## TECHNICAL INSTRUCTION

BY CORRESPONDENCE

THE American School of Correspondence offers instruction by correspondence under the direction of teachers of acknowledged standing. The following courses are offered in

## ENGINEERING

Mechanical	Marine	Civil	Mechanical Drawing	Telegraphy
Electrical	Locomotive	Structural	Prospective Drawing	Telephony
Stationary	Sanitary	Architecture	Textiles	Navigation

**College Preparatory Course.** This course practically covers the work of the Scientific Academy of Armour Institute of Technology, and is accepted as fulfilling the requirements for entrance to the College of Engineering of that institution.

The courses are in no way intended to replace resident school courses, but to offer ambitious young men who have not the means or time to attend a resident school an opportunity for self-improvement under the guidance of thoroughly competent instructors. The instruction papers have been prepared especially for home study by well-known educators and experts. Among these are

PROF. F. B. CROCKER, Columbia University	PROF. A. E. PHILLIPS, Armour Institute of Technology
PROF. F. E. TURNEAURE, University of Wisconsin	PROF. A. MARSTON, Iowa State College
PROF. WM. ESTY, Lehigh University	PROF. W. L. WEBB, formerly University of Pennsylvania
PROF. W. H. LAWRENCE, Mass. Institute of Technology	PROF. C. L. GRIFFIN, formerly Pennsylvania State College
	D. A. GREGG, Boston
