

GOETZ STATES S.A.M. PROGRAM FOR COMING YEAR

A reconstruction and reorganization program for the Armour chapter of the Society for the Advancement of Management was keynoted by Professor Billy Goetz and Dean Dutton before a group of students in the faculty grill on Friday, Oct. 17.

Formerly the society was restricted to seniors but their mass graduation necessitated a reorganization at the beginning of each year. Now, however, sophomores, juniors and seniors will be eligible. Coupled with the announcement of the amended restrictions, Dean Dutton also promised the appearance of Mr. H. C. Mueller, general manager of the Powers Regulator company at the next meeting, on Friday, October 24.

Mr. H. C. Mueller will, during his talk on Friday, discuss the "Task of the Executive" and attempt to portray the difficulties and problems besetting the executive. Solution of these same problems is accomplished by the application of ingenuity and foresight engendered by the proper background of study and experience. Mr. Mueller, an Armour alumnus, is well qualified to speak upon this theme having had thorough experience in various industrial fields.

BRENDA, COBINA TO BE DANCE CLUB GUEST HOSTESSES

(continued from page two)
cause there will be a definite place for you.

The Dance club is especially anxious to get their hands on the beginners. Transforming wall-flowers into hall-room Casanovas is their specialty. Undoubtedly, every fellow who has the intelligence to select IIT as a home of higher learning realizes the ability to dance well and gracefully is perhaps the final mark of polish and culture.

To those who already consider themselves Fred Astaires and turn up their collective noses at the thought of lessons the club still has an ace up their sleeve. Beginning shortly they are going to sponsor regular dances which they fervently guarantee will surpass the efforts of any previous semester.

For the benefit of those who don't know the right kind of girls (or who desire a change), the club has opened the city's most exclusive dating bureau. Special members of the club, sworn to secrecy, have gathered together a voluminous file of the Chicago's eligible glamour girls. Included in this engineer's heaven are choice samples from Northwestern, CTC, Spiegels, the Ballet Russe and similar organizations. This file will be jealously guarded and its inspection will be open to members of the club only.

"Airports" Subject Of Fall Conference

"Airports" will be the general theme of the 1941 Fall Engineering conference of the Illinois Institute of Technology, which will be held at the Palmer house Thursday through Friday, October 30-31.

According to J. B. Finnegan, professor of fire protection at the Institute and conference director, no important branch of industrial governmental or academic work pertaining to airports will be without representation.

The conference will open with an address by William A. Aldous, senior engineer of the technical development division of the Civil Aeronautics Administration, Washington, D.C. Mr. Aldous will be followed by V. C. Lundquist and Carl Larson of Northwest Airlines, Inc., St. Paul, Minn., speaking on "Plane Servicing Arrangements."

Melville B. Wells, emeritus professor of Civil Engineering at the Institute, will discuss "The early History of Aviation in Illinois, Personal Reminiscences" at an 8 p.m. smoker, of which S. M. Spears, associate professor of civil engineering of the Institute, will be chairman.

Friday's program will be headlined by a luncheon at which Captain L. L. Odell, consulting engineer and chief airport designer of Pan-American Airways, New York city, will speak on "Integration of Requirements in Airport Design."

"What A Life" To Be Lewis Stage Play

Lewis Drama club activities began Thursday, October 16 under the guidance of Mrs. Olive Pierce Hazel, when the members met to decide which play would be presented first. There were three plays to choose from, these being "Curtain Raiser," "A Mexican Folk Play" or "What a Life."

With the perfect Henry Aldridge in the person of Bob Meyer, "What a Life" was unanimously chosen. Others cast were Sylvia Wscilo, as Barbara, Henry's heart-throb, and Steve Mendak as the ever persistent principal. This play will be presented early in December.

Junior Class Meets, Plans '42 Program

After a successful sophomore year the class of '43 is planning its program for the coming year. The first junior class meeting was held last Friday with great enthusiasm. Under the chairmanship of Bob Mahassek, the class voted upon the officer form of government to rule during their junior year.

Petitions containing twenty-five names with no repetition will be submitted by each candidate no later than Wednesday of this week. A committee consisting of one man from each department

Hasskarl Heads Arx Society This Year

In the first spin of a whirlwind season, the Armour Architectural society met last Friday in order to elect a new board of control. It was the first society meeting for the fifteen freshmen who were initiated a week ago. (See story and photograph on Page One). To the upper classmen the meeting was presented as an attempt to put the society on a new basis — the ideal of an organization which gives members maximum benefits.

The new board of control, made up of two members from each class, consists of William Hasskarl and Warren Spitz, seniors; Edward Farrell and George Borre, juniors; William Dunlap and Kenneth Rogers, sophomores; and Karl Norris and Mario Fraccaro, freshmen.

Also discussed at the meeting were plans for a Halloween party and a suggested change in the constitution. After the close of the meeting the board met and elected its officers; William Hasskarl, chairman; Edward Farrell, secretary; and William Dunlap, treasurer.

was formed to determine the duties of each officer. The men chosen were MacDonald, civil; Lambin, chemical; Bechtolt, F.P.E. and Kaeding, M.E. These men will act until the officers are chosen.

THE SMOKE'S THE THING!

IT'S GRAND CHAMPION COWBOY PAUL CARNEY. At Cheyenne, Tucson, Pendleton — on sun-fishin' saddlers... barbarous bareback broncs — this lean, leathery Arizona tophand outperformed 'em all. He tells you this about cigarettes: "Less nicotine in the smoke means just that much more mildness to me. I'm glad I switched to Camels."

Yes, by actual comparison (see right, above) less nicotine in the smoke than any of the 4 other largest-selling brands tested. And the smoke's the thing!

Less nicotine in the smoke—freedom from the irritating qualities of excess heat—extra mildness. Switch to the slower-burning cigarette of costlier tobaccos now!

"That EXTRA SMOKING PER PACK makes slower-burning Camels a mighty THIRTY smoke."

BY BURNING 25% SLOWER than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking plus equal, on the average, to

**5 EXTRA
SMOKES
PER PACK!**

For even greater economy and convenience, get Camels by the carton at attractive carton prices.

R. J. Reynolds Tobacco Company
Winston-Salem, North Carolina

CHECK, PARDNER, CAMELS ARE Milder—EXTRA MILD!

The smoke of slower-burning Camels contains

**28% LESS
NICOTINE**

than the average of the 4 other largest-selling brands tested—less than any of them—according to independent scientific tests of the smoke itself!

IF YOU'RE SMOKING MORE than you once did, you'll appreciate Camel's slower burning all the more. Not only less nicotine in the smoke but also more coolness and an extra flavor that livens up even a tired taste. You don't get tired of smoking Camels—they always taste good.
