

The Simeon B. Chapin Club is now in its third year and it is still the popular gathering place of the students of the Institute. There is one thing necessary to an engineering student aside from study. That is recreation. The Chapin Club furnishes recreation of various kinds. There are many kinds of games in the rooms and the Club subscribes to a number of the popular magazines and to most of the scientific periodicals. Since the advent of the new billiard table last fall, the magazines and various games have been used less than before. The table was the gift of Mr. Simeon B. Chapin. He could have presented the club with nothing better. The table is in use continually and the players have to take their turns. A nominal fee per hour is charged for the use of the table and the money goes to the up-keep of the Club and table.

*"Little things worry little minds."*
