

JOHN POMEROY SANGER

Born April 4, 1900, Evansville, Ind.  
Nicholas Senn High School, Chicago.

"The Relative Cost of Operating Steam and Electric Locomotives for Switching Purposes on the St. Paul R. R. Industry Tracks."

T. B. H.; A. S. M. E.; Sphinx; Glee Club, 1919-20; Cycle Representative, 1917-18; Secretary Sophomore and Junior Classes 1918-20; Vice-President Senior Class, 1920-21; Vice-President A. S. M. E., 1920-21; Cheer Leader Class of 1921; Local Editor 1920 "Cycle"; Editor-in-Chief "Armour Engineer," 1920-21.

John has always been among the most active men in his class. Apparently he has no special hobby, other than to succeed in all his undertakings, for his name appears in connection with practically all school activities. As a student he has always been at the top of the list, and we doubt if the Glee Club could have gotten along without him.

His winsome personality, which makes friends for him wherever he goes, and his success as an executive, as shown by his work in connection with the "Engineer," should make for him a niche in the Hall of Fame.

ALBERT JOHN STEINER

Born June 27, 1905, Hungary.

"Thermostatic Water Jacket Control of a Gas Engine."

Ohr, A. S. M. E.

Al's pleasing personality and readiness to be of service, has won for him many friends—in the true sense of the word. His industry has been proven, since, in addition to his school work, he superintends the electrical effects of Chicago's leading theatre. His ability to make minutes count, will assure his success in his chosen profession.
