

Correspondence Instruction

...IN... Engineering

The American School of Correspondence, formerly of Boston, offers the following courses, conducted by mail :

Electrical, Mechanical, Civil, Locomotive, Stationary, Sanitary,

Marine and Textile Engineering ; Architecture, Mechanical and Perspective Drawing ; Sheet Metal Pattern Drafting ; Telegraphy, Telephony and Refrigeration ; also forty short special courses.

The courses offered are not intended to replace resident school work, but to put within the reach of young men who have been deprived of college instruction, a course of technical training of superior merit. The school also offers its courses to Armour Institute students when they are compelled to remain out of school for any period with the expectation of returning to their classes.

Partial preparation may be made by correspondence work for entrance to the Freshman Class of the College of Engineering.

Full information and catalogue upon request.
