

Camras Scholars Website

Jocelyn Wong, Jovany Melchor, Hazim Zainedin, Hayley Robbins, Kathrine Wrobel, Pooja Patel

Goals

An updated website that can be regularly updated

Showcase Camras Program

CSP Website Team Goal:

To design/implement a dynamic website for current and prospective to actively reference for consistent updates and information.

Current Camras Websites:

1. MAIN:

<https://www.iit.edu/admissions-aid/tuition-and-aid/scholarships/first-year-student-scholarships/camras-scholars-program>

2. MENTIONED:

<https://www.iit.edu/admissions-aid/tuition-and-aid/scholarships/first-year-student-scholarships>

Inspirational Websites from Other Scholarships:

- **Leadership Academy**
 - [Leadership Academy's Page of Current Scholars](#)
 - [Leadership Academy's Staff Page](#)
- [Example Standalone Website - Brooke Owens Fellowship](#)

Specific Goals:

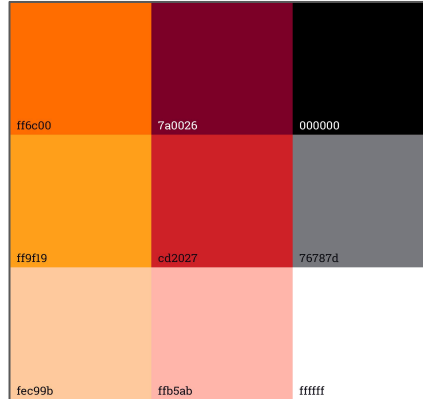

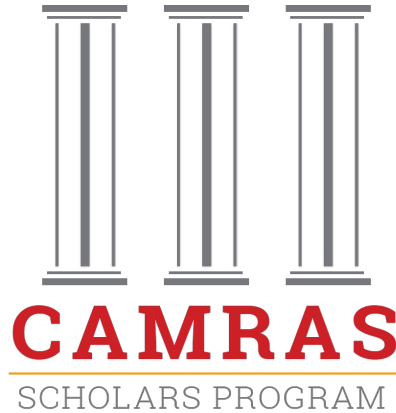

- Updating the existing website page by reviewing common questions and providing more context about the program/scholarship.
- Creating a full sub-page/sub-domain geared towards our student-run program to update with news and events, especially to have a dedicated place to host Scholarship Symposium content.
- Link = /camras-program/camras-scholars/first-last name
- **Final Goal For Main Page:** <https://www.iit.edu/esports>
 - **Final Goal for scholar pages:**
 - <https://www.iit.edu/leadership-studies/ma-and-lila-self-leadership-academy/scholars/current-scholars/naia-lum>
 - **Final Goal for Scholar List:**
 - <https://www.brookeowensfellowship.org/our-team/>
 - <https://www.iit.edu/leadership-studies/ma-and-lila-self-leadership-academy/scholars/current-scholars>

Extension of Goal

Became about the representation
of Camras Scholars

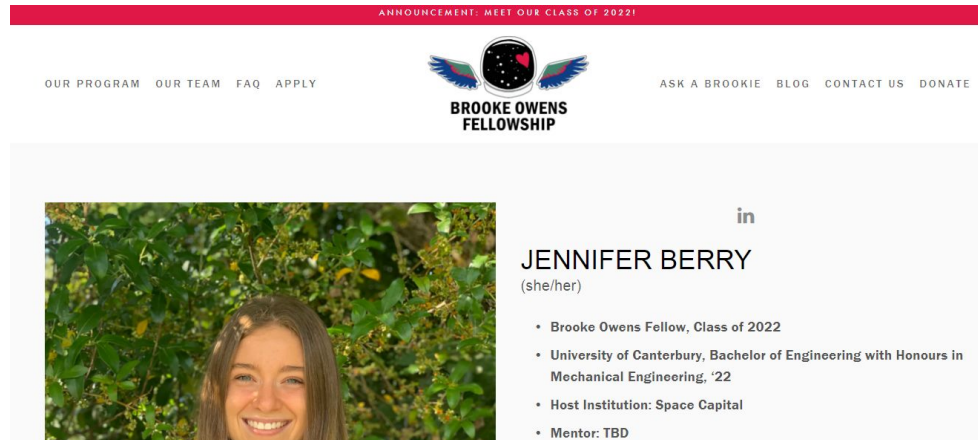

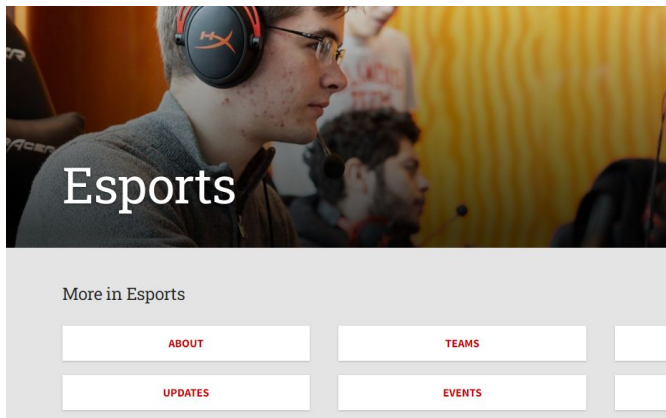

Consistent Social Media

Up to Date Information - how to
keep consistent?

Annual Camras Website Information

Hello Fellow Camras Scholar!

The Camras Website Committee is designing a new website for our Scholarship Program to further connect our members to the professional word. In strides to make our scholars more marketable we are asking you provide us with your information to be put on the website.

The information will be displayed with your picture alongside you bio/info.

IMPORTANT: If you do not send a picture - you will NOT be on the website. We respect and are aware of certain peoples' wishes to not have their face on a public website. However, you will also be forfeiting the opportunity to have a space on the website if you decide to not upload a picture.

* Required

What is your official name? (Firstname & Lastname)

.....

Anticipated Graduation Year

Crown Scholarship

Duchossois Leadership Scholars
Program

Illinois Tech Esports Scholarship

Illinois Tech FIRST Scholarship

Illinois Tech NROTC Preparatory
Scholarship

Illinois Tech VEX Robotics
Scholarship

Deadline: November 15 (Apply via Early Decision I or Early Action I)

No separate application required.

Illinois Tech's Camras Scholars program is looking for who's next. Named for Marvin Camras (EE '40, M.S. '42), a pioneer in magnetic recording technology, Camras scholars have solved age-old problems in structural engineering, developed novel methods for improving campus life, and increased the overall academic ethic and social ethic of their fellow students. The group's mission is to help its members achieve their personal and professional goals, while promoting excellence in groundbreaking and innovative research, social and entrepreneurial leadership, and service to the Illinois Tech community and the world as a whole. Of all students who apply to Illinois Tech, less than 1 percent are selected to be Camras Scholars.

The interprofessional spirit at Illinois Tech makes for more than just good engineers, scientists, architects, and others. It challenges our students to go beyond their fields of study and see the rest of the world—and the Camras scholars are no exception.

Scholarship Benefits

- **Full-tuition based on the tuition rates of the student's first year.** The same amount is awarded each

Application Timeline

November 15	Students must submit their completed Common Application along with test scores (optional), transcripts, and one letter of recommendation
Late December	Camras semi-finalists are notified and invited to Scholarship Symposium to participate in a roundtable discussion taking place in early February
Early February	Camras semi-finalists will attend Scholarship Symposium and participate in a roundtable discussion group, led by Illinois Tech faculty
Late February	Camras Scholarship recipients will be notified of their selection
May 1	Decision deadline to accept Camras Scholarship and confirm enrollment to Illinois Tech

Roundtable Discussion Details

Students will be placed into small groups (5-7 students) separated by major. (Majors with lower numbers may need to be combined into a common theme.)

A two-part interview will take place:

- **Part 1:** Leadership questions—Students will be asked questions about their own personal philosophy of leadership, lessons they've learned about leadership from past experiences, and ways they hope to contribute to Illinois Tech as campus leaders.
- **Part 2:** Major-related discussion—Students will engage in a discussion about current topics/issues related to their academic majors. This portion is designed by Illinois Tech faculty and students are notified of their discussion topics ahead of time to allow them to prepare.

Additional Information

The Camras Scholarship cannot be combined with other Illinois Tech merit scholarships such as Elevate, Heald, FIRST Robotics, VEX Robotics, Duchossois, Crown, Leadership Academy, Chicago Police and Fire, Collens, and more. If a student earns multiple Illinois Tech merit scholarships throughout the admission process, the university will award the highest merit award for which the student is qualified but will not combine multiple awards.

The Camras Scholarship covers tuition costs for the bachelor's degree program only. If a student chooses to pursue an accelerated master's degree at Illinois Tech, they can apply their original Heald Scholarship award towards their tuition for graduate-level courses at the undergraduate tuition rate.

If you are awarded the Camras Scholarship and the Illinois MAP Grant: The Camras Scholarship is restricted to tuition charges only and the Illinois MAP Grant is restricted to tuition and **mandatory** fee charges. For this reason, the total of the two awards cannot exceed the total of tuition charges, activity fees, and student service fees. Moreover, the Camras Scholarship cannot exceed the total value of tuition charges from the first year the scholar attends Illinois Tech.

What is the Camras Scholars Program?

What is the Camras Scholars Program?

The Camras Scholars Program (CSP) is a student-led organization here on campus that oversees and runs the program for current and alumni Camras scholars. Currently, over 150+ currently enrolled students in all majors and disciplines make up the Camras Scholars body, alongside a vast network of alumni around the world.

What's Next?

At a standstill - lost communications with Luis

Need to organize Camras headshots+information to submit to M/C

Continue to improve Scholar representation - blurred line between student-led program vs. university-run

Continue to build robust Alumni network
