This building, now being erected on West Water Street, covering the entire block between Randolph and Lake Streets, with 175,000 square feet of floor space, will be occupied by Kelley, Maus & Co., on or about May 1, 1903. It will have railroad trackage on the west side, and river wharfage on the east side, the entire length of the building, giving us the benefit of both lake and rail freights, loading and unloading right at our door.
