

ORGANIZATIONS

Home Economics Club

Outlining plans for the coming year, the Lewis Home Economics Club met Friday morning, November 6, in apartment room 606. President Elaine Simon presided over the meeting and introduced the new officers for the coming year to the freshmen; namely, Ruth Body, vice president and Corinne Lense secretary-treasurer.

New members were welcomed into the group and for their benefit Miss Simon outlined the functions and professional aims of the club. She pointed out that the Lewis Home Economics club is affiliated with the Illinois Home Economics Association and is a professional club for students majoring in this subject.

Projects for the coming year were suggested—one, being the club's participation in Red Cross work, and the other, the selling of defense stamps at Lewis under their auspices.

Chemical Societies

The chemical organizations located on the campus announced that they would sponsor a smoker in the Armour Student Union building on Thursday night, December 3rd. The cooperating organizations are the American Institute of Chemical Engineers; Lewis Chemical Society; Alpha Chi Sigma, professional chemical fraternity; and

Phi Lambda Upsilon, honorary chemical society. All students majoring, minoring, or just interested in chemistry or chemical engineering are invited.

Specific and personal invitations will be sent to all members of the faculty of Illinois Tech, regardless of their department, to attend the smoker. This smoker is looked on as the forerunner to other social functions where students may get to know the human side of their instructors. The faculty will also get a chance to become better acquainted with their students.

The program for the evening has not been definitely decided upon as yet. It is planned to include a short talk by some member of the chemistry and chemical engineering departments defining and delineating the two professions. This should be of material aid to the freshmen deciding whether they wish to become chemists or chemical engineers.

Medical Arts Guild

The Medical Arts Guild had its second meeting of the fall term last Friday morning at 10:00 a.m.

A new constitution for the Guild was introduced and amended and plans for a trip to the Illinois State Research Hospital on Saturday morning, November 14th were made.

Alpha Sigma Phi

The Alpha Sigs continued their march in the direction of the interfraternity football trophy by defeating the Pi Kappas 9-0. The game was a hard fought battle by both teams. Duane Kuffel, lively freshman fire protect, ran the full length of the field for the only touchdown of the game. The point after touchdown and a safety comprised the rest of the score.

Last Saturday night the whole gang turned out with dates for a hayride at Stafford Stables. The freshmen pledges made the actives green with envy at the selection of girls which they brought. Where the youngsters get the "good-lookers" seems to be a standing problem to the older men at the House.

Brother Ronald Lind will be the Fraternity Editor of the TECHNOLOGY NEWS starting next week. Other houses desiring a writeup in this column please get their stories to him by Thursday night of each week.

Kappa Phi Delta

Dinner at the Empire room of the Palmer house climaxed a delightful day for the sisters of K P D Sunday, November 8, bringing their rushing season to a close.

Welcomed back to the throngs

GREEKS

of Lewis by her sorority sisters is Patricia Arns. Once more the sorority stands united and all accounted for with her return.

Sigma Beta Theta

Yep—those Sigma's have done it again. Nothing small about them. They gave their Informal at LaPetit Gourmet if you please. The girls are very continental in their tastes. As if this were not enough they ushered their pledges to the theatre to bathe in the fountain of dramatic elegance. This good evening was the brain child of Elinor Wick.

Triangle

The Triangle boys are still trying to recover from their Halloween party, held two weeks ago. Seems as though every fraternity man on the campus came over that night to ride the "Triangle roller coaster." This device, a product of the inventive genius of Lowen Shearer, erstwhile mad scientist and co-op, proved to be the hit of the evening. Lowen Shearer, demonstrated, without the aid of differential equations, that rolling friction can be reduced to zero.

Last Saturday, a card party and dance was held, under the sponsorship of the Mother's Club. A gay time was had, and all of the Triangles and their ladies attended.

Pi Kappa Phi

Beating the gas rationing by one day, the Pi Kaps are planning a moonlight hayride party for the weekend of November 21st.

The Anderson vs. Dalenberg football teams clashed Monday as a warm-up for the Pi Kappa's next interfraternity game.

Wally Koelle is determined to clear his defeats at ping pong with Henry "wanta' bet" Dirksen, while Chuck Farr still can't understand how Paul Dalenberg played ping pong.

From the stage of the Civic Opera House, Al Glassgen and Doug Snyder raised their intellectual attainments by attending the opening of the Chicago opera season.

Eta Kappa Nu

Eta Kappa Nu, the honorary electrical fraternity, pledged the following men at the October 30, 1942 meeting of the AIEE: Alvin B. Coyle, Gerald Landsman, George Roskam, Victor Graziano, Joseph Hind, Jr., Harold D. Ross.

The familiar flasher lights will be seen on the campus for the next three weeks lighting up as pledges pass active. The initiation date has not been set as yet.

IN THE BOMBER COMMAND

they say:

"OFFICE" for the bombardier's place

"GREENHOUSE" for plane's transparent nose

"ROGER" for okay or all right

"CAMEL" for the Army man's favorite cigarette

FIRST IN THE SERVICE

With men in the Army, Navy, Marines, and Coast Guard, the favorite cigarette is Camel. (Based on actual sales records in Post Exchanges and Canteens.)

R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina

The "T-Zone"
where cigarettes
are judged

The "T-ZONE"—Taste and Throat—is the proving ground for cigarettes. Only *your* taste and throat can decide which cigarette tastes best to you... and how it affects your throat. For your taste and throat are absolutely individual to *you*. Based on the experience of millions of smokers, we believe Camels will suit your "T-ZONE" to a "T." Prove it for yourself!

IT'S
STRICTLY CAMELS
WITH ME. THAT
RICH, FULL FLAVOR
ALWAYS TASTES GREAT.
AND THEY'RE
MILDER ALL
WAYS

CAMEL
COSTLIER TOBACCOS
