

VICTORY IN EUROPE will have some sharp effects on life at IIT. A good part of IIT's war job has been done. From now on we will be pointing more than ever to tomorrow. We can probably expect that the new campus will become a reality soon.

CHAPIN HALL has had its face lifted with a new coat of paint. It is more pleasant to walk down the halls now with bright appearing walls. There is one particular spot in Chapin that needs attention very badly. The bottom of the light shafts have collected rubbish for a long time. If this unsightly mess could be cleaned out it would certainly improve appearances.

THE NAVY BALL has all the prospects of being a really successful affair. It is going to be the biggest social event in a year. Management of the dance has been good. The ITSA has cooperated with the navy in offering their sponsorship.

Civilian students who have been rather slow in purchasing bids should buy them as soon as possible. In doing this they will assure themselves of a good time.

THE INSTITUTE had an excellent idea when they invited the mothers to the Spring Concert. The program was very well executed. The music organizations gave their usual fine performance. I think that it would be a good plan to invite the IIT mothers to such a program each year.

Eta Kappa Nu Pledges Five

Five men were pledged to Eta Kappa Nu, honorary electrical fraternity, in a pledging ceremony last Friday in room 205, Chapin Hall.

The new pledges are: A/S Howard Poulter, A/S Sheldon Levy and A/S Alan Grant, of the junior class; A/S Edward Martin and Meyer Gilden of the senior class. During the pledging period, these men will be required to carry a light and length of cable to enable actives of the Delta Chapter to recognize them.

The principle requirement for entry in Eta Kappa Nu is a scholastic average of 2.0. Its purpose is to stimulate and reward such high standards of scholarship. It was on this basis that these men were selected as pledges.

Dr. Leedy to Discuss Noise and Its Effects

Dr. H. A. Leedy, chairman of physics research at Illinois Tech's Armour Research Foundation and director of the Greater Noise Reduction Council, will speak on "Noise and Its Effect on Human Beings" on WGN's World Homemakers program, at 2:30 p.m. on May 3. This broadcast, which will deal largely with noises about the home, the harm that they cause and how to eliminate them, is to be made in connection with Noise Abatement Week.

Dr. Leedy, who received his doctorate from the University of Illinois in 1938, is well-known in the field of research. Since the outbreak of the war, he has been in charge of Armour Research Foundation's research program on magnetic wire sound recording. He has worked on the noise and vibration study for the Chicago subway and the City of Chicago noise survey.

IVCF to Hear LeTourneau On Christian Way of Life

The IIT chapter of the Inter-Varsity Christian Fellowship will conduct a meeting Monday, May 14th at 5 p.m. in the SU Auditorium.

This week's speaker will be A/S Jack LeTourneau, who will speak on "The Christian Way of Living."

V-E Day at IIT Marked Quietly

Pres. Heald Calls for Uninterrupted Effort

Thanksgiving and continued endeavor marked V-E Day at IIT.

Short programs were held on both campuses at 11 a.m. in official celebration of Germany's capitulation. Classes were resumed as usual after the programs.

Talks by President Henry T. Heald, Lt. Royal F. Sessions, IIT V-12 unit commander, prayers by Rev. D. Roy Mathews, and numbers by the band highlighted the Armour campus program. Illinois Tech's part in the war effort was pointed out by President Heald. He also stressed that his activity would continue, uninterrupted, until final victory has been achieved.

Lt. Sessions expressed the need for and difficulty of proper administration of the enemy's lands and population. He then read a message from Fleet Admiral Ernest J. King calling for continued vigorous effort until the enemy in the Pacific is vanquished.

Three prayers, one for final victory, another for the San Francisco conference and an indictment of war, were delivered by Rev. Mathews, professor of history.

Patriotic songs and short talks by Drs. David Boder, Judson Lee, Edward Wagerknecht and Dean J. C. Walker marked Lewis's V-E program.

The importance of tolerance in the post war world was stressed by Dr. Lee in his address. Dr. Boder called for understanding and cooperation to continue after final victory. A prayer by Dr. Wagerknecht ended the celebration program.

Carbon Tests Nearing Finish

The physics department is nearing the completion of its study of carbon-black. This work is a phase of the Burgess Battery project, whose purpose is the study of dry cell materials. With the aid of the electron microscope, it is possible to determine if a test sample of carbon-black will cause high internal resistance. High internal resistance shortens the life of the cell.

Previously, the only method of testing the material was to make up trial cells and observe them in use. This often took as long as six months. Now, carloads of carbon-black may be tested in a short time by sampling. The results obtained have been very satisfactory.

The work of the project had been carried on by Mr. Carroll Lufey. Work of a confidential nature is to be set up for at least another year.

Hayakawa's Jazz History Is Ready for Distribution

The demand for Dr. S. I. Hayakawa's booklet, entitled "Reflection on the History of Jazz," has been very heavy according to Estella Shulse, News Bureau secretary, who is filling the requests for this article.

More than 1,000 copies have been ordered and these orders will be filled within a short time. It is expected that many more people will write for this booklet.

Any student interested in this booklet may come to the News Bureau within the next two weeks and receive one such booklet free of charge.

Hayakawa is a professor of English at Illinois Tech.

Mothers' Day Program

GIVING FLOWER—A/S Leonard Vogt, of Cincinnati, Ohio presents a rose to his "mother-by-proxy" Mrs. Henry T. Heald, wife of the president, at the Mother's Day program held Friday.

Many Mothers Entertained at IIT's Annual Spring Concert

Approximately 200 mothers of students enrolled at Illinois Institute of Technology were feted Friday morning at the annual spring concert of the campus music clubs.

A/S Trent Knepper set the theme of the concert by singing the introductory musical number, "Mother O' Mine," after Dean Linton E. Grinter had welcomed the mothers to the IIT campus.

Planned by Dean C. A. Tibbals and O. Gordon Erickson, director of music clubs, in honor of Mother's Day, the program included both musical numbers by the band, orchestra and glee club and a special Mother's luncheon. Deans J. C. Peebles, E. T. Walker, C. A. Tibbals, and L. E. Grinter acted as administrative hosts at the luncheon.

This program marked the first function to which mothers of students have ever been specifically invited.

Professor Thomas To Replace Dr. Reed During Coming Year

Prof. M. A. Thomas, of New Mexico State College will take over Dr. Myril B. Reed's classes beginning Wednesday. Dr. Reed has a year's leave of absence for war work in the East.

As chairman of the electrical engineering department at New Mexico State College, Prof. Thomas has been connected with the institution since 1929. He has been granted a leave of absence so he may come to IIT.

Dr. Reed will be attached to the technical staff of the Bell Telephone Company. He will work on the development of filters and other equipment connected with multiplex telephony by means of co-axial cable.

Having come to IIT in 1938 from the University of Michigan, Dr. Reed has published a text on electrical engineering. He is assisted in his work by his wife, who is also an instructor at IIT.

FPE's to Honor Prof. Finnegan

A dinner commemorating Professor Joseph B. Finnegan's forty years of service in the department of fire protection engineering is being planned in his honor by the Fire Protection Engineering Society, professional society composed of students and alumni of the department.

Attendance will be limited to students and faculty in the department and all FPE alumni, and also a few special guests. The dinner will be held at the Chicago Bar Association, 29 South LaSalle Street, at 6:30 p.m., Monday, May 28, according to John J. Ahern, '35, chairman of the committee making the arrangements. Reservations should be made with John Hommes, '29, committee secretary, o/o Western Actuarial Bureau, P. O. Box 1089, Chicago 90.

The proposed celebration has stirred considerable interest among alumni of the department and it is expected that practically every FPE alumnus in Chicago will be present, in addition to a considerable number from out of town.

Professor Finnegan, a pioneer in his field, is completing forty years of continuous teaching in the FPE department, having come to Armour Institute of Technology in 1905. The department was established in 1903, and the first class to receive degrees of BS in FPE graduated in 1906.

Illinois Tech is the only school in the country having an established four-year engineering course in fire protection engineering leading to bachelor of science degree. Alumni of the department now number over 500.

Lifted Curfew Aids Navy Ball; 300 Bids Sold

Change Starting Time To 9:30; Probable End Is 1 A.M., Says Wright

The Navy Ball's starting time has been changed to 9:30 p.m. announced the ball committee.

The lifting of the curfew last Wednesday by Fred Vinson, Director of the Office of War Mobilization and Reconstruction, has made possible the more convenient time of the ball.

Dancing will begin at 9:30 p.m. instead of 8:45 p.m. and last until 12:30 a.m. instead of 11:45 p.m. It is probable that the dance will be extended to 1 a.m., said Jack Wright, co-chairman.

The lifting of the midnight curfew and lighting "brownout" has affected the sale of bids favorably. Over 300 bids have been sold already announced the committee. The sale of 400 bids is needed to put the ball in the "black." It is expected that this number will be reached before the dance.

The sale of bids to civilian students has lagged. The navy sales are proportionally far ahead of civilian sales, due in some cases to postponement of buying bids. The committee stated civilian support is necessary to make the ball a true success. Students are reminded by the committee that the Navy Ball is an all school affair.

As before bids will be on sale daily from 11 a.m. to 2 p.m. in the Student Union lobby. Bids may also be purchased at any time from Jack Wright, Wit Kosicki, Don Albert and Allan Kukral. Bids will be on sale at the door.

The same arrangements for orchestra and organist will be kept. Leo Terry will be at the organ 20 minutes before dance time to play. "This has been done to get the late comers to arrive earlier and provide the early arrivals with entertainment," said Wit Kosicki, co-chairman.

Henry Brandon's danceable music and his vocalists Karen Ford will insure an evening of delightful entertainment long to be remembered, said Wright.

Seniors Plan Unusual Program for Stag

A senior stag will be held Wednesday night at 7:30 at 1536 63rd St., said A/S Jack Wright, senior social chairman.

Liberty until 1 a.m. for navy men who attend has been secured. Men planning to attend must purchase tickets from Wright by tomorrow afternoon.

"Something unusual in the way of stag entertainment has been planned, and all who attend are assured of a good time," said Wright.

Eight Men Pledged to Alpha Lambda Pi Club

Alpha Lambda Pi (Polish Club) informally initiated eight men into its ranks. The affair was held at a private home.

Those initiated were: Richard Lewandowski, Richard Baginski, Casimer Dziedzic, Edwin Wojcik, Gerald Garnavale, Hubert Kubak, Raymond Bartnik, and Leonard Jateczak.

A formal initiation is being planned for May 20. The ceremony will take place at the Lawson YMCA after which the club will go to the Tiffney Room of the Hotel Chicagoan for a banquet.

The Last Thread

This is "Faculty vs. Student Week", and as the students are continually at blows with the professors of higher knowledge, this will come as no surprise. If the professors can summon enough nerve and come into the open, a select group of students will duel with them with cream puffs at twenty paces. I am sure they will not disappoint me by losing to the students.

A/S Ralph Raming undoubtedly takes the best economics notes in the school. The most prominent page in his notes reads as follows: "Margie, I love you more than the sun loves its shining rays, more than the moon loves its starlit sky, more than the ocean loves its white capped waves, more than !!!" Just where does Alverdia fit into the picture?

A/S H. Wickham and A/S D. "Swamie" Swanson of Quarters #1 are having a gay time dating a certain Barbara. Swamie dates Barbara on Saturday and Wickie dates her on Sunday. As proof that he had a heavy engagement last Saturday night, Swamie brought back a pair of ladie's skivies. Adding to the confusion is the fact that Wickie has a girl back home who is waiting for him and who thinks that he is loyal to her.

The 'tallest' story of the week concerns the Edgewater Beach Service League. It seems that a few months ago the Servie League had a tea dance on a bright Sunday afternoon. One of the girls is a beautiful specimen of Amazonian activity; she stands only 6'2" tall, and by some queer, freakish coincidence she is called "Alice the Goon". Of course Alice is a good name in itself, but the rest of the phrase is the most descriptive: It seems that Alice is out for tall men, and at the dance in question A/S Maurice Anthony got hooked. A month later the same performance was repeated with A/S Fred Leydig as the star attraction. But these boys just kept quiet, and last week-end A/S Ray Winkler joined the ranks of those "gone with the Goon." Poor Wink! This should be sufficient warning to all those males over six feet tall.

If you have noticed the gleam in the eyes of Bob Pritzker, junior industrial, it is because he claims the honor of being the most patriotic man (?) on the Armour campus. In a determined effort to hasten the end of the war by saving gas and tires, Bob dates a girl who lives 'just around the corner' from his residence. After snuggling thru a show in the balcony of a loop theater, Bob immediately drove to a spot along the lake front which he claims will make even the 'cold girls' romantic. Bob said that his date offered no resistance to his pincer movement; in fact, it was "unconditional surrender."

Someone who has taken good advantage of the manpower situation is Ted Pryst. Ted is practically engaged to a little miss who answers to the name of Pat. Being very fickle, Ted had a change of heart and has fallen for another. Now he is in a haze as how to get Pat to return his ring and still be friends with her. In the meantime his 'new love' is wondering why he has kept his supposedly sore "ring" finger in bandages for such a long time. If there is anyone who can help Ted out of this embarrassing situation please get in touch with him at once.

A/S Chester Zdanowicz has had his first date and it was love at first sight. Chester dates this girl every week and for more than one reason. If he should not take her out some week-end, Paul (P.P.) Martin, who also is madly in love with this cute Bohemian girl, is all set to take over. In order to be more comfortable, Chester's girl removes her blouse whenever, wherever, and whenever they may be necking. Being a lad with very high morals, Chester does not do anything besides neck.

If you saw a mob gathered around A/S Fred Olson last week, it was merely those hero worshippers who were waiting to touch a genius. Fred had received a 100 on a math 202 exam.

People are beginning to wonder about A/S Bob Thurston who has been constantly seen in the company of a certain blond coed. He was recently seen with her, playing ball in back of Chapin Hall and has been observed at times sitting in a quiet corner helping her with her school work?

I am in the midst of a technical conversation which is too involved for you average students. So I must close this column so that I may convey my professional knowledge to the participants.

—MOLE

No School Spirit

Last week, a June 1941 graduate, who is now in the Army, visited the campus and the uppermost question in his mind was to find out the burying place of the old school spirit. He wanted to pay his last respects. The only answer we could offer was that there hasn't been any of it around the campus in a long while. No one seemed to know just what had happened to it.

In the first place, with the influx of V-12 students and the Army's call to arms of the majority of civilians, school spirit has become virtually extinct.

The V-12 fellows, aside from those who attended IIT as civilians, didn't ask to be sent here to further their education. They would much rather have been sent to some of the larger colleges or universities in the country because of the wonderful surroundings and so on. They were sent here for a definite purpose, and that was to get a top flight education, and in so doing, be able to serve their country in a greater capacity later on. If things don't go to suit themselves, they gripe to one another instead of bringing their complaint to some one or group which could help bring about reforms. It is every student's duty to find out why things are as they are.

The civilian student, mainly the freshmen and sophomores, fail to take an interest in school affairs because they feel the draft board breathing heavily on their necks and in perhaps a month or two they will be gone.

Typical example of the point we've been trying to drive home is the current intramural program. Norm Schmitz has done all in his power to make it a success by placing notices about the school and the response was terrific. A total of thirteen teams, four senior and three navy, entered. Games and times were given space in the already crowded sports page, and either one or the other team showed up ready to play but not both simultaneously. The result was forfeits, showing an extreme lack of interest on the part of the student body.

The freshmen failed to show any interest in class elections and much time was spent in getting together. Several weeks ago the baseball squad played Concordia on Ogden Field. Student spectators numbered well in the tens and these were all V-12 students.

Some will say that the only valid reason for keeping sports alive at all is to benefit the participants. These are school organizations, and students who are unable to compete in these various sports should take pride in their accomplishments.

The above stated facts are reasons why school spirit will remain dead. The only solution is for students to cast off that "I don't care" attitude, but fast.

—PYPE

Man Of The Week

Jatczak, Senior M. E., Is Social Chairman and SAM President

December 27, 1925 was the beginning of an eventful and so-far successful career for Leonard Jatczak, senior mechanical engineer. Born in Chicago, he attended Falconer Elementary School on the northwest side of the city. He entered Lane Technical High School in 1939 and immediately became active in many school activities. He was on the debating team and a member of the National Honor Society, which requires a high character and service record in addition to an excellent scholarship record. He was a staff major in the ROTC unit, and in his last term, his fellow students

showed their opinion of his character by electing him class treasurer. During that term he was also personally responsible for over three thousand dollars of class and school money.

In February, 1943, immediately after graduating from Lane, Leonard entered IIT. In his freshman year he restricted his outside activities to participation in intramural baseball. During his second year he became a member of the ASME and

in his third year he was pledged to Pi Tau Sigma, honorary ME fraternity. He also became a member of the SAM and is now president of that organization. As a senior he is social chairman of the 4B class and is responsible for the highly successful 4B stag which was held a short while ago. He is also a newly initiated member of the Polish Club and is on the editorial staff of the Integral.

Throughout the time he has spent here, Jatczak has been active in student aid. He worked for Coach Stenger for several terms, and in his second year he marked economics papers for the ASTP unit which was then stationed here. He has managed to maintain a 2.46 average.

Only one thing remains a mystery about Leonard, and that is how this tall, good-looking fellow, with slightly wavy brown hair has managed to keep from getting hooked by some discerning female.

—ALBERT WENGERHOFF

... Techman Talking

R. A. Budenholzer, Asst. Professor of Mechanical Engineering

Since my arrival at Illinois Tech in 1940, I have heard much comment concerning the new building program which has been proposed for improving the physical facilities of the Institute. That this should be so is not surprising since improvements in physical plant are easy to visualize. However, improvements in the educational program are even more essential if Illinois Tech is to create and maintain its place as the leading engineering school of the middle west.

My observation of the trend of engineering progress leads me to conclude that engineering has become a science in which guesswork and rule of thumb are almost entirely obsolete. In modern engineering, where competition is abundant, a factor of safety of five or six will no longer be acceptable as an insurance policy against lack of knowledge.

Because of the great technical ability, resourcefulness, and ingenuity which will be demanded of engineers in the future, it seems to me that only those especially qualified for its responsibilities should be permitted to pursue a course of study required for entrance into the engineering profession. Engineering schools should make every effort to help guide those who do not have the desire or aptitude for engineering into other lines of endeavor, and to encourage those who do, to the limit of their capacity. This is a goal toward which I believe Illinois Tech is striving.

Every conscientious student of engineering, recognizing the importance of his profession to society, should bend his efforts towards improving that profession. This improvement can gradually be realized if engineering schools exercise constant vigilance with regard to those who are admitted, and if the faculties of these schools encourage the students, by virtue of their own example, to take part in meeting of the technical societies and in general to uphold the dignity and ethics of the engineering profession.

Illinois Tech Baseball Squad Loses to Western Michigan, 8-0

Krupa Drives Homer Over Left Field Fence; IIT to Meet Shore Patrol Here Saturday

Illinois Tech's baseball team lost its third game of the season to a powerful Western Michigan nine, 8 to 0, at Greenwood Field last Saturday.

Tech staged a brief rally in the 7th inning when Bob Bushelle pinch batted for Bob Houser and slammed a long single down the right field line. Stidham flied out and Gene Evers, who relieved Bud Kravalec in the 5th, connected for a single, Bushelle going to second. Pyzek hit a single advancing the runners but Bushelle was out trying to score.

Bill Maxwell of Western Michigan had fine control, pitched 1 hit ball for 6 innings, the one hit accounted for by Murphy in the first inning. Murphy performed flawlessly afield; made two spectacular catches against the fence in left center.

Ted Krupa, left fielder for Western Michigan, pounded out a double in the second and a terrific home run with none on in the fifth.

Disproving the belief that pitchers can't hit, Bill Maxwell pounded out a triple clear to the right field fence in the 4th frame.

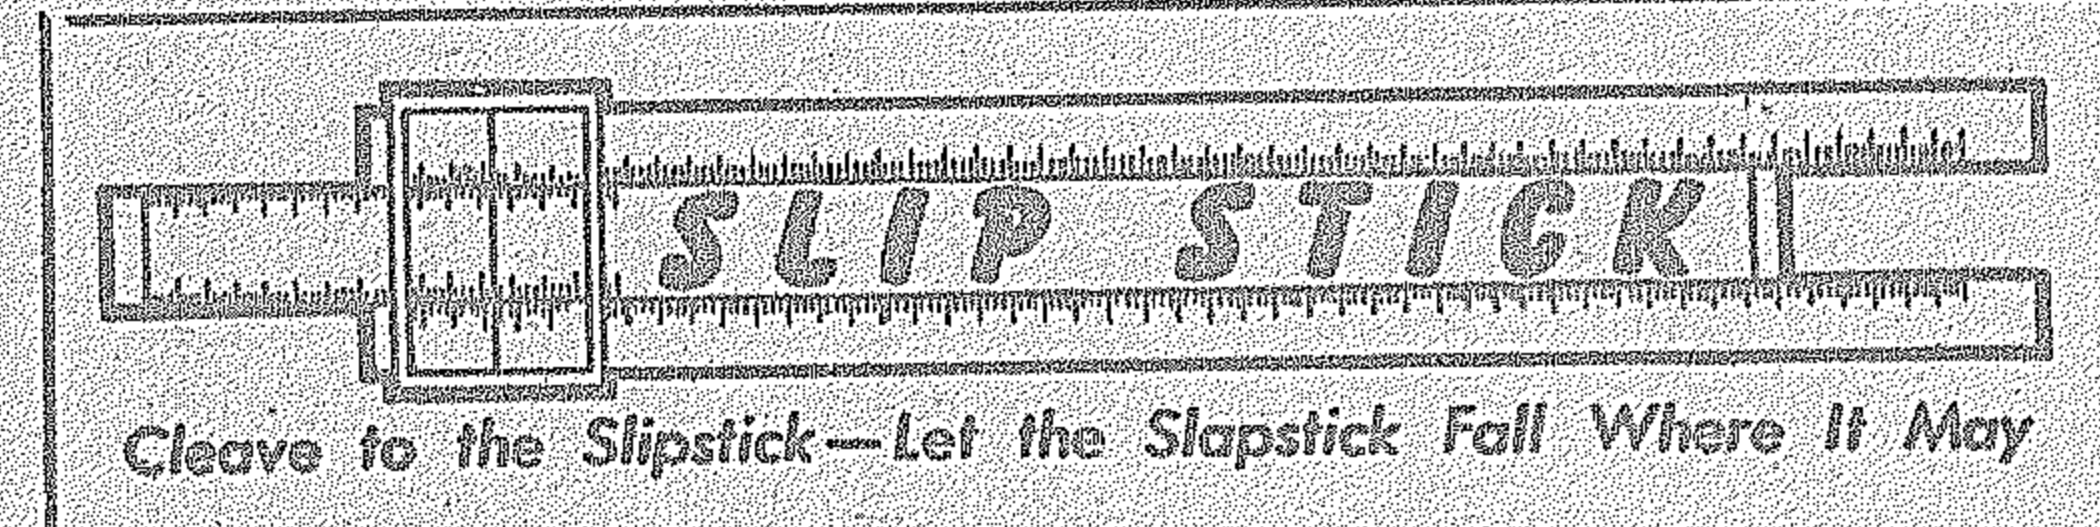

There will be an intrasquad game Tuesday in preparation for next Saturday's encounter with the Shore Patrol. The Slightly Irregulars, led by "Wooden Arm" Weissman, hurler extraordinary, will be pitted against the Slightly Regulars with "Base on Balls" Evers on the mound.

Errors: Western Michigan—1; Ill. Tech—4
Left on Base: W. Michigan—7; Ill. Tech—9

We dedicate this column to the perfect girl. The girl no fellow expects to find, but has lots of fun hunting for.

Professor: "If you start at a given figure and go all the way around it, what will you get?"
Freshman: "Slapped, sir."

Nurse: "Whom are they operating on today?"
Orderly: "A fellow who had a golf ball knocked down his throat at the links."

"And who is the man waiting so nervously in the hall?"
A relative?
"No, that's the golfer. He's waiting for his ball."

Co-ed on shopping tour: "Where can I get a silk covering for my settee?"
Floor walker: "Lingerie — next aisle and to the left."

Wabbits
Wabbits have such funny faces, their private lives are such disgraces, OO'd be surprised if oo but knew, The awful things that wabbits do— and often too.

They say a chorus girl has her ups and downs but that she is never flat busted.

We hate to be mauled and mangled, By the sailors who pay us a call,

But we'd rather be mauled and mangled, Than not to be loved at all. "I call my boy friend 'Stag.'" "Why?" "He's a dear with no dough."

A wedding carriage was seen driving through the streets of London the other morning. Inscribed in chalk on the back were the words, "Result of Careless Talk."

Two London charwomen were discussing the inconveniences of the blackout. "But it's a necessary evil," said one, "Else we're likely to be blasted into maternity."

"Tis so," said her companion, "But the worst of it is, we'd never know who done it."

"How did the accident happen?"
"I was hugging a curve."
"Yeah! That's the way most of them happen."

Have you heard the one about the air raid warden who took advantage of the girl who was so dumb she didn't know anything about "artificial respiration."

V-12 to Represent IIT in New League

Two weeks ago, sport leader representatives from the various navy schools and training bases in Chicagoland met and formed the Ninth Naval District Service League. This sports league will hold tournaments in various sports strictly for Navy men. Teams entered are: Navy Pier, Illinois Tech V-12, Inspectors of Materials and Naval Intelligence. Sports to be played are 12 inch softball, tennis and golf. Other sports will follow.

The Navy Welfare Fund will pay expenses, transportation and entry fees while the equipment is to be furnished by the league itself.

The 12 inch softball tourney will begin on May 23. Eight teams are to be represented and all games are to be played in Grant Park from 5:30 p.m. to 6:00 p.m.

The plans also calls for 6 tennis teams.

The golf tourney is to start the first week in June and all eight teams will be represented.

Three IM Tournies To Commence Soon

Norm Schmitz, intramural manager, has announced a new series of tournaments in golf, swimming, and track.

The date and the course on which the golf tournament will be played have not yet been determined. The general procedure will be to play a qualifying round on a Sunday, and the following Sunday giving handicaps for the final round. There will be no team entries. Individuals wishing to enter must deposit their entries in the intramural box in the SU lobby on or before Friday May 18. No entries can be accepted after this date.

The swimming tournament will include all classes, navy quarters, and fraternities. The date and place of this contest will be announced when arrangements have been made with a local natatorium. As in the golf tournament, there will be no team entries. Individuals wishing to swim in the tournament should place their entries in the IM box in SU lobby on or before Friday, May 25.

The track meet will be run on IIT's Ogden Field track, on a date not yet determined. As in the other tournaments, no team entries may be made. Entries must be placed in SU lobby box on or before Friday, May 25.

Pi Kaps Best Sammies In Inter-Frat Game, 14-4

In the first inter-frat softball game of the season, the Pi Kaps overwhelmed Sigma Alpha Mu by a score of 14 to 4. The Pi Kap attack was led by A/S Jack Capron and Len Donarski, who connected for circuit blows, driving in a total of 5 runs between them. Howie Johnson hurled for the victors and was never in any trouble. Ed Robins pitched for the losers and his cause was hampered by numerous Sammie errors.

INTRAMURAL SOFTBALL SCHEDULE

- Monday—5 p.m.-6 p.m.
Senior Electrical vs. Soph Bums
East Field—North Diamond
Eager Beavers vs. Junior Outcasts
East Field—South Diamond
Tuesday—5 p.m.-6 p.m.
Quarters #1 vs. Senior Mechs
East Field—North Diamond
Senior Chems vs. Quarters #5
East Field—South Diamond
Wednesday—11 a.m.
Arx vs. Soph F.O.'s
West Field
—5 p.m.-6 p.m.
Junior Outcasts vs. Soph Bums
East Field—South Diamond
Eager Beavers vs. Quarters #1

Friday—5 p.m.-6 p.m.
Senior Mechs vs. Quarters #5
East Field—North Diamond
Senior Chems vs. Arx
East Field—South Diamond

Netmen Off to Flying Start! Defeat Concordia Twice

Celebrate Jerry Evert's Return By Two Overwhelming Victories, 4-2 and 7-0

Making a strong comeback after suffering three losses in a row, the netmen whipped Concordia twice this week by scores of 4 to 2 and 7 to 0. Dave Afton continued on his winning ways by defeating Rill of Concordia 6-1, 6-2. He has yet to taste defeat this season. Jerry Evert, recently discharged from the hospital after an attack of scarlet fever, turned in his usual fine brand of tennis play by winning in both matches 6-0, 6-2; 6-1, 6-1.

Tech Loses to Marquette

The Techawk track team had an off day last Saturday and as a result lost to Marquette University 103 1/4 to 27 3/4 at Milwaukee. The lone bright ray was the fact that Co-captain Bob Thurston won the 880 yard event, with a time of 2:03.8 which was the only first recorded by IIT in the meet. Norm Hankins scored a second in the high jump, the 220 yard dash, the pole vault and a third in the 100 yard dash event to lead the Tech scorers. Jack Hammach suffered his first defeat of the season in the 440 yard run in which he placed second. Paul Finger ran second in the mile and third in the two mile events. Dick Papps recorded 2 seconds in the pole vault and broad jump events.

The squad will journey to Appleton, Wisconsin where they will engage Lawrence in a duel meet Saturday.

ONE MILE RELAY—Won by Marquette [Thoren, Wallace, Kauth and Duncan], Time, 3:33.7.

JAVELIN—Won by Wiesner, Marquette; Baerwald, Marquette, second; Niemi, Illinois Tech, third. Distance, 148 feet, 9 1/2 inches.

DISCUS—Won by Richardson, Marquette; Kaminski, Marquette, second; Dick, Marquette, third. Distance, 123 feet.

MILE—Won by McCarthy, Marquette; Finger, Illinois Tech, second; Lindahl, Illinois Tech, third. Time 4:41.2.

SHOTPUT—Won by Richardson, Marquette; Kaminski, Marquette, second; Ezzell, Illinois Tech, third. Distance, 46 feet 9 inches.

440 YARD RUN—Won by Kauth, Marquette; Hammach, Illinois Tech, second; Duncan, Marquette, third. Time, :52.

HIGH JUMP—Won by Wiesner, Marquette; Hankins, Illinois Tech, second; Glaesner, Marquette, and Sayles and Waite, Illinois Tech, tied for third. Height, 6 feet 5 inches.

100 YARDS—Won by Beaudry, Marquette; Wallace, Marquette, second; Hankins, Illinois Tech, third. Time, :10.

120 HIGH HURDLES—Won by Sharpe, Marquette; Ulrich, Marquette, second; Gantz, Marquette, third. Time, :16.4.

380 YARDS—Won by Thurston, Illinois Tech; Qinsay, Marquette, second; Stromquist, Marquette, third. Time, 2:03.8.

220 YARDS—Won by Wallace, Marquette; Hankins, Illinois Tech, second; Kauth, Marquette, third. Time, :22.1.

POLE VAULT—Won by Baerwald, Marquette; Hankins, Illinois Tech, second; Papps, Illinois Tech, third. Height, 12 feet 6 inches.

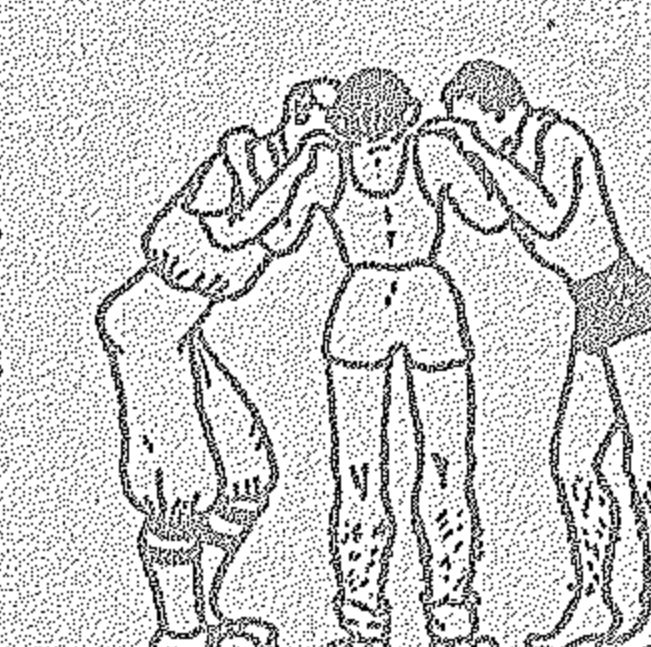

TWO MILES—Won by McCarthy, Marquette; Dick, Marquette, second; Finger, Illinois Tech, third. Time, 10:27.6.

BROAD JUMP—Won by Wallace, Marquette; Beaudry, Marquette, second; Papps, Illinois Tech, third. Distance, 21 feet 5 1/4 inches.

220 YARDS LOW HURDLES—Won by Beaudry, Marquette; Ulrich, Marquette, second; Sharpe, Marquette, third. Time, :25.7.

V-12 Team Entered in Grant Park League

The newest activity is the 12" softball team now being formed. The team is wholly composed of navy men from the Illinois Tech V12 unit and is coached by SpA 1/c Richards. Practice began last Friday with the first game scheduled to be played in two weeks. They are playing in the Grant Park League.

the SPORTS HUDDLE

By H. Fyfe

The inter-fraternity softball tournament is in full swing once again. The navy league plans to get under way in the near future. All that remains for the campus to become softball minded is for the intramural tourney to get off on the right foot. The entries have dwindled down to ten teams and this should make for a closer race.

If and when the IM champs are decided, why not have them play the inter-frat winners for the school title?

Everyone seems to be interested in the proposed plan for reconditioning the tennis courts, but as yet not a one has offered his services. Maintenance is supposed to have a man detailed to take care of them, but so far, nothing has been done.

The tennis team looks great. Bolstered by the return of Jerry Evert, they should go on to one of the best seasons in Tech history. Jerry and Mike Vogt form a doubles combination which shall be extremely hard to beat.

TECH TIME TABLE

All items appearing in Tech Time Table will be those which are scheduled with Dean Tibbals. No other items will be used.

MONDAY, May 14	Armour Eye, 5:00 p.m.
	ITVCF, 5:00 p.m., AH
TUESDAY, May 15	IFC, 5:00 p.m., 105C
WEDNESDAY, May 16	Math Club, 11:00 a.m., 111C
FRIDAY, May 18	Alpha Chi Sigma, 11 a.m., AH
	ASME, 11:00 a.m., 220C
	ITV, 1:00 p.m., 108C

FOUR Corresponding Navy and Illinois Tech Courses Are Listed as Student Aid

In order to clarify any doubts in the minds of the students concerning the navy courses and the equivalent IIT courses, the navy office has sent out the following memorandum.

NAVY	IIT	NAVY	IIT
CA 1	Mech 201	EE 5b	E.E. 310

Post Officer Ratings Today

Final officer qualification ratings for the navy trainees for this term will be posted today, announced Lt. Royal F. Sessions.

Ratings for eighth term men will be sent to the Bureau of Naval Personnel, while those of men who are to remain here will carry over to the next semester. These gradings are cumulative and remain with the trainee until he leaves V-12.

Based on 4.0 as perfect, a rating less than 2.5 means automatic separation from the program. Men who have low officer qualification scores may raise them between the two times a term they are posted.

The trainees are rated by the four athletic specialists, the commanding officer and the executive officer. The average of these ratings is the trainee's final officer qualification score.

Painting in Chapin Hall Now Finished

A crew of three men have been painting the corridors in Chapin Hall. The job took 10 days to complete and required 20 gallons of paint. The new color scheme of gray and cream was chosen because it was found to cause less eye strain and give better light refraction than the brown and cream used before.

Although the classrooms have not been painted for more than two years, they can't be painted at the present time because of the heavy class schedule. There are no empty rooms in which to hold classes while the painting is going on.

Soloist

BARITONE—A/S Trent Knepper the soloist at the Spring Concert held last Friday.

Mr. Dolce Teaches Variety Of Dances at Ranch Party

A dude ranch party was held in the west campus gym last Wednesday from 10 a.m. to 12 noon.

The affair was sponsored by Mr. John Dolce, physical education instructor. A variety of dances were planned and taught by Mr. Dolce, assisted by Miss Henriette Trude.

It was the first west campus all-school affair in the past two years and met with the enthusiastic approval of those attending.

Professor Goodman Gives Talk at ASRE

Professor William Goodman of the mechanical engineering department spoke to a meeting of the Milwaukee chapter of the American Society of Refrigeration Engineers last Tuesday.

The title of his talk was "Practical Application of Recent Developments in Theory to Design of Air Conditioning Systems."

Goodman, who has been a member of the Illinois Tech faculty since last November, is also active on several committees of the American Society of Heating and Ventilating Engineers.

Before coming to Illinois Tech, Goodman was with Crane Co., La-Cross, Wis., for over 10 years. He holds a BS degree from Armour Institute.

Spring Breakfast to Be Held by Woman's Club

The Illinois Institute of Technology Woman's Club will hold its annual "Spring Breakfast," May 9, in the Georgian room of Carson Pirie Scott & Co., at 11:15 a.m. Mrs. Joseph B. Finnegan, president, announces that the club will elect next season's officers at the meeting.

Monica Miller will give a program of dramatic readings, which will be recorded on the magnetic wire recorder developed at Illinois Tech's Armour Research Foundation.

Medical Arts Guild Holds Symposium This Week

Members of the Medical Arts Guild will participate in a symposium on medicine at their next meeting on Wednesday. Refreshments will be served after the meeting.

Members should remember the picnic on Sunday, May 20 at Brookfield Zoo. Those who go should meet at Roosevelt Road and Central Avenue at 10 a.m.

IRE to Use Rho Epsilon Quarters for Construction

The IRE, formerly the Radio Club, will use the Rho Epsilon quarters for its laboratory work.

Rho Epsilon has granted permission to the IRE to have its members work in the labs to construct and repair radios. The schedule will be the same as the one set up for the Radio Club. The schedule was published a few weeks ago.

NAVAL NOTATIONS

Quarters #1

Spring fever seems to have hit Calvin Rhodes a telling blow this year, or is that haggard look the result of many dates with Veronica, "the most wonderful girl in Detroit"—not to mention the many Chicago girls.

Most of the quarter's ME students were at the ASME conference at Northwestern last Friday. Though John Erickson delivered an address in the afternoon session, it is rumored that his quarter's mates did not make the trip just to hear him speak.

Quarters #2

A young pup named Pepper is the latest quarters mascot. A white and tan companion of Salty of Quarters #5, Pepper bids fair to become a most eager trainee at morning calisthenics. He was initiated into the quarters with several baths by Fred Laydig and J. Lehnen accompanied by continual feeding of milk, courtesy Don Gipple and Dick Maloian.

Yvonne DeCarlo, the movie actress, called the quarters last week asking for Al Houser. Al called back later and was invited to meet the young lady and "come and get a surprise." The lady at the other end sounded very convincing, said Al, but he didn't go.

Quarters #3

Strong as he is, there are many who have doubted Alfred Kristofferson's ability to lift three men—even on a blanket. Latest to join the ranks of "middle man" is Claude Buster. Buster was so overcome with the beauty of the abdominal art work executed on his quivering torso that he could hardly move.

Though they have received little notice, the Quarters #3 camera club

is large and active. Claiming nearly one-third of the quarters men as members, the club has a complete darkroom and traffic jams with members during recreation hours.

Quarters #4

Don Larson holds the signal honor of being the prize mathematician of the quarters. Don can add on the slide rule. His proficiency in this art is illustrated by his getting a sum of 7 after adding zero to 6. He can also multiply and divide by zero. Ten times zero divided by zero equals 10. "Only it should have been 6" says Don.

Quarters #5

Sp (A) 1/c Richards has learned to expect just about anything after walking in on Norm Reisinger, John Christensen, Vic Mieszkowski, and the rest of the third deck gang basking in the luxury of a turkish bath. It's all due to our overheating furnace, but Vic says he lost ten pounds so it apparently does the work. "All that's lacking is a masseur," said Reisinger.

It takes a course in mechanics and production processes to do laundry in the quarters. Since the "new" machine's roller has broken, the old power house machine has been secured alongside. With both motors grinding away the song of the sweating scrubbing trainee can no longer be heard. Maybe that noise is better noise.

With all the teaching in dancing the boys have been getting under the capable hands of Bud Sichel, they ought to really start at the Navy Ball. Kenneth Edge has that "Sichel step" down pat—finally. It has been suggested that the light footed youngsters try the Rialto.

Quarters #6

Sunday night Roy "Snappy" Golze proudly flashed a flowered garter around quarters.

He had taken a ride from the Loop with a girl in a Buick—and excuse looks pretty feeble in the light of these circumstances.

Fred Flory, Whitey Hassler, Herb Schnabel, and Terry Rice had ridden Glen Boston for several weeks because he was seen in a car with three girls—Glenn in the back seat alone. Thursday, a V-8 with three girls picked up these four IBO's at school. One hour later in front of Quarters #6 they had not been able to get out of the back seat.

Quarters #7

Dick Lander one night last week was rudely awakened by Ned Grable, who had blood in his eyes. In his bewilderment, Dick couldn't figure it out. Seems that Ned had spent a goodly portion of the night with his mattress on deck as a result of a lack of springs in his bunk. But Dick quite gladly reports he knows nothing of it. Ned's room mates suggest Gromelins may be haunting their humble abode.

Reintroduced to the boys of Quarters #7 this last week was Alan Grant just returned from a short stay at the hospital, the reason being a new brush cut.

Ray Olson and Tom Burt have been discussing nothing but Navy Ball of late, and Ray has now almost talked Tom into showing off his belle at the Ball.

Combat wire moving up in a hurry!

Every unit ties in by telephone to report on contact between companies, and to discuss the next move. That means combat telephone wires must be laid down with every forward push. And communications crews must work continuously repairing the breaks in lines torn by tanks and amphibians and blasted by artillery and mortars.

Our Armed Forces still have urgent need for huge quantities of communications equipment of all kinds. That's why there is a wait for home telephone service.
