Fenton is the kind of man whom we like to consider typical of Armour, a man who is equally at home in a construction camp and in a drawing room, a gentleman and a real man.

Lake Technical High School Chicago, '10.

A. C. E. S.; Y. M. C. A. (President), '13; Class Baseball '10-'12; Class Basketball, '12-'13.

"Gaby" Boetter is well known as president of the Y. M. C. A., in which position he did notable work, and also as the star guard on the class basketball team. But beyond this he is a hard worker and a good student.

MATTHEW JOHN FLEMING

Street Pavement for Rushville, Illinois.

Born November 7, 1889, at Wilmot, Wisconsin.

Holdrege High School, '09.

Tau Beta Pi; A. C. E. S. (Cor. Sec.); Y. M. C. A.

"Matt" seems able to understand and enjoy anything he tackles; for instance, he studies and actually seems to enjoy alternating currents. "Pod" is also a regular tango shark and seldom lets a week pass without several night's practice.

ARTHUR A. HEEREN

Design of Water Power Installation at Duck Creek Chain of the Rock Island Rapids of the Mississippi River.

Born January, 1893, at Chicago, Illinois.

Englewood High School, Chicago, '10.

A. C. E. S.

"Art" should make a good engineer as he is well fitted for the profession in all ways. His husky frame will stand all hardships easily and his disposition will keep work from becoming too hard and tedious.

CHARLES ABBOTT DEAN

"Ches" is one of the leaders of the Civils and invariably has his work in a little ahead of the time set but absolutely refuses to take any credit for extra ability. "Ches" is also a regular attendant at all dances and other social functions.
