

THE ITSA has operated, as far as I know, without any rules of order since its conception. At the last meeting, Lillian Seges courageously tried to have Robert's Rules of Order adopted. She stated that it is necessary to adopt these to prevent domination from the head of the table where President Hedeens sits. If rules were adopted, it would restrict the president from dictating discussions into his own channels. With Robert's Rules of Order the president would have to restrict his remarks or give up the gavel.

Realizing that this addition to the bylaws would be dangerous to the four horsemen, they began bringing pressure to keep it from a vote. In the midst of the discussion, Hedeens asked if there was a motion to adjourn. He was thwarted in this move by general objections of the majority present.

Seeing that they could not avoid the issue, Bob Freund claimed that the constitution requires notice of action on a bylaw to "... be brought up at a previous meeting". Freund interpreted this to mean at the meeting preceding the last. Since it had not been brought up at the previous meeting, but at a meeting last semester, Freund ruled that the motion could not be voted on at the meeting.

It is Freund's constitutional right to interpret the constitution but, at the same time, it is his duty as a judge to give the customary decision as is given by other groups with similar provisions. In other words he did not follow precedent, but instead gave a decision which had as its purpose only to achieve his ends.

Seniors To Order Announcements

All graduating seniors are requested to place their orders for announcements in Bernard Weissman's office in the Student Union before next Friday evening, stated announcement committee chairman, Tom Kilgariff, today.

Following a class meeting held last Friday, it was decided that both booklet and sheet announcements would be ordered along with the invitations. In ordering, a student may select either the booklets alone or the sheet announcements alone or he may order some of each as he so desires.

Samples will be placed in both Weissman's office and the intramural showcase in the lobby of the Student Union.

The booklets serve the same purpose as announcements and are used by many colleges for this purpose. This will be the first time in several years that such booklets will be used by a graduating class at Illinois Tech.

Glenn Marsh Wins Chemistry Award

The American Institute of Chemists approved the selection of eight senior chemistry students as recipients of the institute's student medals. Dr. V. I. Komarewsky, research professor of chemistry at Illinois Institute of Technology and chairman of the student medal award committee, today announced the winners, students graduating in chemistry during the current academic year.

Those named for the awards are Eugene Maun, University of Illinois; Glenn Marsh, Illinois Institute of Technology; Silvia Koral, University of Chicago; Isabel Ryden, Northwestern University; Betty Holmes, Purdue University; Clarence Kolzow, Y.M.C.A. College; Edward Daub, University of Wisconsin; and Raymond Baddour, Notre Dame University.

ITSA Will Back Navy V-12 Ball

Navy Welfare Fund to Donate at Least \$400

The Navy Ball is to be sponsored by the ITSA. This was decided at a special meeting of the Board held at the request of the dance committee last Thursday.

The change was necessitated by the desire of Lt. Sessions to keep it an all school affair, and the impracticability of an individual officer shouldering the risks involved. Thus the dance, as an all school function, was brought under the jurisdiction of the ITSA.

The same arrangements, as were announced in last week's *Technology News*, will be kept. The Ball will definitely be held on May 19, at the Steven's Grand Ballroom. Henry Brandon's orchestra has been contracted to play.

The committee stated that the Board is to be congratulated for their swift action in support of the ball.

The Navy Welfare Fund contribution of \$400 will be turned over to the ITSA fund and used expressly for the Navy Ball. This contribution has made possible the sale of bids at the price of \$3.00 instead of at a higher figure.

The dance committee has been enlarged to include Don Albert, senior ITSA representative. A/S Jack Wright and A/S Wit Kosicki have been appointed by the Board to continue as co-chairmen.

Bids will be on sale daily in the Student Union lobby between 11:00 a.m. and 2:00 p.m. Receipts will be given out in place of tickets. Souvenir bids will be given out upon presentation of the receipts at the entrance to the Ball, said A/S Allan Kukral, committeeman in charge of bids.

In order to prevent individual interpretations of the designation, "semi-formal", the dance committee has announced that all ladies should wear formal dress, civilian men business suits.

The confusion during the past week in settling the date of the Navy Ball resulted from the urgent request of the Midshipmen's School at Northwestern to change the date. Because of the great opposition demonstrated by the men, the date was left as planned at the Stevens Ballroom.

Peace-Time Program Resumed at Lewis

Lewis will no longer have three semesters a year, but will go back to its peace time schedule of two semesters and an eight-week summer course. The first eight week summer course will start on July 5 and will last till Aug. 31. On Sept. 24, a new 16-week semester will start.

The evening school was the first to make the move toward the peace time schedule. With the low enrollment at Lewis, many students find it necessary to take evening courses to fill out their programs.

It is expected that students who have to attend both campuses will have trouble in trying to plan a program, as the schedules of the two schools do not coincide.

ASME Convention to Be May 11 at Northwestern

An ASME convention is to be held May 11th at Northwestern University. The announcement, made at last Friday's ASME meeting, also disclosed that Navy trainees would be permitted to attend.

Former IGT Head

John Yellott

Budget Announced By ITSA Board for Present Semester

The ITSA Board of Control has, as it does at the beginning of each term, announced its budget. The following appropriations, for the period of March to June, 1945 were announced by A/S Don Hedeens, president of the ITSA:

EXPENSES	
<i>Technology News</i>	\$1,400.00
Integral	600.00
General Fund	400.00
Freshman Class	108.00
Dance Club	50.00
Navy Dance Band	40.00
The Link	10.00
Total	\$2,608.00

INCOME	
IIT Activity Fees, 517 @ \$3.00	\$1,551.00
(Part time), 70 @ \$1.50..	105.00
IIT Contribution for Navy students, 431 @ \$1.00..	431.00
Total	\$2,087.00

Deficit\$ 521.00

(To be made up from Navy membership fees and reserve fund.)

The General Fund covers expenses of monthly assemblies and the publication of an activity handbook. This handbook will be published by the school in the near future. The Navy Dance Band appropriation is the first of its kind and was given for the support of the band, which plays at the Dance Club meetings.

Money listed under income was given by the school from the tuition of the students. The \$521.00 deficit will be made up from Navy membership fees and the reserve fund.

Stockholders Vote for Dissolving Engineers' Co-op Book Store

Books and Supplies to Be Offered At Cut Prices; Sale of Goods Will Last Two Weeks at Bookstore

The engineers Co-op will be dissolved. With the results of the polled opinion last Friday, the fate of the Engineer's Co-operative Bookstore Inc. was decided. The outcome of the election showed that the majority of voters had voted to dissolve the Co-op. This event vindicated the move of the Board of Directors who wanted a dissolution of the store.

E. S. Pettyjohn New IGT Head Will Take Up Duties on Naval Mission Release

Comdr. Elmer Shaw Pettyjohn, U.S.N.R., was today named director of the Institute of Gas Technology at Illinois Institute of Technology, succeeding John I. Yellott who has held the post since September 1, 1943.

Until the time when Comdr. Pettyjohn's naval assignment is terminated, Associate Director I. J. Willien will be in charge, according to the announcement by Henry T. Heald, president of Illinois Tech and the Institute of Gas Technology.

Comdr. Pettyjohn is at present absent from the country as head of the oil section of the United States Strategic Bombing Survey and as liaison officer in the United States Naval Technical Mission. Extensive experience as a consultant to numerous gas companies has fitted him for the directorship of the Gas Institute.

Mr. Yellott will leave the Gas Institute on May 1 to become director of research with the Locomotive Development Committee of Baltimore, Md. A mechanical engineering graduate of John Hopkins University, Yellott served as director of the department of mechanical engineering at Illinois Tech for three years before taking the directorship of the Institute of Gas Technology. While at Illinois Tech he also directed the Engineering Science and Management War Training program.

In 1939 Yellott was named the "Outstanding Mechanical Engineer of the Past Decade" by Pi Tau Sigma. He was presented the Distinguished Service Award by the Chicago Junior Chamber of Commerce in 1942 and in that same year was named Outstanding Young Man of Illinois and received the Illinois Civic Service Award from the Illinois Junior Chamber of Commerce.

Graduation to Be on June 23

Formal commencement of the June, 1945 class will be held Saturday, June 23 at 8 p.m. according to Dean Tibbals. Exercises are to take place in the Museum of Science and Industry, which is located within Jackson Park at the east end of Fifty-seventh street.

President Henry T. Heald is now in the process of securing a commencement speaker.

Many Come to the Dance Club: Cokes Only to Be Served

"The Dance Club has reached a new peak of popularity. One of the largest crowds of fellows and girls turned out last Wednesday night," said A/S John Schmidt.

The pledges of Honor I highlighted the intermission with a dance. Led by pledge Roy "Coach" McCauley, the eight young men and their partners waltzed dreamily to the strains of "Woodchoppers Ball" played by the Tech Dance Band.

Wednesday night also marked the last night that the traditional ice cream sundaes will be served at intermission. Due to the small Welfare Fund appropriation, cokes alone will be served as refreshments in the future.

Because of the scheduling of a meeting May 2, the Dance Club will not meet on that date. Activities will resume May 9 with Bob Harmon and the Band.

Member, Associated Collogiate Press

Official student publication of Illinois Institute of Technology, 3300 Federal Street, Chicago, Illinois. Published weekly during the college year. Represented for national advertising by National Advertising Service, Inc., college publishers representatives, 420 Madison Ave., New York, N. Y., Chicago, Boston, Los Angeles, San Francisco. Entered as second class matter October 10, 1940, at the post office at Chicago, Illinois, under the Act of March 3, 1879. Subscription rate 1.00 per term.

Why Not Take the Boat

Man Of The Week A/S Murray Percival Active In Social Activities at IIT

A/S Murray Andrew Percival, eighth term civil engineering student, occupies a high position in both scholastic and social activities at IIT.

Murray graduated from Pershing High School, Detroit, in 1942. He was awarded a freshman scholarship to Wayne University by the Michigan Student Aid Foundation and completed one year there before enlisting in the navy in December, 1942. He was classified as a navy V-12 and transferred to IIT, Quarters #2, where he has lived since July, 1943. This makes him also a plank-owner in the IIT V-12 unit, for it was on that date that the program was started.

Murray's numerous student activities include the presidency of the ASCE and Chi Epsilon, honorary

civil engineering fraternity. These honors were attained this semester. He was also elected to Tau Beta Pi, all student honorary fraternity, in his seventh term on the basis of his scholastic average.

Intramural sports constitute his athletic career at IIT. He has played for the civil engineering department on baseball, football and basketball teams and was thus ineligible for varsity sports. His sports preferences run to football, hockey and swimming; the interest in hockey being merely as a spectator. Football he likes as a participant in contests, while swimming is a second major form of relaxation.

Asked for his preferences in the feminine sex Murray had but one reply—"Gloria".

... Techman Talking

Dr. L. T. Rader, chairman, Department of Electrical Engineering California Tech in Pasadena—sometimes known as Dr. Millikan's School for Boys—in 1929 sent Dr. W. A. Lewis forth into a happy world to seek a living. In 1936 it did likewise for Dr. Hobson and in 1937 for myself. Dr. Lewis and Hobson went to Westinghouse Electric. I went to General Electric. Soon after my arrival in Schenectady I began to hear of Illinois Tech—through the Cal Tech grapevine, through AIEE conventions, through talk of Signal Corps Programs, calculating boards, measurement laboratories. The school was definitely making itself known in the electrical field as an aggressive up-and-coming institution. And so, despite cutting my teeth in industry and finding it entirely to my liking, I decided that university work at the right place also had intriguing possibilities and was certainly worth trying. So I came here to try. Why did I come here? Because this seemed to me to be the one and only school of its kind. Because I liked the progressive ideas of the Board of Trustees and President Heald, because of the caliber of men on its faculty and in the Armour Research Foundation, because I felt that here I could keep in touch with the industrial world and perhaps contribute something myself.

I believe firmly that faculty and students in an engineering school must keep in close contact with new developments in industry—materials, techniques and products. It is not enough to say that only fundamentals should be learned—the application of fundamentals to useful ends is the engineer's work and teaching must include training in the application of fundamentals.

Chicago is a growing city. It is probably the most dynamic city in the U.S. It is growing in both the magnitude and diversity of its industries. A school such as Illinois Tech situated in the very center of such growth can and will become a dynamic force in the training of engineers. We want our men to have better than an even break when they come into competition with men from other schools. In our electrical department we have both the teachers and the equipment to give our students that edge.

I anticipate a great deal of enjoyable and hard work here at Tech. All the faculty I have met have been extremely friendly and cooperative. I know that I am associated with a "going concern" and we will try to go places together.

Now that the popularity poll is over I can get back to work. The shovel was so engrossed looking at Henry Pype's picture that it took plenty of persuasion to get it back to work. A little oil in the spokes and we're all ready to start digging this week's dirt.

With his restriction lifted, social climber A/S Jim Hartnett let things get out of control the other weekend. He wound up with two dates on Sunday. Still feeling groggy from an evening on 63rd street's Tavern Row, he decided a tea dance was better for his health than a return trip to the barrooms. The tea dance was an exclusive affair, planned by a mother's club and featured three hours of a pageant by second grade school children, with a half hour of dancing afterwards. You'd better restrict your social ambitions to bar stools in the future, Gentlemen Jim.

Sam (you made the pants too long) Karlin weavy haired math instructor, is having a terrible time repulsing the advances of one of his girl students. When she asks him to explain a problem after class, Sam promptly turns red and begins to stutter something or other. This girl with the mysterious powers should be warned that Mr. Karlin isn't much of a spender when he steps out; as he advises his class, "It's cheapest to take 'Wimmen' to the Art Gallery and besides—"

"Dangerous Dick Axelrod is determined to finish his civilian days in high style. After receiving his induction notice last week he went to Wisconsin for a little vacation. Of course he claims that the reason he rented a cottage with his girl friend was that he wanted to do some "fishing." It seems that he did do quite a bit of angling though.

If anyone is interested in knowing how Don Friske, junior TPE spends his mornings, just go over to the "L" station at Central and Lake streets. Each morning Don may be seen waiting for a model known to his friends only as "Annie." Rumor has it that Don waits from 7:00 a.m. until Annie shows up. No wonder he is always late for school.

If you should have the opportunity to eat horse meat don't be hesitant. All doubts as to its delicacy can be erased by sending all inquiries to Professor H. P. Vincent. Professor Vincent was having luncheon with an acquaintance when he spied horse meat steaks on the menu. "Horse meat!", cried Vincent, "My favorite dish, I'll have two orders." This should be evidence enough as to the quality of horse meat and English professors.

Some people have queer hobbies but Professor H. P. Dutton, chairman of the industrial engineering department, has one all to himself. It seems that his secret ambition is to double as a waiter; and so, when not occupied with a class of students, he practices this fine art. He was seen recently in the halls of The Student Union, frantically running hither and dither, holding a tray full of food in an, oh, so tender embrace.

All females on the South campus please take note. A/S Lou Carter and A/S William O'Toole want to get married; in fact, they are desperate. However, their only trouble is that they haven't any women. So girls, please take pity on these two gentlemen and in case anyone is interested call Victory 8855. Take our word for it, these two fine seamen will jump at the chance.

A/S Frank Kimmel and A/S Gus Mazarackis finally talked A/S Bob DeBoo into a stag date for last Saturday night. Their destination—the Hollywood Dance School.

There has been considerable wonderment over the fact that A/S E. J. Kirstein lost his wallet in Lake Michigan the other night. Rumor has it that he was out with professional pick-pocket mermaid.

Navy men John Osborn, Leonard Vogt and Arne Niemi are indeed among the luckier fellows of Quarters #7. Instead of going calling for their dates, they have the women call for them. Anyone interested may observe the BTO's spending their Wednesday night liberties in a big, black Buick parked in front of the quarters. Mmm!

The first public comment of the newly elected Freshman president, was made in a psychology class to the effect, "If you can't drink or smoke, you might as well be dead!"

Well, I've got to go call up my girl for a date for the Navy Ball. I always make my dates early. Till we meet again I remain . . .

Lab Reports

Deeper lines, grayer shadows, and even more pronounced bags appear under the eyes of many Illinois Tech students as the age-old complaint of "laboratory reports" again draws comment.

"Why?" is the simple question that our fathers and probably their fathers asked and the same question that Tech students would still like to hear answered. It is certainly a legitimate one; for after a student spends from 10 to 15 hours on one of the several reports he must submit each week and still has no more to show than a handful of pages filled with theory, diagrams, etc. which may mean little or nothing to him, he certainly has a right to question.

His questions deserve an answer. To date the faculty has failed to give any real solution to this problem. It is often said that one of the most important tasks of the engineer is to write formal reports, and therefore it is necessary that he learn to do so while in school. This statement is probably true. However when a student hears four or five instructors in a single term make a statement, he naturally wonders if all engineering is as much "pure labor" as is the work required in many of IIT's labs.

We congratulate the electrical engineering department which in its laboratory work has proved itself to be step or two ahead of all others. Even though the EE reports take probably one-half the time of the average ME or CE report, it can truly be said that in general, the student learns as much or possibly more if only because he feels a great deal more "kindly" toward the subject. A few pertinent questions often give the student a better picture of the work being undertaken than ream after ream of theory which even the instructors realize has been copied almost word for word from a textbook or another report.

Wall Flowers

Are Illinois Tech students mice or men?

This question would come to one's mind, if, perchance, he were to visit one of the Wednesday night Dance Club affairs.

On entering the Student Union Auditorium he would hear the strains of the Navy Dance Band. The setting is perfect—good music, women, adequate dancing space, women, soft lights and women. But what's this? Along the north wall he sees a long line of Techmen, either sitting or standing, gaping at the situation along the south wall. Then our inquirer sees a long line of girls either sitting or standing, waiting to be asked to dance, while there are only some fifteen or twenty couples actually dancing on the floor. "Well," he says, "are Illinois Tech students mice or men?"

LETTER OF THE WEEK: Co-op Bookstore

In the last issue of Technology News it was stated that a reasonable arrangement could be made to keep the Engineers Co-operative open for three weeks at the beginning of each semester. This of course can be done, but in such an arrange-

ment the Co-op would not be fulfilling its purpose. The purpose of the Co-op is not, as many believe, a check on the school book store, but is to be of service to the student body. And in service it is meant service to ourselves and to each other. If the Co-op is to continue, all the stock holders must pitch in and help since the board of directors cannot be in the store at all times. If all those who wish to keep the Co-op open would volunteer their services and would accept the responsibilities that might be placed upon them, then and only then, could the Co-op continue.

Herman Dubin
President of the Board of
Directors of Engineers
Co-op division.

A Look At Alumni

A/S Bob McLelland, former student at Illinois Tech, and now a freshman in the college of medicine at the University of Cincinnati, has done a good job of spreading the fame of IIT's phenortens, the little creatures that resemble Alice the goon girl and are always found looking over something, so that only the heads and hands are seen. An article on the introduction of phenortens at the University of Cincinnati recently appeared in the *New Britain Herald*.

Captain Jack Ratto, ChE '41, returned from the Pacific a week ago last Thursday after a period of two years overseas. Jack was married to Lieutenant Robb of the Army nurses in Detroit on Saturday. He met Lieutenant Robb at Chanute Field when he first entered the service.

V-12'ers have a lot to learn when they become officers, according to Ensign George Martinek, ME. George admits he was green himself and has had to talk for hours to get something done in addition to seeing ten lieutenants, twenty commanders and four captains. A good knowledge of paper work and the handling of personnel is emphasized.

As an illustration of the latter, an officer had to cope with the following: A negro prostitute had thrown a knife at a sailor for some unknown reason and he and ten others (all southerners) were out for revenge. The men had submachine guns and grenades and were going to blast the offender's house off the map. All were drunk and trigger-happy. Presumably the conditions were ideal for exhibiting an expert knowledge of how to handle men.

—EDWARD SHORE

Presenting the argument that a reporter's legs are sorely handicapped when he is barefoot, Dr. Carl W. Ackerman, dean of the Graduate School of Journalism, presented each student of the Post Graduate School of Journalism of Chunking, China with \$7,500. Sounds like an awful lot of money for a pair of shoes, doesn't it? However, at the current rate of exchange of 530 Chinese dollars to one American dollar each Chinese student received exactly \$14.15!

At the Central Y.M.C.A. College, Dr. Edward J. Sparling was ousted from the presidency of the college by the board of directors early last week. Dr. Sparling immediately charged that he had been ousted because the board of directors disagreed with his policy of racial equality and academic freedom. Although the outcome of this case has not been decided and therefore in all fairness a judgement cannot be rendered, yet it is disturbing to find that such situations can even exist on a college campus.

A similar case occurred at Northwestern University last week when Dr. Paul A. Schilpp, professor of philosophy was severely criticized for a lecture which he delivered saying that "A historian fifty years from now may refer to Roosevelt as 'the Judas Iscariot' of this era, in having led us down the road to war". This statement caused quite a rumpus, and Dr. Schilpp received a rather stern rebuff from the head of the department of philosophy. I certainly think that Dr. Schilpp's statement was one of extreme ignorance, but why a man's job should be threatened for what he says in a "democracy" is beyond me!

One school that is planning to use its money for things other than just attracting more students is the University of Notre Dame, where a 25 million dollar program was recently announced for improving the school's faculty, aid veterans, encourage research and to prepare men for public service in the postwar world. This is a welcome relief from all the reports which have been coming in telling of postwar plans for bigger and better stadiums, etc.

—EDWARD SHORE

Hope . . . for women

—HOPE IVerson

"It is a maxim with me that no man ever written out of reputation but by himself"

Richard Bentley

Last week there was some mention made of the Lewis Dormitory—there was a misrepresentation that I would like to straighten out. The dorm has high standards and is regulated by a housemother, and any girl at the dorm is under the housemother's direction. I would like to apologize, for there was no intention on my part to insinuate that anything was wrong at the dorm.

We were wondering why Ray Bartnick is called "Mother" Bartnick. It seems that in economics the girls names are alphabetically read off first, then the fellow's names. Ray is the first on the list, so he is constantly referred to as "Miss" Bartnick.

"Men are the devil—that's one thing sure.

Close your windows and lock your door.

Shut your eyes and shake your head. Get your fun somewhere else," she said.

"Men are the devil—they all bring woe.

In winter it's easy to just say 'No'. Men are the devil, that's one sure thing,

But what are you goin' to do in spring?"

Mary Caroline Davies

Well, by now we're all through with those rigorous physicals we had to take. As yet there have been a few minor casualties, such as bruised and sore arms, but no major calamities, yet.

Freshman Picnic

The freshman class has decided to sponsor an all school picnic. The committee, Corinne Cleban, Ann Elkrat, Pete Pinto, Glenn Keith and Mary Hartke, chairman, have made the following plans; the picnic will be open to members of all classes; it will be held Sunday, May 6, at 55th and Stony Island; everyone will have to contribute two red points for the hot dogs; the girls will furnish the rolls, potato salad and sandwiches; the fellows will furnish cokes, pickles, and other trimmings. In a few days, the committee will announce just who will be responsible for the food, and to whom you will give your points.

ITSA

At the last meeting of the ITSA, Lillian Seges, Lewis representative put up a swell fight to get Robert's Rules of Order as the authority in the ITSA. Good work, Lil; it's swell to know someone is fighting for what is right.

"Out of the night that covers me,
Black as the Pit from pole to pole,
I thank whatever gods may be
For my unconquerable soul.

In the fell clutch of circumstance
I have not winced nor cried aloud.
Under the bludgeoning of chance
My head is bloody, but unbowed.

Beyond this place of wrath and tears
Looms but the horror of the shade,
And yet the menace of the years
Finds, and shall find, me unafraid.

It matters not how strait the gate,
How charged with punishments
The scroll.
I am the master of my fate:
I am the captain of my soul."

—William Henley

A/S RICHARD PAPPS has an honorable discharge from the U. S. Army . . . EDWARD RUBIN, sophomore industrial, was born in an apartment house that used to occupy the vacant lot next to Chapin . . . —JACOB KRAMER

Illinois Tech Vets

George Keith Hamilton

After dodging jeeps and KP duty during his short stay in the United States Army, George Keith Hamilton is ready to resume his education.

As soon as Keith graduated from the Chicago Christian High School, Uncle Sam sent him the usual greetings. Keith went down for his examination and patiently explained that he was hard of hearing. The doctors were a bit skeptical and sent him on to Fort Sheridan.

From the reception center, where he was booked for KP, Keith was shipped to Camp Walters, Texas. It was here that Keith participated in and witnessed several amusing and interesting episodes. The fact that it was difficult for him to receive orders didn't lessen the general confusion. However, Keith was an excellent shot, and he won several sharpshooter medals.

Once Keith and two buddies were indulging in an old Army pastime when their Sgt. happened by and politely inquired why they weren't out cleaning the mortars. Needless to say, there were many excuses. None of the excuses seemed right to the Sgt. and he presented the entire group with KP. To make matters worse Keith was in arrears at the time of the rude interruption.

At another occasion Keith witnessed a trigger-happy soldier fire at the target spotters. The soldier was anxious to show his prowess on the machine gun and shot off a trial burst. The spotters forgot their duty and ran like jack rabbits for their shelters.

About this time Keith received another physical examination and his earlier claims were verified. He was sent back to Fort Sheridan to be honorably discharged after four months of service.

Keith, who stands six foot even, is a freshman chemical, but is thinking of changing to the fire protection engineering course. He is shifting around trying to find an occupation that is not too dependent on good hearing. Keith thinks that college is a little tougher than high school but that the excellent instructors more than make up for it.

FOUR Techhawk Baseball Squad Defeated by Concordia 8 to 7

Murphy and O'Geary Leading Hitters for IIT;
Stroh of Concordia Fans 16 Tech Batters

Although outhitting their opponents by almost 2 to 1, the baseball team suffered its first defeat of the season by being nosed out by Concordia 8 to 7 at Ogden Field last Saturday.

After a wild first three innings, marked by Tech's 5 errors, Concordia managed to combine a total of 8 runs on 6 hits. Thereafter no runs were scored as A/S Gene Evers allowed but 2 hits in the remaining 6 innings of play.

Shut out for the first three innings of play, Tech staged a brilliant rally and managed to push across 2 runs in the 4th on three hits and 2 runs in the 5th. A/S Bill Crowley performed flawlessly afield and was credited with one of the runs batted in by singling A/S Dennis O'Geary home in the 5th inning.

In the seventh inning 3 runs were scored on 3 safe blows by Murphy, Krawczak, a sacrifice by Crowley, and a hit by Maciejewski to bring the total of 7 runs. From this point on, neither team was able to score and the final result was Concordia, 8; Illinois Tech, 7.

Leading hitters for the afternoon were A/S Ray Murphy, with 4 hits in 5 trips to the plate and A/S Dennis O'Geary, who connected for 3 safe hits in the same number of attempts.

A/S Gene Evers struck out 8 batters and allowed 5 base on balls while Stroh of Concordia fanned 16 Tech batters and walked 3 men.

Last week, a team meeting was held and A/S Gene Evers and A/S Ray Murphy were unanimously elected co-captains for the season by their team mates.

Ouch!

Quarters No. 6 Trounces No. 2

Quarters #6 defeated Quarters #2, 45-22, in a post-season basketball game played last Friday evening in the IIT gym.

The game started rather slowly with Quarters #2 going into the lead after a few minutes of play. However, in the second quarter, Quarters #6 pulled out in front with Warren Sabli leading the way. Although Quarters #2 won the Navy basketball intramural championship, they couldn't regain their usual form.

The second half got off to a fast start with Quarters #6 still in the lead. In the third quarter, Scott used his heights to great advantage as he took charge of the rebounds.

In the last quarter, Quarters #2 finally began to click. However, this was short-lived for the game ended with Quarters #6 ahead, 45-22.

The high point men for Quarters #6 were: Warren Sabli and John Scott. C. B. Fenton accounted for ten points, and thus was leading scorer of the Quarters #2 team.

TECH TIME TABLE

All items appearing in Tech Time Table will be those which are scheduled with Dean Tibbals. No other items will be used.

MONDAY, April 23

Intervarsity Christian Fellowship, 5:00 p. m., AH.

WEDNESDAY, April 25

Math Club, 11:30 a.m. 111C

Honor I Initiates Seven Men; Track Coach Also Pledged

Seven students and one coach were initiated into Honor I, honorary athletic fraternity last Wednesday are all navy men are: Ned Grable, night.

The new student members, who Bob Freund, Byron Fanselow, Pete Browning, Gene Evers, Joe Hardman and Charles Buckley.

Professor Ray McCauley also became a member of the fraternity. He is coach of the track team.

The initiation banquet was held at Benevenuti's Restaurant and was followed by a dance later in the evening.

Golf Team Nods to Bradley 6½ to 5½

Illinois Tech golfers dropped a close match to Bradley Tech of Peoria, Illinois last Saturday, 6½ to 5½. Going into the 18th hole, IIT was ahead but the last 3 men dropped their points. A/S Fred Fitchie, formerly of Notre Dame and the #1 man for Tech displayed fine form and beat Don Weiler 2½ to ½. A/S Bob Negele playing in the #4 slot whipped his opponent 2½ to ½.

Bob Armstrong, playing in the #2 position for Bradley was medalist with a 79 while A/S Ken Milbradt was low man for IIT.

The two teams will again meet this coming Saturday at Westgate, IIT's home course.

Scores:

Fitchie, Illinois Tech beat Don Weiler 2½ to ½; Armstrong, Bradley beat Milbradt, Illinois Tech, 3 to 0; Bradley's #3 man beat Larson, Illinois Tech, 2½ to ½; Negele, Illinois Tech beat Sinnock, Bradley 2½ to ½.

Tennis Team Adds Two Matches to Schedule

A change in the tennis schedule has been recently announced by coach "Bud" Herman. This revision includes a tentative match on May 12 with Concordia and on June 2 with George Williams. Both meets will be played here. The meet with University of Chicago was postponed until Wednesday due to inclement weather.

Intra-squad matches are being played this week to determine a definite line-up for future matches. A/S Leonard Vogt has been showing the most promise to date with his powerful drives and generally consistent plays.

The addition of these two matches makes a total of ten matches for the season.

Hankins Stars as Thinclads Lose to Notre Dame 73 to 48

880 Yard Relay Team Again Victorious;
Hammack Takes First in 440 Yard Event

In the first outdoor meet of the season for both teams, Illinois Tech's track squad bowed to Notre Dame 73 to 48 in a meet at South Bend last Saturday. Once again A/S Norm Hankins starred for IIT. He placed first in the high jump event, clearing the bar at 5 feet 4 inches; ran second in the 100 yard dash and came in third in the 220 yard dash. He was anchor man on the winning 880 yard relay team consisting of Thomas, A/S Ned Grable, A/S Jack Hammack, and the time for this event was 1:33.7.

Arx Trip Sophs In IM Tourney

In one of the most hotly contested battles seen on the campus for some time, the Soph Bums staged a last minute rally to gain a 4 to 4 deadlock with the Senior Civils. The Civils, behind the smooth pitching of A/S Earl Danielson, shut out the Bums in the first two innings but their defense faltered afterwards and as the end of six innings the score remained tied. The game ended at this point and the remaining one inning will be played Wednesday at 5 p.m.

In the only other game played last week the Arx's staved off a last inning rally by the Soph F.O.'s to win 5 to 4. The game was highlighted by a total of 3 home runs by the Arx. Angelo Garretto drove in two runs with a sixth inning home run. A total of three circuit drives accounted for the 5 Arx runs.

Once again Schmitz has issued a call for unpires for the game. Anyone interested, please contact him.

These games will be played as scheduled and no excuses will be accepted for failure to show up. The majority of the games which were to be played last week did not result in forfeit as was previously announced.

INTRAMURAL SOFTBALL SCHEDULE

MONDAY—5 p.m.-6 p.m.

Quarters #7 vs. Quarters #5

East Field—North Diamond
Senior Electricals vs. Outcasts

WEDNESDAY—5 p.m.-6 p.m.

Frosh vs. Soph F.O.'s

East Field—North Diamond

Arx vs. Eager Beavers

East Field—South Diamond

Senior Civils vs. Soph Bums

West Field

FRIDAY—5 p.m.-6 p.m.

Senior Mechs vs. Senior Electricals

East Field—North Diamond

Quarters #1 vs. Quarters #7

East Field—South Diamond

the SPORTS HUDDLE

By H. Pype

Comes summer and most every afternoon finds the tennis team trudging their weary way three blocks to practice at Armour Square. These, incidentally, are asphalt courts and do not give the player the actual "battle" conditions which he would encounter in team matches.

The question of why the once fine clay courts in the rear of Chapin Hall could not be used, has come to my attention on several occasions. The sailors must obtain permission from the Navy Office for an out of bounds pass if they wish to practice up on their game at Armour Square. Also, with an intramural tennis tournament in prospect, the games would necessarily have to be played after 5:00 p.m. if Armour Square is to be used.

If a demand were made to the administration concerning the reconditioning of the courts, their reply, as was in the past, would be that the maintenance department hasn't enough men. This is a just argument under the present circumstances.

The only alternative would be the formation of a group of tennis enthusiasts, who could and would devote a few hours a week in fixing up the courts. This would be a vast improvement and would be greatly appreciated by the student body.

As part of the post-war ex-

penditure of thirteen million dollars recently announced by President Heald, included is \$450,000.00 for a gymnasium and \$650,000.00 for a field house. These additions would bring IIT sports to a higher level than ever before. Lack of a field house and gymnasium greatly hampers outdoor sports as practice in early spring is limited to the "cheese box". Time was when the armory was available for practice sessions but it is doubtful as to when the army will return it to its pre-war standing.

The intramural softball tournament should come to an abrupt end but fast, if the teams continue to forfeit as they did last week. There were numerous excuses for failure to show up such as bad weather, classes, etc. This week will find these same teams competing after 5:00 p.m. and failure to show up will result in forfeit.

Another thing which has come to my attention is that a few fellows are playing on more than one team in the tourney. As soon as possible, team entries will get a good going over and violators will be declared ineligible by the intramural manager and thus barred from playing on any team in the meet.

No place like home... Have a Coke

...a swing session at our house

A good way to put Welcome on the mat at your house is to have ice-cold Coca-Cola in the refrigerator. Have a Coke just naturally means Be one of our gang or You're like one of the family. Whenever young folks meet for a song fest, chin fest or swing session, ice-cold Coca-Cola is their symbol of companionship.

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY
COCA-COLA BOTTLING CO., OF CHICAGO, INC.

Coke is Coca-Cola
You naturally hear Coca-Cola
called by its friendly abbreviation,
Coke. Each mean the real by-product
of The Coca-Cola Company.

Consulting Engineer Lectures to ASME

Mr. Thomas S. McEwan, Chicago Consulting Engineer, keynoted last Friday's ASME meeting with a talk on "Engineering Today and in the Post-war World."

Professor R. A. Budenholzer termed his words, "A real challenge to the students of today."

Later, McEwan was asked for his comments on aspiring engineering graduates. He said that ability in the form of a good scholastic and activity record was looked for by employers. Unless the employer knows the difference between scholastic requirements of the school, he added, they just take the grades at face value.

Integral Bills Must Be Paid This Week: Nelson

Contracts for pages in the forthcoming Integral are being sent out this week to all the school organizations having pages in the book. A contract must be signed and returned by the end of this week if the group intends to have its material appear in the book. If the club fails to sign by that time, the pages for that organization may be omitted from the volume, according to Herman Nelson, editor. No engravings and copy for the pages will be sent to the printer until the organizations reply.

The price of each page for regular club organizations is \$5, while the social and honorary fraternities must pay \$10 for each one.

Clothing Drive on: Co-operation asked

An old clothing drive is being held on IIT campuses this week in conjunction with the United National Clothing Collection For War Relief.

The local drive is being sponsored by the ITSA; Don Albert in charge of the school committee.

Announcements will be placed on the bulletin boards on the west and south campuses stating the exact places of collection. The drive will end next Monday, April 31.

The purpose of this national collection is to secure the maximum quantity possible of good used clothing for free distribution to needy and destitute men, women and children in war devastated countries.

IIT Safety Council Organized To Halt Preventable Accidents

The Campus Safety Council, an organization for the prevention of accidents at IIT has been approved by President Henry T. Heald, who recently has been appointed vice-president for education of National Safety Council. The organization will be under the guidance of E. C. Woodward, who has 10 years experience in industrial personnel and safety work.

Kiva Reorganizes for Remainder of Semester

Kiva, a co-educational organization, was developed by Dr. Samuel I. Hayakawa, assistant professor of English, at the Lewis Campus in the spring of 1944. Its objective is to provide the medium for students to share common cultural interests.

The club, with Dr. Hayakawa, and Miss Ruth Severud, instructor in home economics, as sponsors, had many varied programs. Music, including jazz and classics, was studied; plays and operettas were included in their programs; and student talent was the mainstay of the club meetings.

So far this semester the club has not met due to difficulty in finding a free hour for all who are interested in attending. Joanne Nicholls, the vice-president, is busy planning many activities for the rest of the semester.

The members are mainly students of the Lewis Branch, but students from Armour are invited to come out.

Sightseeing Trip First Prize of Essay Contest

Illinois Tech students who are under eighteen years of age are eligible to enter an essay contest sponsored by *Forerunners*, a national youth organization. An all expense, three-day trip to either New York or Washington is the prize for the best 750-word statement on "The Case Against Peacetime Military Conscription." There are ten additional prizes.

All entries must be postmarked not later than May 31, 1945. *Forerunners'* address is 2929 Broadway, New York 25. For further information, see Dr. A. C. Ames of the Language and Literature Department.

Fraternities & Sororities

Four Rho Delta Rho Pledges are Initiated

An informal initiation of four Rho Delta Rho pledges took place last Friday night at the home of Herman Mirochnick, president. The four pledges are Alvin Eaton, Sheldon Schreiber, Art Alterman and Max Goldberg. Formal initiation will be held next Thursday at the Hamilton Hotel. The alumni will also be present.

A smoker will be held this Wednesday night at the Hamilton Hotel.

Sigma Omicron Goes To Circus for Rush

The Sigma Omicron Lambda sorority took their rushees to the Barnes Brother's Circus for their informal rush.

After attending the concert given by Jose Iturbi, the Lambdas took their rushees to a buffet dinner at Normandy House for their formal rush.

Theta Xi Initiates Three; Pledges Two

Three men were recently initiated into Theta Xi. They are: Bill Horn, Al Spooner, and George Underwood. Two new men, Otto Arnston and Pasquale Porcelli, are pledging. A dinner-meeting will be held Wednesday. The time and place will be posted on the bulletin board.

Triangle Announces Eleven New Pledges

At a recent meeting Triangle pledged eleven men. They are as follows; L. Branes, R. Boyar, T. Feehery, W. Fisher, R. Herter, M. Gabriel, C. Oprea, T. Pryst, J. Randis, E. Sanditedt and G. Zavodny.

A hay ride was held April 14. Joe Delaney said that, although it was rather cold, an enjoyable time was had by all attending. On April 18 the Founders Day banquet was held at Hyler's Restaurant. Among those present were the actives, alumni and pledges. A magician provided entertainment.

Kappa Phi Rushees Bowl; View Circus

Kappa Phi Delt sorority took its rushees bowling as part of their informal rush. After the bowling the party went to the Hoe Sai Gai where they all had dinner.

The formal rush was conducted

last Friday night when the rushees were taken, by the members, to the Barnes Brothers Circus where they saw the performance.

Frank Janik Pledges Pi Kapp Fraternity

Frank Janik, sophomore electrical, pledged Pi Kappa Phi social fraternity last week bringing to 11 the number of pledges to the organization. The other pledges are Robert Applegate, Ralph Belke, A/S James Brophy, Edward Cornwall, A/S Emil Donkers, Richard Lewis, Stanley Mickiewicz, Arnold Mullen, Malcolm Slaney, and A/S Calvin Zehnder.

At its meeting last Wednesday, the fraternity made plans for the forthcoming Interfraternity Council dance and is aiming at an almost perfect attendance at the affair. Three of the group, A/S DeWitt Pickens, Dick Stark, and A/S Ray Olson will be unable to attend as they are traveling with the music clubs to Pontiac, Ill.

Delts Hold Party; Pledge Two Men

An informal party was held April 14 at the home of A/S Herb Corten, president. William Pouzer and Ernest Hamilton of the social committee provided a surprise program for the evening. Plans were made for a picnic on May 6.

A/S Craig Fenton and A/S Dave Hoffman were pledged to Delta Tau Delta last week.

Gamma Beta alumni of Delta Tau Delta will meet at the shelter at 3526 S. Princeton, on May 10 to celebrate the founding of the chap-

ter.

Recent visitors of the chapter were Wyatt Coon, who is awaiting call by the navy and S 1/c John Baker, who is headed for RT school. Another visitor was the former president, Ensign Blake Hooper, who, will shortly leave for the Pacific. Brother Hooper proudly announced that he will become a father in October.

Sigma Beta Sorority Holds Rushing Party

The Sigma Beta Theta sorority, for their informal rush, gave a party at the home of Dot Vedel. Rho Epsilon and men of Dramatech were guests. The Sigmas had planned a picnic, but had to move inside because of bad weather.

The Tiffany Room of the Hotel Chicagoan was the scene of their dinner party for their formal rush. Following the dinner they saw "One Touch of Venus"

Alpha Sigma Phi Now Has Thirteen Pledges

Austin Town Hall was the place of the Alpha Sigma Phi splash party Saturday, April 14. The affair, which was attended by 20 couples, was followed by dancing and refreshments.

Present arrangements call for a weiner roast during the early part of May. Plans are also being completed for Alpha Sig's part in the Interfraternity Dance on May 26.

Arthur O'Neill, recently pledged, is the 13th pledge this semester.

They deliver the goods!

"Tanker out of control on port bow," the lookout telephones to the officer on the bridge. Ever alert, this merchant seaman and his mates transport mountains of materials to every battle front. In spite of fog, storms and the enemy, they are delivering the tools of Victory.

Until the day of Victory comes, our job at Western Electric is to keep on producing vast quantities of communications and electronic equipment to aid every branch of our wartime services. In this work, many college graduates—both men and women—are serving their country well.

Buy all the War Bonds you can—and keep them!

ITSA CONSTITUTION

ARTICLE I—NAME

This organization shall be known as the Illinois Tech Student Association.

ARTICLE II—OBJECT

The object of the ITSA shall be to administer, through its elected officers, the distribution of the monies in the Student Activities Fund as appropriated by the administration for the ensuing year, to develop unified spirit and be the instrument of student self-government at IIT, by

1. Organizing and systematizing all inter-class relations, all class customs and privileges.
2. Conducting all class elections.
3. Serving as a means of communication between the study body and the faculty.
4. Investigating and rendering opinions upon any matter brought to the organization or upon any matter which may be initiated by the organization itself.
5. Passing and enforcing such acts as it may deem advisable for the government and regulation of the student body.
6. Acting as a Court of Appeals from all sections of classes, members of committees in carrying on class activities, organizations, athletics, or any student.
7. Having full privilege of investigating the management of any student activity.
8. Fostering mass meetings at appropriate intervals.
9. Assisting in the promotion of intramural and inter-fraternity contests.
10. Stimulating interest in athletic contests.
11. Assisting the athletic department in arranging schedules, receiving and caring for visiting teams, etc.
12. Providing cheers and cheer leaders.
13. Directing and managing all matters which properly fall under the direction of such an organization.
14. Ex-officio control over the Honor Board.

ARTICLE III—MEMBERSHIP

Upon payment of tuition, any registered day-school student of Illinois Institute of Technology shall automatically become a member of the ITSA, such membership to extend until the next scholastic registration day.

ARTICLE IV—GOVERNMENT

Section 1. The government of the ITSA shall consist of a managing board known as the ITSA Board of Control.

Section 2. The ITSA Board of Control shall consist of sixteen members: eight representing Armour College of Engineering, three representing the Lewis Institute of Arts and Sciences, one representing the IIT student body, and four representing Illinois Institute of Technology.

In case the organization of the student body IIT may in the future include undergraduate groups that cannot rightly be integrated with the regular classes, the ITSA Board of Control may provide that such groups have representation on the Board.

Section 3. The representation from Armour College of Engineering shall consist of a first vice-president, a vice-president, a secretary, one representative each from each class, and the Dean of Engineering. The representative of IIT student body shall be the president of the ITSA Board of Control.

Section 4. The representation from Lewis Institute of Arts and Sciences shall consist of a vice-president, a student representative, and the Dean of Arts and Sciences.

Section 5. The representation from Illinois Institute of Technology shall consist of the President of the Institute, the Dean of Students, the Treasurer of the Institute, and the Director of Physical Education.

ARTICLE V—OFFICERS

Section 1. The officers of this organization shall be nominated in primary elections (to be held simultaneously for Engineering and Arts and Sciences students), in which any student may have the privilege of submitting his name to the ballot. The candidates nominated in the primary election for the respective offices, shall be those two students receiving the most votes in the election. In cases of close balloting (three per cent of the votes cast) three or four candidates may be nominated. The president shall be nominated from the student body of the Illinois Institute of Technology as a whole.

Section 2. The student president shall be elected by a poll of the entire student body of IIT from the candidates nominated in the primary elections. The student officers from Armour College of Engineering shall be elected by a poll of the entire engineering student body from the candidates elected in the primary election.

Section 3. The student officers from Arts and Sciences shall be elected by a poll of the entire student body of Lewis Institute of Arts and Sciences from the candidates elected in the primary election.

Section 4. The election of student officers shall be conducted by an election committee composed of the student members of the ITSA Board.

Section 5. The officers of this organization shall be elected every alternate semester and shall serve for two terms, except in the following case: The representative from Arts and Sciences, after having served two terms, shall automatically become a vice-president.

Section 6. A president of this organization must, at the time of taking office, be completing his Junior year and be ready to start his Senior year the following term.

The first vice-president of this organization must, at the time of taking office, be completing his Sophomore year and be ready to start his Junior year the following term.

The vice-presidents of this organization must, at the time of their taking office, be completing their Junior year and be ready to start their Senior year the following term.

The secretary of this organization must, at the time of taking office, be completing his Sophomore year and be ready to start his Junior year the following term.

The chairman of the commissioners shall be the ITSA representative. Senior class groups. The chairman of the commissioners shall be the treasurer of this organization.

The treasurer of Illinois Institute of Technology shall be the treasurer of this organization.

Section 7. Duties of the officers of the Board of Control: It shall be the duty of the student president to call and preside over all meetings of the Board and to perform such duties as appertain to the office of president. He shall be a member ex-officio of the Honor Board.

It shall be the duty of the first vice-president of this organization to assume charge of all committee work of the organization to decide whether any action taken by the Board is constitutional, and to perform any other necessary duties that shall fall to the first vice-president.

It shall be the duty of the vice-president from Engineering to represent his class on the board and to act as an assistant to the secretary and to perform any other necessary duties that fall to the vice-president.

It shall be the duty of the vice-president from Arts and Sciences to represent the student body of Lewis Institute of Arts and Sciences on the Board, to act as an assistant to the first vice-president, and to perform any other duties that fall to the vice-president.

It shall be the duty of the secretary of this organization to take minutes of all meetings of the Board and of the association and to keep them in bound books; and to care for any other records and documents concerning this organization.

ARTICLE VI—BUDGET

Section 1. The ITSA Board of Control shall prepare a budget to show proposed distribution of the Student Activity Fund as appropriated by the administration for the ensuing academic year. This budget shall be completed and printed in the official student newspaper before the thirtieth day of the new semester. This budget shall be prepared as follows:

(1) The ITSA Board shall set aside an amount which it deems sufficient for the conduct of student activities which are common to both campuses. These activities include publications and others which draw their membership from the entire student body.

(2) The remaining amount shall be held to meet unforeseen contingencies which may develop during the school year.

Section 2. Any balance left remaining at the end of the school year after all bills have been paid, shall be placed in a fund to be used at the discretion of the Board for any purpose contributing to the general welfare of the student body.

ARTICLE VII—AMENDMENTS

Section 1. The constitution may be amended at any time by a two-thirds majority of the student vote cast, said amendment to be submitted by the ITSA Board to a vote of the student body.

Section 2. By-Laws can be amended or suspended by 2/3 vote (8) of quorum of the Board of Control. Notice of action to be taken must be brought up at a previous meeting.

Section 3. A quorum of the ITSA Board of Control shall consist of 11 (eleven) members.

ARTICLE VIII—RATIFICATION

Ratification by a three-fourths vote of the students balloting shall be sufficient for the establishment of this constitution.

BY-LAWS

ARTICLE I—SPECIAL ELECTIONS

In case an officer resigns or is unable to continue his duties, a successor shall be elected by the Board of Control.

ARTICLE II—INTRA-MURAL ACTIVITIES

Section 1. Intramural contests comprising inter-class athletic contests, and the like, shall be under the direction of an intra-mural manager.

Section 2. The Intramural manager shall be nominated by the President of the ITSA and approved by the Director of Physical Education.

Section 3. The intramural manager must arrange intramural schedules, furnish any necessary referees, umpires, or judges, draw up any necessary rules, and make any other necessary arrangements.

Section 4. For his work, the intramural manager shall receive a major manager's award.

Section 5. All awards for intramural contests shall be approved by the board.

ARTICLE III—ATHLETIC AWARDS

Section 1. The standard major or minor "I" shall be awarded to deserving athletes.

Section 2. Standard athletic award letter for the Illinois Institute of Technology shall be SCARLET LETTER with GRAY TECH, done vertically on 1-8" block for MAJOR, 6" block for MINOR. Manager's Award shall have MGR. on base of I.

The awards shall be as follows:

1st Award
GRAY SWEATER—SCARLET LETTER
MAJOR LETTER—8" block (Light or Heavy Sweater)

2nd Award
Same as first, SCARLET LETTER, shall be considered as STANDARD.

Captain's Award
WHITE SWEATER (or Jacket, if Senior)—SCARLET LETTER. (Scarlet and Gray Combination signifies Captain of a sport.)

Graduating Senior
Choice of Sweater or Jacket (Black and Gray Reversible Jacket)—He must have earned his second, or subsequent MAJOR LETTER in his Senior year.

Jackets shall have 5" SCARLET BLOCK LETTER: Captain's Jacket shall have 2" SCARLET and 5 point star on left sleeve above wrist.

Junior Marshal Awards
5" letter with JM on base of I. White Sweater—Light weight.

Blanket Awards
All graduating seniors having won at least two (one in his senior year) MAJOR LETTERS as Athletes shall receive BLANKETS—(Gray Blankets with SCARLET LETTER and Border.)

Manager's Award
Gray light or heavy Sweater. SCARLET LETTER with MGR. on base of I. I being the same size as that awarded in his sport.

Freshman Award
Gray pullover, lightweight sweater, SCARLET NUMERALS (four across chest.)

Section 3. Recommendation for awards in any sport are to be made by the coach of that sport.

Section 4. The final decision in regard to awards is to be made by the Board of Control.

ARTICLE IV—CHEER LEADERS

The officers of the organization shall choose the cheer leaders and the assistant cheer leaders in any manner they may deem advisable.

ARTICLE V—PROTEST OR APPEALS

Section 1. The officers of this organization shall act as a committee with the President as chairman when considering all protests regarding athletics, or appeals of the classes, organizations, committees, or students.

Section 2. All protests regarding athletics shall be referred to the officers of the organization, as well as all appeals.

ARTICLE VI—APPOINTMENTS

Any appointment made by the president of this organization shall be subject to the approval of the Board.

Storekeeper Bilty Leaves for New Station at Alma College

Sk 1/c William Bilty, a member of ship's company, left IIT last Saturday to report to the Navy V-12 unit at Alma College, Michigan.

Bilty had seen service on many types of ships before coming to IIT in August, 1944, after 36 months duty in the South Pacific. He wears the Asiatic, Pacific, American Defence, European, Pre-Pearl Harbor and Philippine Defense ribbons.

Enlisting in the Navy in 1944, he was transferred to the battleship USS Maryland after taking boots at Great Lakes. In quick succession he served on the cruiser USS New Orleans, on the transport USS Henderson in the Asiatic fleet, the tanker USS

Trinity and finally the destroyer USS Stephan Potter, from which he came to IIT.

Bilty, who is from Milwaukee, Wisconsin, is married and has a young daughter. Well liked by the men of the unit, just before he left he said, "I won't get a chance to see all the fellas but I'd like to say goodbye to them and tell them I think they are a swell bunch of men."

Wilhelm Is Now Full Lieutenant

Lt. S. Wilhelm, athletic officer of the Naval V-12 unit, was increased in rank to lieutenant senior grade recently. The promotion was as of March 1, but was held up because official papers from the Secretary of the Navy's office were delayed.

Attached to the V-12 program since its conception, Lt. Wilhelm came to IIT from Denison University, Granville, Ohio, in October, 1944.

Entering the Navy as an apprentice seaman in January, 1943, he followed boot training with physical instructors school, from which he was graduated a Chief Athletic Specialist. In November, 1943, he received his commission as a lieutenant, junior grade.

Lt. Wilhelm has a Bachelor Degree from Pennsylvania (Clarion) State Teachers College, and a Master's Degree in history from the University of Pittsburg. He has also done graduate work at Harvard University and the University of Wisconsin.

Sophomore-Junior Dance Cancelled Due to Conflicts

Because of a heavy calendar around the first of June, the Sophomore-Junior all school dance will not be held said, De Will Pickens, sophomore class president. The social committee is, however, making plans for the basket picnic to be held at Miller's Beach, Tremont, Indiana, June 16.

"Combat America" will Head ITSA Assembly Program

The first of a series of three assemblies planned by the ITSA will be the film "Combat America." This production, which was directed by Clark Gable shows actual air combat in European skies.

Medical Arts Guild Has Dorothy Leitz as Speaker

Dorothy Zeitz was speaker at the Medical Arts Guild meeting last Wednesday. The topic, "Commitment to Institutions," was adjudged to be interesting by attending members.

NAVAL NOTATIONS

Quarters #1

Last Wednesday Ensign Blake Hooper paid the quarters a visit. He was enroute to New Orleans with his wife for a last few days before shoving off for the South Pacific. He has been training in subs for some time and had a lot of those experiences to tell. The boys wished him the best of luck.

Speculation has been aroused over the possible number of kittens soon to be born to the newly acquired black cat. The cat has reached gigantic proportions and is barely able to move from one spot to another. "The date is drawing nigh."

Quarters #2

Bert Brenk has added a new cat to the menagerie of Quarters No. 2. He let a large, gray animal in last week during a night watch so he could have something to play with.

Room 308 demands the distinction of being chosen beaver room of the week. Any night will find Al Aasen,

Cal Zehnder, and W. Parker hitting the books 'till the wee small hours of the morning.

Quarters #3

Bob Reeves was awarded three punches on his T.S. card last week. Bob, with a 3.8, has the highest officer rating in Quarters No. 3, but on that sad day Chief Sherer reported him as "adrift in the sack." Trying to save face in front of his disillusioned quarters mates, Reeves muttered "Must have fainted as I was making my sack."

Quarters #4

Education has definitely put its mark on two of the quarters inmates. Kurt Kuhnle and John Spence claim visits to institutions of higher learning during the weekend liberties. Apparently, the Museum of Science and Industry, the Planetarium, and the Aquarium are better for "pick-ups" than the corner of Randolph and State.

Quarters #5

The anchor-shaped patch of lilies

of the valley in the quarters' backyard has sprouted to full size and according to Bob Hynes, the quarters' horticulturist, they will bloom at the time of the Navy Ball. It is expected that the quarters garden will offer a cheap way out for corsages. The backyard will be closed to men outside of Quarters # 5 except with an escort.

"Smoothie" Petrosky and his buddy Gene Florey, two potentially dangerous operators, like to go out together. But Gene says he can't keep up with "sm-oothie."

Quarters #6

Because of their lack of interest in swimming classes as anything other than a beach party, the crew composed of Roy Golze, Mel Stidham, Chuck Porter, Tom Paulsen, Bob Petrillo, and Frank Pasek, has been broken up and distributed in other classes. Richards, Sp A 1/c, the instructor, was losing hair weekly. After being forced to swim twice, he reached the decision.

Quarters #7

The interior of the quarters has been given a bright new coat of paint, and in general, the whole place has been given a new face. One of the well known deck waxers was seen standing around doing some energetic figuring on a dime sized piece of paper while his buddy, who is rather stooped in stature and slow of talk, was planning his next operation. These two are given the quarters nominations for being the slowest men in the world, with the exception of Carl Child when he is getting ready to hit the sack at night.

ARTICLE VII—DISTRIBUTIONS

The Constitution and By-Laws of the ITSA shall be published each alternate term.

ARTICLE VIII—STUDENT UNION

Section 1. Control of the Student Union shall be delegated by the ITSA Board of Control to a Union Board composed of the following: One representative each from the Senior, Junior, Sophomore, and Freshman classes.

Section 2. It shall be the function of the Union Board to determine the policies and regulations concerning the usage of all parts of the Union Building, subject to the approval of the ITSA Board of Control.

Section 3. The operation of the bookstore, check room, and the dining rooms, shall be under the direct control of the Illinois Institute of Technology administration.

Section 4. Student members of the Union Board shall be elected each alternate term in the regular class elections.

Section 5. The term of office of each member of the Union Board shall be two terms. The Senior representative shall act as the chairman of the Board.

Section 6. The detailed administration of the policies of the Union Board shall be vested in a paid manager appointed by the Illinois Institute of Technology administration. He shall be a member ex-officio of the Union Board.

Section 7. The number of student assistant managers and student employees required for the Union shall be determined by the Manager.

ARTICLE IX—ELECTION PROCEDURES

Primary elections for class officers shall be held within three weeks of the new semester. One week previous to the primary election, each nominee shall be introduced to his class at a formal class meeting conducted by ITSA student members. During such a meeting short speeches are expected from each of the nominees.

Similarly, officer candidates for the ITSA Board of Control, who are elected by the entire student body, shall be introduced at these class meetings.
