, Clark kicked a nice high one to the juicers, who returned to their 15 yard line. Then Shaver went around end behind Rehwalt and Oldenburg to past mid-field. Again the Rehwalt-Damm pass combination worked, this time advancing the ball to the 15 yard line. Here the ball changed hands, and the mechs began their belated drive. Short passes were in order, Lasker throwing and Rudy Stimpl receiving. However, the late attack was halted and, shortly after, the game ended.

TOUCHBALL SCHEDULE

Tuesday, 10:00—Jr. Chem. E. vs. Sr. C. E.
Wednesday, 12:00—Soph M. E. vs. Sr. E. E.

By Jim Fahey

Before we get into sports, we'd like to correct an impression some fellows got from last week's column. We were not stepped on by anyone. By this we mean no faculty or administrative force was applied to make us pipe down. And, incidently, we did not.

Well, the Senior Chems finally got a team in the tournament. Now all they have to do is to get on the field at the same time for a little practice.

Admired the playing in the Sr. E.E.-Sr. Mech. game last week. We didn't see much of the game but saw some splendid demonstrations of the proper use of the elbow, knee, and body hold applied by a couple wrestlers and a track star.

Maybe this type of play is enjoyed by the players, and if it is, all right (dig, dig, dig) but to the sideliners it creates a lot of disrespect.

About the only things we know that can be done is to get officials out there who are not bulldozed into decisions by players. Someone who will call the rule breaking. We've had them before, why not now.

See where Herr Weissman got his name in the Tribune last week for his work in the Pallatin-Zarbara fight at Marigold Gardens. To youse that don't know, Bernard is now a noted fight official and has advanced very rapidly since his debut a year ago.

Our John Gets Rare Holiday

Although it is still five weeks away, Thanksgiving this year can't come any too soon for John J. Schommer, Armour's athletic director, and dean of collegiate officials, for 'twill be the first in thirty years that John will spend at home carving the turkey. In past years, this eminent sportsman has shivered on some far flung gridiron, reffing some game while the rest of the country was enjoying the festive spirit.

In the meanwhile, Prof. Schommer will perform his weekly task of meditating at the big game of the week,

which this week will be the Yale-Michigan game. Thus far John has worked the Indiana-Nebraska, Nebraska - Minnesota, Michigan - Iowa and the Notre Dame-Navy games. He still has carded the Indiana-Ohio State, Notre Dame-Iowa, Illinois-Ohio and Wisconsin-Minnesota. After this schedule, Mr. Schommer will have seen all the outstanding midwestern teams, save Purdue.

Each week on this page, Mr. Schommer will answer any question concerning football, its celebrities, and its rules to the best of his ability.

Grapplers, Sluggers Rounding Into Shape; Arrange Schedule

Hoopsters Begin Practice Nov. 1st

Soon the sound of basketballs hitting hardwood floors will resound through 108th Engineer's Armory. This sound will be the fanfare heralding the opening of '39-'40 Armour basketball season. The date set for the initiation of future basketeers is Wednesday, the first of November.

Leading his teammates on the floor will be Captain Bill Scherer. Bill will resume his old position as guard. Following Bill onto the court to take their first shot at the basket will be Eddie O'Connor, forward, Lloyd Norkus, forward, Herbe Sher, guard, Hank Sliwa, guard, and Frank Lurz, forward. These players earned a major letter last year, and are the men about whom Coach Grant Stenger will build his team. Other members last year's squad that have previous experience are minor lettermen John Rudakus, Bob Barrett-Smith, and Rupert Weber.

As the first game of the season is on Dec. 2 with Beloit at the Wisconsin school, Coach Stenger will bend all his efforts to whip the team in shape. This means that the hoop shooters will have to practice hard for there is only a month from the starting date of practice to the night of the Beloit game. And Beloit promises to be a stronger team than it was two years ago, the date of Armour's last meeting with Beloit. The Tech-hawks had a merry time beating the gridiron conquerors of U. of Chicago.

Arkansas State will be the first home opponents of the eagers. Last year, the southerners were not treated very cordially on the local hardwoods, for not only were they beat by Armour, but by North Central. Little information has seeped out of the State camp about the 1940 model team, but judging from last year's squad, a pretty good team can be foreseen.

New Schedule Set Up Omit Tuesday Work

With the aching muscles and mat burns gradually disappearing, the Techawk wrestling and boxing teams are rapidly rounding into shape. They still have a long way to go, but Coach Weissman could express nothing but satisfaction at the results thus far.

Boasting the majority of the 106 men under Weissman's tutelage, the wrestlers, 61 strong, are coming closer and closer to the day when the bouts for team positions will be held and the matmen will reap the fruits of their labors.

New Schedule

Coach Weissman has announced that starting this week, a new time schedule shall be in vogue. The new times are Monday and Friday from 3 p.m. to 6 p.m., and Wednesday from 4 p.m. to 6 p.m. This will eliminate the Tuesday practice which was poorly attended. This new arrangement applies to both boxing and wrestling. In boxing, the boys are working into shape with Golden Glove berths their destination. Outstanding thus far in their ranks has been Russnak, a 126 pounder who is the C.Y.O. team from Armour Tech. Paddy Kane, C.Y.O. trainer, has allowed Russnak to train under "Sonny" and to enter the C.Y.O. novice division under the title C.Y.O. team of Armour Tech. This marks one of the few times that the C.Y.O. has permitted outside training.

Boxers Getting Schedule

Boxing is also stepping up its pace by arranging a schedule of more than one meet. Loyola and Valparaiso, Ind., have already been contacted and tentative meets arranged. The Valparaiso meet is dependent on whether or not they have a team.

Meanwhile the matmen have been informed that their opening week will come four days sooner than anticipated and with new opposition.

"Have you ever noticed that Camels burn longer and give you more smoking?"

ASKS VAN CAMPEN HEILNER
FAMOUS GAME AND FISHING AUTHORITY

Above, "VAN" waiting in the duck blinds for the "zero hour." Explorer, sportsman, scientist, conservationist, author of the authoritative, new "A Book on Duck Shooting," Heilner knows the waterfowl flyways from California to Maine, Alaska to Mexico, and those of Europe too. "VAN" has been a Camel smoker for 18 years.

You can tell a lot about a cigarette by whether it burns fast or slowly. Camel cigarettes are noted for their long burning. In fact, they burned longer, slower than any other brand tested, in recent scientific studies. Van Campen Heilner, the famous American authority on wild game, points out an interesting angle to this. "Camels give more smoking because those choice tobaccos burn so slowly," he says. "And I think the way they burn is a good way to judge the quality of cigarettes too. I can smoke them steadily and they still taste smooth and cool, and my mouth feels fresh—and there's no throat irritation. Camels are mild, flavory. They give more pleasure per puff—and more puffs per pack." Get extra smoking per pack—topped off with the delicate taste of choice tobaccos. Smoke Camels!

MORE PLEASURE PER PUFF...MORE PUFFS PER PACK!

Whatever price you pay per pack, it's important to remember this fact: By burning 25% slower than the average of the 15 other of the largest-selling brands tested—slower than any of them—CAMELS give a smoking plus equal to

5 EXTRA SMOKES PER PACK!

Cigarettes were compared recently... sixteen of the largest-selling brands... under the searching tests of impartial laboratory scientists. Findings were announced as follows:

1 CAMELS were found to contain more tobacco by weight than the average for the 15 other of the largest-selling brands.

2 Camels burned slower than any other brand tested—25% slower than the average time of the 15 other of the largest-selling brands! By burning 25% slower, on the average, Camels give smokers the equivalent of 5 extra smokes per pack!

3 In the same tests, Camels held their ash for longer than the average time for all the other brands.
