

RESULTS OF the balloting for the Techawk to represent IIT as guest disc jockey on the Chesterfield ABC club were quite interesting statistically. The 300 people participating in the *Technology News*' sponsored voting were, for instance, more than the voting members of the senior, junior, and sophomore classes combined in the recent class elections. The fact that there was only two days advance announcement of the voting and that campaigning was only by word of mouth adds to the 'interest'. Maybe we should get Eddie Hubbard to M.C. the elections next term and limit the candidacy to disc jockeys.

THE NEW 'RECRUITING' program for women for the ranks of IIT should be one school project that has the support of the majority of the student body. Rumor has it that certain of the lads have even volunteered to do their part for old IIT by lending a hand to Miss Mac Luckie. What with new buildings and more women on the way all the 33rd St. utopia needs now is the abolishment of all 8 a.m. classes.

THE FOREIGN STUDENTS assembly last Friday was a fine start for the new ITFSA. The build-up and presentation of the program was well planned and enthusiastically received by the student body. Despite minor difficulties the group presented a program both entertaining and educational and did credit to fellows relatively unfamiliar with our assembly methods.

THE CORD FOR the juke box in the SU lounge seems to be a matter of controversy. The janitor maintains the place for it is in Weismann's office whereas the students seem to think it should be on the juke. Either the janitor's a square or the school should purchase a second cord. At any rate the juke is not there for ornamentation!

Ballou to Be Tech Disc Man

As guest critic and reviewer, Art Ballou will represent the IIT student body tonight on Eddie Hubbard's Chesterfield ABC Club.

Ballou won the honor by cornering the largest portion of the 300 votes cast in the *Technology News* sponsored contest to determine the student body representative.

Well versed on the subject of jazz, Art will appear as a judge with Don Haynes, *Downbeat's* Chicago editor; George Hofer, who writes the "Hot Box" column in *Downbeat*; and Johnny Sippel, *Billboard's* reviewer on Hubbard's "board of critics."

The Chesterfield program, which is heard nightly from 10:05 to 11 p.m. over WIND, features a record reviewing session each Tuesday during which the latest popular discs are discussed.

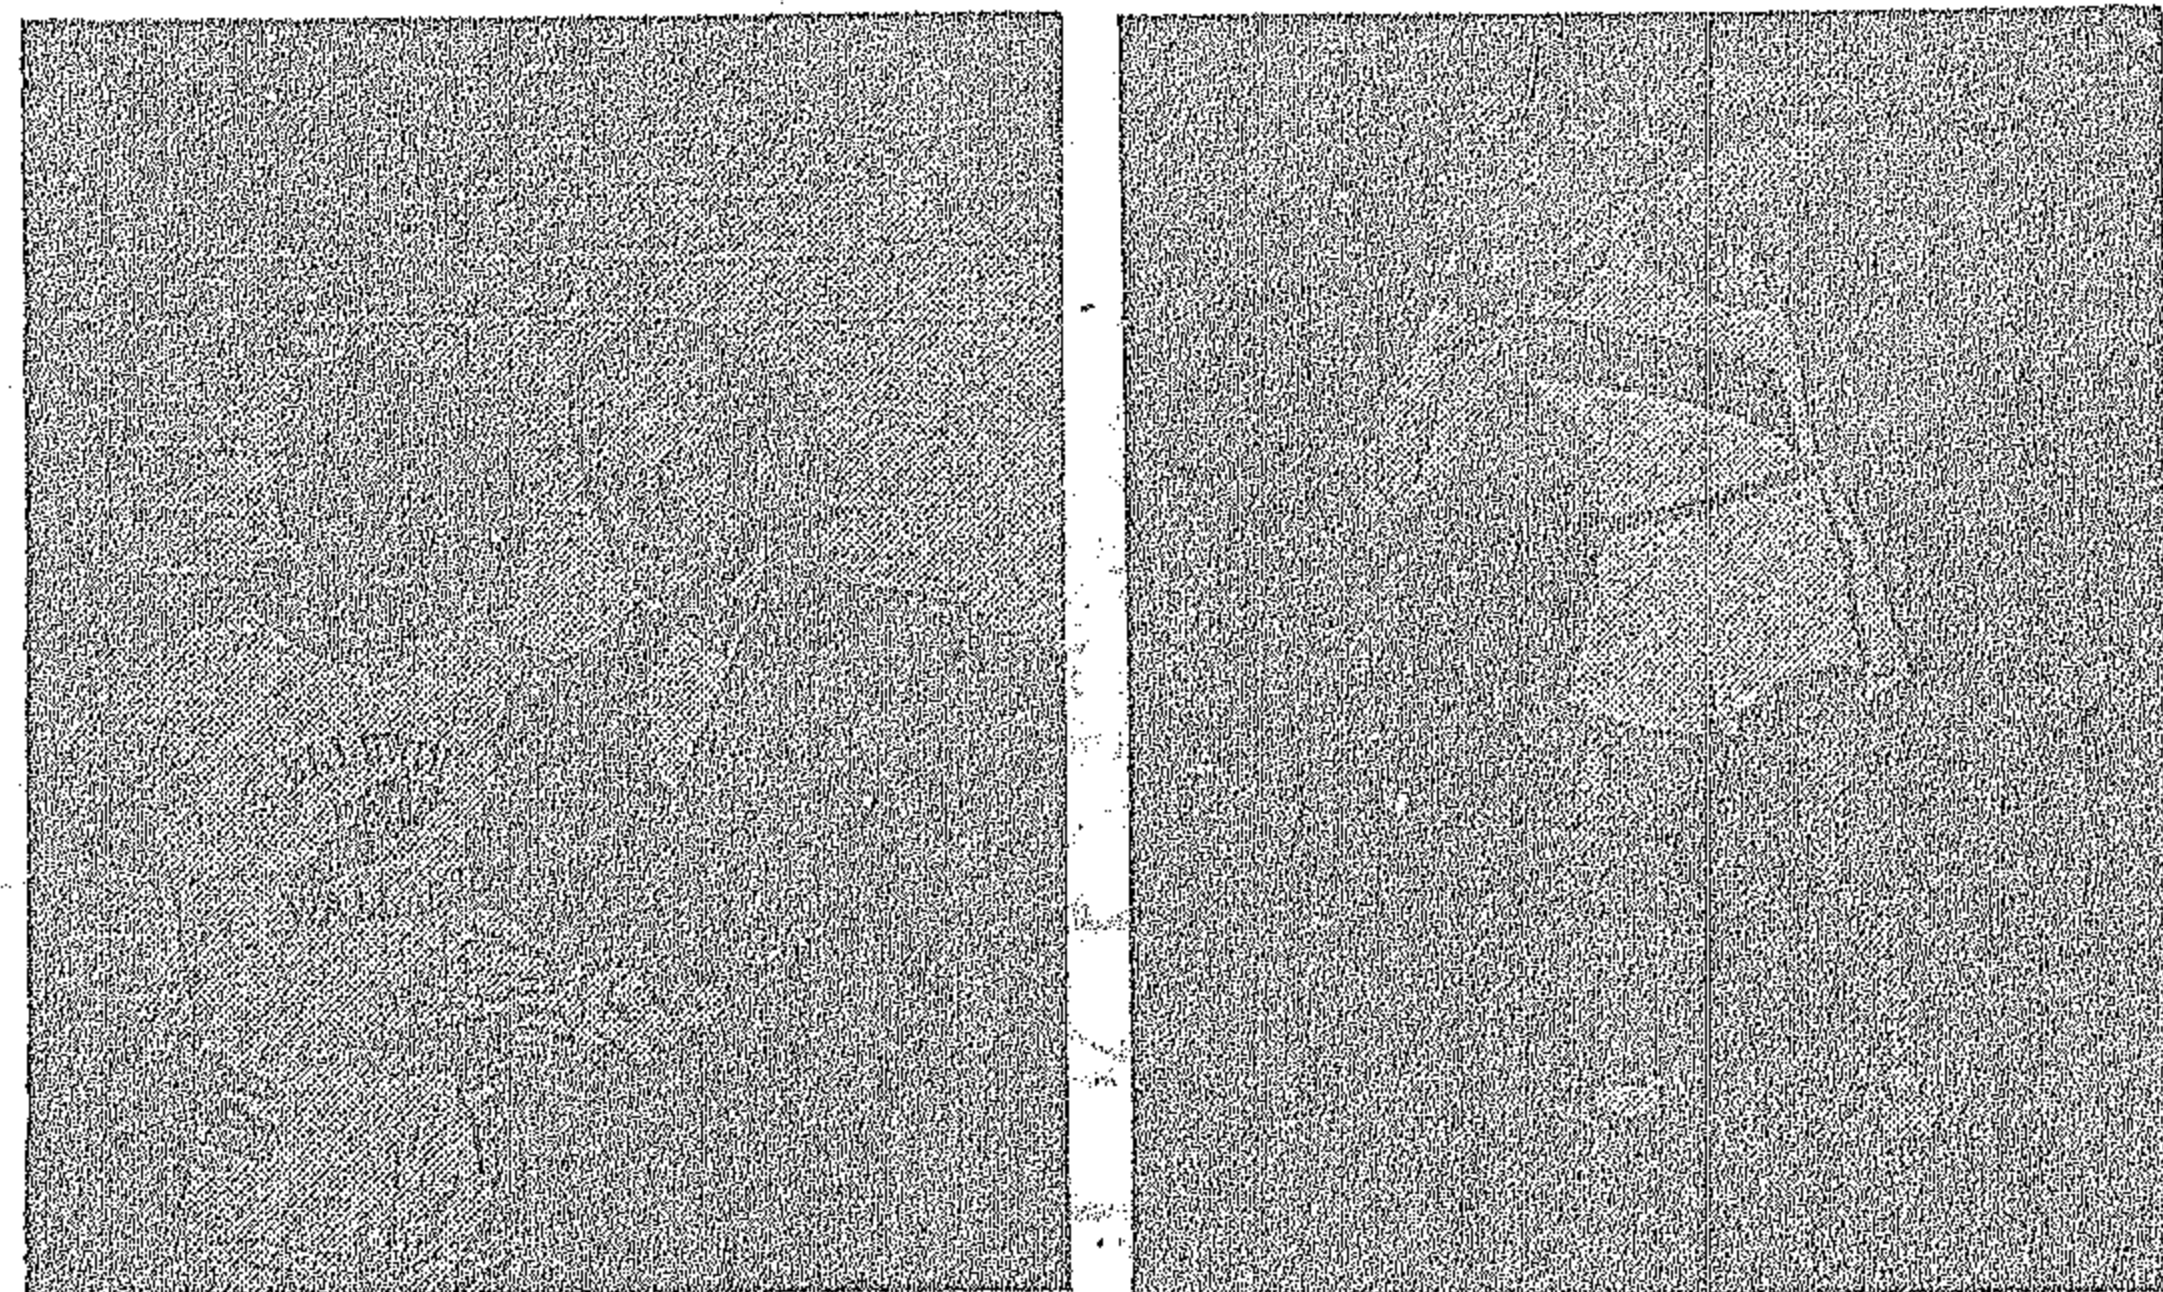

Integral Needs Writers For Staff Next Term

Jim Brophy has announced that the Integral is now looking for students interested in joining its staff next fall. Those with past experience in work on yearbooks are preferred, but those having no past experience and are interested in writing for the Integral are cordially invited to sign up, he said. Persons interested should leave their name, address, phone number, and experience on a slip of paper at the post office, in care of the Integral, Box 76. The Integral is particularly in need of writers, rewrite men, lap-out men, photographers, and cartoonists.

The editors for next semester haven't been appointed as yet but they must be announced by the end of this semester and their names submitted to the ITSA for approval.

Relays Record Breakers

SET MEET RECORDS—Harrison Dillard, Baldwin-Wallace's record breaking hurdler, is pictured at left with Coach Eddie Finnigan after he had set a new meet record and tied the American indoor low hurdles record. At right is Norm Wasser, University of Illinois shot put star, whose 52' 4 1/2" heave shattered previous Relays' mark.

All Photo Enthusiasts Invited To Attend Studio Night Friday

Armed with cameras and films, old photo enthusiasts, as well as embryo shutterbugs will be given opportunity this Friday night to take part in a photographers frolic.

Starting at 7:30 p.m. in the auditorium, the all-school Studio Night which is being sponsored by Armour Eye will furnish photography minded students with models, backgrounds, meters, lights and other equipment needed for making good pictures. The Eye will provide a professional model and a bountiful bevy of blondes and brunettes. All participants are invited to bring their dates and to use them as models also.

The program committee emphasized that this evening of shooting does not require a bagful of accessories and an expensive camera. "Dust off the old box camera or the family Kodak and come along," said Arnie Rosner, president. "All you need is a camera and films." Expert photographers, members of the Eye, will be on hand to advise and assist. Refreshments will also be served.

The best pictures taken will be exhibited in the Student Union at (See STUDIO NIGHT on Page 7)

Spaeth Announces New Campus Parking Rules

In an effort to provide a solution to the parking problem until permanent parking lots can be constructed to the north of the campus, the following rules and regulations regarding parking are now in effect, said R. J. Spaeth, treasurer.

The parking lot south of Main, the parking lot north of Machinery Hall, and Dearborn Street between 32nd and 33rd Streets will be reserved until 6 p.m. for faculty and staff parking, including the Institute, the Research Foundation, and the Gas Institute. Any member of the staff may secure a permit to park in these areas by application to the Office of Superintendent of Buildings and Grounds. Only cars carrying this insignia will be permitted to park in these areas.

All reserved stalls in these areas will be abolished, and all spaces will be available to all staff members on a first come, first served basis.

"No Parking" signs will be removed from the east side of Federal Street from 32nd to 33rd Streets, from 32nd Street, and 34th Street between Federal and State Streets.

As soon as buildings can be wrecked, permanently surfaced, fenced and guarded parking spaces will be constructed north of 32nd Street. Until that time, patience and cooperation regarding a most troublesome problem will be appreciated, Spaeth said.

Additional Women Students Sought For Fall Semester

Plans for a campaign to secure enrollment of a large number of additional women students and for the expansion of women's activities at IIT were announced by President Henry T. Heald at the Women's Dinner held last night in the East Dining Room.

The campaign for more women students will be under the direction of Miss Jeanette Mac Luckie of the Admission's Office. As outlined, the plans call for an extensive visiting and letter writing campaign to Chicago and out-of-town high schools and junior colleges. Emphasis will be placed on securing Home Economics students, although students in other liberal and science studies will be sought.

New plans for the Illinois Tech Woman's Association call for participation of the group in Junior Week Activities and the establishment of a "big sister" program for new women students.

The dinner, which was the first of its kind sponsored by the Institute, was attended by 80 female Techawks. Women members of the faculty and Deans Larkin and White were also guests.

Power Conference Convenes March 31

Power, its production, transmission and consumption, with the current problems and the recent developments of each phase, will be studied at the three day Midwest Power Conference to be held March 31, April 1 and 2, at the Palmer House Hotel.

More than 2500 engineers from this nation and foreign countries are expected to attend what is the largest annual meeting of its kind in the world. The conference will again be sponsored by Illinois Institute of Technology with the cooperation of other midwestern universities and professional societies.

Stanton E. Winston, dean of the evening division of IIT will direct the conference for his eighth time. Edwin A. Whithead, research professor, is the newly appointed secretary. He succeeds Charles A. Nash who had held the position in previous years.

Illinois Takes University Crown in Tech Relays; Mich. Normal Repeats

Herb McKenley Shatters American Indoor Record in 440 Yard Run; Dash and Hurdle Marks Tied During Evening Program

4A's Plan Surprises At "Rogues Gallery"

The "Rogue's Gallery Dance" sponsored by the 4A Senior class, March 29 will be "remembered for a long time to come by students and faculty alike," said John Basic, committee co-chairman.

Because of the surprise effect planners of the dance are trying to achieve, Basic was reluctant to divulge any information, but did say that the "mere possession of one of the colorful tickets gives many hints" as to what will take place at the dance. He added that the number of tickets that have been sold requires the use of the Faculty Club as an extra powder room.

Held in the entire Student Union Building, admission charge for the dance will be \$1.25 per couple incl. tax. Tickets will be on sale in the SU lobby this week between 10:30 a.m. and 1:30 p.m.

ITFSA to Present India Culture Film

As part of an expanded program of semester's activities the Illinois Tech Foreign Students Association has announced the presentation of films on the "Cultural Heritage of India". These will be shown at 11 a.m. Friday morning in 105C. C. I. Amauia, senior ChE, in inviting all students said that the film will cover phases of Indian architecture, dancing and music and is in keeping with the ITFSA's purpose of bettering relations between countries.

Before an all school assembly last Friday, Pier Abetti, vice-president of the organization, told of his experiences as a member of the Italian underground during World War II. Despite the risks involved in carrying out the duty of transmitting both military information and names of Nazi and Fascist sympathizers to the allies, Abetti said that the period was "the best and most interesting years of my life".

Bruce Clark, of Brazil and president of the ITFSA also announced a social meeting at the International House at the University of Chicago on Saturday, March 22 at 7:30 p.m. to which all foreign students are invited.

Faculty Committee Handles Discipline

Since the Honor System was suspended for a period of at least one year, the responsibility for the prevention of cheating has been in the hands of the faculty and its representatives on the Institute Committee on Discipline. Its function is to assess punishment on cases which an instructor or other Institute official reports in the discharge of his duty in controlling dishonesty.

The committee has made the following recommendations to all instructors:

- 1) Avoid the repetition of tests given in previous semesters. In a number of courses, the same test
- (See DISCIPLINE on Page 8)

The Illinois Tech Relays returned to the nation's sports scene last Saturday evening.

As the curtain fell on the final event on the thrill-packed eight hour program, no less than 25 assorted records, including four American indoor marks, had been either equalled or broken by a brilliant field of entries which included more than 900 individuals representing 62 colleges and universities.

The climax of the 1947 Games, for the second year recognized as the largest indoor, collegiate meet in the nation, was reached with the start of the university quarter mile event. Herb McKenley, the long-legged Illinois star from the British West Indies, broke from his starting blocks with the gun, flashed twice around the clay track, and breasted the finishing tape in a new world record time, 47.9 seconds.

McKenley's great 440 performance was one of six firsts scored by the Illini, which alone would have been enough to provide them with the university title. But the newly-crowned Big Nine champions from Champaign added five seconds, two thirds, a fourth and a fifth to tally 75 1/7 points, nearly doubling the total of runner-up Michigan, and representing the largest team score ever recorded in the sixteen-year history of the Games.

In the college division, Michigan State Normal of Ypsilanti put on a display of all-around team balance, scoring in eleven of fourteen events, to capture their fifth Relays crown in six attempts. Baldwin-Wallace, counting nearly half of their points in the hurdles, placed second.

Harrison Dillard, the national champion from Baldwin-Wallace, (See IIT RELAYS on Page 4)

"As Time Goes By"

The happy "Digger" cowboy comes a riding into the campus with his ten gallon hat perched on the back of his head and his boots dusty with IIT dirt. Here's a sample from the heel.

When Sam Rand, assistant feature editor of *Technology News*, heard that Kurt Kuhnle is vice-president of the 4A class and not president as stated in the last issue of the newspaper, he had an illuminating comment of the matter. Said Sam, "There is no room for VICE in the pages of *Technology News*."

The Digger finally discovered why Lua Johnson does not say very much around school. When she is with her boyfriend, Herby Clapham, he does all the talking—and when she is not present his friends say he STILL carries on his ceaseless conversation.

Audrey Read, who is wearing her hair red this month, may be barred from the weekly college dance on the far south side during the summer months. Audrey, who can round out a peasant blouse so amply that the peasants get jealous, sends the mercury soaring every time she steps out on the floor. During the coming warm nights, the collective temperatures are expected to exceed human endurance.

That is all for the present but there will be more next week. The shovel will be in the same corner with a few new additions.

The Cultured Culture

Editorial

Women!!

At the Women's dinner last night an announcement was made by President Heald that IIT has started a drive for more women students. The announcement will no doubt be received by the bulk of the student body with a complacent attitude, the outstanding characteristic of student spirit here at Illinois Tech.

Two groups, however, will be interested—the first of course being the smooth operators of the school. Their extra-curricular activities are necessarily somewhat hampered by the overwhelming thirty-five to one odds confronting them. For them the outlook is bright.

For the other group the outlook is even brighter for they are the ones interested in the future of Illinois Tech. In the expansion of the Liberal Studies Division they see another step forward in the Institute's vast and far-reaching development program.

At the present time many courses which appeal directly to women are only partially full. Thus more women students could easily be accommodated without affecting the overcrowded engineering classes. It is felt that one of the reasons so few women students come here to further their education is the fact that they do not know that there are courses offered here which might interest them.

Since the Lewis campus has been abandoned it is easier than ever for people to forget that the Lewis branch is as much a part of Illinois Tech as Armour. People seem to think that along with the campus, the courses previously taught at Lewis have been dropped. The primary purpose of the drive is to let people know that there ARE opportunities for women to continue their studying at Illinois Tech and that IIT DOES have a Liberal Studies Division.

To contact the young women who are planning upon starting or continuing their college education, Institute representatives will visit high schools and junior colleges throughout the Chicago area. They will talk with students and faculty advisors of the various schools outlining the many opportunities IIT has to offer.

Courses the Institute offers which are intended, at least in part, for women students are Home Economics, Biology, Business and Economics, Psychology and Education, Language and Literature, and Political and Social Science as well as Chemistry, Physics, and Mathematics.

Also to be taken into consideration with the fact that additional woman students would have no effect on the engineering classes are the new temporary and permanent buildings which are rapidly nearing completion. With the additional classroom and laboratory space these units will provide it is expected that the extremely crowded conditions existing this semester will be relieved considerably instead of becoming worse with the additional women.

Additional women at IIT will benefit all concerned. The new and also the present women students, the Institute and naturally the male students... of course for the graduating seniors it is again a case of "too little, too late!"

Faculty Facts ...

by Sam Rand

Professor John C. Penn of the Civil Engineering Department

With all the new buildings going up and with weekly bulletins constantly expounding the marvels of the new campus the students at Illinois Tech are looking to the future. Too often these very same students become unaware of or forget about the tremendous amount of work expended in bringing the school through its formative years. Too infrequently do students give credit to those of the faculty and administration who have become synonymous with the name of Illinois Institute of Technology, the men who have given unstintingly of their time and energies to the cause of their school.

Such a man is John C. Penn, Professor of Civil Engineering.

Professor Penn was brought from the Netherlands to Chicago as a small boy by his parents in 1890. Since that time he has been a Chicagoan. He received all of his prep training in Chicago public schools, graduating in 1901 from Calumet High school.

About that time John C. Penn decided upon an engineering career and Armour Tech, even though it meant taking on part time work in addition to his studies so that he would be able to support himself.

Professor Penn's grades as a student were of a caliber sufficient to

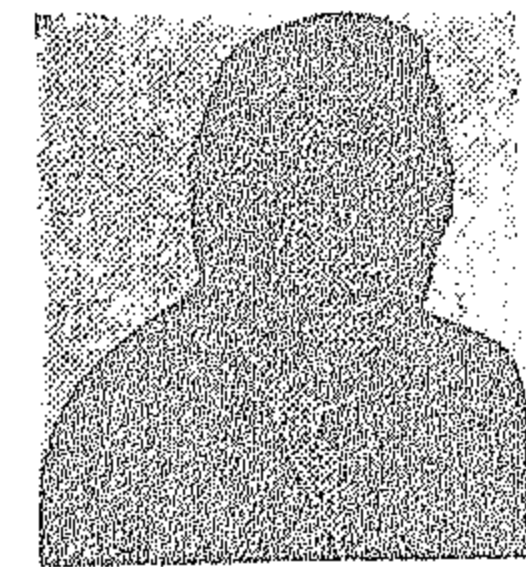

earn him subsequent membership in Tau Beta Pi and Chi Epsilon.

Receiving his BS degree in 1905, John C. Penn went to work for the city as an Assistant Engineer in charge of constructing bridges. While serving in that capacity he worked on bridges that have become city landmarks.

In 1910 Professor Penn decided to turn his efforts to teaching and so he returned to Armour Tech as an instructor in Civil Engineering. During his long stay at IIT he has advanced up through the various ranks, being in succession Assistant Professor, Associate Professor of Civil Engineering, Assistant Registrar, Registrar, Assistant Dean, Dean, Chairman of the Administration Committee and Head of the CE department. Having thus given IIT his untiring services, Professor Penn, not yet ready to rest on his laurels, continues to do his part in the Civil Engineering department.

Aside from his work for the Institute, Professor Penn has published numerous works relating to Engineering Education and surveying problems. He also on occasion acts

(See FACULTY FACTS on Page 8)

The students of Rensselaer Polytechnic Institute gave their teacher a vote of confidence last term when they held a poll on the campus. The students were asked to make a list, in order of importance, of those qualities which they believe make an instructor a good one or a poor one. The personality of the instructor and his classroom manner was considered most important. Fairness in grading was next on their list, while books and articles written by him, his degrees, and departmental rank followed in that order.

The students of Valparaiso University have a new plague on the campus. The current mania cannot be compared to the fads of the 1890's—this is the "mechanical age." It seems that every ninth co-ed owns a motor scooter. The once-neutral vets are up in arms over the situation since one lively co-ed ran down the mailman carrying their subsistence checks.

A warning has been issued to the South Dakota State College co-eds. "Attention all girls living in the dormitories! The management would appreciate it if you did not put your male friends, as they are about to leave your abode, into any condition whereby they are rendered helpless and consequently don't know what they are doing." The statement was prompted by a number of mishaps that occurred while several young men were driving home from their dates.

Fraternities and Sororities

PHI KAPPA SIGMA

The newly initiated actives of the Skull House attended their first meeting last Monday night, increasing their strength to thirteen. Ralph Gordon was elected to fill the vacancy of Upsilon and plans for activities in the near future were outlined. Organization for Junior Week include Earl Kracht acting as sports manager, and Emil Bandovitch directing the musical portion of the Skull boys activities.

SIGMA BETA THETA

At the formal pledge ceremonies held downtown last Tuesday ten young women were pledged to Sigma Beta Theta sorority. Those taking the pledge were Jean Rasmussen, Betty Litsinger, Betty Griswold, Audrey Salomon, Audrey Read, Shirley Schult, Arlene Edwards, Barbara Sandstrom, Kay Kamalick and Claire Brough.

With the addition of the new women the chapter roll is brought to nineteen, making the sorority the largest on the campus.

TRIANGLE

A rushing smoker was held following the active meeting Tuesday evening, March 12. Several movies, including those of the Tacoma Narrows bridge collapse, were shown, followed by a song fest led by Jim Leicht.

Five new men were pledged into the fraternity last Wednesday evening. The new pledges are: Lee Jacobson, Leroy Nero, Don Petersen, Dick Sculski, and Bill Dassie.

DELTA TAU DELTA

Last weekend the northern division of Delta Tau Delta fraternity held its conference at Columbus, Ohio. Bill Taylor represented the Gamma Beta chapter.

Next Monday the Deltas will hold their formal initiation at the Shelter. Ten pledges will be initiated.

The social committee has a full program planned for the future including the interfraternity formal and a mixed military costume ball to be held at the house shortly after Easter.

ALPHA SIGMA PHI

In a recent post-season basketball game the Pi Kappa Phi team was defeated by the Alpha Sigma men. The following week both houses cooperated in finishing a barrel of beer provided for the losers.

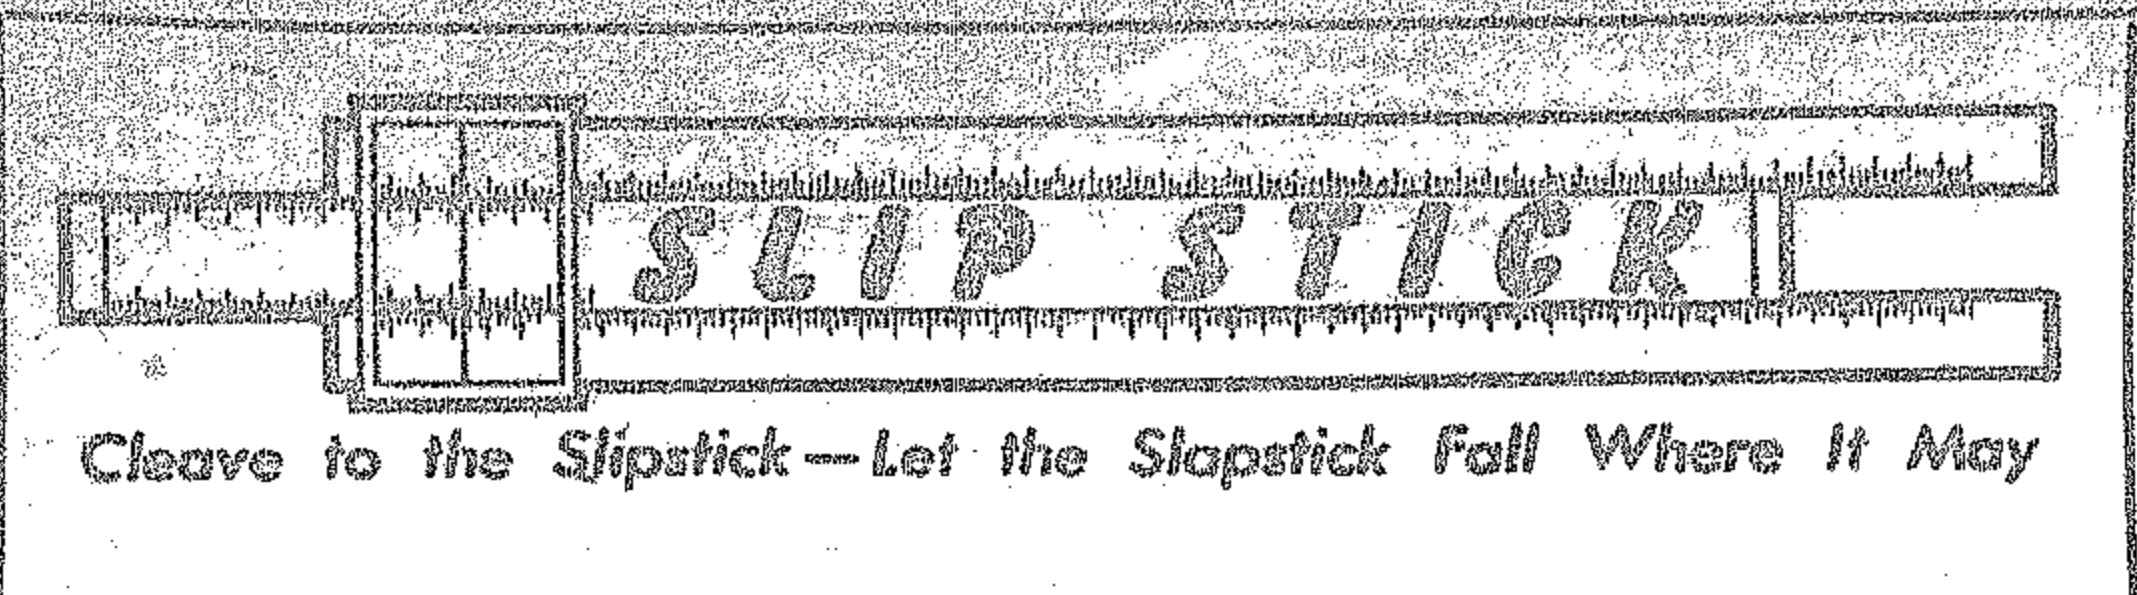

Plans are being made for an informal dance to be held next Saturday at the Alpha Sig's fraternity house.

RHO DELTA RHO

The East Dining room of the Student Union was the scene of the recent Rho Delta Rho formal initiation. Those initiated include: Richard Axelrood, Robert Blumenthal, Harold Burak, Herbert Feitler, Ellie Landsbaum, Marvin Lewis, and Jay Warshawsky.

Ralph Solomon, Rho Delta social chairman, announced that the fraternity would culminate its rushing activities with a Pledge Dance this Saturday evening at the Ashland Club House.

(See FRATERNITIES & SORORITIES p. 6)

We were told that the jokes in the last issue of the Slipstick were corny, but when we threw the column in the furnace the fire just roared and roared.

—HIT—
 "Come, come", said Tom's father, "at your time of life there's no longer excuse for thus playing the rake—it is time you should think boy of taking a wife."
 "Why so it is father, whose wife shall I take?"
 —HIT—
 Papa: "Son, are you pursuing your studies faithfully?"
 Son: "Yes indeed, father, I'm always behind."
 —HIT—
 When his daughter returned from the girls' college, the farmer regarded her critically, and then demanded,
 "Ain't you a lot fatter than you was?"
 "Yes father," the girl admitted, "I weigh one hundred and forty pounds stripped for 'gym'."
 The father stared for a moment in horrified amazement, then shouted, "Who in thunder is Jim?"
 —HIT—
 Teacher (to pupil): "Spell 'straight'."
 Pupil: "S t r a i g h t."
 Teacher: "Correct, and now what does it mean?"
 Pupil: "Without ginger ale."
 —HIT—
 Panhandler: "You got enough money for a cup of coffee bud?"
 Senior CE: "Oh, that's okay, I'll manage somehow, thanks."
 —HIT—
 She: "I told you you might kiss my hand, but you kissed my lips, too! How dare you!"
 Engineer: "Oh, a hand to

Man Of The Week

Band Leader Homer Wickham Is President of Pi Tau Sigma

Originally Homer Wickham did not intend to study engineering. Nothing was further from his mind when he graduated from high school in Sterling, Colorado, in 1941. Homer had every hope of becoming a musician. He had been playing the violin since he was ten and in his high school days he had also become adept at the saxophone, flute, and clarinet.

When Homer graduated from high school he joined his two older brothers, also musicians, in a local band which they formed and accompanied them on a tour of most of the western states from South Dakota to California. Early in 1942 the band began to break up because of the war. Homer and his brothers joined the navy and were promptly hustled off for training at the "Navy School of Music" in Washington, D.C.

Fourteen months later in April 1945, Homer was transferred to sea duty aboard the battleship USS Washington where he saw action in the invasions of the Marshalls and the Gilbert Islands.

After a year of sea duty Homer applied for a fleet appointment to Annapolis, but instead was assigned to V-12 and came to the IIT campus as an ME in July 1944. Although he had very little high school training in technical subjects, he was able to overcome this handicap through hard

work and a desire to succeed so that now he maintains a 2.1 academic average.

But not even this rigorous grind could keep Homer away from his music. He accordingly helped organize IIT's first dance band, now one of the most popular organizations on the campus. Always active in this group, Homer has served as its director for the last three terms. Even so he has managed to give a great deal of time to other important student activities. He is the president of both Pi Nu Epsilon and Pi Tau Sigma; he is also secretary of the ASME and at the same time serves as senior SUBC representative.

After his graduation in June, Homer would like to work in Denver, his home town, but he is becoming slightly discouraged because as he says, "My best offer so far is from a local beer parlor which is in need of a musician."

In the headline of last week's Man of the Week column it was erroneously stated that Kurt Kuhnle was the 4A class president. He is vice-president and Wit Kosicki is the president of the 4As.

INFORMATION FOR FREE

"Wild" Bill Furlong

Wandering radio's airplanes these days are two general types of comedians: (a) Henry Morgan and (b) the rest of the flock. That Henry is leaving the boys far in the van is due in part to his gag writers.

Alleged to be one of the more grueling trades, radio gag writing is much like engineering—you turn the traditional crank and "flop!" ... out pops a joke. All gags fit a strict formula although, for the sake of variety, the writers occasionally use new words.

The introduction is the greatest hurdle for any gagster. Once past that point he can float along, insulting himself, his tenor, his orchestra leader, or mothers-in-law in general, knowing that laughter is the instant reaction. But getting a laugh on the introduction is a specter which haunts the comedian from hour to hour. One Happy Boy has evolved a formula which never fails and eliminates the middle man or announcer.

"This is B—the California Chamber of Commerce theme song is 'It ain't Gonna Rain No Mo', No Mo' H—(lengthy pause while studio audience tears down the ceiling) telling you that if it doesn't stop raining soon you can use your P—without getting out of bed."

Haw!
 If things lag about the middle of the show one of the scapegoats is rushed before the mike and the jester snaps, "C—, you're one step lower than a nitwit."

"Well step down and join me," retorts C—, while the ushers rush down the aisles reviving those who have fainted with laughter.

Then there is the negative approach . . . the "I wouldn't say" (See INFORMATION FOR FREE, Page 7)

Let others beat the tom-toms... Old Golds just talk of Taste!

You don't go for those wild cigarette claims, do you? Promising you health, wealth and social prestige if you smoke Brand X?

Let's talk turkey. You smoke for just one reason—pleasure. Well, pleasure, and pleasure alone, is what Old Gold is designed to give you.

There's our nearly two hundred years of fine tobacco experience behind that design. And a wealth of the world's best tobaccos. And finicky care at every step, to make Old Golds just flawless.

And, m-m-m, do Old Golds taste like it! Mellow and rich. Fragrant. Flavor that's pure joy to your taste buds. You'll go for Old Golds, friend. They're your cigarette!

TECH SHORTS

'47 Relays Are Nation's Largest

And Dillard's Faster!

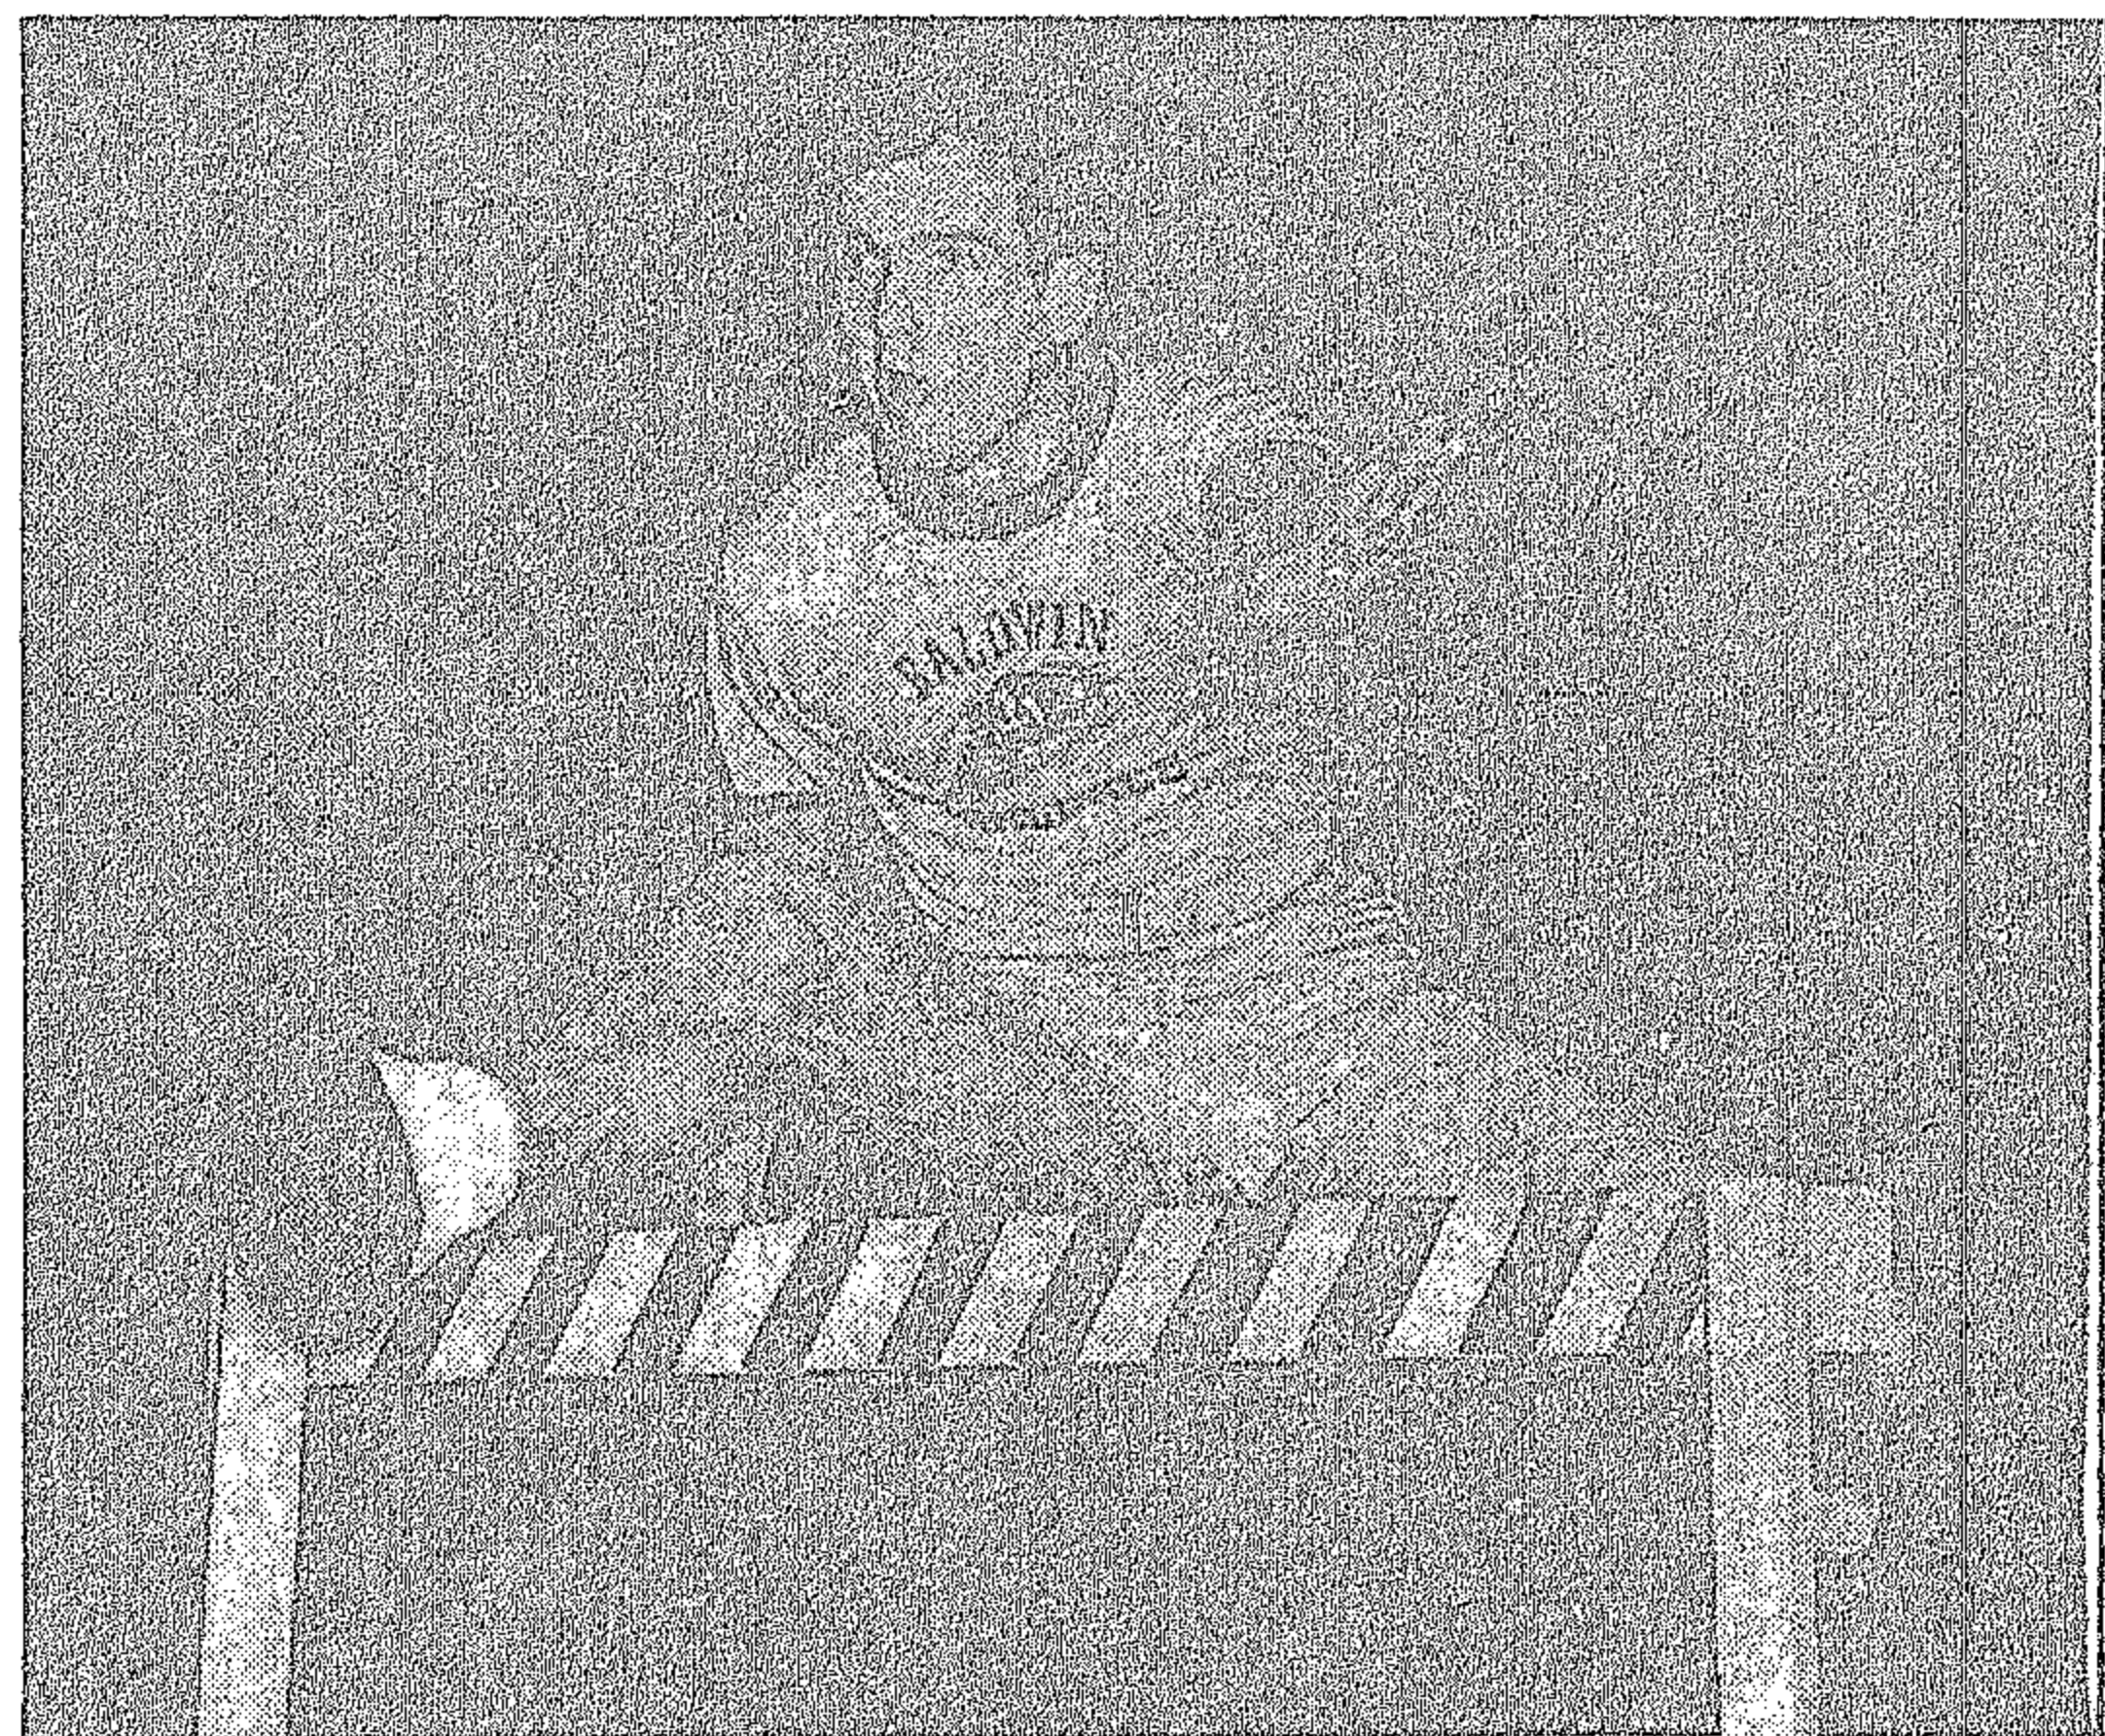

Superlatives only should be used in describing the outstanding success of the Sixteenth Annual Illinois Tech Relay games last Saturday. What with the competition of other similar meets having been removed even to that old bugaboo, the Butler Relays, the Tech Games hit a high that may never again be reached. Spectator interest was at fever pitch even during the afternoon trials and did not cease until the final pole vault at about midnight.

A long day indeed it was for the officials and with the necessity of certifying the record breaking performances the details required much effort. At about 12:15 a.m. Sunday we placed the official scorer's signature on the A.A.U. applications for the American records established or tied by Herb McKenley, Bill Porter and Dick Houden. 'Twas a pleasure indeed to have done our small part in this matter.

Twenty-six teams hit the scoring column in the college division while fourteen did likewise in the university section. This is as many teams as took part in many of the previous Relays. There was no question at any time during the evening that Illinois and Michigan Normal would top their respective divisions although at one point in the scoring it appeared that Baldwin-Wallace, the small Methodist college of less than 1000 students located at Berea, Ohio, might, with victories in the final two college events, out-point the mighty aggregation from Ypsilanti, Michigan.

In observing the running style of Illinois' Herb McKenley we were most reminded of another dusky marvel, Jesse Owens, who rates as the greatest of any track performer in our book. McKenley's sweeping, effortless stride was as steady at the end 50' yards of the 440 as at the start. His counterpart in the iron-man role is U of C's famous Jimmy Lightbody, who won three championships in the 1904 Olympic Games at St. Louis. It would not be impossible for McKenley to win the 200 and 400 meter titles at the London 1948 Olympics. Only, instead of representing Illinois, he will be running under the flag of the British Empire, since he is a Jamaican.

A few observations . . . We tip our literary hat to Wilfred Smith, Chicago Tribune's track expert, for his excellent account of the Relays in the Sunday final editions of the Tribune . . . Also kudos to the people who put together the Press Book and designed the beautiful red-grey-black program . . . 'Twas good to see one IIT trackman wearing an ARMOUR TECH sweatshirt . . . John Schommer hal time to argue the Norris LaGuardia Act with Judge Hugo Friend at the officials' dinner in Reynolds Hall . . . Next thing to look for at the Relays is for team representation from the east and west coasts, could be you know . . . That old' debil "probation" sure put the skids under Roy McCauley's IIT tracksters as it did to John Ahern's swimmers . . . And to think that back in 1930 a small band of stalwarts, Captained by Don Paul, took away the Relays title for IIT earning for the team some very neat little gold track shoes . . . Two wonderful events put on by the Institute in two days—Friday the Interfraternity Formal, and then the Relays . . . For some first class help our thanks to Jim Oldshue, Henry Pype and Paul Hermann . . . For those who may still be reading, this is the 78th time your correspondent has put this column together and his 16th Relays . . . Next year 79 and 17, hope to see you then . . . Art Jens '31.

JUST BEHIND—Norbert Badar, Baldwin-Wallace hurdler, takes final hurdle in race which saw his teammate Harrison Dillard tie the American indoor low hurdles record at :07.8. Badar took second.

1947 ILLINOIS TECH RELAYS TABLE OF POINTS

COLLEGE DIVISION	
Michigan Normal	58½
Baldwin-Wallace	44½

900 Athletes Participate In Eight Hour Relay Program

The University Broad Jump was held during the afternoon, with George Kailas of Wisconsin tossing the shot 23'5" to win. While the Broad Jump was going on, the Indiana Medley Team won the Distance Medley in 10:21.9 to set a new meet

● IIT RELAYS

(Continued from Page 1) surpassed all expectations as he skipped to new meet records in both the high and low hurdles, and tied the American indoor low hurdle mark of :07.8 set by Bob Wright of Ohio State in 1942. Bill Porter, Northwestern's phenomenal hurdler, tied the American indoor mark in the highs twice, repeating his afternoon time of :08.5 in winning the evening finals.

The third record-equalling event came unexpectedly in the university seventy yard dash, when Dick Houden of Wisconsin topped a great field of sprinters in the second track event of the evening in 7 seconds flat. This time, in addition to shattering the Tech Relays record, tied the American indoor mark which had not been equalled since 1933 when Ralph Metcalfe of Marquette tied Loren Murchison's original record set in 1926.

A brief recapitulation of records affected includes:

AMERICAN INDOOR RECORDS— Broken: 440 Yard Run. Tied: 70 Yard High Hurdles, 70 Yard Low Hurdles.

FIELDHOUSE RECORDS— Broken: Distance Medley Relay, Shot Put, 70 Yard Dash, 440 Yard Run, Mile Relay. Tied: 70 Yard High Hurdles, 70 Yard Low Hurdles.

COLLEGE RELAY RECORDS— Broken: Two Mile Relay, Broad Jump, Distance Medley Relay, 70 Yard High Hurdles, 70 Yard Low Hurdles, Mile Run. Tied: 70 Yard Dash.

UNIVERSITY RELAYS RECORDS— Broken: Distance Medley Relay, Shot Put, 70 Yard Dash, 70 Yard High Hurdles, 440 Yard Run, Mile Relay. Tied: 70 Yard Low Hurdles.

After a brief intermission, Richard Houden of Wisconsin set a new meet record and tie the American Indoor record with a time of 07:0 in the 70 yard dash. The two mile relay was won by Michigan in 7:48.1.

Bill Porter of Northwestern then streaked over the 70 yard High Hurdles in 08.5 to set a new meet record and tie the American Record. Wisconsin then came through to win the sprint medley relay.

McKenley Sets Record

In the 440 yard dash, Herb McKenley of Illinois clipped a tenth of a second off of his former American record to win in :47.9. The 70 yard low Hurdles were won by George Walker of Illinois. John Twomey added five more points to Illinois' total by winning the one mile run.

In the 880, Don Gehrman, of Wisconsin came in first. Illinois then set a new meet record of 3:18.8 in the One Mile Relay.

Norm Wasser of Illinois then tossed the shot 52'4¾" to set a new meet record. Dwight Eddleman and Harry Andersen, both of Illinois, tied for first in the high jump with 6'4". The last event of the evening, the Pole Vault, was won by Edwin Sewell.

College Division

During the afternoon the College Broad Jump was won by Lorenzo Wright of Wayne with a jump of 23'8¾". The College Medley Relay was won by Ohio Wesleyan. These two events were run for the first time in this meet.

The College Two Mile Relay was won by Wheaton to set a new meet record of 8:04.3. The College 70 Yard Dash was won in the evening by Barion Campbell of Michigan Normal to tie the meet record of :07.1. The One Mile Relay was won by Loyola.

Dillard Sets Record

The 70 Yard High Hurdles was won by Harrison Dillard of Baldwin-Wallace in :08.6 to set a new meet record. The 440 was won by Gene Blackburn of Ohio Wesleyan. Harrison Dillard then won the 70 Yard Low Hurdles in :07.8 to set a new meet record and tied the American record.

In the One Mile Run, Quentin Brelsford of Ohio Wesleyan set a new meet record of 4:22.3. Don Smith of Michigan Normal then came through to take the 880 Yard. Michigan Normal added more points to its total in taking the Sprint Medley.

The Shot was tossed 43'2¾" by Tom Loufek of Augustana. Jack Heintzman of Bradley jumped 6'4" to win the High Jump. The Pole Vault was won by Bernard Archer with a height of 13'.

Delts Beat Pi Kaps 3-2 In IF Table Tennis Meet

The Inter Fraternity ping pong tournament proceeded this week with Delta Tau Delta defeating Pi Kappa Phi by a score of 3-2. Sigma Alpha Mu and Rho Delta Rho lost to Phi Kappa Sigma and Alpha Sigma Phi by a forfeit.

Tues. Delta Tau Delta vs. Triangle at Alpha Sigma Phi 8:00 p.m.

Wed. Alpha Sigma Phi vs. Phi Kappa Sigma at Theta Xi at 8:00 p.m.

Sports Personality of the Week

John Makielski

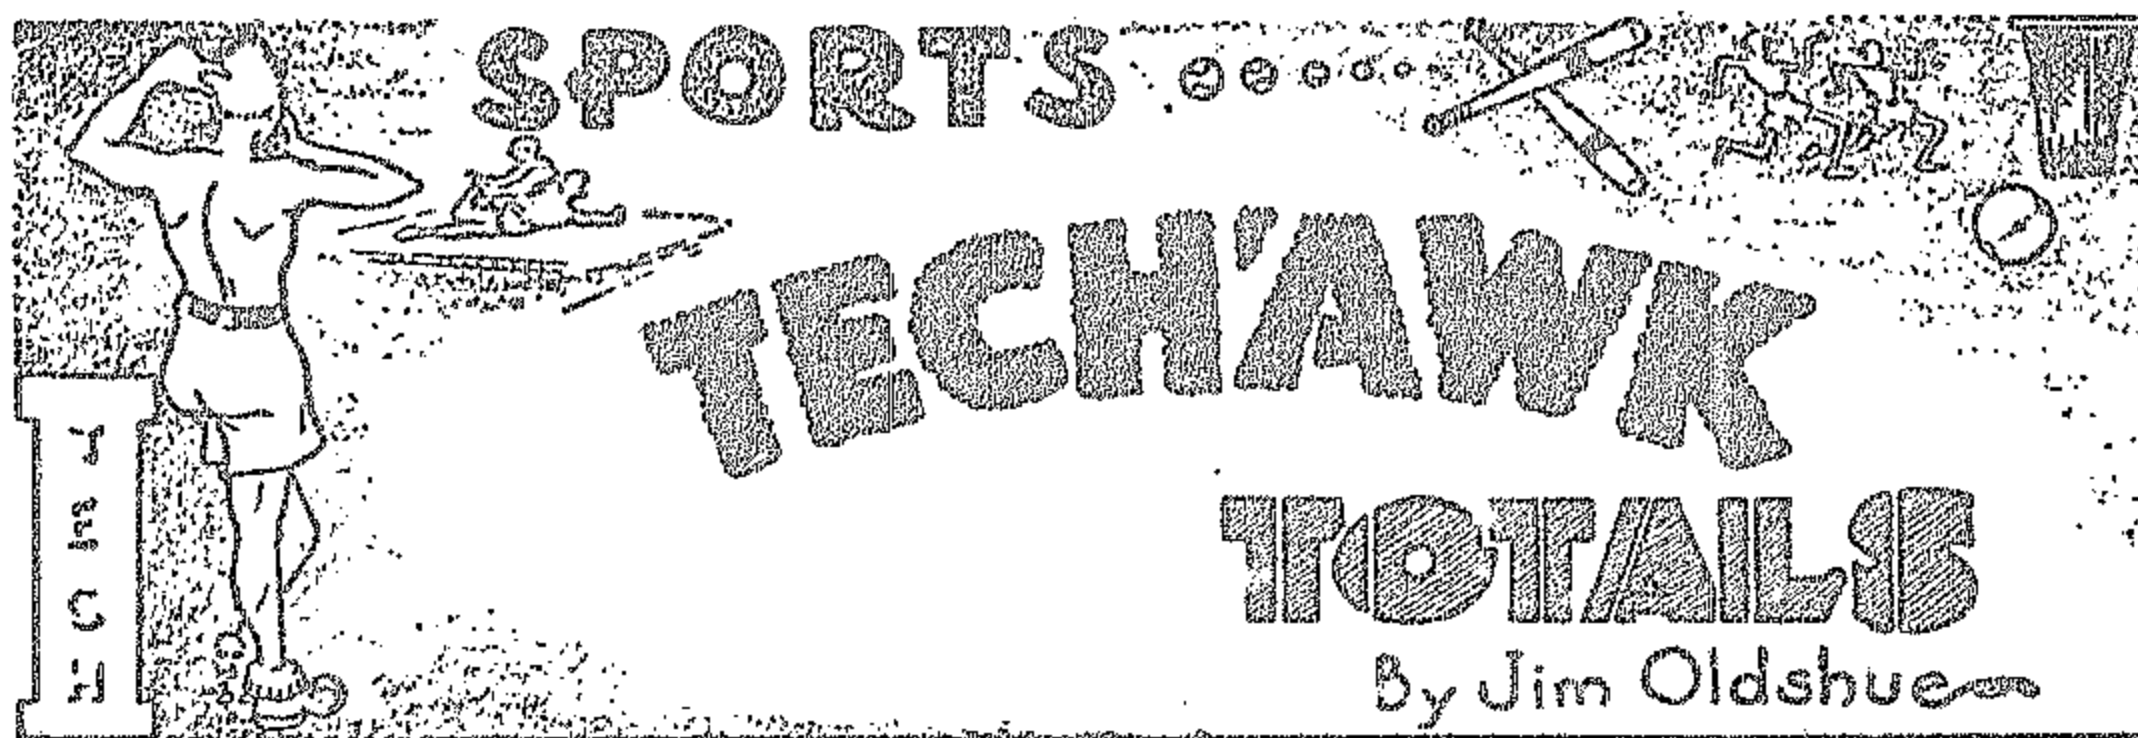

By Art Ballou

John Makielski has probably splashed more water than any other man at Illinois Tech. He gets this distinction as the top diver on the Techawk swimming team, having won 9 first places in 11 meets this season. He first began diving when he was swimming for his high school in South Bend, Indiana, won the state diving championship in his senior year. When he came to IIT in 1944, he swam in the relay events, later switched to diving.

Makielski does not let swimming interfere with his social and academic life. He was social chairman of his junior class, and secretary treasurer of Honor I, and is at present pledgemaster at Delta Tau Delta fraternity. A popular student, who has the confidence of the student body, he was elected vice president of ITSA, voted into Pi Tau Sigma, and has been president of Tau Beta Pi. Last semester he was president of ITSA.

John got his degree in ME last January, and is now working for his bachelors degree in industrial engineering, which he will receive in June.

The success of this year's swimming is due, John thinks, to a good well balanced team. . . He admits that the probation policy played havoc with the team, but claims that that is part of the game. Coach Ahern should be grateful for men like Makielski, and the student body

All those who witnessed the Tech Relays last Saturday got a full program of broken and tied records. Herb McKenley of Illinois showed everyone why he is the greatest quarter-miler in the world; he shot ahead like a rocket at the gun and glided

in to finish 25 yards ahead of the field. The night before at the Central AAU meet, he established a new world's record in the 300 yard sprint in a pair of borrowed track shoes; someone had stolen his own shoes just before the AAU meet.

The Chicago Tribune's sports writer, Wil Smith, said that the Tech relays had the greatest gathering of track talent ever seen in one day.

Nels Anderson did a grand job in arranging the events so that the finals were run off very close to schedule. With a record of 900 entries, officials estimated that the meet would be up to two hours off schedule. But despite the fact that there were 10 heats in the college 70 yard dash, other similar unusually large events, the finals were finished within 20 or 30 minutes of the scheduled finish.

The capacity crowd was only should be glad he came to IIT. He is a real credit to his associates.

Tech News gives each Sports Personality of the Week 2 cartons of Chesterfield cigarettes.

a portion of those who wanted to watch the meet. Over a thousand others had to be turned away because of the lack of room. The downtown press was well represented at the meet with representatives from all the daily papers and press services.

The odd fractions of a point that appear in the point table are due to a four way tie for fourth place in the high jump (¾ of a point per man) and a seven way tie for fifth in the pole vault (1/7 of a point per man). This gave Scorer Art Jens a bit of high mathematics to perform.

The Tech track team has no place to practice any more. They had been using the U of C Fieldhouse each evening but Chicago has refused to let them practice there any more, so the boys are left out in the cold waiting for the weather to warm up so outdoor practice can begin.

The Illinois Tech NROT Unit lost to the Marquette University NROT basketball team last Thursday, 69 to 46.

IM Basketball Tournament to Start Monday

Entries Must be in by Wednesday; Teams by Department or Class

The belated intramural basketball tournament will start next week, announced Larry Shapiro, who is managing the tournament. The meet will be run off in the boy's gym 501M.

Wednesday, March 19, 12 p.m., is the deadline for entries. Men wishing to enter a squad should list the team name and the names, department, and year of all their players. These lists are to be deposited in the intramural box in the lobby of the Student Union. The teams must consist of players all from the same year, or the same department.

Each team is required to furnish at least one man to act as a referee for the duration of the tournament. Any team which does not furnish a referee will not be allowed to enter the tournament. Referees must contact Larry Shapiro by one o'clock Friday. He can be found in "Sonny" Weissman's office from 12 to 1 p.m. each weekday.

The schedule of games will be posted on the intramural board in the Student Union lobby. The schedule of opening games will be up on Thursday. Games will begin at 5:15 p.m., and teams must be ready for play by 5:25 or the game will be forfeited. The games will consist of two fifteen minute halves. Results of games are to be dropped into the intramural box the following day.

The basketball tourney is to be run on a double elimination basis. This method of play has been chosen for several reasons said Shapiro. First of all, the late start of the meet has made the round robin system impossible. Secondly, double elimination gives a team a chance to come back and prove its caliber after an "off day", while a single elimination tourney is greatly a matter of luck and is not a fair test of a team's strength, added Shapiro.

RELAY RESULTS

UNIVERSITY DIVISION

BROAD JUMP—Won by Kailas, Wisconsin, 23'5"; Miller, Purdue, second; Lenthold, Illinois, third; Kiser, Kansas State, fourth; Gaultney, Missouri, fifth.

DISTANCE MEDLEY RELAY—Won by Indiana (Prifogle, Bradley, Deal, Mitchell); Notre Dame, second; Michigan, third; Illinois, fourth; Wisconsin, fifth. Time 19:21.9. (New meet record; former mark 19:24.5 by Michigan State in 1935.)

SHOT PUT—Won by Wasser, Illinois; Fonville, Michigan, 2nd; Quirk, Missouri, third; Prather, Kansas State, fourth; Sullivan, Notre Dame, fifth. Distance, 52'4 1/2" (new meet record; former mark of 51'9 1/4" set by Hackney of Kansas State in 1939.)

HIGH JUMP—Eddleman and Andersen, both of Illinois, tied for first, 6'4"; Kilpatrick, Purdue, third; Hodgell, Wisconsin; Gardner and Harris, Michigan; and Milne, Michigan State, tied for fourth.

POLE VAULT—Won by Sewell, Northwestern; Fox, Indiana, Potochnik, Marquette, and Matter, Illinois, tied for second; Lundgren, Northwestern, Struble, Notre Dame, Arneson, Wisconsin; Dillenbeck, Drake, Moody, and Ulvasted, Michigan, and Richards, Illinois, tied for fifth. Height, 13'6".

70 YARD DASH—Won by Houden, Wisconsin; McKenley, Illinois, second; Holland, Northwestern, third; Guth, Missouri, fourth; May, Purdue, fifth. Time :07. (New meet record and ties American record; former meet record of :07.1 established by Grieve of Illinois in 1936 and tied by Skelton, Marquette, 1939; Littler, Nebraska, 1940, and McKenley, Illinois, in the qualifying races yesterday. American record of :07 set by Murchinson, in 1926 and tied by Metcalfe, in 1933.)

TWO MILE RELAY—Won by Michigan (Birdsall, Hayden, Low, Barten); Illinois, second; Notre Dame, third; Purdue, fourth; Indiana, fifth. Time 7:48.1.

70 YARD HIGH HURDLES—Won by Porter, Northwestern; Walker, Illinois, second; Mitchell, Indiana, third; Blakeley, Missouri, fourth; Mitchell, Indiana, fifth. Time :08.5 (New meet record and ties American record; former meet record of :08.6 set by Smith of Wisconsin in 1938; American record first set by Wright of Ohio State in 1941.)

SPRINT MEDLEY RELAY—Won by Wisconsin (Shippel, Houden, Young, Gehrmann); Michigan, second; Illinois, third; Indiana, fourth; Notre Dame, fifth. Time 3:32.5.

440 YARD RUN—Won by McKenley, Illinois; Altepeter, Northwestern, second; Ault, Missouri, third; Ferred, Wisconsin, fourth; Murphy, Marquette, fifth. Time :47.9. (New meet and American record; former meet record of :49.3 set by Littler of Nebraska in 1941; former American record of :48 set by McKenley in Bib Nine meet this year.)

70 YARD LOW HURDLES—Won by Walker, Illinois; Gartner, Missouri, second; Veregge, Purdue, third; Gutting, Purdue, fourth; Mitchell, Indiana, fifth. Time :07.9 (ties meet record set by Kahler of Nebraska in 1941.)

ONE MILE RUN—Won by Twomey, Illinois; Brenneman, Illinois, second; Kalmbach, Michigan State, third; Hubert, Purdue, fourth; Tracy, Notre Dame, fifth. Time 4:18.6.

800 YARD RUN—Won by Gehrmann, Wisconsin; Scott, Michigan State, second; Birdsall, Michigan, third; Stuart, Kansas State, fourth; Anger, Northwestern, fifth. Time 1:57.7.

ONE MILE RELAY—Won by Illinois (Walker, Rehberg, Vranek, McKenley); Notre Dame, second; Michigan, third; Drake, fourth; Marquette, fifth. Time 3:18.8. (new meet record; former mark of 3:21.9 set by Pittsburgh in 1934.)

COLLEGE DIVISION

TWO MILE RELAY—Won by Wheaton (Baker, Diller, Soltan, Westberg); Michigan Normal, second; Baldwin-Wallace, third; Case, fourth; DeKaab, fifth. Time 8:04.3. (New meet record; former mark of 8:04.8 set by Miami of Ohio in 1943.)

BROAD JUMP—Won by Wright, Wayne, 23'8 3/4"; Campbell, Michigan Normal, second; Katzmar, Baldwin-Wallace; Haas, North Central, fourth; Welfer, Michigan Normal, fifth. (New meet record; first time contested.)

DISTANCE MEDLEY RELAY—Won by Ohio Wesleyan (Blackburn, Ellwood, Swom-

Sparks Illini

U OF I CAPTAIN—Bob Rehberg, captain of the newly crowned university division Illinois Tech Relays champs, totes baton in mile relay, which the Illini won by setting a new meet record at 3:18.8.

ley, Brelsford); Michigan Normal, second; Wheaton, third; Miami, fourth; Western Michigan, fifth. Time, 10:34.8 (meet record; first time contested.)

SHOT PUT—Won by Loufek, Augustana; Behrens, Bradley, second; Weiss, Michigan Normal, third; Peterson, Wheaton, fourth; McKay, Coe, fifth. Distance, 43'2 3/4".

HIGH JUMP—Won by Heintzman, Bradley, 6'4"; Brodie, Michigan Normal; Taylor, Western Michigan and Bachman, Miami, tied for second; Grable, Baldwin-Wallace; Crozier, Wheaton, and Revelle, Iowa State Teachers, tied for fifth.

POLE VAULT—Won by Archer, Detroit; Kristofek and Meyerinz, Chicago, and Zvolanek, Milwaukee Teachers, tied for second; Navenux, Michigan Normal, and Weiler, North Central, tied for fifth. Height, 13'.

70 YARD DASH—Won by Campbell, Michigan Normal; Carey, Central Michigan, second; Zowright, Wayne, third; Bonyata, Grinnell, fourth; Jackson, Western Illinois Teachers, Macomb, Ill., fifth. Time :07.1 (ties meet record set by Johnson of Illinois

Sophomore Bowlers Top Field To Take Intramural Tourney

The Sophomore team eked out a win in the intramural bowling ournament Sunday without a single man bowling a 200 game. Paced by Ray Seib's 524 series and a 506 total by Ray Klopsch they victors amassed a total of 2317 pins.

Tech Trackmen Place Seventh

Three Tech trackmen brought in 16 points for a 7th place in the Central A.A.U. Indoor track meet last Friday. The men were the old reliables, Chandler Sammons, Arnie Harrison, and runner-manager Dick Yale. Sammonds threw well enough to place 5th in a strong field. Norm Wasser of the University of Illinois broke an 18 year old record with a toss of 52' 1".

Arnie, high scorer of the team, jumped into second place in the broad jump, adding 4 more points to his total. Yale placed third in the one mile walk.

The A.A.U. meet was the scene of a worlds indoor record in the 300 yard dash as Herb McKenley of the University of Illinois sprinted the distance in 30.3 seconds.

Normal in 1923 and Herman, Carleton, in 1934.)

ONE MILE RELAY—Won by Loyola (Mizel, Cagney, Lahert, Egan); Baldwin-Wallace, second; Wheaton, third; Indiana Teachers and Carleton tied for fourth. Time 3:28.

70 YARD HIGH HURDLES—Won by Dillard, Baldwin-Wallace; Taylor, Western Michigan, second; Badar, Baldwin-Wallace, third; Gundrum, Michigan Normal, fourth; Hicks MacAlester, fifth. Time :08.6 (New meet record; former mark of :08.8 made by Tolmich, Wayne, in 1937, and tied by Hlad, Michigan Normal in 1940, and by Dillard in 1943.)

440 YARD RUN—Won by Blackburn, Ohio Wesleyan; Cagney, Loyola, second; Humble, Western Michigan, third; Sennish, Baldwin-Wallace, fourth; Kinney, Indiana State, fifth. Time: 51.2.

70 YARD LOW HURDLES—Won by Dillard, Baldwin-Wallace; Badar, Baldwin-Wallace, second; Campbell, Michigan State, third; Brodie, Michigan State, fourth; Gundrum, Michigan State, fifth. Time :07.8. (New meet record and ties American record; former meet record of :07.9 set by Allan Tolmich of Wayne in 1937; American record set by Wright of Ohio State in 1942.)

ONE MILE RUN— Won by Brelsford, Ohio Wesleyan; Perkins, DeKalb Teachers, second; Swomey, Ohio Wesleyan, third; Stout, Western Michigan, fourth; McAdam, Coraell college, fifth. Time 4:22.3. (New meet record; former mark of 4:22.9 set by Clutterham of Cornell college in 1942.)

800 YARD RUN—Won by Smith, Michigan Normal; Cobb, South Dakota, second; Nelderlander, Michigan Normal, third; Kalivoda, Wheaton, fourth; Churchill, Case, fifth. Time 2:01.5.

SPRINT MEDLEY RELAY—Won by Michigan Normal (Coran, Brodie, Holloway, Pingel); Baldwin-Wallace second; DeKalb Teachers, third. (See RELAY RESULTS on Page 7)

The freshman team came close to victory with a total of 2304. Their top man was Paul Peterson with 531. The Senior Mechs placed third with 2297. George Erhart got 501 for the Seniors.

Roland Stancl of the Juniors had a 208 game and a 504 series to bolster his team to a 2181 total. The Soph no. 2 team placed fifth with 2119 and a 491 series by Jim Sheldon was their best effort. Though Roger Tate totaled 529 his Senior Chems were out of the running.

The Tourney will be completed next Sunday with the doubles event. If more than fifty men enter this event a singles contest will be held, said Jake Dumelle, tourney manager. Thirteen doubles teams have been entered to date. Bowlers in the doubles must be in the same year and may sign up in Sonny Weissman's office.

Two freshman bowling unattached, Richard Arbanas, freshman CE and classmate Al Knobbe rolled a 576 and 551 series respectively.

These men lead in the determination of the tournament's individual high and series winner.

Techawk Golf Team Schedules 13 Meets

The Techawk's golf team has already scheduled thirteen meets and two practice games for this season with more meets being anticipated by Ed Koncel, IIT golf manager.

Every man who turns out has been promised a chance to play in the first three meets. Coach Bibb is anxious to see a lot of men out for the team this season for he is sure there is some fine material around the school. The first practice meet is scheduled for April 5th.

AIEE Plans Trip, Technical Paper Contest, Membership Drive

At an executive meeting of the Illinois Tech student section of the American Institute of Electrical Engineers last week it was announced by Warren Sommers, chairman of the group, that final plans have been made for their next field trip. This trip will be to the Westinghouse Lighting Institute at the Civic Opera Building on March 26th and 27th. Since it has been necessary to limit the size of the groups to 25, members desiring to go are advised to sign up in advance at the EE department office.

Arrangements were also made for a membership drive to be conducted this week. The membership committee plans to visit all the EE classes to pass out applications and answer questions. In addition to this, they will maintain a booth in the lobby of the Student Union on Wednesday, Thursday, and Friday from 11 to 2.

Also discussed were the details of the contest for the best graduate and undergraduate technical paper. The purposes of this contest are two-fold; it is hoped that the contest will stimulate the interest in the writing of technical papers on electrical engineering subjects and the winners, one graduate and one undergraduate, will be Illinois Tech's representatives at the district contest to be held at Notre Dame May 2. The occasion will be a joint dinner meeting with the South Bend section, at which the winners from the different branches will personally present their papers, prizes being awarded for the best papers presented.

The judging of the local contest will be by a faculty committee, which will include a representative from the English Department, and will be done in the third week of April.

● FRATERNITIES, Sororities

(Continued from Page 2)

SIGMA BETA THETA

Ten new pledges to Sigma Beta Theta Sorority took their oath from Pat Vedel, president, at an impressive ceremony last Tuesday.

By the light of six tall candles, they signed themselves to a period of obeisance whereupon each one received a red rose, a memorandum book, the Sigma pledge pin, and a hearty welcome from all the actives. The pledges are: Shirley Schultz, Audrey Salomon, Audrey Read, Barbara Sandstrom, Claire Brough, Betty Litsinger, Kay Kamalick, Jean Rasmussen, Betty Griswald, and Arlene Edwards.

● DISCIPLINE

(Continued from Page 1)

is given time after time, and naturally these exams are now in student hands.

(2) See that students taking exams place all unnecessary material out of reach.

The penalty for any infraction is at the discretion of the committee and may be one or a combination of the following:

(1) lowering course grade, (2) failure in the course, (3) suspension from college, or (4) dismissal from college.

Members of the committee are Dean White, chairman; Prof. George Gibson, Registrar W. Ernest Kelly, Dean John D. Larkin, Dean James C. Peebles, Prof. Henry C. Spencer, and Bernard Weissman.

Bicek Entertains ACS

Dr. Edward J. Bicek, associate professor of chemistry, entertained the members of ACS with kodachrome movies and slides last Wednesday. The movies were of Junior Week, 1941 and 1945, while the slides covered canoe trips, skiing in Colorado and Wisconsin and unusual night shots.

IIT to Feature Spring Concert

Ticket sales for the Spring Concert, to be given by the Illinois Tech music organizations, will begin next Monday, at 5:15 in the Student Union auditorium, according to William Sirvatka, ticket chairman. Five hundred main floor seats and 300 balcony seats will go on reservation on a "first come, first served" basis. The concert will be held at the Civic Theatre, 20 N. Wacker Dr., Sunday afternoon, April 13 at 3 p.m.

The Spring Concert will be the combined efforts of the orchestra, band, and glee club, and the talents of O. Gordon Erickson, director, and is the main event of the music groups this semester.

One of the features of the program will be the first movement of the Greig Concert for piano and band; and the renditions of Adornatus Te and Malotte's Lord's Prayer by the Glee Club.

The announcement of the availability of the Civic Theatre came last Friday, after the Studebaker Theatre, in which the concert was planned, cancelled the reservation due to the extended run of the "Lute

Alpha Phi Omega To Hold Smoker

Alpha Phi Omega, national service fraternity, will hold a rushing smoker this Friday at 7:30 p.m. in the SU lounge. The feature of the evening will be movies of the Chicago Tribune All-Star Sports events and "Thrill a Minute" to be preceded by a discussion of the aims and principles of APO, and followed by refreshments, served by members of Alpha Phi.

Members of the Chicago Alumni Association of APO have been invited to the smoker, and several faculty members of Illinois Tech, including Dean Jack F. White also plan to be there.

Alpha Phi Omega is unique in the fact that it is the only fraternity dedicated to the service of the school, community and country. It is an organization of men grouped together with scouting as their common bond. All persons having scouting experience are invited to the smoker.

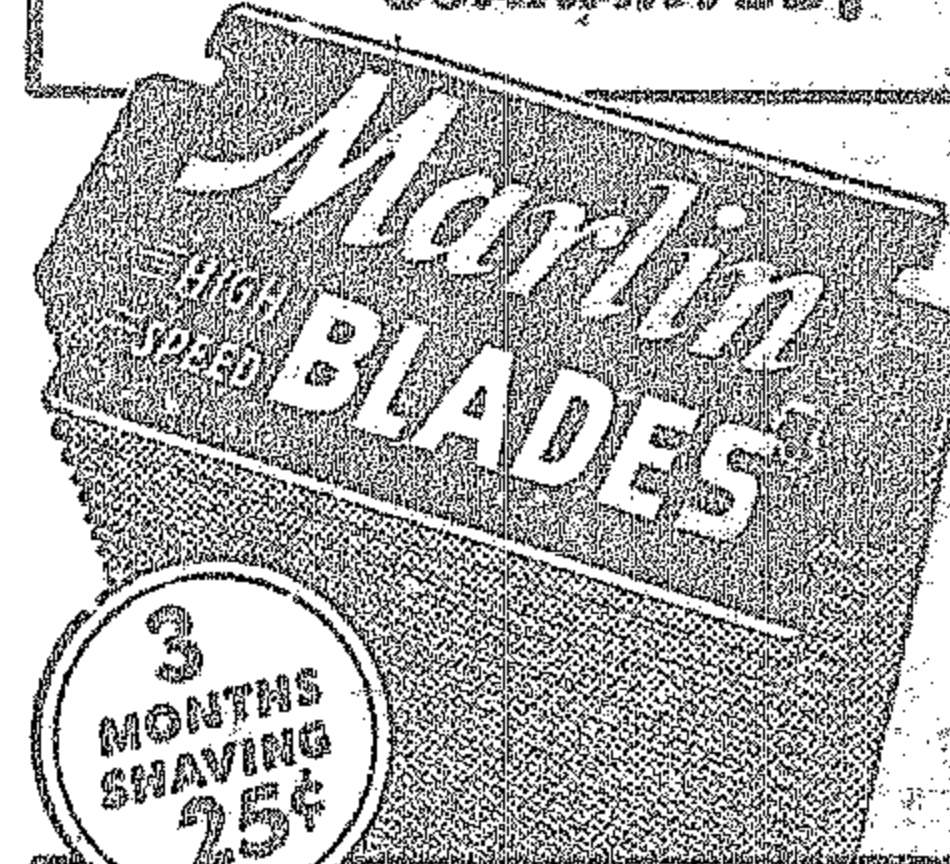

Song," now playing there.

The Civic Theatre is especially adapted to the use of the music groups because of its modern lighting and excellent acoustics.

Pi Delt Meets Tonight

The IIT chapter of Pi Delta Epsilon, national honorary journalism fraternity, will meet today at 5 p.m. in the offices of *Technology News*. Bill Burkhart, president, urges all members to attend to aid in the selection of pledges for the group and to make plans for the coming Pi Delt banquet.

First of New Buildings In Use

Classes in Architectural Drafting are now being held in B-3 (south of the library), the first of the temporary buildings to be completed. Completion of this unit has permitted moving the entire freshman and sophomore architecture classes to the campus from 37 South Wabash where they were previously located.

Another move is scheduled for the drafting classes at the end of this month when it is expected to have B-2 (on Federal Street, south of 34th Street) completed. This unit will then be the temporary home of the arch drafting classes. Permanent use of unit B-3 is as an annex to the library-reading room and it is expected to be available as such in from 30 to 60 days, depending upon the date of completion of unit B-2.

The interior and general condition of these temporary buildings, formerly warehouses at the Illiopolis Ordnance Works, is far better than was expected, said Gilbert A. Force, business manager of the Institute. In addition, he continued, they are easier to heat, and lighting facilities are better than was originally hoped for.

The area available to the architectural drafting classes has increased from the 2600 sq. ft. used at 37 South Wabash to about 6000 sq. ft. in new units. Unaffected are the junior and senior architecture students whose classes are held on the downtown campus at 18 South Michigan.

New Memberships Are Encouraged by SAE

Eric P. Eckberg, president of the IIT student branch of the Society of Automotive Engineers, announced recently that the forthcoming meeting of the chapter will be held Friday, March 21, at 11 a.m. in room 200MH.

The SAE is an organization active, primarily, in the automotive field. However, this includes not only automobiles, trucks, and busses, but also fuels and lubricants, tractors, and the broad and engrossing field of aeronautics.

Eckberg urges all men interested in these subjects to join the IIT branch to benefit from the following: 1) The monthly magazine, mailed to each student member, containing timely and interesting articles concerning the latest developments in the automotive field; 2) various articles and papers on subjects of special interest that can be obtained from the SAE headquarters upon request; and 3) an invitation to student members from the Chicago Section of the SAE to participate in its activities. Sophomore and junior MEs are urged particularly to join the student branch of the SAE.

INFORMATION FOR FREE

(Continued from Page 3) gag. It is especially handy in a monologue where the comedian quips:

"I wouldn't say it's windy in Chicago but I saw a girl in a hoop skirt bend over for a cigar butt on Michigan Avenue and she was last sighted over Cleveland."

Another radio show, which openly admits to the use of a pair of dummies, has a similar standby. "M—," the live one queries, "how can you be so stupid?"

"Da-a-a-h-h, it's easy. I graduated from Illinois Tech."

CATHOLIC HIGH SCHOOL HALF MILE RELAY—Won by Mt. Carmel (Weber, Carrarez, Mohan, Simpson); Loyola, second; Leo, third; St. Ignatius, fourth; St. Rita, fifth. Time 1:37.7.

JUNIOR COLLEGE DIVISION
SPRINT MEDLEY RELAY—Won by Wilson (Burt, Wyrick, Margerum, Jenkins, Thornton, second; Morton, third; LaGrange, fourth; North Park, fifth. Time 3:51.5.
ed. note: Art Jens' column has been a regular sports feature following each Illinois Tech Relays. An alumnae of '31, Jens served as Sport Editor of the Armour Tech News. He was official scorer in Saturday night's meet.

Hold It!

GETTING READY—Helen Dolich of the Placement Office and President Henry T. Heald are snapped as they prepare camera for action at the Armour Eye's photo frolic to be held this Friday, 7:30 p.m., Auditorium.

STUDIO NIGHT

(Continued from Page 1)

the expense of the Eye. All pictures taken, if the photographer so wishes, will be developed by the Eye, free of charge in the club's darkrooms.

At the last Armour Eye meeting the officers for this term were elected. Officers are: President, Artie Rosner; vice-president, Howard Fink; treasurer, Werner Neuman; secretary, Newman Levinson; and dark-room chairman, Frank Furdy.

New pledges were brought into the club and the main details of the coming Studio Night ironed out. The last minute details will be taken care of at the meeting tomorrow at 5 p.m. in 410C.

Department Heads To Work at Argonne

Since the highly advanced facilities of the Argonne National Laboratory will be placed at their disposal, several IIT professors will soon be able to conduct research experiments which heretofore have been closed to them because the necessary equipment was unobtainable. According to Dr. L. E. Grinter, IIT's representative on the Board of College Representatives, the men who have been cleared for research work are the heads of the Chemistry, Biology, Metallurgy and Physics Departments. These instructors will arrange their classes and other affairs to fit the time schedule they wish to follow in the lab.

Because of the laboratory's isolated site, scientists will be able to produce neutron beams from uranium piles of sufficient strength to permit research experiments not possible before, said Dr. Grinter. "The production of such rays in the laboratory's present buildings in the city would have presented too great a danger to the citizens", he added.

The research men are primarily interested in the effect of radiation on topics related to their fields. Biologists will study mutations caused by the exposure of biological specimens to the radiation, while metallurgists will use the high-powered penetrating neutron beams to probe deeper into problems of metal and alloy structure.

The Argonne Laboratory, which is one of a proposed series of national laboratories, will be located in Du Page County.

AXE to Hold Smoker

The Alpha Chi Sigma's will hold a smoker Friday evening at 7 p.m. at the Delt house, 3240 South Michigan Ave. Members of the chemistry department faculty will be present, said Grant Medin, president of AXE. There will be entertainment and refreshments for those present. According to Medin, plans for professional activities are being planned and will be announced in the near future.

White Acts for Peebles

While Dean Peebles is in Florida on a month's vacation Dean of Students Jack White will be acting Dean of Engineering. Those students desiring to drop courses should go to Dean White's office in the SU for necessary approval.

Announce Date For Filing Vet Earnings

Once more cautioning IIT vets to heed instructions, Veteran Administration Advisor F. I. Hand released the deadlines for filing earning statements. The last digit of the vet's C-number will determine the month for reporting; 2 & 3, through March; 4 & 5, through April; etc. For example, should John Doe's C-number end with 7, his statement should be filed in May and must be mailed before June 5.

If the student has been working to augment his subsistence allowance, the signature of his employer or some superior knowing the man's earnings is required. Forms will be mailed along with the regular monthly subsistence check, and are not available elsewhere.

Hand also offered some firm advice about switching major studies or changing colleges. Such changes require the written permission of Dean Peebles or Dean Larkin and a letter of acceptance from the new institution and must be accompanied by a record of the academic standing of the vet and a form 906. In the event that the veteran's record is unsatisfactory he must be interviewed and given attitude tests at the VA office downtown.

If the proper procedure is followed, a new letter of eligibility will be issued but improper procedure might mean liability for tuition and supplies.

Hand also stated that there are many used text books available in the Veteran Administration's Office which may be procured by those vets who have not as yet purchased the required books for their course.

"Snooky" to Lead Senior Burlesque in Junior Week

Burlesque will come to IIT as part of the Senior Class doings during Junior Week, April 23-25, announced Bob Bushelle, activities chairman for the senior class committee during those riotous days next month.

"Snooky", well known to certain IIT students, will head a large cast in a forty-five minute show based on old-time burlesque. Bob Bushelle, who wrote most of the material, and Bill Knowles, stage director, hope the skit will become a traditional part of senior activities during future Junior Week programs.

Among the individual performers in feature acts are Bruce Kelley, Ed Lindahl, Al Malis, Hans Nord, and Bob Walsh, with Shirley Langill in charge of the chorus routine.

Any senior interested in taking part in the show or otherwise assisting should contact Bob Bushelle or Wit Kosicki.

"Man and Woman of the Year" To Be Featured in Junior Week

Nominations and elections for "The Man and Woman of the Year" will be held soon, Pat Vedel, chairman of the Student Activities committee of Junior Week announced last week. The man and woman are to be chosen by the entire student body

Plan Instruction For Wounded Vets

In conjunction with K. A. Paulson, chief of retraining at Vaughn General Hospital, the Illinois Tech Vets are establishing a tutoring service to aid those veterans at Vaughn who wish to continue their education while in the hospital. The tentative plans are to teach technical drawing from some of the more simple plates and all elementary math up to college algebra. The text books and equipment necessary for these courses are to be purchased with a portion of the IIT Christmas fund. Any more advanced subjects will be taught if sufficient vets at the hospital ask for them.

The Illinois Tech Veteran's Club is asking anyone interested in volunteering one evening of their time between April 1 and May 31 to add their name, telephone number and days available to the typewritten list on the Vets Bulletin Board in the Student Union lobby. Thus far, at least 80 veteran students have signed this list, but many more students, vet or not, are needed. This service acts as a scholastic aid and as a morale booster to the patients at Vaughn.

With the beginning of the new semester the ITV club has elected their new officers for this term. The following men were elected to office: President, Leo Martiniak; vice-president, Ben Sutton; secretary, Jack Castiglia; treasurer, George Coe; social secretary, Jack Chamberlin.

Upon receiving the gavel from Frank Hall, the retiring president, Martiniak reaverred the primary goals of the club were to maintain "The ITV club as an independent student veteran's organization founded to promote the interest of veterans at IIT and give them an organized voice."

Health Talk to Be Given

"Health Hazards of Civilization" will be the theme of Dr. J. F. McNamara's health lecture to be given at noon this Thursday, in the auditorium. The lecture will cover causes and care of accidents but will emphasize precautions against them.

Fencers to Meet Friday

The Illinois Tech Fencing Club will meet this Friday at 11 a.m. in the gym. All persons interested in fencing are invited to attend this meeting.

from the senior classes on the basis of scholarship, activities and popularity. Valuable prizes will be given those two elected to this honor and they will preside at the Jubilee Ball, said Vedel.

Junior Week this year will be held on April 23, 24, and 25 and classes will be excused to allow students to take part in the activities and see the various exhibits sponsored by the Research Foundation, departments, and outside businesses. The activities will be run on the same general order as Junior Weeks of previous years.

Bob Guthrie, chairman of the Open House committee, who is making the arrangements for the exhibits mentioned above, has compiled a tentative schedule of events for Junior Week. All that is needed to fill it out are the programs of the various organizations that are planning activities. Any departments that want space for an exhibit, should contact Guthrie to be allotted space.

Some of the highlights of Junior Week will be the "sophomore-freshman baseball battle," the election of the Man and Woman of the Year, the open-house exhibits, the Interfraternity Sing and pageants, the Jubilee Ball, turtle races, and many other interesting, entertaining and amazing events.

The Jubilee Ball will be an all-school formal dance climaxing the week's activities. It will be held the night of April 25 in the Venetian Room of the Southmoor Hotel. Arrangements for this are still in the process of completion, but it is believed that the bids will sell at \$3.50, according to Vedel.

The theme of this year's Junior Week will be the Golden Jubilee of the first graduation class from Armour Institute.

Unavailable Rooms

The following is a list of classrooms which are in use on Fridays from 11 a.m. to 12 noon. These classrooms should not be scheduled for meetings during this hour by program chairman of school organizations.

- Alumni Hall: 116, 7, 201, 203, 212, 205.
- Chapin Hall: 102, 105, 108, 111, 117, 120, 202, 208, 220.
- Machinery Hall: 106, 200.
- Main Building: 305, 502.

Hendricks Leaving IIT; Will Head New College in Vermont

After twenty-five years at Illinois Tech, Dr. Walter Hendricks, director of the Language and Literature Department, has resigned to become president of Marlboro College, Marlboro, Vermont. Dr. Hendricks will leave Illinois Tech at the end of this semester.

During his long stay at IIT, Dr. Hendricks has taken part in many faculty and school activities and aided students in the successful organization and management of theirs. One of the student activities in which he has taken part is *Technology News*, which he helped found in April, 1928. He was faculty advisor of *Technology News* for ten years and also served as faculty advisor of the *Integral*. A number of years ago, he reactivated the *Armour Tech Engineer and Alumnus*, bringing the publication up to its current standards.

It was in 1928 that Dr. Hendricks called together a group of students from his classes who were interested in forming a school newspaper. John

Houmes, now a professor in the Fire Protection Engineering Department, was the first editor-in-chief of the *Armour Tech News*, predecessor of *Technology News*. The first issue appeared in April, 1928.

Marlboro College is a newly established liberal arts school with several unusual features. The benefit

of college activities to the student body. He is a member of many prominent buildings and grounds. Students will be given encouragement in the creative arts, efforts will be made to develop the individual's personality, education will be presented as a lesson in living, and students will be provided

with every opportunity to enjoy the natural beauties of southern Vermont as they pursue their studies.

Dr. Hendricks holds a Bachelor of Arts degree from Amherst, a Master's degree from the University of Chicago and, after studying at the University of Grenoble, France, took his Ph.D. at Northwestern Univer-

professional societies, amongst which are the National Council of Teachers of English, Modern Language Association, and the American Association of University of Professors. During the closing days of the war, Dr. Hendricks served as head of the Department of English at Biarritz American University in France.

FACULTY FACTS

(Continued from Page 2)

as a consultant for various surveying firms and societies.

Yet with all this, John C. Penn has found time to devote to many professional and social groups; he is the present Director of the Chicago Astronomical Society; he is active in the American Society of Civil Engineers, the Western Society of Engineers, the Knickerbocker Club and numerous other organizations.

In the few months that he can really call his own Professor Penn dotes on his hobby of collecting maps, his most prized possession being his rare eight volume 17th Century Atlas of Johannes Bleaw.

But even in his free moments Professor John C. Penn thinks of IIT as his greatest hobby. When asked if he has any future plans, Professor Penn was at a loss because he could not imagine a future without IIT. However, he thinks that he might retire someday and travel.
