

The Greeks—

(continued from page six)

Wood, vice-president; George Miles, secretary; and Chuck Wallace, treasurer.

Also at the meeting Brother Sweeney was presented with a gavel as a token of appreciation for the splendid work that he accomplished during his term of office as president. All the other old officers were also given a vote of thanks for their services.

On the business end of the meeting, plans were discussed for future social functions and among them was the Senior Farewell Dinner-Dance.

On Saturday April 19 Theta Xi fraternity celebrated the nineteenth anniversary of its founding upon the Armour campus. The Atethix (mother's) club was in charge of the party which was held at the chapter quarters. For the benefit of the alumni, mothers and friends, a formal pledge ceremony was conducted by the president, Gene Clears, at which time Gene Burton and Clifford Gorski were formally pledged. After the pledge ceremony was completed, an evening of entertainment followed. Bunco, card games and dancing, along with refreshments concluded festivities. A few of the prominent alumni attending were Roy Kercher, delegate to the Grand Lodge, Harry P. Richter, William Scharing, F. E. Marx, Al Downey, R. Ansel, R. Young and William Graf.

Officers for the following years were elected at the Kappa meeting last Friday. Patricia Arns was elected president; Mae Krueger, vice-president; Ethel Witt, secretary; and Florence Bartusek, treasurer. Pan-Hellenic representatives will be Blanche Fried, Florence Bartusek, and June Kiefer. Blanche will also act as reporter for the sorority.

CO-OP NEWS

By E. P. Hanuska and Bert Milleville

More election returns:

The juniors (4B) have elected Bert Milleville, president; Bob Kraus, vice-president; Leif Lunde, secretary-treasurer.

The pre-juniors (3B) have elected Ed Kraegel, president; Fred Sternberg, vice-president; Milton Platzner, secretary; John Briggs, treasurer.

In the softball tournament the co-op teams fared good and bad, depending on the point of view. The juniors lost their first game to the junior mechs by a score of 7-2 while the pre-juniors defeated the senior fire-protects, in a close battle, 9-8.

Space for the Co-op Open House exhibit has been secured in the new Diesel laboratory fronting State Street. Watch the bulletin board in the co-op office for further information.

The Co-op Junior Marshal this year is Merle Dargel 4B. The juniors also elected Leroy Simpson 4B to represent the co-ops on the ITSA board. Our best wishes to you both.

We regret to report that one, Richard Hanneman 5B, at this advanced stage of his career, has contracted a nice case of the measles. Yes, Dick will be confined to his bed under a quarantine for at least ten days. . . . Fred Brown 4B sparked the campaign for Merle Dargel with such pointed slogans as "Dingle with Dangle" and "Gargle with Dargel" . . . Robert Dawson 2B and Arnold Kramer 2B are having hair trouble a-plenty. Bob wants some bristles on

his lip for the mustache growing contest (and he appears to be doing pretty well) while Arnold needs it on his head which now resembles a cue-ball (see adjoining column by Bob Creagan for the reason for this close shave) . . . Bill Green 4B scandalized the literature class by appearing "sans pants." Shades of freshman days! But then Junior Week is approaching . . . And speaking of freshmen, we wonder how they are faring with their algebra—especially Phil Caulfield, Rudy Larson, and Bob Schmitz. Remember, an S.O.S. to E.P.H. will bring him a-running.

Last week-end the fifth annual National Wage Conference of the Industrial Management Society held forth at the Chicago Towers Club. The program for the three-day meeting of executives and industrial big-wigs was arranged by—guess who?—none other than our own Professor L. J. Lease, director of the co-op course. Yep, Prof. Lease is program chairman of the society. The old boy has plenty on the ball when he can find time to actively participate in club affairs in addition to looking after 500 odd (problems personified) co-ops. Incidentally, the co-op office has already placed boys who will start the course in Feb. 1942. Seems like there are more jobs available than boys to fill them.

The pre-junior class has been revitalized by the addition of six new men this term. We wish the best of luck and extend a hearty welcome to Ed Siemanowski, Gerald Cross, L. C. Persson, Warren Lewis, Robert Skoleen and Walter H. Villiers.

Other Campuses

Charles I. Ball

If somebody hadn't the courage to be stupid now and then, the world would be a terribly dull place.

From Northwestern university comes the story about the student who turned in a twenty year old term paper from his fraternity's file and received an A minus with the following note from the prof: "This was an A paper when I wrote it, and by golly it's still worth an A minus!"

Other students have trouble with logic also. A logic class at Providence college in Rhode Island wrote their own finals and yet eight percent of them flunked.

A team of eagle-eyed coed sharpshooters from Texas State Teachers College recently defeated the he-man male rifle team of Texas A. & M., the largest military college in the country.

An all-coed dance band has just made its debut at the University of Kansas which makes it the school's third dance band.

A short time ago the University of West Virginia's Daily Atheneum carried the following advertisements:

Will the person who stole the windshield, tires, and ten gallons of gas from my car please call and get the rest of the car?

Will trade one boy friend without principle for one with interest.

Will swap gazes from my dark eyes and some dimpled smiles for some loving by a lovely lady.

THE SMOKE'S THE THING!

"YES, SIR, CAMEL IS THE CIGARETTE FOR ME—
EXTRA MILD!"

—and here's the scientific slant,
"BUCKY" WALTERS:

The *smoke* of slower-burning Camels gives you

28% Less Nicotine

than the average of the 4 other largest-selling cigarettes tested—less than any of them—according to independent scientific tests *of the smoke itself!*

THERE'S THE WIND-UP. And here's the pitch—an inside slant from baseball's master moundsman, Cincinnati's famous "Bucky" Walters:

"My cigarette has to be mild, naturally. Camels give me extra mildness—and they're full of flavor."

Extra mildness—less nicotine in the smoke . . . 28% less than the average of the 4 other largest-selling brands tested. Whether you smoke much or little, you'll welcome Camel's extra mildness and extra freedom from nicotine in the smoke. Switch to Camels *now*. Smoke out the facts for yourself. The smoke's the thing!

BY BURNING 25% SLOWER than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking *plus* equal, on the average, to

**5
EXTRA SMOKES
PER PACK!**

YOU'VE GOT the right pitch, "Bucky." Camel's costlier tobaccos are slower-burning. That means freedom from the irritating qualities of excess heat...more coolness, more flavor. Yes, and no matter how much you smoke, flavorful Camels always taste good . . . never wear out their welcome.
