"Rosy," as he is familiarly known, is quite some fusser, and his shirt front usually glitters with some fair one's sorority pin. He first stepped into the limelight club when he elucidated on the "Recent Increase in the Red Tie Industry" at the Radic banquet.

"Fish" was a nice little fellow in knee pants when he went to A. S. A., but he certainly turned a few tricks since. He is a track team rooter of fame, accompanying last year's team to Monmouth, and not only rooted hard, but saved our team from the very jaws of the Monmouth mob.

Here we have another man with two N's at the end of his name. Hence we trace his Irish ancestry. He "grad-oo-eighted" from Wendell Phillips High School and immediately was seized by the Y. M. C. A. spirit at Armour, being the Vice-President for the past year.
