The Sphinx Society is an honorary as well as a social and business body. It was organized to obtain cooperation between the publications at Armour Institute of Technology, namely the Fulcrum, the Armour Engineer and the Integral, at present the CYCLE. The executive heads of each publication are members by virtue of office. There are also two faculty members ex officio. At the end of each year some of the men who have served at least a year on one of the college publications are picked for membership. The Sphinx is the controlling literary body of the Institute.
