

The Radical Opera

SINCE the Radical Opera is well described on pages 151-157 of this book, no further description is necessary here.

The '06 Radics

THE '06 Radics have executed so many live stunts, and have held up their end of the joyous Armour life so well, that some mention of them is not out of place, although a detailed account is not necessary. They have smoked at Hiller's, Ellett's, Levings' and Pierce's in the last year and dined at the College Inn and the Baltimore besides attending the regular Radic functions in a body. "If you want a thing well done, let the '06 Radics do it."
