

**Colors:**—Silver and Gold.

**Yell:**—Nickle! Nickle!

That'll cost you a nickle.

**Motto:**—Many a nickle makes a muckle.

As stated in the constitution, this club was organized for the sole purpose of the purification of the English language as it is spoken. The fundamental idea being to emphasize the wrong in using profanity, it was agreed to enforce the payment of a nickle per indulgence by the party enjoying the luxury, to his associate. The club originated within the class of '99 but inasmuch as the general membership did not wish to be hampered by its requirements, it was not generally accepted. It is said that the cause of three of the present members joining was their connection as business managers with our three most famous student associations. They wished to counteract the influences to which these offices subject them. A study of the appended data will be instructive in this connection. It is rumored that one member was so shocked to hear himself swear when one of his boilers broke, that he immediately applied for membership and has not indulged since. It is further rumored that his fellow Delta has been looking for him with an axe.

#### THE DICKENS.
