SAF SPONSORED

How many **computer programmers** does it take to change a light bulb?

None; that's a hardware problem.

How many **physicists** does it take to change a light bulb?

None, once they have observed it is out it has already changed.

How many **architects** does it take to change a light bulb?

One: He just holds the bulb and the world revolves around him.

How many **PhD students** does it take to change a light bulb?

One, but it takes ten years.

How many **mathematicians** does it take to change a light bulb?

Approximately 1.0000000000

CAMPUS  
CONSERVATION  
NATIONALS 2013

eswiit1@gmail.com and  
campussustainability@iit.edu

Brought to you by Engineers for a Sustainable World and the Office of Campus Energy and Sustainability

Conserve electricity to win **free catered breakfast during finals week** in your hall or building and prove once and for all your group reigns supreme over the competition.

March 31st  
to April 20th
