

By TRENT KNEPPER

WITH THE changeover from peace time to the accelerated war time schedule at IIT, more and more non-technical subjects have been dropped from the schedule. A glance at the school catalogue would lead one to believe that IIT's engineering curriculum was well rounded but the student who registers finds none of this balance in the schedule.

Such courses as speech, foreign languages, and philosophy may lure the student to the school, but he finds himself thwarted by conflicting class times or does not find the course offered at all. Such a condition is unfortunate for it gives a warped education to those who haven't had a more liberal education previously.

The present war has demonstrated that machines can win the military peace but that men must make and keep the lasting peace. Is IIT going to continue turning out war machines or educated men?

WITOLD KOSICKI has again scored a triumph with the successful Autumn Nocturne! Since his arrival here at IIT he has repeatedly demonstrated his ability as an organizer and promoter of school dances. Already this year he has managed the Snow Ball, been co-chairman of the Navy Ball, and now guided the Autumn Nocturne into the pleasanter memories of IIT.

Up until his appearance in the social life here, dances had continually been bigger and better flops, sending the ITSA farther into the students' reserve to make up the deficit. Since Wit has shown the way, student interest has been revived and dances have continually gone over the top financially and socially.

Such a contribution to the campus life should not go unnoticed. Perhaps the ITSA could vote Wit an award similar to those presented to outstanding athletes. Though the constitution makes no provision for such an award, it does not prohibit it. Unsolicited school spirit deserves recognition.

THE FRESHMEN have for the first time in years demonstrated some school spirit. With the Eagles winning the intramural baseball championship, the class promises other activities to make them campus leaders.

## Founding of Illinois Tech From Sunday School Retold

The story of the development of Illinois Institute of Technology from a mission Sunday school reads like the dreams of practical men come true. The start of what is now IIT was initiated by Joseph Armour, who left a \$100,000 bequest to his

brother, Phillip D. Armour, "to be used in promoting the moral and intellectual development of children and youths."

Phillip D. Armour added to the original sum two millions of dollars in gifts in the following years. As a start, the Armour Mission was erected and a Sunday school instituted. The mission had a marked effect on the neighborhood and Mr. Armour built the Armour Flats, which were described as "two hundred thirteen separate suites of apartments, forming an attractive neighborhood, and a congenial environment for the great engineering school which now stands in their midst." Part of this building is now Chapin Hall.

But the actual start of a school came in 1892, because it was felt that the purposes of the mission would fail unless practical education was added to the moral forces already present. As the concept took on physical form, its scope was widened to include higher technical training along engineering lines. As soon as the purpose of the institution became known, many applications for extended courses in engineering were received; this strengthened the founders in their con-

## Larkin Reveals Lewis Courses Current History, Dutch And Semantics Offered By Liberal Arts College

Though the new Arts and Sciences building at IIT may not be completed before 1947, the special curriculum and courses of study previously offered at Lewis will still be offered this coming term, Dr. John D. Larkin, dean of the Liberal Arts college, has announced.

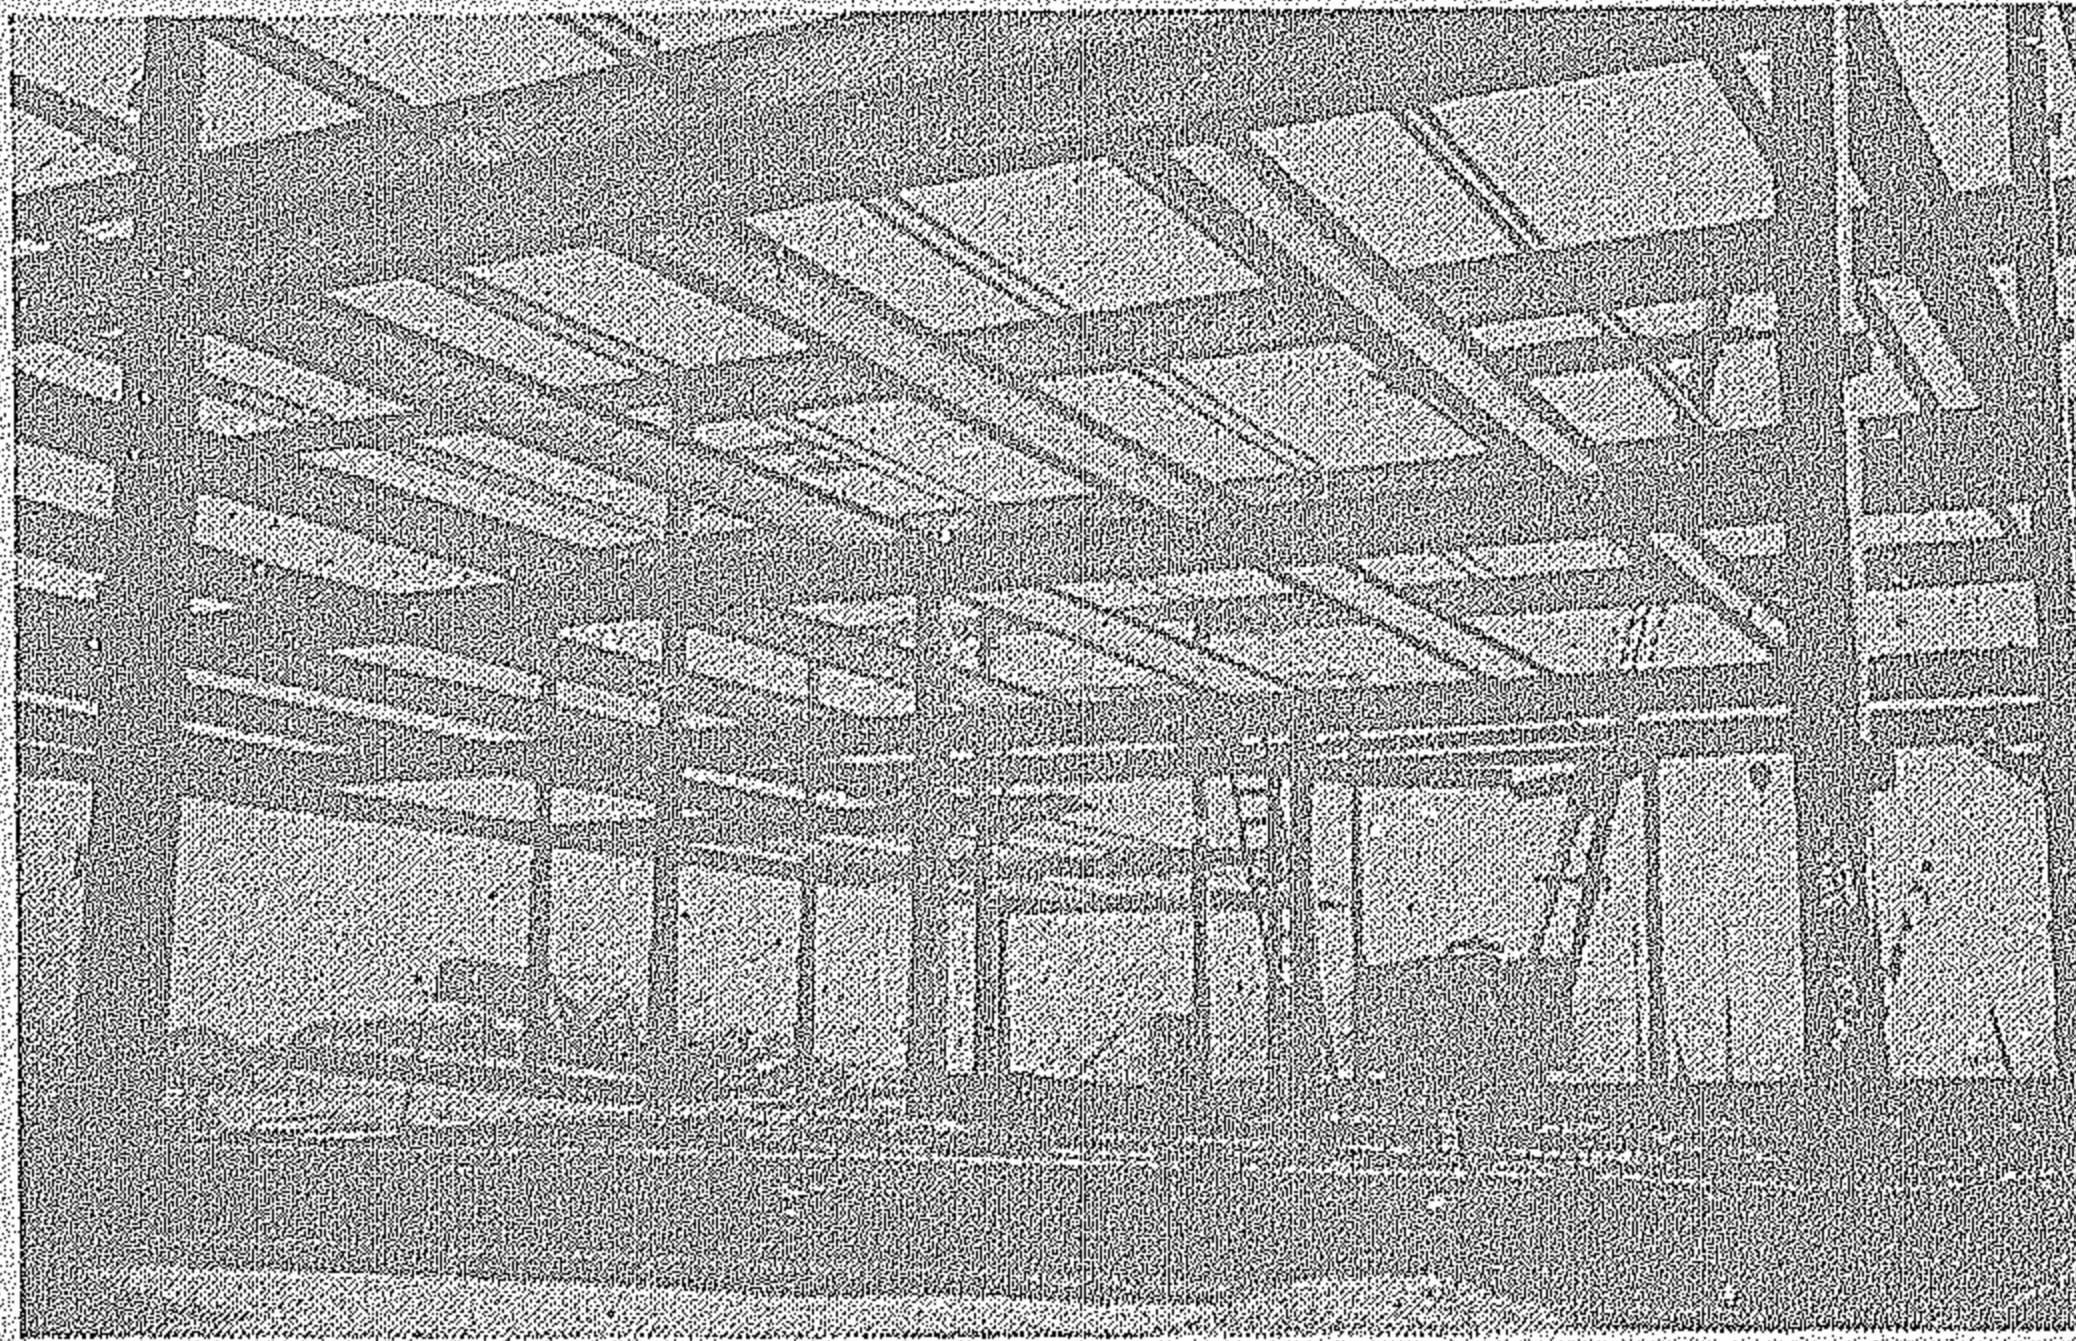

The home economics department courses will be offered at the downtown campus, 18 S. Michigan Ave. Two courses in semantics by Dr. S. I. Hayakawa, elementary Dutch by Dr. F. K. Richter, and three courses in recent American and European history by Dr. D. R. Matthews will also be offered at the downtown center. Evening courses that will be given downtown include food study, interior decorating, and textile selection. All courses in biology are to be located on the south campus. Biological laboratories and classrooms will be housed in the south wing of Chapin Hall. When the Arts and Science building is completed, the home economics courses will be the first to be located there.

Regular curricula in chemistry, mathematics, economics, and political science will be offered on both the undergraduate and graduate level. Steps are being taken to provide a wider selection of courses in these fields.

The Institute expects to continue the courses in education necessary to provide those majoring in the various arts and science curricula with the proper background for educational work in their respective fields, said Dr. Larkin. New psychologists are being added to the staff, and work in both educational and industrial psychology will be continued.

The Arts and Science building is the next on the schedule of construction for the modernized campus.

## Construction Progress

NAVAL SCIENCE BUILDING—The framework of the first building on the new campus as it appeared last week. The building is to be completed by Feb. 1.

## Tau Beta Selects Semester's Pledges

Tau Beta Pi selected this semester's pledges at a meeting held last Monday. These men will be presented to the student body this Friday at 11 a.m., in the Student Union auditorium. All students are invited to attend the pledging.

A movie will be shown in conjunction with the pledging. The title of the movie will be posted on the bulletin board in Main Building early this week.

Tau Beta Pi, general engineering honorary fraternity, is the most exclusive honorary fraternity on the campus. All junior and senior engineering students are eligible for consideration when pledges are selected. The first requirement is scholarship. This semester only juniors with above 2.3 average and seniors with above a 2.2 average were considered. Other requirements include character, honesty, and dependability.

## Del Rene Will Play At Senior Farewell

The Senior Farewell will be held at the M&M Club of the Merchandise Mart on Saturday, Oct. 13. The affair will be a dinner-dance, and Del Rene's orchestra will furnish the music.

Capacity of the M&M Club is 300 people, but invitations will be issued to a maximum of 50 couples. The graduating seniors will receive invitations when they make a \$7.00 "contribution" to the class treasury. Class officers said that the "donations" may be made beginning next Monday.

Del Rene, whose orchestra was scheduled to play for the ill-fated freshman dance of last semester, will feature two vocalists during the evening's dancing.

## Pi Tau Sigma Initiates Eight New Men Recently

Eight men were formally initiated to Pi Tau Sigma, national honorary mechanical engineering fraternity, at a ceremony and dinner held Thursday night.

They are: A/S Eugene Tubbs, A/S Haley Shulby, Mort Spector, Arthur Strong, A/S John Makielski, A/S Fred Travis, A/S Glenn Wood, and A/S Damon Martin.

Faculty members present at the dinner were Professor Henry L. Nachman, faculty advisor, Professor Ronald A. Budenholzer, George Martin, and Robert Rose. Henry Koci, alumni member, was also present.

A/S John O. Enander, president, served as toastmaster at the affair.

## Integral Staff Will Be Chosen

Candidates for the Integral staff met in the Integral office last Friday. Recruits for both the editorial staff, under editor-in-chief Don Albert, and for the business staff, under business manager Edward Rubin, were interviewed.

In addition to interviewing future staff members, plans for the organization of the staff were discussed.

Actual work on the book will begin this week, when representatives from the printers and engravers will confer with Albert and Rubin.

Students who attended last week's meeting will be signed as rewrite men, make-up men, photographers, or advertising salesmen. The latter will be awarded commissions of from 10 per cent to 20 per cent for all advertisements obtained.

Senior photographs must be taken during the week starting Sept. 17. All navy men must wear their flat-tops for photographs. The reason for a deadline is to enable the photographers to meet the Integral schedule.

This semester the seniors will pay fifty cents (\$.50) for their photographs at the studio, since the senior class treasury will not be able to stand the expense as it has in the past.

## ASME Views Picture on Casting of Metal Alloys

A movie entitled, "Aluminum and Magnesium Alloys," was shown to members of the ASME at a meeting in 305 Main at 11 a.m. last Friday.

The picture gave a description of the casting of aluminum and magnesium alloys.

The ASME magazine, "Mechanical Engineering," was distributed.

## Dohrenwend

MECHANICS HEAD—Dr. Clayton O. Dohrenwend became the director of the mechanics department on Sept. 1. He will retain his present staff appointment in ARF.

## Conference Is To Give Truman Wire Recorder

Heads of Mexico and America to Receive Full Proceedings on Wires

President Harry S. Truman is expected to be on hand to receive a recorder in person at the time of the Mexican-American Conference on Industrial Research, to be held in Chicago from October 1 to 6. He will be in Chicago on October 2 to address a convention of the Veterans of Foreign Wars, the same date as the formal banquet of the convention is scheduled.

A complete wire recording of the conference will be presented to the heads of both nations together with Armour magnetic wire recorders and reproducers at the completion of the conference, it was announced today.

The Mexican delegation, consisting of twenty top-flight Mexican industrialists, financiers, educators, and government officials, will present the wire recorder and the record of the proceedings to their president, Manuel Avila Camacho, on their return from the United States.

These recorders, a gift of the Armour Research Foundation of Illinois Institute of Technology which is sponsoring the week-long conference, will be specially chromium-plated units of the type used widely by the Allied armed forces during the war in the Pacific, and used recently to record the Japanese surrender proceedings aboard the U.S.S. Missouri.

Mayor Edward J. Kelley will be on hand to welcome the delegates at the Chicago Club on Monday morning, October 1, and Governor Dwight H. Green is scheduled to address the entire group at a dinner program at the Chicago Club on Tuesday evening, October 2.

Among the ranking educators scheduled to speak during the week are Dr. Arthur C. Willard, president of the University of Illinois; Dr. Edwin B. Fred, president of the University of Wisconsin; Dr. Andrey A. Potter, president of Purdue University; and Dr. Henry T. Heald, president of Illinois Institute of Technology.

The entire group will tour one research laboratory during each of the five full days of the conference, visiting the laboratories of the University of Chicago, the Armour Research Foundation, Universal Oil Products, and Abbott Laboratories in Chicago. The Forest Products Laboratory and the Agricultural Experiment Station of the University of Wisconsin at Madison will be visited on October 4.

## Phi Lambda Upsilon Picks New Pledges

The recent election of three new pledges to Phi Lambda Upsilon, honorary chemical fraternity, was announced by Herman Nelson, president.

The three men are: Robert Swanson, senior chemical; Richard Choi, graduate student in chemistry; and Otto Hartmann, graduate student in chemistry.

As Swanson is the only undergraduate pledge, he is the only one to whom pledge duties will be assigned. Besides carrying a two foot length of three-quarter inch pipe and an Erlenmeyer flask filled with a clear, colored liquid, he will be responsible for any information concerning the liquid and general chemistry that the actives require.

Freud vs Students

For many years at Armour and then later at Illinois Tech, it has been a tradition that only upper classmen and faculty members are permitted to ride the elevator in Main. For the past few semesters this rule has been flagrantly violated, much to the discomfiture of those privileged to ride. Last Wednesday about thirty school spirited upper classmen assembled on the third floor of Main to wait for any erring underclassmen to ride the elevator.

As it was necessary that the frosh and sophs not know of the fate awaiting them, the juniors and seniors were very quiet. Suddenly Dr. B. B. Freud burst from a chem lab and ordered the men off the floor. Immediate protests were raised as to why they should leave, to which Dr. Freud thundered, "You can't ask questions." The men showed no inclination to leave on such a flimsy reason so Dr. Freud called Dr. Hugh McDonald from an adjacent laboratory and ordered him to call Dean C. A. Tibbals and tell him that a "mob" of students were in Main and to come over and disperse them.

After Dr. McDonald left, the students' indignation rose at Dr. Freud's imperialistic attitude, and one of the more excitable student leaders said, "Sir, you haven't got those eagles on your shoulders any more." Dr. Freud remained impassive (see picture) and soon Dr. McDonald returned with the news that his mission had been successful. With this announcement, most of the upper classmen departed but a few hardy individuals remained to dispute Dr. Freud's dictatorial policies. With the arrival of the registrar, W. E. Kelly, as the dean's emissary, the last of the students disappeared.

The administration has sanctioned the rule about elevator riding; yet Dr. Freud has thwarted the attempt to en-

A Look At Alumni

Pvt. Edwin J. Hemzacek of Chicago has received his first overseas assignment in Manila as an aerial phototopographer with the 648th Engineers, a mapping battalion which recently was awarded the Meritorious Service Unit award by command of General MacArthur.

Pvt. Hemzacek is the son of Mr. and Mrs. Joseph Hemzacek of 5133 S. Whipple St., Chicago, Ill. He received his Bachelor of Science degree in mechanical engineering from the Illinois Institute of Technology in 1943. Before entering the service in August 1944, he was doing experimental work at the Bendix Aircraft Corp., South Bend, Ind.

The 648th Engineers was the first army mapping battalion to arrive overseas and has functioned as the Base Map Plant for the South Pacific for more than three years. Last year the photo-mapping company to which Pvt. Hemzacek is attached mapped more than 126,000 square miles of enemy-held territory.

Pvt. Hemzacek's duties as a topographer entail the determination of ground elevations and other topographic details from aerial photographs.

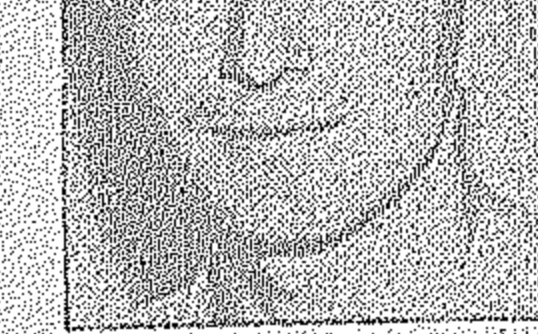

—JIM BROPHY

force it. Dr. Freud's attitude is really an invitation to freshmen and sophomores to ride the already overcrowded elevator under his protection. Surely in a democratic school in a democratic country, the will of the students and the will of the administration should not and will not be overruled by one man. As the students were not disturbing anyone and were enforcing a school rule, Dr. Freud was out of order. If co-operation in enforcing school traditions cannot be expected from the faculty, from where will it come?

V-12 VETS

Kenneth B. Marshall

A sailing farmer, Kenneth B. Marshall, hails from a 10,000 acre cattle ranch out in Idaho. On his way to becoming the man with the most versatile education in the navy unit, Marshall had a term of civilian liberal arts, is now a chemistry major, and is striking for a degree in veterinary medicine.

Though he has been in the navy since 1942 and will be in for two more years, Ken is eagerly looking forward to returning to the ranch. "We have the best land in our part of Idaho," he explains, "low land for winter and higher land for summer work. The cattle love it."

After boots at Farragut in December, 1942, Marshall went through quartermaster school there and finally was assigned to the "baby" carrier Tripoli. This ship had a complement of about 850 men and was part of the ferry command, training student pilots.

With four months of this duty, his ship was assigned to the Atlantic Fleet to do anti-sub patrol. But again, after only four months, Marshall was transferred to a minesweeper. He spent nine months aboard her and won a rate of Quartermaster 2/c. His duties consisted of preparing charts, signaling work, and assisting in navigating.

His minesweeper did escort duty, staying at sea 45-60 days at a time, but often layed in port for several days without actually tying up. During this time Marshall touched Casablanca, Dakar, Cape Verde, Brazil, and Panama, and he crossed the equator twice. Quite a story spinner, Ken keeps his roommates entertained with stories of life in these places.

He wears the Asiatic-Pacific, Atlantic, and American Defense ribbons with one star. Naturally, he is a shellback, too.

One good story he tells is of the time the Tripoli caught fire while tied up on the West Coast. Welder's torches in the hold set her afire while Ken and several others were "batting the breeze." When the cry of fire was raised everybody headed out. Next to last out, a radioman was hot on Ken's heels. "Only the radioman didn't make it. Man, I was never so scared in my life."

Marshall, who has a year of liberal arts at University of Idaho, intends to get his degree in veterinary medicine at the University of Nebraska.

—JIM BROPHY

Outstanding performance in scholastic and in military affairs, as well as a knack for making friends, brings Damon Martin into the Man of the Week spotlight.

An eighth term ME major, Martin was a five semesters co-op student before his draft board called him in 1944. He returned to Tech via Great Lakes in November of that year to complete his education as a navy trainee.

The Man of the Week was early interested in the social aspects of college life and pledged Triangle fraternity as a sophomore. His election as treasurer of the social fraternity

was followed by admission to Beta Omega Nu. He is now vice-president of that organization. Damon is no slouch scholastically, as his recent initiation into Pi Tau Sigma—the ME honorary—would indicate. Through eight semesters, he has maintained a solid B average.

Rounding out the record is Damon's appointment as trainee Lt. Commander in charge of Battalion I. This places him at the head of over half of the 300 man unit, an honored position for one who has but three "semesters" in the navy.

Dreams of civilian life now fill Martin's every waking minute. If inactive status is to be tendered men finishing eight terms, as seems the case at this moment, he will return to Caterpillar Corp. to take up where his co-op courses left off. The Caterpillar training program looks good to him and he hopes eventually to enter the field of development and research.

But for the present, at least, there'll be no more schooling. You see, Damon Martin has been chasing that Bachelor of Science degree since his graduation from the Canton, Ill. high school in June 1940.

A friend of ours claims he overheard, on a train, a professor and a farmer engaged in a battle of wits. To pass the time, the professor proposed a game of riddles at one dollar per riddle. The farmer agreed, but said, "Yer better edjicated than I am, so how about me paying fifty cents and you paying a dollar?"

The professor agreed that this was fair enough and said that the farmer should ask the first question: "Wal, what animal is it that has three legs walking and two legs flying?"

"Heh, heh," said the learned man. "Guess you have me. I don't know. Here's your dollar. What's the answer?"

"I don't know neither," said the farmer. "Here's your fifty cents."

"We're gonna have a swell time tonight Hon. I've got three seats for the movies." "Three seats? What do we want with three seats?" "One for your pop, one for your mom, and one for your kid brther."

"How long do you expect to drive around? You owe me \$18.50 now." "Better back up to fifty cents; that's all I got."

Mrs. Old-timer: "It says here in the paper that the young girls today are abandoning all restrictions." Mr. Old-timer: "Well, I'd better not catch Margie without hers on."

Hank: "Your dog looks smart."

Frank: "Yeah, I say, 'Are you coming, or aren't you?' and he either comes or he doesn't."

—IT—

Then there's the one about the skunk who said, when the wind changed: "It all comes back to me now."

—IT—

"Wish we had a fifth for bridge." "You don't need a fifth for bridge, you dope." "Well, make it a pint then."

—IT—

Breathes there the man with soul so dead who's never turned his head and said, "Not bad!" Wolf

—IT—

"You'd better jump out of the window," said the lady to her visitor, as she heard her husband approaching.

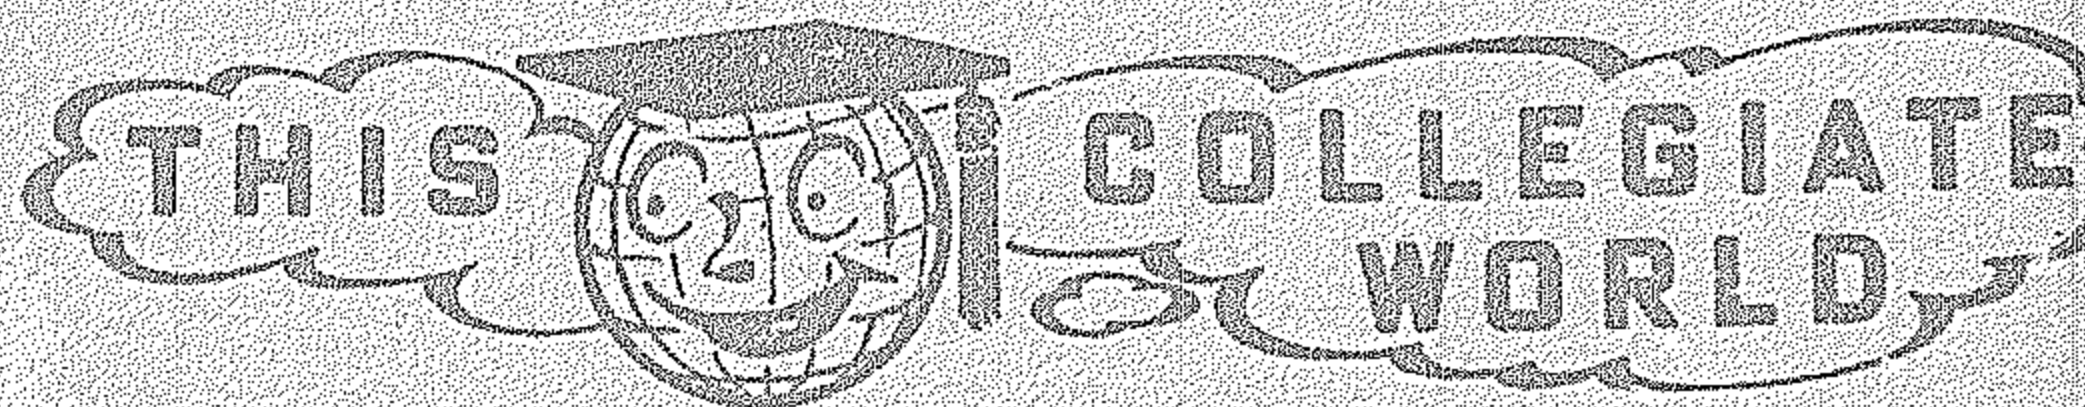

"Oh yeah!" was the reply, "you know that this is the thirteenth floor, don't you?"

"Well," spluttered the lady, "this is certainly no time to be superstitious."

—IT—

'30' for now—

—THE RAZOR BLADES

Women are still taking over the men's world, it seems. A graduate in electrical engineering at Alabama Polytechnic Institute, Dorothy Cabiness, has just been selected the thirty-first woman in the United States to receive a Tau Beta Pi woman's badge. Although the constitution of Tau Beta Pi specifies men only, a women's badge may be awarded to outstanding coeds.

Should men and women of unequal education marry? Dr. M. R. Thompson, instructor for the course "Marriage and the Family" at Iowa State Teachers College, asked that question recently, and then proceeded to give his answer. A wide difference in education decreases chances for a happy marriage.

Texas State College for Women is another of the many organizations that claim a part in the atomic bomb. Head of the physics department at the college, C. E. Normand, has been on leave for two years assisting on the project, The Lass-O, campus paper, reports.

As an experiment, three members of the lip reading class at Ball State Teachers College went for twenty-four hours with plugged ears to see how it feels to be deaf. They found that as a general rule, people on campus do not face the person or speak distinctly enough for lip reading to be effective.

—JIM BROPHY

September 17, 1945

# Softball Team Captures Title

## Beat Shore Patrol, 19-3, For 14 Straight Wins

Tech's V-12 softball team ended its season with a decisive 19 to 3 win over Shore Patrol.

As a result of this win Tech won the championship of the Navy Service League. The team came through with 14 straight wins in annexing the title.

The team was coached expertly by SP 1/c Cecil Richards. Ray Murphy was the leading batter for the Techawks. His average for the season was .625. Besides his hitting prowess, Ray was the victorious pitcher in 12 of the 14 games.

Murphy faced only 315 batters in the 12 games he won. 87 batters went down on strikeouts against Ray and 86 members of the opposition reached first on walks. Only 11 runs crossed the plate for the opposition and Ray gave up only 33 hits.

In winning its last league game, Tech piled up the season's highest score. The previous high had been 14 runs. This was recorded in a win over S. U. 9812.

Bob Hauser and Murphy led the Tech onslaught against Shore Patrol. They both garnered 4 hits in 5 official times at bat. Fran Krawczak, Dave Hoffman and Hauser all connected for circuit smashes.

In the first inning Hauser started things with a single to left center. He advanced to second on an infield out by Krawczak and scored on a hit by Murphy.

Tech was held scoreless in the second and third innings, but in the fourth they let loose with everything. After the dust had settled, 12 runners had reached the payoff rubber.

Hoffman tripled to start the big fourth. Vic Mieszkowski drew a pass and then Howie MacAdams grounded out to the pitcher. Jim Stewart banged out a single to score Hoffman and Mieszkowski. Paul Martin was safe on a fielder's choice. Hauser stepped up and cleared the sacks with a booming homer. Krawczak proceeded to use up a little energy in touching all 4 bases on another round tripper.

Murphy then doubled to right center and Roy Schimmelpfenig pounded out a triple. Hoffman laid on the second pitch and it went into the outer pastures for another home run. Mieszkowski lashed a triple to center and scored on MacAdams double. After Gene Kleeman had flied out, Stewart banged out a sharp single to score the final run of the inning.

In the sixth inning, 6 more markers were put in the score book. Mieszkowski singled and was followed by Howie Poulter who grounded out, short to first. Vern Ebeling pushed a single through the infield and advanced to third on a single by Stewart. Mieszkowski scored on the single. Ebeling scored when Martin was an easy infield out. Hauser, Krawczak and Murphy came through with successive singles and 3 more runs crossed the plate. Murphy scored on a double by Schimmelpfenig.

### NAVY SOFTBALL BATTING AVERAGES

Player	AB	R	H	Pct.
Murphy	32	12	20	.625
McCabe	14	0	7	.500
Krawczak	13	6	6	.462

Butler	8	1	3	.375
Poulter	5	1	0	.200
Ferguson	3	2	0	.000

# Intramural Baseball Champions

THE WINNERS—Shown are the Freshman Eagles, who defeated the Senior Mechs to become the intramural baseball champions. Left to right are, back row, M. Kroll, W. Klein, C. Davidson, D. Goshring, J. Roding; front row, H. Cook, N. Nimeroff, M. Weinberg, W. Johns, E. Anderson, C. Michalowski.

## Netters End Term With .500 Average

The tennis squad has completed one of its most successful seasons under coach Bud Hermann.

Getting under way slowly through the spring season, Tech lost the first three matches to University of Chicago and Beloit. This was no indication of the steamroller power they were to gain, for although the team lost five in winning five in the first half of the season, it finished the summer with a record of 16 wins in 22 games.

Notre Dame brought its powerful squad to Chicago and handed Hermann's boys their first and last defeat of the summer. The return game a week later was rained out, killing Tech's chances to prove it was a bad day for them.

The season's record is as follows:

### 1945 TENNIS RESULTS

## Intramural Touch Football to Begin

Intramural touch football will get under way this week with the Senior Mechs pitted against the Junior Mechs on Tuesday at 5 p.m.

Impartial pairings were made with the aid of Sonny and a close race is expected. Even though the entry date was postponed for two weeks to allow for a few more teams, only six have been entered.

The sophomores for the third straight tournament, are not represented.

Some students have requested an intramural tennis tourney and if enough entries are received, a tournament will be undertaken. Entries should be placed in Sonny's office not later than Friday, September 21.

So that intramural softball medals can be ordered, the Freshman Eagles are requested to turn in a list of twelve men, who are to receive these awards.

For the first week of the touch ball tourney each team will play one game. Next week the tempo will be accelerated. The tournament will be a round robin, two game elimination affair with the team compiling the best won, lost record taking the championship.

## Hockey Team to Hold First Meeting Tuesday

Coach Hans Landay has announced that there will be a hockey meeting in the lounge of Quarters 2, on Tuesday at 7 p.m. All prospective members are requested to attend. Plans for the coming season will be formulated.

No more entries will be accepted for the touch football tourney. Last Friday was the final deadline, and a total of six teams was entered. The seniors made an excellent showing, entering three teams, making up half of the total. The juniors drew together two squads from their mechanical and EE departments, and the freshmen combined their ME's and EE's to form a strong contender for the IM trophy.

As for the sophomores, it can be said that theirs is a sad example of class and school spirit.

Their record in the past shows little in favor of them on this count. In class elections, social activities and athletics, theirs has been the class which yielded the least, and then only under the greatest pressure.

The navy V-12 softball team, under the coaching of Sp(A) 1/c Cecil Richards, has concluded a successful season and emerged champions of the Chicago Area Navy League. A great deal can be said for Richards. It was the first team he coached, and although his material was good, he whipped it into championship form. The V-12'ers started fast and never slackened their pace.

Their final 14 win spurt, topped with a 19 to 3 win in the last game of the season, put them in a class far above the rest of the league.

Bad weather held up the inter-frat softball schedule last week, raining out three games. Two others were broken up because of the navy's regulation requiring men to muster at 5:45 p.m. With a little sunshine and better cooperation from the V-12'ers in getting the games started on time, the last few tilts to the playoffs should be run off this week.

# Baseball Squad Ends Season; Krawczak, Stidham Take Honors

## Weissman's Wrong Guys Prove Versatile In Defeating Champion Softball Squad

The Techawk baseball squad concluded play in the summer campaign with a record of four wins and three losses.

Fran Krawczak and Mel Stidham tied for hitting honors among the regulars, pounding out 8 hits in 24 trips to the plate for a .334 average. Ray Murphy, who closed spring play with a .460 average to lead the team in hitting, wound up with a .291.

### INDIVIDUAL AVERAGES

Player	AB	H	Pct.

Bushelle	18	5	.278
Evers	18	5	.278
Capron	11	3	.273
Lichtmann	26	6	.231
Hauser	20	3	.150
Mieszkowski	21	3	.143
MacAdams	3	0	.000
Kravolec	0	0	.000

The team showed great promise at the beginning of the term by polishing off the Stevens Hotel Semi-pro Nine to the tune of 11 to 3. Gene Evers went all the way for Tech, giving up 5 hits, two walks and striking out six opposing batters. He also was the offensive big gun for Tech by connecting for three hits in four official times at bat.

The two teams met at Trumbull Park in a return game, this time IIT being shaded 2 to 1 in a seven inning contest. Each team collected three hits, but two Tech errors proved costly. Bud Kravolec started but was replaced in the fourth after having issued seven walks and two hits. Lichtmann, Murphy, and Mieszkowski collected the three Techawk hits off "Cowboy" Fields, who went the route for the Stevens Nine.

Another Semi-pro team, the "Bassinski Boosters" invaded Ogden Field, and fell before Weissman's regulars, 3 to 2. The Boosters tied Tech in hitting, 7 to 7, but four walks issued by Smola and Migut forced across the winning tally in the seventh. Bob Lichtman sparked the Tech defense with a double play in the fourth. Co-captain Evers toed the hill for the Scarlet and Grey, striking out four opposing batsmen and issuing two walks. Ray Murphy, playing brilliantly afield, connected for two of Tech's seven hits.

The team travelled to South Bend where they met Notre Dame in the next encounter. Mel Stidham started off in great style with a triple in the first frame, later scoring on an infield out. Three hits, two errors and two passes put N. D. ahead 3 to 1. Tech scored one in the fourth but could not overtake the Irish who emerged victorious, 5 to 2. Bill Grieve hit safely three times for Notre Dame. Stidham and Lichtman led Tech with two hits. "Lefty" Smullen showed great control in allowing but one pass and striking out seven Tech batsmen. Three IIT errors proved extremely costly.

The next encounter was at Battle Creek, where the Percy Jones Hospital sports department slipped up and scheduled both Tech and Notre Dame on the same day. Rather than have the trip go for naught, Sonny's boys took on the Hospital's championship 12 inch team and walloped them 5 to 0. Ray Murphy proved his versatility once more by hurling a no hit, no run game for the Techawks.

A four inning contest against the Cobras was next on the schedule. Gene Evers was his usual self, as he limited the Cobras to one hit, that coming in the first half of the third. Fran Krawczak drove out three hits in three trips while scoring twice for a perfect day.

Roy Schimmelpfenig made his debut as a pitcher as he limited the Chicago Cubs Juniors to 4 hits in three innings. Thereafter Evers took over and blanked the opposition in the remaining three innings. Tech collected 13 hits in all, three of the total coming from the bat of Mel Stidham. The final score showed IIT on top 12 to 1.

The Indiana Prison Nine shaded the Techawks in the final contest of the season, 8 to 5. Three safe blows in the second put Tech ahead, but walks and errors proved costly.

IIT FOOTBALL SCHEDULE	
Tuesday, Sept. 18,	5-6 p.m.
Sr. Mechs vs. Jr. Mechs	
Friday, Sept. 21, 11-12 a.m.	
Sr. Chems vs. Mech Elecs	
5-6 p.m.	
Jr. Electricals vs. Sr. Elects.	

## FOUR Music Groups To Make Trip

The band, orchestra, and glee club of Illinois Tech will travel to Rockford, Illinois, for a two day musical vacation, Oct. 13 and 14. Under the direction of O. Gordon Erickson, the groups will present two concerts in the downstate city and will be entertained at a dance to be held that Saturday evening.

The women of the Rockford College for Girls will act as hostesses for the club members before and after the Saturday afternoon concert and at the dance that evening. Since the school does not begin its fall term until a few days before the arrival of the music clubs, some restrictions may be placed upon the hours kept by the girls. Rockford is one of the largest cities in Illinois, and is reported as having the recreational facilities of a junior sized Chicago.

The Saturday afternoon concert will be given at four, at which only the orchestra and glee club will take part. Scheduled to begin at 9:30, the dance will probably end a little after 11 p.m. It is expected that the Rockford College women will have to be back at the institution by midnight.

The Faust Hotel will quarter the music club personnel Saturday night. Everyone may sleep 'til eleven, at which time breakfast will be served.

The musical highlight of the two day affair will begin at 2 p.m., Sunday afternoon. The concert will include performances by the band, orchestra, glee club, and dance band and is to require over two hours for completion. At the concert's end, the group will once more be given the run of the city until time for the organization's return to Chicago.

## Library Staff Changes Caused By Lewis Shift

The past three weeks have seen several changes in the library personnel.

Misses Helen Curran and Grace Galioto of the Lewis library came to the Armour Campus when Lewis closed. Since that time, Miss Galioto has left to become assistant librarian at the Crippled Children's Association. Before moving to the south campus, Miss Curran and Miss Galioto, together with Mr. William H. Hyde, had the task of packing all the volumes and papers of the Lewis library.

Miss Ruth Letcher, former library assistant, is now teaching in a country school in Michigan. A new member of the library staff is Miss Jennie Berkson, who is also working in the technical drawing and chemical engineering departments.

Miss Esther Chesire is back after a month's vacation in New York and Iowa.

## Honor I to Halt Wearing Of Unauthorized Letters

There have been several students seen wearing letters earned from other schools on the IIT campus. If this practice persists, the men will be asked to remove them and if they refuse, they will be removed by force.

The Honor I Athletic fraternity is the only sports monogram organization on the campus and is made up of men who have distinguished themselves in the field of sports while participating for Tech, and they should be the only ones allowed to sport their awards.

## The Main Incident

THE LITTLE COLONEL—Dr. B. B. Froud shown as he directed the dispersing of upper classmen from third floor Main where they were waiting for elevator riding freshmen. W. E. Kelly is lending his authority.

### TECH TIME TABLE

All items appearing in Tech Time Table will be those which are scheduled with Dean Tibbals. No other items will be used.

## White Collar Girls Hold Supper, Party

The party given last Monday by the IIT White Collar Girls, the clerical workers' club, was a success, according to Miss Dorothy Kalinak, secretary of the club.

The evening began with a buffet supper of salmon and ham salads, potato chips, cookies, cake, and coffee. After supper the girls adjourned to the Student Union lounge, where they played bridge, pinochle, ping pong, danced, and "jabbered." Door prizes and table prizes were awarded.

A handicraft exhibit was also presented. Purses, house-slippers, a rug, and greeting cards, all made by members of the club, were exhibited. These members will teach their arts to other members of the club, if they are willing to form small groups.

Invitations to this party were extended to all clerical workers, whether or not they belonged to the club. However, in the future, active members only will be included in the organization's social affairs.

Ten of the girls have formed a bowling group, which meets every Thursday evening at Bensinger's, downtown.

## Junior Dance Runs In Black

With the sale of 275 bids to the junior sponsored "Autumn Nocturne", the fifth dance in succession to be held by IIT, ran into the black.

This number does not include the number of bids sold at the door nor the complimentary bids given to school officials and committeemen, said John Makielski, junior social chairman.

The class treasurer, Rudolph Foglia, said that a complete account of expenses and receipts will be published next week.

"The class officers wish to thank all those who helped make the dance a success and in particular the following men for their willing support: Fred Travis, George Marzeck, De Witt Pickens, Melvin Feldman, Richard Solomon, Chuck Hatstat, Joe Hassler, Lewis Carter, Tom Burt, Gary Woodward, Jim Erophy, Bob Fordham, and Bob Little," said Wit Kosicki, junior president. "The class officers worked like a team."

The dance was held in the Gold Room of the Congress Hotel. Chuck Cavallo's orchestra furnished the music from 9:30 to 12 p.m.

## Fraternities & Sororities

### Twenty-three Men Attend SAM Meeting

Sigma Alpha Mu held its monthly meeting last Wednesday night with an attendance of 23 men; 12 actives, 7 pledges and 4 alumni.

Bob Barrett, one of the chapter advisors, was present to aid in the interpretation of the constitution which he helped revise when he was an active, said Meyer Gilden, prior.

A majority of the actives, pledges, and some alumni were present at the meeting.

### Pi Kappa Phi to Hold Annual Dinner Dance

The Southmoor Hotel will be the site of the traditional Pi Kappa Phi pledge dinner-dance next Saturday evening. A portion of the evening's entertainment will be supplied by the pledges, who will present a series of skits. All the arrangements for the affair have been made by a committee of pledges headed by A/S Jim Woodling.

Plans agreed upon by the active chapter at its regular meeting last Wednesday call for the informal initiation of the pledges on the week-end of Sept. 28-29. A committee headed by Bill Ludwig, pledge master, and composed of A/S Jim Brophy, Howie Johnson, and Bob Applegate will make all necessary preparations.

A news letter to alumni members of the chapter will be sent out sometime this week, according to Howie Johnson, historian.

### Alpha Sigs Plan Final Social of Semester

Alpha Sigma Phi fraternity made plans for its final social affair of the semester at a meeting last Wednesday. A party will be held in the home of Thomas Blim on Sept. 22.

The pledges will clean up Blim's basement before the party. This affair will have to suffice the fraternity senior farewell, since no other weekends are open to parties this semester.

Mel Stidham was appointed manager of the fraternity touch football team.

Two alumni, Lt. William Plengey, '42, and Ensign John Reissenweber, '44, attended the meeting and related some of their experiences in the navy.

According to Phil Jansen, fraternity president, the frat was well represented at the "Autumn Nocturne."

### Party in Dunes Held By Delta Tau Delta

Delta Tau Delta recently held a beach party at the cottage of Race Wilt in the Indiana Sand Dunes. The party started at noon and lasted until about midnight.

There will be a pledge meeting tonight at 5 p.m. in 405 Main. The Deltas are planning to institute a study system in order to help maintain higher scholastic averages.

The chapter recently heard from E. Adams, a former active who is now in the navy.

### Armour Eye to Sponsor Photographic Contest

The Armour Eye will hold a meeting tonight at 5 p.m. in the club rooms. President Don Gipple announced that the club will sponsor a photographic contest in the near future. Any member may submit as many salon prints as he desires. The pictures will be judged by professors S. I. Hayakawa and F. K. Richter. At the meeting the club will decide whether or not an entry fee will be required.

The initiation of the men now pledging Armour Eye will also be discussed at this meeting.

## NAVAL NOTATIONS

### Quarters #2

Since some enterprising juicer took a tube out of the radio in the lounge, the volume obtained from it has tripled. This helps to keep the night watches awake by listening to the Nite Watch over WIND.

Men of the quarters turned into beavers for one day last week. It seems they were threatened with a week-end restriction on the night of the junior dance because the morning inspections were bad. So, Wednesday everybody turned to at 6 a.m. to give the house that spit and polish effect. Funny part about it is that the feeling lasted until the end of the week.

Speaking of the dance, men of the house were well represented Saturday night. Let it be said, however, that no one—absolutely no one—from Quarters #2 was under the weather.

### Quarters #3

Ten men and a football—that's the story of the Quarters #3 Demons, a recent entry into the intramural touchball tournament. The squad members are: Paul Boggess, Bob Gentile, Ken Marshall, John Newman, John Schmidt, Peter and Paul Smalldone, Bill Stewart, Norb Vojta and Tom White. Coach Stewart, with usual pre-season reserve, predicted only that the team would be "in there fighting for every game."

Frustration was the lot of Room 216's occupants last week. Plagued by flies and mosquitoes, the desperate men sprayed the premises with the very effective insecticide—DDT. The temperature in the Chicago area immediately dropped, and, it seems, the little crawlies were frozen to death before the deadly chemical could slay the buzzing sleep killers.

### Quarters #4

Tom Coppock last week lamented the fact his name had never been in Naval Notations. Sorry for the oversight, but Tom is usually such a goody-goody boy that he's never involved in escapades such as are reported here. But as for his name—can do. How does it look in print:

### THOMAS W. COPPOCK!

Herb Pritz quoted Jim Slaton as saying, "Many's the tramp I've taken in Grant Park. And were they tramps!"

"Uncle" Louis Teppig's date for the Autumn Nocturne was Elaine. Apparently his motto is "A new one every dance," but nevertheless he's managed three dates a week with Elaine (one every liberty night) for over a month.

### Quarters #5

"Hello, I want to speak to Pete." "Pete says to tell you he's been transferred." Thus a small atomic bomb exploded in the sheltered bulkheads of Quarters #5. The girl calling wouldn't give up the line. The men became impatient, finally threatening, but the girl, who happens to be a Chicago telephone operator, just said she wanted to talk to Ed "Pete" Petrosky. The verbal battle lasted for well on to an hour, when "Pete" broke down and spoke to the girl. She said she was sorry and released the line immediately after he gave her some of his—line.

A/S Arthur Ware, Mr. Winston's prodigal son, has presented the quarters with a cat "of exceedingly fine breed," quote brother Ware. On his first day at Quarters #5 the cat succeeded in uncovering a dead mouse that had been causing some unusual odors in and about Room 209.

Everyone is anxiously awaiting the encounter of our new cat and our old rat. Some believe the night crawling rat to be larger than our cat, at any rate all hopes now are with our cat, name censored.

Throughout the past week the painters and plasterers have been giving Quarters #5 a well deserved face lifting. The improvements are highly noticeable and appreciated.

### Quarters #6

"Blivet," former mascot of Quarters #6, now all-around hound of the unit, had a little argument with an automobile Thursday evening and came out on the short end. He has been placed on light duty, and has permission to make a sackhound of

himself in the lounge as long as his light duty continues. Whitey Hassler, who was his sea daddy when he was a recruit, took him back in the crew and gave him a shower to ease his pain.

The new Alnav which makes it possible for reserves to ship into the regulars has such crusty kids as Terry Rice and Jim Hartnet looking into the method of making the transfer. This opportunity to get into the elite of naval society has never before been granted to reserves, and the boys are leaping at the chance.

### Quarters #7

Things really popped in Quarters #7 last week. Perry Keller mixed a compound of iodine and another chemical which, when allowed to dry, forms very sensitive crystals which disintegrate with a "Bang!" when touched. Alan Grant was the first victim of this prank. When he made a trip to the head at 1 a.m., Grant stepped on one of the crystals. He was terribly frightened until the ever-assuring voice of Perry Keller, who was studding into the "wee" hours of morning, convinced Grant that he hadn't been shot at. Carl Child and Paul Martin were other victims of Keller's "secret weapon."

Members of the championship V-12 softball team from this quarters include Gene Kleeman, James Stewart, Paul Martin, and Beverly Butler.

Dick Lander is looking for a job at which he can start as a millionaire and get an increase in salary every six months. He prefers a company with a bonus system so that he'll be able to spend some of his "extra" earnings. Dick would refuse to be made president of a corporation, because there is no chance for advancement. He is the original exponent of triple time for overtime, overtime meaning any amount of work that Lander does.

Robert Schrotzberger plays the piano for us every morning, and George "I'm Uglier Than You Are" Marzeck often entertains with his vocalizing. It isn't exactly singing.
