

Armour's Shaving Stick

Means—first of all—a comfortable shave. Don't blame your razor—prove that “a good lather is half the shave” by trying any high-class toilet soap for shaving.

There are lots of soaps that make a creamy lather—what YOU want is a soap that will give you an easy shave.

Then—if you “forgot” to get your razor honed—or don't know how to strop your razor—it won't make so much difference.

Just say “Armour's Shaving Stick” and get the “kind that makes shaving easy.”
