Bog Committee Meeting
Mondays @ 1 p.m. in the
LaSalle Executive Conference Room, MTCC
Everyone is welcome!

GreenIIT

Did you know...

...Almost half of the greenhouse gases emitted from the average home come from driving family vehicles? If you are going to be stopped for more than 10 seconds, turn off your engine, except in traffic. Idling your vehicle for more than 10 seconds uses more fuel than it would take to restart your engine. On cold mornings, excessive idling is not necessary as a vehicle engine only requires 20 seconds of running time in order to circulate the engine oil. So remember, turning off your engine saves gas AND the environment!

The Office of Campus Energy and Sustainability (OCES) is coordinating an effort among students, faculty and staff to define the specific actions, programs and policy changes IIT will make in order to reach the targeted commitments that will define IIT as the most sustainable urban university campus in the United States.
