

CURTAIN GOING UP—but IIT's Man and Woman of the Year, though elected today, will not be revealed until the Junior Week coronation ceremony.

Man and Woman of the Year

Man and Woman election today

By Henry Holmes

Who will be the honored pair? The question that has been stirring in every coffee cup for the past three weeks will be partially solved today, as the entire student body marches to the polls to cast their votes for the Man and Woman of the Year.

Although the election will be conducted in the lobby of the North Student Union, rather than in the east dining room, it will be run in the same manner and by the same personnel as the regular class elections. The polls opened this morning at 8 a.m., and will remain in operation until 5:30 p.m. this evening.

The officials of the commission are urging every student to vote. The system in use is especially devised to take care of all rushes between classes, and no waiting will be necessary.

"Every freshman and sophomore has just as much right to decide who should be selected to receive the honor as do the upperclassmen," said Chairman Bob Shuldes. "After all, this is certainly an all school function. We are particularly interested in urging the lowerclassmen to come out and vote."

The official list of candidates is as follows:

WOMAN OF THE YEAR		MAN OF THE YEAR	
Ann Altman	Dorothy Krack	Ted Adams	James Kogen
Celia Barbeau	Irene Radvillan	Robert Amstutz	David Pasik
Maureen Boyle	Andrey Read	George Bowman	Joseph Peter
Claire Brough	Virginia Rezakabek	Sherwood Benson	Clarence J. Smith
Betty Duke	Lorraine Rusak	William Dassic	Leonard Spitzer
Lua Johnson	Kathleen Walker	Donald Ennis	Eugene Stanley
		William Furlong	Ken Thompson
		Donald Goldsmith	Charles Trost
		Joseph Hamilton	Jim Wangersheim
		Harry Himmelblau	Edward Zeitz
		Wayne Johnson	

Engineers held in high respect: Heald

President Henry T. Heald, speaking at a meeting of the ASCE Tuesday, expressed the opinion that "no important professional success is based on merely 40 hours a week." He went on to stress the engineer's responsibility to the community as both a technician and a citizen, stating, "The professional man must keep abreast of new developments in his field and must also take his place as a citizen."

However, President Heald noted that the engineer does not necessarily carry his competence into social and political fields, but, at least he has the advantage of a background in logical thinking.

Discussing the activities of an engineer within his fields, the President declared, "To make sure that he maintains an active interest, the engineer should belong to at least the two societies most closely allied to his field."

Continuing in the same vein, Heald said, "What really counts is the appreciation of professional associates." He opined that, since the public is not a good judge of an engineer's competence, the opportunity to be judged by men of greater experience in a professional society is of great value.

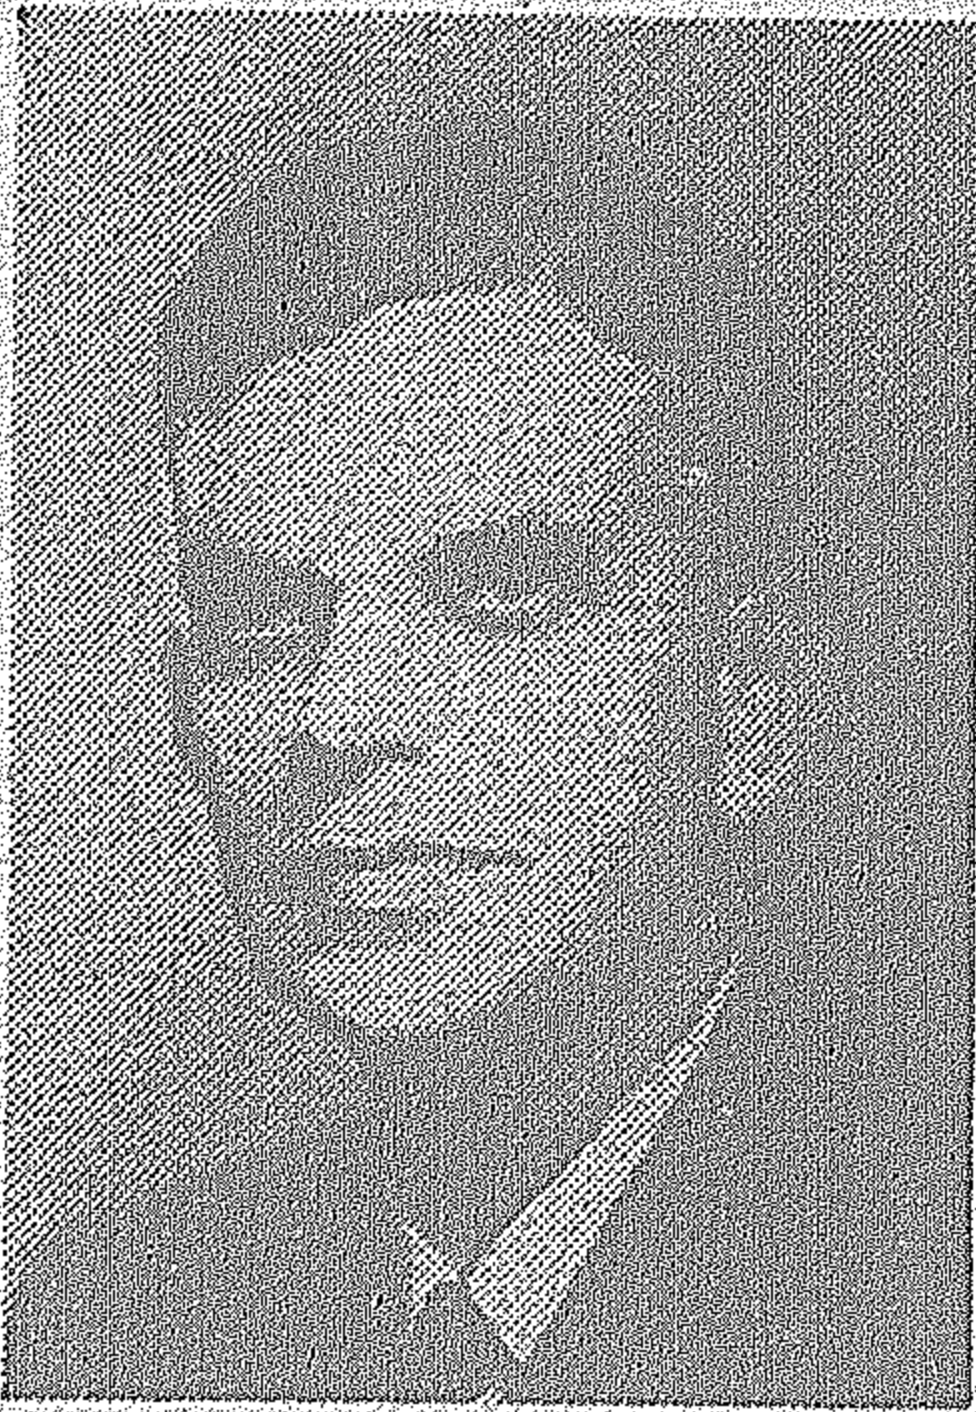

President Heald stated that professional societies are very much interested in both the type of men attracted to the profession and in the training they receive.

The persistent complaint that the social status of engineers is not comparable to the prestige that the medical and legal professions hold was refuted by President Heald. He stated, "In my opinion the public as a whole has high respect and confidence in engineers."

Fight and war films to kindle APO smoker

Alpha Phi Omega will hold its semesterly pledge smoker at 7:30 tonight in the NU lounge. The IIT chapter of the national service fraternity, playing host to prospective pledges, will show movies of the Truk Island invasion and fight scenes of Joe Louis. In addition, refreshments will be served.

Gene Shastal, newly elected president, urging all former boy scouts to attend the smoker, remarked, "APO members take part in an active program of service projects, social events and comradeship that should appeal to many former scouts."

New rules govern exam procedure

In a March 17 memo to all instructors, the Institute disciplinary committee released new regulations covering cheating and the administering of exams. The new policies are direct results of a recent petition by a group of students in protest of the "wide-scale dishonesty in examinations at Illinois Tech."

The new procedures will require the preparation of two forms of each examination for classes where students are forced to sit in adjacent seats. These forms are

to be printed on differently colored paper.

Students will be asked to bring bluebooks to each quiz. The instructor will collect these booklets and distribute others bearing an identification mark. The marking of bluebooks remains in the hands of the various departments.

Under the new regulations all exams are to be proctored by regular full-time instructors. In large classes it is recommended that a proctor be provided for every 50 students.

Instructors are requested to avoid the use of tests given in previous semesters.

Clarence E. Deakins, dean of students and chairman of the disciplinary committee, stated that the new regulations immediately caused considerable comment and criticism from students and faculty members alike.

"We are not sure that this plan will accomplish its objective more fully than alternative suggestions, such as an honor system," Dean Deakins stated. "It may be the wrong approach to the problem—it denies recognition of student moral and ethical concepts, and could possibly result in a game of students trying to outwit their instructors."

While enforcement of the new directive will be "an insult to the honest student," the disciplinary committee feels that with the competitive systems of grading in

(See CHEATING on page 5)

Counseling opens April 4

Raymond Meade, registrar, has announced that the preregistration counseling period for the summer and fall terms will open April 4.

"Of primary importance, preregistration is not only a convenience to the student, but is vitally necessary to the various school departments in determining expected enrollment," Meade stated.

Several changes in the preregistration procedure have been effected. All freshmen, first and second semester, will be counseled and preregistered by their advisers. All cooperative students, on and off the campus, will be advised by their department heads.

Communication with co-ops now in the industrial section of the year is being handled by Harold Minkler, coordinator of cooperative programs. These men are asked to contact the registrar's office during the counseling period. All other students are to refer to their department heads as before.

Mr. Meade revealed that scheduling of classes is determined by the number of students who enroll in these classes during preregistration. Students who intend to take summer courses should preregister for them, and when being counseled for their fall semester courses, should assume that they will pass the summer classes. This will provide adequate leeway for

students attending fall classes by avoiding double counting.

Students who are going to attend summer classes must refer to the 1948 bulletin for course numbers. Fall course numbers are to be obtained from the new 1949 bulletin. Mr. Meade advised students to retain a duplicate copy of the preregistration program that is turned in to the advisers.

The final summer schedule of classes will be compiled before May 1. It is hoped that this schedule will be available for distribu-

Semantics and tour for AIEE

AIEE turns to aspects of word slinging at Tuesday's meeting at 1 p.m. in the MC auditorium when Eugene Freeman, assistant professor of philosophy, will discuss "Semantics for Engineers."

The meeting will be sponsored by the general education group of AIEE and, as usual, cokes and doughnuts will be served.

On "Young Engineers' Day," April 7, the AIEE Chicago section will visit the Bell Telephone company and conclude the event with a banquet. Jim Kogen, local AIEE chairman, revealed that only the first 80 men to sign up would be able to go and suggested that interested men apply quickly.

tion to potential summer school students by May 15.

Students are warned that if they do not reserve space in courses desired in the fall they may have difficulty gaining admission to them later. All preregistration must be completed during the April 4-22 period.

SMILING HAPPILY, Edwin R. Whitehead, director of the electrical engineering department, poses with "Connie," vocalist at the AIEE smoker Friday night. Dr. Whitehead's brow bears a consolation prize given to him by Connie for his incorrect estimate of the number of keys on a piano.

YOU'RE TOO LATE
THE INTERVIEW
LIST GOES UP
TOMORROW.

Placement confusion reflects job shortage

Voiced on this page are two letters of interest to every engineering student at Illinois Tech. Reflecting personal inconveniences encountered in the Institute's placement office, they are evidence of a trend that means trouble for every job-seeking graduate.

Almost every day January grads can be found in the placement office, looking for their first employment. Among them are the "better-than-average" and some "superior" men. As they will tell you, there just weren't enough jobs to go around.

The situation has evidently not improved, judging by the interest employers are showing in our June crop. One concern recently declared a moratorium on all hiring for the present time; two large chemical plants, one of which used to hire 250 ChE's at a clip, will not hire any this term.

Travel up to the placement office and you'll probably find a group of 10 to 15 eighth termers

Blowing the Gaff

Jim votes on records

With another annual Man and Woman of the Year election being held today, it might be a good idea to review just what the title stands for and just how the final two should be selected.

In other elections I usually find myself voting for the people I know best or else the ones that put on the most striking campaign and leave their names impressed on my mind. This is usually the only course open to me due to my unfamiliarity with the candidates running, but today's election is different.

I could make the choice from the candidates I know the best, but I just wouldn't feel right about it unless they also happen to have the best records.

As things stand now, as I write this, I know who I'm going to vote for, but I daresay that if I make my choice public I'd lose quite a few friends. What's a guy going to do?

The winner will be Man and Woman of 1949, but as far as I'm concerned, it's a record of four years that should put them there.

Just between the student body and me, one of my choices is a person I don't get along with too well. But if I can repeat myself again, "What's a guy going to do?" If the person's got the record, let's call a spade a spade.

Jim Gaffney

from graduating seniors that are of interest to every engineering student at Illinois Tech.

Examining the interview appointment books and questioning the staff about information on the interview schedule. They're particularly anxious, because for every 20 interviews available, there seem to be 30 or 40 applicants.

Competition for these interviews is cutthroat, because the lists are often filled within an hour. Attempts by the placement office to secure more interviewers are for the most part unsuccessful, largely because the employers have made out their travel schedule weeks in advance.

The placement office deserves a great deal of credit for the efforts it is making to alleviate this situation by digging up jobs wherever it can find an opening or two, but something must be done about the ratrace for interviews, which the undermanned staff is unable to prevent.

Technology News has made several suggestions to Placement Director John Schommer, the chief of which involves a "pre-registration" for interviews. This would allow the office to inform an employer that, for example, 65 men were interested in jobs with his company, instead of determining the number after it is literally too late.

These measures probably cannot be put into effect this term, but there's a record class graduating in 1950—Let's hope that next year's editor doesn't have to dust off our cartoon above.

He knocked at the door of my room. "May I come in? It's the room I had when I went to Tech in '19," he said. I invited him in.

"Yes, sir," he said, lost in reverie. "Same old room. Same old furniture. Same old view of the campus. Same old closet."

He opened the door. There stood a girl, terrified. "This is my sister," I said. "Yes, sir, same old story."

"Dear Sir," writes a customer. "For ten years I was totally deaf, and after using your Ear Salve for only ten days I heard from my brother in Nebraska."

Today's best value for a nickel is a phone call to the right girl.

Letters to the Editor

Seniors deplore grad interview practices

To the Editor:

It seems that the seniors are getting panicky this semester in their search for jobs. You practically have to be Johnny-on-the-spot to get your name on the interview list.

I suppose all of this is due to the rumors that jobs are scarce, and one must fight his way to the post position in order to win, place or show. Sometimes it takes less than an hour for an interview list to be filled. It doesn't seem possible that 50 or a 100 students are lined up every hour waiting to put their name on the list.

It also isn't very probable that all of the seniors make a mad dash to the Placement office between each class. What is more likely is that one student signs the names of several of his friends.

With a large class such as we have this semester, things can easily get out of control if this continues. I'm sure that the senior class in general would appreciate it if steps were taken by the placement office to prevent this practice.

CONDEMNATION of the group which started the ball rolling for the new "anti-cheating" dictate was prompt.

That it was a student group seems to be amazing. "What were they trying to do? Cut everybody's throats, including their own?"

I certainly don't like the plan, and haven't talked to anyone that does, including members of the disciplinary committee. Gestapo tactics never go over with a bang.

This feeling doesn't stop recognition of the fact that something had to be done. With the abolition of the honor system not too long ago, the door was left open for a gradual tendency to develop, and in many specific courses and departments, it did.

The big question is, which will accomplish more, a faculty police force or an honor system? If anything, the tendency to cheat is intensified under the new specifications for quizzes. I personally doubt whether many instructors will bother conforming to the rules anyway.

One thing is obvious: A working honor system is something a school can be proud of, whereas this thing we've got now is better hidden in a closet.

SPEAKING OF QUIZZES, I ran across an odd one this week. I'm not really sure it's a quiz, although it says Chemistry 111, Section A, March 1949, and has 20 multiple choice questions.

Take number 2. What is .2 subtracted from 7.26? Or number 7: What is the quotient of 1255 divided by 92? You can see they start out tough, but it gets even worse as you go along. Number eight requires the name of that branch of chemistry which deals with carbon compounds, and to answer number 18 you have to know whether it's a solid, liquid, or gas that has neither volume nor shape.

It was the last question that really snowed me. Try as I might, I couldn't figure what per cent .25 was of 1.50. Either I've forgotten my freshman chemistry, or the Institute has raised its admission requirements. You really have to be pretty shrewd to get by that course these days.

No wonder we've got cheating.

Three judges pick queen of frats

Twelve anxious and pretty candidates are awaiting selection as queen of Tech fraternities. The royal election is the main feature of the annual fraternity formal to be held tomorrow in the impressive Louis XVI, Crystal, and Gray rooms of the Hotel Sherman.

Photogs to hold studio night

Armour Eye will hold a studio night tonight at 8 p.m. in the North Union. Miss Pat Hunter, of the Patricia Stevens agency, will serve as model. Lights will be available and photographers will be afforded an opportunity to try their own ideas with lighting. Admission is not restricted to members.

The contest will be judged by three beauty and talent experts, band leader James, Assistant Dean of Students Eugene Pare, and the well known radio emcee and disc jockey, Dave Garraway. Each fraternity has entered its selection.

Maestro Eddie James and his band will provide music for the dance, which starts at 9 p.m. Entertainment is also planned for the intermission.

GRADUATING SENIORS — All candidates for graduation with the June class as well as those who expect to complete requirements for graduation in the summer session are required to make an appointment with W. E. Kelly, assistant registrar, for a credit check-off. Diplomas will be ordered only for those candidates who have been checked off this semester. Those who were cleared last fall are expected to appear for a final check. This applies to both day and evening students.

Kelly's office hours for day students are Monday, Wednesday and Friday from 1 to 5 p.m. and all day Tuesday and Thursday. He is available to evening students on Monday, Wednesday and Friday from 6 to 8:30 p.m. The office is closed Saturdays.

NEWS IN BRIEF

RHO EPSILON — Rho Epsilon, honorary radio fraternity, is seeking new members. Those interested may obtain application blanks in either the electronics lab offices or 414 C. Qualifications are junior standing with a 1.5 grade point average. Questionnaires must be turned in by Monday.

WSE — H. P. Sedwick, vice-president of the Public Service company of Northern Illinois and first vice-president of the Western Society of Engineers will speak on "Engineering in the Utility Business" in the MC auditorium at 1 p.m. Tuesday.

DELTA ZETA — Six pledges and six alumnae were initiated into Delta Zeta sorority Sunday at the home of Celia Barteau, president.

The new Dee Zees are Kara Kern, Anita Court, Betty Burkhart, Betty Mueller, Elaine Krause, and Barbara Giles. Delores Jackson, Pat Stroner, and Nanette Thomas were pledged.

VETERANS' PURCHASES — Veterans are reminded that all transactions in the bookstore other than cash sales will cease after Friday. Paul Fox, manager of the bookstore, stated that this is necessary to expedite accounting operations.

IVCF — The Illinois Tech chapter of the Interservice Christian Fellowship will meet tonight at 5 p.m. in the NU Executive conference room. Among the topics to be discussed are plans for the Junior Week exhibit.

Stroke ends life of Dean Rogers, 79

Services were held Monday for Fred A. Rogers, 79, dean emeritus of engineering. Dean Rogers, whose health had been failing recently, suffered a stroke at the Lutheran Deaconess hospital Friday evening.

Dean Rogers joined the Lewis Institute staff in 1880 and was with the school until his retirement at the time Lewis and Armour Institutes merged in 1941. Recalled to active service within a year, Dean Rogers assumed the duties as director of war training at Illinois Tech and held that position until the end of the war, when he again entered academic retirement.

Last year at the twenty-fifth anniversary of the Founders' Day banquet of Delta Lambda Xi he which read, in part: "... in recognition of his nearly half century was awarded a scroll of merit of work, guidance, and inspiration; as a teacher and counselor of young men; and as an outstanding authority in the profession of Electrical Engineering."

Ordnance body honors 22 at Illinois Tech

Honorary membership in the American Ordnance Association has been granted to 20 Illinois Tech juniors and seniors. The appointments, made on the basis of good scholastic standing and leadership qualities, were announced by the faculty advisors, Dr. Retaliata, dean of engineering, and John Makielski, assistant dean of engineering.

The American Ordnance Association is a non-profit society of American citizens dedicated to scientific and industrial preparedness for national security.

New members are: Robert Amstutz, Richard Baldwin, George Bowman, William Comis, Louis Czynewski, Robert Doamagala, Robert Gaynor, Max Grimshaw, Leslie Hardison, Joseph Hamilton, Donald Leal, Dave Pasik, John Peterson, Leonard Speicher, Eugene Stanley, John Tansey, Thomas Walsh, Donald Ward, Harold Zeitlin and Edward Zeitz.

Conference theme U.S. power needs

"How to better supply power needs in periods of decreasing resources" is the theme of the eleventh annual Midwest conference, sponsored by IIT with the cooperation of 18 mid-western universities and professional societies.

The purpose of the three-day conference, which will open at the Sherman hotel April 18, is to offer an opportunity for all persons interested in power production,

transmission, or consumption to meet and study mutual problems, free from the restrictions of required membership in technical or social organizations. Invitations have been extended to all persons involved in the nation's power problems.

A talk, "Can Socialism Produce for the United States?" by J. W. McAfee, president, Edison Association of Illuminating companies, will be featured at the opening session. Presiding over this session will be Alex D. Bailey, ME '03, vice-chairman of Commonwealth Edison company and vice-chairman of the board of trustees of Illinois Tech.

Highlighting the conference is the all-engineers' dinner on April 19. Toastmaster for the occasion is Lenox R. Lohr, president of the Museum of Science and Industry. Lt.-Gen. Raymond A. Wheeler, technical advisor to the International Bank for Reconstruction and Development, Washington, D.C., and former Chief of Engineers for the U.S. Army, will be guest speaker. Among the notables attending the dinner will be the honorable Charles Dawes, former vice-president of the United States.

Prom bids go on sale Monday

The Junior class dance, social finale of Junior Week, will draw Techawks and their partners in swirling gowns and tuxedos to the Casino room of the Congress hotel April 30.

Bill Russo and his orchestra are slated to provide the musical setting. Bids will appear Monday in a booth in NU lobby. John Christian, junior social chairman, urges Techawks to obtain bids quickly from the limited number available and make early reservations for choice tables.

Checks cashed at 35th-State

C. E. Deakins, dean of students, announced Saturday that arrangements have been made with the currency exchange at 35th and State streets for the cashing of personal checks for all employees and students.

When cashing checks, students will be required to present their student identification cards and one other means of identification, preferably a driver's license giving a personal description. This action was necessitated by the fact that facilities are not available at present for cashing checks at the Bursar's office.

Rough castings dance April 8

"Footlight Fling," a dance open to the general student body, is being presented by Rough Castings April 8, as one of the group's social projects for this term.

Featuring plenty of girls, refreshments and entertainment, as well as the music of the "Short Circuits," who scored a success recently at the EE smoker, the affair promises to be one of the best on this spring's agenda, according to the castings.

Tickets for the event, to be held in the NU auditorium, may be obtained from any member of the Rough Castings group, beginning Monday.

CHEATING

(Continued from page 1) use, the honest student will no longer have to suffer from cheating practices.

Dean Deakins stated that he hoped the Tech faculty would, in the near future, undertake an investigation of the causes of cheating, citing the emphasis on memorization as an obvious example.

Although it appears that a final solution has not yet been reached, the committee felt that action was necessary in response to the frequent complaints reaching the dean of students' office.

A formal proposal by a three-man student committee was submitted to the disciplinary committee, containing many of the provisions subsequently adopted.

Commenting on the possibility of an honor system, Dean Deakins cited the system in use at IIT until the fall of '46, abolished at the request of students because of its misuse.

"The door is still open for such a system," stated Deakins, "but we cannot initiate it. Such a move must come from the student body."

Engineer license exam on May 25

State engineering examinations for Chicago area students will be held on May 25. These examinations constitute partial fulfillment of the requirements for procuring a license as a professional engineer in the State of Illinois.

Any student who has completed at least seven semesters may take the examination by securing an application from the department of registration and education at Springfield. The completed form must be returned to the capital no later than May 1.

Edwin R. Whitehead, director of electrical engineering, who is on the board of examiners, stated that the exams could be given on campus if taken by a sufficient number of students.

Additional information may be obtained from Dr. Whitehead.

AICHE to tour local breweries

Three local breweries will be toured today during a field study arranged by the American Institute of Chemical Engineers. The touring group will leave the campus at 1:30 p.m. for the Canadian Ace, Peter Fox, and Keeley breweries where the manufacturing, purification, bottling and packaging operations will be observed.

Cindermen seek first win

Foilmens end season in high spirit

Illinois Tech's fencers have just wound up a season of competition against some of the nation's finest squads. While the outcome was not always victorious, the foil artists are justly proud of the many moral victories they hold over some of the big shots in the world of collegiate fencing.

Foremost among these was a hard-fought match with the University of Chicago, the same squad that tied for third place in the nation in 1948. Tech defeated the Maroons in the foil event, 5-4.

Coach Seymour Bazell is now trying to get more of the girls around the campus interested in fencing. Ten girls from the Armour Research foundation practice every Friday at 5:15. Any other interested females are invited to attend.

Coach Bazell is also on the lookout for a manager for next season.

CAPTAIN JIM SAUER, stellar half miler, takes advantage of Monday's warm weather to get a workout.

Meet North Central and Morton after Wayne loss

By Dave Miller

The thinclads will meet North Central and Morton Junior colleges tomorrow at 1 p.m. in the University of Chicago field-house for their last of the indoor season contests.

The triangular meet will find North Central's Cardinals away from their own square-turned track and they will not have the home-team advantage they have held over Tech for many seasons. Combining this with the presence of Morton to split up the points, the Tech squad is expected to make its best showing of the season.

Led by their captain, Olympic star Lorenzo Wright, the powerful Wayne university track team of Detroit rolled over the Techhawk squad to hand them an 82½-30½ licking Saturday. Despite an injured heel, Wright managed to place in three events to garner 8½ points for the Tartars. High honors for Tech went to Milt Cox, who won the high jump, placed second in the broad jump and third in the low hurdles for a total of nine points.

The only other first place taken by Tech was won by Captain Jim Sauer, who posted the fast time of 2:01.5 to edge out Owen Dykema, also from IIT.

Buddy Coleman of Wayne unofficially tied the American indoor record of :07.0 in winning the 70-yard dash.

Other Scarlet and Gray pointmakers were Dick Durand, third in the mile, Bob Voightmann, third in the 440, Al Ashurst and Wally Kohler, second and third, respectively, in the two-mile run.

John Gautier tied for second in the pole vault, Walt Conniff tied for third in the high jump, and Ken Yahiro, second in the shotput.

(See TRACK on page 7)

Badminton, volleyball on IM bill

In the first week of March, 16 eager Techawks started on the long road that will lead one of them to the IM badminton championship.

So far the tournament has been highlighted by a spectacular match between two of the higher seeded men. K. Roa, a foreign student from India, defeated N. Taxman in straight sets, 15-9, 15-9. This exhibition of skill has established him as the favorite, although he can expect serious competition from the other entrants.

The tourney, being a single elimination affair, will probably continue until sometime in April. Medals will be awarded to first and second place winners.

Entering into the third week of competition, the IM volleyball tournament is rolling along with the Whiz Kids, the Gymmies A and B teams, Kraft's Crushers, and the Spikers each gaining one victory.

The Chem Grads, winners of last year's tourney suffered a defeat at the hands of the Gymmies B squad in the first game between both teams. The champs are still in the running however, since the tournament is on a double elimination basis.

HE HAS BUILT A BRAND NEW CITY

The "telephone man" is mighty busy these days!

Since the war, among many other things, he has built or enlarged 2,800 buildings . . . scores of them large enough to fit into the skyline of a modern metropolis.

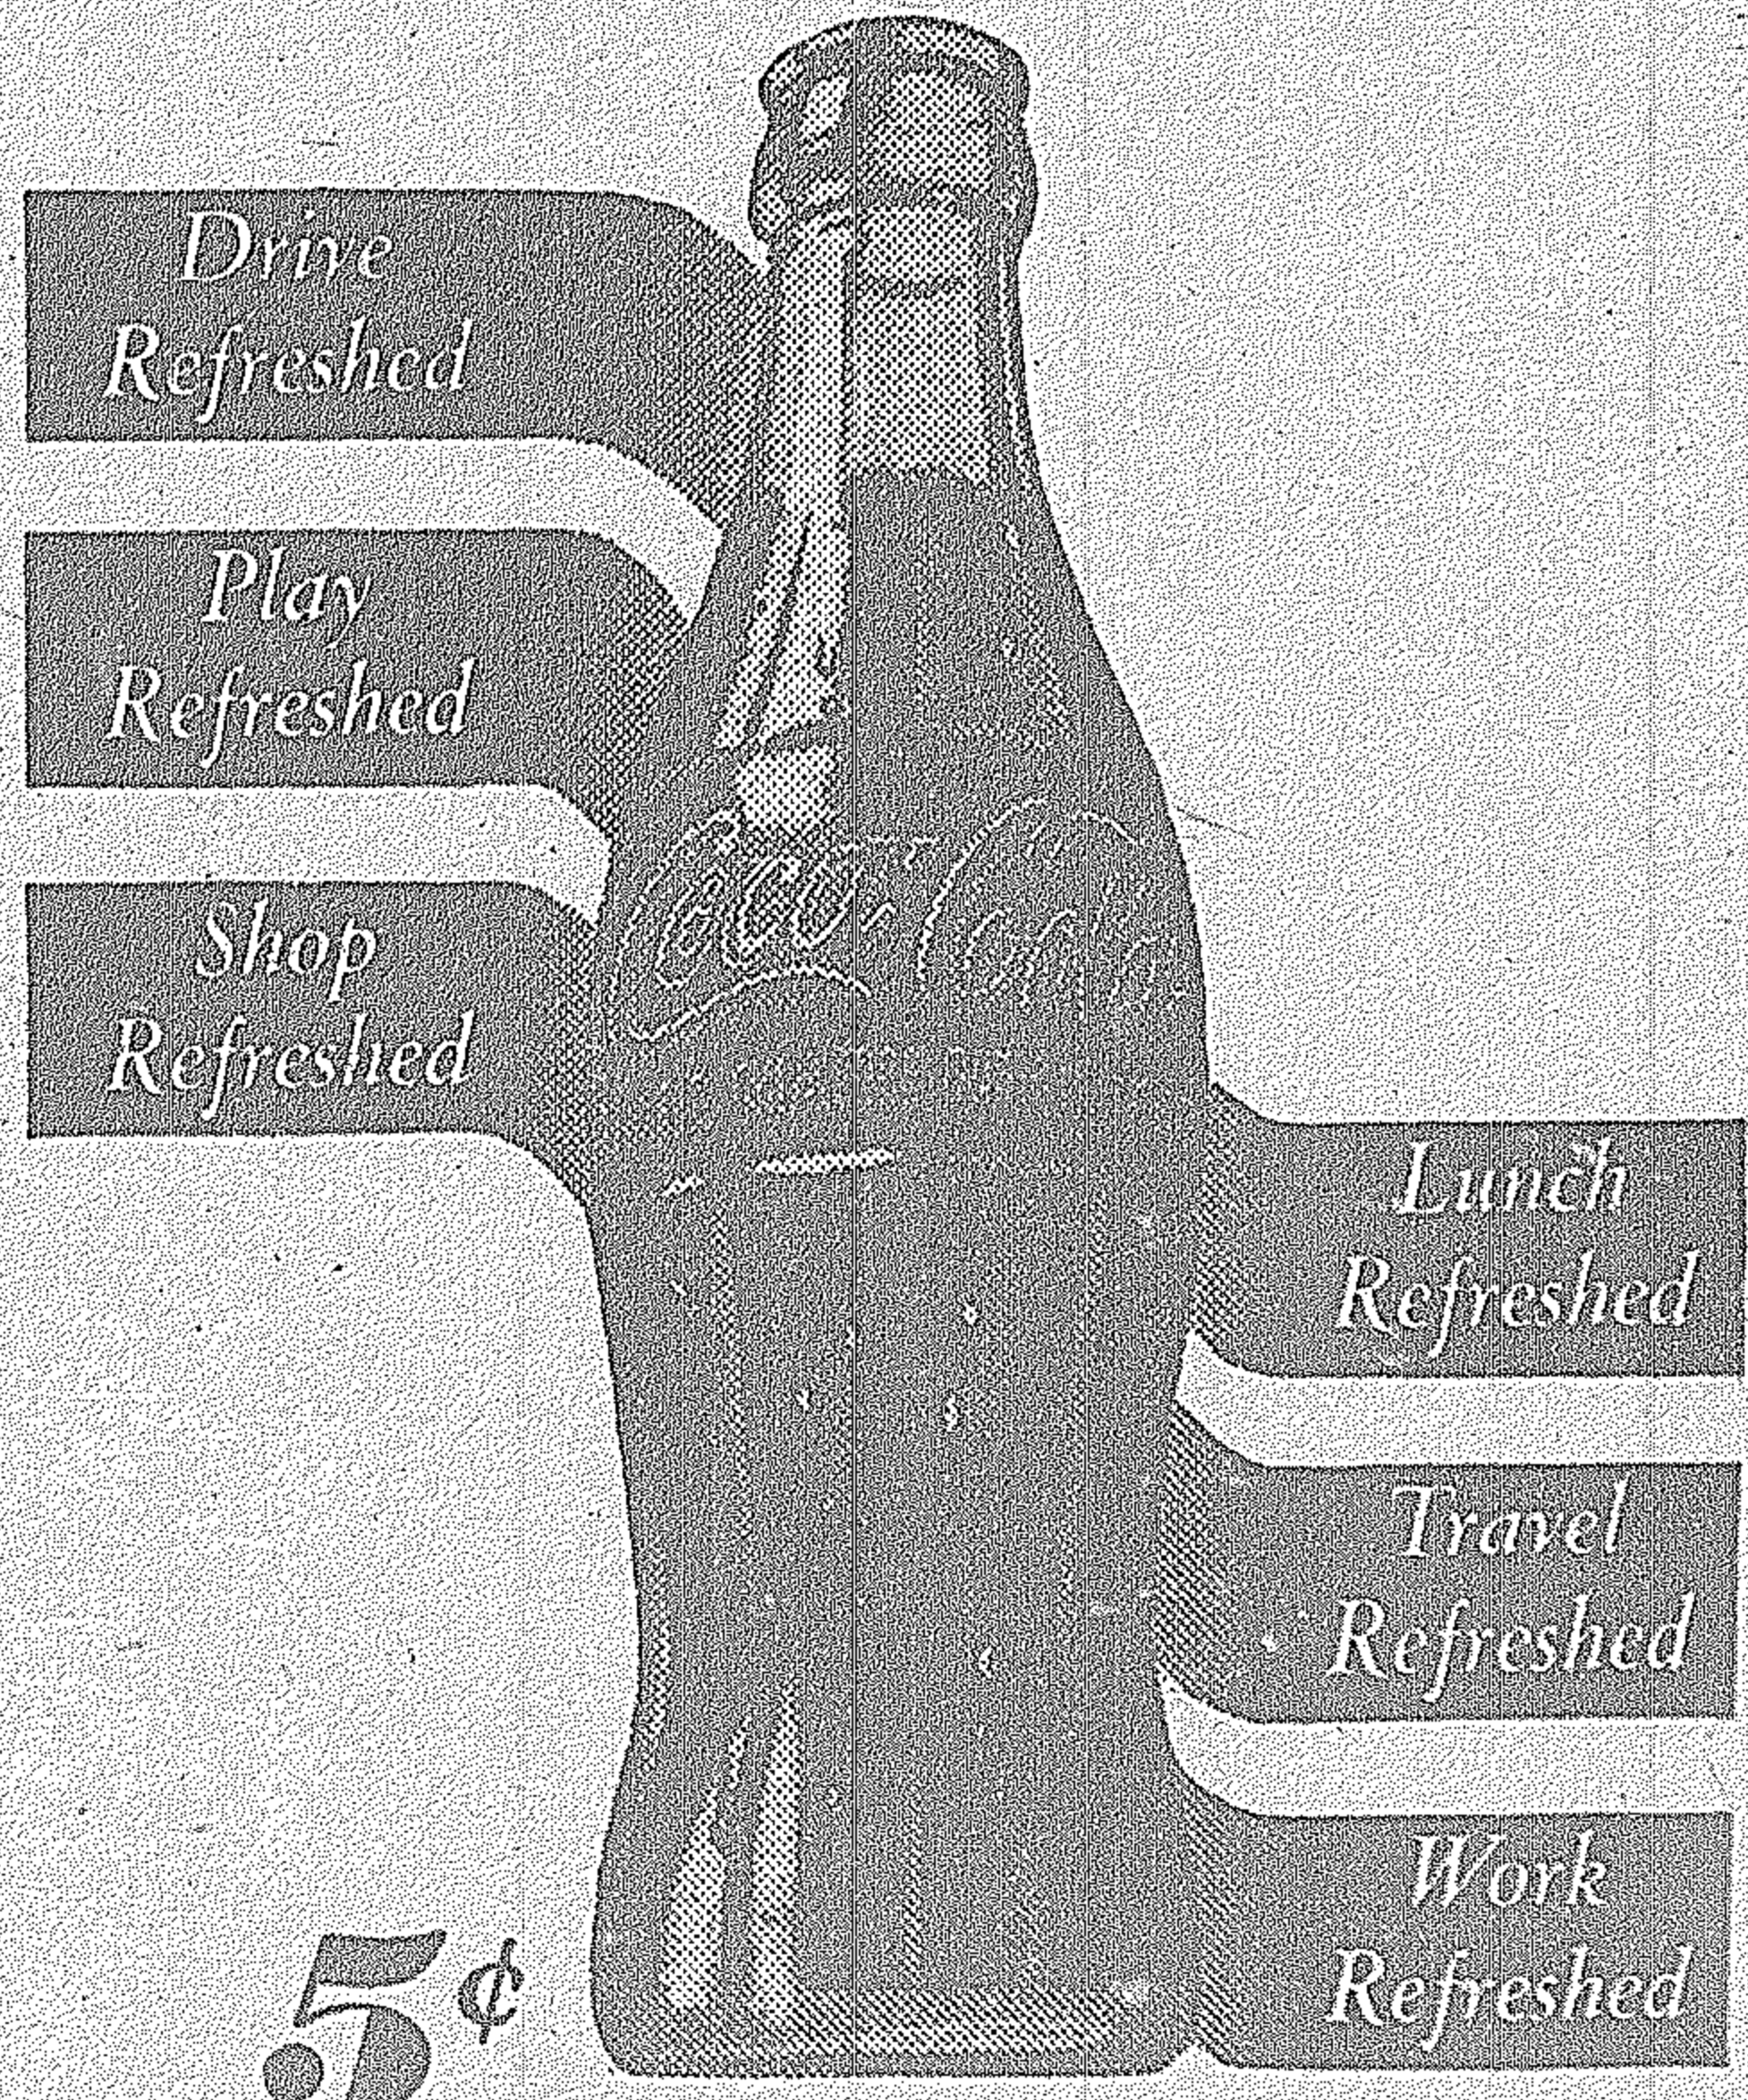

These buildings are more than brick, mortar and telephone equipment. They are jobs for thousands of men and women . . . more and better telephone service for millions of people . . . more business for the towns and cities in which they are located.

But most important of all, they are an indication of the Bell System's earnest efforts to keep up with the nation's ever growing needs for communications service.

Triangle takes lead in IF bowling meet

By Sherwood Benson

After scorching the maples with a record four game score of 3234, Triangle fraternity will lead 12 teams into the final round of the Interfraternity bowling tournament when they take to the alleys Sunday at the Dearborn Recreation Center.

The men of Triangle were really hitting on "all six" and a little slide rule manipulation breaks the team's 808.5 single game average into a tally of 162 pins per man. This is high class kegling (watch out classic league) for any amateur squad.

Alpha Sigma Phi heads into the finale as the chief menace to Triangle's title aspirations. The Alpha Sigs sport a 3158 pin total and are a scant 76 pins behind the Engineers. Holding third place and still a title possibility are the defending champion Daedalians, who are 110 pins off the pace.

The Triangle team composed of Jim Gaffney, Bill Felas, Dick Skulski, Dave Pasik, Gene Rezabek and alternate, Charlie Angermay-

er rolled up the high team game with an amazing 899.

Skulski scored the individual high game with 205.

Ably aiding Skulski in the record series were Gaffney and Angermayer. Angermayer took the place of Pasik, who was incapacitated after the first line due to a bleeding thumb.

As a result of their rather torrid bowling, the Triangles now have two legs on the trophy and, despite the proximity of the runner-up teams, they must be conceded the best chance for the title. Past records show that high bowling averages run in streaks and, at the moment, the Triangle Keglers are riding the crest of a hot streak.

The Daedalians, although now in third place, also have two legs on the trophy and rate as a dark horse.

Tech nine hies pace for opener

With less than three weeks remaining before the beginning of the 1949 Techawk baseball season, Coach Ed Glancy has stepped up the tempo of the team's practice sessions.

Although the "big ditch" across Ogden field has restricted the team's activities to "Pillar Palace," Glancy has been putting his recruits through bunting and pitching drills.

"Big Ed" is anxious to take the team outdoors so he can get a real look at the material that he will have on hand for the coming season. He plans to keep about 18 men, six of whom will be pitchers.

Glancy has been especially pleased with the early season form displayed by Roy Veitch, diminutive hurler. Infielders Bob McCue and Ray Carlson are also looking better than average in these early workouts.

TRACK

(continued from Page 6)

SUMMARIES:

MILE: Brown (W), Hutchinson (W), Durand (IIT), 4:39.5
70-YD. DASH: Coleman (W), Wright (W), Baumgartner (IIT), :07.0
440-YD. RUN: Greenberg (W), White (W), Voightmann (IIT), :51.6
70-YD. H. H.: Williams (W), Gobold (W), Carter (W), :09.0
880-YD. RUN: Sauer (IIT), Dykema (IIT), Palkowski (W), 2:01.5
70-YD. L. H.: Wingo (W), Williams (W), Cox (IIT), :08.0
2-MILE: Brown (W), Ashurst (IIT), Kohler (IIT), 10:17.0
220-YD. Run: Wright (W), Wingo (W), Baumgartner (IIT), :23.0
POLE VAULT: Foley (W), Gautier (IIT), Carter (W), 12'0"
HIGH JUMP: Cox (IIT) Foley (W), Conniff (IIT) and Wright (W), 5'8"
SHOT PUT: Waha (W), Yabiro (IIT), Williams (W), 42'10"
BROAD JUMP: Carter (W), Cox (IIT), Gobold (W), 21'1 1/2"

LOCAL MAN MAKES GOOD SENSE!

CHICAGO, Mar. 25

For seventeen years, George Doakes has been shaving daily—even as you and I. He's tried 'em all—razor blades, we mean. Some were better than others, but none did what the ads said until—but here's his story:

"Saw a man in the Pullman using Pal Hollow Ground. He looked happy. I asked about 'em. He lent me one. And I've shaved happily ever after!"

You don't have to travel to try Pal Hollow Ground. Say Pal Double Edge or Single Edge at your local store. You still get 4 blades for 10¢, 10 for 25¢, 21 for 49¢, 44 for 98¢. Join the millions who swear by Pal Hollow Ground.

Sport Shots

By Bob Walsh

The IIT Chess club defeated both the Pier Illini and the Hawthorne Chess club Friday, 4-2 and 4 1/2-1 1/2, respectively. The team will engage the Chess and Checker club of Chicago on the Chicago club home boards tomorrow night.

At present the Chess club holds a very favorable position in the All-Chicago tournament which is in progress all year long.

Two chess tournaments are about to get underway for Tech students. There will be a class "B" tourney for advanced players, and an all-school tourney for seeded players.

The rifle team will shoot it out with Iowa State university and the University of Nevada this week. Len Druian was elected captain of the team at a meeting held Tuesday.

Details of the Junior Week softball tournament will be announced in the near future.

Alpha Sigma Phi and Triangle moved into a tie for first place in the IF ping-pong tournament by downing Sigma Alpha Mu and Tau Epsilon Phi by the identical scores of 3-2.

The Sammys crumbled before the determined comeback of the Alpha Sigs, who came from behind three times to take their second straight victory.

Rog Kraftt and George Hottinger pulled the deciding doubles game out of the fire by winning the fifth game, 22-20, after trailing Marty Friend and Mort Peltzman, 16-19.

Triangle, led by Fred Maxin, upset the defending champion Teps in another close match.

Frosh plan mixer April 2

If only one of the arrangements for the April 2 frosh mixer, "IIT's a Poppin'", is completed, the success of the dance is virtually assured. Social chairman Connie Olson boldly claims she has marshalled 200 women from Northwestern to attend the dance which will be held in the NU auditorium. All that worries her now is providing partners for them all.

Backing this up, the freshman sponsors have secured a five piece combo for the music and are planning a number of skits to fill the intermission time.

CAMPUS CAPERS LAFF 'N LEARN

JOHNNY DIRECTS MELVIN TOWARD A DITHYRAMBIC TRIUMPH!

THAT'S MEL, THE CLASS POET—IN ONE OF HIS FRENETIC MOODS

IF YOU SKITTERING HENS DON'T ABSQUATULATE YOU! I'LL MACERATE YOU!

I DON'T MEAN TO EXPOSTULATE, BUT EVEN IF YOU ARE SALUTATORIAN YOU'RE GETTING MEANER EVERY DAY

I CAN'T HELP IT—TRYING TO BEAT OUT THIS ELEUSINIAN RAPTURE AND SMOKING TILL MY THROAT FEELS RAW AND RASPY

O-O CIGARETTE HANGOVER

MEL, YOU'VE GOT CIGARETTE HANGOVER YOU OWE IT TO YOURSELF TO CHANGE TO PHILIP MORRIS, THE ONE CIGARETTE PROVED DEFINITELY LESS IRRITATING!

PLEASE DO, MEL

TIME AND PHILIP MORRIS WORK WONDERS

THIS CLASS ODE IS REALLY GOING GREAT GUNS, VI, THANKS TO YOU AND JOHNNY

QUIET EVERYBODY—MEL'S GOING TO READ US A POEM—THE CLASS ODE MAYBE

Come tune the string—and let us sing a clear triumphant chorus—
The cigarette, the finest yet is that called Philip Morris!
— WAIT THAT'S THE WRONG ODE...

OKAY—I'LL TRY ANYTHING ONCE

THANKS TO PHILIP MORRIS YOU MEAN, MY GOOD PENTAMETRIST!

BUT THE RIGHT DENOUEMENT... YOU'VE 'ODE' A LOT TO PHILIP MORRIS!

I mourn, alas! we graduate—and so incontinently shatter the finest class in any state—and that's no laughing matter

EXCELLENT, MELVIN, EXCELLENT!

HE'S MY FAVORITE POET—YOU TAKE A BOW, TOO, JOHNNY!

Use These Words with Tongue-in-Cheek!
(Plan to use one every week!)

ABSQUATULATE (ab-squat-u-late)—To scream.

CIGARETTE HANGOVER (don't pronounce it, but please don't ignore it)—That stale smoked-out taste, that tight dry feeling in your throat due to smoking.

DENOUEMENT (day-noo-ment)—The final wind-up.

DITHYRAMBIC (dith-ee-ram-bik)—Ecstatic.

ELEUSINIAN (ee-lay-sin-ee-an) — From Eleusis, where Greek orgies took place.

EXPOSTULATE (eks-poh-stew-late)—To remonstrate.

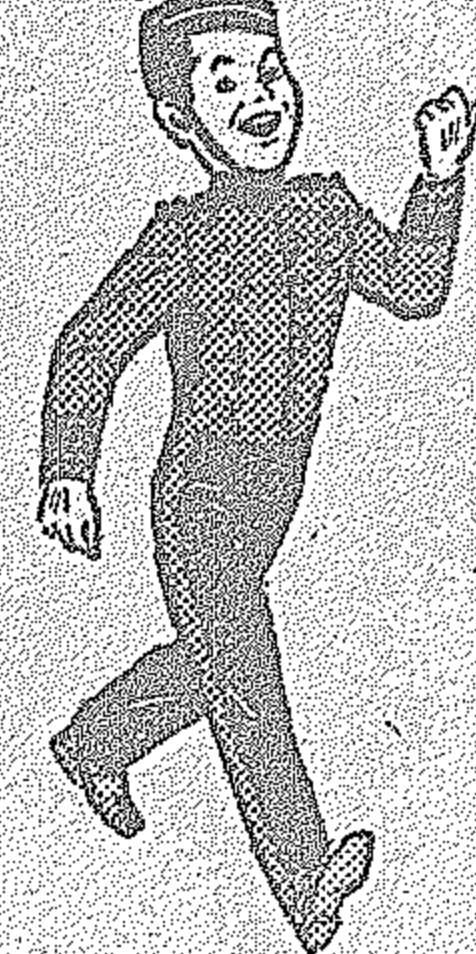

FRENETIC (fren-eh-ik)—Frenzied.

INCONTINENTLY (in-con-tin-ent-lee)—Without control.

MACERATE (mass-er-ate)—Chew up.

PENTAMETRIST (pen-tam-eh-rist)—Devotee of pentameter, a popular poetic meter.

SALUTATORIAN (sal-ut-eh-for-yan) — One who pays official tribute.

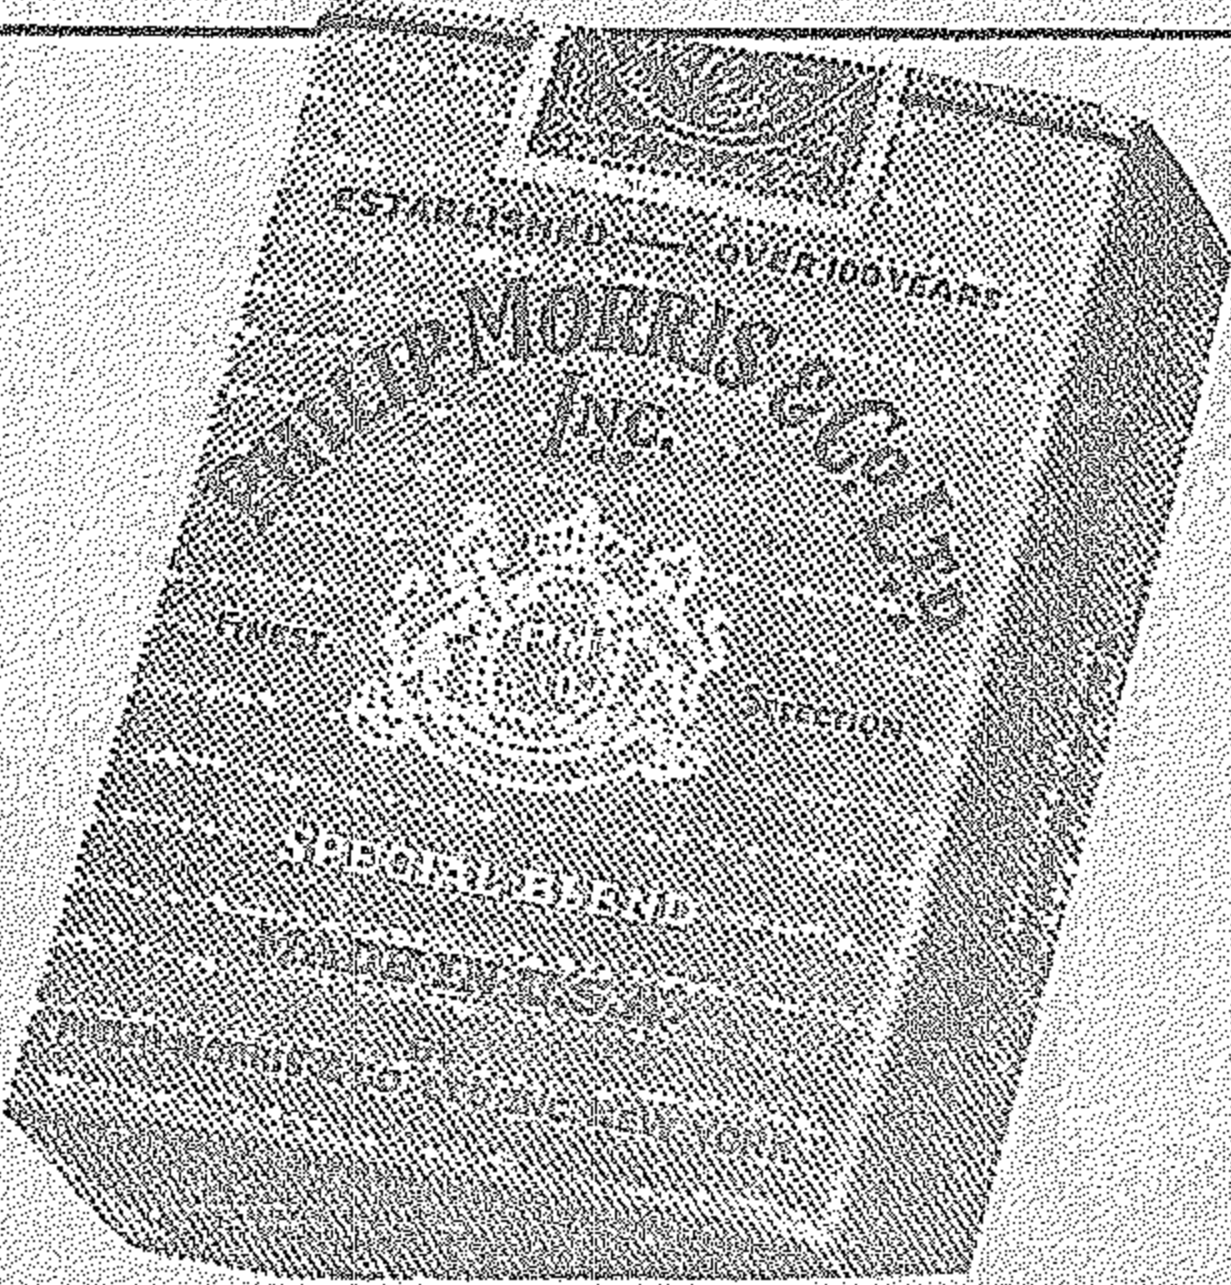

All good stories point a moral:

Behind our playful plot, our intentions are serious: we want you to discover for yourself the welcome DIFFERENCE in cigarettes that PHILIP MORRIS can bring you.

Established PROOF of that difference is too extensive to be detailed here—but pre-medical and chemistry students, who will be especially interested can get it in published form FREE, by writing our Research Dept., Philip Morris Co., 119 Fifth Ave., N. Y.

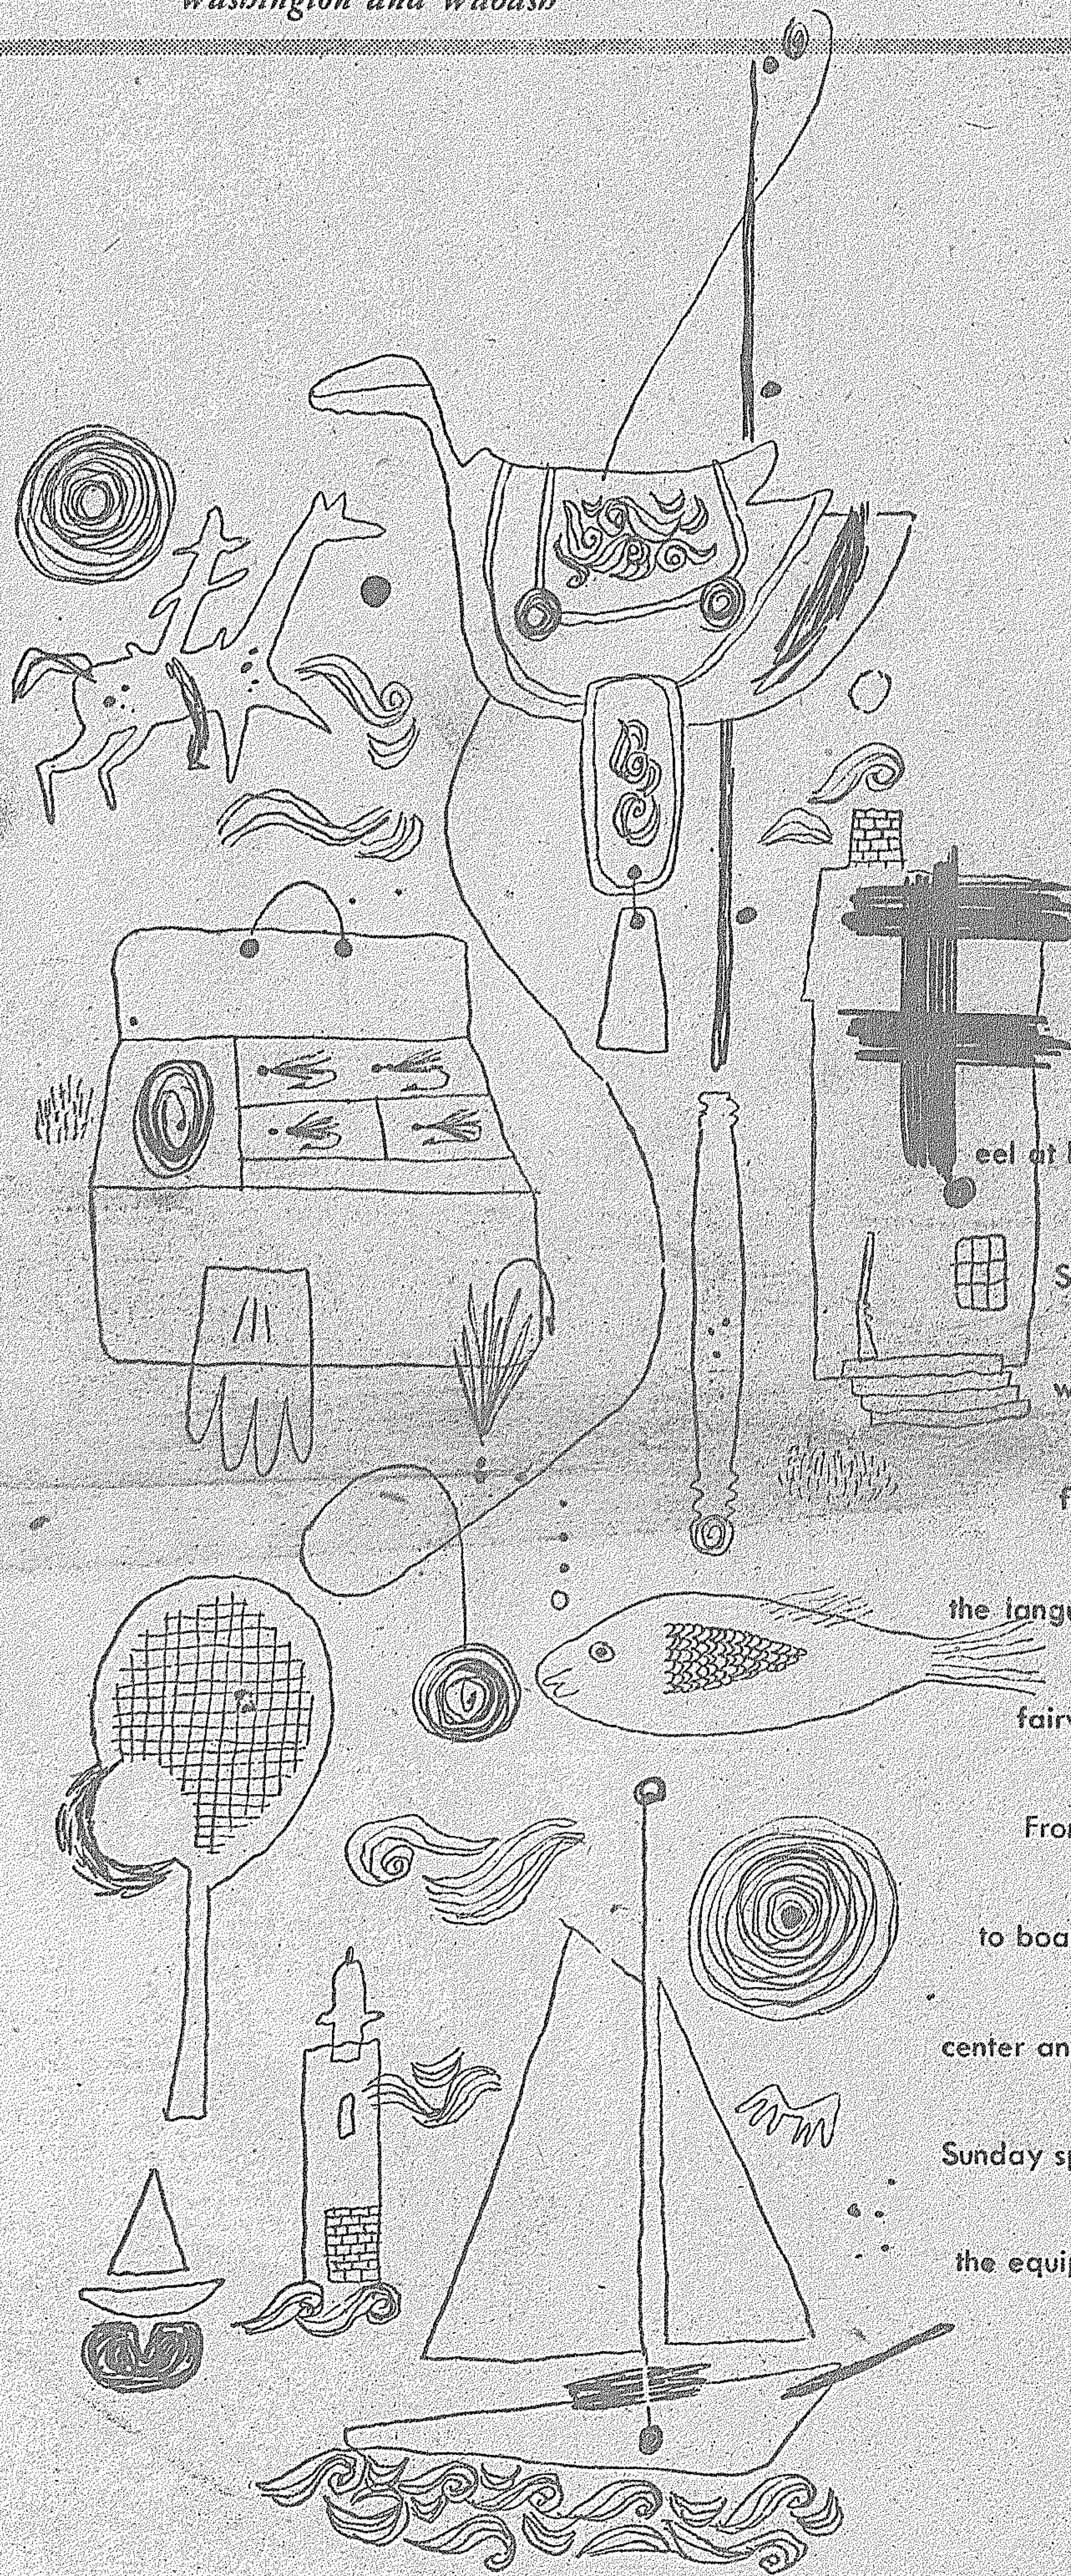

CALL FOR PHILIP MORRIS

THE STORE FOR MEN MARSHALL FIELD & COMPANY

Washington and Wabash

Store Hours, 9:15 to 5:45

Feel at home on the Sportsman's Floor—the Fifth Floor,
 Store for Men. One trip brings out the outdoor man or
 woman in you . . . for here are flies to lure the
 fisherman as surely as the trout . . . guns that speak
 the language of hunter or marksman . . . irons that sing of the
 fairways . . . rackets that set you to testing your backhand.
 From riding clothes to hand-tooled saddles, from bobbers
 to boats, this is your research headquarters, information
 center and shopping source. Even if you're strictly a
 Sunday sportsman, you'll find here the clothes and
 the equipment to make your sport more fun.
