What issues do you plan to solve, and how do you plan on approaching these matters?

I would like to work on improving security for students around campus. I have heard concerns from several students and would like to receive more feedback from others; develop possible solutions and give recommendations to

the security officers. I am also interested to improve students' spirit at IIT. I would like to get more students involved around campus and see more happy faces by inviting them to various campus events and activities, making their student life more interesting and fulfilling, showing opportunities where they can be involved and helping them find their niche.

Why do you want to be an SGA Senator?

I want to be an SGA senator because I want to take ownership of my IIT experience. As a person, I strongly believe that one should "be the change [they] want to see in the world." As a student at IIT, I have often heard others and, at times, myself gripe about the aspects of the community we wish to see changed. Therefore, I want to be an SGA senator because I feel that it will give me the opportunity to bring about the changes that we as a community wish to occur.

Why do you want to be an SGA Senator?

To me it is very important to be involved in campus activities, particularly with the student governing body. Not only is it something that I enjoy, it is something that I can be apart of to work towards the greater good of the campus and the surrounding community. I would also like to get to know all of the administrators at IIT to further develop my personal social network, after all we are the "liaison" to the student from the admins. Plus the whole experience is just fun.

Why do you want to be an SGA Senator?

I am always seeking for opportunity to help others. Being an SGA Senator accomodates for both my desires of improving myself while helping others out as well. I am still quite new in IIT so I hope I am given the opportunity to explore and serve the students as much as I can. I am a person who is very active in extra-curricular activities and hence the interest in being part of the IIT SGA.
