

“AGATHON” is a Greek word for quality—it was chosen as our trade mark because it exemplifies the best of everything.

Our buildings are the most modern and all the equipment of the latest design and highest efficiency.

Every known improvement in advanced steel plant construction has been provided.

We have backed up our facilities with the best ability—every man from the General Superintendent down is of mature experience.

Our raw materials are selected for quality—we must have the best.

We have set up a high standard—“AGATHON” is the word that will insure you of this. “AGATHON” guarantees your satisfaction.
