

NOW THAT the majority of the class officers and ITSA representatives have been chosen it would seem an opportune moment for Tech students to realize that there is a student government functioning at IIT. In the past few terms a minority of the students turned out to vote and still less supported the student government during the term. This fact became obvious when the navy men were asked to support the ITSA and only one-half of them were willing to contribute the dollar membership fee. Now is the time for the majority of IIT men to realize just what the ITSA does. In the first place it sponsors the majority of social affairs; it sponsors *Technology News* and the *Integral*; it sponsors various intramural contests and provides awards for the winners; and most important of all is the fact that it serves as the connecting link between the students and the administration. Let's all get out and support the ITSA 100 per cent this term.

Underclass elections got off to a very poor start last Friday. As it has been in the past, the sophomores and freshmen were entirely devoid of any interest in supporting their classes. Although the freshmen did elect officers, there was only a small percentage of them composing the electing body. Due to the efforts of A/S Joe Hardman a group of upperclassmen were organized into a freshmen advisory committee; but their efforts were proven fruitless due to the fact that the navy men had to have their pictures taken during the free hour, when these men were to meet the freshmen.

LEONARD JATCZAK and the senior social committee deserve a lot of praise for the efficient manner in which they handled the plans for the forthcoming "Integral Ball." These men started planning at the end of last term and because of this are able to have the dance only a month after the beginning of the term.

THE NEW INTEGRAL turned out to be one of the finest that the school has seen in many a semester. Yearbooks of the last few years have either been late in coming out or have been published with a completely disorganized makeup. A great deal of credit should be given to Herman Nelson and Don Albert for their tireless work as editor and Armour editor, respectively, of the 1945 Integral.

ASCE to Outline Policies At Term's First Session

The student chapter of the American Society of Civil Engineers will hold its first meeting of the new semester on Friday, July 27, at 11 a.m. in Room 220 Chapin. Since the policy of the organization will be outlined at this meeting, the officers urge all students of the civil engineering department to attend.

Freshmen to Get Activities Handbook This Week; Others May Get Copies Too

Distribution of the newly-completed activities handbook will continue this week when freshman advisors give them out during their counselling periods. The books were to have been distributed last week at the postponed freshman and sophomore meetings.

The freshmen will receive postal cards from their advisers instructing them when and where to meet. Other students interested in obtaining a copy of the activities handbook may get them at Dean C. A. Tibbals office.

The handbook is a compilation of pertinent data about all phases of student life at IIT. A handy, pocket-size edition, the 56 page booklet starts with a general discussion of IIT. A discussion of ITSA, *Technology News*, and a description of intra- and inter-mural sports follows. Articles on each of the social and professional fratern-

V-12 Unit Plans Reorganization In Near Future

Officers To Be Chosen From Senior Trainees; To Follow NROTC Plan

Reorganization of the navy V-12 unit along the lines of the system set forth by the Bureau of Naval Personnel for Naval Reserve Officer Training Corps units will take place in the near future, Lt. George Florence, battalion officer, announced today.

The unit will be organized into one regiment consisting of two battalions, which will be further subdivided into four companies. These four companies will be made up of platoons and squads; the band will be a separate unit attached to the first battalion.

Commanding the unit will be 82 trainee officers ranking from lieutenant commander to petty officers. These officers, who will be chosen from the seventh and eighth term trainees, will assume the responsibility of maintaining discipline and enforcing orders of the navy office.

The trainee officers will wear collar devices indicating their rank and will be accorded all the courtesies extended to naval officers of their respective ranks. It is expected that there will be three lieutenant commanders, one of which will be the regimental commander; seven lieutenants; eight lieutenants, junior grade; nine ensigns; the remainder will be petty officers from chief petty officer to petty officer, fourth class.

One advantage of this system is that there will be a direct chain of command from the officers, through the trainee officers, to the men of the unit, said Lt. Florence. Also, the men will receive some training which will be of benefit to them in midshipman school.

Trainee officers will be chosen from a list of eligible candidates made out by the officers of the unit and the specialists. Only seventh and eighth term men will be appointed as officer trainees.

With the coming of NROTC to IIT in the fall, the system will be continued except that the men in V-12 will all be in one battalion. However, until there are seventh and eighth term NROTC trainees, V-12 men will continue as trainee officers.

All mustering and formations for mess, drill, inspections, etc. will be made by companies. This may mean shifting men in some of the quarters, Lt. Florence said.

Receiving Integrals

Browning Wins In Run-Off; Frosh Elect Class Officers

In the runoff elections held last Tuesday A/S Robert Browning defeated A/S Ramon Olson for the presidency of the 4B senior class. The vote was 43 for Browning and 29 for Olson.

The results of the freshman elections held Friday are: president, George Felch; secretary, Joe Ferran; treasurer, Chet Schirmer; social chairman, Chet Chrisman; SUBC representative, Don Black.

The senior runoff election was held when neither Browning nor Olson received a majority vote in the regular class elections held July

A/S Robert Browning

13. Of the three candidates the vote was Browning 43; Olson, 29; Fred Sitchey, 23. The total was 101 votes and 51 of these were required in order to win. Since Sitchey had the least, he was eliminated and the contest was between Browning and Olson.

The freshman and sophomore elections were to have been held with the regular elections. No petitions were turned in, however, for majority offices such as president. A/S Robert Freund, then vice-president of the ITSA, announced that these elections would be held at a class meeting a week later with senior class advisors supervising.

Fifteen freshmen turned out for the election and this was considered a sufficient number to elect officers. Five sophomores met in 502 Main and this lack of numbers caused the sophomore elections to be postponed once again. Further action will be decided upon at the next meeting of the ITSA.

J. T. Rettaliata Is Picked As New ME Head

Specialist in Turbines Comes From Industry To Assume New Post

Dr. John T. Rettaliata, manager of research and gas turbine development at Allis-Chalmers Manufacturing Company, is the new chairman of the Mechanical Engineering Department, Dr. Henry T. Heald announced today.

The post of chairman of this department has been vacant for some time. Prof. Stanton E. Winston has been acting as associate director of the department and will now head the evening division as dean.

Dr. Rettaliata is a specialist in the field of gas turbines. He is the author of nine publications on gas turbines as well as other technical subjects. Several of his articles have appeared in the *ASME Transactions*.

With the Allis-Chalmers Manufacturing Company since 1936, he was granted a leave of absence in the summer of 1940 to be retained by the National Academy of Sciences to do a report on special applications of the gas turbine.

In addition, he has worked for the Department of Agriculture and was head of the math department and instructor in engineering at Johns Hopkins University.

Dr. Rettaliata received his doctor's degree in engineering from Johns Hopkins when 25 years of age. He was granted his bachelor degree from the same institution four years previously.

He is a member of Sigma Xi, Omicron Kappa Omicron, Johns Hopkins Alumni Association and Milwaukee Civic Concert Association.

Pi Tau Sigma Holds Rushing Activities

A rushing smoker was held by Pi Tau Sigma, mechanical honorary, in the Student Union lounge last Friday night. Formal business of the smoker included filling out of questionnaires by all prospective pledges and the presentation of the annual Sophomore Award. John Enander, Pi Tau president, also announced an hour quiz to be taken this afternoon by all those hopeful of being selected as pledges.

The questionnaires filled out by the twenty mechanical engineering students covered their past records and present interests and activities. These papers will be used by the active members as an aid in electing pledges for the present semester.

Leo Schmidt, fourth term ME, was presented with the Sophomore Award at the smoker. The award, a Mark's Handbook, is annually made to the sophomore with the highest point average, in Schmidt's case a rousing 2.65. Though activities are not considered a fair basis for the presentation in the first few college years, the honored sophomore is also the possessor of a fine participation record. He was elected president of the freshman class and as president he was a member of the ITSA. He also took on a job on the frosh social committee and pledged Triangle fraternity. Schmidt is now secretary of his fraternity.

The rushing continues this afternoon at five when the prospective pledges will be given a comprehensive quiz over their engineering education in the freshman and sophomore years.

Morse Grants New \$500 Scholarships For Nov. Semester

Three \$500 scholarships have been made available to engineering students at Illinois Tech by the John Morse Memorial Foundation, announced President Henry T. Heald.

The Foundation, which was recently established by Col. and Mrs. Morse in memory of their son who died in 1941, will award these scholarships to students who have completed at least two years of college work on the basis of proven character and scholastic ability.

Each of the three scholarships will cover full tuition, in addition to a \$100 grant to the chosen student. Nominations will be made to the Foundation by the scholarship committee, which is headed by Professor C. A. Tibbals, dean of students.

These scholarships will be available at the beginning of the next semester, which opens on November 1.

Integral Ball

One of IIT's most colorful social affairs, the annual "Integral Ball," is near at hand.

Under the sponsorship of the senior class, this event should be as much a success as its predecessors were.

The Integral Ball has always been an unique affair, differentiated from other dances by the fact one of the girls in attendance is named the "Integral Queen."

But, any activity is as successful as students want it to be. So don't be backward; your girl doesn't have to be Lana Turner in order for you to submit a photograph of her for the "Integral Queen" contest. The procedure is simple; just bring the picture to the IIT News Bureau Office before August 2.

With the facilities of the "Link," IIT's date bureau, at the disposal of every student, there should be no excuse for every man at IIT not coming to the "Ball."

Roy Milton's orchestra plus the beautiful ballroom of the Continental Hotel will help make the "Integral Ball" one of the finest dances of the year.

Elections

In the past few semesters, the editorial column of *Technology News* hasn't had anything very complimentary to say about class elections at IIT. This editorial isn't going to say anything better than the others concerning the so-called "elections."

As usual, the number of students voting is quite discouraging. Even more discouraging, however, is the small number of students running for class office. In normal times, class office is a treasured position. In recent IIT elections, it has usually been a matter of drafting someone to fill such apparently undesired positions as president of the ITSA, president of the junior, sophomore and freshman classes, secretaries etc.

Without trying to analyze the situation as to causes, it seems quite obvious that IIT men aer not being properly trained to accept positions in our industrial society. Where are our nation's leaders to be trained if not on the college campus?

In industry, society is competitive. At IIT, one merely has to get a few men to reluctantly sign a paper and he is practically assured of an office. For example, out of 14 offices to be filled by the upperclassmen, 6 of these offices were uncontested.

The underclassmen were scheduled to hold their elections at class meeting last Friday. However, the navy men couldn't attend because they were having their pictures taken. As a result, the underclassmen will meet this Friday. It would be very pleasing to see a large turnout of these men.

Man Of The Week

Scholar, Athlete, Scout Sums Up Bill Cannon of Salt Lake City

The Man of the Week spotlight brings in quiet unassuming clean cut Bill Cannon, senior civil engineering student, for a close up.

Bill came to IIT on the bequest of the navy after having attended the University of Utah for one year, where he began studies as a civil engineer.

To come to IIT from Salt Lake City, Bill's guardian angles must have through it was too much, for six weeks after his arrival, Bill was struck by a moving vehicle—he still says he doesn't know what hit him. The accident occurred while he was crossing the intersection at State and 33rd Streets on his way to an afternoon lab. With his legs broken in several places and a fractured skull, Bill had to go into overhaul and repair several months at Wesley and Hospital.

One way to get light duty is to get hit by a car—Bill got 14 months.

But all this time wasn't relaxation; you see, Bill played a lot of tennis back home and he loved the game. He had to sit three months out waiting and wondering if he would ever play again. His chance came last spring when the Doc finally gave him the okay. At first Bill almost lost hope that his co-ordination was gone, as he couldn't get around fast, but through stamina and strength of character, he not only gained back his old time playing but was responsible for the forming of last semester's tennis team in which, to top it all, he won a minor letter.

This year Cannon is head of the navy tennis team which so far has won five matches and seems on its way to winning the District Navy Cup.

The same determination Bill has in sports, he has carried over into

his studies. Notwithstanding the two semesters he lost due to the accident, he has maintained a high scholastic average of 2.47.

His academic record has brought him into two fraternities, Chi Epsilon, honorary civil, of which Bill is president, and Tau Beta Pi, engineering honorary, to which he was recently pledged.

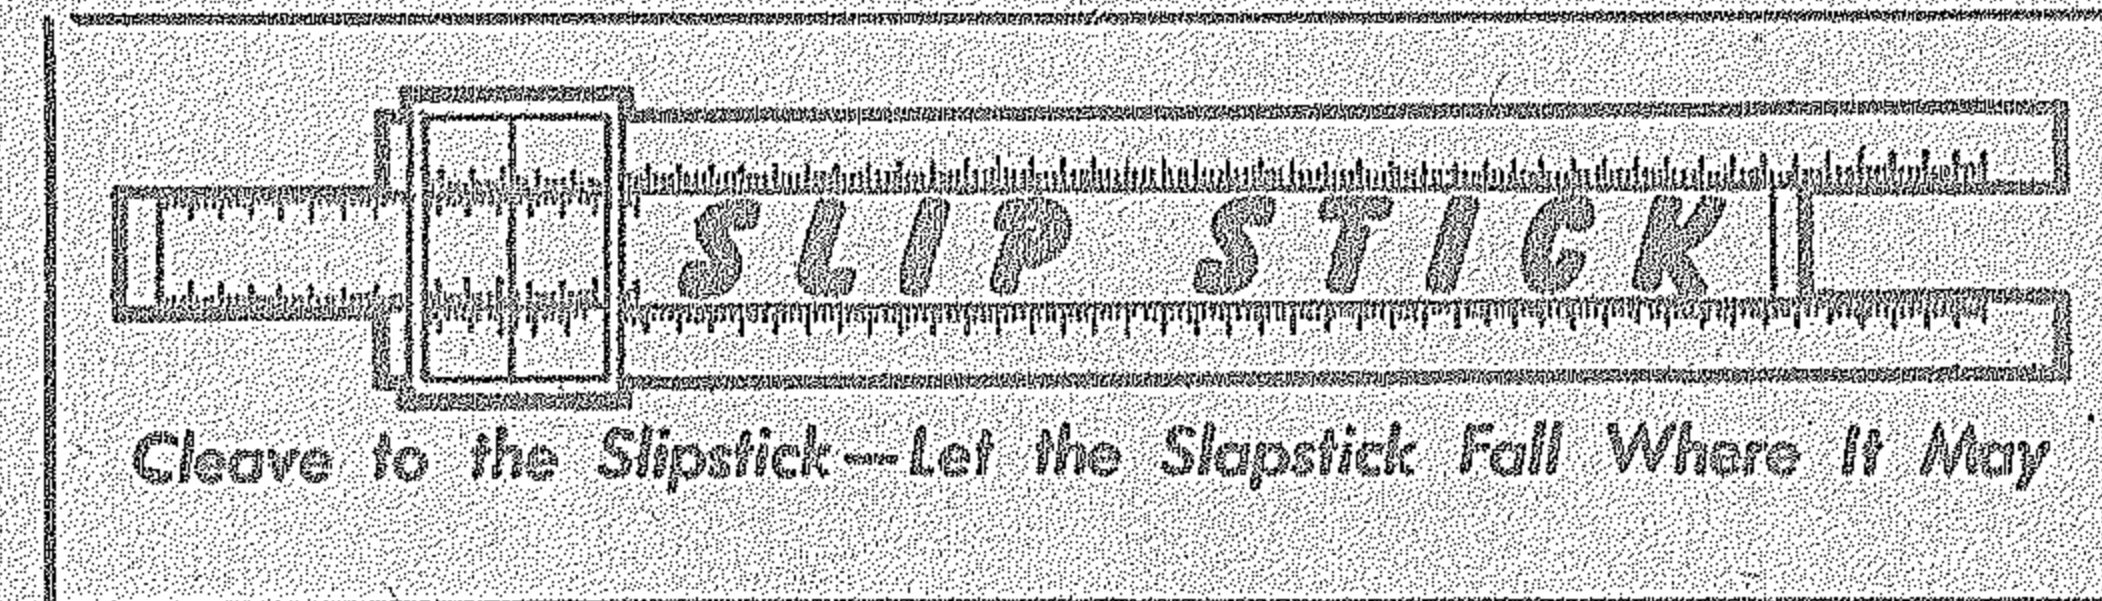

His other activities include the glee club, ASCE, of which he is treasurer, and Alpha Phi Omega, scouting fraternity. He has also served as a reporter on *Technology News*.

Scouting has been one of Bill's major interests since his early boyhood. In fact, it was so early that Bill was the youngest eagle scout in his conference out in Utah. Since then, Bill has served for seven years on camp staffs, and served in various capacities in the scouting program. The training and wholesome enjoyment Bill received through scouting he hopes to pass along to others by remaining active in working for the scouts when he returns to civilian life and back to "the only place for me," Salt Lake City.

As far as studying goes, Bill has a swell system—he turns in before 11 p.m. daily and on week-ends he doesn't study at all. That's the time to relax, to freshen up for the week, he says. A fellow gets stale if he beavers all week.

Bill spends his Sundays beneficially by teaching Sunday school cially by teaching Sunday school at one of the Mormon churches in Chicago.

—WITOLD ROSICKI

This week's column is dedicated to babies, which brings to mind a little story we overheard in a maternity ward. One little baby said to another: "I'm a boy baby." The second tot said: "How do you know?" The first little baby replied: "My name is Henry" . . . By the way, what were we doing in a maternity ward?

—IIT—
 Drunk in a telephone booth:
 "Number, hell—I want my peanuts."

—IIT—
 Salesman (addressing company receptionist): "Is the boss in?"
 Office Girl: "I'm sorry, he is not."
 Salesman: "Will he be back after a little?"
 Office Girl: "No! I think he's out after a little now!"

—IIT—
 She has a ermine coat and a foreign car,
 A ten-room flat with a built-in bar,
 And she does it all on thirty per,
 Believe it or not, it's the truth, dear sir.
 Yet five years back, some teaching hick,
 Flunked this gal in arithmetic.

—IIT—
 Teacher: "Now, children, every morning you ought to take a cold bath; that will make you feel rosy all over. Are there any questions?"
 Boy in the back of the room: "Yeah, teacher, tell us more about Rosie."

—IIT—
 Betty: "Does your new fellow like to go out to Riverside and gamble for money?"
 Doris: "No, indeed! He'd much rather take me home and play for fun."

—IIT—
 The Good Book says: "Cast your bread upon the waters."
 And common sense adds: "If

you do, it will get wet and soggy, and eventually sink."

—IIT—
 He—"Please!"
 She—"No!"
 He—"Just this once!"
 She—"No! I said."
 He—"Aw heck, ma! All the rest of the kids are going barefoot!"

—IIT—
 And there was the South Sea explorer who, when confronted by the native lassie's dad, explained that he was hunting grasshoppers.

—IIT—
 She laughed when he sat down—but when he started to play!!!

—IIT—
 Seagull No. 1—"Who won the boat race down there below us, Harvard or Yale?"
 Seagull No. 2—"Yale crossed the line in the lead."
 Seagull No. 1—"And to think, I put everything I had on Harvard."

—IIT—
 A man, very hoarse with a cold, not able to speak above a whisper, knocked at the doctor's home at night, and doc's wife came to the door. "Is the doctor at home?"
 Wife, also in whisper, "No, come in."

—IIT—
 And while we are not at all superstitious, it's unlucky to have thirteen at a table—if you are buying the drinks. '30' for this week.
 —THE RAZOR BLADE

The order of the "Rancid Rhubarb" goes this week to A/S Tucker Matzek. It seems that Tucker attended a party recently at which there were some ten odd Techmen present. Tucker had brought a beautiful brunette with "bedroom eyes" to the affair, and as it turned out, almost every man there was attracted towards her, making Tucker very unhappy. Present among these was A/S Martin in a state of liquid happiness who really caused a great deal of misery for Tucker.

Highlight of the affair was Willy Schulte, who insisted that he was a pencil following a French curve and demonstrated such when he took his girl home. Another attraction was one of the small Smaudone twins going home with a girl who was a refugee from the "beef trust."

Apologies go this week to Professor Sternberg of the mechanics department. We will never call him "Loving Cup" again. He attempted to find out who wrote this column, but that is something no one knows!

A pat on the back, below the sacroiliac, goes to A/S Tom Burt of Ladysmith, Wisconsin, for his daring adventure in going to see "The Voice of the Turtle." All Tom could blushing say about it was, "It is naughty but nice!"

A/S Bill Cummins, the budding genius of the ME department, recently demonstrated his ability. On the second floor of Physics, a notice states that the navy is searching for a way to drop packages from planes without parachutes. Bill's solution is to "drop" the packages from the planes without parachutes.

Pat (Wetwash) Sweeney is a candidate for the baseball team. He and Franny (Arky Vaughn) Krawczak should make a good second base combination. A runner wouldn't dare to steal a base on "The Great One" Sweeney.

"Hard Luck Kid" of the week is A/S Charlie Rigue of Quarters #2. For a long time, Charlie has been trying to get a date with a girl whose name has escaped the spade of the Steam Shovel. After innumerable attempts, Charlie finally succeeded to obtain a date, only to discover too late that he had a week-end watch! Better save that gal for your post-war plans, Charlie.

Don Parker, a newly initiated active of Triangle and a discharged veteran, was sleeping in the auditorium last week in his khakies when an officer of the V-12 unit came along. Since it was "hell week," Parker hadn't had time to shave and a three-day beard shadowed his face. The aforesaid officer shook Don violently and inquired, "Are you in the Navy?" Don sleepily opened one eye and answered, "No. Are you?"

This week's "Purple Pear" is awarded to A/S Bill "Red" Martin of Quarters #3. While on leave, Bill dated a delectable female almost every night. In fact, he had a date with her on Sunday evening before he had to come back. Early this same Sunday, Red's girl called to see if Red could come to see her in the afternoon instead of the evening, as an "old friend" was coming home. Red, being a "right guy," consented. When he got back to IIT on Tuesday, poor Martin received a "Dear John" letter telling him that his erstwhile flame was married Monday.

—BROWN NOSE

Letters To The Editor

Dear Sirs:
 We wish to call to the attention of your readers and yourself the error of certain statements printed in your paper. There were certain schedule changes made in the EE Dept. schedule, but that does not prove any of the charges made. The fact is that the EE Dept. consented to request changes in the eighth term schedule so that certain of the eighth term men could take required subjects. The change in the schedule of the eighth term subjects concerns only those taking the subjects and inasmuch as the new schedule was worked out by the whole group, all were pleased with the results. If this does not indicate a progressive department, despite statements to the contrary, then there is certainly wide divergence concerning the definition of progressive.

There were also two or three changes made by the registrar's office, undoubtedly for good reasons, and certainly nothing to blame on the EE Dept.

We hope that, in the future, facts will be checked before statements are made, and we wish to thank the EE Dept. and the registrar for their permission and co-operation.

Sincerely,
 EE Class
 Jack H. Slaton and others who are re-
 Meyer Gilden strained from signing by
 Daniel Pirhofer certain rules and regula-
 William Rivkin tions.

Honor I Elects Five Athletes

Baseball, Swimming, Tennis Stars Selected

Five men were chosen to be pledged to Honor I at a meeting held last week.

The men were: A/S Mel Stidham, A/S Bob Hauser, A/S Jerry Evert, A/S Frank Krawczak and A/S John Makielski. The pledging ceremony will take place Wednesday, July 25 at 8 p.m.

The principal requirement for pledging Honor I is the award of a major letter in IIT sports. These men were selected on that basis and because of their outstanding achievements in athletics.

Mel Stidham started his baseball in Mackenzie High School, Detroit, Michigan, from which he graduated in 1943. He attended Wayne University in Detroit for one semester from January to June, 1943. He entered IIT in March 1944 as a V-12 student and since then has played two seasons of baseball. He earned his letter this spring as catcher on the IIT squad.

Bob Hauser came to IIT from nine months duty as fire controlman third class. He played for the George Williams nine at third base, and when transferred to IIT, Quarters #6 in March, 1945, he went out for the team and has played right field since. He is also a member of the hockey team.

Fran Krawczak, another winner of a major letter in baseball, comes from Pittsburgh, Pennsylvania, where he graduated from Carrich High in 1943. He played baseball there, and after graduating attended Purdue University for two semesters.

He entered IIT as a sophomore mechanical in July 1944. He transferred from George Williams to IIT campus in March 1945, and has earned a letter at shortstop.

Championship tennis is Jerry Evert's specialty. He played for Senn High in Chicago and the team captured the state and city championships for three years. He attended Notre Dame for three semesters before entering IIT as a V-12 student in November, 1944. While at Notre Dame he played on the Western Championship team. This team tied for the national championship also.

South Bend contributed another athlete to IIT when John Mabrielski entered as a V-12 student in March, 1944. He had previously been in radio tech school in the navy.

Tech Nine to Meet Stevens Semi Pros

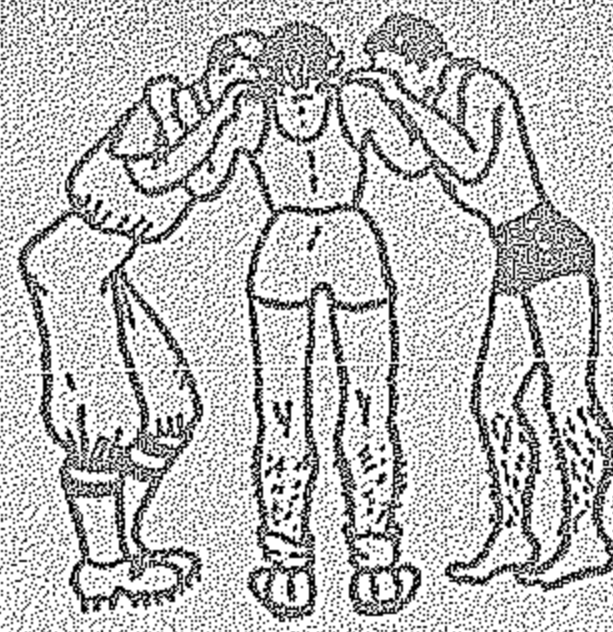

Due to unforeseen developments, the scheduled ball game between Illinois Tech and the Stevens Hotel Semi Pro ball clubs was postponed till next Friday. Instead, an intrasquad game was held in which the Reds, composed mainly of regulars, defeated the Blues, 7 to 5 in a six inning contest.

Gene Evers, hurling for the Reds, pitched one hit ball for four innings; in which his team-mates scored four runs on four hits. Joe Gelb replaced him on the mound and, hampered by poor support, gave up 5 runs in two innings.

Jack Capron, leading off in the first, singled but failed to score, as the next three men made outs to end the inning. The Blues made only one hit in the first four innings, this being a blow by Mel Stidham.

The big Red third netted 3 runs on a pass to Lichtman, an infield out, a single by Ray Murphy, two consecutive passes and a single by Hauser, which drove 2 runs across.

The Blues bunched 4 hits to score 4 runs in the fifth frame on hits by Jack Field and Sam Lloyd, two of the Stevens Hotel players who did appear, a pass to Dave Hoffman, and successive hits by Frank Pasek and Bud Kravolec.

the SPORTS HUDDLE

By H. Pype

The intramural softball entry deadline had to be advanced to next Friday due to lack of entries. This week will see an elaborate campaign marked with posters placed all over the campus, advertising the tourney. Contrary to all expectations, the freshmen were the first to respond to our appeal and entered two teams. The Senior Chems and Senior Mechs also are entered, giving us a grand total of 4 teams. This list should be increased three or four times that number in order to make the tournament more complete.

* * *

Whatever has become of the various sport contests between faculty and students of not so long ago? Time was when Coach Sammy Bibb rallied his stalwarts and challenged the golfers to match or two. This too, like everything else, has gone to war. Here's hoping they will reappear in the not too distant future.

* * *

Sonny has some prospective top flight competition on his hands if he can succeed in booking Notre Dame and Indiana State Pen this summer. Both teams have enviable records, the latter much more so than the former, but with his boys, Sonny shouldn't have too much trouble.

* * *

There still remains quite a bit to do on the tennis courts before they are put in top flight condition. The Research Foundation tennis enthusiasts have spent a great deal of time and effort on the project. With a little IIT support, Tech students should be able to play on the courts in the not too distant future.

Daring Expose of IIT's Coach, 'Sonny' Weissman

Entirely too much material of a laudatory nature has been written in the past describing one Bernard "Sonny" Weissman, who lurks in his solitary office on the second deck of the student building under the disguise of "assistant athletic director."

In order to protect timid and unsuspecting freshmen who have not yet fallen under his evil influence, I, Stanislov Yapeslovich, have decided that it is no more than my duty to expose this heinous character.

Having threatened his principal at Lane Township high school, where for three years in his sophomore year he was known as "Wrong Guy" Weissman, with death at the hands of a pin ball racketeer called Albert because his name was Albert, he was allowed to graduate in 1923.

While a student at Lane, Weissman acquired letters, A through H, from a can of Campbell's vegetable soup. Shortly thereafter he enrolled at DePaul University, under the impression that the Blue Devils were a group of underworld characters specializing in rum-running.

Although he claimed he had been deceived when, in 1927, the teachers refused to allow him to bring his favorite machine-gun to class, he fell under the influence of a hula dancer enrolled in home economics, and remained until 1928 when the faculty awarded him a diploma, heaved a sigh of relief with his departure, and resumed normal operation.

Thus in 1928, Weissman was released on an innocent and unsuspecting world at large. Preferring to spend his time on relief rather than laboring on the payroll of the city hall as a gun-moll, Weissman occupied his days seated on a pile of cannonballs beside the cannon in front of the police station in his neighborhood. Here originated his famous saying "Get on the ball."

He joined the staff at Illinois Tech in 1928 as boxing coach, where he advocated the use of bare fists, protected, of course, by brass knuckles. He later reformed, however, and allowed his team to wear boxing gloves equipped with horse shoes (for luck).

For years his teams acquired great success with these tactics, and Weissman was given many additional jobs such as wrestling coach (kick 'em in the teeth and break their darn arm) and baseball coach, where he is credited with such innovations as the term, "Kill the um-

WEISSMAN, YOU'RE A WRONG GUY!!!

Illinois Tech Navy Softball Squad Wins First Round Title

Murphy Pitches Shutout for 7th Tourney Victory; McCabe Leads Hitters in First Round With a .533 Scoring their seventh straight tourney victory, the Illinois Tech V-12 softball team copped the first round championship by walloping the Naval Army by a score of 7 to 0.

It was Tech all the way as Ray Murphy, backed by brilliant support hurled his second straight shutout, making it four games out of seven in which the opposition was held scoreless.

Tech scored two runs in the first inning on an error, a base on balls to Murphy, successive singles by Vic Mieszkowski and Roy Schimmelpfenig. A strikeout and a put-out ended scoring. In the Army half of the inning, the shortstop, Redlar, was given a free ride to first followed by two strikeouts, an error by Bob Hauser and a strikeout, retired the side.

Dave Hoffman led off with a single for Tech in the second and advanced on an error by Redlar and then scored on a single by Hauser. This made the score 3 to 0.

The first two men to face Murphy in the second, singled but were left on base as Salb flied out, center-fielder Rischard struck out and the pitcher, Mullinex, grounded out, Schimmelpfenig to Kleeman.

Tech scored one more in the third frame and three in the fourth, Schimmelpfenig. A strikeout and a put-Smith, Army second baseman, collected his second straight hit in the last of the fourth but failed to score.

In the remaining three innings, Tech collected three hits but failed to score and the Army was held hitless till game's end.

The final score showed Tech on top 7 to 0 thus becoming official champions of the first round.

Tech schedule calls for two rounds of play and the winners of these two rounds are to meet for the championship.

Leading batter for Tech in the first round is Jack McCabe with a tremendous .545 average. Roy Murphy disproved the belief that pitchers don't hit by clubbing the ball at a .533 clip.

Techawk Net Team Wins Four Straight

The Navy V-12 entry in the Chicago Area Naval Tennis League ran up its fourth straight victory last week to emerge victorious in the first alp of play.

The squad, which is in charge of A/S Bill Cannon and includes Jerry Evert, Gene Hill and Fred Leydig, has dropped only two singles matches out of twelve played thus far. They have scored 3 to 0 wins over teams representing the Supervisor of Cost Inspectors and Glenview Naval Air Station, while winning, 2 to 1, over District Intelligence Office and Inspector of Navy Material.

Chief threat to the Techawks during their second round robin, which will get under way next week, will be the squad from Glenview. The birdmen have been strengthened greatly by the addition of Bud Hart, brother of Doris Hart who is one of the country's top-ranking women players.

Individual records of Tech players:

	Won	Lost
Singles:		
Evert	3	0
Hill	2	1
Cannon	1	0
Leydig	0	1
Doubles:		
Cannon, Leydig	3	0
Poulter, Park	1	0

Elmer can't even keep his bridge game straight without one of these slide rules.

Secretaries Furnish Lounge; Organize Classes, Activities

Favorite hangout of the working gals at the south campus is the new Secretaries' Lounge in Chapin Hall. With its restful green-tinted walls and comfortable colonial-type maple furniture, it is an ideal place for the girls to relax and meet one another. Clean cots are available in case of illness or for those who are just plain weary.

The need for a quiet corner first brought the secretaries together in a conference last autumn. The girls banded together in an effort to get the school to recognize their need—and they accomplished their purpose. The school financed the construction and outfitting of the lounge, and a committee consisting of Ruth Leitsch, Yvonne Kustudick, Agnes Burge, Mildred Janousek, Ethel Hammel and Emily Muuss chose the furnishings.

The secretaries decided to form a social club, and the furniture committee girls became its first officers. The club, known as the IIT White Collar Girls, includes all women office workers at the south campus, and will be expanded to include those coming from Lewis and those at the new downtown home economics department.

Through its efforts the club has equipped the lounge with books, magazines, and stationery, and it is working toward the purchase of either a radio or phonograph.

The W.C.G.'s, while primarily a social club, are working towards becoming well-rounded young women. Last year the members formed handicraft, knitting and crocheting groups. The club has its own monthly, the *W.C.G. Magazine*. The girls imported their own instructor for a Spanish class. The more hardy individuals tried their hand at bowling and swimming.

A social program has been outlined for the coming year. The next event will take place next month and will probably be a picnic.

Brazilian Student To Study FP Eng. To Be Enrolled IIT

The Re-insurance Institute of Brazil has completed arrangements for the establishment of a student in the fire protection engineering department at Illinois Institute of Technology, Professor J. B. Finnegan, director of the department, announced today.

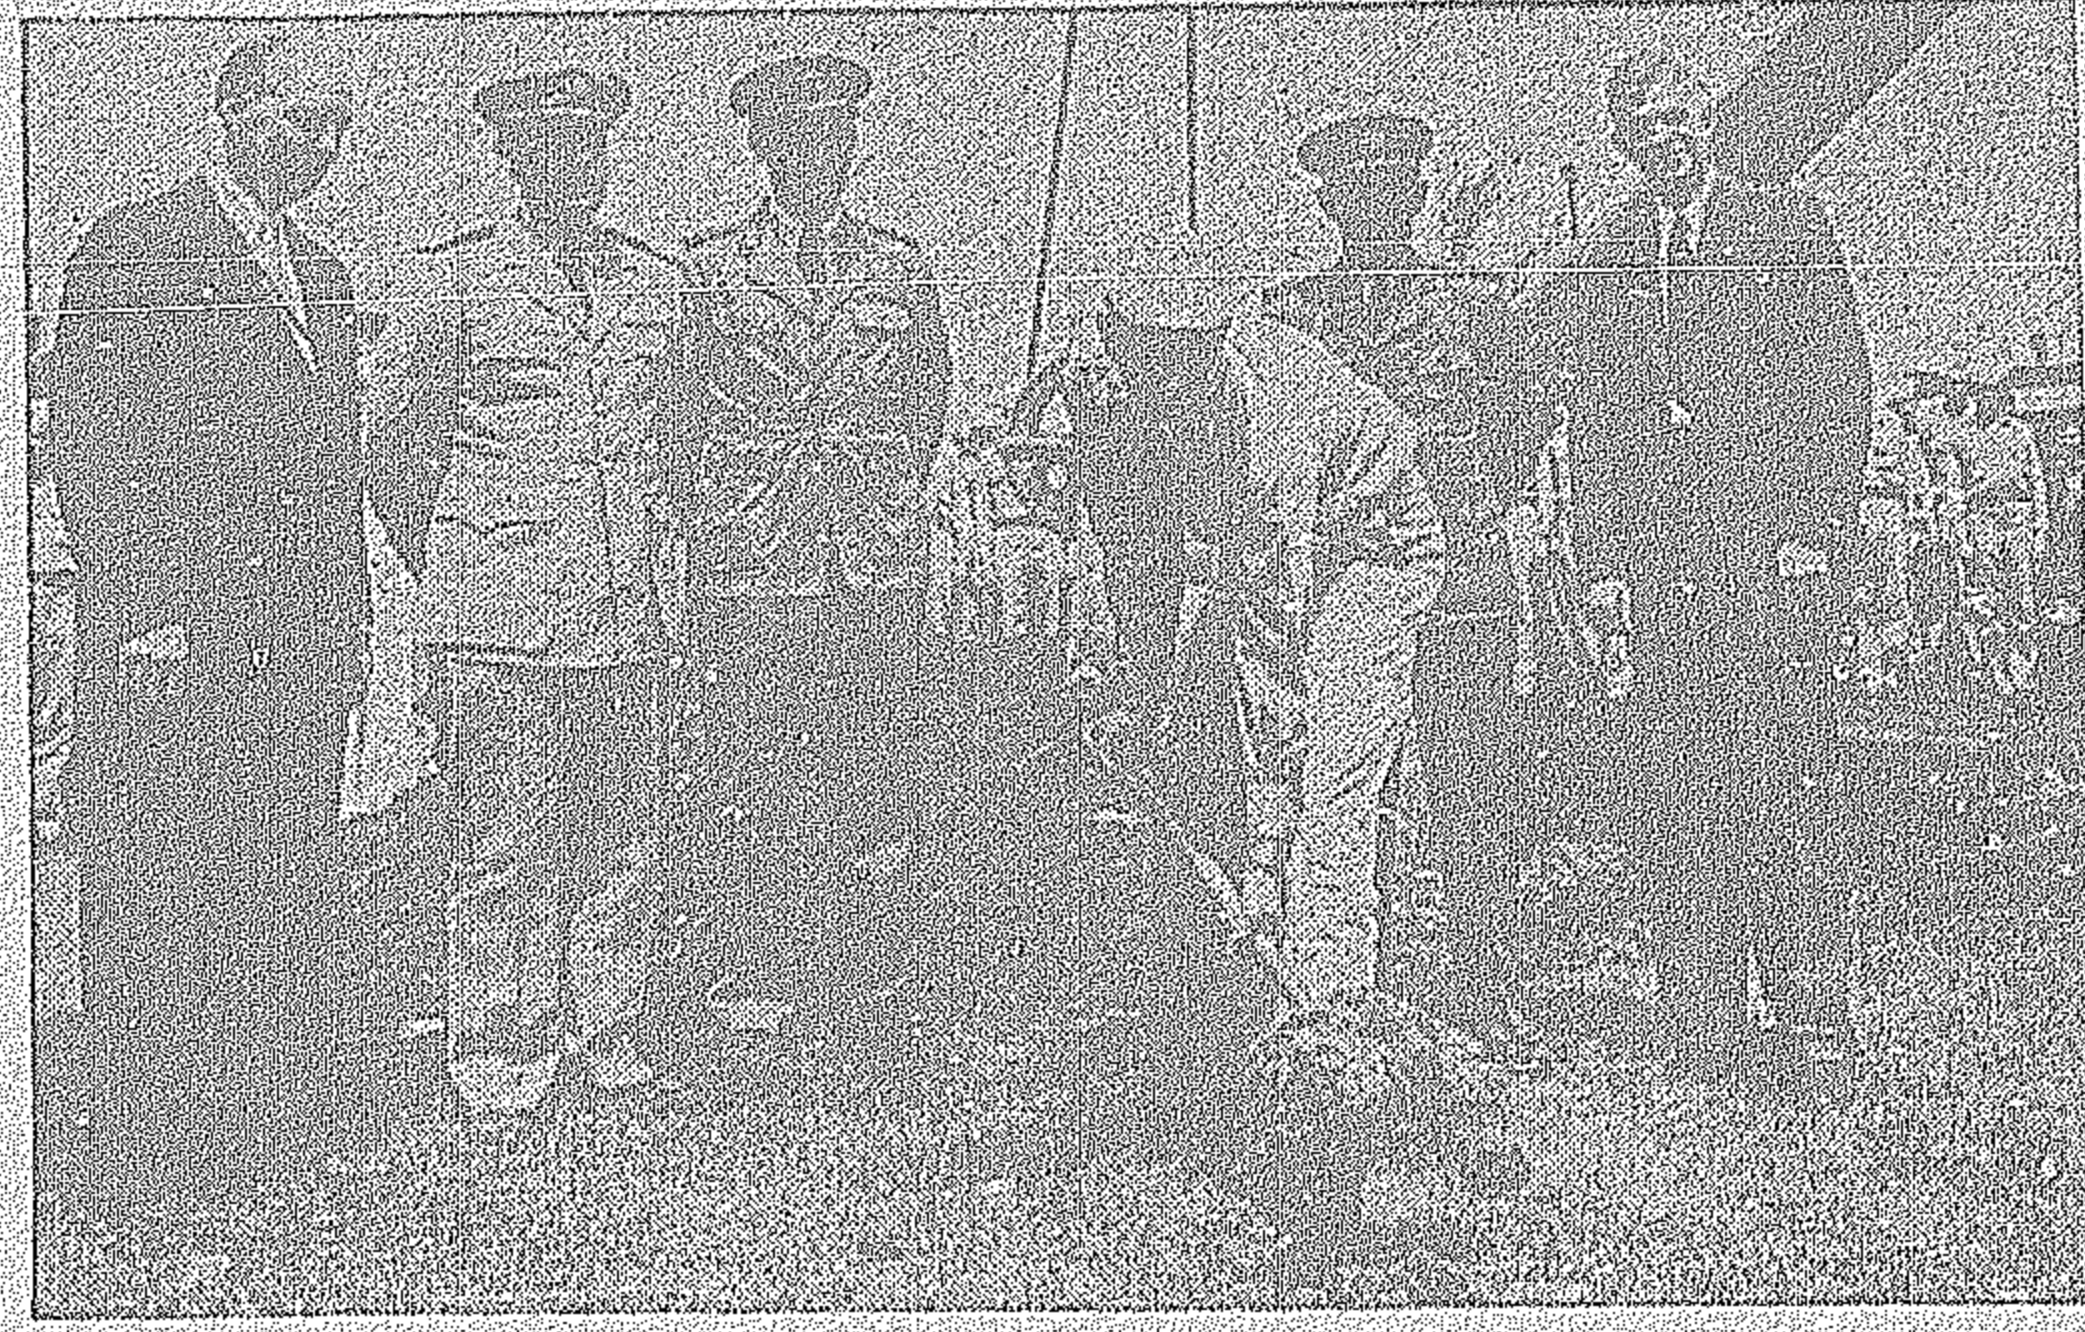

According to Professor Finnegan, the student will have the equivalent of a master's degree in electrical engineering from a South American university. He will be enrolled as a special student at Illinois Tech, taking third and fourth year courses in fire protection engineering, and may work towards a bachelor's degree in that field.

In addition to actual studies, the Brazilian student will gain experience through work on mining, cotton and lumber lines in different parts of the country. On his return to Brazil, other students will take his place.

The Re-insurance Institute of Brazil handles all re-insurance in the country, dealing with eight domestic companies and about 18 foreign insurers. In addition, it acts as a rating bureau and supervisory organization, prescribing forms, rate schedules and other matters for all companies operating in Brazil.

Sr. Rodrigo de Andrado Medicis, technical director of the Re-insurance Institute who completed the arrangements, expects to leave for Europe later this summer to study insurance work there.

Ground Breaking

SAND SLINGING—Watching the breaking of ground of the new Naval Science building are (left to right): Dean C. A. Tibbals, Navy Officers, and President Henry T. Heald.

Link Date Bureau Officers Appointed; To Reopen Soon

Management of the Illinois Tech date bureau, popularly known as the 'Link,' was taken over last week by Bill Sirvatka and Norbert Vojta. Though seriously handicapped by lack of a permanent office, the new 'contact men' hope to have the organization going in time to supply dates for the fast approaching Integral Ball.

The date bureau was headed last semester by 'Hank' Pype and George Martinko. Martinko was a V-5 (Naval aviation) transfer at the end of last semester, and Pype now finds full-time work in his positions of Intramural Manager and Sports Editor of *Technology News*.

The new Link directors are V-12 trainees, starting their seventh semester as communications majors. The only ones allowed to browse through the Link files of over a hundred telephone numbers, the fellows are honor bound to please both parties in any date that they arrange and expect to continue the past high percentage of 'satisfied customers.'

Government to Keep Rights to Recorder

The United States Government will have exclusive rights to all Armour Magnetic Wire Sound Recorders for the duration and six months under the provisions of a new contract with the Armour Research Foundation of Illinois Institute of Technology, Dr. Jesse E. Hobson, director of the Foundation, has announced.

According to Dr. Hobson, the government will be entitled to all wire recorders produced by any company, regardless of previous license commitments, for actual war use by the army and navy or for lend lease.

Also announced at a conference of all Armour wire recorder licensees held at the Book-Cadillac Hotel in Detroit July 13, was the development of a new multiple recorder. This master recorder and duplicator was produced for recording companies by scientists of the Foundation.

A model of a post-war portable unit which was produced under the direction of Mort Neff was demonstrated at the meeting by the Wi-Recorder Corporation of Detroit. Marvin Camras, inventor of the wire recorder and associate physicist at Illinois Tech's Armour Research Foundation, described a new combination erase, recording and reproducing head which can be produced at an extremely low cost.

Don Gipple to Head Photography Club

A/S Don Gipple was elected president of Armour Eye last Thursday. Other new officers for this semester were elected and the semester's plans discussed. These officers are: John Conklin, vice-president; and Al Dimoff, secretary-treasurer.

TECH TIME TABLE

All items appearing in Tech Time Table will be those which are scheduled with Dean Tibbals. No other items will be used.

MONDAY, July 23

Tau Beta Pi, 5:00 p.m., 208C
IFC, 5:00 p.m., 105C
IVCF, 5:00 p.m., Aud.

TUESDAY, July 24

Praetorians, 12:00 Noon, 105C
Inter-Honorary Council, 5:00 p.m., 202C

WEDNESDAY, July 25

Honor I, 8:00 p.m.

FRIDAY, July 27

ITV Smoker, 7:30 p.m., Student Union
ASME, 11:00 a.m., 305 Main
4B Seniors, 11:00 a.m., 502 Main
ASCE, 11:00 a.m., 220C

NAVAL NOTATIONS

Quarters #2

Seen every morning padding down the passageway in his slippers feet is MAA "Demon" Hoffman. He is trying vainly to awaken the men of his command at reveille. As he enters each room he is greeted brightly with remarks such as "Mrfph," and "Gedoutahere."

The onion bouquet of the week is given to Charley Pique. Women don't bother Charley. One little blonde in particular doesn't bother him, much to his disgust. After trying for weeks to get a date with the woman, he was successful last Saturday. Just one little thing came up to spoil the evening, Chuck was restricted.

Pat the barber marked the passing of another year in his eventful life last week. Several of the men in the quarters were on hand to help him celebrate his birthday.

To show how rigid the discipline in the quarters is, the members of 304 constrained themselves all evening until quiet hours before giving Bill Narwold the well-known heave-ho into the showers.

Quarters #3

Pat Rice turned up at Quarters #3 last week, slightly more slender after a week in an army hospital. Looking sharp in a pair of tailor-made blues (that have hip pockets that even Rice is not sure of the use for), Joe cautioned everyone of the evils of overwork and shoved off for Glenview. He will join his buddies, Martinko and Kristofferson at the Northside air field.

Bill Sirvatka and Norbert Vojta, a couple of good Bohemians from Berwyn, have a new job. They undertook the management of the Link files and the titles that go with it. Known in polite society as "contact men," they are better known in

quarters by the four letter title that begins with "P".

Quarters #4

A "record-collecting" frenzy is sweeping the quarters. Herbie Rivkin, T. S. Knepper, Bob Fries and "Stinky" Bell are saving their pennies to buy "Atchison, Topeka, and the Santa Fe," "Bell-Bottom trousers," etc. During the free time every evening the group can be found around Pinkowski's victrola swaying to Crosby and Company.

The quarters recently received word that one of its former MAA's, Charlie Hendries, is at sea on one of the Essex type aircraft carriers. Chuck left the unit last November.

A red-hot feud is in progress in 105 between Bob Fries and Ed "Stinky" Bell concerning their respective "women." To Ed, Bob's girl is "Beer-Band Brennon." And to Bob, Ed's one and only is "Goofy Gebhardt." Heaven forbid that the concerned girls should meet.

The title of "Super Cradle-Robbing Operator" of the quarters goes to Trent Knepper. Trent, 21 years old, has been dating a girl for several months who is barely 17. Several of his "buddies" have offered baby sisters for consideration.

Quarters #5

After an accurate check-up of telephone calls made to the quarters, a rather amazing fact was revealed. The compiled information showed one apprentice seaman far in the lead. Maybe a guy shouldn't be blamed for his popularity, but in this case it is flagrant flippancy on the part of the seaman, "Smooothie" Ed Petrosky. Girls should be warned of his slick methods, and be shown that they can no longer trust themselves to that gentleman of breeding.

Two crates of various fruits, including bananas, grapes, plums, peaches and apricots, were enjoyed by the men in the quarters Friday night. The fruit was the gift of our kind neighbor, Mrs. Abbott.

Quarters #6

The handsome Finn Gettun may be seen daily sunning his body beautiful on the "sun porch" outside 301. When Fred Flory and Bob Petrillo aren't in their sacks they manage to stumble their way out there also.

Assistant MAA Leonard Ferguson began to feel the crushing burden of his duties this week when Quarters #1's coke machine was brought to Quarters #6. No decision has been reached as yet regarding its location, but in an effort to ease the strain on Fergie it has been recommended that it be placed in the hold alongside the old one. Since Fergie studies in the hold, this will mean only a few short steps to fill it, rather than the strenuous climb to the first deck, where it was originally to have been placed.

Quarters #7

George "Ruby Lips" Marzeck returned to quarters this week-end with more wild tales of his prowess with "women of the opposite sex." Last Wednesday when he returned in rather "high spirits," his shipmates witnessed the first and only love scene to an ash tray!

Another "wild man with the women," Tom Burt has been vainly trying to decide whether he should ask that certain little lass to the Integral Ball and thereby end all competition for the position of queen. Drawbacks include a "quadrangle" involving too many people and facts to list here.

Queen Contest Photos Arrive

Photographs have begun coming into the News Bureau for the Integral Queen contest.

The Queen will be chosen from all entries submitted by the students on Thursday, August 2. Only eight days are left for the hopefuls to enter their dates' photographs in the contest to meet the deadline July 31.

The photographs should be 4x6, 6x8 or 8x10, presenting the contestant's portrait, or full length portrayals showing other features. They are to be brought to the News Bureau, 4th floor, first door Chapin.

The winning contestant will not be announced until the Integral dance, whereupon she will be crowned Queen and lead the grand march followed by her court. The 10 finalists will compose the Queen's retinue.

As a token of admiration the Queen and her court will be presented with individual bouquets. The Queen herself will receive as a special memento a locket engraved "Integral Queen."

The Integral dance committee, as a special attraction, has announced that fraternities on the campus are eligible to be honored at the dance by a separate dance dedicated to them.

The fraternity having the greatest number of members present will be given the privilege of having the ballroom floor to themselves for one dance. To determine the fraternity having the largest attendance, tickets of each of the organizations will be marked and the count announced when available.

In past years the official Integral Ball was a formal all school affair but due to war time conditions, the Integral Ball has become an informal dance, and will be such this year.

Between 300 and 350 couples are expected to attend the dance, said Leonard Jateczak, social chairman of the 4A class. The dance is to be held August 4, at the Hotel Continental located at 505 North Michigan Avenue.

Roy Milton's orchestra and two singers, Vivian and Jimmy will entertain from 9 p.m. until 1 a.m. The bids are priced at \$2.50. In order to ease the financial burden for Navy trainees a plan has been devised whereby they may pay 50c down and the balance payday, announced John Enander, committeeman.

Tickets may be bought from any of the Senior social committeemen and will be on sale in the Student Union lobby by the middle of this week between 10 a.m. and 1 p.m. daily.
