

HARRY J. ROGERS

E. E.
Born, October 30, 1883, Beloit, Wis.
Phi Kappa Sigma.
Radical X. Manager and Member of Track Team, '07-'08-'09-'10. Class Bowling Team, '06-'07-'08-'09. Social Committee, '08-'09.

Here's old "Dogde," one of the best men that ever registered at Armour. What will the track team do when he leaves us, after standing by us for four years. H. J. is a bundle of good nature and his every-ready smile is more welcome than the signs of spring.

HENRY I. ROSENTHAL

E. E.
Hydro-electric Development on Snake River at Ox Bow Bend, Idaho.
Born, July 26, 1889, Chicago, Ill.
Prepared at South Division High School, and Wendell Phillips High School.
A. I. E. E.

Rosenthal is the blushing beauty of the class. When he starts to talk he also starts to blush, and acts so bashful, but holy smokes just listen to some of his stories in the Engineer-inb Club. Well it's no wonder he blushes.

E. M. RUEDE

E. E.
Distribution of Potential in Suspension Type Insulators.
Born, January 24, 1890, Abilene, Kansas.
Prepared Kansas State Agricultural College, 1909.
A. I. E. E.

This little sunflower has only been with us a short time and we have had to overlook the greatest of all his shortcomings. It is a shame to mention it, but maybe he wasn't to blame that he was born in Kansas; so be merciful and don't kick a man when he is down.

EDWARD S. SHERWIN

E. E.
Raton Mountain Electrification Project, A. T. & S. F. R. R.
Born, May 6, 1889, Chicago, Ill.
Prepared at Waukegan High School.
Eta Kappa Nu. A. I. E. E.

Sherwin is another of those good natured electricals. Just now, in cahoots with Bill Bailey, he is trying to slip one over the A. T. & S. F. R. R. Sherwin is one of those fellows commonly known among the students as a "star," and this is evidenced by the fact that he is chairman of the A. I. E. E. Unless we are greatly mistaken, Shewin will probably be president of some coast to coast electric line a few years hence.
