

LAST WEDNESDAY I attended my first ITSA meeting. On the whole it can be said I found things different from what I expected. Rumors and general talk had led me to believe that it was an apathetic, inefficient bunch. With all fairness this cannot be said using this meeting as an example. The fact that I found the meeting in better shape than expected does not indicate that these rumors have been untrue; on the contrary it just means that the meeting I attended faced no large problems and consequently was able to handle things. Also it should be remembered that they were all veteran members. Now the question is will the next ITSA board be able to profit from past experience. This, of course, will depend on who the new members are. And who they are is the responsibility of the student body in their voting in the coming election.

**THE FACULTY LIVED** up to tradition by coming late for registration. There were some people waiting before seven that morning, but the faculty arrived at about eight-thirty or in some cases later. It seems that when they announce a time for registration this time should be followed, since the process of registering is long enough anyway.

**THE NAVY OFFICE** has completely gone against school policy by scheduling a class during the Friday free hour. This hour, as has been said before and should be known now, is set aside for assemblies and meetings of extra curricular organizations. The Navy Office, however, has paid no heed and has scheduled some thirty men for Naval Organization. Most of the men in this group are upper classmen and are in many cases active in organizations. It is certainly an injustice to deny these men the activity which they are entitled.

**TOM RUCK AGAIN** seems to have made steps to promote another successful affair. This is the senior dinner dance. Tom has had an exceptional activity record, and along with a hard working committee they are on the verge of overselling the dance—a highly commendable feat.

**INTEGRAL PICTURES WERE** taken with reasonable efficiency, but some objections were voiced. The objections mainly were that people missed their pictures and they were not taken on time. This was mostly the fault of the students themselves, since they were not prompt. Worse yet, only about twenty-five per cent of the classes showed up. The organizations showed up quite well, but the faculty made a poor showing.

## Officer Rating To Be Posted

"The first list of officer ratings will be posted sometime this week," Lt. Royal F. Sessions, commanding officer of the Navy V-12 unit, announced today.

Lt. Sessions added that the rating system, which has been inaugurated this term, will give the officers a better idea of the officer-like qualities of the individual trainees. Under this system, each man is rated on a 4.0 basis as to his military bearing, co-operation, industry, personal appearance, loyalty and leadership.

The petty officers, who are in direct contact with the men, make observations of the trainees and turn these in to the officers who complete the final ratings. As the system now stands, ratings will be posted twice a term. The first rating is not the one which will go into the Bureau of Naval Personnel, but the final rating at the end of the term will go there.

# TECHNOLOGY NEWS

## New Technology News Aides Announced For Present Term

Martinko and Shore New Feature Editors; Sports To Be Covered By Pype and Arend

A/S George Martinko's promotion to feature editor and the appointments of eight new men to the editorial staff of Technology News, were revealed today by Henry Freund, editor-in-chief.

The new editorial staff members include Edward Shore, assistant feature editor; Henry Pype and Edward Arends, assistant sports editors; A/S Richard Peterson, circulation manager; Ronald Born, cartoonist; and Edward Rubin, Frank Janick, and Harold Daniels, copy, rewrite, and headline editors.

Martinko has been on the Technology News staff for a year during which time he has served as reporter and as copy, rewrite, and headline editor. His chief extra-curricular activities apart from the paper lie in intramural sports in which he has taken an active part. Martinko came to Illinois Tech as a sophomore in July, 1943, with the navy V-12 unit. He hails from Youngstown, Ohio, where he attended both college and high school. While in high school he won five major letters in football and basketball.

Edward Shore has been on the newspaper staff for one semester during which time he served as a reporter and as a special feature writer. He is also a member of the Integral staff and is president of the student affiliate of the American Chemical Society and of the SCMP.

Activities of Ed Arends include

(See NEW STAFF on Page 5)

## Dance Club to Hold Meeting

The first meeting of the dance club for this semester will be held in the Student Union on Wednesday, March 21, announced A/S John Schmidt, president. Dancing will start at 7 p.m.

This semester the club will have the Navy Band for every other dance. The band will be made up of A/S Robert Harmon, A/S Homer Wickham, Doug Benton, A/S Dave Liston, A/S William Sirvatka, A/S Paul Boggress, A/S J. C. Woodling, A/S DeWitt Pickens, A/S Jack Gilman, A/S Robert Schimmelpfenig, A/S Robert Malis and A/S Norbert Vojta.

The arrangement of refreshments will be taken care of by Tom Ruck and A/S Jack Wright. Invitations have been issued to the girls of Chicago Teachers College and St. Xaviers.

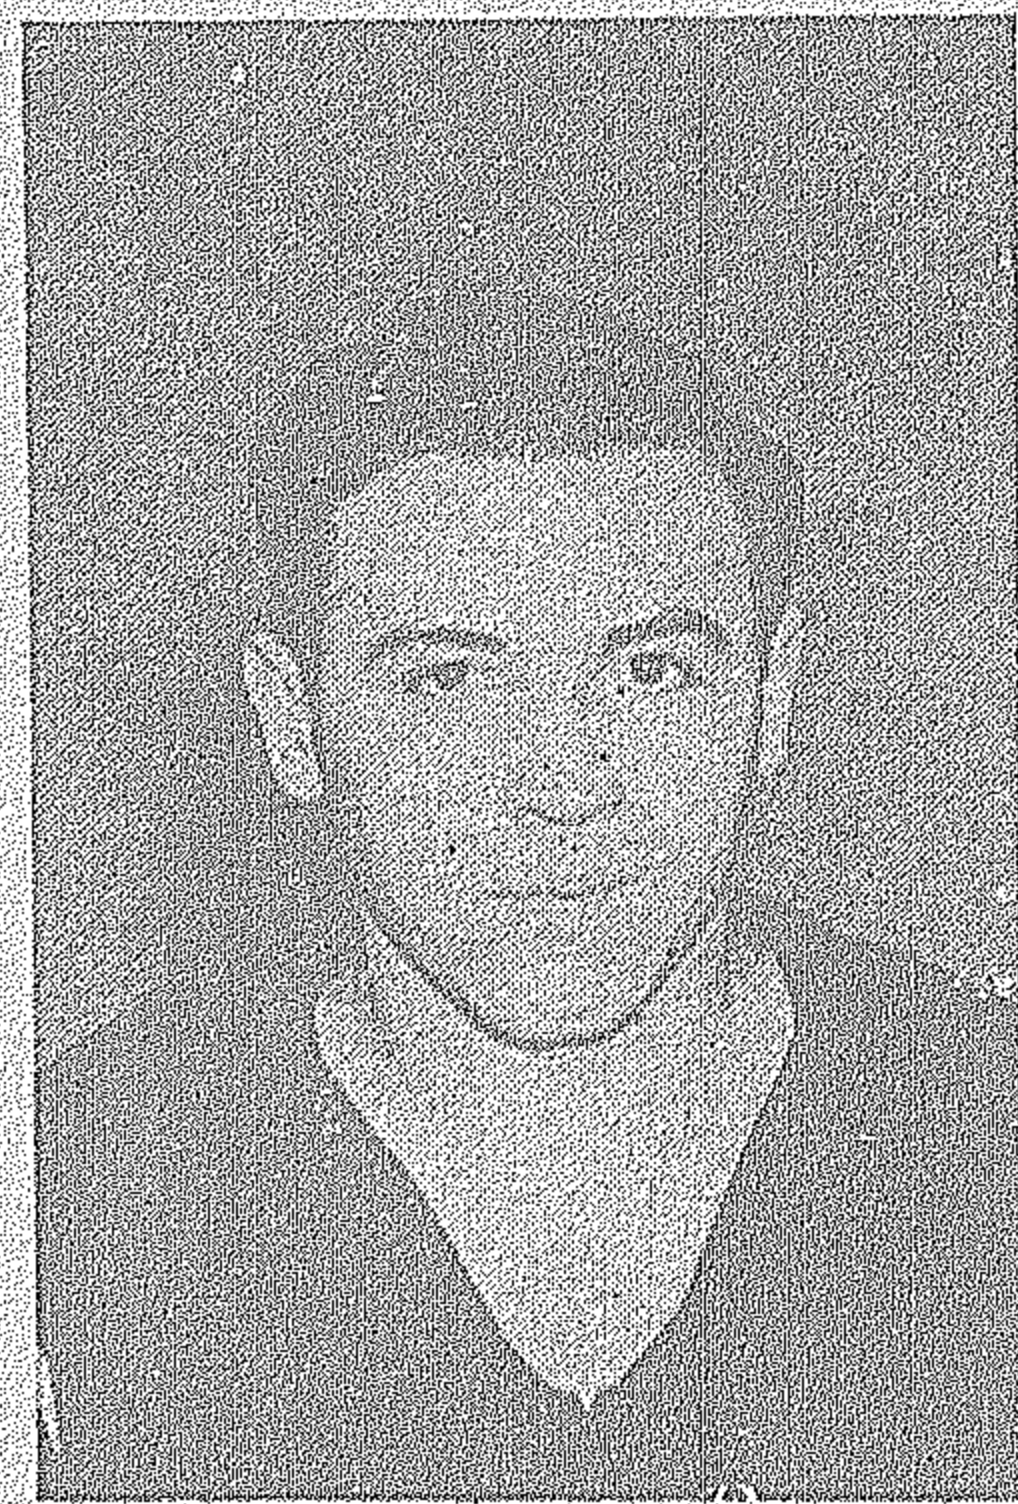

## Link Reorganized To Serve Students

The Link, which was at one time Illinois Tech's Date Bureau has been reorganized. The new board consists of Tom Kilgariff, one of the original founders; adviser, Bob Ahlgren, and Bill Atchison co-chairmen, Ed Arends and Charlie Ronk correspondence men; Hank Pype and George Martinko, contactmen; and Leoard Baness, business manager. According to Bill Atchison, the student body will be kept posted as to the progress of the organization.

The faculty sponsors are Mrs. Anna Orcutt and Dean Charles Austin Tibbals.

The old Link functioned two semesters before it ceased operating. It was founded by Chet Swan, Tom Kilgariff, Cliff Oliver and Ted Pilat.

### Feature Editor

JOURNALIST—A/S George Martinko newly appointed member of the Technology News managing board. He is feature editor.

## Enrollment at IIT Announced

Mech. Engineering Claims Most Students

Students totaling 2193 are in attendance at the south and west campuses in both day and evening classes. This figure indicates a reduction of almost 10% from the enrollment figures quoted as of Nov. 15, 1944, according to W. E. Kelly, registrar.

Through graduation, transfer, or failure 93 apprentice seamen were separated from the program. Now 431 of the present day students on the south campus are Navy V-12 men.

The other 50 of the 870 regular day students on the south campus are civilians. All of the 175 day students on the west campus are civilians. In addition 45 graduate students are enrolled in the day-time.

Evening students enrolled are again more numerous than day students, outnumbering the latter by 13. Out of a total of 1,103 evening students, 437 are undergraduates at Armour. Kelly warns that these

(See ENROLLMENT on Page 6)

## Graduation Day

IIT COMMENCEMENT—D. Roy Mathews giving the benediction at the recent commencement exercises.

## Students May Avail Themselves of Help Offered By Tutors

Free tutoring will be available to all students at IIT. This individual help will be given in room 302 MH. between 10:00 a.m. and 3:00 p.m. everyday of the week.

A/S Bob Thurston, Pi Tau Sigma president, says the tutoring service was instituted several semesters ago by that fraternity. The results obtained were so satisfactory that this semester all the honorary engineering fraternities on the campus are co-operating in helping troubled students. Further information on the tutoring program will be posted on the bulletin board soon.

## Seniors to Be Photographed

No "Eight Term Men" Will Be in Senior Part

Graduating seniors have only one more week to get their portraits taken for the next Integral, Herman Nelson, editor-in-chief, says. If pictures of seniors are not taken at the studio before March 26, such individuals cannot expect to have their pictures in the June Integral.

Eight term men who will not graduate will not have individual portraits in the senior section. Instead the Integral is planning to run group photos of these individuals. The time for taking these pictures will be announced soon.

The senior portraits are being taken at the DeHaven Studios, 5 South Wabash Avenue. The studio is open from 9:30 a.m. to 6 p.m. on weekdays, and from 10 a.m. to 4 p.m. on Sunday. Proofs of the pictures will be sent to the individuals, and from these the seniors are expected to choose the ones they wish to be used. The proofs must be returned personally to the studio. If they are not returned promptly, the Integral will choose the picture to be used in the book. The photos of navy seniors will be taken with the students' navy hats on.

Nearly all group pictures for the book have now been taken. Only a few departments and student organizations remain to be photographed. Student staff photographers will take these at specially appointed times.

## Revised Plans For Elections Will Be Used

Assembly To Precede Voting; Nominees Will Address IIT Students

A revised system of holding class elections will be employed this Friday with the purpose of stimulating greater interest on the part of the student body.

Election primaries for student class officers will begin after an all school assembly to be held in the Student Union auditorium at 11 a.m. Candidates for each office will be introduced and will give short campaign speeches in their behalf. Polling will then begin and last until 4 p.m., giving adequate time for all students to exercise their voting privilege.

Persons intending to run for one of the class offices must submit a petition bearing 25 names indorsing him in order that his name appear on the ballot. The petitions are to be of the following form: "We the undersigned do hereby nominate John D. Doe for the office of . . . ."

Students may sign more than one petition for the same office, but cannot sign petitions for offices outside of their own class.

All petitions must be turned in by 5 p.m. Tuesday to the ballot box in "Sonny" Weissman's office, second floor Student Union.

Final elections will be Friday, March 30. Candidates receiving class majorities in the primaries will not run in the finals.

(See ELECTION on Page 5)

## Scholarship of Many Below 1.0

One hundred and eighty-five students have been put on probation this term, James C. Peebles, academic dean of students, announced today. Of this total 112 are Navy men, and the remaining 73 are civilians.

According to the Institute Bulletin: "A student whose average falls below 1.0 in any term will be placed on probation for the succeeding term. During this probationary period a student is not eligible to represent the Institute on any athletic team, musical club, or other student organization. He is not eligible to hold any office or to receive employment or other financial aid from the Institute." Dean Peebles added that a student on probation who does not show marked improvement in his work will be dropped for poor scholarship. Lt. R. F. Sessions, commanding officer of the Navy Unit, stated that any V-12 trainee on probation who does not show an improvement would be separated from the V-12 program.

## Tau Beta Pi Elects Thurston President

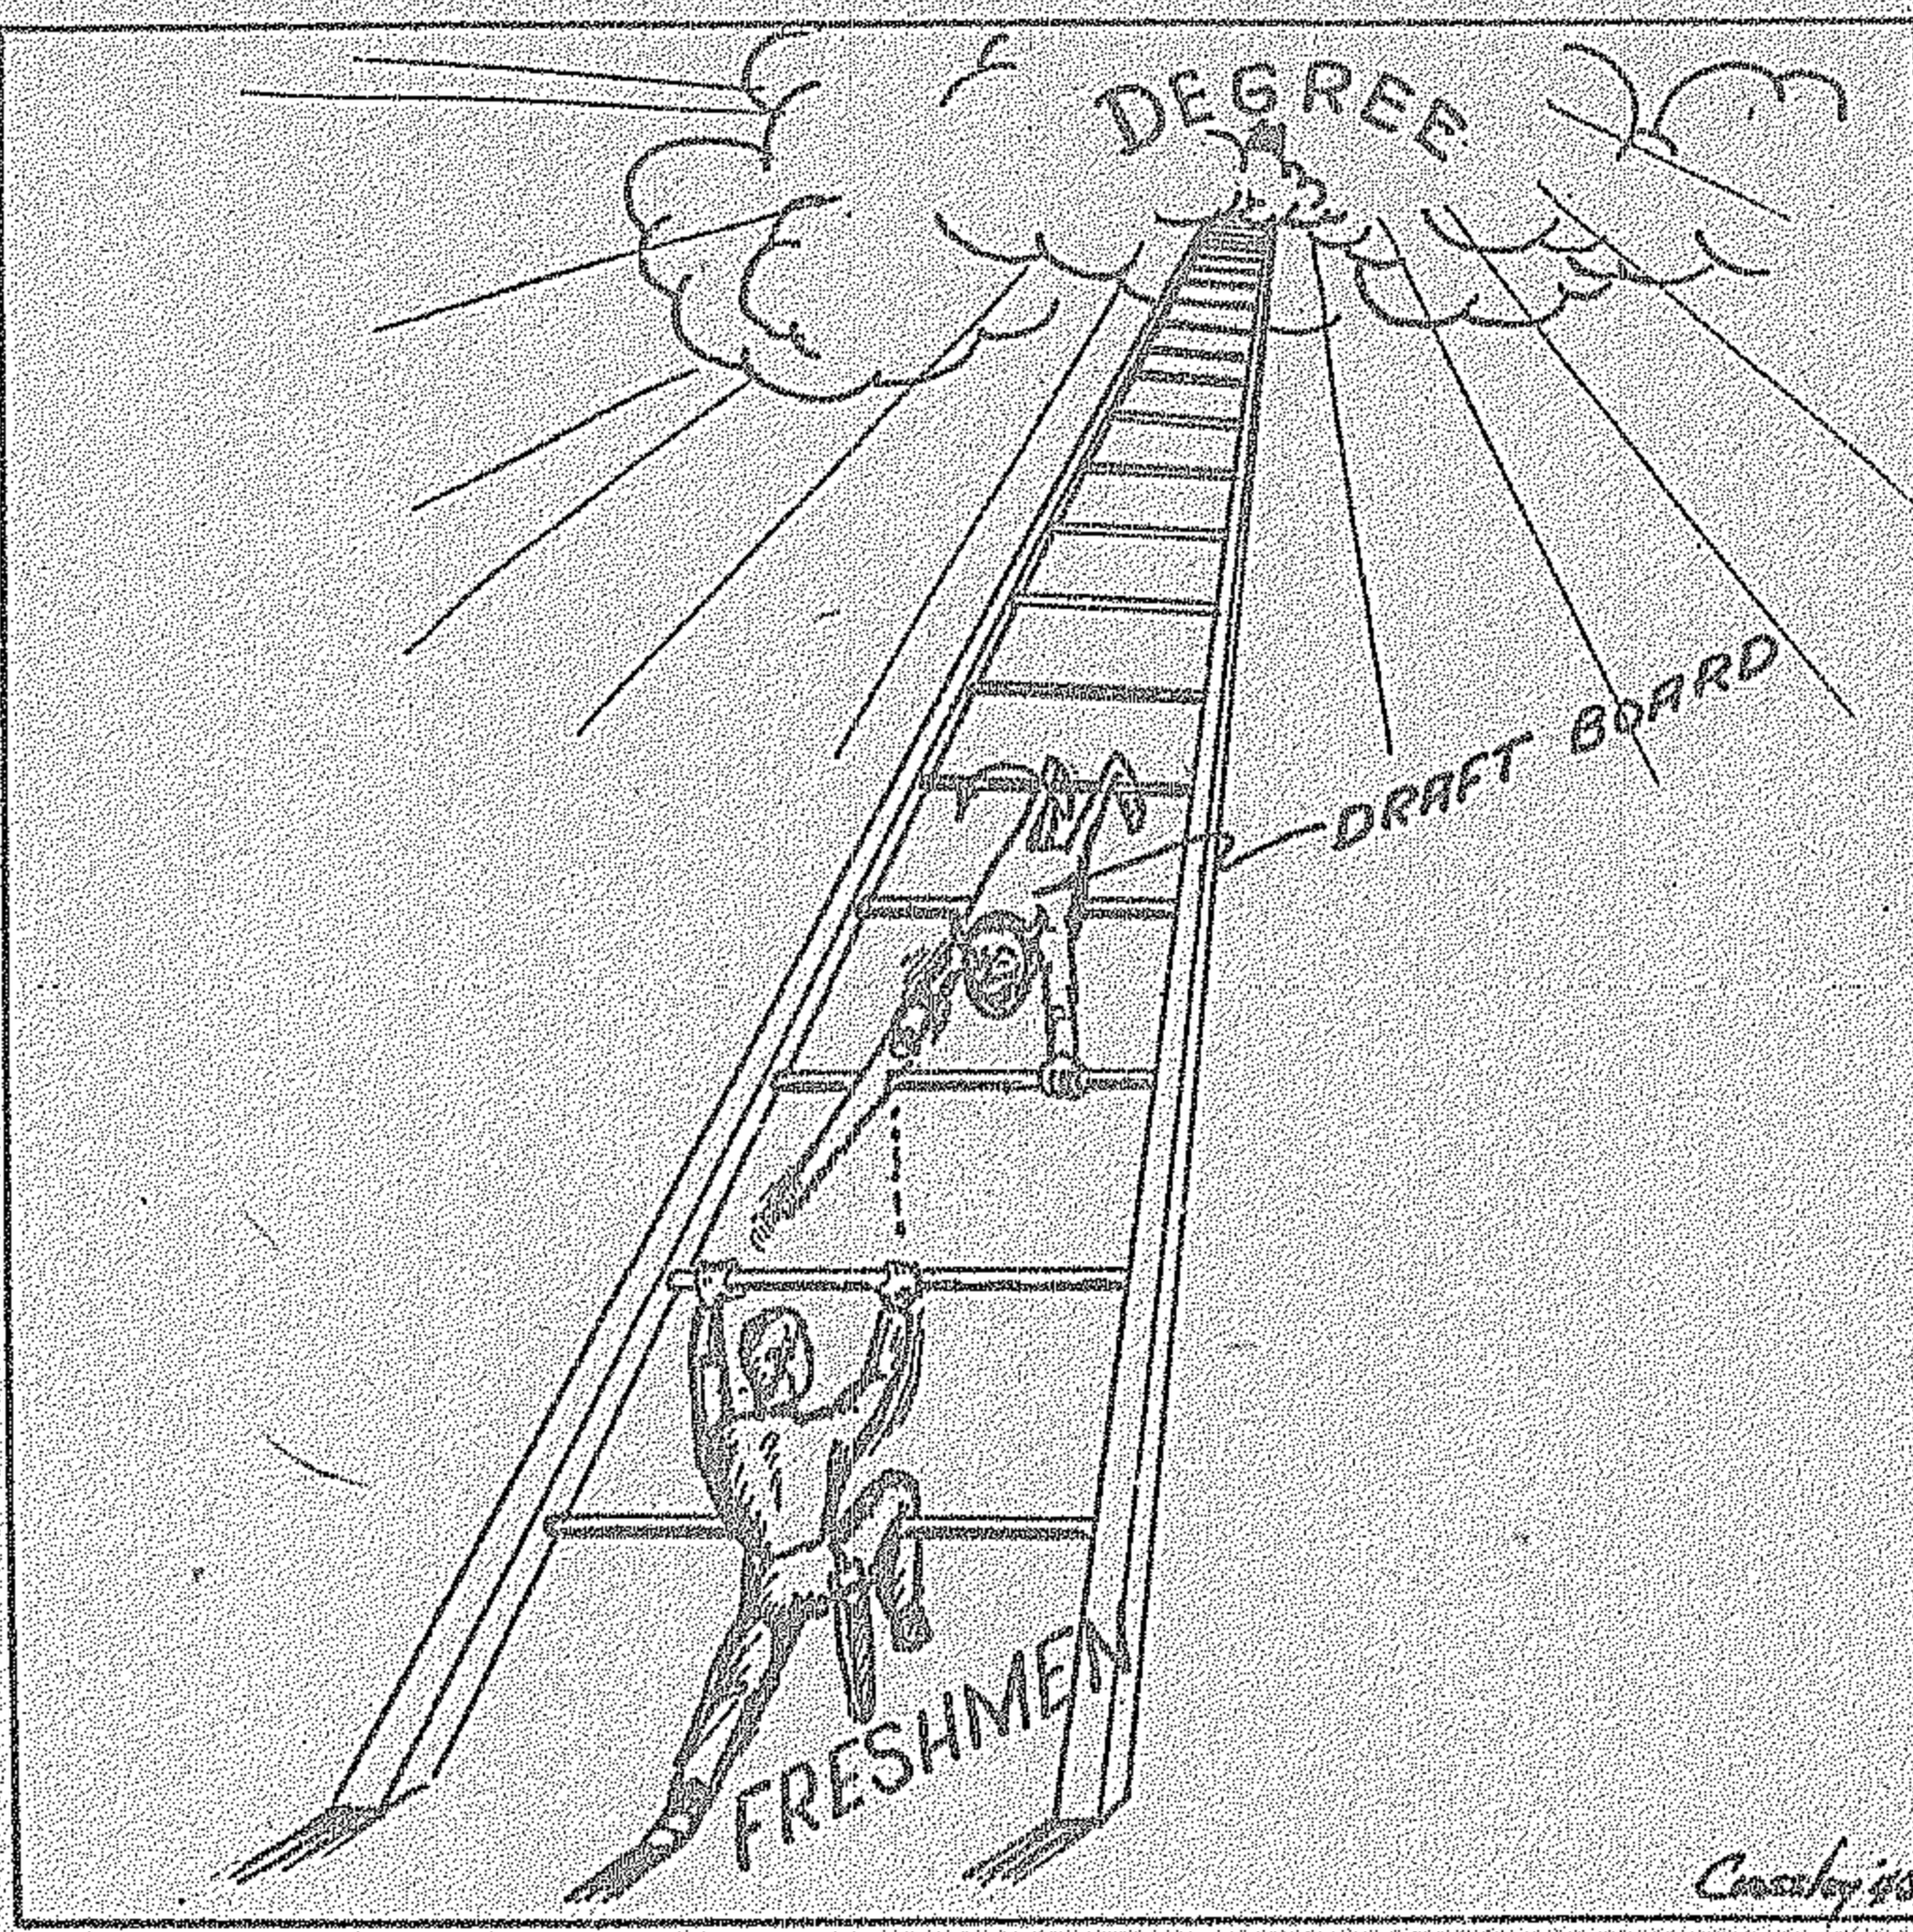

A/S Bob Thurston was elected president of Tau Beta Pi national honorary engineering fraternity at a banquet held last February.

Additional officers elected last Friday are Frank Crossley, vice-president; Robert Sodaro, cataloger; Don Albert, recording secretary; Jack Schmidt, correspondence secretary; and Dr. Myril B. Reed, treasurer.

Thurston, former correspondence secretary, was elected president at the banquet, following the public initiation of new members. At present there are 16 active members in the fraternity.

Ladder to Success

I wish to extend my worst feeling (just to prove that I am a bad boy) to the incoming freshmen and returning servicemen, and hope that it will not be very long before your names will be mud by its appearance in our beloved column.

The maintenance department has kept the shovel oiled during the between-the-semester lull so with a little more effort we will delve into the misdeeds of our students.

The title of the big dealer of Triangle Fraternity has passed from Willie Atchison to that soft spoken smoothie, Bob Ahlgren. Bob is out to bankrupt Isbells the hard way by beating the house at the 26 game. Fellow patrons marvel at his skill in making his point and large crowds gather 'round him when he steps up to the table. The real reason for his so called 'luck' is that Bob is on very friendly terms with the 26 girl and thus puts his point across most every time without any difficulty. He is a perfect example of the strong silent type and from our observations it really pays dividends.

The biggest surprise of the week concerns A/S Ray Olson. It seems that Ray has at last found his one and only. She happens to be a blue-eyed blonde-haired Swede that answers to the name of Miss Johnson. The cat was first let out of the bag when Ray, instead of taking notes, was caught staring into blank space with drowsy-dreamy eyes. But to top all things was when Ray was overheard arguing with himself about whether he should buy books with his money or take his, shall we say future, wife out on a spree.

If you have been wondering about that "Eager Beaver" look adorning the face of Gerald Schneider you may cease your guessing because here is the answer. Undoubtedly you have all heard about Gerry's girl, by the name of Minerva. It seems that she comes to stay at Gerry's house whenever his mother is out of town, so he decided that it was only his rightful duty to return the kindly gesture. Soooo—promptly at the culmination of final exams last term, Gerry hopped a train and was off to spend a short vacation devoted to the improvement of his loving technique. Minerva, as you see, lives in Indianapolis. (Why go all the way there to get some loving, Gerald?) We do not know all the inside information but apparently he had a good time with his mistress. The way we heard it she promised to come up to Chicago in a few weeks if Gerry is a good little boy and studied hard. That, my fellow students, accounts for the "Eager Beaver" expression.

Max Goldberg was seen coming out of the Band Box last Saturday night about 11:45 in order to get out before the curfew caught up with him. There was a beautiful girl on his left arm and they seemed to be in a hurry to get somewhere. Since all places of amusement supposedly close at 12:00, why was he seen coming home at 8:00 the next morning with that tired out look?

Has every-one noticed the latest contenders for the title of Romeo and Juliet of the Armour campus? They are Ruby 'Lips' Lemke and Bob 'Lips' Too'. "Hi, Dear!" said 'Lips'. "Hi, Sweetheart!" seated at the switchboard when in walked 'Lips' Too'. "Hi, Dear!" said 'Lips'. "Hi, Sweetheart!" went 'Lips' Too'. 'Lips' asked 'Lips' Too' to get her some ink from the second drawer and a cigarette (from his pack, naturally.) "Light it for me," said 'Lips'. "Yes, dear," said 'Lips' Too', "now I'll have to be going." Such domesticity! Which would you rather be—'Lips' (Too)?

Why is it that Sheldon "Sonny Boy" Shreiber refuses to date the same female twice? He claims they would lower his morals and corrupt his ideals if he would be so good as to escort them out for a second time. However, we think there is something more behind this. Could it be that the girls fear they will endanger their reputations by stepping out with Armour's lover, "Sonny Boy"? It has also been rumored about that he has been unable to get a date since escorting his "model" to the Snowball.

A/S Paul (P. P.) Martin, the little Romeo from way back, finally accomplished a life-long ambition. He inaugurated a new style of making love in a parked car. Anyone desiring to learn the "Martin Method" may contact Paul and for a slight sum, they may be enlightened. But still, all is not well that ends well, for P. P. A few days after he returned from leave a grandmother telling him to leave her daughter alone. It's all confusing; maybe you can figure it out, Martin can't.

That's about all for the first issue but if I missed you this time I'll get you.

Ordeal of Registration

Registration for classes this term was as bewildering and chaotic as ever as Illinois Tech's Registrar and his staff continued along their usual merry way with apparently no thought toward the improvement of their extremely inefficient methods.

Apart from the usual long lines, voluminous forms, and endless other "red tape" there were several glaring faults which stood out. Probably the most prominent was the revised electrical engineering program. This one item alone made it necessary for every EE student to remake his entire program and for everyone taking an EE course to secure a signature of a department member. The proverbial straw that injured the equally proverbial camel came when the "revised" program was again revised.

Freshmen, totally new to the Illinois Tech "system", were allowed to wander about absolutely bewildered. It should have been a relatively simple matter to mimeograph a "registration day program" for these unfortunate individuals. In fact, there wasn't a student who survived the ordeal who would not have welcomed such an aid, seniors included.

We cannot help but question the interest of certain members of the Illinois Tech staff in the opinion and welfare of the student body when they habitually allow such deplorable conditions to continue. If the present system of registration is not "improvable", perhaps a complete scraping of it is in order.

Navy Chow

It seems that the navy chow affair again has its difficulties. This time it is the congestion of sailors in the lobby of the Student Union waiting for chow to be served between the hour of 12:30 to 1:00. One realizes this situation if he tries to walk through the lobby when navy chow is being served. Yet, between the hour of 1:00 to 1:30 very few sailors go to chow. The fault cannot be placed on those who eat earlier since most of them have one o'clock classes. However, if one would check the class schedule he would notice that very few classes were scheduled for twelve o'clock. Because of this, navy and civilians alike must suffer the inconvenience.

A possibility of eliminating this situation would be by moving navy chow up 15 minutes; thus chow then would be served from 12:15 to 1:15. In this way the terrible confusion that now takes place would be partially remedied. If the navy chow time was moved up 15 minutes that would mean the civilians would be cheated of their lunch time. However, this again could be eliminated by giving them a table in the cafeteria aside from the navy. Or a detail be assigned to sell food to them in the auditorium as was done a few semesters ago.

Man Of The Week

Wide Interests of Crossley  
Cover Art, Music, and Science

Frank A. Crossley is a rare combination of scientist and artist. He will be one of the top graduates in June with a degree in chemical engineering at the same time he continues private study in oil painting.

The artist in Frank appeared at the age of six; almost as soon as he could hold a pencil. It was further developed by two scholarships to the Art Institute during his last semester of grade school and first semester of high school. At present he is studying privately with Dr. Friedrich-Karl Richter, assistant professor of German here at IIT. The cartoon at the top of this page is small evidence of Frank's ability.

He talks familiarly of great painters and discusses their faults and virtues with authority. He sighted Arabian Girl by John Sergeant as the best of any he'd seen.

His interest in the esthetic world is not confined merely to art but extends to music and drama as well. George Gershwin with his "Rhapsody in Blue" heads the list of Frank's favorite moderns with Dukauf's sorcerer's Apprentice at the top of the classical column. On the screen he prefers Ingrid Bergman, Spencer Tracy, and Lena Horne, and on the recent Chicago stage he has seen Gershwin's Porgy and Bess and Katherine Dunham's

"Tropical Revue". (And it must have been the artist in him that made him remember Miss Dunham as having a beautiful figure!)

Frank entered IIT as a civilian in September of 1942 and became a navy student in March 1944. Although he was originally a co-op student he never took advantage of the system but has been in school continually since his first enrollment.

Last semester he was initiated into Tau Beta Pi with a 2.3 average and into the Chicago chapter of Alpha Phi Alpha social fraternity. He has been cartoonist for Technology News for two semesters, is a member of the Rifle Club (a little on the inactive side at present, he added) and a Junior marshal.

He attended DuSable High School where he was president of the senior class, commander of the ROTC unit, and a major in the ROTC city brigade staff. He was also a member of the school's rifle team.

Frank was 20 last Feb. 19. He was born and still lives in Chicago and has an older brother in the army and a younger sister who just graduated from high school. Frank claims he has no romantic interests and guesses he's just not interested in women!

—TRENT KNEPPER

... Techman Talking

Philip C. Huntly, Director of Civil Engineering Department

One score plus one-half score plus one year ago there was a rumor that there was an opening in the Mechanics Department at Armour Institute. A trip was made to 3300 Federal Street and to my luck the head of the department was out of the city. I found, however, an opening in the Mechanical Engineering Department for an instructor in experimental engineering. I applied and after exhaustive questioning was told I would be given a try. School began September 10, 1914, and I thought I would stay not over two years. However, due to the location, atmosphere, student body, kind of work and co-workers, everything was so agreeable that I am now finishing my thirty-first year.

I have never regretted coming and staying at Armour. The friends I have made here will always be remembered as my best. The student body has had many turnovers in that time but only in names, for the students are about the same, only slightly younger. Methods of teaching have changed somewhat and we can hope for the better. The faculty changes have been many, especially in the past ten years. I have found the graduates from Armour as good as from any other school and better than from most schools. The help they are giving the Institute at the present time speaks well for their loyalty. During the past thirty years the buildings have changed very little, but the outlook is so improved that I am sure when the war is over the school will go forward faster than ever before and be the top school of the country.

# COMPASS COMMENTS

## LETTER OF THE WEEK: Lt. Blake Suggests

It has been observed that there has been some laxity on the part of the navy men to maintain the standards of military bearing and courtesy that should be observed in this activity.

# A Look At Alumni

Just to prove that IIT engineers are a versatile bunch, Harry J. Heidreich, former chem, was recently commissioned a second lieutenant in the Medical Administrative Corps. Previous to his commission Harry had been a flying cadet for the navy.

From Ensign Bob Kidd comes the following: "I arrived aboard the USS Porter on December first and took up the job of assistant engineering officer. You can tell Professor Budenholzer that I finally ended up in his 'heat power' engineering, and I think it's 'great.' Incidentally Bob has participated in raids bringing him as close as 460 miles from the coast of Japan.

R. M. Levy, who received his doctor's degree at IIT, is now working with the man who "built a better mouse trap." Levy is employed by Harry H. Straus, president of Ecusta Paper Corporation. Straus recently came to this country from Europe and brought with him a method for making cigarette paper. All of this paper was formerly imported from Europe. What a wonderful discovery for a "fag-starved" nation.

Someone for IIT to be proud of is Lt. Raymond G. Kroker. Ray, who has been in the service 27 months, spent the past 7 months in the India theatre as a navigator-bombardier with the famed "Bridgebusters" of the Tenth Air Force's 490th Bombardment Squadron. He is credited with 51 missions and 225 hours of combat flying time. He was personally cited by Major General Davidson for some of his outstanding missions.

Jim Oldshue, former sports editor of Technology News and now in the army visited IIT on his furlough last week. Jim is stationed at Pennsylvania State College and is studying mechanical engineering in the ASTR program.

—EDWARD SHORE

# THIS COLLEGIATE WORLD

While the Commercial American press claims to be entirely free and uncensored yet the academic American press is currently being disturbed by grave rumblings which pretend either a growing desire by students for a truly free college newspaper or else a growing antagonism on the part of college faculties towards such academic freedom.

Recently, at William and Mary College, an editor was suspended from classes and publication of the campus newspaper was discontinued by order of the college authorities due to the editorial advocacy of complete racial equality on the campus grounds. Whether or not one agrees with such a policy, and this writer does, the fact that a student who had been trustworthy enough to be chosen editor of the college paper was so stifled in her honest expression of opinion is sufficient cause to alarm liberal thinking people.

Meanwhile, at Boston University 17 members of the editorial staff of the Boston University News resigned en masse in protest to, amongst other things, "unreasonable censorship before publication." Maybe these students don't like "unreasonable censorship, period!"

Returning to the more pleasant side of life, I have found a beautiful example of contradiction in the Central YMCA News. We lifted the above two jokes (referring to their joke column, OUCH) from IIT's Technology News, whose sense of humor we deplore, but whose jokes we enjoy. Make up your mind, fellas!

Another college group which appreciates Slipstick are the girls in Lakelawn dormitory at the University of Wisconsin. IIT's Herb Schoen, senior civil, sent his girl Lorraine a copy of the newspaper, and the girls are now ardent subscribers to it.

—EDWARD SHORE

# IIT Inquiring reporter

## QUESTION:

Have you any effective suggestions for eliminating the underclassmen from the elevator?

A/S WALTER E. BREISCH, Junior Chemical: I have not thought much about the elimination of underclassmen from the elevator. Namely, I guess, because I cannot tell an underclassman from an upperclassman. An underclass-

man, who has been caught on the elevator or who is known by quite a few students to be a freshie or soph, will most always walk. Therefore, if the rule is to be enforced I think the underclassmen should be provided with some sort of identification.

CARRIE BUTLER, Junior Chem.: Freshmen and sophomores should be eliminated from using the elevator by the usual showers. I think that this is about the best and most effective method. I also think that this method of elimination should be used for women students as well as the fellows.

DAVID MEYERS, Senior Aero: An appeal might be made to their "better natures" (it says here in very small print at the bottom of the page), or the grounds that the present juniors seniors theoretically had to walk; but to believe that this would work is just wishful thinking. The great difficulty is in not always being able to tell a freshie, and this could be solved only by enforcing the "green beanie" for freshmen law.

LEONARD H. JATCZAK, Senior Mechanical: We could make public, at senior and junior class meetings, the times at which the freshman have drawing or physical education. Then one or two of the upperclassmen having a free hour, ride with the elevator during the ten minutes before class. If any frosh or soph get on merely tell Al (elevator operator) to keep the gate closed. As you pass the library or chem. eng. lab. hollar "Freshmen on the elevator." Invariably, this will bring sufficient aid to convince the offender.

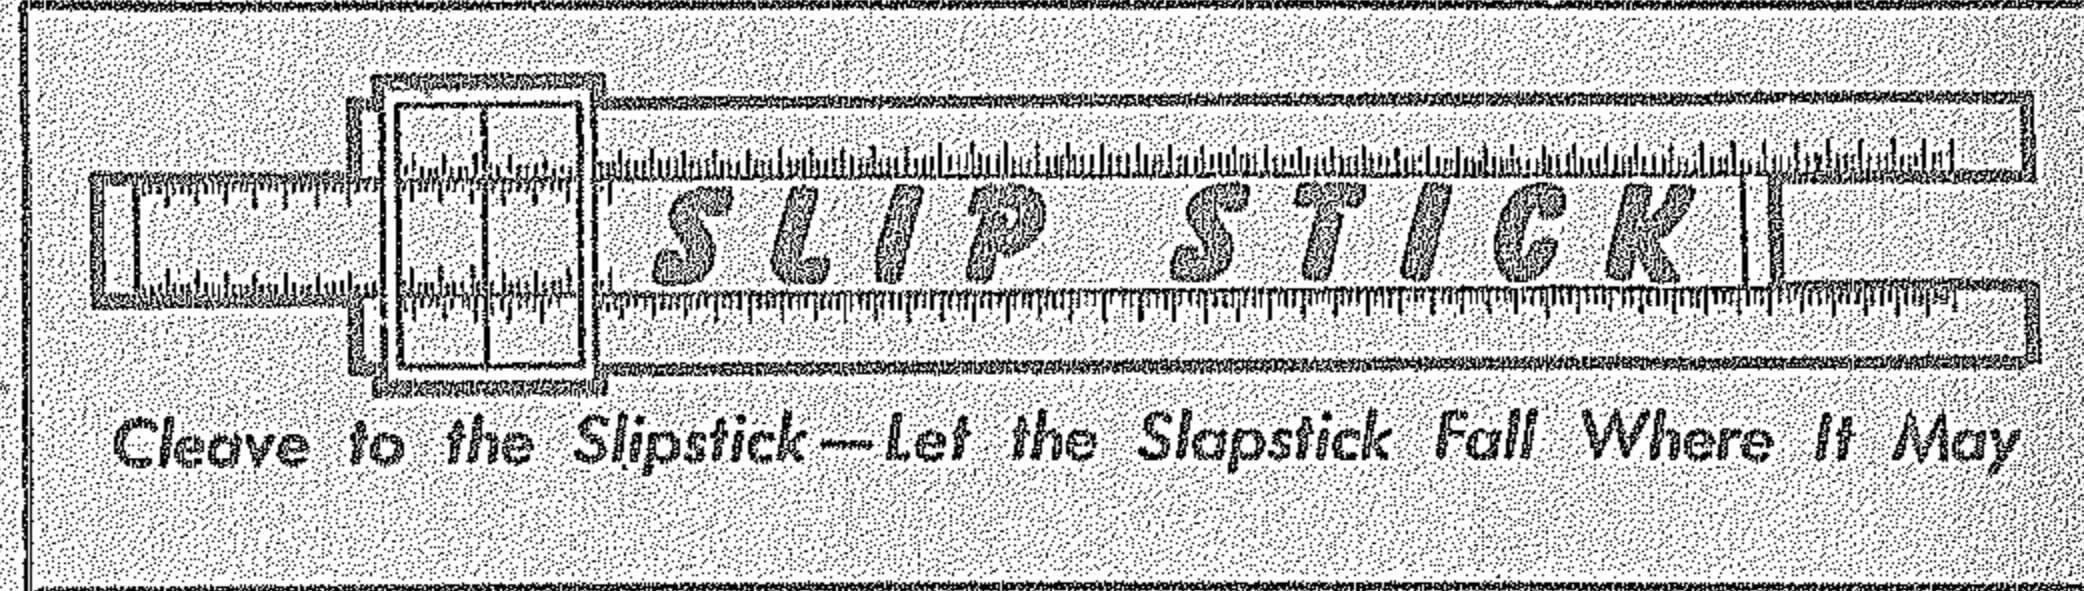

JACK McCLOW, Senior Mechanical: The fact that underclassmen are riding the elevator is a challenge. Aren't the present Juniors and Seniors strong enough to stop it by the old method of dunking in the showers? A few dripping freshmen will soon discourage the rest from their lazy habits.

—LEONARD BROWN

# NAME'S NOTE

RICHARD AXELROOD, sophomore electrical, is a graduate of Western Military Academy where he was chosen the cadet most likely to become a general... CARL FLYNN, sophomore electrical, is a grandfather... LEONARD REIFFEL, sophomore electrical, has invented thirty-three different radio improvements; four of which are now in Washington being considered for patents... HELEN STEVENS of the Language and Literature Department is a founder of Pi Lambda Theta, national honorary fraternity of education... A/S JOHN CHRISTENSEN placed in several bicycle meets in Salt Lake City... MILAN VOYVODICK's father is in the service of the Yugoslavian state department here in Chicago.

Well it's spring again and the young man's fancy lightly turns to the same thing he's been thinking about all winter.

It's hard to say which is the most interesting; what an experienced packer puts into a suitcase; what a traveling salesman puts into his expense account; or what a chorus girl puts into her trunks.

Murray: Do you care for dancing, Gloria?  
Gloria: No!  
Murray: Why not?  
Gloria: It's merely hugging set to music.  
Murray: Well, what is there about it that you don't like?  
Gloria: The music.

Fashion Note:—They're wearing the same thing in brassieres this year.

Listen, birds, These signs cost Money—  
So roost a while, but Don't get funny.  
Burma-Shave.  
Student: It has been proven that opposites attract each other.  
Prof: Give us an example.  
Student: Tight men and loose women.

The morning after  
The night before,  
Our cat came home  
At the hour of four.  
The innocent look  
In her eyes had went,  
But the smile on her face  
Was a smile of content.

Gob: Is your ice cream pure?  
Waitress: As pure as the girl of your dreams.  
Gob: Give me a ham sandwich.

"When is the Fuller Brush man gonna play pool with pa?"  
"Willie, that's a foolish question."  
"Well, didn't you tell him this afternoon you'd give him his cue when you saw pa coming?"

Bellhop: I just saved a life.  
Clerk: Give me the particulars.

Bellhop: Well, the lady in 301 fainted and I dragged her out.

A modest girl never pursues a man. Nor does a mousetrap pursue a mouse.

"Madam, I'm representing the Goat Mountain Wool Company—would you be interested in some coarse yarns."  
"Sure, go ahead, let's hear a couple."

Chemistry Professor: What is the outstanding contribution chemistry has made to the world?  
Student: Blondes.

A/S: Do you think they will send me overseas, C.O.?  
C.O.: Not unless we are invaded.

# Illinois Tech Vets

Burnham Peters

Holding the Purple Heart and a Presidential Unit Citation Burnham L. Peters is majoring in Electrical Engineering at IIT.

Pete, as he is called by his buddies, was recently discharged from an Army hospital after serving with the infantry for four and a half years. At the time of his discharge Pete held the rank of a first lieutenant.

On July 8, 1940 Pete enlisted and although it was some time ago the exact date is firmly imprinted on his memory. Prior to his enlistment Pete had completed two years of rural education at Eau Claire State Teachers College.

Going from Camp Beuregard, La. to Fort Devers, Mass. Pete was consecutively promoted from a corporal to a Sergeant. After travelling clear across the country to Ford Ord, California he was shipped to Australia.

It was during this period that Pete attained what military leaders term the most difficult achievement of any enlisted man. He was commissioned a second lieutenant on the line. That is he did not have to attend the usual special school but was promoted on the spot for his individual merit and initiative.

From Australia Pete's outfit was flown to New Guinea. Here Pete was in charge of a rifle platoon and he soon led his men in combat. It was the Buna push when the Japs were steadily pressed back in 42 days of grueling mountain fighting.

Maybe combat seems the roughest where you are but Pete likes to point out that besides the Japs and the mountains you could not overlook the jungle marshes that were infested with the dread Malaria disease.

Before Pete was promoted to a first Lieutenant a Jap sniper's bullet came crashing through his left eye. He was evacuated to Brisbane and then back to the States where an incision has to be made below Pete's ear in order to remove the lodged bullet.

Pete Possesses four service ribbons that he gained while he was in service. Besides the Purple Heart and the Presidential Unit Citation, Pete also holds the PresidentialN Pete also holds the Pre-Pearl Harbor bar and the Asiatic-Pacific ribbon with one battle star for the action he saw in New Guinea.

His impression of Illinois Tech is a good one and he plans to become active in extra curricular activities.

—JACOB KRAMER

# IIT Wins CCC Medley Relay

## Tankers Place Second In Team Competition

An abbreviated 5-man swimming squad, handicapped by the loss of two of its stars, emerged victorious in the medley relay in the Central Collegiate Conference meet, March 11.

Those men making the trip to Michigan State were Coach Weissman, Mgr., A/S Don Helbing, A/S Jos Hardman, Dick Axelrod, Pete Douzvardis, A/S Johnny Makiel-ski and A/S Bernard Brille. The loss of Capt. Tom Lechner and Whitney Pearson was sorely felt.

Joe Hardman who has suffered but one defeat all season, came through once more with a first place in the 200 yd. breast stroke while Bern Brille took a 5th in the same event. Dick Axelrod placed second in 150 yd. back stroke.

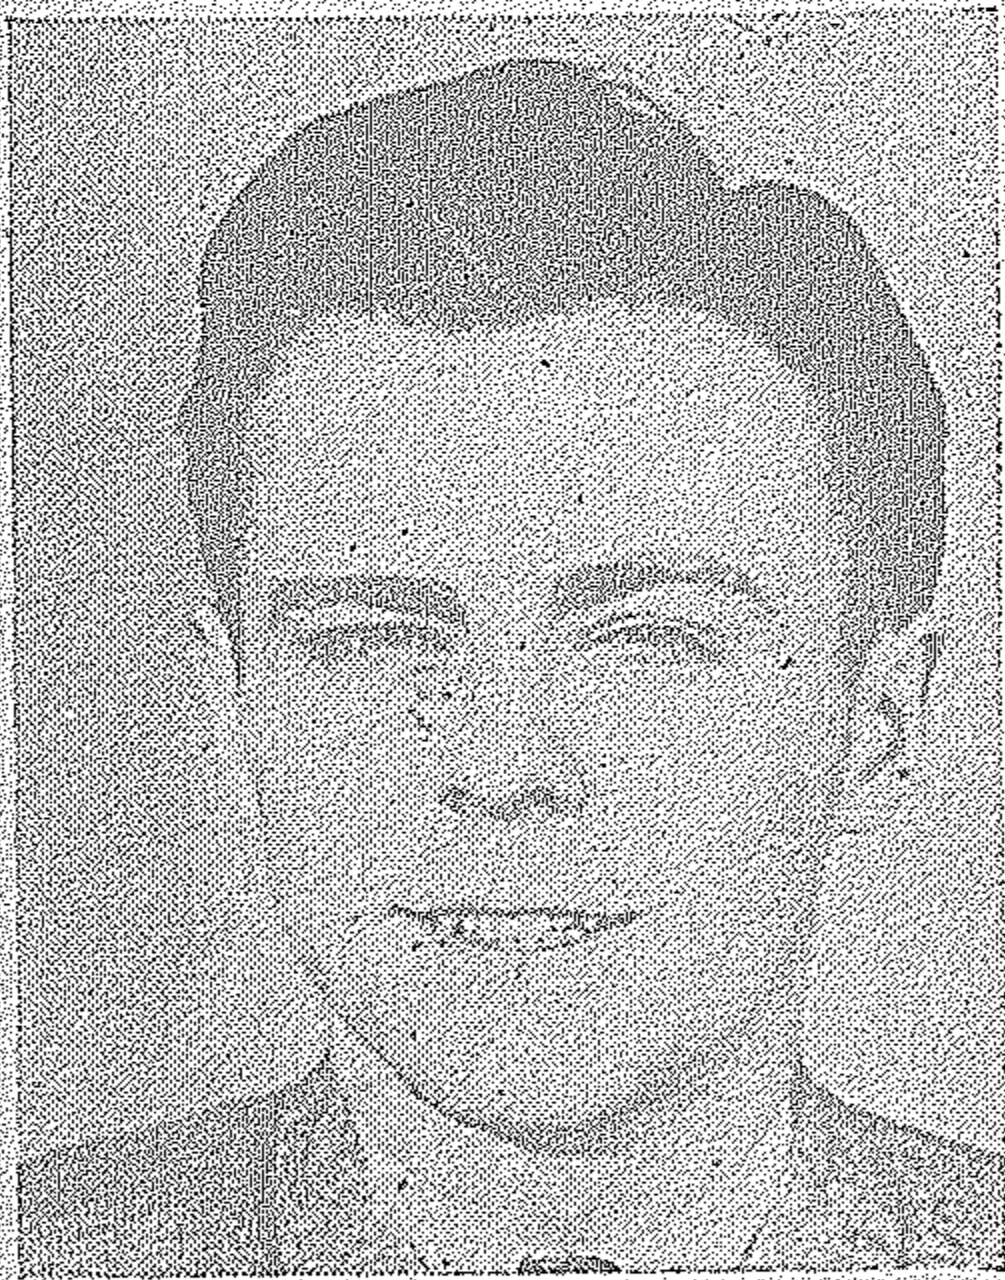

Always a smooth performer, John Makiel-ski took a 2nd in diving, a 3rd in 50 yd. free style and 5th in 100 yd. free style. The relay team composed of Axelrod, Brille, Douzvardis and Hardman placed second.

The "45" tank squad finished the season with two wins and three losses. The two wins were at the expense of Lawrence College while the losses were incurred at Illinois, Iowa and Northwestern.

# Norman Schmitz to Succeed Hank Koci As New IM Manager

Norman Schmitz, Senior Chemical, has been named to succeed Henry Koci as the manager of intra-mural sports for the next term. Schmitz has appointed Hank Pye as his assistant.

As a V-12 student and then as a civilian, Norm has always been interested in intra-mural activities. Schmitz won his major letter playing third base and shortstop for the varsity baseball squad.

NORMAN SCHMITZ

He is president of Honor I, an organization for the men who have won major athletic awards representing Illinois Tech in inter-collegiate competition. He will manage the Tech-hawk baseball team this season.

When Norm learned of his appointment as manager he set to work immediately to hold the ping-pong tournament which failed to be run off last term. Plans have also been made to begin play in the annual intra-mural soft-ball tournament this term instead of next. Further information will be published in Technology News.

# Games Will Be Available To Students Next Term

Director of the Student Union, Bernard Weissman, stated that beginning next term ping-pong paddles, chess sets and checker games will be available for the students' use. Ping-pong balls will also be purchased by Weissman and if returned after being used, the limited number bought will be sufficient to last for the semester. The various games will probably be kept in the Student Union bookstore.

# 1944-45 Illinois Tech Basketball Team

TEAM MEMBERS—This is the 1944-45 IIT basketball team shown above. They are: First Row (left to right): Bob Kasnika, A/S Bill Windham, A/S Sol Rosenthal, A/S Byron Fanselow, A/S Norm Hankins. Second Row: A/S Dennis O'Geary, A/S Ned Grable, A/S Tom Kilgariff, Captain, Ed Wagner, Coach, A/S Charles Buckley, and A/S Gene Evers. Third Row: A/S Len Vogt, manager, A/S Fred Leydig, A/S Howard Poulter, Hank Koci, A/S Pete Browning, and Leonard Brown, manager.

# Major Awards Made to Fifteen Members of Record-Breaking IIT Basketball Team

Upon completion of their season, it was announced by John J. Shommer, director of athletics, that fifteen members of the record-breaking 1944-45 Illinois Tech basketball team were awarded major letters.

Climaxing their accomplishments was the new record of 17 games won in a season. Despite a bad beginning in losing 5 games in 9 starts, the Techawks rallied to rack up 13 straight victories to break the old record of 16 wins in one season set by last year's highly successful team.

The only team to decisively defeat the Tech quintet was DePaul University, one of the nation's first rate teams. In addition to the two losses to DePaul were splits with Glenview, University of Chicago, and 87th Street Navy.

Major awards were made to the following men: Captain Tom Kilgariff, A/S Norm Hankins, A/S Ned Grable, A/S Pete Browning, Hank Koci, A/S Charles Buckley, A/S Gene Evers, A/S Fred Leydig, A/S Howard Poulter, A/S Byron Fanselow, Bob Kasnicka, A/S Sol Rosenthal, A/S Dennis O'Geary, and managers Leonard Brown and A/S Len Vogt.

A final tabulation of individual statistics reveals sharpshooter A/S Norm Hankins as leading scorer with a season total of 228 points. Having missed two of the seasons 22 games through injuries and otherwise, his points-per-game average stands at 11.4 markers.

Running a close second with a 216 point is A/S Ned "Cannonball" Grable. It was this pair of Hoosiers who were mainly responsible for this year's successful season. Many a game was won through their harrasing of the opponents guards which resulted in their inability to effectively attack.

Best free-throw average was made by A/S Gene Evers with a phenomenal .769 average. Next in line was A/S Charles Buckley with a .667 average. These two men also tied for fourth place in scoring with a 104 point total.

### INDIVIDUAL PLAYERS RECORD

	G	FT	FTM	P	T
HANKINS	1101	26	27	26	228
GRABLE	86	44	35	39	216
KILGARIFF	63	36	21	39	162
BUCKLEY	46	12	6	15	104
BROWNING	33	15	24	46	81
LEYDIG	30	3	6	32	63
KOCI	21	18	10	27	60
POULTER	14	5	8	7	33
FANSELOW	11	9	5	14	31
O'GEARY	12	5	2	7	29
ROSENTHAL	11	2	5	10	24
KASNICKA	8	4	3	25	20

# First Call Wed. For Baseball

A meeting of all those interested in trying out for the varsity baseball team is to be held Wednesday afternoon in the Auditorium of the Student Union at 5 p.m., stated Bernard "Sonny" Weissman, baseball coach.

As yet no definite word has been made on whether there is to be two separate seasons, a spring and summer schedule, or one big schedule entailing both seasons.

Last year the baseball team had two separate seasons. In the spring season the team won 4, lost 4 and tied 1.

After this regular season was completed, an interested group under coach "Sonny" Weissman started a summer schedule. They then won 4 more games, lost 2 and tied 1. This gave them a years total of 8 wins, 6 losses, and 2 ties for a .571 average.

# Tennis Team Meeting To Be Held Thursday

A meeting of those interested in forming a tennis team is to be held Thursday afternoon at 5 p.m. in the Student Union Auditorium.

This announcement was made by A/S Bill Cannon who has so far been handling the business of the forthcoming team.

# Honor I to Discuss New Memberships

In a meeting of Honor I, honorary lettermen fraternity, to be held in Bernard Weissman's office Tuesday evening at 5:00 p.m., the matter of new memberships into the group will be discussed, announced President Norm Schmitz.

Twice a year this subject is brought up and discussed. Although navy men earn their major award, it is relatively few who are chosen to enter Honor I.

The basic for the selection is team spirit, value to team, and general personality. Of course before any of these things are taken into consideration, the minimum requirement of a major award must be filled.

The present active memberships includes Schmitz, Don Albert, secretary-treasurer, A/S Norm Hankins, A/S Tom Kilgariff, A/S Roy Churan, A/S Vic Mieczowski, A/S Roy Schimmelpfennig, A/S Bob Lichtman, A/S Willie Burns, and A/S Whitney Pearson.

# TECH SHORTS by TOM KILGARIFF

The much planned hockey game between University of Michigan and Illinois Tech has been called off for several reasons. The main one is that Michigan lost a good number of their players at the end of last term and are not able to continue for this reason.

At the same time the present "heat wave" doesn't allow for outside ice rinks, so again the team will fall back on their Wednesday night sessions at the Arena for their only practice of the week. There is again in the offing another tentative game with the Hornets which may be played off this Wednesday night if arrangements can be made.

Although earlier having defeated all the teams in the intra-mural basketball tournament, the Senior Chems were required by the technicalities of the tourney to play the remaining teams over again. This they did in style, eventually knocking off in their final game their closest rivals, the Senior Mechs.

The score of this final game was Senior Chems 35, Senior Mechs 26. The halftime score showed this nine point advantage in favor of the Chems at 19-10. The Senior Chems were the outstanding team of the tourney, going through the entire schedule undefeated with no one team presenting too great an obstacle.

Having discovered some fencing equipment in one of the gear lockers in the gym, man-about-the-campus, Len Brown, is attempting to organize a fencing team. All those interested in organizing such a team should make it a point to attend a meeting of prospective fencers in room 102 chapin on Tuesday afternoon at 5 p.m.

# Thinclads Win 65-39 Victory

## Big Meet at Naperville To Put Team to Test

The Illinois Tech track team opened their 1945 season by scoring an impressive 65-39 victory over North Central College in a dual meet March 10. The Techawks, lacking a pole vaulter, spotted the Naperville aggregation 9 points but soon overcame this handicap.

A/S Dick Thomas garnered ten of the Tech points while A/S Arnie Neimi tallied eight. The remainder of the points were divided among the other members of the squad.

The results of this meet enabled Coach Roy McCauley to determine the potentialities of this year's team. Although optimism ran high after the meet, McCauley warns that a lot of hard work remains to whip the team into shape. "Mac's" chief worry right now is to find a pole vaulter. He urges any student with any previous experience to try out for this department.

### Second Meet Saturday

Striving to duplicate their initial win, the Illinois Tech track team will journey to Naperville, Illinois Saturday to participate in the North Central Invitational Track Meet. At this time seventeen teams are scheduled to compete.

This meet will gauge the Techmen's ability on the oval. McCauley's men are familiar with the track and they should make an impressive showing this week-end.

Along with Illinois Tech the following teams will compete in the tourney: Illinois Wesleyan, Bradley Tech, Wheaton, Concordia, Morton Jr. College, Augustana, Monmouth, Northern Illinois State Teachers College, Elmhurst, Milwaukee State Teachers, Lawrence, Carroll, Beloit, Ripon, and the University of Chicago.

A trophy will be awarded to the winning team. Scoring will be on the 5-4-3-2-1 basis with first place getting 5 points and so on. Individual medals will be awarded to the winners if enough teams enter the meet.

# Tech Golfers Card Four Major Meets

Manager, Leonard Baness of the golf team has announced that four definite matches have been scheduled for the coming season. Some of the returning men of last year's squad are Bill Atchison, A/S Bob Negele, A/S Fred Fitchey, A/S Ken Milbradt, Wagner Larson and Leonard Baness.

All students are invited to try out for the team and should get in contact with Coach Bibb at Lewis or Len Baness at Armour. So as not to discourage prospective challengers, all positions on the team are open and only through competition will the squad members be chosen.

Matches with Northwestern, and Lawrence are scheduled but the Bradley Tech, Western Michigan dates are as yet tentative.

# Ping-Pong Tournament To Be Held This Week

The ping pong tournament will be held sometime this week, Norman Schmitz, intramural manager announced. Many entrees were submitted.

Softball, tennis, swimming golf and horseshoe tournaments will be held this semester. More information will be available in next weeks Tech News. Schmitz said he hoped that civilian and Navy students would co-operate and take part in these affairs.

Baseballs, bats, and footballs are available in Mr. Weissman's office to be used during the students free time. Equipment is hard to replace, therefore everyone is urged to return it promptly after using.

## Heald Announces New Grant of \$15,000 from Ohmite Company

Dr. Henry T. Heald, president of Illinois Institute of Technology, today announced an initial grant of \$15,000 from the Ohmite Manufacturing Company to be used for the establishment of a laboratory for the precision measurement of electrical and magnetic quantities.

The gift, came through David T. Siegel, president of Ohmite Manufacturing company and a trustee of Illinois Tech. It represents the initial contribution for equipping what will be known as the Ohmite Laboratory for Precision Measurements. It will be constantly expanded as new equipment becomes available.

The laboratory's ultimate goal is to provide precision electrical measurements for the Chicago area approaching in accuracy those of the Bureau of Standards in Washington, D.C.

Working through the Armour Research Foundation, industries in the vicinity will have an opportunity to use the laboratory's facilities. This will be the first such laboratory in the Chicago area to make its services available to industry. As such, the establishment of this laboratory is a definite contribution to the scientific and research facilities of the area.

In addition, the laboratory represents an important addition to Illinois Tech's electrical engineering equipment, by means of which graduate students can be trained in precision electrical measurements. It will further provide standards for research work carried on at the Foundation.

The laboratory itself will be located at the Armour Research Foundation of Illinois Institute of Technology and will be developed under the direction of Prof. E. H. Schulz, supervisor of electrical engineering laboratories, and L. W. Matsch, supervisor of electrical engineering in the Armour Research Foundation.

## Fraternities & Sororities

### Initiate New Member Of Lambda Sorority

The Sigma Omicron Lambda sorority informally initiated Claire Brinkerhoff, Friday, March 2, at the home of Cherryll Benes. A pajama party followed the initiation. The following Sunday Claire was formally initiated, and the two graduates, Cherryll Benes and Mildred Zanis, were given corsages and pledge pins.

A few weeks ago, the Lambdas gave a hayride and party for the Eta Kappa Nu fraternity. Because the evening was cold, the hayride was cut short, and the remainder of the evening was spent, dancing, at Helen Gordon's home.

### Four Men Initiated By Alpha Sigma Phi

Alpha Sigma Phi has initiated four men into the fraternity, announced Norman Schmitz, president. They are: A/S Roy Golz, A/S Bill Wilt, Bill Zechel, and Bob Czeropki.

Also announced are the names of pledges who are: Chuck Smith, John Buttney, John Cordes, Dick Roloffs, Frank Groman, Wayne Johnson, George Schultz, Mair Brown, Bob Buchanan, Otto Salava, A/S Al Gaylor and Forrest Neil. Plans were also made for a formal and a banquet to be held sometime soon.

### J. Ranson Initiated Into Delta Tau Delta

A/S Jim Ranson was formally initiated into Delta Tau Delta yesterday afternoon, stated A/S Herb Corten, president.

There will be a meeting of the active chapter Wednesday evening at the fraternity's apartment. At that time, according to Corten, pledges will be considered and the election of officers will be discussed.

## Dutton to Get Gold Honor Key Rated as 'Outstanding' By Chicago Engineers

Dean Henry P. Dutton has been selected as one of ten men in Chicago who have distinguished themselves in the field of industrial planning and management in the last several years. This selection was made on the basis of a poll conducted recently by the Industrial Engineering College of Chicago. Dean Dutton is chairman of the business, economics, and industrial engineering departments.

Questionnaires were sent to some 5,000 industrial engineers and time and motion study men in Chicago and vicinity, in which they were asked to nominate the 10 men whom they considered most outstanding in the field of industrial engineering. Tabulation of this poll determined the names of those selected. At some future date Dean Dutton will receive an honorary gold key.

This is the second such award to be made to Dean Dutton in recent months. The Society for the Advancement of Management presented him a gold key in recognition of his leadership in the work done by the Chicago chapter of the society a few months ago.

### Poulter Will Speak to AIEE

Lt. Comdr. T. C. Poulter will give a movie and lecture on the most recent Byrd Antarctic Expedition at the AIEE meeting, next Friday, March 23.

### Theta Xi Fraternity Elects New Officers

At a recent dinner held in the Student Union building new officers of the Theta Xi fraternity were elected. They are: A/S Bob Sodaro, president; John Koza, secretary; and John Pappheier, treasurer.

Plans were also started for a new pledge class. The present pledges will have "Hell Week" starting Saturday, March 24.

### Formally Initiate Six Into Pi Kappa Phi

Six men were formally initiated into Pi Kappa Phi social fraternity last week, according to Tom Ruck, archon. They are: C. Howard Johnson, Bill Ludwig, Len Donarski, Dick Stark, George Buettner, and A/S De Witt Pickens.

A rushing party was held last Wednesday evening in the home of Bill Pottenger which, stated Ruck, was very successful. There will be a meeting of the chapter today at 5 p.m. in 405M. A formal pledging ceremony will take place at that time.

There will be a stag in the very near future for actives and new pledges.

### Sigma Beta Theta Initiates Actives

Sigma Beta Theta's formal initiation of Virginia Peting and Betty Fullerton was held March 4, at the home of Eleanor Holm. All the actives and several alumnae were present. The officers are as follows: Marie Palumbo, president; Loreen Mattren, vice-president; Irene Ptak, secretary; and Ursula Smok, treasurer.

There are now eight active members in the sorority.

## New Red Cross Drive on Soon

On Wednesday, March 21, at 10:10 a.m. every classroom at both Armour and Lewis will be visited by the secretaries of Illinois Tech. for the purpose of soliciting donations to the Red Cross. The secretaries will be acting as representatives of the Red Cross. According to Dean C. A. Tibbals, all instructors have been notified that their classes will be interrupted for about five minutes.

To date about \$1400 has been collected from approximately 400 employees of Illinois Tech. This is still some \$1000 short of the quota of \$2400. This quota is the same as the quota which was met in the last drive.

Quarters #2, which had the highest Red Cross contribution per man in the recent navy Red Cross drive, and was granted a special liberty last Friday evening, according to Lt. A. W. Blake, executive officer of the navy unit.

The total contribution amounted to \$422.50 from the officers, ship's company and trainees. Lt. Blake stated that this is a very commendable showing for the unit. Quarters #3, 5 and 6, had 100 per cent contributions. The leading quarters averaged \$1.02 per man.

### ELECTION

(Continued from Page 1)

The offices which are open for election and qualifications for each are as follows:

#### Senior Class

Second semester—Present officers will be retained.

First semester—President (ITSA representative).

First semester—President (ITSA representative)

Vice President.

Secretary.

Treasurer.

Social Chairman.

SUBC representative

These officers will be elected by the first semester students and will hold office for two semesters.

#### Junior Class

President (ITSA representative).

Secretary.

Treasurer.

Social Chairman.

SUBC representative.

These officers will be elected by the first and second semester students and will hold office for one term. Sophomore and freshman class offices to be filled are the same as the junior class officers.

## Journalism Group Is Largest Since Draft Cut Staff

Twenty-eight new reporters have enrolled in Journalism 211, the largest group since February, 1944. The Journalism 212 class has eight students. The large enrollment has necessitated the organization of two sections.

"The large decrease of the reporting staff after February of 1944 can probably be attributed to the draft," said Henry Freund, *Technology News* editor. "However, this semester many freshmen with previous experience on high school newspapers were contacted and were urged to join the *Technology News*

The increase in members of the staff this term is also attributable to the support of navy students who have joined the *Technology News* this term. Many returning vets have also joined and there is increased support from the west campus.

### NEW STAFF

(Continued from Page 1)

the social chairmanship of his class during his freshman, sophomore, and junior years. He has served on the staff of the newspaper for one semester.

A contributor to *Technology News* for one semester, Henry Pype has been an active participant in intramural sports and is assistant intramural sports manager at the present time. He is now engaged in reorganizing the "Link", Illinois Tech date bureau.

A/S Richard Peterson has served on the staff for one semester. He is a member of the Dramatech. Before coming to Illinois Tech, Richard attended the University of Chicago where he was circulation manager of the "Chicago Maroon."

Harold Daniels has served as freshman SUBC representative for two semesters and as a member of the newspaper staff for one. Rubin has been on *Technology News* for two semesters, returning after a brief absence from the staff. He is also a member of the IIT Round Table and the SAM. A member of the freshman social committee, Janik has served on the newspaper for one semester.

Ronald Born, *Technology News'* latest cartoonist, has studied art at the National Academy of Fine Arts. He is a graduate of Senn High School and is a freshman mechanical engineering student. Born has done a great deal of commercial cartooning.

## Seniors Dance, Dine on April 7

The Senior dinner dance will be held at the Columbia Yacht Club on April 7. Bids and table reservations can be obtained from A/S John Wright, Henry Levin, or Bill Parasoli at \$4.50 each. The attendance will be limited to 110 couples and all bids must be bought or orders placed for them before 5 o'clock today.

Dinner will be served from 7:00 p.m. to 8:30 p.m. After the dinner Eddie Parnell, formerly with Lawrence Welk, and his orchestra will furnish music for dancing. Candles will replace electric lights.

## Navy and Civilians May Obtain Recent Integrals

Students who have not yet obtained their copies of the 1945 Integral may now get them in the Integral Business Office, first entrance, fourth floor Chapin. The yearbook will be given without charge to those students who paid their ITSA fee for the two semesters beginning in February and July of 1944. Those who paid the fee for only one semester must pay an additional \$1.50 for the book. For people who have made no such down payment, the Integral sells for \$3.

## Subscriptions Offered To Evening Students

To provide reader interest that parallels its circulation "Technology News" intends to cover evening school activities as much as possible.

### TEACHERS WANTED

31 Women Physical Ed. to \$2,500 Scores, grade, \$1,800 up; Science, Math, Art, Home Ec., Library, Commercial, Remedial Reading, English, Social Science, \$2,000 up—Similar calls for men at higher salaries. Write qualifications. Enrollment free. CLINE TEACHERS AGENCY, East Lansing, Mich.

For the best girl friend—

Alles van die beste... Have a Coke

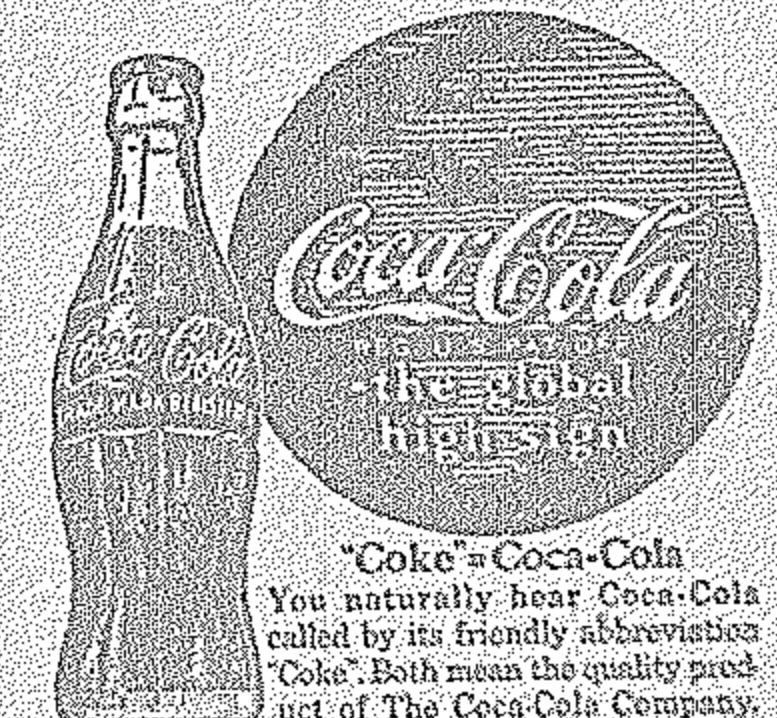

(ALL THE BEST)

... giving the good word in South Africa

Have a Coke is a simple gesture of good will that lets people know you wish them well. In Capetown, as in Columbus or Concord, Coca-Cola turns refreshment time into friendship time,—has become a symbol of good feeling among friendly-minded folks.

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY COCA-COLA BOTTLING CO., OF CHICAGO, INC.

"Coke" = Coca-Cola  
You naturally hear Coca-Cola called by its friendly abbreviation "Coke". Both mean the quality product of The Coca-Cola Company.

# Graduate Fellowship in Power Engineering Established By Gift

A graduate fellowship in power system at IIT has been established by the Westinghouse Education Foundation.

Carrying a grant of \$3,000 to be applied over a three semester period the fellowship will be awarded for the first time next July. The recipient will be selected jointly by Illinois Tech and the Westinghouse Foundation.

Work of the fellow as outlined will consist of both graduate study and research, with major emphasis being placed on work with Illinois Tech's new AC network calculator.

The \$80,000 network calculator built by the Westinghouse company, and at present being installed at Illinois Tech, reproduces complete power systems in miniature for the study of load, distribution, etc. It is one of nine such boards in the United States; one of 11 such in the world.

At the end of the three semesters the fellow will be eligible for candidacy for the degree of master of science in electrical engineering.

The fellowship was set up by the Westinghouse Educational Foundation under a plan developed by A. C. Monteith, representing the Foundation, and Dr. Jesse E. Hobson, former head of the electrical engineering department at IIT and now director of the Armour Research Foundation.

## ENROLLMENT

(Continued from Page 1)

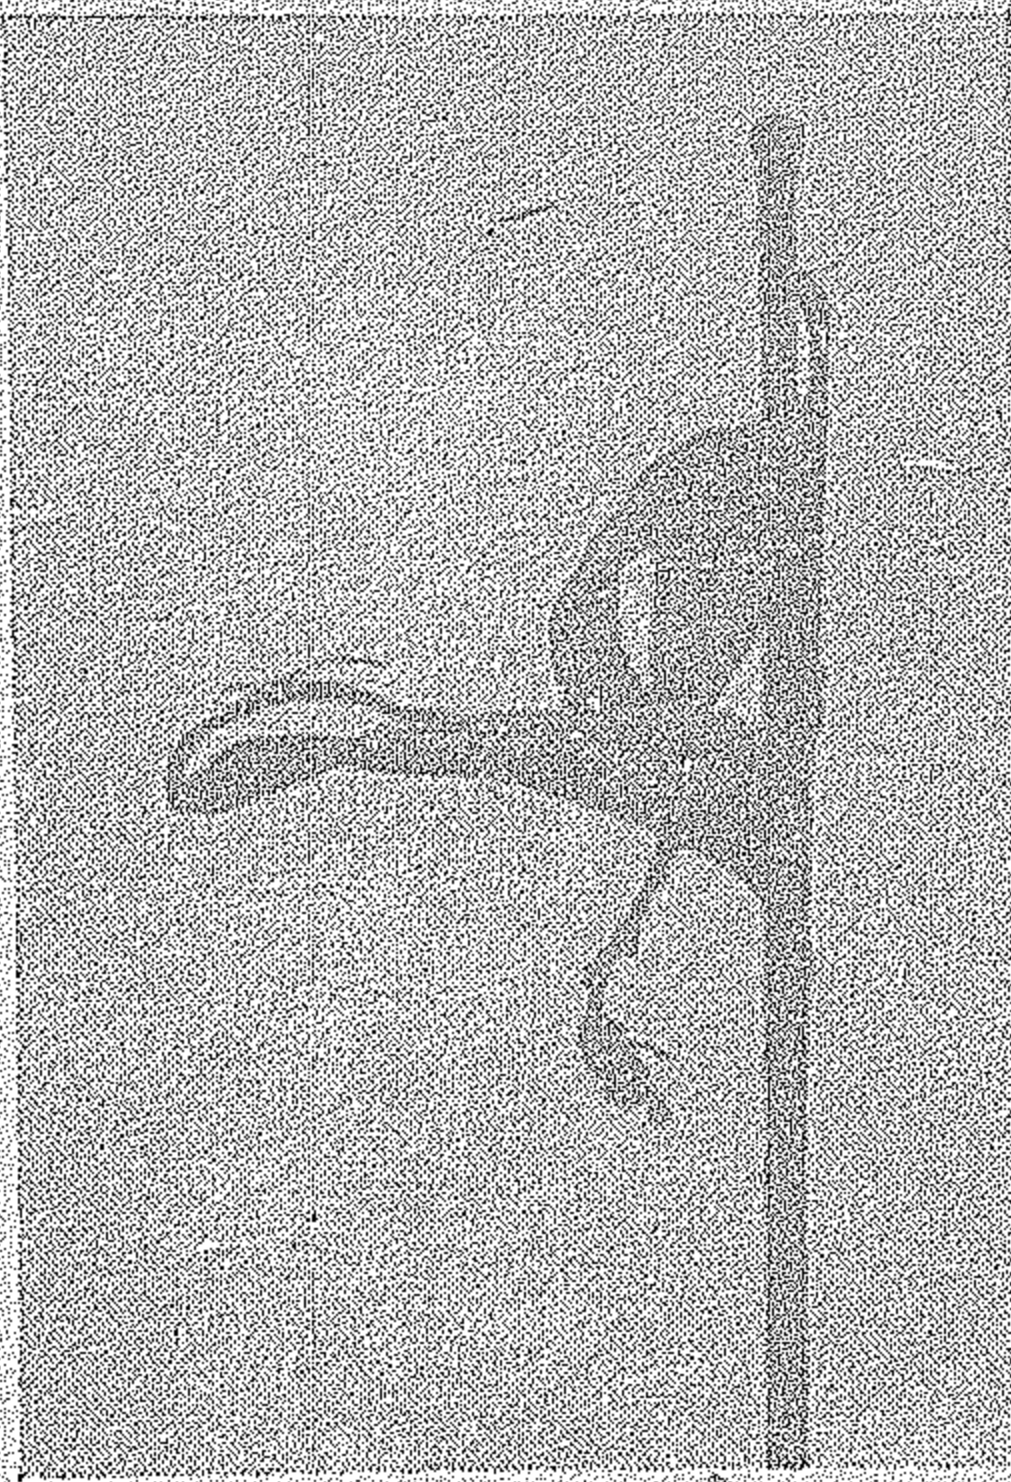

figures are only approximately because the bursar hasn't checked with the registrar's office as yet.

83 new war veterans have been the Armour section of IIT and 23 to the Lewis day school. During the last term about 30 "vets" were dropped from IIT.

About 118 new freshmen entered the Armour section of IIT and 16 joined the ranks of Lewis. The statistics available show that the engineering department at Armour are the students' choicest. At Armour 29 freshmen have selected E.E. as their major field, 35 have picked M.E., 31 Ch.E., 12 C.E., 5 I.E., 6 Arch., 2 Chem., 1 Math., and 1 F.P.E. The remaining 16 have not shown any preference beyond "engineering." The mechanical engineering department seems to be the ranking favorite with new students and the chemical engineering department runs a close second.

No ESMWT figures are available at the present time.

## IIT Battle Flag

WORN OUT—This shows the condition of the flag flying, until recently, from machinery hall.

## Prof. Ida Didier Is Given Leave of Absence This Term

Miss Ida Didier, Professor of home economics, has been given a leave of absence from her teaching duties. Three days before the end of last semester, Professor Didier had a heart attack and was taken to the hospital. She was planning to resume her teaching schedule, but her doctor advised her to return for further observation.

## Orientation Assemblies Given for New Students

Two assemblies were held at the beginning of this term for new students. Dr. C. A. Tibbals, dean of students, presided at both meetings, which were held for students of both campuses.

The first assembly was held on Friday, March 2. The principal speakers were Deans Grinter, Walker and Peebles. Mr. Erickson, musical director, called for new recruits to the musical organizations.

A week later, during the 11 a.m. free hour, a second meeting was held at which President Heald addressed the group. Student leaders were also present to acquaint the freshmen with campus affairs.

## Students Asked to Have Own Lockers Registered

"All students having lockers in the basement of Main building must account for them," said Bernard "Sonny" Weissman today. They are asked to give their name and locker numbers to Weissman, A/S Thomas Moran, or A/S Trent Knepper by Friday.

Weissman said that locks had been on some lockers for several semesters with no record of ownership. He added that all closed lockers not claimed by Friday will have the locks clipped and contents removed.

There are a few lockers which will be available for assignment next week.

## V-12 Has Resumed Morning Workouts

Morning calisthenics have been resumed in the Navy V-12 program this term.

Lt. R. F. Sessions, commanding officer of the unit, stated that the navy V-12 trainees are required to have four hours of physical training each week, and that because of the heavy programs the students traveling to Lewis on Monday's would have, it was found impossible to maintain the old system of physical training every day.

The commanding officer added that the purpose of the morning calisthenics is for limbering up, and that the exercises would not be of a nature to get a sweat up.

## TECH TIME TABLE

All items appearing in Tech Time Table will be those which are scheduled with Dean Tibbals. No other items will be used.

- MONDAY, March 19
  - SAM, 5:00 p.m., 211C
  - IFC, 5:15 p.m., 102C
  - Pi Kappa Phi, 5:00 p.m., 405M
- TUESDAY, March 20
  - Prospective Fencing Team 5:00 p.m., 102C
  - THETA XI, 5:00 p.m., 117C
- FRIDAY, March 25
  - AIEE, 11:00 a.m., AH
  - Armour Eye, 5:00 p.m., Club room
  - 4A Seniors, 11:00 a.m., 305M

# NAVAL NOTATIONS

## Quarters #1

Last week Quarters #1 was visited by Ensign Henry Brooks, Wally Gardner, and Thad Barzynski. Each of these alumni had much to say to the ever present audience. The many innovations of MAA Paul Boggess are being received in typical Navy fashion. Ed Goertz, Pat Restaino, and Sander Lee were the only men to leave this semester and the boys wish them all the best of luck.

## Quarters #2

MAA of Quarters # 2 this term is Dick Shisslak, while Tom Moran is company clerk. Wally Breisch, Tiny Duval and Rex Gourley are leader of sections one, two and three, respectively.

The unit's only complete set of twins, Peter and Paul Smaldone have been transferred to the quarters from George Williams this term.

Quarters #2 has been deprived of its last recreation room now that six bunks have crowded the ping-pong table out of room 104. The move was necessary to accommodate the 143 men now stationed in the house.

Tom Ashworth, Leland Watson, Al Waite and Jack Hammack were among the men of the quarters willing to forgoe being paid in order to attend the track meet at North Central last week.

Seen at Melody Mill Ballroom on the west side all in one Saturday evening: Don Wing, Howie Wawrenuk, Al Gaynor, Ed Riley, Dick Papps, Ray Stryzek, and Dick Nesladak.

## Quarters #3

Some of the former Quarters #3 boys surprised everyone, including themselves, and came through Middle school with flying colors. The new officers are Bill Johnson, George Schober, Sam Popowser, Doug Snyder, and Gussie Leist.

The arrival of eleven men from George Williams has changed the profile of old Quarters #3 quite a lot. The fellows range from the old salt type, as exemplified by John Dye, to the young and innocent (don't let him fool you) types such as Bill O'Toole. Al Bourdon, Jim Buchelle, Lewis Carter, J. Dannemaier, Don Elliot, Louis Hart, Bill Maguire, Jon Morline and Don Zimmerman fill out the muster.

## Quarters #4

Robert J. "Eager Beaver" Fordham actually tried to call his girl up last Tuesday night for the first time

**LIBERTY LOG**  
(Each week the social invitations extended to the men in this activity will be listed here. Any men interested should contact Lt. S. A. Wilhelm, the recreation officer.)  
March 20 Alpha Epsilon of the University of Chicago invites 25 or more men to a party dance at a private home (1930).

in the nine months he has been in Quarters #4. He had just gotten the switchboard operator at the damsel's residence when in walked Gary Woodward. "Get the hell out of here," said Eager Beaver, and when he turned back to the phone, it was dead. So he resumed his studying.

Davey Liston sent to a photograph agency in New York for "pitchers" of "them movy stars." He received them a few days ago, lovely shots of Lamar, Turner, Hayworth, ad infinitum, but he says he is frustrated because the farthest he has gotten with them is to put the pictures under his pillow and dream.

The quarters finally got its own mascot, and Molly is her name. About twelve inches high and ten pounds of fighting fury, as Salty of the unspeakable quarters learned to his sorrow. (Like all ardent lovers he got his face slapped.)

## Quarters #5

Eight new men from George Williams have joined the Beaver lodge with the beginning of the semester. The quarters welcomes them and wishes them a "happy.. stay. After the comforts of G.W. they probably have some acclimation to do

Other notable changes, Charles Marini is the "Boss" man, relieving Leonard Wassman. Wassman was in need of a rest after doing a good job all semester. Wit Kosicki is the assistant M.A.A. John Gustafson the clerk, and Kenneth Edge 1st Lt.

Salty's newest flame is the cute little trick at Quarters #4. Salty went over to strike up an acquaintance, but found it was a little too young and tender, but anyway that's one sure sign of spring.

## Quarters #6

Beginning the new semester with Quarters #6 members are 16 new transfers from George Williams College. A full 50 percent of these are veterans, mostly of South Pacific engagements. These 16 moved in on vacancies left by "Whitey" Bell, "Mort" Miller, George Knaepple and James Walsh, who were transferred

to Great Lakes Naval Training Station at the close of last semester. The total complement rose from from forty-eight to sixty, and necessitated the installation of several new bunks in Room 301. As a result confusion reigns around 11 each night because no man can be sure he'll find his own rack. However with Vice General Bob Paulsen's aid the new men are rapidly becoming indoctrinated. The new semester saw only three changes in "officer" personnel. Bob Paulsen relieved John Conklin as MAA; Chuck Hattstat relieved Pauln as company clerk, and Earl Danielson relieved Ernie Martt as mate of the first deck.

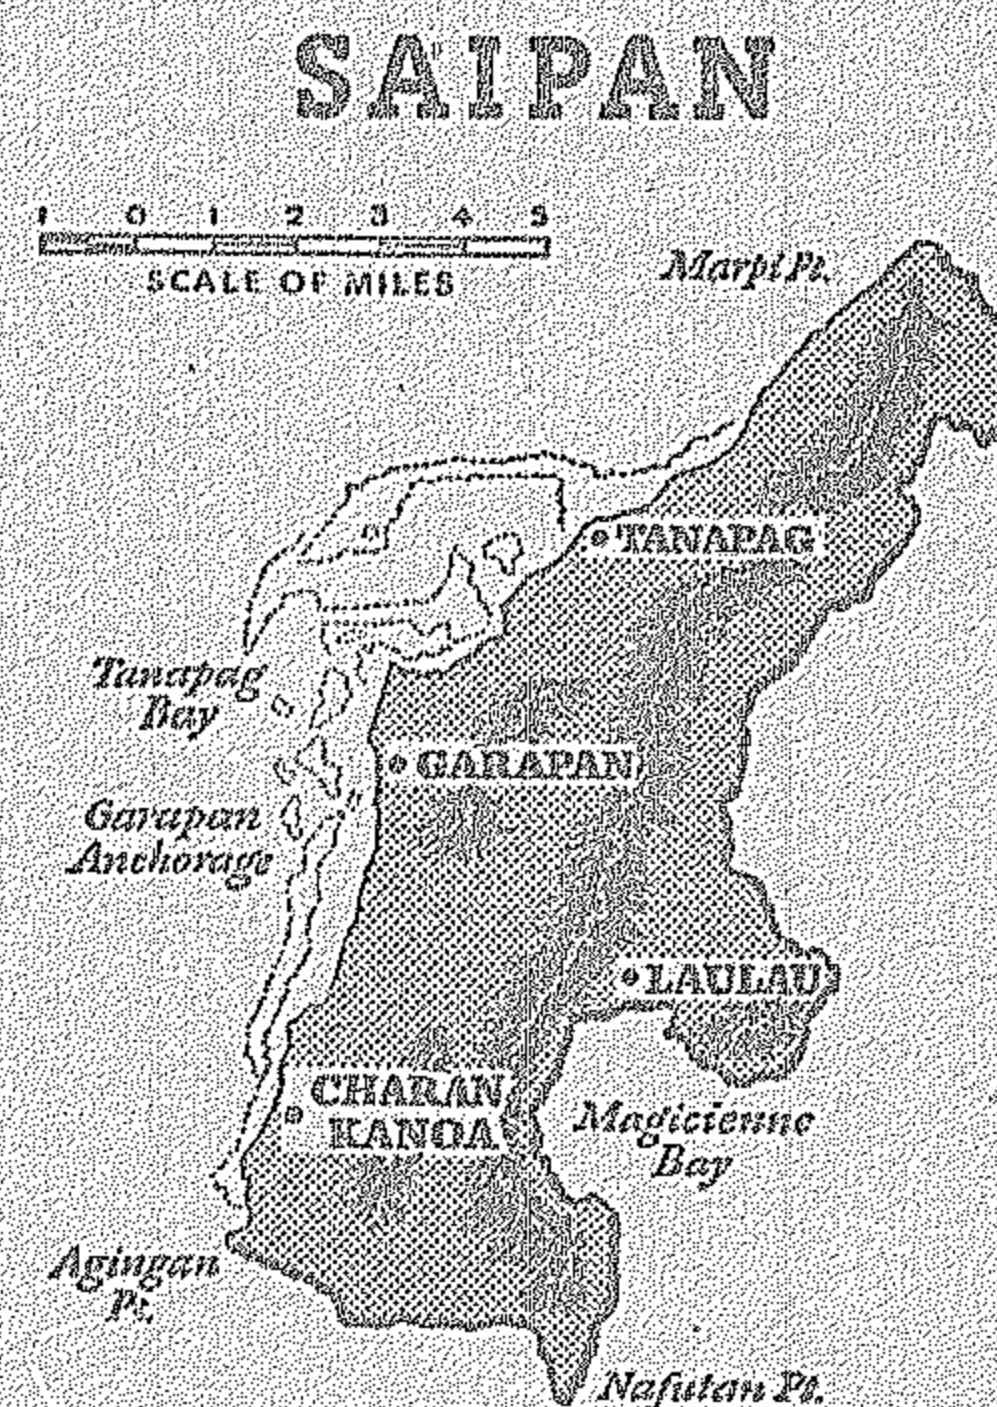

## Quarters #7

Many changes have been made in personnel and in the quarters officers as a result of this new semester. Three vacancies were made when three men were transferred to other duty after leave. These three places, and an additional eight bunks, which were put in the quarters a short while ago, were filled by trainees that had come over from George Williams College.

Dick Lander is the new company commander, and at present it appears that he will have very little if any trouble keeping the men in line. Dick was the heavyweight wrestler on the varsity this year, and his position is respected by all. Tom Kilgariff is the assistant company commander; Bob Schrotzberger, is quarters clerk; Bud Mann is first lieutenant; Tom Burt and Gene Kleeman are mail clerks.

# This tiny dot in the Pacific...

## has more communications equipment than a city of 190,000 people!

The little island of Saipan today has communications facilities greater than those of Hartford, Connecticut.

Without this vast array of telephone, teletype and radio apparatus—much of it made by Western Electric—Saipan could not play its key part as an army, navy and air base in the great drive our fighting forces are making toward Tokyo.

When you realize that Saipan is only *one small island*—and that many more bases must be taken and similarly developed—you get some idea of the job still ahead.

Today the manpower and manufacturing facilities of Western Electric are devoted to meeting our fighters' increased needs. That's why there is not enough telephone equipment for all civilian requirements.

Buy all the War Bonds you can—and keep them!
